MEDICAL

Simla, the 27th June 1893

No 341 —The services of Surgeon Captain C L Williams, M D, I M S (Madras), are replaced at the disposal of the Government of Madras

The 30th June 1893

No 356 —The services of Surgeon Captain J W Wolfe I M S (Bengal), are placed temporarily at the disposal of the Chief Commissioner of Burma

No 358 —The services of Surgeon Captain H R C Barber, I M S (Bengal), are placed temporarily at the disposal of the Government of the Punjab

SANITARY

The 29th June, 1893

No 107 —The following Rules for Quarantine against cholera, which have been made by the Bombay Government in exercise of the power conferred by Section I, Act I of 1870, with the previous sanction of the Governor General in Council, are published for general information

The Rules have effect from the 14th June 1893, as a temporary measure, in the ports of Aden, Perim, and the Somâli Coast

I.—The Commander of every vessel, including buggalows or other native craft, arriving from the ports of the Hedjaz and Yemen as far as Babelmandeb and from Bussorah, Fao and Muhamrah, shall, before entering the harbour, indicate by signal the port from which such vessel has come

II.—Such Commander shall not, except as hereinafter provided, allow any communication, either with the pilot boat, except orally, or with the shore or with any other vessel or boat in the harbour

III.—Immediately on arrival the Commander shall cause the letter R of the Commercial Signal Code to be hoisted, and shall keep the said flag flying during his stay in port or until authorized by the Health Officer to haul it down If communication with the shore is not desired, the vessel shall anchor at such place as may be pointed out by the Port authorities having regard to the season of the year If communication with the shore is desired, the Health Officer shall go alongside the vessel and, after all necessary enquiries, shall direct the Commander to take the vessel to the quarantine anchorage duly appointed and notified in that behalf by the Resident, there to remain for a period of seven days from the date of arrival or for the shorter period prescribed in Rule IV, and undergo disinfection, which should apply as well to crew, passengers, effects, and susceptible goods

IV.—If the Health Officer of the Port has sufficient evidence that no cases of a suspicious nature have taken place on board during the voyage, and if the vessel is besides in good hygienic condition, the duration of the quarantine will be diminished according to the following scale

After eight days of voyage	Six days of quarantine
Do nine ditto	Five ditto
Do ten ditto	Four ditto
Do eleven ditto	Three ditto
Do twelve ditto	Two ditto
Do thirteen ditto and upwards	Twenty four hours of quarantine

V.—If during the period a vessel is at the quarantine anchorage aforesaid any case or cases of cholera should occur on board, the said vessel shall remain in quarantine for a period of seven days from the date of the last case occurring and be subject to all the prohibitions provided for in Rule III

VI.—When any vessel has been placed in quarantine as aforesaid the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Resident as places of quarantine, there to remain for a period of seven days If a case of cholera occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of 15 days from the date of the occurrence of the last case of such illness

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease

VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores, and other articles as may be required by those on board Such supplies will be placed on the boats of the vessels in quarantine, to be subsequently removed by members of their crews

IX.—All vessels arriving at Aden, Perim, and the Somâli Coast which may have communicated with vessels coming from the ports of the Hedjaz and Yemen as far as Babelmandeb and from Bussorah, Fao, and Muhamrah shall be subjected to the same quarantine as vessels arriving at Aden, Perim, and the Somâli Coast from the ports of the Hedjaz and Yemen as far as Babelmandeb and from Bussorah, Fao, and Muhamrah

X.—All vessels which have undergone quarantine in the manner above prescribed should have the fact clearly stated on their bills of health

---

PUBLIC WORKS DEPARTMENT

NOTIFICATIONS

Simla the 29th June 1893

No 250—The following is published for general information

No 372 R T, dated 27th June, 1893

RESOLUTION—By the Government of India, Public Works Department

General Rules for working railways open for traffic

Read—

Section 47 of the Indian Railways Act (IX) of 1890

Government of India Circular No 3 Railway, dated the 19th April 1892, promulgating General Rules for all open state railways in British India administered by the Government

Public Works Department Notification No 174, dated the 7th May 1892, publishing in the *Gazette of India* of the 14th May 1892 the circular and the General Rules read above

Government of India Resolution No 0058 R T, dated the 28th February 1893, published in the *Gazette of India* of the 4th March 1893 under Public Works Department Notification No 82, dated the 1st March 1893

Government of India Resolution No 321 R T, dated the 7th June 1893, published in the *Gazette of India* of the 24th June 1893 under Public Works Department Notification No 249, dated the 23rd June 1893

Letter from the Director General of Railways, No 230 T, dated the 23rd June 1893

OBSERVATIONS —The Director General of Railways has applied that the General Rules for working open lines of railway in British India, which have been sanctioned by the Governor General in Council and published under Public Works Department Notification No 174, dated the 7th May 1892 (*vide* the *Gazette of India* of the 14th May 1892), as modified by the Government of India Resolutions Nos 0058 R T and 321 R T, dated respectively the 28th February 1893 and the 7th June 1893, which were published under Public Works Department Notifications Nos 82, dated the 1st March 1893, and 249, dated the 23rd June 1893 (*vide* the *Gazette of India* of the 4th March 1893 and the 24th June 1893), may be made applicable to the Godavery Vizianagram section, including the Cocanada and Vizagapatam branches, of the East Coast Railway from the date on which it may be opened for the public carriage of passengers, animals, or goods

---

RESOLUTION —The Governor General in Council is pleased to sanction the application of the General Rules for Indian railways, with the modifications cited in the foregoing observations, to the Godavery Vizianagram section, including the Cocanada and Vizagapatam branches, of the East Coast Railway

---

ORDER —Ordered, that the General Rules which have already been published in the *Gazette of India*, dated the 14th May 1892, be further notified to the railway servants and to the public by a copy thereof, as modified by the Resolutions of the 28th February 1893 and 7th June 1893, being kept open to inspection, free of any charge, in the office of the station master of every station on the said railway

Ordered also, that this Resolution be communicated to the Director General of Railways for information and guidance, and that it be published under a notification in Part I of the *Gazette of India*

The 30th June, 1893

No 251 —The following is published for general information

No 1664 G, dated 26th June, 1893

RESOLUTION—By the Government of India, Public Works Department

Orders on certain questions raised in connection with the establishment of a Provincial Service recruited in India for the Engineer Branch, Public Works Department

Read again—

Public Works Department Resolution No 2112 G, dated the 19th July 1892

Read also—

Letter from the Secretary to the Government of the North Western Provinces and Oudh in the Public Works Department, No C 1786-E, dated 14th October 1892

Letter from the Secretary to the Chief Commissioner of Burma in the Public Works Department, No 15635, dated the 15th November 1892

In the letters read in the preamble, the following questions are raised

(i) Whether the provisions of Article 720 of the Civil Service Regulations are applicable to the Provincial Engineer Service, and whether Civilian Upper Subordinates promoted to the Provincial Engineer Service may be permitted to serve on after they have attained the age of 55 years

(ii) Whether Upper Subordinates promoted to the Provincial Engineer Service are required to pass examinations in professional subjects and in the native languages under Public Works Department Code, Vol I, Chapter II, paragraphs 12 14 and 17

(iii) Whether Upper Subordinates shall on promotion to the Provincial Engineer Service be graded according to the salary they have been drawing in the Upper Subordinate grades, or whether they shall be placed in the 2nd grade of Assistant Engineers, receiving the difference between the pay of their grade in the Upper Subordinate establishment and that of the 2nd Assistant Engineer grade as a personal allowance Also whether the sub divisional allowance which they may have been in receipt of at the time of their promotion will be continued to them as a personal allowance on promotion

(iv) Whether students of the Indian Colleges appointed to the Provincial Engineer Service shall under Regulation IV of the Resolution of the 19th July 1892, be promoted to the 1st grade of Assistant Engineers immediately on passing the professional examination required by Public Works Department Code, Vol I, Chapter II, paragraphs 12 14

(v) Whether the Imperial and Provincial Services are to be one and the same or on separate lists for purposes of promotion

(vi) Whether any, and if so what portion of the military service of Military Upper Subordinates promoted to the Provincial Engineer Service shall count towards civil pension

2 The Governor General in Council is pleased to issue the following orders on the several questions raised

Question i—The 55 years rule is at present applicable to all member of the Engineer establishment (*vide* note to Article 720 of the Civil Service Regulations), and it will therefore be applicable to all persons appointed to the Provincial Engineer Service, and no one will be allowed to remain in the service after he has attained the age of 55 years

Question ii—In Regulation V of the Resolution of the 19th July 1892 it is laid down that the men of the Upper Subordinate class shall be ordinarily Sub Engineers chosen for their ability and merit As these men will be selected for promotion on account of their general efficiency and experience in practical work, it is unnecessary that they should be required to pass the examinations in question

Question iii—On promotion to the Provincial Engineer Service, men of the Upper Subordinate class will be ordinarily placed in the 2nd grade of Assistant Engineer, and will draw the pay of that grade, *viz*, Rs 250 The difference between this sum and the pay of their grade in the Upper Subordinate establishment, including the increments they may have at the time of promotion earned as Sub Engineers, will be granted to them as a personal allowance The Governor General in Council is, however, pleased to rule that men of the Upper Subordinate class shall be as a rule selected for promotion to the Provincial Service before they have qualified for the increments of Sub Engineers

It is also ruled that Sub Engineers promoted to the Provincial Engineer Service shall not be granted the sub divisional allowance which they may have been receiving prior to their promotion

It will be optional with any subordinate to decline promotion

Question iv—Promotions from 2nd to 1st grade Assistant Engineer in the Provincial Service will be made only as vacancies admit, and on recommendations Promotions will also be regulated by selection for vacancies within the sanctioned scale, as laid down in Regulation VI of the Resolution of the 19th July 1892 Passing the examination prescribed in Public Works Department Code, Vol I, Chapter II, paragraphs 12 14, merely qualifies for promotion, subject to the above conditions, in the case of students appointed from the Indian Colleges

Question v—Officers of the Imperial and Provincial Services will be on one list for purposes of promotion

Question vi—Warrant officers of the rank of Conductor and Sub Conductor and non-commissioned officers and soldiers when promoted from the Upper Subordinate class to the Provincial Engineer Service are required to take their discharge from the Army, and will then count their whole departmental service for civil pension (*vide* Article 388 clause 3, Civil Service Regulations) It will, however, be optional with such officers to decline promotion The case of honorary commissioned officers is under consideration, and orders in regard to them will issue hereafter

3 The question has also been raised whether Upper Subordinates of the Military Works Department are eligible for appointment to the Provincial Engineer Service of the Public Works Department His Excellency the Governor General in Council is pleased to rule that the claims of the Upper Subordinates of the Military Works Department shall be considered when selecting men for promotion to the Provincial Establishment

---

ORDER—Ordered, that this Resolution be communicated to the Local Governments, Administrations, and Officers noted in the margin for information and guidance, and that it be published in Part I of the *Gazette of India*

The Governments of Madras and Bombay Public Works Department General and Railway Branches
The Governments of Bengal the North Western Provinces and Oudh and the Punjab
The Chief Commissioner of the Central Provinces Burma Assam and Coorg
The Resident at Hyderabad
The Agents to the Governor General for Rajputana Central India and Baluchistan
The Accountant General Public Works Department
The Director General of Railways
The Consulting Engineers to the Government of India for Railways Calcutta Central Division Lucknow and Assam

Ordered also, that it be forwarded to the Finance and Commerce, Home, Revenue and Agricultural, and Military Departments

No 252—The following is published for general information

No 138 I, dated 29th June, 1893

RESOLUTION—By the Government of India, Public Works Department

Review of the Revenue Report of Irrigation Works in the North Western Provinces for the year 1891 92

Read—

Letter No C 348 I, dated the 23rd May 1893, from the Government of the North Western Provinces, forwarding the Revenue Report of Irrigation Works in the North Western Provinces for 1891-92, and the Resolution of that Government reviewing the Report

---

OBSERVATIONS—The number of Irrigation Works in operation for which Capital and Revenue Accounts are kept is nine, as in the preceding year Four are classed as Productive, one, the Betwa Canal, as Protective, and four as Minor Works The direct and indirect capital outlay for each class of

works during and up to the end of the year under review is shown in the following statement

	Number of works	During the year 1891-92							
		Works	Establishment	Tools and Plant	Suspense Account	Total direct charges	Indirect charges	Total direct and indirect charges	Total direct and indirect to end of 1891-92
		2	3	4	5	6	7	8	9
		Rs	Rs	Rs	Rs	Rs	Rs	Rs	Rs
Major Works—									
Protective Works (Account head 35)	1	8 890	1 926	20	—930	9,906	720	10 626	41 88 776
Irrigation Works not charged against Revenue (Account head 49)	4	3 58 556	80 811	5 170	31 798	4 76 335	28 483	5 04 818	7 49 09 833
Minor Works—									
Works for which Capital and Revenue Accounts are kept (Account head 43)									
Works in operation	4	13 683	3 120		2 251	19 054	569	19 623	25 12 721
Surveys	3	282	—34			248	—5	243	2 81 452
Total Minor Works	7	13 965	3 086		2 51	19 302	564	19 866	27 94 173
GRAND TOTAL	12	3 81 411	85 823	5 190	33 119	5 05 543	29 767	5 35 310	8 18 97 782

2 The aggregate capital outlay was Rs 51,810 more than in 1890 91 On the Betwa Canal the capital outlay amounted to Rs 10,626, about 2 miles of new distributary and 4½ miles of drainage cut being opened Levelling of the crest of the weir was also completed

On the Upper Ganges canal the capital outlay was Rs 1,75 793 The raising of the Puth bridge was begun two new inspection houses were finished, and 59 miles of new drainage works were opened

On the Lower Ganges canal the expenditure was Rs 2,33,140 A tail fall on the Malhausi escape was constructed , seven miles of new distributary and 153 miles of new drainage cut were opened

On the Agra canal the capital outlay was Rs 26,517, principally in the improvement of distributaries

On the Eastern Jumna canal the outlay was Rs 69,368 on distributaries and drainage works

The capital outlay on Minor Works amounted to Rs 19,623, principally on the Rohilkhand canals There was also a charge of Rs 243 on account of the surveys for the Bundelkhand Irrigation Works

3 The following statement shows for the Major Works the mileage of main channel and distributary sanctioned and in operation at the close of the year

	Sanctioned.		Completed	
	Miles of canals	Miles of distributaries	Miles of canals	Miles of distributaries
Major Works				
Protective Works—				
Betwa canal	182	379	168	343
Works of which the Capital outlay is not charged against Revenue—				
Ganges canal	463	3,000	437	2,524
Lower Ganges canal	566	2,457	557	2,104
Agra canal	109	600	109	565
Eastern Jumna canal	130	641	129	644
Total Major Works, 1891 92	1,450	7,077	1,400	6,180
Figures for 1890 91	1,450	7,077	1,400	6,169

Small additions were made to the distributaries of the Upper and Lower Ganges, Eastern Jumna, and Betwa canals

4 The actual financial results of the year under review are exhibited in the following statement

Canal	Total direct and indirect capital outlay to end of year	Gross Revenue collected: Irrigation Revenue (*)	Gross Revenue collected: Miscellaneous receipt	Gross Revenue collected: Total	Working Expenses: Direct	Working Expenses: Indirect	Working Expenses: Total	Net Revenue	Percentage of net Revenue on capital outla

(*) Refunds deducted from Revenue

5 The gross revenue derived from the Major Works was more by Rs 5,35,780 than in 1890 91, and is the highest on record in any year with the exception of 1884 85 The working expenses on the Major Works show a reduction of Rs 63,170 as compared with the figures for the previous year, so that the net revenue is better by Rs 5,98 950

The net revenue realised is equivalent to a return of 5 5 per cent on the capital outlay These results of the working of the Major Works during the year under review are considered by the Government of India to be extremely satisfactory

6 The interest charges for the year on the Major Works amounted to Rs 29,49,355 After meeting these the balance of net revenue amounts to Rs 14,22,858 The total interest charges to the end of 1891 92 amounted to 648 lakhs in round numbers against a total net revenue of 726 lakhs The clear profit derived is thus 78 lakhs or nearly 10 per cent on the capital outlay

7 The net revenue derived from the Minor Works was Rs 7,603 more than in the previous year

8 Paragraph 6 of the Chief Engineer's note gives the result of the working as regards irrigation of the Provincial contract which terminated on 31st March 1892 Under the contract the Provincial Government retained the direct revenue from Productive and Minor Works, and paid interest at 4 per cent on—

(1) The old capital outlay from Imperial funds on Minor Works and Navigation (Rs 23,35,555)

(2) The total capital outlay from all sources on Major Works, less capital

The contract figures were—

	Rs	Rs
Revenue, gross earnings		55,40,000
Working Expenses	22,98,000	
Interest	26 91 000	49,89,000
Anticipated net revenue		5 51,000
Total for 5 years		27 55,000

The actual results for the five years were—

Revenue gross earnings		2,52,06,172
Working expenses	1,24,44,783	
Interest	1,38,07,190	2,62,51,973
Net revenue		—10,45,801
Anticipated deficit owing to the failure of the Nadrai aqueduct to be met by transfer from land revenue		12,00 000
Actual net revenue		1,54,199

The Province was, therefore, so far as canals are concerned, a loser by the contract of Rs 26,00,801

9 The statement in paragraph 4 gave the actual collections for the year In the following statement details of the assessed revenue are given, and the total for each canal is compared with the area irrigated

Canals	Area irrigated		Assessment 1891-92				Assessments 1890 91	Rate per acre irrigated	
	1891 92	1890-91	Occupiers rates	Owners rates	Share of land revenue	Gross assessed revenue excluding miscellaneous		1891 92	1890-91
1	2	3	4	5	6	7	8	9	10
	Acres	Acres	R	Rs	Rs	Rs	Rs	Rs	Rs
Betwa	3 606	33 95	52 067	92		82 59	1 00 335	2 7	3 0
Ganges	832 864	821 6 2	23 17 0 3	1 02 978	6 90 076	3 10 067	30 27 799	3 7	3 7
Lower Ganges	660 963	642 632	15 7 184	1 93 326	2 09 586	19 75 096	19 02 828	3 0	3

Bundelkhand Irrigation Works — Jhansi lakes	1 148	673	1 959		1 299	7 345	7 0 9	2 8	3 0
Bundelkhand Irrigation Works — Hamirpur lakes	6 6	1 678	2 824		1 763				
Total	2 045 030	2 014 114	53 06 234	4 09 170	12 32 31	69 47 495	67 53 023	3 4	3 3

10 The area irrigated continues to exhibit a satisfactory increase, the figures for 1891 92 being 30,916 acres more than those for the previous year The increase was entirely in the kharif irrigation, the rabi showing a small falling off The area under kharif crop was 766,215 acres, or 37 47 per cent of the total, that under rabi crop being 1,278,815 acres, or 62 53 per cent

11 The season was on the whole favourable for irrigation, the monsoon beginning late and feebly, and the winter rains also coming late and being below the average

12 The areas under the principal crops were as follows

Crops	1891 92	1890 91
	Acres	Acres
Sugarcane	245,667	198,577
Rice	149,045	167,868
Indigo	174 546	224,663
Cotton	88,647	69 887
Wheat	755,786	736,297
Barley	108,821	107,352
Gram	55,557	57,158

The increase in the area under sugarcane was very marked, especially on the Ganges canal The estimated value of all the irrigated crops was 751 lakhs, which is equivalent to about Rs 36 per acre, and amounts to 92 per cent of the entire capital outlay on open canals The average occupier's rate per acre amounted to Rs 2 59

13 The balance of demands remaining unrealised at the beginning of the financial year was Rs 2,21,266, which had been reduced to Rs 1,83,106 at its close The remissions aggregated Rs 47,920

14 The following statement gives the details of the working expenses for the year under review and compares the total with that of the previous year

Canals	1891 92					1890-91
	Works	Establishment	Tools and Plant	Indirect charges	Total	Total

GRAND TOTAL	1 85 4 1	13 57 285	3 485	1 87 [illegible]4	28 53 875	9 19 331
Per acre irrigated					1 40	1 45

NOTE —Sundries and plantation charges have been included in item Works

Under extensions and improvements the expenditure amounted to Rs 2,33,326 principally on the Upper Ganges canal, on the Nildhara and Dudhia weirs, and on training works in the river On the Lower Ganges and Agra canals the principal expenditure under this head was also on training works

The repair outlay amounted to Rs 10,01,751, and was more by Rs 26,315 than in the previous year This increase is satisfactorily explained in paragraph 12 of the Chief Engineer's report The trouble due to weeds on the Lower Ganges canal, which was referred to in paragraph 12 of last year's review, was much less in 1891-92

15 The details of the charge for establishment as shown in the last statement are as follows

—	Revenue management	Maintenance	Total	Percentage
	Rs	Rs	Rs	
Direction	1,55,948	60 604	2,16,552	15 95
Executive	4,10,360	3,04,906	7 15,266	52 69
Revenue (Irrigation Branch)	2,44 170		2 44 170	18 00
,, Payments by Civil Officers, including fees	1,50,340		1,50,340	11 08
Navigation	11,284		11 284	0 83
Medical		6,179	6 179	0 46
Plantation		13,494	13,494	0 99
GRAND TOTAL	9,72,102	3,85,183	13 57 285	100 00

The establishment charges against Revenue Account were Rs 28,690 less than during the previous year principally owing to an increased outlay under capital

16 The working expenses formed about 39 per cent of the gross revenue realised Of this percentage, Revenue management formed 13 per cent, maintenance 23 per cent, and leave and pension allowances 3 per cent

17 The length of navigable channel open on the Ganges and Agra canals at the end of the year was 535 miles, as in the previous year The ton mileage amounted to about 7 millions, the estimated value of the cargoes to nearly 25 lakhs, and of rafts to nearly 2½ lakhs The number of passengers carried was only 3,255 on the Ganges canals and 641 on the Agra Canal

18 The receipt and charges on account of navigation were as follows

Canal	RECEIPTS		CHARGES	
	1890 91	1891 92	1890 91	1891 92
	Rs	Rs	Rs	Rs
Upper and Lower Ganges	15,816	16 630	21,425	19 654
Agra	5 966	7 679	9,394	9 993
TOTAL	21,782	24 309	30,819	29,647

The deficit on the navigation operations on the Upper and Lower Ganges canals was reduced from Rs 5,609 to Rs 3,024, but the navigation on this system is not expected to show satisfactory progress until the completion of the Cawnpore extension, the estimate for which has been sanctioned by the Secretary of State subsequent to the year under review

The principal traffic on the canals consists of building materials, timber and firewood, and grain

19 The revenue realised on account of water-power amounted to Rs 72,861, principally on the Ganges and Dun canals The discharge available was 11,582 cubic feet per second, so the revenue is equivalent to Rs 6 29 per cubic feet

The figures of revenue given in paragraph 18 of the Chief Engineer's report do not agree with those in statement I C

20 The following hydraulic details are given in the report

Cana	Number of irrigating days	Mean discharge at head cubic feet per second	Discharge utilised cubic feet per second	Percentages	
				Discharge utilized	Discharge escaped
Ganges	272	*4 407	4,123	93 6	6 4
Lower Ganges	272	4,395	2,951	67 1	32 9
Agra	249	1 156	910	78 7	21 3
Eastern Jumna	323	1,046	910	87 0	13 0

*Exclusive of the volume passed on to the Lower Ganges Canal

The figures for the Upper and Lower Ganges canals should be considered together, the surplus water which is run through the upper canal to maintain depth sufficient for navigation being passed on and escaped from the lower canal The volume escaped from the lower canal is very large, but it will be reduced when the Cawnpore extension project is carried out The increase in the volume entering the heads of the upper and lower canals over the figures for the previous year is owing to the larger volumes of the water available in the river The increase in the case of the Eastern Jumna is due to the adoption of a new table of discharges

21 The following figures relate to the water duty obtained and the occupier's rate per cubic foot of discharge

Canals	Area irrigated per cubic foot		Occupier's rate per cubic foot of discharge utilised	Occupier's rate per acre	Total water rate per acre
	of discharge at head	of discharge utilised			
	Acres	Acres	Rs	Rs	Rs
Ganges	189	202	562	2 78	3 73
Lower Ganges	150	224	533	2 38	2 99
Agra	143	181	521	2 87	3 41
Eastern Jumna	214	246	802	3 27	4 41

The area irrigated and the occupier's rate assessed per cubic foot of discharge show a falling off compared with the previous year due to the increased supply used in the kharif season on account of the late setting in of the monsoon

22 The following particulars relate to the distributaries

Canals	Area irrigated per mile of distributary	Number of outlets per mile	Area irrigated per outlet
	Acres		Acres
Ganges	318	7 2	44
Lower Ganges	307	5 5	56
Agra	291	7 4	39
Eastern Jumna	338	6 2	60

23 The measurements of the level of water in wells near the major canals showed that the level had a tendency to rise The preparation of projects for a complete system of drainage for the Agra Canal is, however, being pushed on, and a hope is expressed that construction will be begun early in 1892 93 The capital outlay on drainage works during the year amounted to Rs 1,39,041, the additions to the length of drainage cuts amounting to 227 miles The main tenance charges for drainage cuts in connexion with the Major Works amounted to Rs 57,980, and under Agricultural to Rs 57,273

24 The following figures relate to the Tarai and Bhabar canals, which were under the charge of an Executive Engineer of the Irrigation Branch They are not included in the general statements in the review, as no separate water rate is levied on them The amount entered under water rate is an arbitrary portion of the land revenue

Canals	Irrigated area	Revenue Receipt				Revenue Expenditure				
		Water rate	Plantation	Water power	Total	Original work	Repairs	Establishment	Tools and Plant	Total
	Acres	Rs	Rs	Rs	Rs	R	Rs	Rs	Rs	R
Tarai	28 462	30 325			30 325	3 460	11 632	5 3 9		20 421
Bhabar	51 507	1 78 247		35 3 3	2 13 6 0	39 476	56 098	17 018	1 490	1 14 082

25 The Revenue Report was received by the Government of India on May 25th, which was considerably later than the receipt of that for the previous year, and is long after the due date It was the last of the Revenue Reports to be received The Government of India regret to find that the expectation of the submission of future reports being expedited, which was expressed by the Government of the North Western Provinces and Oudh in the letter forwarding the report for 1890 91, has not been realized

26 The report has been very well prepared, and the maximum flood level is now indicated on the river diagrams

27 The Government of India notice with approval that the officers and subordinates of all grades performed their duties during the year to the satisfaction of His Honour the Lieutenant Governor

---

ORDER —Ordered, that copy of this Review and of the Report be forwarded to the Revenue and Agricultural Department for information

Ordered also, that copies of this Review be forwarded to the Government of the North Western Provinces for information and guidance, and that copies of the Review be forwarded to the Local Governments and Administrations in the Public Works Department noted in the margin for information

The Governments of Madras Bombay Bengal and the Punjab
The Chief Commissioner of the Central Province Burma Assam and Coorg
The Residents at Hyderabad and in Mysore
The Agents to the Governor General in Central India Rajputana and Baluchistan

Ordered further, that this Review be published in Part I of the *Gazette of India*, and that copies of this Review and of the Report be forwarded to Her Majesty's Secretary of State for India

PART IV

Acts of the Governor General's Council assented to by the Governor General

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 26th June, 1893, and is hereby promulgated for general information

ACT No VIII of 1893

An Act to amend the Indian Coinage Act 1870, and the Indian Paper Currency Act, 1882

XXIII of 1870 XX of 1882 WHEREAS it is expedient to amend the Indian Coinage Act, 1870, and the Indian Paper Currency Act 1882 It is hereby enacted as follows

Title and commencement

1 (1) This Act may be called the Indian Coinage and Paper Currency Act, 1893, and

(2) It shall come into force at once

Repeal of existing enactments

2 The enactments specified in the schedule hereto shall be repealed or modified to the extent and in the manner mentioned in the third column thereof, but no such repeal or modification shall affect anything already done or any right or obligation heretofore acquired or undergone under the said enactments or any of them

THE SCHEDULE

Number Year and Short Title	Sections	Extent of repeal or modification
Act XXIII of 1870 (the Indian Coinage Act 1870)	19 to 26 both inclusive	The whole to be repealed
Act XX of 1882 (the Indian Paper Currency Act 1882)	11	Clause (b) clause (d) and the proviso to be repealed
	12	The word and letter clause (b) to be omitted
	13	The words to an extent to be specified in the order not exceeding one fourth of the total amount of issues represented by coin and bullion as provided by this Act to be omitted
	14 and 15	The whole sections to be repealed
	21	For the proviso to sub section (1) the following shall be substituted — Provided that any coin or bullion so received and appropriated may be sold or exchanged for gold or silver coin of the Government of India of the like value which shall be so appropriated and set apart instead of the coin or bullion sold or exchanged' Sub section (2) to be repealed
	28	Sub section (1) clause (f) to be omitted Sub section (3) to be repealed

Bills introduced in the Council of the Governor General of India for making Laws and Regulations, Reports of Select Committees presented to the Council, and Bills published under Rule 22

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 26th June, 1893

No 8 OF 1893

A Bill to amend the Indian Coinage Act 1870 and the Indian Paper Currency Act, 1882

XXIII of 1870
XX of 1882

WHEREAS it is expedient to amend the Indian Coinage Act, 1870, and the Indian Paper Currency Act, 1882, It is hereby enacted as follows —

Title and commencement

1 (*1*) This Act may be called the Indian Coinage and Paper Currency Act, 1893 and

(*2*) It shall come into force at once

Repeal of existing enactments

2 The enactments specified in the schedule hereto shall be repealed or modified to the extent and in the manner mentioned in the third column thereof, but no such repeal or modification shall affect anything already done or any right or obligation heretofore acquired or undergone under the said enactments or any of them

THE SCHEDULE

Number Year and Short Title	Sections	Extent of repeal or modification
Act XXIII of 1870 (the Indian Coinage Act 1870)	19 to 26 both inclusive	The whole to be repealed
Act XX of 1882 (the Indian Paper Currency Act 1882)	11	Clause (*b*) clause (*d*) and the proviso to be repealed
	12	The word and letter clause (*b*) to be omitted
	13	The words to an extent to be specified in the order not exceeding one fourth of the total amount of issues represented by coin and bullion as provided by this Act to be omitted
	14 and 15	The whole sections to be repealed
	21	For the proviso to sub section (*1*) the following shall be substituted — "Provided that any coin or bullion so received and appropriated may be sold or exchanged for gold or silver coin of the Government of India of the like value which shall be so appropriated and set apart instead of the coin or bullion sold or exchanged" Sub section (*2*) to be repealed
	28	Sub section (*1*) clause (*f*), to be omitted Sub section (*3*) to be repealed

STATEMENT OF OBJECTS AND REASONS

THE heavy fall in the gold price of silver since 1873 has caused great and growing financial embarrassment to the Government of India, which has to meet large obligations in gold It was believed that a remedy for the evils occasioned by this fall could be obtained by means of an international concert for the use of silver as currency, and for many years the Government of India have hoped that such concert would be secured With the adjournment of the International Monetary Conference at Brussels, the Government have been forced to abandon that hope Meanwhile the financial difficulties have increased, and strong representations have been made by the commercial interests of the country against the maintenance of a standard which is constantly depreciating in its relation to gold and against the fluctuations of exchange in our trade with the countries with which three fourths of our commercial intercourse is carried on

The Government of India after prolonged consideration came to the conclusion that, failing the restoration of the use of silver as standard money by the nations of the world, it was necessary to change the Indian monetary standard and in view of a further imminent fall in the gold value of silver, it has been decided to exercise the authority given to the Government by Her Majesty's Government on the advice of a Committee presided over by the Lord High Chancellor and stop the coinage of silver for the public at the mints This is the object of the present Bill Under executive orders, which will be issued when this Bill is passed, gold will be received at the mints in exchange for rupees at a ratio of 1*s* 4*d* per rupee, and sovereigns of current weight will be received at the treasuries in payment of Government dues at the equivalent ratio of fifteen rupees for a sovereign

Abstract of the Proceedings of the Council of the Governor General of India assembled for the purpose of making Laws and Regulations

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACTS OF PARLIAMENT 24 & 25 VICT CAP 67 AND 55 & 56 VICT CAP 14

The Council met at Viceregal Lodge, Simla, on Monday, the 26th June, 1893

PRESENT

His Excellency the Viceroy and Governor General of India, G C M G, G M S I, G M I E, *presiding*

His Honour the Lieutenant Governor of the Punjab, K C S I

His Excellency the Commander in Chief, K C B, G C I E, V C

The Hon'ble Sir P P Hutchins, K C S I

The Hon'ble Sir D M Barbour, K C S I

The Hon'ble Sir A E Miller, Kt, Q C

The Hon'ble Lieutenant General H Brackenbury, C B, R A

The Hon'ble Sir C B Pritchard, K C I E, C S I

The Hon'ble J L Mackay C I E

The Hon'ble A S Lethbridge, M D, C S I

The Hon'ble W Mackworth Young, C S I

NEW MEMBER

The Hon'ble MR YOUNG took his seat as an Additional Member of Council

INDIAN COINAGE ACT, 1870, AND INDIAN PAPER CURRENCY ACT, 1882, AMENDMENT BILL

The Hon'ble SIR DAVID BARBOUR said —"I have an important Bill to introduce which affects the Indian monetary standard, and as it is essential that

6 a

the Bill should, if approved, be passed at the present sitting of this Council, I beg that the standing orders may be suspended"

His Excellency THE PRESIDENT declared the Rules to be suspended

The Hon'ble SIR DAVID BARBOUR said —"I now move for leave to introduce the Bill, which is intended to amend the Indian Coinage Act, 1870, and the Indian Paper Currency Act, 1882, with the object of altering the Indian monetary standard from silver to gold It is not intended to do more at present than stop the free coinage of silver at the Indian mints, and, as a provisional arrangement, to provide for the issue of rupees at those mints in exchange for gold at the rate of 1*s* 4*d* per rupee The making gold coins legal tender, the settlement of the permanent rate of exchange between gold and the silver rupee, and the other measures necessary for the final and effective establishment of a gold standard in India, will be provided for by future legislation and in the light of future experience

"If it had fallen to my lot to introduce this Bill some twenty years ago, I have no doubt that it would have been received with some surprise and would have met with considerable opposition It certainly would have been necessary for the mover of such a Bill to explain at great length the nature of a monetary standard, the dangers which might be expected if India maintained the silver standard, and the advantages to be gained by substituting gold for silver, and it would have been difficult at that time to have brought forward arguments in support of so momentous a change which would have commanded general assent

"The events of the last twenty years and the discussions to which they have given rise have, however, greatly simplified my task We are only too familiar with the evils from which we have suffered in recent years, and the gloomy prospects before us, if we retain the silver standard, are fully recognised

"Nevertheless, the question of the monetary standard is surrounded by so many difficulties, and the change which it is now proposed to make will have such far reaching results, that I must trespass on the patience of the Council while I review, as briefly as may be, the history of the use of the precious metals as money, and show in what way and under what circumstance, we have arrived at our present position, what lies before us if we retain the silver standard, and why it is that Her Majesty's Government and the Government of India have come to the conclusion that we must attempt the formidable task of altering the Indian monetary standard from silver to gold

"Very many articles have been used as the standard of value in different countries and at different times, but for reasons which will be found in any work on Money, and which I need not enumerate, gold and silver were soon discovered to be the best materials for use as a standard of value and medium of exchange in countries which had any pretensions to civilization, and they came to be known, in a special sense, as the precious metals There is no doubt that in the first instance they passed from hand to hand by weight, as they still do in many parts of China

"In countries where both metals circulated in this manner trouble and confusion arise, as they have arisen in the present day, from variations in the relative value of the two metals The rulers of such countries found it necessary to declare the ratio of exchange at which gold and silver would be received in payment of taxes or tribute The ratio which was declared was not an arbitrary ratio, but was approximately the market ratio of the day, and the object of declaring it was to prevent disputes between the persons who collected taxes and those who paid them, and no doubt also to get rid of the risk of fraud on the part of the tax collectors The fixing of a ratio had, as we now know, a remarkable influence under certain conditions in preventing or limiting fluctuations in the relative value of the two metals and producing comparative stability, and the practice to which I have just referred is the origin of what has been known in recent years by the somewhat awkward name of bimetallism—a system which has prevailed, in a more or less imperfect form, from the earliest times up to a very recent period

"I shall have occasion to refer at a later period to this system of using both metals at a ratio declared by authority, but for the present I pass to the

next great step in the development of the standard of value and medium of circulation, namely, the introduction of the practice of coining I need not enlarge on the advantages which resulted from the introduction of this reform, as the convenience is obvious of having the weight and fineness of the pieces of metal in daily use as the circulating medium certified by authority

"One invention leads to another, and from the introduction of the practice of coining and of the issue of coined money by authority sprang the idea of legal tender

"In very early times a creditor could demand his shekel of fine silver, but subsequently he became entitled under the law only to what the ruler of the country or his officers certified to be a shekel of fine silver

"The most valuable inventions are liable to be abused, and the invention of coined money issued as legal tender has not proved an exception to the rule As rulers in early times were subject to little restraint, and not usually more enlightened than their subjects, they were readily induced to make a profit by certifying, as (say) a shekel of silver, a coin which contained less than the full quantity of metal It was an easy transition from a debased coin to a coin made of a totally different metal, and from that to something which was neither coin nor metal

"The best example of proceedings of this nature with which we are familiar in the present day is the issue of what is called inconvertible paper money, or, in other words, pieces of paper which the Government of the day declares to be legal tender, but which are not convertible into coin, and which depend for their value partly on the limitation of the quantity issued, and partly on the hope that they may some day be made convertible into coin on demand

'I have now shewn that the progress towards a monetary standard, as the phrase is understood in the present day, has consisted of a few simple steps which, however, required thousands of years for their accomplishment and for the general recognition of their utility

"Among these steps was the fixing of a ratio, or rather the declaring by authority of the existing ratio, between gold and silver with the object of facilitating monetary transactions in countries where both gold and silver money circulated This practice had an important secondary effect in tending to maintain stability of relative value, it has only been generally abandoned during the last twenty years, and it is the abandonment of this system which has plunged us into our present difficulties in India It is useless for us to discuss at the present time whether that change of practice was or was not a beneficial reform, or whether or not it could have been avoided There are those who hold that the change was, or will be beneficial, and that it was an inevitable step in the progress of the world towards a perfect monetary standard There are others who hold that it was a rash and dangerous innovation, and that the sooner we retrace our steps the better

"I express at the present time no opinions on this question, it is sufficient for our purpose to note the fact that the change was made, that serious consequences have flowed from it which were not foreseen, and that it has plunged India into a sea of monetary troubles

"The Government of India have failed in their efforts to induce the great nations of the world to establish the old system, and it is not the business of practical statesmanship to waste time in vain regrets for what might have been in the past, but rather to accept the inevitable and devote attention to making the most of the present and the future As, however, this important departure from the old system of double legal tender has had such serious consequences during the past twenty years, as the consequences of the change are not yet exhausted, and as it is this change which has led to the present proposal to alter the Indian standard from silver to gold, I consider it necessary to note, as briefly as I can, the course of events which led up to it and brought it about

"In the middle ages the monetary standard of England was silver, and it was not till the reign of Edward III that a successful attempt was made to put gold coins into circulation, but from that time both gold and silver coins

continued to circulate in England, the ratio of exchange between them being declared from time to time by Royal authority The legal standard of the country continued to be silver, but coins of both metals were in circulation and were frequently debased, and the ratio of exchange altered

"What I have just said of England might, I believe, be said with equal truth of most European countries at that time The inconvenience and loss to honest traders must have been enormous, and such as would not be borne for a day at the present time Business was, however, conducted on very different principles from those which now prevail the margin of profit was larger, and those who made their living by trade and commerce had to take things as they found them, since they possessed no means of applying a remedy Our gigantic modern system of manufacture, trade and finance would have been simply impossible under such standards of value as the traders of former times had to accept

"Among other fallacies which prevailed in those days, it was commonly held that the wealth of a country depended on the quantity of gold and silver money which it contained The measure of wealth had come to be mistaken for the wealth itself It was quite a common practice for a ruler to deliberately overvalue the gold coins with the intention of attracting gold from foreign countries, and great surprise was experienced when it was found that the over valuation of gold necessarily involved the under valuation of silver, and that, though gold was attracted by this device, silver was exported to an equal extent and no alteration was effected in the aggregate quantity of gold and silver contained in the country Laws were passed against the export of both gold and silver but such laws were, of course, easily evaded

"It is difficult to imagine a more exasperating state of things than that under which both gold and silver circulated in different countries at rates fixed independently by the ruler of each country and altered from time to time with the object of attracting gold or silver from neighbouring countries These evils appear to have reached their climax in England in the reign of James I There is no doubt but that the large influx of silver from America after the year 1545 tended to lower the value of that metal, but it has always seemed to me that the great alteration in relative value which took place between 1620 and 1650 was largely due to the meddling with the legal ratio which took place in England and adjoining countries at that time There was no such alteration in the relative production of the two metals during those years as would suffice to account for it

"After 1660 there was no serious fluctuation in relative value down to comparatively recent times—a fact which I ascribe to the growing recognition of the futility of attempting to attract the precious metals from other countries by altering the legal ratio

"In the reign of William III, however, events occurred which have had a most important influence in shaping the monetary policy of Europe in the present century, and which require special notice In that reign the currency of England fell into the most extraordinary state of confusion owing to the fraudulent clipping of the silver coin, and the gold coins commanded a very high premium for a time When the debased coins were called in and new and full weight coins were issued in their place, great trouble was experienced in reducing the premium on guineas This premium was gradually brought down by executive order, but the final order left the guinea overvalued as compared with the silver coins, with the inevitable result that the new and full weight silver coins were exported, and the currency of England became gold coins, supplemented by light weight silver coins which it was not profitable to export The legal standard of the country continued to be silver

"This state of things lasted till 1798, when the value of silver fell relatively to gold, and it once more became profitable to bring silver to the mint to be coined By this time the English people had become accustomed to the use of gold, and an Act was passed expressly prohibiting the free coinage of silver In the beginning of the present century the currency of England was composed of inconvertible and depreciated paper, and when, after the close of the great war [illegible] Napoleon a return was made to specie payments the legal standard of

England was declared to be gold, mainly, I believe, on the ground that by their use of gold instead of silver for over 100 years the English people had shown their preference for that metal That the people preferred gold to silver as currency at that time was probably correct, but that preference arose from their having been accustomed to use gold for over 100 years, and they were accustomed to use gold because gold had been overvalued in the first instance, and not, as has been sometimes said, because they were originally so strongly attached to gold that debtors preferred to pay their debts in gold at a loss to themselves rather than use silver There never has been in the history of the world, and there never will be, until human nature ceases to be what it is, a case in which of two sets of coins circulating side by side the dearer will drive out the cheaper

"The formal adoption of the gold standard by England had no appreciable effect on the relative value of the two metals, because the majority of nations still adhered to the silver standard, and the system of double legal tender prevailed extensively, especially in France, where there has always been a great store of the precious metals

"This state of things lasted till the year 1873 and, notwithstanding the great increase in the production of gold owing to the discoveries in California and Australia, the disturbance in value was comparatively slight So great was this stability that its continued existence came to be accepted almost as a law of nature, which would never be broken, and an eminent Ecomonist—Professor Cairnes, of whom I desire to speak with the greatest respect—actually placed the following opinion on record in the year 1872

'I may now say (1872) that I am disposed to assign much less importance to this question of a change in the monetary standard of India than I did when the above passage was written The reasoning assumes the probability of a serious divergence in the relative value of gold and silver, but I now believe that such a divergence is practically out of the question'

"I call special attention to the fact that this opinion was placed on record by one of the ablest Economists of the present century in the year 1872, or, in other words, just before the beginning of those fluctuations in the relative value of the precious metals, and of that depreciation of silver as compared with gold which have brought this country within a measurable distance of bankruptcy. We can now see that in reality the position in 1872 was full of danger Gold and silver were both used as standard money, and divided the monetary work of the world between them, for a long period there had been comparative fixity of relative value between the two metals, but the causes of this steadiness, the importance of maintaining it, and the readiness with which it could be destroyed were practically unrecognised and unknown

"On the other hand, the eminence which England—the sole gold using country of any importance—had attained in manufactures, commerce and finance had unconsciously led many people to believe that there must be some special virtue in the gold standard, and as there seems to be a prejudice in favour of the metal which contains most value in little bulk, and gold had become relatively much more abundant than in former times, the monetary system of the world was in what may be termed a state of unstable equilibrium, and we were on the eve of changes which have produced a monetary revolution which is still in progress, and the force of which is far from being exhausted

"We all know how the change was brought about Germany altered her standard from silver to gold France and the other States of the Latin Union closed their mints to silver The United States, where the currency was for the time inconvertible and depreciated paper, abandoned the system of double legal tender, a change which had the most serious results when a return was made to specie payments

"Other nations followed in the same direction, and in India we were suddenly brought face to face with the great currency problem in the most disagreeable form by finding that the gold prices of silver fell, while the exchange on England went down and became subject to excessive fluctuations

"It so happened that I was employed in the Finance Department of the Government of India at the time, and my recollection is that, in the first instance,

the general impression was that the mischief was due to the great Comstock Lode, which was supposed to be pouring out unlimited quantities of silver Discussions and enquiry followed, and gradually it came to be recognised that probably the most momentous currency change that has ever taken place had been carried out with, I may say, the most complete failure on the part of the civilised world to recognise the nature of the change or to appreciate the consequences that must follow The question has been investigated by a Special Committee of the House of Commons and by a Royal Commission It has formed the subject of three International Conferences and given rise to a flood of currency literature I will not say that no progress has been made in the education of the public mind, for I am satisfied that very much light has been thrown on the problem by the discussions that have taken place during the last twenty years But, I am sorry to say, increase of knowledge has not led to unanimity of opinion, and what is more to be regretted, it has not led to the application of any remedy

"The disputants may roughly be divided into two camps—those who urged that the world should return to the old system of double legal tender, and those who maintained that financial salvation was not to be found outside the pale of monometallism The thorough going monometallists advocated the gradual extension of the single gold standard to the whole civilised world, silver having become, in their opinion, a discredited metal, no more worthy to be treated as a standard of value than cowries or cockle shells Another, and I believe a larger section of the gold camp favoured the adoption of the gold standard by one half the world, and of the silver standard by the other The latter proposal always appeared to me to be wanting in the elements of finality It would have left the civilised world exposed to the evils of a break of monetary gauge, and I was unable to discover any good principle on which it could be decided what countries should adopt the gold standard and what countries should adopt the silver standard or how a country could be prevented from deserting from one standard to the other with all the attendant monetary disturbance which necessarily results from such changes

"It was said at one time and I believe quite seriously, that all the rich countries should choose gold and the poor ones silver It is instructive to form a mental picture of the proceedings of an International Conference assembled for the purpose of settling the monetary affairs of the world in accordance with this remarkable principle Unanimity of opinion would, for the first time in the history of such conferences, be secured, but it would be secured by the representative of every nation declaring that he appeared on behalf of an undoubtedly wealthy and solvent community, and one that was determined to march in the van of civilization If by any accident a nation could have been found willing to admit that it was too poor to enjoy the luxury of a gold standard, it would have been necessary for it, in order to maintain the currency equilibrium, to admit not merely that it was poor in the present but that it intended to remain poor in the future, as any access of wealth at a future date would have involved the adoption of the more fashionable standard

"For my part I have always recognised that there was no permanent halting place between a return to the old system of double legal tender and the gradual extension of the gold standard to all civilized countries

"In the very first Financial Statement which I had the honour to deliver in this Council, I made the following remark

'It is needless to say that the question of the future relations between the gold and silver standards is one of great importance for India The present condition is not one of permanent equilibrium Either there will be continuous progress in the direction of demonetising silver and substituting gold, or the world will revert to the old system of double legal tender

"In the twenty years during which the Battle of the Standard has raged no practical measures have been taken for the purpose of restoring the old stability of value between the precious metals, and the only measure that has been adopted with the view of maintaining the value of silver is the purchase of that metal by the United States That country has made a great effort to maintain

the value of silver, firstly, by large purchases under what was known as the Bland Bill, and latterly by still larger purchases under the Sherman Act As it happens, the purchases of silver by the United States have latterly been contemporaneous with one of those great increases in the production of that metal of which the history of the precious metals affords several examples The Government of India have also kept open their mints, and in recent years India has absorbed a very large amount of silver But the crisis to which I called attention in March 1889 has at length arrived No international agreement has been obtained, Austria-Hungary and Roumania have definitely adopted the gold standard, and Russia is known to have accumulated large quantities of that metal When I explained the financial position of the Government of India at the beginning of the current year, I had to point out that in two years the fall in the rate of exchange had added Rx 4,142,000 to the Indian expenditure Gloomy as was the account which I then rendered to this Council I am far from suggesting that the case was hopeless if only we could have secured some stable rate of exchange On the contrary, I am satisfied that if exchange did not fall below the very low figure taken in the Budget or if it did not fall materially below that figure there would have been no insuperable difficulty in the way of restoring financial equilibrium But the really serious feature of the case was that there was no reason for hoping that exchange would not fall below the very low figure of last March, and that there was, and could be, no guarantee against frequent and excessive fluctuations Above all we were exposed to the risk that the United States might suddenly cease to purchase silver I estimate that if these purchases were suddenly stopped, India would have to absorb a further sum of about Rx 8,000,000 worth of silver yearly, and an additional burden of this magnitude suddenly thrown on India's trade with Europe would have a depressing effect on exchange, the extent of which it is impossible to foresee The additional expenditure imposed on India by this cause would have brought us to national bankruptcy, or within a measurable distance of it

"It has been urged upon me by an authority upon questions of Indian currency, and one whose opinions I highly value that even in the case I have supposed it would be better for India to repudiate her obligations, and accept bankruptcy rather than attempt to change her standard That opinion I do not share, although I have been a bimetallist for years, am still a bimetallist, and am by no means certain that the Battle of the Standard will be finally closed by any measure this Council may pass to day, or even by the cessation of her silver purchases on the part of the United States of America For weal or woe, India has entered the ranks of civilization Her territory has been opened up by railways, the progress of human invention has brought her into close and daily contact with the great countries of the West, her trade and commerce increase year by year, and the tide has so far turned in her favour that she has made a most promising beginning in the export of manufactured goods The adoption of the same standard of value as that of the countries with which she maintains intimate financial and commercial relations, and whom she hopes to rival, is a necessity of further progress, and the discredit of national bankruptcy cannot and will not be accepted on her behalf

"The Government of India have striven long and earnestly for such a settlement of the currency question as would leave India in possession of the monetary standard to which she has been accustomed, and they have striven unsuccessfully In the opinion of Her Majesty's Government, the time has come to take a new departure

"A recital of the efforts which have been made by the Government of India during the last twenty years for a settlement of the monetary question would be a dreary catalogue of repeated failures No practical purpose would be served by recalling them to mind at the present time, but it may not be uninteresting to the general public to call attention to the recent proceedings which have led up to that decision to establish a gold standard in India which I am now explaining to this Council

"In the beginning of 1892 the Bengal Chamber of Commerce called the attention of the Government of India to the fluctuations in the relative value of gold

and silver, and, with reference to the fact that the United States had invited the different Powers to a Conference for the purpose of considering the monetary question, the Chamber urged that the Government of India should promote an international agreement for the free coinage of gold and silver at a fixed ratio, and that, failing any such agreement, steps should be taken to have the question of a gold standard for India carefully and seriously considered by competent authorities The Government of India practically accepted the views of the Chamber, and recommended to the Home Government, firstly, that if the United States of America or any other Government should make proposals for the holding of an International Conference for the settlement of the silver question, the strongest support should be given to those proposals, and, secondly, that if it became evident that the International Conference was unlikely to arrive at a satisfactory conclusion, and if a direct agreement between India and the United States was found to be unattainable, the Indian mints should be closed to the free coinage of silver and arrangements made to introduce a gold standard

"An International Conference was duly held, and the representatives of India took part in it, but no conclusions, satisfactory or otherwise, were arrived at, and no separate agreement between India and the United States was concluded In the meantime, and before the International Conference met, a Committee was appointed under the presidency of Lord Herschell to advise as to whether it was expedient that any steps should be taken to modify the Indian Currency Act This is the Committee which has attracted so much attention in India, and which has recently made its report to the Secretary of State

"It will be understood that the attention of this Committee was not directed to the question of the expediency or feasibility of obtaining a remedy by means of a general international agreement, or by means of an agreement between India and the United States, but solely to the question of the expediency of attempting to establish a gold standard in India, that being the remedy which the Government of India had advocated in the last resource, and failing the other suggested remedies The question referred to the Committee is thus stated in the first paragraph of their Report

'The question referred to the Committee by Your Lordship is whether, having regard to the grave difficulties with which the Government of India are confronted through the heavy fall in the gold value of silver, it is expedient that Her Majesty's Government should allow them to carry into effect the proposals which they have made for stopping the free coinage of silver in India with a view to the introduction of a gold standard And if we are of opinion that there is no sufficient ground for overruling the Government of India, but that the measures by which they propose to attain their object require modification, we are asked to offer any suggestion that we think fit for the purpose'

"The practical measures which the Government of India had proposed for the introduction of a gold standard into India, assuming that the other suggested remedies had failed, were the following

1st, the stoppage of the free coinage of silver at the Indian mints by legislative enactment,

2nd, the grant of power to the Government of India to declare by notification that sovereigns were legal tender in India at any rate not exceeding *1s 6d* per rupee

"It was not proposed that the mints should be opened to the free coinage of gold as soon as they were closed to silver, or that a ratio should be declared at once between gold and the rupee, but it was intended that the effect of closing the mints should be watched for some time, and, if it were found that the rate of exchange was rising to an extent which was injurious to the welfare of the country, that the Government should interfere at once and check the rise by declaring the sovereign to be a legal tender at a certain rate The highest rate which the Government of India were to be authorised to declare under any circumstances was *1s 6d* per rupee

"The Committee discussed the question of a gold standard for India in all its bearings Their Report will be published to day in India, and to that Report I must refer those who wish for full information on the subject They came to the conclusion that, although there are objections which

possess weight to any attempt being made to introduce a gold standard into India, yet, in view of all the circumstances of the case, this is the course that should be adopted, and they proposed one modification of the scheme put forward by the Government of India The Government of India had proposed to close the Indian mints to the free coinage of silver, to take power to declare the sovereign to be a legal tender at a rate not exceeding 1*s* 6*d* per rupee, and to await the result of closing the mints, and be guided by the experience thus obtained in deciding on future action

"To these proposals objection was taken on the ground that, if the mints were simply closed and no further steps taken, there might be a sudden and considerable rise in exchange which would have injurious consequences and excite apprehension in the public mind

"For these reasons the Committee recommended that, as soon as the mints were closed to silver, arrangements should be made for the issue of rupees at the Indian mints in exchange for gold at the rate of 1*s* 4*d* the rupee, and for the receipt of sovereigns at the Indian Treasuries in payment of Government dues at the rate of fifteen rupees per sovereign These proposals have been accepted by the Government of India and approved by Her Majesty's Government, and the Bill which I now propose to introduce is intended to give practical effect to the scheme

"The Bill which I am about to introduce provides for the closing of the Indian mints to the free coinage of silver, Government retaining the power to coin silver rupees on its own account

'The arrangements for the receipt of gold at the mints at a ratio of 1*s* 4*d* per rupee will be made by executive order, and so will the arrangements for the receipt of sovereigns in payment of sums due to Government at the rate of fifteen rupees for a sovereign

"Gold coins will not for the present be made a legal tender, and consequently nobody will be compelled to receive them instead of silver rupees unless he is willing to do so

"The Government have also abandoned their intention to take power to declare sovereigns a legal tender at any rate not exceeding 1*s* 6*d* per rupee

"The ratio of exchange between gold and the silver rupee has not been finally settled The making of gold legal tender, and the ratio of exchange as compared with the rupee at which gold shall be made legal tender, are matters which must be settled hereafter by legislative enactment and in the light of future experience"

The Motion was put and agreed to

The Hon'ble SIR DAVID BARBOUR said —"I now introduce the Bill, and move that it be taken into consideration at once The provisions of the Bill are extremely simple and the only change of any importance that it is intended to effect by means of it is to provide for the stoppage of the free coinage of silver at the Indian mints

"As, however, the Bill, though so simple in itself, is intended to carry out a most important change in the Indian currency, I will explain its provisions in detail

"In the first place, the Bill repeals sections 19 to 26 (both inclusive) of the Indian Coinage Act, 1870 These are the sections which provide for the coinage of all gold or silver brought to the mints by private persons The quantity of gold brought to the mint for coinage is quite trifling, and as the gold coins now coined at the mint are not legal tender, and as they will doubtless be superseded altogether when gold is made a legal tender, it is undesirable that any more of them should be coined This is the only change which is made in the Indian Coinage Act, 1870

"The Bill also repeals clauses (*b*) and (*d*) of section 11 of the Indian Paper Currency Act, 1882, and the proviso to that section

"Clause (*b*) refers to silver coin made under the Portuguese Convention Act, 1881, and, as that Convention has come to an end, the clause is no longer required

"Clause (*d*) provides for the issue of notes by the Department of Paper Currency in exchange for silver bullion or foreign silver coin, and, if it were retained, it would permit of rupees being obtained for silver as at present

"The stoppage of the free coinage of silver at the Indian mints necessarily involves the repeal of clause (*d*), and the proviso ceases to have any meaning when clause (*d*) is repealed

"In section 12 of the same Act an allusion to clause (*b*), which is now repealed, is struck out

"Section 13 of the Indian Paper Currency Act provides for a portion of the metallic reserve of the Paper Currency Department, not exceeding one-fourth, being held in the form of gold As the standard of India will in future be gold, the limitation of one fourth is no longer required, and so much of the section as limits the proportion of gold to one fourth is repealed Sections 14 and 15 of the Act are entirely repealed They refer to bullion or foreign coin tendered under section 11, clause (*d*), or section 13, and they are no longer required, because clause (*d*) of section 11 will now be repealed, and because it is not intended for the present that private persons should be allowed to tender gold for notes under section 13

"Certain alterations are also made in sections 21 and 28 to bring these sections into accord with the Act as now proposed to be amended

"I may here mention that a notification will be issued under authority of section 13 of the Paper Currency Act, 1882, as now amended, providing for the issue of notes by the Paper Currency Department in exchange for gold on the requisition of the Comptroller General The object of this notification is to enable that officer to pass gold into the Paper Currency reserve if it should accumulate to an inconvenient extent in the Government Treasuries

"A notification will also be issued under executive authority authorising the public treasuries to receive sovereigns of current weight in payment of Government dues at the rate of fifteen rupees for one sovereign

"Another notification will be issued under the same authority authorising the Masters of the Mints at Calcutta and Bombay to issue, under suitable conditions, silver rupees for gold at the rate of one silver rupee for 7 53344 grains troy of fine gold This corresponds to an exchange of 1s 4*d* per rupee

"These three notifications will be issued as soon as the Bill is passed

"Before calling on the Council to pass the Bill, it will be well that I should notice briefly some of the objections which have been taken to the introduction of a gold standard into India These objections have been very fully discussed by the Committee of which Lord Herschell was President, and the arguments for and against the proposal to introduce a gold standard into India will be found stated at length in their Report

"It has been said that the divergence in the relative value of gold and silver is due to the appreciation of gold and not to the depreciation of silver, and, if this be the case, it may fairly be argued that the introduction of a gold standard into India is wholly unjustifiable

"With regard to this argument, I have a preliminary observation to make The words appreciation and depreciation as applied to the standard of value are ordinarily used without a precise meaning being attached to them They are words which I would rather not use at all if their use could be avoided, but in answering the argument to which I have just referred I must employ them, and I wish it to be understood that for present purposes I attach to them the somewhat indefinite meaning which is usually given to them In other words, by appreciation or depreciation of the standard of value I intend to denote a rise or fall in value due to causes primarily affecting the metals themselves rather than the commodities of which the price falls or rises as the standard appreciates or depreciates Using the terms in this sense, I have to remark that when gold and silver alter in relative value, it does not necessarily follow that the whole change is due to the appreciation of the one metal or the depreciation of the other There may be simultaneously

appreciation of one metal and depreciation of the other Or a metal may appreciate at one time and depreciate at another I must say that it does appear to me that there was appreciation of gold after 1873 rather than depreciation of silver There was a greatly increased demand for gold at that time, while the production was rather falling off, and there was a very great fall in prices These facts seem to me to point very clearly to appreciation of the gold standard, and there are other arguments leading to the same conclusion which I need not enumerate at present On the other hand, there is equally good evidence that silver has depreciated during the last few years Notwithstanding the fall in the price of that metal, the total production has continued to increase rapidly, and, notwithstanding the fall in exchange, the imports of silver into India are larger than before There has also been a distinct tendency during the same time towards a rise in Indian prices, and many complaints have been heard from persons on fixed incomes

" The introduction of a gold standard at the present time may, therefore, be more correctly described as a measure intended to stop the present process of depreciation rather than as causing appreciation

" It may, of course, be argued that there is likely to be an injurious appreciation of the gold standard in the future, and here we enter on very debatable and speculative ground, and there is really no means of coming to a positive decision either one way or the other The question appears to me to resemble those problems that certain people are so fond of putting forward, such as what will happen when all the coal in the world is used up It is not possible to arrive at any conclusion on such questions, and from a practical point of view they possess little interest for us If it is the case that entire store of coal will in time be exhausted, we possess no means of averting that result, and we had better leave the problem to those who will be affected by such a calamity At present the production of gold is increasing, and there appears every prospect of its continuing to increase for some years at any rate Whether in the long run demand will outstrip supply to such an extent as to cause an injurious appreciation of the standard is one of those questions affecting the future which we have no means of deciding, and with which we need not concern ourselves

" If gold does appreciate, we shall at any rate be no worse off than the other nations which have adopted that standard, on the contrary, we shall be better off, for we shall have escaped any appreciation which may have occurred in the last twenty years

" Another objection is that with an overvalued rupee there will be great risk of false coining I do not say that there will be no risk of false coining, but the experience of countries in which the silver currency has been overvalued for a number of years shows that this danger has been exaggerated False coining on a small scale is not very profitable, and would not be productive of much mischief so long as the coins were made of good metal False coining, on a larger scale could not be carried on without the use of expensive machinery, and is practically impossible In any case, if there is to be false coining, it will affect other countries long before it becomes common in India The inducement to manufacture and issue false coin is the amount of profit to be made, and the amount of profit will be much greater in America, France, England, and other countries than it will be in India, because the silver coins will be overvalued to a greater extent in those countries than they will be in India

" It has also been said that if India has a gold standard, the countries which retain the silver standard will have an advantage over India in the production of commodities for export I attach no importance to this argument so long as the Indian standard is in itself a good one A sudden rise in exchange will injuriously affect certain industries for a time A sudden fall in exchange may give them an undue amount of profit and supply a temporary and artificial stimulus But the principles which regulate international trade rest on a totally different basis, and it seems to me an obvious truism that our manufactures and our commerce will advance more rapidly under a system which gives India the same standard of value as her principal customers than they could possibly do under a system which give us one standard of value and our chief customers a different one, the two standards varying in relative value from time to time in a manner which defied calculation

"There remain certain objections which appear to me to possess weight

"There is no doubt that the making of the rupee a token coin will be a source of loss and inconvenience to persons in India who possess uncoined silver, and that the adoption of a gold standard by India will injuriously affect to a greater or less degree our trade with silver using countries beyond sea, our trade with the Native States of India, and our frontier trade with Foreign States

"The answer to these objections is that the question of the adoption of a gold standard must be decided not with reference to any one consideration, or to a limited number of considerations, but after a careful examination of all the circumstances of the case, and that we must decide where the balance of advantage lies and act accordingly It is true that persons who hold uncoined silver will lose, but, on the other hand, the same persons generally hold rupees also, and in respect of their coined silver they will gain If our trade with silver using countries will be injuriously affected, our trade with gold using countries will be beneficially affected in a corresponding degree, and the latter branch of our trade is much larger and more important than the former It is more than probable that some of the silver using countries with which we trade will also adopt the gold standard, and as time goes on the tendency will certainly be in that direction if we succeed in establishing gold as the standard of India It is also quite possible that some or most of the Native States of India may decide to adopt the gold standard, and our land trade with foreign countries is not very important, and is subject to so many drawbacks already that a difference of standard will be anything but an insuperable obstacle

"There is one difficulty connected with the introduction of a gold standard into India which requires special notice When the Indian mints are closed to the free coinage of silver, the currency of India will become a token currency of unparalleled magnitude without a reserve of gold, and this currency will be liable to have additions made to it by rupees being returned to India from the various foreign countries in which they now circulate, and by rupees being transferred from the hoards in which they are now held

"Under such circumstances it may well be asked whether it will be possible for us to make the gold standard effective at once In other words, will the rupee be worth as much as 1*s* 4*d* from this day forward?

"To this question I cannot give a confident answer, and I do not believe that it is possible for any one to do so I have no doubt but that rupees will be returned from foreign countries, but I do not think the amount so returned will be excessive There is some risk of large quantities of rupees being thrown into the circulation from hoards, and I was formerly of opinion that the probability of this course being followed amounted to a serious danger In recent years I have attached less importance to this aspect of the question I think that the process of bringing rupees out of the hoards in which they lie would in any case be slow, that it might never take place on any considerable scale, and that the risk would be greatly lessened if the business of establishing the gold standard be so managed as to maintain confidence and prevent panic It may be that the gold standard can be made effective from the first, though it will not be secure until there is a considerable amount of gold in our treasuries and banks Or it may be that the making of the gold standard effective, and the establishment of it on a secure basis, will involve a long and arduous struggle and necessitate heavy sacrifices Time alone can show which view is correct But whatever the sacrifice and trouble of attempting to establish a gold standard may be, they must be faced, and the object we have in view is one which would, I submit, justify us in running even greater risks Our present position is not such that we can avoid risk and loss by avoiding action, and an attempt on our part to permanently maintain the silver standard under present conditions would, in my opinion, involve peril to this country of the most serious character"

The Hon'ble MR MACKAY said —"I have had occasion to say a good deal on the Indian currency question during the past year or two, and I do not consider it necessary to say more at this time, but I cannot give an altogether silent vote on such an important Bill as that now before Your Excellency's Council

"I am completely in accord with the provisions of the Bill just introduced by the Hon'ble Sir David Barbour, and with the greatest deference I venture to congratulate Your Excellency on having succeeded in bringing forward a measure which will have the effect not only of restoring the finances of the country to a satisfactory condition, but which will also impart to trade and commercial transactions that legitimate amount of certainty of which they have been deprived for the past twenty years The measure at the same time relieves the country of that dread of additional and seriously disturbing taxation which has been weighing upon it for some time past I look forward to a new era of prosperity and progress for India, and also to a great development of the resources of the country through the attraction which will now be given to British capital, and I look upon the assimilation of the English and Indian standards of value as a removal of the only barrier which has hitherto prevented India from taking her place amongst the great commercial and industrial nations of the world It would have been well for India had the step taken by Your Excellency's Government to day been adopted fifteen years ago In the interval not only has the natural progress of the country been retarded, but actual and serious injury has been inflicted on many important interests However, it is useless to look back with regret on what might have been We are content to accept the benefit, late as it is, which is now at last being conferred upon the country, and we look forward to the future with renewed hope and confidence"

The Motion was put and agreed to

The Hon'ble SIR DAVID BARBOUR said —"I now move that the Bill be passed, and in so doing I wish to add a few words, by way of caution and advice, to what I have already said It is impossible to exaggerate the importance of the step which Her Majesty's Government and the Government of India have taken in deciding to establish a gold standard in India, but that step has been taken after the fullest discussion and with a deep sense of the responsibility which has been incurred It is the intention of the Government of India to carry the measure to a successful issue if it be within their power to do so, and I trust that they will receive the unswerving support of the Indian public in the course which they have adopted—a course which was adopted in the belief that it was essential to the welfare of the whole Indian community

"If it should happen, as it may, that the gold standard is effectively established in India from this day, I desire to urge that no undue elation should be exhibited, and that no precaution should be relaxed The change of the Indian monetary standard is a measure which will have far reaching and possibly unexpected results, and the gold standard cannot be considered to have been securely established in India until it has stood the test of time and borne the shock of those financial storms which sometimes arise in the clearest skies On the other hand, I would equally urge that we should not give way to alarm and despair if we should find ourselves confronted with serious and unexpected difficulties The measure which we are engaged in carrying out has been adopted both with a full knowledge that serious difficulties might be encountered, and with a firm determination to overcome them if it be within our power to do so The secure establishment of a gold standard in India may be a work of time, and may involve heavy sacrifices, but what other road to safety is open to us? We all know the troubles that have been brought upon this country during the last twenty years by the difference of standard between India and England Are we prepared to face another such period, and are our troubles likely to be less if we go back to the old state of things after hastily abandoning the attempt to establish a gold standard?

"It has sometimes appeared to me that there were persons who held the opinion that the establishment of a gold standard would be a source of endless wealth to the Government of India I know no good foundation for that belief I hope and believe that the establishment of a gold standard will relieve the Government of India from an ever growing cause of expenditure and from harassing fluctuations, and that it will promote the general welfare of the community But the gold standard is not in itself a source of income, and it will be as necessary under a gold standard to practise the old fashioned virtues of economy and prudence as it was under the silver standard, and the neglect to do so will involve

the same consequences in both cases I will even go further and say that economy is specially incumbent on the Government of India during the next few years Confidence is a plant of slow growth in the financial world, and the people of India are apt to distrust anything that presents a novel appearance If the public lose confidence in the success of our measures, the difficulties of establishing and maintaining the gold standard will be enormously increased

"There are two lines of policy by which I think it is possible to promote confidence, and I earnestly commend them to those who may be entrusted with the management of the Indian finances during the next few years The first is to take care that each succeeding year shall close with a substantial surplus, and the second is to avoid at all hazards any increase of the home charges

"I am afraid there is not much originality in these recommendations, but they are the best which one and twenty years' experience of Indian finance enables me to offer"

His Excellency the PRESIDENT said —"I should like to say a few words before I put the motion to the Council

"We shall not, I trust, be considered open to criticism because we are disposing of this question—one of the most important which has ever come before the Legislature of this country—without going through the usual forms of our legislative procedure, and in the absence of those Additional Members of Council who do not happen to be in Simla It will be obvious to every one that, for reasons upon which I need not dwell, the decision which has been arrived at must be carried out forthwith, and that a prolonged discussion of this Bill, or even its amendment in any essential particular, would not be admissible

"We may, however fairly contend that, if the question is being dealt with at this stage as if it were a matter of executive administration rather than one for the deliberate consideration of the Legislature, no question has ever been subjected to more thorough discussion out of doors than that with which we are concerned this morning No debates in Council could be so instructive or so exhaustive of the subject as the discussions which have been proceeding in the public press and at public meetings upon the currency question during the last year or two

"There is therefore, I venture to think, no occasion for travelling again over the old ground or for arguing at length whether it was, or was not safe to leave this country at the mercy of a fluctuating exchange, or whether the alleged advantages accruing to certain branches of our trade under a falling exchange were, or were not, greater than the troubles and difficulties which have already overtaken us, or than those further troubles and difficulties which would have beset us had exchange been allowed to fall to a still lower level

"It was, I think, pretty well understood that the Government of India had some time ago arrived at a conclusion both as to the extent of the danger and as to the proper means of encountering it The scheme however, which we are laying before you does not rest upon our authority alone, and we are relieved from the necessity of justifying it, as we should have been expected to justify it if it had been accepted by the Secretary of State merely upon our unsupported recommendation We are in this position, that the proposal which we had laid before Her Majesty's Government a year ago is now accepted not only by them, but by that Committee of experts for whose verdict we have been waiting so impatiently during the last few months

"When the composition of that Committee is considered, when we remember how many different schools of economical science were represented upon it, when we recollect how confidently it was predicted, even up to the last moment, that its members could not possibly agree in their conclusions, the fact that they have found it possible to sign with practical unanimity the Report which will be published in to day's Gazette shews, I cannot help thinking, conclusively how strong our case was, and gives to the recommendations of the Committee a weight and a force which may be described without exaggeration as overwhelming I feel, therefore, that I should be merely wasting the time of the Council, without contributing anything to the information which will shortly

be accessible to the public, if I were to attempt to add to that which will be found within the limits of Lord Herschell's Report. I will, therefore, merely venture to call the attention of those who will read that remarkable State document to one or two of the conclusions which it has established. And here let me, in the name of the Government of India, and I hope, I may say, in the name of the people of this country, express our obligation to Lord Herschell and to his colleagues for the patience and thoroughness with which they have investigated this intricate problem, and for the thoughtfulness with which they have taken into their consideration all the different aspects of a question in which so many interests and classes are concerned.

"The Report of the Committee will, in the first place, I think, render it no longer possible for any one to tell us, as we have sometimes been told, that this currency question was merely a grievance of the Indian services, or that the Government of India was interested in it only because we desired to extricate ourselves from the embarrassment occasioned by the instability of our finances. The Report of the Commission has once and for all, shewn that far wider issues than these are involved—issues affecting not merely certain interests and certain classes of the community, but every interest and every class throughout the Indian Empire.

"Upon the question of the effects of fluctuations in exchange upon the commerce of India the Committee speak with no uncertain voice. They report that there seems to be a common agreement amongst those who differ in their views upon almost all other points that trade is 'seriously harassed' by these fluctuations, and, after a careful examination of the arguments adduced in support of this view they express their opinion that 'it cannot be doubted that it would be well if commerce were free from the inconveniences of fluctuations which arise from a change in the relation between the standard of value in India and in countries with which her commerce is transacted.' And with regard to the deterrent effect of these fluctuations upon the investment of capital in India, they observe that 'there can be no doubt that uncertainty as to the interest which would be received for the investment, and as to the diminution which the invested capital might suffer if it were desired to retransfer it to this country, tends to check British investments in India.' That is precisely the view which has been again and again urged with great ability by the Association over which our hon'ble colleague Mr. Mackay has presided, and which has done such excellent service in familiarizing the country with the details of the currency question. It is a view which, as I have on more than one occasion publicly said has always seemed to me indisputably sound, and it is satisfactory to find that this view is unreservedly accepted by Lord Herschell and his distinguished colleagues.

"In another passage of the Report the Committee mention that the evidence before them points to the conclusion that during recent years the silver price of Indian produce has risen, and they add that 'if, as experience shows, wages respond more slowly to the alteration in the value of the standard this rise in the price of produce must have been prejudicial to the wage earning classes.' They sum up this part of the case in these remarkable words:

'The above facts give reasons for believing that the recent fall in silver coupled with the open mint has led India to import and coin more silver than she needs, and the worst of the evil is that it is a growing one. Every unnecessary ounce of silver which has been, or is being, imported into India is a loss to India so long as silver is depreciating in gold value, for it is, *ex hypothesi* not needed for present use and it can be parted with only at a sacrifice. So far as the open mints attract unnecessary silver to India they are inflicting a loss upon the people of the country, and benefiting the silver producing countries at the cost of India.'

"While these are the effects which have been produced by fluctuations in the rate of exchange up to the present time, the Committee leave us in no doubt that the evils which we have hitherto experienced may be as nothing compared with those still in store for us if we are content to allow matters to drift.

"The Report dwells upon the large purchases of silver made by the Government of the United States under the Bland and Sherman Acts, and upon the fact that, in spite of these purchases, the price of silver has fallen

to its present low level They go on to express their opinion that, even if no change were to be made in the currency arrangements of the United States, the experience of the past would forbid the conclusion that the price of silver would be stationary at its present level It would, they say, under these circumstances be imprudent to act on the assumption that no further fall is possible, or even probable It is, however, as we are all aware, a matter of notoriety that the early repeal of the Sherman Act is possible The Committee dwell upon the heavy further fall which would certainly follow upon the repeal of the Act They express their opinion that such a fall would not necessarily diminish the production of silver, and that under such circumstances 'it cannot be regarded as otherwise than within the reasonable bounds of possibility that the repeal of the Sherman Act might lead to a fall in the price of silver of even 6*d* per ounce or more, and that there might be no substantial reaction from the level thus reached' 'It may,' the Commissioners think, 'be said with practical certainty that such a fall would reduce the exchange to about a shilling per rupee, and would involve the necessity of raising at least Rx 6,612 000 more than would be required by the Government of India to effect, even at the rate of exchange of 1*s* 3*d* per rupee, a remittance of the amount drawn last year, namely, £16 530,000 sterling while the payment of £19,370,000 sterling, which is the present estimate of the drawings for 1893 94 would, at 1*s* 3*d* per rupee, require Rx 30,992,000, and, at 1*s* 0*d* per rupee Rx 38 740,000, involving an increase of Rx 7,748,000'

These are not the gloomy vaticinations of harassed and querulous Indian officials, but the deliberately expressed anticipations of such men as Mr Leonard Courtney, so well known as Chairman of Committees of the British House of Commons, and a recent convert to bimetallism, Sir Thomas Farrer, for many years the distinguished Secretary of the Board of Trade, and an eminent Political Economist and Free Trader and Sir Reginald Welby, the Secretary of the Treasury, an official of exceptional experience who had, moreover, previously been a Member of the Committee which in 1878 issued an unanimous report against another proposal founded upon the closing of the Indian mints to the free coinage of silver

"With these prospects before them, the Committee find themselves face to face with that dilemma to which reference was made in the discussion upon the Financial Statement at Calcutta in March of the present year It is recognised that the Government of India has to choose between a change in its currency arrangements and the imposition of increased taxation which, if the figures which I have just cited are to be taken as a guide, might be of the most formidable and onerous character The possibility of increasing our revenue by means of additional taxes is examined by the Committee in a series of paragraphs which I earnestly recommend to the attention of those who would have us leave the currency alone and restore equilibrium between income and expenditure by means of additions to the burdens of the country

"The Committee say that they are not in a position to determine whether the apprehensions which have been expressed to them that increased taxation cannot be resorted to without grave mischief are exaggerated or not, but they add this very significant observation

'It is not easy to see how the burden of the added taxation which would be requisite to counterbalance the fall in exchange could be made to rest on those who might with the most justice be subjected to it, or how the added revenue could be provided, except in a manner opposed to sound principles of taxation'

"I think, then, that I may sum up this part of the case by saying that it has now been established almost beyond controversy that to leave matters as they were meant for the Government of India hopeless financial confusion, for the commerce of India a constant and ruinous impediment, for the taxpayers of India the prospect of heavy and unpopular burdens, for the consumers of commodities a rise in the prices of the principal necessaries of life, and for the country as a whole a fatal and stunting arrestation of its development

"My Hon'ble Financial colleague has explained to the Council the precise nature of the proposals of the Committee—proposals which we have thought it our duty to accept—and wherein they differ from those which we had ourselves submitted to the Secretary of State

"The scheme of the Committee may be described as being not so much an alternative to our own as a modification of it It is our scheme with the addition of safeguards and precautions—safeguards and precautions which appear to us to be wisely conceived The feature which both schemes have in common is the essential feature of both, both are based on the closing of the mints to free coinage with the object of eventually introducing a gold standard into India upon terms as equitable as can be devised in the interests of all concerned, and with a minimum of disturbance to the business of the country

"I may say, too, that both schemes have for their main object the prevention of a further fall in the value of coined silver rather than the enhancement of its value greatly beyond the present level The difference between the Government of India and the Committee may be said to lie mainly in this, that the Committee have given more prominence than we had given to this aspect of the case The keynote, so to speak, of the Report is to be found in the opinion recorded in paragraph 135, to the effect that 'to close the mints for the purpose of raising the value of the rupee is open to much more serious objection than to do so for the purpose of preventing a further fall'

"It is then mainly with the latter object that the Committee advocate putting a stop to the free coinage of silver That is a view which will, I cannot help thinking, be generally accepted as a just and reasonable one The step recommended by the Committee will not produce any violent disturbance of values It will, to use the words of Messrs Farrer and Welby, 'not materially alter the present relations between debtor and creditor, but, on the contrary, prevent those relations being altered in the future by a further fall'

"It has also this further advantage, that it provides an automatic means whereby it will be possible to prevent the closing of the mints from leading to a sudden and violent disturbance in the rate of exchange I refer of course to the provision that any person may hereafter bring gold to the mints and obtain for it rupees at the rate of 1*s* 4*d* per rupee, and that gold may be tendered in payment of Government dues at the same rate, which is equal to one sovereign for Rs 15 I need scarcely explain that the effect of this will be that, should exchange show a tendency to rise in the open market beyond the rate originally fixed should it, for example, rise to a ratio giving, let us say, 1*s* 4½*d* as the equivalent of the rupee, or something less than Rs 15 for the sovereign, it will at once become advantageous to bring gold to the mint, and to exchange it at the full rate of one sovereign for Rs 15 In this manner, by a self acting process, a rise beyond the level which has been provisionally indicated will be rendered impossible so long as that limit remains in force

"These precautions will, I hope, go far to allay the apprehensions of those who mistrust the idea of any attempt by Government to increase artificially the value of its currency Upon the other hand, the provisional ratio which the Committee has recommended, and which may, should circumstances hereafter require it, be raised, is sufficiently high to afford the Government of India immediate and substantial relief from its most pressing difficulties Had the ratio been fixed lower in the first instance, I do not see how it would have been possible for us to avoid adding to the taxation of the Empire

"I would venture to ask those who take exception to the enhancement of the gold value of the rupee from the rates prevalent lately to 1*s* 4*d* upon the ground that such a fluctuation involves a disturbance of the markets whether this small fluctuation is comparable in its importance with those to which we have had to submit during the last few years, and to which, if we were to leave matters alone, we should, no doubt, still be exposed

"I will only add for the benefit of those who may not have leisure to study the Report that there should be no mistake as to the following points

"First, although we propose to introduce a gold standard, no attempt is to be made to get rid of the silver currency to which the people of this country have been so long accustomed The experience of other countries, as to which the Report has much to say, [and there is no part of it which is better worth reading] has, the Committee tell us, shown that it has been found possible

by the adoption of different systems to maintain a gold standard and a substantial parity of exchange with the gold using countries of the world without a gold circulation, without a large stock of gold currency, and even with a silver currency not legally convertible into gold The Committee admit with the fairness which characterizes their Report that in no one of the countries of which they have cited the example has silver been so largely and so exclusively used as in India, and there can be no doubt that, as Sir Thomas Farrer and Sir Reginald Welby have put it in their separate Report, the effect of this measure will be to give us a token currency of unparalleled magnitude The Committee sum up this part of the case by the very reasonable observation that, although the cases of Scandinavia, Holland, Canada, the Dutch East Indies, and the countries of the Latin Union are not in all respects applicable as precedents to the case of India, the experience derived from the currencies of those countries is not without value as bearing on the questions which we have to consider

"In the second place, it will be observed that for the present no attempt will be made to fix the legal tender price for gold In this respect also the proposals of Lord Herschell's Committee differ from ours for reasons which have been explained by the Hon'ble Financial Member

"Thirdly, it will be seen that the ratio recommended by the Committee is fixed provisionally and not permanently, and that the provisional ratio is well within the limits of recent variations

"I might say more, but I feel that I cannot add usefully to what has been already said with an authority to which I cannot pretend in the Report of the Committee I will make one other observation only It is true that our responsibility in this matter has been, as I said at first, to some extent diminished by the fact that the measure before the Council has not only our support, but that of Her Majesty's Government and that of the Members of the Herschell Committee, but we do feel, nevertheless, very deeply the gravity of the step which we are about to take For myself, I may say that I hold very strongly that all attempts to give a fictitious value by legislation to money or commodities are upon principle to be deprecated The less Government has to do with such enterprises, the more we can trust to the ordinary influences of demand and supply, and to the open traffic of the markets, the better for all concerned • But a time may come when inaction is no longer possible, and when a Government would be unworthy the name of a Government if it were to stand aside and leave things to take care of themselves We believe that such a time has come in India, we believe with Lord Herschell's Committee that a further fall in the gold value of silver is probably imminent, and that such a fall would have disastrous effects for this country if we were still to allow its mints to remain open for the receipt and coinage of any quantity of a depreciated and discredited metal We know that other countries have discarded that metal and have prospered, and we see no reason why we should be precluded from following their example We have borne long enough with a state of things which is becoming more intolerable with every year that passes and which in all human probability would have become more intolerable still We feel that, holding these views, we should be culpable if we did not attempt to place the finances of India on a more stable basis We admit the immense difficulty of the problem and the uncertainties by which it is surrounded, and we offer this solution not as one which is ideally perfect, but as the best which can be devised

"We are hopeful that it will afford relief not to ourselves merely or to our employés, but to the country as a whole We are, however, far too well aware of the intricacy of the problem and of the risks attending such an experiment as that which we are about to try to take this momentous step with a light heart In a case of this kind, the most obvious economic and scientific laws do not always prevail You may provide for all the known factors in your calculation only to find that there are others which you have overlooked or been unable to estimate But, in spite of these misgivings, we earnestly hope that our proposals may be fruitful of good, that the commerce of India may be relieved from an impediment which has retarded its progress, that the Government of India may be enabled to meet its obligations without adding to the burdens of the taxpayer, and that capital will flow more freely into this country without the adventitious

stimulus which we have hitherto been unable to refuse We trust, finally, that in process of time sufficient reserves of gold may be accumulated to enable us to render our gold standard effective, and thereby to complete the great change towards which we are taking the first steps to day

"Time only can show whether all these hopes will be fulfilled or be disappointed In the meanwhile, I earnestly trust that even those who regard this measure with most suspicion or reluctance will give us credit for having had the courage of our opinions, and for having taken the only course which seemed to us likely to relieve this country of a burden which has, we believe, seriously affected its welfare in the past, and which would, unless we had intervened, have still more seriously paralyzed her energies and retarded her advance in the future"

The Motion was put and agreed to

The Council adjourned to Thursday, the 20th July, 1893

S HARVEY JAMES,

SIMLA, | *Secretary to the Government of India,*

The 26th June, 1893 | *Legislative Department*

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weather Review of India for the week ending at 8 a.m. on Saturday, June 24th, 1893

Monsoon conditions have prevailed throughout the Indian region during the week under review. Pressure has been highest in the extreme south and lowest over the Western desert, but with a band of relatively low pressure running south-eastward from the Punjab as far as Lower Bengal. The wind directions have been fairly normal, the wind blowing from the westward across the Peninsula, from south over the Bay, and from east up the Gangetic plain. The pressure difference has been somewhat larger than usual, and the force of the wind has been strong over a large part of the country. Rain has been general over a large part of the country, and the mean temperature has been low.

The chart of the 18th showed the normal distribution of pressure as regards the greater part of the country. Pressure was highest in the extreme south, lowest over Sind and relatively low over the Gangetic plain, with a small centre of depression near Sutna. Gradients were steeper than usual and the monsoon was fresh to strong very generally. In the neighbourhood of the depression near Sutna the wind was cyclonic but elsewhere the wind blew from about the normal directions. There was general rain over all parts of the country, except the south and east of the Peninsula, the Gangetic plain, the Punjab plains, Rajputana, and Sind. Ratnagiri reported over 8, Mercara and Indore over 3, and Kindat and Surat over 2 inches. On the 19th pressure was decreasing, except in Bombay and Tenasserim, where there was a trifling rise. The general distribution was the same as on the preceding day, but gradients were slightly steeper. The winds were unaltered blowing from the normal monsoon directions, except in the neighbourhood of the depression near Sutna, where they remained cyclonic. The force was very generally high. There was no rain reported from the east and centre of the Peninsula or from the extreme north-west of India, but elsewhere the fall was general. Akyab, Tavoy, Mymensingh, Barisal, Dacca, Chittagong, Jhansi, and Jubbulpore reported over 3 inches, and Dera Dun, Surat, and Poona over 2 inches. On the 20th the barometer was rising at some central stations and in Tenasserim and falling elsewhere. The changes were nowhere very large, and there was no practical change in the distribution of pressure or the circulation of the winds. A strong monsoon was blowing generally, and rain was again reported from all places, except the east and centre of the Peninsula and the north-west of India. The amounts were heavier than on the two preceding days. Calcutta and Rajkot reported over 8 inches, Moulmein, Akyab, and Bombay over 5 inches, and Diamond Island over 4 inches. On the 21st the barometer was rising. The rise had been greater in the north than in the south, hence gradients has decreased somewhat, but otherwise conditions were still practically unchanged. There was a well marked cyclonic circulation of the winds around the depression near Sutna, and regular monsoon winds elsewhere. Some showers had occurred over the east of the Peninsula, but there was still no rain over the extreme north-west of India. The heaviest falls were over 5 inches at Surat and Jubbulpore, and over 3 inches at Chittagong, Bombay, Hoshangabad, and Pachmarhi. On the 22nd the barometer was still rising over a large part of the country. Some modifications of the previously existing conditions were shown by the chart. In the first place, gradients for south-east winds had increased very considerably over the Punjab, in the second, the depression near Sutna had disappeared, and in the third, a depression was appearing over Lower Bengal. The relative positions of the areas of highest and of lowest pressures had not changed, and monsoon winds blew very generally. There was no rain of importance over the east of the Peninsula, and only a few showers over the Gangetic plain and the greater part of North-Western India. Elsewhere rain continued general. Chittagong reported over 7 inches, Dacca over

6 inches, Hoshangabad and Saugor over 4 inches, and Silchar over 3 inches On the 23rd the barometer was falling in most parts of the country The decrease had been rapid over Bengal, and a well defined depression was shown there with its centre over Calcutta The wind was cyclonic over Bengal, and blew from normal monsoon directions elsewhere Rain had extended somewhat to North Western India, while, on the other hand it had decreased considerably over the central parts of the country There was still no rain of importance over the east of the Peninsula The following were the principal amounts —Chittagong, Calcutta, Barisal, Berhampore, and Karachi over 3 inches, and Allahabad, Chakrata, Mormugao, Bombay, Karwar, Ratnagiri, and Bhuj over 2 inches The chart of the 24th showed that the barometer was still falling generally, and that the depression over Bengal had drifted somewhat to the eastward In other respects there had been no important change There was still no rain over the centre and west of the Peninsula and very little over the central parts of the country, while on the West Coast the amounts were falling lighter In Arakan the rainfall was very heavy The following were the largest amounts recorded Akyab over 9 inches, Chittagong over 4 inches, and Karwar, Goa, and Karachi over 3 inches

Temperature—Owing to the absence or comparative lightness of the rainfall over the east of the Peninsula and North Western India, the mean temperature of those two regions shows comparatively little depression as compared with the normal, but in all other parts of the country where the rainfall was unusually heavy, the mean temperature was much below the average

The following table shows the variations of the mean temperature from the normal on each day of the week for the different Provinces of India

PROVINCE	JUNE							Mean variation of week
	18th	19th	20th	21st	22nd	23rd	24th	
	o	o	o	o	o	o	o	o
Burma	+1 [illegible]	+0 1	—1 8	—1 8	—1 7	—0 8	—0 2	—0 7
Bengal and Assam	—3 8	—2 6	—3 7	—3 6	—3 6	—3 6	—3 0	—3 4
North Western Provinces and Oudh	—5 4	—6 9	—7 5	—5 5	—5 6	—5 2	—5 1	—5 9
Punjab	—4 4	—3 3	—3 0	+0 2	+1 5	—2 3	—2 0	—1 9
Bombay	—3 2	—2 9	—3 0	—3 9	—3 5	—2 9	—1 5	—3 0
Central Provinces and Berar	—7 1	—7 6	—7 7	—7 6	—7 1	—4 2	—3 3	—6 4
Central India and Guzerat	—3 5	—5 6	—5 9	—4 4	—7 2	—8 2	—7 1	—6 0
Sind and Rajputana	+2 0	+1 2	—0 2	—0 3	+0 5	—4 3	—8 0	—1 3
Madras	—2 2	—1 2	—0 8	—1 0	—1 1	—0 4	+0 6	—0 9
Mean for whole of India	—2 9	—3 2	—3 7	—3 1	—3 1	—3 5	—3 3	—3 3

In all the Provinces the mean temperature for the week was low, the average for the whole of India for the week being 3 3° lower than usual

Rain—The concluding table shows that during the week under review some rain has fallen in all districts, except Madras (South) In Madras (Central) and the Punjab (South and Central) the average actual fall of each division was less than one tenth of an inch, but in all the other divisions effective rain was received The heaviest average actual fall reported was 30 16 inches in Arakan this was followed by 18 72 inches in the Konkan, by 14 45 inches in East Bengal, and by 13 08 inches in Assam (Surma), while, as stated above, the lightest rainfall was in the south and centre of Madras and of the Punjab In years of normal rainfall the heaviest rainfall during the present week is 13 69 inches in Arakan, and this is followed by 10 29 inches in Assam (Surma) and by 7 79 inches in Malabar, while the lightest rainfall is normally in Sind Hence there are two important differences shown between the actual and normal rainfall of the week under review In the first place, it is shown by the figures quoted above that the general rainfall has been much heavier than usual, and, in the second place, the rainfall has been lightest in parts of the Punjab and of Madras and not in Sind The third column

of the table shows that the rainfall of the week has been excessive over by far the greater part of the country Only in nineteen of the rainfall divisions has there been a deficiency of rain, while in thirty two there has been an excess The regions of deficient rain included the following divisions, *viz* Central Burma, Assam (Brahmaputra), North Bengal, Orissa, North Behar, the North Western Provinces (West), the Punjab (Central and South), Malabar, Berar, the Central Provinces (East), all the East Coast divisions, Hyderabad (South), and Madras (Central, South, and South Central) In most of these divisions the deficiency was small In all other divisions the rainfall was excessive, and in several this excess was very large Thus it amounted to 16 47 inches in Arakan, to 12 57 inches in the Konkan, and to 9 44 inches in East Bengal

The three concluding columns of the table show the progress of the rainfall of the whole monsoon period The first column of the three gives the average actual rainfall from May 28th to date, the second column gives the normal rainfall for the same period, and the third gives the excess or defect expressed as a percentage In Tenasserim and Lower and Central Burma, in Assam (Brahmaputra), and in the Punjab (South and Central) the rainfall up to date has been deficient, in Arakan, North Bengal, Orissa, North Behar, the North Western Provinces (West), Malabar, Coorg, Berar, Rajputana (East) and Central India (West), and the East Coast (North *a*) the rainfall of the period has been normal, and in all the remaining divisions it has been excessive In Guzerat, Kathiawar, Sind, and parts of Upper India the excess has been very large relatively to the average

The following gives the largest total amounts received during the week as reported in the rainfall telegrams of the week

Division	District	Station	Amount
Tenasserim	Amherst	Thaton	14 01 inches
Arakan	Akyab	Maungdaw	40 00 "
East Bengal	Chittagong	Cox's Bazaar	40 75

W L DALLAS,
Asst Meteorological Reporter to the Government of India

SIMLA, *29th June, 1893*

E C BUCK,
Secretary to the Government of India

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weekly Report on the state of the Season and Prospects of the Crops

Madras—*For week ending 24th June*—Rainfall good on West Coast and in parts of Nilgiris and Circars, light scattered showers or no rain elsewhere Cultivation and sowing proceeding as usual in most parts, and standing crops generally thriving, but rain is wanted in many districts Pasture, fodder, and drinking water sufficient General prospects fair Prices show but little change, though slightly easier in the Circars, and rather dearer in the Deccan, Central, and Southern districts

Bombay—*For week ending 28th June*—Rain almost throughout the Presidency Young crops injured by rain, rats, or crickets in parts of five districts, otherwise in good condition Agricultural operations progressing generally, but sowing is retarded in parts of five districts owing to excessive rain Transplantation progressing in parts of three districts Prices steady, except in parts of two districts Agricultural stock good and fodder sufficient

Bengal—*For week ending 24th June*—There has been general and copious rain during the week, except in Orissa and North Behar, where the falls were scattered and light The rainfall in Lower Bengal has been exceptionally heavy and cultivation is retarded in several places On the other hand, in North Behar more rain is wanted in some parts, elsewhere agricultural operations are being proceeded with satisfactorily and the state of all standing crops is good Early rice is being cut in one district, and indigo manufacture has begun in three others Prices of common rice continue generally steady Cattle are in good condition, there being sufficient supply of fodder and water in all districts

North-Western Provinces and Oudh—*For week ending 28th June*—General rain has fallen throughout the Provinces Agricultural operations are in full swing and weeding has begun in the Eastern districts Markets are well supplied and fodder ample Locusts appeared in parts of Fyzabad, Rai Bareli, and Almora, but no damage has been reported Prices generally steady

Punjab—*For week ending 28th June*—Rain has fallen in nearly all districts River in flood in the Dera Ismail Khan district Harvesting of spring crops nearly over Outturn generally good, though the crops were considerably damaged on the threshing floors by early rain Ploughing and sowing for autumn crops in progress Prospects said to be good Cattle are generally reported in good condition and fodder is said to be sufficient throughout the Province Prices unsettled in two districts, falling in three others, and stationary elsewhere

Central Provinces—*For week ending 28th June*—Rain heavy in most of the northern districts and in Sambalpur, elsewhere moderate to light showers have fallen Ploughing operations progressing, and autumn sowings continue in parts Sugarcane doing well Prices steady

Burma—*For week ending 24th June*—In Lower Burma ploughing for wet weather paddy is progressing in all districts, and sowing has commenced in parts In Upper Burma reaping of dry weather paddy nearly completed Ploughing, sowing, and transplanting of wet weather paddy progressing except in parts of Shwebo, where, owing to insufficient rainfall, ploughing and transplanting have been stopped Sowing of sesamum, cotton, and maize completed in some parts and in progress in others Standing crops are reported to be good everywhere, except in Minbu, where slight damage has been done In Lower Burma the price of paddy has fallen slightly in three districts and risen slightly in one, elsewhere prices are stationary In Upper Burma, except for slight increases in Minbu and the Southern Shan States, prices are unchanged

Assam—*For week ending 27th June*—Rain excessive in the Surma, but scanty in the Brahmaputra Valley Planting of winter paddy continues Condition of cattle normal Fodder sufficient

Mysore and Coorg—*For week ending 28th June*—MYSORE Good rain in two districts and slight in other parts Crops and prospects good Prices fallen in one and risen in two districts

COORG Rainfall good Ploughing of rice fields and planting of coffee in progress Paddy crop harvested Prices stationary Water and fodder for cattle sufficient

Berar and Hyderabad—*For week ending 28th June*—BERAR Rainfall good Weather cloudy and warm Sowing of cotton and other autumn crops in progress Water sufficient, but fodder inadequate in one taluka Cattle healthy Prices almost steady

HYDERABAD Rainfall good Sowing of autumn crops in progress Prices stationary

Central India—*For week ending 28th June*—Rain throughout Central India during week, except in Gwalior Sufficient rain has now fallen in Bhopal, and agricultural operations are in progress there and in all other parts of Central India Pasturage sufficient and good Cattle in good condition generally Prices of food grains low in the Neemuch district, fluctuating in Gwalior and Dhar slightly fallen in parts of Bhopawar, and steady, but high, elsewhere

Rajputana—*For week ending 28th June*—Rainfall generally good throughout Rajputana Agricultural operations commenced in some States Agricultural stock good and pasturage or fodder sufficient Prices falling in three States rising in two others and steady elsewhere

Kashmir—*For week ending 27th June*—Weather fine Threshing of rapeseed almost finished and reaping of barley commenced Rice and maize crops healthy and promising well Water ample Prices of grain gradually falling

Nepal—*For week ending 24th June*—Rains commenced Rice planting begun Prospects good

E C BUCK,

Secretary to the Government of India

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Circular No 11 F

Extract from the Proceedings of the Government of India, in the Revenue and Agricultural Department (Forests),—dated Simla, the 28th June 1893

Read—

(i) Circular Resolution of this Department, No 25 F, dated 13th October 1891 promulgating rules to regulate appointments and promotions in the Provincial Forest Service

(ii) Circular of this Department, No 22 F dated 25th July 1892, forwarding, for the consideration of Local Governments and Administrations, draft rules for the recruitment of the Provincial Forest Service

Read also—

(i) Replies from Local Governments and Administrations to the Circular of 25th July 1892

(ii) Letter from the Inspector General of Forests, No 379, dated 10th May 1893, submitting, for the consideration and orders of the Government of India, a copy of Resolution No 11 passed by the Imperial Forest School Board of Control for 1893 94 containing draft rules to regulate the constitution of, admission to, and studies and discipline at, the Forest School

RESOLUTION

The draft rules prepared by the Board of Control have been considered by the Government of India in connection with the opinions expressed by Local Governments and Administrations in response to Circular No 22 F, dated 25th July 1892, and, after such revision as has been deemed necessary, are now issued in the appendix to this Resolution for adoption, with effect from 1st July 1893, in supersession of those promulgated with Circular No 25-F, dated 13th October 1891

2 With reference to Rule 12 (ix), the Government of India desire that Local Governments and Administrations will consider whether the maximum number of stipends to be granted in each year under that rule might not with advantage be notified with the object of inducing competition for them by candidates at the entrance examination of the Forest School and of thus transforming them into actual scholarships

ORDER —Ordered, that a copy of this Resolution and of the new rules referred to be forwarded, for information and guidance, to the Government of Madras, the Local Governments and Administrations noted in the margin, the Inspector General of Forests, and the Comptroller and Auditor General

Bengal	Assam
North Western Provinces and Oudh	Coorg
Punjab	Ajmere
Central Provinces	Andamans
Burma	Hyderabad

Ordered also, that a copy be forwarded to the Foreign Department for communication to the Agent to the Governor General in Baluchistan

Ordered further, that the Resolution, with its appendix, be published in the Supplement to the *Gazette of India*

[True Extract]

E C BUCK,

Secretary to the Government of India

APPENDIX

RULES TO REGULATE THE CONSTITUTION OF ADMISSION TO AND STUDIES AND DISCIPLINE AT THE IMPERIAL FOREST SCHOOL DEHRA DUN

Section I—Constitution and Studies

1 The School is under the administrative control of the Inspector General of Forests, who is assisted by a Board consisting of—

1 The Inspector General of Forests, *President*
2 The Director of Public Instruction, North Western Provinces and Oudh,
3 The Director of the School
4 One Conservator from each province (not more than three serving in any given year)

with, as *Secretary*, the Assistant Inspector General of Forests

2 The Superior Staff of the School consists of—

1 The Director 2 The Deputy Director 3 & 4 Two Instructors 5 The Vernacular Instructor	assisted by the Forest Officers of the School Circle, North Western Provinces

The Conservator of Forests, School Circle, North Western Provinces, will ordinarily be Director of the School The Deputy Director and two Instructors are officers of the Indian Forest Service on the Imperial List The Vernacular Instructor is an officer of the Provincial Forest Service, also on the Imperial List

3 The Director of the School is charged with (1) the general administration of the institution, including the regulation of the course of study under the arrangements prescribed by the Board of Control, subject to the sanction of the Government of India (2) the supervision of the School buildings, quarters, and gardens, (3) the control of the accounts, and the conduct of correspondence

4 *Courses*—There are two courses—one in English, the other in the Hindustani language Each course lasts 21 months The English course is that followed by the 'Upper Class the Hindustani course that followed by the "Lower Class" The first year s students are called "Juniors ', the second year's students ' Seniors In the English course students are prepared for the certificate in Forestry by the 'Higher Standard ', in the Hindustani course, for that by the 'Lower Standard"

The subjects taught in these courses are the following, described in the School syllabuses —

1 Forestry, including Sylviculture, Utilisation, and Forest Working Plans both theoretical and practical
2 Mathematics—Elementary Arithmetic, Algebra, Trigonometry, and Mechanics in their application to Forest questions
3 Physical Science, including Chemistry, Physics, Physiography, Geology, Mineralogy, and Soils
4 Botany, both theoretical and practical, including the collection and preservation of plants
5 Zoology—the classification of animals and the study of useful and dangerous species, especially of insects, including the collection and preservation of specimens
6 Drawing, Surveying, and Estimating, as required for Forest officers
7 Forest Engineering, theoretical and practical
8 Forest Law, the Elements of Criminal Law and departmental organisation
9 Forest Accounts and Procedure

5 *Terms*—The terms of study are as follows

1st year—	Rains term—July 1st to October 31st in Dehra Dun Winter term—November 1st to December 22nd in camp Vacation—December 23rd to January 5th Spring term—January 6th to March 31st in camp Hill tour term—April 1st to May 31st in camp Vacation—June 1st to 30th
2nd year—	Rains term—July 1st to October 31st in Dehra Dun Winter term—November 1st to December 22nd in camp Vacation—December 23rd to January 5th Spring term—January 6th to February 15th in camp Examinations, including Survey test—February 16th to March 31st

6 *Examinations*—The School Examinations are

1 Monthly, to test progress and application
2 Final

The *Monthly Examinations* are usually held on the last two working days of each month, as the Director may order The marks obtained at these examinations are counted for one-fourth of the aggregate at the final

The *Final Examinations* are held in March of the second year, and the marks then obtained count for three fourths of the aggregate

7 *Certificates*—There are two certificates obtainable in each class after the final examinations—a "pass" certificate and a "honour's" certificate The former is granted to students who obtain over 50 per cent of the aggregate marks allotted to all subjects, provided this includes 50 per cent of the marks allowed for each of the subjects of Forestry, Botany, Surveying, and Engineering The latter is granted to students who obtain over 75 per cent of the aggregate marks allotted to all subjects, including over 50 per cent in each individual subject These certificates are only granted on the orders of the Board of Control, who have authority to exercise their discretion in doubtful cases

8 *Prizes*—The School medals are awarded by order of the Board of Control, but only if "honour" marks (75 per cent) have been obtained Other prizes, whether given by Government or other donors, are also awarded by the Board of Control

9 Should any student of the three categories enumerated in Rule 11 be unable (*a*) to appear at the final examinations, or, having appeared, (*b*) fail to pass those examinations, he will not be permitted to appear at any subsequent final examination unless he follows a second time the whole course of instruction at the School, or, at the discretion of the Director, the second year's course

Section II—Admission Rules

10 The total number of students of each class who can be admitted into the School each year will be limited to such number as the Board of Control may decide from time to time can be accommodated in the School The number of studentships to be allotted each year to the respective provinces, as well as the number of nominations to be made by the Director, will, with due regard to the total prescribed by the Board of Control, be decided by the Director of the School before the 1st of January, after consultation with the Provincial authorities as to their requirements, and communicated to the Local Governments concerned *

A—Upper Class

11 There are three categories of students in the Upper Class—

(1) Private Students
(2) Students already in the Government service
(3) Students deputed by Native States

12 *Private Students* comprise all those students who are at present without appointments in any Forest Service, and whose object it is by becoming possessors of Forest School certificates to obtain employment either in the Forest Service of the Government of India or in that of a Native State or some other owner of forest property

(i) Candidates for admission to the Forest School as private students must not be less than 18 or more than 25 years of age, and their applications must be sent to a Conservator of Forests* through a Divisional Forest Officer of rank not below that of an Assistant Conservator of the 1st grade, or through a Collector or other district officer Neither the Conservator, the Divisional Forest Officer, nor the Collector need belong to the forest circle or province in which the candidate seeks employment, but Divisional Forest Officers and Collectors may not forward to Conservators applications unsupported by the five certificates enumerated below, namely

* Conservator of Forests Bengal Circle at Darjeeling
Conservator of Forests Assam Circle at Shillong
Conservators of Forests North Western Provinces and Oudh—
School Circle at Dehra Dun
Central Circle at Naini Tal
Oudh Circle at Naini Tal
Conservators of Forests Central Provinces—
Southern Circle at Nagpur
Northern Circle at Jabalpur
Conservator of Forests Berar Circle at Amraoti
Conservator of Forests Punjab Circle at Lahore
Conservators of Forests Upper Burma—
Eastern Circle at Mandalay
Western Circle at Mandalay
Conservators of Forests Lower Burma—
Pegu Circle at Rangoon
Tenasserim Circle, at Moulmein
Conservators of Forests Madras Presidency—
Northern Circle at Bezvada
Central Circle at Madras
Southern Circle at Coimbatore

(*a*) A certificate that the candidate is a "Native of India" within the meaning† assigned to those words by section 6 of 33 Vict, Cap 3

† Native of India means any person born and domiciled within the dominions of Her Majesty in India, or within the territories of Indian Princes tributary to or in alliance with Her Majesty of parents habitually resident in India, and not established there for temporary purposes only (Article 45, Civil Service Regulations)

(b) A certificate of age

(c) A health certificate, in the form prescribed by Article 61 of the Civil Service Regulations, signed by the Civil Surgeon of the district in which the said Divisional Forest Officer's or Collector's duties lie, and testifying to the candidate's sound constitution, good vision and hearing, and general physical fitness for a rough out door life in the Forest Department

(d) A certificate of respectability and good moral character from two or more persons whose social or official position can be accepted as a guarantee of reliableness

(e) A certificate from an officer of the Educational Department of a rank not less than that of a Deputy Inspector of Schools or the Head Master of a High School under public management to the effect that the candidate's education appears sufficiently good to give hope of his being able to pass the entrance examination

The last three certificates must bear date not further back than the 1st October of the year preceding that in which the candidate proposes to present himself at the entrance examination

If any person giving certificates as above under (c), (d) and (e) is in a position to mention anything more to the credit of the candidate than the certificates actually call for, he may do so

(ii) Upon the receipt by the Conservator of any application in respect to which the preceding conditions shall have been observed, that officer may either accept or reject the application without assigning any reason for so doing, or he may require the candidate to produce other or better certificates in person before him

(iii) Conservators may, at their option, test the fitness of a candidate who desires to enter the service of Government by practical work in the forests

(iv) Those candidates who have been approved by the Conservator will be permitted under his recommendation to appear at the next entrance examination for the Forest School held in his circle

(v) The *Entrance Examination* is held early in March each year on such date as may be fixed by the Director both at the Imperial Forest School and at such centres as may be fixed from time to time by Local Governments, and under such officers, Educational, Revenue, Forest or other, as may be appointed provided that the date shall be communicated by the Director to Local Governments and Conservators on or before the 1st January The subjects of examination are

	Minimum pass mark
1 English — Conversation	50 per cent
1 English — Composition	33
2 Arithmetic	40
3 Algebra up to and including quadratic equations	40
4 Elements of Euclid Books I to IV and Book VI	25
5 Mensuration—lengths, areas and volumes with examples	25

The examination papers on the above subjects will be forwarded by the Director in sealed covers to such officials as the Local Governments may direct in the month preceding the examination

(vi) A Local Government may lay down rules under which the number of candidates allotted under Rule 10 to the province for admission into the School shall be selected from the number of passed candidates In such rules due regard must be had to the place taken in the examination, but the Local Government shall not be debarred from preferring, for good and sufficient reasons, a passed candidate who may have taken a lower place in the list to one higher on the list provided that the Director may, after inspection of the papers of the selected candidates, place before the Local Government an objection to the admission of any of such candidates on the ground that he is below the required standard

(vii) The Local Government may, if it thinks fit, exempt from the entrance examination any candidate who is a Bachelor of Arts, or who has obtained a degree or diploma of about the same standard at any University in India or in the United Kingdom or in a British Colony or at any educational institution to which the Government of India may extend the privilege provided that such degree or diploma shall not give such candidate a preferential claim over any candidates who have passed the entrance examination, and who may appear more eligible for the Forest Service

(viii) Prior to the admission of a student, his parents or guardians must satisfy the Director that they are willing and able to defray the expenses of the student at the School These expenses are estimated to be not less than Rs 735 for each student living in native fashion and Rs 945 in the case of those living in European fashion (*vide* Rule 21) Of these sums, parents or guardians must

deposit with the Director, before the course commences, a sum of Rs. 126 in the case of native students and Rs 168 in the case of European students to meet the initial cost of uniform, books, instruments, stationery, and camp-equipage (*vide* Rule 18), and in addition Rs 50 as caution money

(ix) Local Governments may, on the recommendation of a Conservator or of the Director, and in exceptional cases, allow selected private students who have passed the entrance examination a monthly stipend not exceeding Rs 50 to assist them through the School course, provided that such selected private students previously execute an agreement binding themselves to serve the Local Government concerned (in the event of their obtaining the School certificate) for a period of not less than five years (*vide* Rule 17) Such monthly stipend may, in case of misconduct or unsatisfactory progress at the School, be reduced or altogether withdrawn at the discretion of the Director

(x) The names of those private students who succeed in obtaining the School certificate will be entered by the Director in a register to be kept for that purpose, and the Conservators of those circles, in which the non stipendiary private students may severally desire or be willing to serve, will be addressed by him with the view of obtaining appointments for such students The Conservators concerned will for this purpose be furnished with the original certificates already referred to in clause (i) of this rule, the School certificates, and such other useful information, more especially regarding the physical qualifications of the students, as the Director may be in a position to furnish

(xi) A list of private students, who may not succeed in obtaining appointments, will be forwarded by the Director to the Inspector General of Forests, who will circulate the list amongst Durbars, Conservators, and other persons likely to be in need of the services of trained forest officials

(xii) The appointment to the service of Government of passed private students depends on the existence of vacancies in the various circles, and even a stipendiary student has no claim to such appointment

13 *Candidates in the Government Service*, who may be deputed to the School, will ordinarily be either—

(*a*) members of the Provincial Service (Forest Rangers), who desire to qualify themselves for further promotion in their own or to a higher class, or

(*b*) members of the Subordinate Service (Foresters and other subordinate officials) similarly desirous of qualifying for promotion

(i) Forest Rangers may be deputed by Local Governments, provided the candidates are certified by the Conservator under whom they are serving to possess sufficient knowledge of English and general education and ability to enable them to profit by the course Such officers may be above 25 years of age and need not pass the entrance examination While at the School, they will draw the pay of their grade and the travelling allowances to which they may be entitled under the Civil Service Regulations

(ii) Officers of the Subordinate Service may be deputed by Local Governments, provided that—

(*a*) they have been in that service for not less than three years,

(*b*) they have passed the School entrance examination,

(*c*) they are under 25 years of age

(*d*) they have executed the formal agreement referred to in Rule 17

Such officers will, while at the School, draw the pay and travelling allowances of their grade in the service, provided that the total amount sanctioned to meet the cost of their training, inclusive of travelling expenses, shall not be less than Rs 735 in the case of students living in the native style, and Rs 945 in the case of students living in European fashion (*vide* Rule 21)

14 *Students deputed by Native States* may be admitted on the request of the State concerned, provided that—

(*a*) they have passed the entrance examination of the School,

(*b*) they have produced the certificates required for admission specified in Rule 12 (i)

The Durbars of Native States sending students to the School shall, before the beginning of each term, or of each year if preferred, deposit with the Director a sum sufficient to meet the expenses of the students This sum for the whole course must not be less than Rs 735 for students living in native fashion, and Rs 915 for those living in European fashion (*vide* Rule 21)

B —Lower Class

15 There are also three categories of students in the Lower Class—

(*a*) Private students

(*b*) Students in Government service

(*c*) Students deputed by Native States

The rules for admission to the Lower Class are the same as those detailed in Rules 12, 13, and 14 for admission to the Upper Class, with the following exceptions

(i) Instead of the Entrance Examination, the candidate must furnish a certificate of having passed the Middle Class Examination in the North Western Provinces and Oudh, or an equivalent standard in another province, as well as a certificate that he possesses a competent knowledge of Hindustani

(ii) The cost of training will not be less than Rs 588 (*vide* Rule 21) for the whole course of 21 months

(iii) The required deposit will be Rs 84 and the caution money Rs 25

C—General

16 No student of European or Eurasian extraction not already in the permanent employment of Government or of a Native State shall be admitted into the Forest School if he is married, nor shall any such student whether in the permanent employment of Government or of a Native State or not, marry whilst at the School or until he has joined a permanent appointment A breach of this rule will render the student liable to dismissal from the School, or to forfeiture of any appointment in the Forest Service which may have been promised to him, or to which he may otherwise have a claim

17 *Agreement and Security Bond*—Officers of the Subordinate Service deputed to the School by Local Governments under Rules 13 (ii) and 15 shall execute a formal agreement—the sureties for the fulfilment of which should be men of position and means—to continue in the Forest Service of the Local Government concerned for a period of not less than five years after passing out of the Forest School, and on such rates of pay as may be in accordance with the existing organisation of the Department A breach of this condition will render the defaulter and his sureties liable for the refund of the entire cost of the student's education at the School The agreement and security bond shall be in the appended forms, and must be executed before the student is admitted to the School The agreement will be signed by the student and, if he is a minor, by his father or guardian also, the bond by the student and two sureties The amount of security to be taken will be—

		Rs
For a Lower Class student		600
„ an Upper Class student	Native	750
	European	1,000

The agreement and security bond need not be stamped

The same rule shall apply to private students who may be granted stipends under Rule 12 (ix), subject, however, to the proviso of Rule 12 (xii) Should any such student not be appointed to the Forest Service of Government at the end of his School course, his agreement and security bond will be returned to him

18 *Uniform, book, and camp allowances*—The Director is authorised to make deductions from the pay of Forest Ranger students under Rule 13 (i), or of students of the Subordinate Service under Rules 13 (ii) and 15, or from the stipends of private students under Rules 12 (ix) and 15, to the following amounts

		Rs		Rs
Lower Class students		4 monthly, or		84 in all
Upper Class students	Native	6 „	„	126 „
	European	8 „	„	168 „

in order to meet the following items of initial expenditure, *viz*,—

	Upper Class		Lower Class
	Native	European	
	Rs	Rs	Rs
Uniform and equipment	20	50	20
Books and instruments	60	60	24
Camp outfit	46	58	40
Total	126	168	84

The Director will charge off in his accounts such portions of the above as may be necessary from time to time to meet expenditure on the items mentioned until the whole of the amounts are exhausted, after which the student will be required to pay in cash for articles supplied

19 *Travelling allowances of private students in receipt of stipends*—Students holding stipends from Local Governments under Rule 12 (ix) are not entitled to travelling allowance, but, as the tours entail greater expenditure in some months than in others, the Director is authorised to make a further monthly deduction from their stipends of Rs 5 from Upper Class Native students and Rs 7 from Upper Class European students, and to disburse the amounts in the following manner

		Native Students	European Students
		Rs	Rs
Monthly travelling allowances	November—May 1st year November—March 2nd year	4	8
	Or for 12 months	48	96
Special additional allowance for hill tour		22	16
" for Punjab tour		35	35
	TOTAL	105	147

20 Should the Conservator of a Circle from which any Government student of the Subordinate Service is deputed to the School under Rule 13 (ii) prefer it, he can, subject to the orders of his Government, authorise the Director to pay travelling allowance to such student at the rates given in Rule 19 instead of at the rates allowed by the Civil Service Regulations And in the case of Lower Class Government students deputed to the School under Rule 15 he may similarly authorise the payment of travelling allowance at the following rates instead of the rates permissible under the Civil Service Regulations

	Rs
Monthly travelling allowance @ Rs 4	48
Special hill tour allowance	16
Punjab tour allowance	20
TOTAL	84

which rates are equivalent to a permanent travelling allowance of Rs 4 per month for the whole course

21 *Estimated expense of training*—It has been calculated that, in addition to the amounts specified in Rule 18 for cost of uniform, books, &c, and camp equipment, and in Rules 19 and 20 for travelling, the minimum monthly subsistence money for students comes to Rs 20, 24, and 30 respectively, so that the minimum pay and travelling allowances of Government students under Rule 13 (ii) and the minimum stipends for stipendiary students under Rule 12 (ix) should not be less than Rs 35 and Rs 45 respectively, nor should the minimum pay and travelling allowances of Lower Class students (Rule 15) be less than Rs 28 Thus, the minimum cost of training will be as follows

	Lower Class	Upper Class	
		Native	European
	Rs	Rs	Rs
Subsistence money	20	24	30
Uniform books and camp outfit	4	6	8
Travelling allowance	4	5	7
TOTAL PER MENSEM	28	35	45
Or for the 21 months of the course	588	735	945

The same amounts should be taken as minima in calculating the allowances to be deposited on account of students from Native States under Rules 14 and 15, or provided by parents and guardians for the cost of training of private students

Section III—Disciplinary Rules

22 *Quarters*—The Director will allot to students on their arrival in Dehra such quarters as may be available in the School buildings or in the houses rented by him for students' accommodation The School quarters are tenable during the whole period of the students' course, and the rent is Rs 2 monthly for each student, or Rs 4 for each room Students for whom there is no accommodation in quarters or in houses rented by the Director, or who may prefer it, can, with the permission of the Director reside in the town in lodgings selected by themselves, but in that case the Director will accept no responsibility for the rent

All students living in quarters or in the rented houses are expected to abide by such orders as the Director may issue from time to time for the purpose of ensuring cleanliness and sanitation

No dogs are allowed in quarters, nor may dogs or horses be brought inside the School grounds

Breakages of furniture, etc, in the quarters or School buildings must be paid for by the students Students are responsible for the acts of their servants

23 *Uniform*—All students must wear the School uniform, which consists of a suit of khaki drill with white metal buttons, and a grey turban of prescribed pattern, for the hot weather, and of khaki serge with similar buttons for the cold weather and camp Those students who become members of the Dehra Dun Mounted Rifles are, however permitted to wear the undress uniform of the corps which also consists of a suit of khaki drill of pattern similar to that of the School Students who are Volunteers will wear as head dress a brown shikar hat while at the School, and the regular corps helmet when on parade Native students may dispense with turbans, or wear other head dress, only with the Director's special permission Uniform must always be worn inside the School building It must also be worn in the School grounds up to 5 P M

24 *Uniform and Camp Equipment*—The uniform of members of the Dehra Dun Mounted Rifles may be obtained through the corps staff, that of other students through the Storekeeper of the School on the Director's order As camp equipment each student requires—

(1) A small tent, not larger than 10 feet × 8 feet

(2) A camp bed

(3) A small camp table

(4) A camp chair or "morah"

These articles are made at the School and issued at cost price to students

25 *Books and Instruments*—The list of books and instruments required by each student will be published by the Director from time to time The articles must be purchased from the Director, who endeavours to obtain them of the best quality procurable, consistent with cheapness No article will, however, be issued by the Storekeeper, except (*a*) on order of the Director, or (*b*) on cash payment

Copies of the Forest Acts and Forest Code, as also surveying instruments and herbarium presses, are issued on loan, and students using them will be responsible for their safe custody and return

26 *Leave*—During the course of instruction, no student may leave Dehra without the written order of the Director Nor may students, while in camp, leave the camp head quarters without the written order of the Deputy Director or the Instructor in charge Subsidiary rules regarding leave will be made by the Director from time to time

27 *Holidays*—During the rains term, Saturday will usually be observed as a holiday or devoted to excursions In camp, it will ordinarily be a half-holiday Such of the usual gazetted holidays as are allowed will be notified as such from time to time

28 *Punishments*—Students are liable to the following punishments

(1) Reprimand by the teacher in class

(2) Reprimand by the Director or the Deputy Director at any time

(3) Reprimand before a meeting convened by the Director of not less than three School officers, one of whom must be either the Director or the Deputy Director The proceedings of the meeting will be reported to the Conservator or the Native State deputing the student, or to his parents or guardians if he is a private student, and, if the meeting so decides, a note of them will be made on his final certificate

(4) The Director, acting with the consensus of the meeting referred to under (3), has power to inflict in addition a fine to the extent of one third of the salary or allowances of the student for a period not exceeding three months

(5) The Director, acting with the consensus of a full meeting of the School officers presided over by himself, has power to dismiss any student for misconduct, and a student thus dismissed cannot be re admitted to the School The Director may remand any student who in his opinion is not sufficiently promising

29 *Monthly Reports*—A progress report on the work of each student will be issued monthly by the Director It will record the number of marks obtained by the student at the last monthly examination, his application to his studies, and his conduct generally It will be sent for Government students or private students in receipt of stipends to the Conservator of the Circle from which the student is deputed, for Native State students, to such person as the Durbar may direct, and for ordinary private students, to the parent or guardian concerned

30 *Library*—The books in the School Library are available for the use of students under such rules as the Director may make from time to time Books of reference must be consulted in the library itself, and no books may be taken away except after application to the librarian and entry in a register

31 *Museum*—The Museum and Herbarium are also available for the use of students, but the objects in the museum may not be handled or removed without the express permission of the Director or the Deputy Director Permission to consult the herbarium may be obtained from the Director or the Deputy Director, but the plants must be kept in their order as arranged and no sheets removed or altered without permission

32 *Athletic Sports*—The gymnasium and the tennis courts will be available for the use of students during all recreation hours on week days Cricket and football may be played on the old parade ground Students are recommended to join the School Athletic Club, the subscription to which is Rs 4 yearly, and half rates for those who do not play all the games

---

Forms of Agreement and Bond to be executed by students already in the service of, or in receipt of stipends from Government, previous to entry into the Forest School, Dehra Dun

---

Articles of Agreement made and entered into this day of 18 BETWEEN of of the first part of son of the said of the second part and the SECRETARY OF STATE FOR INDIA IN COUNCIL hereinafter referred to as the Secretary of State of the third part Whereby each of the parties hereto so far as the covenants and conditions on his own part are to be observed and performed covenants with the other of them as follows—

1 The said hereby of his own free will and consent and with the approbation and consent of the said testified by the execution by him of these presents agrees with and to the Secretary of State his successors in office and assigns that he the said shall well and faithfully pursue his studies at the Government Forest School, Dehra Dun, and qualify for the Forest Service of the Government of British India or of any Local Government

2 The said shall after completing his studies at the said Forest School and if so required to do serve the Secretary of State his successors in office and assigns in the Forest Department of the Government of British India or of any Local Government for a period of not less than five years and shall during the whole of such period diligently and efficiently do all acts and discharge all duties which may be required to be done by him in his capacity as an officer of the said Department

3 The Secretary of State his successors in office and assigns hereby engages to educate the said at the Dehra Dun Forest School in all matters relating to forest service forest works and forest administration that it may be deemed necessary by the Director of the said School to teach the said

4 The Secretary of State shall pay the said during the whole period of his stay at the said School at and after the rate of Rs per month and thereafter while the said shall faithfully and diligently serve as an officer of the said Forest Department at and after the rate of not less than Rs per month and the said shall be entitled to all the rights and privileges in respect of pay pension and promotion accorded to officers of the said Department for the time by the Rules and Regulations of the Department

5 Lastly it is hereby agreed and declared that the Secretary of State his successors in office or assigns shall be at liberty to rescind this agreement on account of the negligence failure to attend to duty idleness or any insubordination or misconduct on the part of the said and to dismiss him from the said Forest School or the service of the said Department and the said shall not be entitled to any of the privileges hereby imposed on him but the said or shall thereupon refund to the Secretary of State his successors in office and assigns the total cost including the monthly payments made to the said while at the said School incurred by the Secretary of State or his successors in office or assigns in respect of the education of the said at the said School IN WITNESS whereof the said parties to these presents have hereunto set their respective hands and seals the day and year first above written

---

Know all men by these presents that we
of
(principal obligor)
of and
of
(sureties) are jointly and severally bound to the SECRETARY OF STATE FOR INDIA IN COUNCIL in the sum of Rs to be paid to the said Secretary of State his successors in office or assigns or his or their certain attorney or attorneys for which payment well and truly to be made we bind ourselves our heirs executors administrators and representatives and each of us binds himself his heirs executors administrators and representatives firmly by these presents sealed with our seals and dated this day of 18

WHEREAS the Secretary of State for India in Council for himself and his successors in office and assigns has engaged to educate the said at the Dehra Dun Forest School in all matters relating to forest science forest works and forest administration that it may be deemed necessary by the Director of the said School to teach the said and has also agreed to pay him during the whole period of his stay at the said School at and after the rate of rupees per month and whereas the cost per annum of such education without any such allowance being included is estimated to be Rs which shall be taken to be the actual cost for the purpose of these presents and whereas in consideration of such education and pay to be given to the said as aforesaid by the said Secretary of State and his successors in office and assigns the said has agreed with the said Secretary of State his successors in office and assigns that he will after completing his studies at the said School and if required to do so serve in the Forest Department of the Government of British India for a period of not less than five years during the whole of which time he will diligently and efficiently do all acts and discharge all duties which may be required of him to be done in his capacity as an officer of the said Department AND WHEREAS the said Secretary of State has also on his part agreed that the said shall be paid for such service at and after the rate of not less than rupees per month and shall be entitled to all the rights and privileges in respect of pay pension and promotion accorded to officers of the said Department for the time being by the Rules and Regulations of the Department AND WHEREAS for the purpose of securing and indemnifying the said Secretary of State his successors in office and assigns against all loss and damage which he or they might or may in any way suffer by reason of the said leaving without permission the service of the said Secretary of State his successors in office or assigns in less than five years after the completion of his studies at the said School and for the purpose also of securing the refund to the said Secretary of State his successors in office and assigns of the total cost including the monthly payments made to the said while at the said School incurred by the said Secretary of State or his successor in office or assigns in respect of the education of the said at the said School and in consideration of the payment and education so as aforesaid to be made and given to the said at the said School and as one of the conditions of the admission of the said to the said School it has also been agreed that the said and the said and as his sureties should execute the above written bond subject to the condition hereinafter contained Now the condition of the above written bond or obligation is such that if the said shall well and faithfully and diligently pursue his studies at the said School and qualify for the said Forest Service and shall also after completing his studies at the said Forest School and if so required to do serve the said Secretary of State his successors in office and assigns in the Forest Department of the Government of British India or of any Local Government for a period of not less than five years and shall during the whole of such period diligently and efficiently do all acts and discharge all duties which may be required to be done by him in his capacity as an officer of the said Department and if the said and or either of them their or either of their heirs executors administrators and representatives shall well and truly indemnify the said Secretary of State his successors in office and assigns against all loss and

damage which he or they might or may in any way suffer by reason of the said giving cause for dismissal either while at the said School or while in the service of Government thereafter or of his leaving the service of the said Secretary of State his successors in office or assigns without permission in less than five years after the completion of the studies of the said at the said School and if the said and or either of them their or either of their heirs executors administrators or representatives shall also pay to the said Secretary of State his successors in office or assigns all sum or sums in any way expended paid or incurred by the said Secretary of State his successors in office or assigns in respect of the education of the said at the said School then the above written bond or obligation shall be void otherwise the same shall remain in full force and virtue PROVIDED ALWAYS and it is hereby expressly agreed and declared that these presents shall be treated and considered as entered into under the orders of the Government of India for the performance by the said and and of a public duty and an act in which the public are interested within the meaning of section 74 of Act IX of 1872 of the Legislative Council of India

IN WITNESS, &c

No 4760 S R, dated Calcutta, the 29th November 1892

NOTIFICATION—By the Government of India, Finance and Commerce Department

In exercise of the powers conferred by section 8 of the Indian Stamp Act (I of 1879), the Governor General in Council is pleased to remit the duties payable on the agreements and security bonds required to be executed, under the Rules to regulate appointments and promotions in the Provincial Forest Service, by students and their sureties previous to entry into the Forest School, Dehra Dun

১৮৯১ সালের এপ্রেল মাসের ১লা তারিখ অবধি যাবৎ অন্য আজ্ঞা না হয় তাবৎ কলিকাতার বোটানিকেল গাড়ণের অর্থাৎ কোম্পানির বাগানের সুপারিন্টেণ্ডেণ্টের নিকট গবর্ণমেণ্টের কর্ম্মচারিগণ এবং অপর কোন ব্যক্তি এক কালীন দশ পৌণ্ড ক্রয় করিলে নিম্নলিখিত হিসাবে জ্বরঘ্ন সিন্‌কোনা পাইবেন অর্থাৎ চারি ঔন্স টিন ২॥ টাকায় আট ঔন্স টিন ৫, টাকায় ও এক পৌণ্ড টিন ১০, টাকায় পাইবেন। সর্ব্ব সাধারণে কোম্পানির বাগানের সুপারিন্টেণ্ডেণ্টের নিকট নগদ মূল্যে এই এই হিসাবে অর্থাৎ চারি ঔন্স টিন ৩, টাকায় আট ঔন্স টিন ৬, টাকায় এবং এক পৌণ্ড টিন ১২, টাকায় পাইতে পারিবেন। কলিকাতায় প্রধান প্রধান ইউরোপীয় ও দেশীয় ঔষধ বিক্রেতাগণও এই ঔষধ বিক্রয় করিয়া থাকেন। উপরোক্ত হার ছাড়া চারি ঔন্সের। আট ঔন্স টিনের ।। ও এক পৌণ্ড টিনের ৷৷৹ ডাক মাশুল দিতে হইবে।

PURE SULPHATE OF QUININE

Manufactured at the Bengal Government Cinchona Plantation

The price of this Quinine is as follows —

1 Pound tin, R16, or, post free, R16-12
½ „ R 8, „ R 8-8
¼ „ R 4, „ R 4-8

Analysis shows this Quinine to be of the purest manufacture, and it is guaranteed to be free from wilful mixture with the inferior alkaloids Cinchonine and Cinchonidine It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Seebpore, near Calcutta It can be had either white or coloured pink

বঙ্গদেশের গবর্ণমেণ্টের সিনকোনা আবাদে প্রস্তুত বিশুদ্ধ কুইনাইন ।

এই কুইনাইনের নিম্নলিখিত মূল্য যথা—

১ এক পৌণ্ড টিন ১৬, বা ডাকমাশুল বিনা ১৬৸৹
½ আধ ৮, বা ডাকমাশুল বিনা ৮॥
¼ সিকি ৪, বা ডাকমাশুল বিনা ৪॥

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধরূপে প্রস্তুত করা হইয়াছে। এবং ইহা যে সিনকোনাইন ও সিন্‌কোনী ডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছা পূর্ব্বক মিশান হয় নাই তাহার গ্যারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারিগণের নিকট বিক্রয় করা যাইবে এবং কলিকাতার নিকটস্থ শিবপুরের কোম্পানির বাগানের সুপারিন্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারিবে। ইহা শাদা বা পাটল বর্ণের পাওয়া যাইতে পারি" ।

REVENUE DEPARTMENT

[Revised Advertisement]

A Dictionary of the Economic Products of India.

BY DR GEO WATT, C I E,

Reporter on Economic Products

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first five volumes and Volume VI, Parts I and II, of the Dictionary are now ready at the Office of Superintendent of Government Printing No. 8, Hastings Street, Calcutta, and will be supplied to non subscribers on receipt of the price for the complete set, which is R45 in India and 3 guineas in England (exclusive of the Index for which a separate charge will be made) packing and postage in India, 8 annas per volume, for England, 2 rupees 6 annas per volume For copies bound in half calf or half morocco, R6 and 8 shillings respectively will be charged extra for the whole set

The Dictionary is intended to deal with the products of India—animal vegetable and mineral each product being treated after a uniform plan the paragraphs of which give the scientific, vernacular and European names habitat or source history properties and uses (both chemical and industrial) trade statistics markets etc The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication Numerous contributors have however furnished the results of new discoveries and confirmed the vernacular names so that the Dictionary is not only a complete compilation of published information but has been brought abreast of the most recent inventions and discoveries

Volume I contains the letters A and B and consists of 559 royal octavo pages Volume II embraces the letter C in 689 pages Volume III contains the letters D E, F and half of G Volume IV latter half of G to middle of L, and Volume V contains th latter half of L to end of O Vol VI (which will consist of four parts) Part I contains letters P to R The whole work will it is expected be completed in nine volumes (including Parts II to IV of Vol VI) during the current year but a tenth volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary The Index will practically be a glossary of the vernacular and European names of the plants animals and minerals of India and as such will be a work of reference which it is hoped may prove of considerable value

Index (alphabetical) to applications for exclusive privilege in respect to Inventions made under Act V of 1888 and disposed of during the quarter ending 31st March, 1893, or pending on that date, and of specifications filed 8vo R1 (1a)

No 402—The following Order of Her Majesty in Council relating to the adhesion of the Principality of Montenegro to the International Copyright Convention is published for general information

AT THE COURT AT WINDSOR

The 16th day of May 1893

PRESENT

The Queen's Most Excellent Majesty

Lord President

Marquess of Ripon

Mr Secretary Asquith

Whereas Her Majesty, by virtue of the authority committed to Her by the International Copyright Acts 1844 to 1886, and having regard to the provisions of a Convention, the ratifications of which were exchanged on the fifth day of September, one thousand eight hundred and eighty seven, between Her Majesty and the Governments of the foreign countries named in the said Order, was pleased to make an Order in Council, dated the twenty eighth day of November, one thousand eight hundred and eighty seven, with respect to the protection to be given by way of copyright to the authors of literary and artistic works first produced in one of the said foreign countries

And whereas it has been intimated to Her Majesty's Government that the Government of the Principality of Montenegro have notified the accession of that country to the said Convention

And whereas Her Majesty in Council is satisfied that the said Principality of Montenegro has made such provisions as it appears to Her Majesty expedient to require for the protection of authors of works first produced in Her Majesty's dominions

Now, therefore, Her Majesty, by and with the advice of Her Privy Council, and by virtue of the authority committed to Her by the said Acts doth declare, and it is hereby declared, that the provisions of the said order hereinbefore specified shall extend to the said Principality of Montenegro

This Order shall come into operation on and from the date hereof

And the Lords Commissioners of Her Majesty's Treasury are to give the necessary orders herein accordingly

The 3rd July 1893

RESOLUTION—By the Government of India, Finance and Commerce Department

Read—

Despatch from Her Majesty's Secretary of State for India, No 36 (Revenue), dated 16th March 1893, forwarding a copy of a question asked in the House of Commons, and of the answer given thereto by the Under Secretary of State, regarding the appointment of a Commission to enquire into the production and consumption of hemp drugs in India

Read also—

Correspondence ending with Despatch from the Secretary of State, No 99 (Revenue), dated 20th October 1892, regarding the consumption of ganja in India

RESOLUTION —In the despatch recited in the preamble, Her Majesty's Secretary of State informed the Government of India that, in answer to a

question put in the House of Commons, he had expressed his willingness to request the Government of India to appoint a Commission to enquire into the cultivation of the hemp plant in Bengal, the preparation of drugs from it, the trade in those drugs, the effect of their consumption upon the social and moral condition of the people, and the desirability of prohibiting the growth of the plant and the sale of ganja and allied drugs In accordance with the announcement thus made, Lord Kimberley requested the Government of India to appoint a Commission for the purposes stated, and to issue such instructions as would ensure that the enquiry should be thorough and complete His Lordship is of opinion that the investigation can hardly be confined to Bengal, but should extend to the whole of India, and that the Commission should be instructed to ascertain to what extent the existence of the hemp plant all over India affects the practical difficulty of checking or stopping the consumption of ganja as distinguished from other narcotic drugs prepared from the hemp plant, and whether there is ground for the statement that bhang is less injurious than ganja to consumers

2 In accordance with these instructions, His Excellency the Governor General in Council has been pleased to appoint a Commission to conduct the enquiry desired by the Secretary of State The following gentlemen are appointed to form the Commission

President

The Hon'ble W Mackworth Young M A, C S I, First Financial Commissioner, Punjab

Members

1 Mr H T Ommanney, Collector, Panch Mahals Bombay
2 Mr A H L Fraser, M A, Commissioner, Chattisgarh Division, Central Provinces
3 Surgeon Major C J H Warden, Professor of Chemistry, Medical College and Chemical Examiner to Government, Calcutta, Officiating Medical Storekeeper to Government, Calcutta
4 Raja Soshi Sikhareswar Roy, of Tahirpore, Bengal
5 Kanwar Harnam Singh, Ahluwalia C I E, Punjab
6 Lala Nihal Chand, of Muzaffarnagar North Western Provinces

3 His Excellency the Governor General in Council desires that the enquiry should be thorough and searching, but he leaves to the Commission full discretion to determine the best means of securing that result Certain instructions are given in the following paragraphs, but these are not intended to be exhaustive, and the Commission have full authority to take up any branch of enquiry which in their opinion is likely to elucidate the subject and to aid the Government of India and the Secretary of State in deciding on the policy to be adopted in regard to hemp drugs

4 It is desirable that the Commission should visit and take evidence in all or most of the Provinces of India there are political objections to their holding sittings in Native States but any information similar to that required regarding British India, which can be obtained regarding Native States, should be included in the Report

5 The Commission should ascertain with as much precision as possible the extent to which the hemp plant is cultivated in each of the Provinces of India in which it is grown They should collect full information as to the manner in which the plant is cultivated for the production of drugs and the methods of preparing the manufactured drug from the raw product, whether of the wild or the domesticated plant Little is known at present as to the extent to which the wild plant can be used for the preparation of drugs, whether in the milder or the more noxious forms This point has an important bearing on the possibility of introducing restrictive measures, and will require careful investigation Full particulars should be obtained regarding all the different forms of the drug which are commonly used, especially ganja, charas, and bhang, and regarding the classes of the people by whom, and the extent to which, each is used The physical and other effects of the use of hemp drugs should be thoroughly investigated, each variety of the drug being separately treated, so far as that can be conveniently done In conducting this branch of the enquiry, the Commissioners should avail themselves freely of the evidence of medical

experts They should endeavour to ascertain what proportion of the population habitually consumes hemp drugs, and should thoroughly examine the testimony in support of the commonly received opinion that the use of hemp drugs is a frequent cause of lunacy They should ascertain whether, and in what form, the consumption of the drugs is either harmless or even beneficial, as has occasionally been maintained

6 Full information should be compiled regarding the administrative arrangements in force in each Province for controlling the growth of the plant the manufacture and sale of the drugs, and their importation from other Provinces or from Native States, and for imposing duties on cultivation and sale It is understood that charas is imported into the Punjab on a considerable scale from foreign territory, and the question of the importation of hemp drugs generally from foreign territory should receive the special attention of the Commission The various systems employed for taxing the drug or the cultivation of the plant should be reviewed with especial reference to the comparative incidence of this taxation in different parts of India and to the comparative efficacy of the taxation imposed in restricting consumption, whether by the mere weight of the tax or by the method and stage of imposition It is known that the rates vary considerably in different Provinces, but the precise effect of the variations is not fully understood In this connection the Commissioners should notice any case in which the proximity of a Native State affects the production or consumption of the drug in British territory

7 There are two points connected with the subject matter of the enquiry which call for special investigation The first of these is the danger lest prohibition or restrictive measures of a stringent character may give rise to serious discontent, and be resented by the people as an unjustifiable interference with long established social customs In some parts of India the use of hemp drugs is, it is believed, common among fakirs and ascetics held in veneration by large classes of the population In Bengal it has been stated that an infusion of the leaves of the plant is commonly offered to every guest and member of the family on the last day of the Durga Puja it has no ill effects, and its use is not considered reprehensible in any way The Governor General in Council desires that the Commissioners will endeavour to ascertain to what extent these and similar customs prevail in Bengal and other parts of India, and how far the use of hemp drugs forms a part of social or possibly religious, ceremonial, or observance, and they should, if possible, take the evidence of witnesses drawn from the classes among whom the use of hemp drugs is chiefly prevalent The Commissioners should state their opinion whether the prohibition of the use of hemp drugs, or any restrictive measures which they may deem practicable, would be likely to give rise to political discontent in any parts of India or among any classes of the population It is believed that in some parts of the country bhang is in a special degree the poor man's narcotic, and the possible unpopularity of a measure which would deprive the very poorest of the population of the use of a narcotic to which they have always been accustomed should not be overlooked

8 Another point to which the attention of the Commissioners should be directed is the probability or possibility that if the use of hemp drugs is prohibited those who would otherwise continue to use them may be driven to have recourse to alcohol, or to other stimulants or narcotics which may be more deleterious

9 Finally, the Governor General in Council requests that the Commissioners, if they should be of opinion that the prohibition of the consumption of any hemp drug should not, or could not, be enforced, will indicate, for the consideration of the Government of India, any reforms and improvements which their investigations may lead them to recommend in the existing arrangements of each Province for controlling the cultivation of the hemp plant, and the manufacture, sale, and taxation of hemp drugs In framing their recommendations regard should, of course, be had to the considerations which have been stated in paragraphs 7 and 8 of this Resolution Absolute prohibition or repressive measures of a stringent nature may involve inquisitorial proceedings of an unpopular character, and afford opportunities for the levy of blackmail, and in framing regulations for the prohibition or for the restriction of the use of hemp drugs these considerations should be borne in mind

If the Commission should be of opinion that the cultivation of the hemp plant for the production of drugs or the consumption of any hemp drug should be absolutely prohibited, it will be their duty to state the regulations which should be adopted for this purpose

10 All Local Governments and Administrations have been requested to render every assistance to the Commission, to collect and place at its disposal whatever information may be available, and to make to the Commission any suggestions regarding the enquiry which local knowledge and experience may suggest

11 The Governor General in Council directs that the Commission shall assemble in Calcutta on the 1st August 1893

ORDER —Ordered, that a copy of the Resolution be forwarded to all Local Governments and Administrations for information, and with special reference to paragraph 10 of the Resolution

Ordered also, that a copy of the Resolution be forwarded to the President and to each Member of the Commission

Ordered further, that the Resolution be published in the *Gazette of India* for general information

An Act to enable Her Majesty in Council to carry into effect Conventions which may be made with Foreign Countries respecting Ships engaged in Postal Service

[21ST JULY, 1891]

BE it enacted by the Queen's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal and Commons, in this present Parliament assembled, and by the authority of the same, as follows

Application of Act by Order in Council

1 (1) Where Her Majesty the Queen has made a convention with a Foreign State respecting the postal service between such Foreign State and the United Kingdom, or respecting the privileges of mail ships, that is to say, ships engaged in any postal service of such Foreign State or of any part of Her Majesty's dominions, it shall be lawful for Her

Majesty in Council to order that this Act shall, and this Act shall accordingly, subject to any conditions, exceptions and qualifications contained in the Order, apply during the continuance of the Order as regards such Convention and Foreign State and the postal service and mail ships described in the Convention and where by virtue of any such Order this Act or any section thereof applies as regards any Convention, Foreign State, postal service or mail ship, the same is in this Act referred to as a Convention, Foreign State, postal service or mail ship to which this Act or section applies

(2) The Order shall recite or embody the terms of the Convention and may be varied or revoked by Order in Council, but shall not continue in force for any longer period than the Convention

(3) Every Order in Council under this Act shall be laid before both Houses of Parliament forthwith after it is made, or, if Parliament be not then sitting, after the then next meeting of Parliament, and shall also be notified in the *London Gazette*, and published under the authority of Her Majesty's Stationery Office

Conveyance of letters by crew or passengers of mail ships forbidden

2 (1) Where this section applies to a Convention with a Foreign State, the master of a British mail ship to which this section applies when carrying mails to or from any port of the Foreign State, and the master of a mail ship of the Foreign State to which this section applies when carrying mails to or from any port of the United Kingdom, shall not nor shall any person on board the ship, whether a passenger or belonging to the ship or any other person, convey in the ship for delivery to another person in the Foreign State or United Kingdom, as the case may be any letter other than the letters contained in mail bags entrusted to the master by a postal officer of the United Kingdom or of any Foreign State or than the despatches sent by the Government either of the United Kingdom or of any Foreign State

(2) If a person on board such ship acts in contravention of this section, or refuses or fails on demand to give up to a postal officer, or, if such person is not the master, to the master any letter so conveyed by him, he shall be liable on summary conviction to a fine not exceeding five pounds

(3) It shall be the duty of the master of the ship to secure the observance of this section by all persons on board the ship, and to inform the proper authorities at the port at which the ship arrives of any breach of this section by any of those persons, and if he wilfully fails to perform that duty, he shall be liable to a fine not exceeding five pounds

(4) Provided that a person shall not be liable under this section to a fine for any offence for which he has been punished by the law of the Foreign State

(5) Nothing in this section shall apply to any letters which, if sent from the United Kingdom, would be exempted from the exclusive privilege of the Postmaster General under the Act of the session of the seventh year of King William the Fourth and the first of Her present Majesty, chapter thirty three, intituled "An Act for the management of the Post Office"

Regulation as to giving of security for ships engaged in postal service

3 (1) Where the owner of any ships, British or foreign, applies to the High Court in England, and

(a) produces a certificate of a Secretary of State that such owner is subsidised for the execution of any postal service within the meaning of a Convention with a Foreign State to which this Act applies by reason of receiving from the Foreign State or from the Government of the United Kingdom or of a British Possession a *bonâ fide* subsidy for the postal service mentioned in the certificate, and

(b) produces sufficient evidence of the nature of the said service and the number of, and the prescribed particulars respecting, the ships engaged therein, and

(c) gives notice of the application to the Board of Trade,

the High Court, after hearing the owner, and the Board of Trade if they wish to be heard, shall fix the nature and amount of the security which the owner ought to place under the control of the Court for the purposes of this Act as respects the ships engaged in that postal service, and fix the maximum number and tonnage of the ships to which the security is to apply

(2) The security shall be the bond of the owner guaranteed either—

(a) by the personal security of a surety, accompanied by an adequate real security given by the surety, or

(b) by the payment or transfer into Court of cash or of securities of the Government of the United Kingdom

(3) If the owner gives such security to the satisfaction of the High Court, then so long as the security is maintained and is sufficient to the satisfaction of the Court, and the number and tonnage of the ships for the time being actually engaged in carrying mails for the postal service in respect of which the security is given does not exceed the number and tonnage of the ships to which the security applies, the ships actually engaged in carrying mails for the said service shall be deemed to be exempted mail ships, and be entitled to the exemptions and privileges given by this Act to exempted mail ships and the Board of Trade shall give the prescribed notices for informing the arresting authorities that the ships actually engaged in carrying the mails for the said postal service are exempted mail ships

(4) Notice of every application respecting any security given in pursuance of this section shall be given to the Board of Trade

(5) If at any time it appears to the Board of Trade that a security given as respects ships engaged in any postal service is from any cause (whether pending claims, variation of the conditions of the service, or otherwise) insufficient, the Board of Trade shall apply to the High Court, and that Court, if satisfied of such insufficiency, shall require the security to be made

sufficient to the satisfaction of the Court within a reasonabe time, and direct that in default the ships engaged in the postal service shall cease to be exempted mail ships, and that the Board of Trade shall give the prescribed notices for informing the arresting authorities of such cesser

(6) The amount and nature of the security may be varied and the whole security may be withdrawn, and the income of the security may be disposed of by order of the High Court from time to time on such application either of the shipowners or of the Board of Trade, or of any person appearing to be interested, and in such manner and after such notice and upon such terms and conditions as may be prescribed by rules of Court or, so far as the rules do not extend, as the Court may think just

(7) Provided that before the security is actually withdrawn the High Court shall be satisfied—

(a) that the prescribed notice of the order for withdrawal has been given to the arresting authorities and

(b) that there is no pending claim for the purposes of which the security may be required

and upon the prescribed notice of the order for withdrawal being given to an arresting authority, the ships shall, as respects that authority, cease, after the date specified in the notice, to be exempted ships

(8) Rules of Court may be made for carrying this section into effect, and in particular for regulating the nature, amount and value of the security to be given, and the mode of giving security, and of giving notices to the arresting authorities, and for providing for the evidence of the exemption of ships under this section, and for the information to be given from time to time to the High Court respecting the ships to which the security applies and for the jurisdiction of the High Court under this Act being exercised in chambers

Arrest and execution of process on board exempted mail ships

4 (1) Where this section applies to a Convention with a Foreign State, and an exempted mail ship to which this section applies is in a port in the United Kingdom, no person shall be arrested without warrant on board such ship and before any process, civil or criminal, authorising the arrest of any person who is on board such ship is executed against that person, the following provisions of this section shall be observed that is to say,—

(a) written notice of the intention to arrest a person who is, or is suspected to be on board the ship, stating the hour at which, if necessary, the ship will be searched, shall, if it is a ship of a Foreign State and there is at the port a consulate of that State, be left at the consulate, addressed to the consular officer

(b) it shall be the duty of the master upon demand, if the said person is on board his ship, to enable the proper officer to arrest him

(c) if the officer is unable to arrest the said person, he may, but if it is a foreign ship, only after the expiration of such time after notice was left at the consulate as is specified in the Convention, search the ship for such person, and if he is found may arrest him

(2) The ship may be delayed for the purposes of this section for the time specified in the Convention, but not for any longer time

(3) If the master of a ship refuses to permit a search of the ship in accordance with this section, any officer of Customs may detain the ship, and such master shall be liable to a fine of five hundred pounds

(4) This section shall apply to the arrest of the master in like manner as in the case of any other person

Exemption from seizure of exempted mail ship

5 (1) An exempted mail ship to which this section applies shall not, subject as in this Act mentioned be liable to be arrested or detained by any arresting authority either for the purpose of founding jurisdiction in any Court of Admiralty, or of enforcing the payment of any damages, fine, debt, or other claim or sum, or enforcing any forfeiture whether arising from the misconduct of the master or any of the crew or otherwise, but every Court of the United Kingdom by the process of which the ship could have been under the circumstances arrested or detained shall have the same jurisdiction as if the ship had been so arrested or detained, and any legal proceeding in relation to any such matter as aforesaid may be commenced by such service in the United Kingdom of any writ or process as may be prescribed by rules of Court and the High Court on application shall, in accordance with rules of Court, cause the security to be applied in discharge of any such damages, fine, debt, claim, sum or forfeiture

(2) Provided that nothing in this section shall render invalid the arrest or detention of a ship before the prescribed notice has been given to the arresting authority, but such authority, on proof that the ship is an exempted mail ship, shall release the ship Where the Commissioners of Customs, in pursuance of any Act or as a condition of waiving any forfeiture, require a deposit to be made by any exempted mail ship to which this section applies, the amount of such deposit shall, on notice from the Commissioners of Customs, and without any further proceeding, be set apart out of the security as money belonging to the said Commissioners, and shall be paid and applied as they direct, and any rules of Court relating to such notice, payment or application shall be made with the consent of the Treasury

Application of Act to public ships

6 (1) Where the Convention with a foreign State provides that any provisions of the Convention similar to those contained in this Act shall in any cases apply to a public ship of a Foreign State when employed as a mail ship it shall be lawful for Her Majesty the Queen to agree that the like provisions shall apply to a public ship of Her Majesty in the like cases when employed as a mail ship, and to give effect to such agreement

(2) An order in Council applying this Act as regards a Convention with a Foreign State may, if it seems to Her Majesty in Council to be consistent with the Convention so to do, apply this Act as regards a public ship of that Foreign State when employed as a mail ship in the

cases authorised by the Convention, and this Act shall apply accordingly as if such ship were an exempted mail ship belonging to a private owner and any person may be arrested on board such ship accordingly

Legal proceedings

7 (1) Every fine under this Act if exceeding fifty pounds, may be recovered by action in the High Court in England or Ireland or in the Court of Session in Scotland, and the Court in which it is recovered may reduce the amount of such fine, and a fine under this Act not exceeding fifty pounds may be recovered on summary conviction, provided that every offence for which a fine exceeding fifty pounds can be imposed under this Act may be prosecuted on summary conviction but the fine imposed on such conviction shall not exceed fifty pounds

(2) In the case of a summary conviction, any person who thinks himself aggrieved by such conviction may appeal to quarter sessions In Scotland such person may appeal in manner provided by the Summary Prosecutions Appeals (Scotland) Act, 1875

(3) Service of any summons or other matter in any legal proceeding under this Act shall be good service if made by leaving the summons for the person to be served on board the ship to which he belongs with the person being or appearing to be master of the ship

(4) If a fine under this Act imposed on the master of a ship is not paid, and cannot be recovered out of any security given in pursuance of this Act, the Court may, in addition to any other power for enforcing payment of the fine, direct the amount to be levied by distress or poinding and sale of the ship, her tackle furniture or apparel An officer of Customs in detaining a ship or releasing a ship after detention in pursuance of this Act shall act upon such requisition or authority and under such regulations as the Commissioners of Customs may make with the consent of the Treasury

Application of Act to British Possessions

8 (1) An Order in Council may, for the purpose of a Convention with a Foreign State, apply this Act subject to any exceptions or modifications not inconsistent with the provisions of this Act, to any British Possession, and this Act, when so applied, shall, subject to those exceptions and modifications and subject as hereinafter mentioned, have effect as if it were re enacted with the substitution of such British Possession for the United Kingdom

Provided that before it is applied to any British Possession named in the schedule to this Act the Government of such Possession shall have adhered to the Convention

(2) Where this Act applies to a British Possession, it shall not be necessary for the owner of any mail ship to give security in any Court in that Possession and the provisions of this Act with respect to the jurisdiction of any Court of the United Kingdom, other than any jurisdiction relating to the application of the security, shall apply as if a Court in the British Possession were substituted for a Court of the United Kingdom

(3) It shall be lawful for Her Majesty in Council to make rules for carrying into effect, as respects British Possessions, the provisions of this Act with respect to the security given by mail ships, and in particular with respect to the commencement of a legal proceeding by service of a writ or process in the Possession, and to the notices to be given to arresting authorities in the Possession and the evidence to be receivable by such authorities of the security having been given or withdrawn, and the application of the security in discharge of any damages, fine debt, claim, sum or forfeiture, where the same are or is recovered or payable either in the British Possession, or under proceedings pending concurrently in that British Possession and in any other British Possession or the United Kingdom

(4) If by any law made either before or after the passing of this Act by the Legislature of any British Possession provision is made for carrying into effect within such Possession any Convention to which this Act applies, Her Majesty in Council may suspend the operation within such Possession of this Act or of any part thereof so far as it relates to such Convention and so long as such law continues in force there, or direct that such law or any part thereof shall have effect in such British Possession with or without modifications and alterations as if it were part of this Act

Definitions

9 In this Act—

the expression "mail bag" means a mail of letters, or a box, or parcel or any other envelope in which post letters within the meaning of the Acts relating to the Post Office are conveyed

the expression "subsidy" includes a payment for the performance of a contract,

the expression "master of a ship" includes any person in charge of a ship, whether commander, mate or any other person,

the expression "ship of a Foreign State" means a ship entitled to sail under the flag of a Foreign State,

the expression "arresting authority" means any Court, authority or officer having power to arrest or detain a ship, or to arrest a person on board a ship, or to order such arrest or detention or to order the execution of any process civil or criminal, for the arrest of a person on board any ship

the expression "postal officer" means any person employed in the business of the Post Office of the United Kingdom or a British Possession or Foreign State, as the case may be, whether employed by the Post master General or the chief of the Post Office of the British Possession, or the chief of the Post Office of the Foreign State or by any person under him, or on behalf of any such Post Office

FINANCIAL, INDIA OFFICE,

No 110 *London, 8th June, 1893*

To His Excellency the Most Honourable the Governor General of India in Council

MY LORD MARQUIS,—In continuation of my Despatch, dated the 6th of April last, No 79, I forward for the information of your Government ten copies of the Order of Her Majesty in Council of the 16th of May 1893, entitled "the Mail Ships (France) Order in Council (India), 1893 '

I have, &c,

KIMBERLEY

AT THE COURT AT WINDSOR

The 16th day of May 1893

PRESENT

The Queen's Most Excellent Majesty

Lord President

Marquess of Ripon

Mr Secretary Asquith

Whereas on the thirtieth day of August 1890 a Convention was made at London between Her Majesty and the President of the French Republic respecting the postal service between France and the French possessions and the United Kingdom and British possessions,

And whereas the ratifications of the said Convention were exchanged on the 23rd March 1891

And whereas by "the Mail Ship (France) Order in Council, 1892, "The Mail Ships Act, 1891,' is applied during the continuance of that Order as regards the said Convention, and as regards the French Republic and the postal service and mail ships described in that Convention,

And whereas by section 8 of the said Act it is provided that an Order in Council may for the purpose of a Convention with a foreign State, apply the said Act subject to any exceptions or modifications not inconsistent with the provisions of the said Act to any British possession, and that the said Act, when so applied should, subject to those exceptions and modifications, and subject as thereinafter mentioned have effect as if it were re enacted with the substitution of such British possession for the United Kingdom provided that, before it should be applied to any British possession named in the Schedule to the said Act, the Government of such possession should have adhered to the Convention,

And whereas the Government of India, one of the possessions named in the Schedule to the said Act has adhered to the said Convention, and it is expedient that the said Act should, for the purposes of the said Convention, apply to India subject to the exceptions and modifications in this Order contained

Now, therefore, Her Majesty, by virtue and in exercise of the powers in this behalf by "The Mail Ships Act, 1891, or otherwise in Her Majesty vested, is pleased by and with the advice of Her Privy Council to order, and it is hereby ordered, as follows

1 "The Mail Ships Act, 1891,' shall, for the purpose of the said Convention, apply to India, subject to the provisions of section 8 of the said Act, and also to the exceptions and modifications following, that is to say—

(1) The expression "Officer of Customs means an officer of Customs authorized under "The Sea Customs Act 1878 ' or other Law for the time being regulating sea customs in India

(2) The provisions of the said Act as to the amount of fines shall be read as if the amounts were stated in rupees at the rate of 10 rupees to the pound sterling

(3) In lieu of sub sections 1 and 2 of section 7 of the said Act, the following provisions shall be substituted, that is to say—

Every fine under the said Act, if exceeding 500 rupees, may be recovered by suit in the principal Civil Court having original jurisdiction in the place in which the person liable to the fine may be found

A fine under the said Act not exceeding 500 rupees may be recovered by criminal proceedings before a Presidency Magistrate, or Magistrate of the First Class, having jurisdiction in the place in which the person liable to the fine may be found provided that (*a*) every offence for which a fine exceeding 500 rupees can be imposed uuder the said Act may be prosecuted before such Magistrate, but the fine imposed on such conviction shall not exceed 500 rupees, and (*b*) in every case of conviction and fine by a

Magistrate there shall be an appeal to the same Court as in other cases of fine of such amount as, under the Law for the time being in force in India, to give a right of appeal

Every Court, whether of original or appellate jurisdiction, may reduce the amount of any fine

(4) The Regulations required to be made under sub section 4 of section 7 of the said Act by the Commissioners of Customs with the consent of the Treasury shall in India be made by the Governor General in Council

(5) Section 5 of the said Act, so far as relates to the Commissioners of Customs, shall not apply to India

2 The said Act shall apply as regards any public ship of the French Republic when employed as a mail ship in the cases authorised by Article V of the said Convention

3 This Order may be cited as "The Mail Ships (France) Order in Council (India) 1893"

And the Right Honourable the Earl of Rosebery, K G, and the Right Honourable the Earl of Kimberley, K G, two of Her Majesty's Principal Secretaries of State are to give the necessary directions herein as to them may respectively appertain

No 255 —Mr E N Homan, Storekeeper, Class II, Grade 3, of the Superior Revenue Establishment of State Railways, is appointed to officiate as Port Storekeeper, State Rail way Department, Calcutta, during the absence of Mr J H L Patterson on privilege leave, or until further orders

The 5th July 1893

No 257 —The following is published for general information

No 1712 G, dated 29th June, 1893

RESOLUTION—By the Government of India, Public Works Department

Completion of the bridge over the Kistna river at Bezvada

OBSERVATIONS —This bridge, which forms a portion of the East Coast Railway, connects that line and His Highness the Nizam's Guaranteed Railway system north of the Kistna with the Bellary Kistna metre gauge railway south of that river at Bezvada Provision has been made both for standard and metre gauge lines crossing the bridge in order to accommodate the possible future extension of the East Coast Railway to Madras, and to afford access for the metre gauge railway into Bezvada A roadway for ordinary traffic is carried at the same level as the rails The site finally selected for the bridge is about half a mile below the anicut, where the course of the river is fixed by two hills flanking the anicut

The bridge itself consists of 12 spans of 300 feet girders, carried on piers 50 feet high, which are founded on double hexagonal wells, of the type used in the bridge over the Chenab at Shershah, sunk to an average depth of 80 feet, and was estimated to cost Rs 42,70,000 The girder work especially has been erected expeditiously and cheaply, nine spans weighing 4,500 tons being erected in the short space of four months

Work was commenced in August 1890, and the bridge was opened by His Excellency the Governor of Madras on 17th March 1893, so that the time occupied in construction was only 2½ years

---

RESOLUTION —The Governor General in Council desires to record his appreciation of the successful manner in which this important work has been carried out and of the rapidity and cheapness with which the work has been executed, which reflects the highest credit on the officers and subordinates employed

2 His Excellency in Council desires specially to recognise the services of Mr F J E Spring, L C E, M I C E, Engineer in Chief, and Mr E W Digby, the Engineer in charge

The services of the foremen and of the subordinate native employés on the bridge have been rewarded by the grant of bonuses under the sanction of the Government of India

---

ORDER —Ordered, that a copy of this Resolution be forwarded to the Director General of Railways for information and communication to the officers concerned, and that it be published in the *Gazette of India*

No 258 —Mr D B Horn, Executive Engineer, 1st Grade, Bengal, is appointed to officiate as Superintending Engineer during the absence on privilege leave of Mr W Connan, Superintending Engineer, 3rd Class, temporary rank, or until further orders

The 7th July 1893

No 259 —The services of Lieutenant E H de V Atkinson, R E, Executive Engineer, 4th Grade, temporary rank, are replaced at the disposal of the Government of India in the Military Department, with effect from the forenoon of the 1st April 1893

No 260 —Mr F F Bion, Assistant Engineer, 2nd Grade, Burma, is transferred to the North Western Provinces and Oudh

No 261 —Mr J M F Petters, Assistant Engineer, 3rd Grade, North Western Provinces and Oudh, is transferred to Burma

TELFGRAPHS

The 3rd July, 1893

No 256 —In exercise of the power conferred by section 7 of the Indian Telegraph Act (XIII of 1885), the Governor General in Council is pleased to make the following amendment, with effect from the 1st day of July 1893, in the rules for Inland telegrams published by Gazette Notification, Public Works Department, No 214 of 10th June 1891

To Rule 28 the following shall be added, namely,—

"(13) An Officer Commanding a force in the field Provided that, if such officer shall not hold the rank of a General Officer, the power shall be limited to the case of messages for despatch to the head quarters of the Local Government or Administration within whose jurisdiction the force is operating '

১৮৯১ সনের এপ্রেল মাসের ১লা তারিখ অবধি যাবৎ অন্য আজ্ঞা না হয় তাবৎ কলিকাতার বোটানিকেল গার্ডেনের অর্থাৎ কোম্পানির বাগানের সুপারিন্টেণ্ডেন্টের নিকট গবর্ণমেন্টের কর্ম্মচারিগণ এবং অপর কোন ব্যক্তি এক কালীন দশ পোণ্ড ক্রয় করিলে নিম্নলিখিত হিসাবে জ্বরঘ্ন সিন্‌কোনা পাইবেন অর্থাৎ চারি ঔন্স টিন ২॥ টাকায় আট ঔন্স টিন ৫ টাকায় ও এক পোণ্ড টিন ১০ টাকায় পাইবেন। সর্ব্ব সাধারণে কোম্পানির বাগানের সুপারিন্টেণ্ডেন্টের নিকট নগদ মূল্য দিলে এই এই হিসাবে অর্থাৎ চারি ঔন্স টিন ৩, টাকায় আট ঔন্স টিন ৬, টাকায় এবং এক পোণ্ড টিন ১২, টাকায় পাইতে পারিবেন। কলিকাতার প্রধান প্রধান ইউরোপীয় ও দেশীয় ঔষধ বিক্রেতাগণও এই ঔষধ বিক্রয় করিয়া থাকেন। উপরোক্ত হার ছাড়া চারি ঔন্স টিনের। আট ঔন্স টিনের। ও এক পোণ্ড টিনের ৷৹ ডাক মাশুল দিতে হবে

PURE SULPHATE OF QUININE

Manufactured at the Bengal Government Cinchona Plantation

The price of this Quinine is as follows —

1 Pound tin,	R16,	or, post free,	R16 12
½ „	R 8,	„	R 8-8
¼ „	R 4,	„	R 4-8

Analysis shows this Quinine to be of the purest manufacture, and it is guaranteed to be free from wilful mixture with the inferior alkaloids Cinchonine and Cinchonidine It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Seebpore, near Calcutta It can be had either white or coloured pink

বঙ্গদেশের গবর্ণমেণ্টের সিনকোনা আবাদে প্রস্তুত বিশুদ্ধ কুইনাইন।

এই কুইনাইনের নিম্নলিখিত মূল্য যথা—

১ এক পোণ্ড টিন	১৬, বা ডাকমাশুল বিনা	১৬৸
½ আধ „ „	৮, বা ডাকমাশুল বিনা	৮॥
পিকি	৪, বা ডাকমাশুল বিনা	৪॥

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধরূপে প্রস্তুত করা হইয়াছে। এবং ইহা যে সিন্‌কোনাইন ও সিন্‌কোনীডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছা পূর্ব্বক মিশান হয় নাই তাহার গারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারিগণের নিকট বিক্রয় করা যাইবে এবং কলিকাতার নিকট শিবপুরের কোম্পানির বাগানের সুপারিন্টেণ্ডেন্টের নিকট পাওয়া যাইতে পারিবে। ইহা শাদা বা পাটল বর্ণের পাওয়া যাইতে পারিবে।

THE INDIAN LAW REPORTS.

REVENUE DEPARTMENT.

[Revised Advertisement.]

A Dictionary of the Economic Products of India

BY DR GEO WATT C I E,

Reporter on Economic Products

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first five volumes and Volume VI, Parts I and II, of the Dictionary are now ready at the Office of Superintendent of Government Printing, No 8, Hastings Street Calcutta and will be supplied to non-subscribers on receipt of the price for the complete set which is R45 in India, and 3 guineas in England (exclusive of the Index for which a separate charge will be made) packing and postage, in India, 8 annas per volume, for England, 2 rupees 6 annas per volume For copies bound in half calf or half morocco R6 and 8 shillings respectively will be charged extra for the whole set

The Dictionary is intended to deal with the products of India—animal vegetable and mineral each product being treated after a uniform plan, the paragraphs of which give the scientific vernacular and European names habitat or source history properties and uses (both chemical and industrial) trade statistics markets etc The work is arranged alphabetically according to scientific nomenclature but commercial and important vernacular names are also given as cross references so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks and with a reference to the original publication Numerous contributors have however furnished the results of new discoveries and confirmed the vernacular names so that the Dictionary is not only a complete compilation of published information but has been brought abreast of the most recent inventions and discoveries

Volume I contains the letters A and B and consists of 559 royal octavo pages Volume II embraces the letter C in 689 pages Volume III contains the letters D E F and half of G Volume IV latter half of G to middle of L and Volume V contains the latter half of L to end of O Vol VI (which will consist of four parts) Part I contains letters P to R The whole work will it is expected, be completed in nine volumes (including Parts II to IV of Vol VI) during the current year but a tenth volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary The Index will practically be a glossary of the vernacular and European names of the plants animals and minerals of India and as such will be a work of reference which it is hoped may prove of considerable value

Index (alphabetical) to applications for exclusive privilege in respect to Inventions made under Act V of 1888 and disposed of during the quarter ending 31st March, 1893, or pending on that date, and of specifications filed 8vo R1 (1a)

SUPPLEMENT TO
The Gazette of India.

No 27] CALCUTTA SATURDAY JULY 8 1893

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time containing such Official Papers and information the Government of India may deem to be of interest to the Public and such as may usefully be made known. The Debate of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications the Publication of which in the GAZETTE OF INDIA is required by Law or which it has been customary to publish in the CALCUTTA GAZETTE will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA

FINANCE AND COMMERCE DEPARTMENT

REPORT UPON THE OPERATIONS OF THE CURRENCY DEPARTMENT FOR THE YEAR 1892-93

No 88, dated Calcutta the 29th June 1893

From—The Head Commissioner of Paper Currency Calcutta

To—The Secretary to the Government of India Finance and Commerce Department

I have the honour to submit the report upon the operations of the Currency Department for the year 1892 93

Arrangement of Subjects

OFFICERS IN CHARGE

2 I was Head Commissioner throughout the year, but was absent on leave and deputation from April 19th, 1892, to January 20th, 1893, during

which period Mr R Logan officiated as Head Commissioner The other circle offices were in charge of the officers mentioned below —

Bombay	Mr A F Cox was Commissioner during the whole year
Madras	Mr T W Rawlins was Commissioner throughout the year
Rangoon	Mr C F Crawley officiated as Commissioner from 1st April 1892 to 15th December 1892 Mr I H Biggs resumed charge of the office on 15th December 1892 and continued as Commissioner to the end of the year

CONSTITUTION OF CIRCLES

3 A notification (Finance and Commerce Department, No 803) was issued on 24th February 1893 with the object of bringing Upper Burma within the Rangoon Circle of Issue No other changes were made during the year

ACCOUNTS AND AUDIT

4 The monthly audit of the accounts has been duly reported for each Office to the Comptroller General, and special audits have also been made by the Deputy Auditors General for 1891 92 of the following offices —

By Mr Hart—	*By Mr Cooke—*
Calcutta	Bombay
Allahabad.	
Lahore	
Karachi	

The accounts of the Calicut office for October 1889 to September 1892 have been audited by the Assistant Accountant General, Madras

CIRCULATION

5 The following figures show the gross and net circulation* at the beginning and end of the year —

	Gross circulation	Retired by other offices	Net circulation
	R	R	R
1st April 1892	24 40 50,575	32,86,490	24 07,64,085
31st March 1893	26,88 12,195	47,93,995	26 40,18,200

The net circulation at the end of the year exceeded that at the commencement by R2,32,54,115, or 9 66 per cent The highest figure in the year, which is also the highest point yet touched by the circulation, was reached in August 1892 The circulation was then upwards of 29 crores of rupees

6 The average net circulation at the end of each month of the last five years was as follows —

	R
1892 93	27,09,95,630
1891 92	25,43 62,371
1890 91	22 88 92 275
1889 90	16 15 14,963
1888 89	16,43,16,288

There was a large and sudden increase in 1890 91, but the figures for the last three years indicate no retrogression from the high figure then attained, but, on the contrary, they show continued and steady progress

7 The variations in the net circulation of each Circle are shown in the following table —

Last day of	Calcutta	Allahabad	Lahore	Bombay	Karachi	Madras	Calicut.	Rangoon	Total
	(Thousands of Rupees)								
March 1892	10 30 46	89 5	1 44 83	7 53 94	72 10	2 68 27	9 18	39 31	24 07 64

March „	23 99	—3	1 05	2 57	—4	5	1 [illegible]	1 2 1/8
Total		3 35	12 87		3			

10 The circulation during the earlier months was below that of 1891 92, but it expanded rapidly from the commencement of the year, and passed that of the previous year in the month of August, after which it remained considerably above the level of the previous year The expansion of the circulation is, as usual, mainly due to the very large importations of silver, which exceeded by 372 lakhs those of 1891 92, and were considerably above the average, the silver brought to the mint for coinage was even more largely in excess (780 lakhs) of that brought in the previous year The larger import was partly due to the large net exportation of gold, which amounted to 281 lakhs against

net imports of 564 lakhs and 241 lakhs in 1890-91 and 1891-92 respectively, and which seems to have been due to the appreciation of the value of gold, as evidenced by the further heavy drop in exchange during the year having led holders of gold to bring out their hoards for realization

11 The expansion of the circulation was general save only in the Calicut Circle, though the average circulation showed the largest increase in Bombay where the bulk of the silver is imported and is immediately exchanged for Currency Notes It is not, however, of much use to attempt to explain the variations in individual circles, for these depend largely upon transfers made for the temporary convenience of Government or of Banks, which are afforded facilities for transferring funds from one part of India to another through the Government Account or through the Currency Department All such transfers have an immediate effect upon the circulation reducing that of one circle, while they enhance that of another Notes of sub circles are also largely held by Banks, because they can be cashed at either the circle or sub circle office Thus the circulation of the Allahabad Circle, for instance, is largely dependent on the amount of its notes held by the Bank of Bengal The circulation of the Calicut Circle has fallen very low, and it seems doubtful whether it is worth while to retain this currency circle, but the matter can be considered after another year's experience

12 The figures in the following table show for the last three years the circulation after deducting the notes held in the cash balances at the Head Offices of Presidency Banks They indicate that the expansion this year has occurred almost entirely in this portion of the circulation which represents what may be considered the real circulation —

	1890-91	1891-92	1892-93
April	13,71	17,28	18,78
May	13,96	17,41	19,63
June	13,66	17,90	19,97
July	13,73	17,37	20,59
August	14,[illegible]	17,81	20,5[illegible]
September	15,23	17,69	21,66
October	16,05	19,56	22,27
November	15,67	19,50	22,30
December	16,80	19,84	22,66
January	17,07	18,41	21,76
February	17,58	18,46	21,45
March	17,62	18,45	21,68

13 The average circulation at the end of each month, calculated on the figures for five years (excluding Reserve Treasury figures), is given below, and against it I show the actual circulation for 1891-92 and 1892-93 —

(In lakhs of Rupees)

	Average for five years ending	Actual	
	1892-93	1892-93	1891-92
April	1,793	2,125	2,231
May	1,848	2,186	2,312
June	1,929	2,333	2,448
July	1,971	2,510	2,515
August	2,006	2,605	2,514
September	2,084	2,706	2,470
October	2,153	2,776	2,448
November	2,170	2,748	2,442
December	2,095	2,531	2,372
January	2,004	2,476	2,067
February	1,943	2,403	2,076
March	1,932	2,399	2,064

It will be seen that the circulation during 1892 93 followed very closely the normal course, rising to the highest level in October and November and then falling again for the rest of the year In 1891-92, as explained in the report for that year, the circulation departed very materially from the normal course

14 The details of the net circulation of 31st March 1893 for each denomination of notes are as follows —

	Number of Notes for Rupees								Total	
	5	10	20	50	100	500	1 000	10 000	Pieces	Value

	49 , 456	3 917 336	330 083	232 482	568 068	50 648	67 981	5 403	5 6(7 457	26 40 18 200
Total for 31st March 1892	480 73,	3 571 0,8	318 609	216 135	50, 924	45 6,,	60 039	5 202	5 203 348	24 07 64 085
Total for 31st March 1891	5 8 ,68	3 300 390	311 7,	?05 933	46 6	44 983	58 42,	7 ,24	4 923 663	25 69 04 490

Notes of all values have increased in number, ten rupee notes, as usual, having increased most of all, and now forming more than 69 per cent of the total number of notes issued Five rupee notes have increased this year, but in Rangoon and Bombay they have not yet completely recovered from the effect of the recent forgeries in those circles

15 Dividing the net circulation between notes of R 00 and upwards and notes below R500, the values at the end of each of the last three years are—

(Thousands of Rupees.)

	Notes of R100 and under Value	Percentage of total	Notes of R500 and upward Value	Percentage of total	Total
1892 93	11 66,83	44	14 73,35	56	26 40 18
1891 92	10,58,86	44	13,48 78	56	24 07 64
1890 91	9,87,48	38	15,81,56	62	25,69,04

There has been an increase in both classes of notes, as compared with last year, the proportion of low value notes to the whole remaining practically unchanged

16 Some remarks were made in last year's report as to the varying proportions of notes of each denomination in the different circles In further illustration of this point the accompanying table shows the percentage of notes of each denomination in the five principal circles, and the percentage for all circles taken together —

	Calcutta	Allahabad	Lahore.	Bombay	Madras	Total of all circles
Five rupee	2 8	10 6	13 6	18 3	10 8	8 8
Ten "	84 7	34 8	28 8	58 6	34 9	69 1
Twenty "	2 35	17 4	20 3	7 9	7 8	5 8
Fifty "	1 8	13 1	14 0	,7	6 2	4 1
Hundred "	6 5	17 6	17 7	7 2	38 5	10
Five Hundred "	8	2 7	3 4	6	1 2	9
One Thousand "	1	3 4	2 0	1 6	5	1 2
Ten Thousand "	05	4	2	1	1	1
	100	100	100	100	100	100

17 In the Calcutta Circle ten rupee notes so far outstrip all others as to throw them, as far as numbers are concerned, quite into the shade In Bombay, these notes also form a considerable proportion of the total number of notes in circulation, and its five rupee notes are also numerous, forming more than 60 per cent of the notes of that denomination in all circles, five hundred-rupee notes do not, however, find favour there In Madras one hundred-rupee notes are specially favoured, the proportion being more than double that of any other circle, and more than five times that of Bombay or Calcutta Between Allahabad and Lahore the differences are mainly in the three lowest denominations, twenty-rupee notes, which are not much used elsewhere, form a fair proportion of the circulation in both these circles

18 It is impossible to give any explanation of these differences, but the fact remains that the circulation of notes of the lower denominations is steadily increasing in all circles, and that five and ten rupee notes especially are used more and more extensively each year in the ordinary retail transactions of the people It is a matter for congratulation that no serious forgery has occurred during the year under report, for it is a successful forgery alone that places any check on the more extended use of these small value notes, even that, however, does not check the expansion of the circulation as a whole, but merely diverts the circulation from one low denomination to another

19 The gross value of each denomination of notes of small value in circulation at the end of the last three years is compared below —

	1890 91	1891 92	189 93	Percentage of increase in 1892 93 over 1891 92
R 5	26,43	24,04	24 77	+ 2)
„ 10	3,30,04	3,57,11	3,91,73	+ 9 7
„ 20	62,35	63,72	66 02	+ 3)
„ 50	1,02,97	1,08,07	1,16,24	+ 7 5
„ 100	4,65,69	5,05,92	5,68,07	+ 12 4
	9,87,48	10,58,86	11,66,83	

The decrease in the circulation of R5 notes in 1891 92 was due to forgeries of these notes in Bombay and in Rangoon In 1892 93, there has been a partial recovery, but the circulation is still considerably below that of 1891 92

20 The average value of each note in circulation in each Circle on the last day of the year compared with the past two years was —

	1892 93	1891 92.	1890-91
	R	R	R
Calcutta Circle	85	87	87
Allahabad „	124	84	98
Lahore „	88	84	99
Bombay „	48	50	58
Karachi „	62	60	53
Madras „	71	66	94
Calicut „	33	32	62
Rangoon „	95	68	78
All India	46 6	46 3	52 2

21 The average value for all India is practically the same as in 1891-92, but the fluctuations in the various circles are considerable In the smaller circles, a few more or less of notes of R10,000 materially affect the average value of the whole, but in the Calcutta and Bombay Circles there is a steady tendency towards a reduction in average value, and it seems probable that in a few years the average value in those circles and the general average value will have fallen to the figures prevailing before the sudden rise in the circulation, which took place in 1890 91, and was at first composed of a disproportionately large number of notes of high value, now gradually being displaced by those of lower value

The largest difference is in the Allahabad Circle, and is due entirely to an increase in the circulation of notes of R10,000 from 49 to 538

ANALYSIS OF CIRCULATION

22 Very little has been done to remove the small differences which have been found to exist between the ledger balance of notes in circulation and that obtained from the Issue Registers The differences in all Circles are now so small that it is extremely difficult to trace them out, and any further attempt at reconciliation would cost more than it is worth The largest difference is in Calcutta where the unregistered cancellations amount to 2,614, an infinitesimally small proportion of the total circulation The differences have all been ascertained and it is therefore possible to prove all current work, allowing for the known differences

RESERVE

23 The Reserve upon 31st March 18 3 stood as follows —

	R	a	p	R	a	p
Silver Coin—						
At Calcutta	2,14,77,520	0	4			
„ Allahabad	1,65,67,960	0	0			
„ Lahore	2,13,35,250	0	0			
„ Bombay	6,59,09,089	0	0			
„ Karachi	50,08,525	0	0			
„ Madras	2,06,52 805	0	0			
„ Calicut	7,08 450	0	0			
„ Rangoon	1,77,2 ,845	0	0	17,53,85,744	0	4
Deduct amount received at Calcutta but not paid at Bombay				50,000	0	0
				17,53,35,744	0	4
Small Silver Coin	27,000	0	0	27,000	0	0
Silver Bullion—						
At Calcutta	29,92,726	15	8			
„ Bombay	56,62,729	0	0	86,55,455	15	8
Invested in Government securities	8 00,00,000	0	0	8,00,00,000	0	0
Total agreeing with net circulation				26,40,18,200	0	0

The proportion of the Reserve held in coin and bullion to the total net circulation was very nearly 70 per cent —a percentage which is far in excess of what is generally considered a sufficient reserve The maximum amount

has, however, now been invested in securities, and no further investment can be made without further legislation

24 The half yearly verifications of the Currency balances were held for all Circles and Sub Circles on 30th September 1891 and 31st March 1892, and the balances of the last working day of each half-year were verified in accordance with the orders issued on the subject The half-yearly verifications are conducted by a gazetted officer unconnected with the Currency Department and in the larger offices, *e g*, Bombay, occupy a very considerable time The verification of the balances, especially in silver, is a work of time and labour as it is no small task for one officer to satisfy himself regarding the correctness of a rupee balance, which, as in Bombay, amounted to more than 6½ crores closely packed in treasure vaults

INVESTMENTS

25 No change was made during the year in the amount of the investments The full amount allowed under Act XV of 1890 has been invested The nominal value of the investment is R8,15,95,000 which is held at a book value of R8,00,00,000 The average rate at which the whole investment is held on the books is thus a little over R98 against a present market rate of about R107

PROFITS OF CIRCULATION

26 The interest realized and credited under the head "Profits on Note circulation" during the year is R32,63,790, being the full interest at 4 per cent on the nominal amount of the investment of R8,15,95,000 less only R10 which was realized as anticipation interest in 1891 92

The interest realized is upwards of four lakhs in excess of that drawn in 1891 92 owing to the increase in the Currency Investment from 7 to 8 crores of rupees at the close of that year

ISSUE AND RECEIPT OF NOTES

27 The following are the gross issues and receipts of the year, the detail by Circles being shown in Statement VI:—

	R	R
Gross circulation, 1st April 1892		24,40 50,575
Issues—		
Over the counter	92,80,35,625	
At Agencies	1,65,15 000	
In remittance transactions { Between Head Offices and Agencies	7,10,48,325	
In remittance transactions { Between Circles	13,24,24 700	
In payment of melting fees	97,850	
		1,14,81,21,500
		1,39,21,72,075
Receipts—		
Over the counter	79,27 53,125	
At Agencies	5 11,675	
From other Currency Circles	9,32,61,825	
For Mint Certificates	3,53,53,865	
In remittance transactions { Between Head Offices and Agencies	7,17,94,690	
In remittance transactions { Between Circles	12,96,84,700	
		1,12,33,59,880
Balance, being gross circulation, March 31st, 1893 (*vide* paragraph 5)		26,88 12 195

28 The Agencies deal exclusively with Treasuries and the bulk of the transactions are in the Punjab The receipts from other Currency Circles represent the receipt in each Circle of notes belonging to that Circle but cashed in other Circles The receipts for Mint Certificates are, as explained in last year's report, confined to Bombay

The remittances are for the most part payments and receipts of one Currency Office, in consideration of receipts or payments at another

29 The issues and receipts for the last three years are as follows —

	Issues.	Receipts
	R	R
1892-93	1 14,81,21,500	1,12,33 59,880
1891 92	97,47,35,540	99,00,29,740
1890 91	1,03,24,77,750	93,35,27,500

The issues have increased by about 1,734 lakhs, and the receipts by about 1,333 lakhs as compared with the previous year, the difference being made up as follows —

	Issues.	Receipts.
Over the counter	+7,83	+4,02
Remittance transactions	+10 18	+7,44
Securities purchased	−1,00	
Mint Certificates		+92
Other heads	+33	+95
	+17,34	+13,33

The largest increase is under Remittance transactions and is due partly to an increase in the actual amount of the Remittances and partly to a larger proportion of the Remittances having been effected by the issue or receipt of notes as distinguished from coin, than in the previous year

Bombay shows the largest portion of the increase both in issues (4,79) and receipts (2,95) over the counter Some part of the increase on both heads arose,—to quote the Bombay Commissioner's Report,—

"in consequence of a panic which arose in the Presidency town in the month of August after the issue of the Government of India notification against stamping notes with trade advertisements It is not improbable that alarm was first created by Marwarries, who, it is said, bought up at a discount notes bearing endorsements and stamps. The alarm was aggravated by an unfortunate mistake on the part of the City Police, who in one part of the city announced that after a certain date no notes bearing an endorsement of any kind would be cashed by Government. The consequence was that notes not absolutely free from endorsements were generally refused acceptance in the bazar and the Currency Office was besieged for several days by an excited throng which kept the staff engaged until 7 or 9 P M, although five extra counters were opened The panic subsided as rapidly as it had arisen"

30 The aggregate gross issues and receipts of the several denominations of notes at both offices of issue and Agencies during the year were as follows —

	Number of notes for Rupees								Total	
	5	10	20	50	100	500	1,000	10,000	Number	Value
Issues	410 614	5 164 672	596 558	424 215	1,250,088	163 412	324,337	52 774	8 886,670	1 14 81 33 500
Receipts	395 992	4 821 509	585 574	408,147	1 187,675	158 951	316,865	52,345	8,427 058	1 12 33 71 880
More Issues	14 622	343 163	10 984	16,068	62 413	4 461	7 472	429	459,612	2 47,61 620

31 The average number of notes that passed over the counters at each Head Office on each working day during the past three years, and the daily average of cancellations are given in the following table —

	Notes cashed.			Notes issued			Notes cancelled		
	1890-91	1891 92	1892-93.	1890-91	1891 92	1892 93	1890-91	1891 92	1892 93
At Calcutta	12 713	13 410	13,328	14,529	15,152	15 076	8 452	8 760	10 827
Bombay	6 940	8 203	8 102	8 200	8 524	9 037	5 614	5 544	5 785
Madras	2 457	2 592	2 014	2 657	2 635	3 115	2 331	2 586	2 799
Rangoon	645	733	888	758	742	982	425	572	792

The proportion of cancellations is high, but the prompt cancellation of soiled notes is considered here, as also by the Bank of England, to afford a special safe guard against forgery

ENCASHMENT OF FOREIGN NOTES

32 The following is the Foreign Note account of the Circles in aggregate —

		R
Balance held on 1st April 1892		32,86,490
Received over the counter	9,40,12,380	
Otherwise than in exchange	3,00,000	
From other Circles	11,59,700	
Received at Agencies (net)	4,56,950	
		9,59,29,030
Total		9,92,15,520
Remitted to Circles concerned		9,44,21,525
Balance on 31st March 1893		47,93,995
Total		9,92,15,520

33 The details by Circles of the amount received over the counter in the above statement are as follows —

Statement of Foreign Circle Notes cashed during the year 1892-93

Cashed by	Calcutta	Allahabad	Lahore	Bombay	Akola	Nagpore	Karachi	Madras	Calicut	Coconada	Rangoon	Total.
	R	R	R	R	R	R	R	R	R	R	R	R

Karachi	2 78 190	40 610	6 90,850	4 26 670				40 005	397	5	2 755	14 78,480
Madras	2 63 030	26 165	52 550	6 96 410	5		40 550		(c) 8 49 095		51 745	19 79,850
Calicut	22 080	120	2 270	2,07 620			1 595	5,36 690			6 205	7 76 780
Rangoon	6 425	100	50	1,590			800	11 125	200			19 790
Total	2 35 27 290	80 01 545	1 80 75 110	3 02,85 560	25	25	29 98 185	90 43 415	11 56 580	30	6 24 615	9 40 12 380

The letter (c) indicates the value of foreign notes which were legally encashable, i e the amount of Sub-Circle Notes encashed by their respective Head Circles.

And the comparison for the last four years is as follows —

Other Circle Notes cashed at—	1889 90 R	1890-91 R	1891 92 R	1892-93
Calcutta	3,54,08,555	4,39 25,780	4,12,97,670	4,89,05,865
Allahabad	54,37,460	46,92 205	1,60,84,065	2,07,26,530
Lahore	46,62,845	30,55,612	40,22,880	59 23,020
Bombay	1,43 02,185	1,32 03,125	1,50,82,435	1,42,01 465
Karachi	12,66,840	13,49,405	16,08,185	14,78,480
Madras	39,47,085	26 67,480	24,74,010	19 79,850
Calicut	22,25 325	19,89 945	7,47,990	7,76,780
Rangoon	28,185	5,510	9,630	19,790
	6,77,78 480	7 08,88,985	8,18,26,865	9 40,12,380

34 The total encashment of foreign notes continues to expand, but the expansion in 1892 93 was confined almost entirely to Calcutta and Allahabad Calcutta cashed in all 77 lakhs in excess of the previous year, the net result of an increase of 74 lakhs in Bombay notes and 53 lakhs in Lahore notes and of a decrease of 50 lakhs in Allahabad notes Allahabad cashed on the whole 46 lakhs more of foreign notes than in the previous year, of which 30 lakhs belonged to the Calcutta Circle, 6 to the Lahore and 8 to the Bombay Circle There was a special demand for money in the North Western Provinces, which accounts both for the larger encashment of foreign Circle notes there and for the smaller encashment of Allahabad notes in other Circles The demand for money in the Punjab was on the other hand slack, and on the whole 19 lakhs more of foreign notes were cashed by that Circle, while 51 lakhs more of its notes were cashed elsewhere A large quantity of Bombay notes find their way to Calcutta, and are utilised to a considerable extent in the payment of Government dues The amounts cashed at the Calcutta Office during the last four years have been in lakhs—

1889-90	213
1890 91	266
1891 92	184
1892 93	208

It will be seen that the encashments in 1891 92 were unusually low, in 1892 93 they were of the normal amount

ISSUE AND RECEIPT OF COIN

35 The transactions in coin are as follows (for details by Circles see statement VII) —

	Coin R a p	Small Coin R a p
Balance, 1st April 1892	14 29,88,394 10 4	20 000 0 0
RECEIPTS—		
Over the counter	14 76 94,771 0 0	
From small coin account	3,08,500 0 0	
At Agencies	1,63,94,000 0 0	
In remittance transactions—		
Between Head Office and Agencies R9,54,97,550 0 0		
Between Circles R7,79,68,300 4 0		
	17,34,65,850 4 0	
From Treasury on account of Mint certificates	8,73,83,933 5 6	
From coin account		3,15,500 0 0*
TOTAL RECEIPTS	42,52,47,054 9 6	3,15,500 0 0
TOTAL BALANCE AND RECEIPTS	56 82,35,449 3 10	3,35,500 0 0

* This includes R1 39 500 received in remittance from Agencies and held as reserve bullion

	R	a	p	
Issues—				
Over the counter	21,95,92 491	0	0	
At Agencies	3,90 6'5	0	0	
In remittance transactions—				
Between Head Office and Agencies R9,70,37,680 0 0; Between Circles R7,54,78,300 4 0	17,25,15,980	4	0	
For bullion delivered and pre melting fees	1,74,558	15	6	
To small coin account	1,76,000	0	0	
To coin account				3,08 500
TOTAL ISSUES	39,28,49,705	3	6	3,08 500
BALANCE, 31ST MARCH 1893 (see paragraph 23)	17,53,85,744	0	4	27,000

36 The receipts and issues for the past three years are given below —

	Receipts R	a	p	Issues R	a	p
1892 93	42,32,47 054	9	6	39,28 49,705	3	6
1891-92	35,54,83,850	0	0	39,15,16 276	0	0
1890 91	45,12,29,531	0	0	35,57,11 712	0	0

37 The issues did not differ materially from those of last year, but the receipts were on the whole 7 crores in excess The main differences were an increase of about 6½ crores in the receipts from the Treasury on account of Mint certificates, and of 2¼ crores in the receipts through remittance transactions, and of ¼ crore in the receipts at Agencies, with a decrease of 2 crores in the receipts over the counter

38 The net result is an increase of 3¼ crores in the coin reserve, against a reduction of 3½ crores in 1891-92, which is, of course, entirely due to the difference in the silver imports The reserve coin has now nearly regained the high level at which it stood at the close of 1890 91, though a crore has since then been invested in securities

STATE OF THE COINAGE

39 The following table shows the withdrawal of shroff marked coin from circulation during the year and the remittance of such coin to the Mint —

	Shroff marked coin				
	Opening balance	Receipts from the public	Total	Remitted to Mints	Closing balance
	(In Thousands of Rupees)				
India	52	20	72	63(a)	9
Central Provinces	4	4	8	3	5
Burma	2		2		2
Assam	11	6	17	10	7
Bengal	9	2	11	9	2
North Western Provinces	3 63	5,97	9 60		9,60
Punjab	5,76	6,30(b)	12,06		12,06

Bombay	7	39	46	40	6
TOTAL	10,48	13,06	23,54	1,52	22,02

(a) 1 remitted to Punjab | (b) Includes 63 received from India

40 The total amounts withdrawn from circulation in the last five years are shown below —

	47,18
1888 89	23,44
1889 90	20,68
1890 91	20,43
1891 92	13,06
1892 93	

The withdrawals show a considerable diminution in 1892 93, and it is to be hoped that the habit of shroff marking prevails less than formerly, and in time may be altogether eradicated

41 The following statement shows the number of coins cut and broken under the Coinage Act during the calendar year 1892 —

Name of Province	Number of treasuries in which coins were cut.	Believed to have lost by reasonable wear more than 2 per cent in weight				Believed to be counterfeit				Believed to have been reduced in weight otherwise than by reasonable wear				Considered unfit for further circulation by reason of obliteration of device or for other causes

(a) Erroneously treated as worn coin instead of shroff marked.

42 The number of counterfeit coin dealt with does not vary much from year to year The withdrawals of rupees which have lost more than 2 per cent in weight by reasonable wear are gradually diminishing, and the withdrawals of rupees reduced in weight otherwise than by reasonable wear, which rose last year, have fallen again in 1892 93

43 I append the usual statements of whole rupees coined and issued from the Indian Mints from 1835 to 1892, and of the proportion of each of those annual issues found on examination in each district Treasury of a bag of rupees of the coin ordinarily current in each district

The coinage of 1892 was upwards of 4 crores above that of 1891 and exceeded that of any year since 1877, save the very exceptional year 1890 The total coinage from 1835 to 1892 inclusive amounted to 327¾ crores of rupees

Rupees of the earlier years are gradually diminishing in number, as might be expected, and the drop this year in the proportion of rupees of 1840 and 1862 is rather larger than usual the former issue, which includes the coinage of 22 years, now forms less than 15 per cent of the total coinage, and the latter comprising the coinage of 12 years, forms less than 20 per cent

Statement of whole Rupees coined and issued from the Indian Mints from 1835 to 1892

EXCHANGE OF SMALL COIN

44 The receipts and issues of small change at the Currency Offices during the year were as follows

	Receipts			Issues			Net Issues.		
	R	a	p	R	a	p	R	a	p
Half Rupees	8,39 333	0	0	13 40,025	0	0	5 00,692	0	0
Quarter Rupees	6,96,215	0	0	18,14 499	0	0	11,18,284	0	0
One-eighth Rupees	6,62 941	12	0	12 21,445	4	0	5,58 501	8	0
Copper	3 69 166	0	0	5,74 994	2	9	2,05,828	2	9
TOTAL	25,67,608	12	0	49 50,963	6	9	23 83 304	10	9
TOTAL 1891 92	17 80,461	10	0	48 68,707	8	3	30,88,245	14	3

The receipts were largely, and the issues slightly, in excess of those of the last year Under Receipts the increase was in half and one-eighth rupees, while the increase in issues was chiefly in copper The net issues were 7 lakhs less than last year

BULLION

45 The following figures show the operations of the Bullion Clauses of the Currency Act, that is, the amount of Bullion received by the Mint Masters on account of the Currency Offices at Calcutta and Bombay, for the issue of certificates payable at the Currency offices in notes of the Circle or coin —

	Calcutta			Bombay		
	R	a	p	R	a	p
Balance of Bullion on 1st April 1892	77,52 6 9	5	8	1,00,03,071	0	0
Receipts of Bullion—						
April 1892	60,11,461	14	0	1,10,63,746	0	0

September „	6,34,001	13	0	63,41,438	0	0
October „	8,30,705	2	0	81,20,246	0	0
November „	10,50,600	6	0	26,23,236	0	0
December „	7 53,641	9	0	13,87,045	0	0
January 1893	8 96 985	4	0	1,16,49 719	0	0
February „	12,91,945	12	0	1,07,00,140	0	0
March „	21 95,905	14	0	81,88,357	0	0
TOTAL OF 12 MONTHS	1,93,29,138	14	0	9,41,88,520	0	0
Additional 1 per mille credited on account of Melting Fees out of Currency	22,035	1	6	97,870	0	0
TOTAL	1,93,51,173	15	6	9,42 86,390	0	0
Bullion remitted to Calcutta from Bombay	58,82,624	0	0	—58,82,624	0	0
TOTAL RECEIPTS	2,52,33,797	15	6	8,84,03,766	0	0
TOTAL RECEIPTS AND BALANCE	3,29,86,417	5	2	9,84,06,837	0	0
Deduct—Mint Certificates realized	2,99,93,690	5	6	9,27,44,108	0	0
Balance	29,92,726	15	8	56,62,729	0	0

46 The receipts of bullion for the last five years have been—

	Calcutta	Bombay	TOTAL
	R	R	R
1892 93	2,52,33,798	8,84,03,766	11,36,37,564
1891 92	1,67,13,180	4,38 64,931	6,05,78,111
1890 91	2,79,94,418	9,24,98,201	12,04,92 619
1889 90	73,22,954	7,07,87 073	7,81,10,027
1888 89	57,28,803	6,10,97,675	6,68,26,478

The receipts were very nearly twice those in the previous year, and did not fall far short of those of 1890 91

47 The operation of the Bullion Clauses of the Currency Act is also shown in further detail of the transactions between Mint and Currency in the following figures —

	Transfers to the Mint of bullion from the Currency Department			Balance at end of month of bullion paid for by the Currency Department and held as part of its reserve			Balance of bullion held on Treasury account, or the amount by which the deliveries of new coin failed to meet the Mint Certificates payable by Treasury or Currency

AGENCIES

48 The only province, in which the Currency Agency system, properly so called, is at all thoroughly worked, is the Punjab The issue of notes from the Agencies in that province at Simla, Rawal Pindi, Umballa and Peshawar continues to show development, the total issues of notes from Agencies amounting to 1,58 lakhs against 1,24 lakhs in 1891 92 and 1,03 lakhs in 1890-91 The issues from Agencies form a very large proportion (23 p c) of the total issues in this Circle

49 The other so called Agencies are really Currency chests, established with a view to more conveniently and rapidly effecting the resource operations of Government, as explained in full detail in last year's report This system is being developed every year

At the end of the year, the total number of Currency chests was 105 against 60 in 1891 92, and the total balance of coin deposited in them was upwards of 5,37 lakhs of rupees against R373 in 1891 92 distributed as follows —

	R 1891 92	R 1892 93
Calcutta Circle	1,28,27,882	1,54,41,000
Allahabad „	95,88,000	76,75,000
Lahore „	63,46,950	96,87,510
Bombay „	73,19,000	44 36,000
Madras „	4 30,000	80,17 000
Rangoon „	8,15 000	84,92,100
	3,73,26,832	5 37,48,610

CLAIMS ON LOST NOTES

50 The following is a statement of lost and mutilated notes paid during the year on bond of indemnity —

Nature of loss	Number of notes for Rupees								TOTAL	
	5	10	20	50	100	500	1 000	10 000	Number	Value
Whole notes lost or destroyed		3		2	16				21	1 730
Half notes lost by post	19	71	42	46	138	24	1		341	30 745
Half notes lost accidentally	6	104	27	81	268	14	14		517	53 610
Mutilated notes	9	72	14	7	22	2	5		131	9 595
1892 93	34	250	83	139	444	40	20		1 010	95 680
1891 92	42	306	69	108	404	32	28		989	94 450
1890 91	57	332	93	89	310	40	21		942	81 915

The total value of claims on lost and mutilated notes is infinitesimally small when compared with the value of the notes in circulation There is a slight increase in both the number and the value of the claims, the increase occurred chiefly in the Punjab where claims to the value of R19,165 were discharged against R7,125 and R4,755 in the preceding two years The excess was due to the specially large amounts lost in two cases

FRAUD AND FORGERY

51 A few cases of attempted fraud occurred during the year, but none of them presented any special features of interest Four are still under investigation

52 The forgeries, which came to light during the year, were as follows —

R	Number
5	62
10	34
20	2
500	1
1,000	2
	101

None of the new forgeries were of a serious nature

53 The number of forged 5 rupee notes presented shows a large reduction as compared with the previous year Forty of these notes belong to the Bombay forgery of the $\frac{8}{TT}$ series mentioned in my Report for 1889-90, for forging which one Husein Mahomed was sentenced to transportation for life

Thirteen notes belong to the Rangoon forgery, series $\frac{9}{TT}$ mentioned last year, two were presented at Calcutta, two at Bombay, and nine at Rangoon

Of the remaining notes of this denomination five belong to the Calcutta series $\frac{R}{TT}$, three to the Bombay series $\frac{8}{TT}$, and one to $\frac{8}{TS}$, a new forgery, which is very clumsy

54 Of the 10 rupee notes, 17 belong to the $\frac{R}{85}$ series mentioned in previous reports, 13 of which were presented at Calcutta

The following new forgeries in this denomination were brought to light during the year under report —

$\frac{U}{33}$, a very clumsy imitation, the medallions are like those of 50 rupee notes, the figures are coarse and unequal, and the paper has no watermarks upon it

$\frac{U}{34}$, a very clumsy forgery, the medallions are unequally made and coloured and the figures and letters are coarse, the paper is ordinary The note purports to bear Mr Westland's signature

$\left.\begin{array}{c}\frac{U}{74}\\ \frac{V}{3}\end{array}\right\}$ the printing and colouring are both defective

55 The most curious case was that in connection with 10 rupee notes of the $\frac{D}{16}$ series of the Allahabad Circle, which is thus described by the Commissioner of Paper Currency, Bombay —

"A singular case of forgery was prosecuted in Sind in which the forged notes consisted of portions of handkerchiefs on which representations of notes of the Allahabad Circle had been printed The importation of handkerchiefs of this description was reported by Mr Tupp to your office in June 1882 The evidence in the Sind case went to show that the possessors of these cloth notes wished to pass them as genuine and they were convicted by the Assistant Sessions Judge under Section 474, Indian Penal Code On appeal, however, the Sessions Judge of Shikarpur held that the documents, which showed no signature, could not be legally regarded as forgeries, and that though a charge of attempting to cheat might have succeeded the conviction of the charge as laid must be set aside"

It would seem almost impossible that any one could be deceived by such crude imitations as these, and yet it is clear that some danger may exist even of these imperfect forgeries passing among the ignorant rustic folk in some parts of India

The law of forgery, which seems to have been correctly interpreted by the Sessions Judge, may possibly require some modification, as far as Currency notes are concerned But on this point I shall address Government separately

56 The single R500 note belongs to the forgery mentioned in paragraph 51 of the Annual Report for 1889 90 It was tendered at the Bank of Bengal, Lahore, by one Hashan Din, whose possession does not appear to have been fraudulent, and it was unfortunately found impossible to trace the note farther back

57 The two thousand-rupee notes were $\frac{U}{78}$ 62726 and $\frac{V}{98}$ 39633 of the Calcutta Circle Two men, who are described by the Police as belonging to a gang of professional swindlers in Calcutta were arrested while attempting to pass these notes, which they pretended, were stolen notes The notes have not yet been forwarded to this office, but the Commissioner of Police says that they "were made by hand and could not possibly have been passed off as genuine"

REMITTANCES OF SILVER

58 The following is the detail of silver remittances —

	R
Calcutta to Rangoon	20,00,000
Bombay to Calcutta	1,00,00,000
Bombay to Karachi	56 21,000
Bombay to Madras	73,00,000
Bombay to Rangoon	60,00,000

And the following remittances of silver were made through Agencies —

Calcutta to Lahore	5,00 000
Allahabad to Lahore	45,00,000

59 The remittances to Rangoon are made to meet the trade demand in the rice season Bombay always has to send a large amount of coin to Calcutta as the silver, imported for coinage, is tendered to the Bombay Currency Office, while Bombay notes are cashed to a considerable extent by the Calcutta Office, being tendered by the Government Treasury into which they are paid on account of Government dues Madras also has to be supplied periodically with coin from Bombay The remittances to Calcutta and Madras were considerably below the normal in 1891 92 owing to dulness of trade

TREASURY STATISTICS

60 The transactions in notes at the several Treasuries in India during 1890 91, 1891-92 and 1892 93 have been as follows —

	1890 91	1891 92	1892 93
	R	R	R
Receipts from the Public in payment of Government dues	11,98,88,748	13 01,84 600	14,66 58,760
Receipts from the Public in exchange for silver	2,91 77,712	3 27 91,825	3,79 30,267
Receipts from the Public for other notes	24,13 810	24,51,975	30,03,963
TOTAL RECEIPTS	15,14,80,270	16,54,28,400	18,75,92,990
Issues to the Public in payment of Government dues	4,42 09,970	5 04,30,910	4 20,91,645
Issues to the Public in exchange for silver	3,68 19,145	4,18,73 290	4,33,08,767
Issues to the Public for other notes	24,13 810	24 51,975	30,03,963
TOTAL ISSUES	8,34,42,925	9,47,56,175	8,84,04,375

The receipts again show a large increase, but the issues are lower than last year

61 The total treasury transactions in notes during the last three years have been as follows (in lakhs of Rupees) —

	1890 91	1891 92	1892 93
Government of India	419	368	514
Central Provinces	46	59	58
Burma	34	55	77
Assam	54	59	62
Bengal	530	588	606
North-Western Provinces and Oudh	215	282	346
Punjab	318	386	235
Madras	359	432	474
Bombay	348	366	381
Hyderabad	6	7	7
TOTAL	2,349	2,602	2,760

The figures show curious fluctuations from year to year which do not admit of any general explanations

62 The following statement gives details regarding the encashment of notes by Treasuries —

	1890 91	1891 92	1892 93
Where notes were cashed throughout the year to the extent of the public demand	165	164	170
Where notes were ordinarily cashed, but not always	28	48	53
Where notes were not usually cashed	46	31	20
TOTAL	239	243	243

It is satisfactory to observe that the number of Treasuries where notes are not usually cashed has fallen from 46 in 1890 91 to 31 in 1891 92 and again to 20 in 1892 93 Considering the position of many of our Treasuries, and the difficulty experienced in keeping them supplied with silver, it must be admitted that the number of Treasuries not usually able to cash notes is exceedingly small

63 Statement V shows the proportion of Treasury and Bank balances which in each Province was held in the form of Currency Notes

Including Reserve Treasuries the percentage of balances held in notes was —

	1891	1892
Calcutta Circle	35 per cent	45 per cent
Bombay „	41 „	35 „
Madras „	29 „	23 „

But if Reserve Treasuries were omitted the figures would be —

	1891 Balance in		1892 Balance in		Percentage of Notes	
	Notes	Cash	Notes	Cash	1891	1892
	In thousands of rupees				Per cent	Per cent
Calcutta Circle	43,32	1 55,19	53,92	1,06 87	22	33
Bombay „	17,64	94,75	20,46	90,27	16	18
Madras „	21 95	99,97	16,21	78,41	18	17

RECEIPTS AND EXPENDITURE

64 The figures of receipts and expenditure given in Statement III are only approximate, as the accounts for 1892 93 are not yet closed The actual receipts in 1891 92 were more by R1,230 and the expenditure more by R137 than the approximate figures given in last year's report, details of the differ

ences are given in the foot note to Statement III The charges for 1892 93 were more than in the previous year by about R15,000 due partly (R8,000) to increased charges for note forms (these charges having been very low in 1891-92), partly (R4,000) to larger charges for petty construction and repairs (especially at Lahore), and partly (R3,000) to larger contingent charges due to the expansion of the circulation and the larger balances of coin held

Central Provinces—*For week ending 5th July*—Weather cloudy and rainy The total rainfall from June first to end of week is above the average in all but three districts Autumn sowings in progress

Burma—*For week ending 1st July*—In Lower Burma ploughing and sowing for wet-weather paddy progressing in all districts, and transplanting begun in some In Upper Burma ploughing, sowing, and transplanting of wet weather paddy progressing, but in Shwebo transplanting is delayed owing to want of rain Sowing of cotton and sesamum progressing in parts Standing crops are reported to be good everywhere In Lower Burma the price of paddy has fallen considerably in one district and risen slightly in another, elsewhere prices are stationary In Upper Burma, except for a slight fall in Pakokku, prices remain unchanged

Assam—*For week ending 4th July*—Weather seasonable Planting of winter paddy continues Prospects good Condition of cattle normal Fodder and water sufficient

Mysore and Coorg—*For week ending 5th July*—MYSORE Rainfall general and good Crops and prospects favourable and sowing operations in progress No marked change in prices

COORG Rainfall good Ploughing of rice fields still in progress, and transplanting commenced in some parts of the Province Planting of coffee in progress Prices stationary Water and fodder for cattle sufficient

Berar and Hyderabad—*For week ending 5th July*—BERAR Rainfall moderate Weather cloudy and warm Sowing of autumn crops in progress Fodder and water sufficient Cattle healthy Prices almost steady

HYDERABAD Rain fell during the week, Sowing of autumn crops in progress Prices steady

Central India—*For week ending 5th July*—Rain fell throughout Central India Heavy rain in Bundelkhand Crops germinating in Bhopal Cattle generally in good condition Price of food grains falling in Goona, fluctuating in Gwalior, and steady in other parts

Rajputana—*For week ending 5th July*—Rainfall generally good throughout Rajputana Agricultural operations going on, except at Kherwara, where they are at a standstill owing to excessive rain Agricultural stock good Pasturage or fodder sufficient Prices falling in four States, rising in one, fluctuating in two others, and steady elsewhere

Kashmir—*For week ending 4th July*—Rainfall moderate Crops in excellent condition Prices stationary Water ample for irrigation

Nepal—*For week ending 1st July*—Weather clear with occasional heavy showers Prospects good

E C BUCK,

Secretary to the Government of India

Printed and published for the GOVERNMENT OF INDIA *at the* GOVERNMENT CENTRAL PRINTING OFFICE, *Simla*

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weekly Report on the state of the Season and Prospects of the Crops

Madras—*For week ending 1st July*—Rainfall heavy on West Coast and Nilgiris and good in parts of the Central districts, the Karnatic, and Circars, scattered showers elsewhere, but very light in Southern districts Rainfall to date up to or over average except in Madras and Tinnevelly, deficiency considerable in the latter district Cultivation and sowings proceeding generally with vigour, and standing crops generally fair, but rain is wanted in the Southern districts Pasture, fodder, and drinking water sufficient General prospects favourable Prices nearly stationary with slight upward tendency Rates everywhere still exceptionally high

Bombay—*For week ending 5th July*—Rain throughout the Presidency Sowings and young crops injured in parts of five districts by rain, rats, crickets, or grasshoppers Agricultural operations progressing generally, but sowing retarded in parts of four districts owing to excessive or deficient rain Transplanting progressing in parts of five districts Prices steady, except in parts of two districts Agricultural stock good and fodder sufficient

Bengal—*For week ending 1st July*—There was general and at times heavy rain in all districts, except Orissa, during the week The continuous heavy rain has interfered with cultivation and is doing injury to the crops on low lands in several places in Bengal Proper Floods are reported from the north of Balasore, but their effects are not yet known In Behar both the autumn crops and rice cultivation are in progress and prospects are favourable Early rice is being cut in parts of North and East Bengal Indigo manufacture is going on but in Murshidabad the crop has suffered from heavy rain Prices of common rice are almost stationary Cattle are generally in good condition, and there is sufficient fodder available in all districts

North-Western Provinces and Oudh—*For week ending 5th July*—Good rain has fallen everywhere and agricultural operations are being actively pursued Supplies are ample and prices steady Locusts were seen in Meerut, but did not alight

Punjab—*For week ending 5th July*—Heavy rainfall in all but four districts Harvesting of spring crops nearly over, outturn is reported good, but the crops have been considerably damaged on threshing floors by early rain Ploughings for and sowings of autumn crops in progress Extra spring crops are doing well, condition of other standing crops average Prospects of autumn crops are said to be good Locusts appeared in part of Amritsar, but did no damage Cattle generally in good condition Fodder sufficient throughout the Province Prices unsettled in two districts, falling in three others, and stationary elsewhere

W L DALLAS,

Asst Meteorological Reporter to the Government of India

SIMLA, *6th July, 1893*

E C BUCK,

Secretary to the Government of India.

North Western Provinces, the Punjab, Central India, and Guzerat the deficiency for the week exceeded 5 0°

Rain —The concluding table shows that during the week under review rain has fallen in all the divisions of India In Hyderabad (South) and in the East Coast (Central) divisions the average actual rainfall of each division was less than one tenth of an inch, but in all the other divisions effective rainfall was received The heaviest rainfall was brought up by the Bay current Arakan received an average fall for the week of 17 23 inches this was followed by 12 55 inches in Tenasserim by 7 84 inches in Assam (Surma), by 6 53 inches in Deltaic Bengal, and by 6 17 inches in North Bengal, while the heaviest average fall attributable to the Arabian Sea current was 6 15 inches in Malabar The rainfall of both currents decreased as the currents advanced inland thus the average actual rainfall of the West Punjab was only 0 32 inch, while, as stated above, the average actual fall of Hyderabad (South) was 0 06 inch, of the East Coast (Central) was 0 07 inch, and of Rajputana (West) was 0 21 inch According to the normal, the rainfall of the week under review should be 9 53 inches in Arakan, 8 88 inches in Tenasserim, 8 12 inches in Assam (Surma), 6 93 inches in Malabar, and 9 12 inches in the Konkan, while the lightest normal average rainfall is 0 19 inch in the Punjab (West) and in Sind This comparison shows that, while the average normal rainfall of the Burma Coasts and of the West Coast is ordinarily about equal, the actual rainfall of the week under review was heavier than the average in Burma, and considerably heavier than that on the West Coast

The third column of the table shows that the rain bearing quality of the Bay current was much greater than that of the Arabian Sea current, so that, generally speaking, nearly all the divisions, the weather of which is influenced by the Bay current, had excessive, just as, generally speaking, nearly all the divisions, the weather of which is influenced by the Arabian Sea current, had deficient rainfall Hence the divisions which received heavier rain than the normal were Tenasserim, Arakan, East Bengal, Assam (Brahmaputra), Deltaic, Central and North Bengal, Chota Nagpur, Behar (North and South), all the divisions in the North Western Provinces, all the divisions of the Punjab as well as Madras (South Central), the Central Provinces (East), Guzerat, Kathiawar, Sind, Central India, Rajputana (East), and the East Coast (South), all the other divisions had deficient rain The greatest absolute excess was 7 70 inches in Arakan and the greatest absolute deficiency was 5 81 inches in the Konkan

The concluding columns of the table show that up to date the monsoon rainfall has been generally good, and in some districts largely excessive Still in Tenasserim, Lower and Central Burma, and in Assam (Brahmaputra) there has been some deficiency

The following gives the largest total amounts received during the week as reported in the rainfall telegrams of the week

Division	District	Station	Amount	
Tenasserim	Amherst	Sudder	13 61	inches
Arakan	Akyab	Ditto	19 02	"
East Bengal	Noakhali	Feni	16 03	"

Konkan	North Kanara	Honavar	10 82	"
Guzerat	Kaira	Kapadvanj	10 29	"
Madras	Nilgiris	Devala	11 77	"

Sutna, Jubbulpore, and Pachmarhi over 2 inches On the morning of the 29th the barometer was falling over Rajputana and the neighbouring regions and rising elsewhere The depression which had been traced from Bengal was close to Ajmere and Jeypore, and was filling up The greatest pressure difference was 0 432 inch between Tavoy and Sambhar, so that gradients were decidedly slighter The winds exhibited slight cyclonic movements over Rajputana, but elsewhere the general directions were unchanged The force of the monsoon on the West Coast was only moderate The distribution of rain was similar to that reported on the previous day The amounts on the West Coast were light The following were the principal amounts elsewhere Ahmedabad, 6 15 inches, Kendat, 3 95 inches, Neemuch, 3 83 inches, Diamond Island, 3 38 inches, and Darjeeling and Saugor over 2 inches On the 30th the barometer was rising, except at a few places in North Eastern India The depression from Bengal had reached Bikanir, and the pressure difference between Bikanir and Cochin was 0 392 inch and between Bikanir and Moulmein was 0 393 inch, so that there was a further reduction in the barometric gradient The winds were cyclonic over North Western India and fairly normal in direction elsewhere The force had further decreased on the West Coast There was very little rain over the central parts of India and of the Peninsula or in Madras, while elsewhere, though rain was fairly general the amounts were not on the whole heavy Mount Abu reported 6 70 inches, Durbhanga 3 89 inches, Chaibassa 3 28 inches, Murree 3 13 inches, and Sibsagar and Cochin over 2 inches On the 1st July pressure was falling slowly or briskly over Northern India and rising over the central parts of the country, the Peninsula, and Burma The lowest pressure was at Jacobabad, and the pressure difference between Jacobabad and Cochin was 0 325 inch and between Jacobabad and Moulmein was 0 348 inch, so that during the past three days there had been a steady decrease in the amount of the barometric gradient The winds were light and rather variable on the West Coast, and were not strong for the time of year in any part of the country There had been comparatively little rain over the Punjab, Rajputana, Sind, the Gangetic plain, and the central parts of the country, and generally moderate showers elsewhere In Madras there had occurred a considerable extension of rain The principal amounts were—Wellington, 2 29 inches, Purneah 2 07 inches, and Karwar, 2 04 inches

Temperature—As stated above, the very general rain which prevailed depressed temperature all over the country In the early part of the week the weather was dry, though cloudy, over Madras, and this resulted in a slight excess of temperature in that Province on the 28th, 29th, and 30th, but with the extension of rain at the close of the week temperature fell quickly, and the mean for the whole week was slightly below the normal In the other Provinces the mean temperature was almost uninterruptedly below the average

The following table shows the variations of the mean temperature from the normal on each day of the week for the different Provinces of India

Province	June						July	Mean variation of week
	25th	26th	27th	28th	29th	30th	1st

The general deficiency of temperature for the whole of India for the whole week was 3 2°, which was about the same as the deficiency last week In the

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weather Review of India for the week ending at 8 a.m. on Saturday, July 1st, 1893

Monsoon conditions have prevailed throughout the Indian region during the week under review. During the greater part of the week pressure differences were large, the monsoon currents strong, the rainfall general (except in the east of the Peninsula), and the amounts in some places large. Towards the close of the week, however, the pressure differences decreased, the wind fell somewhat lighter, though still retaining the normal monsoon directions, and the rainfall, though still fairly general, became less in amount. Owing to the general rain fall, the heat was much less than usual. This was more particularly the case in Upper India, where the air was much damper, the sky more cloudy, and the rainfall more general than is usually the case.

On Sunday, June 25th, the barometer was rising over Southern Rajputana, Guzerat, and the Konkan, and falling elsewhere. A large low pressure area overlay the Western desert, while a small, but deepish, depression covered South East Bengal. The pressure difference between Cochin and Peshawar was 0.556 inch and between Cochin and Barisal was 0.546 inch. The wind was cyclonic over Bengal, but blew from the normal monsoon directions elsewhere. The force was somewhat higher than usual. There was very little rain over the centre and east of the Peninsula and none over the Western desert, but elsewhere the fall was general and in Arakan heavy. The following were the principal amounts: Chittagong, 3.49 inches, Akyab, 3.07 inches, Sambalpur, 3.03 inches, and Tavoy, Mangalore, Calicut, and Mount Abu over 2 inches. On the 26th the barometer was rising over Burma and Assam, over several north western and central stations, and along the West Coast, but was falling elsewhere. The depression over Bengal had moved somewhat to the westward and the centre was close to Jessore. Otherwise there had been little change in the general distribution, and the pressure difference between Colombo and Dera Ismail Khan was 0.576 inch and between Colombo and Jessore was 0.527 inch. The winds were little changed, and except that they were cyclonic over Bengal, and were abnormally westerly in the Gangetic plain, blew from the ordinary monsoon directions. There was again very little rain over the centre and east of the Peninsula and none over the Western desert. The principal falls in other parts of the country were—Moulmein 4.28 inches, Dehra Dun, 4.09 inches, Akyab, Tavoy, Chittagong, Calcutta and Roorkee over 3 inches, and Barisal, Jessore, Allahabad, and Delhi over 2 inches. On the 27th pressure was rising slowly to briskly over parts of North Western India and moderately to rapidly over parts of North Eastern India, but was falling elsewhere. The depression noticed during the previous two days over Bengal had reached the neighbourhood of Hazaribagh, and the pressure difference was 0.518 inch between Colombo and Hazaribagh and 0.484 inch between Colombo and Dera Ismail Khan. Hence there was a decided decrease since the previous morning. The winds were little changed, except that the cyclonic circulation had advanced westward to West Bengal. Rain was light, or altogether absent over the centre and east of the Peninsula, the Bombay Deccan, Berar, Guzerat, and the Western desert. Elsewhere it continued to fall generally, and the principal amounts were—Chaibassa, 4.17 inches, Nowgong, 3.98 inches, Akyab, 3.90 inches, and Moulmein, Hazaribagh, Calcutta, Dehra Dun, Chakrata, and Sambalpur over 2 inches. The chart of the 28th showed that pressure had increased moderately to rapidly over the west of North Western India and over North-Eastern India, but had fallen elsewhere, the decrease being brisk over the central parts of the country. The centre of the depression which had advanced from Bengal westward lay near Sutna. The pressure difference was 0.556 inch between Tavoy and Sutna and 0.446 inch between Tavoy and Jacobabad. The winds were cyclonic over the North Western and Central Provinces, and blew from the normal directions elsewhere. The force was fresh to strong very generally. The distribution of rain was the same as on the previous day, except that there had been some extension of rainfall in Rajputana. The heaviest falls were—Akyab, 7.06 inches, Moulmein, 3.78 inches, and Jhansi, Rawalpindi,

CALCUTTA, FRIDAY, JULY 14 1893

FINANCE AND COMMERCE DEPARTMENT

NOTIFICATIONS

ACCOUNTS AND FINANCE

PUBLIC DEBT

No 2984

The 14th July 1893

The Governor General in Council has determined to borrow three hundred and fifty lakhs of rupees, being the amount required for the public service

The following Notification is therefore published

THREE AND A HALF PER CENT LOAN OF 1893-94

His Excellency the Right Honourable the Governor General in Council has resolved to borrow three hundred and fifty lakhs of rupees for the public service in the following manner

2 Promissory Notes will be issued for the said amount bearing interest at the rate of three and a half per centum per annum payable half yearly on the 30th day of June and 31st day of December The notes will be in Form A annexed to this Notification, and they will not be discharged without a previous notice of three months to be published in the Government Gazette

3 Tenders for the whole or any part of the said amount of R3,50,00,000 will be received by the Comptroller General from this date to noon of Tuesday, the 15th August next Tenders must be in sums of 500 Rupees or multiples of 500 Rupees

4 Each tender must be addressed, in the form annexed to this Notification, to the Comptroller General, Calcutta, and enclosed in a closed cover, superscribed "*Tender for the Three and a half Per Cent Loan*" If the tenderer is not resident in India, he must name an agent resident in India to whom an allotment certificate may be issued, if any part of the loan is allotted to such tenderer[1]

(*a*) Each tender must be accompanied by, a receipt from the Head Office of the Bank of Bengal, or Madras, or Bombay, or one of their Branches, or from an officer in charge of some Public Treasury, or by a cheque drawn

---

[1] Tenders made in accordance with these instructions will also be received by the Accountants General Madras and Bombay on account of the Comptroller General, Calcutta on the 14th August and up to 11 30 or 11 o'clock local time respectively (corresponding with 12 o'clock in Calcutta) on the 15th August; provided that—

(*a*) they are delivered personally or by clerk or messenger at the Accountant General's Office (where a receipt will be given for them),

(*b*) they are made on printed Forms to be obtained at the same office or at the local Presidency Bank

(*c*) each tender is for not less than R10,000;

(*d*) that the deposit is either a promissory note or a Treasury Receipt from the Head Office of the local Presidency Bank, or a cheque on a local Bank in Madras or Bombay in favour of the Accountant General, Madras or Bombay, respectively;

(*e*) that the amount of the tender is made payable either in Calcutta, Madras, or Bombay;

and the Accountant General will return deposits on non-accepted tenders, and will issue allotment-certificates so far as the tenders are payable in Madras or Bombay

in favour of the Comptroller General on a Bank in Calcutta, Madras, or Bombay, or by[1] Government promissory notes standing in the name of or endorsed to the tenderer or the person making the deposit, for not less than one hundredth, or, if the tender be for less than Five Lakhs of Rupees, then for not less than one fiftieth part of the tender

(*b*) Deposits, not being promissory notes, will, in the case of accepted tenders be credited proportionally in part payment of the allotment-certificates issued in respect of the tender, and will bear interest for the purpose of clause 14 below from the date of the opening of tenders When a tender is not accepted in full, the deposits, when they are not in the form of promissory notes, will be credited as far as possible proportionately in even tens of rupees in part payment of the allotment certificates issued in respect of it If any allotment certificate is not fully taken up, the deposit credited in respect of it will be forfeited

(*c*) Promissory notes deposited in respect of any accepted tender will be held until all the allotment certificates issued in respect of the tender are paid up, and will, if the allotment certificates are not fully taken up, be appropriated by the Government and cancelled, provided that the notes of the 4½ per cent loans of 1878 and 1879, advertised for discharge by Notification No 2985 of this date, may, if the depositors so desire, be credited as far as possible, proportionately in payment of the allotment certificates issued in respect of the tender, with which they were deposited, the amount so credited, however, bearing interest only from the 14th October 1893 (the interest up to 13th October being paid separately as provided in the above quoted Notification)

5 The rate at which a tender is made must not contain a fraction of an anna if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out and the tender treated as if the rate did not contain such fraction of an anna

6 The rate at which each tender is made must be specified in rupees or rupees and annas a tender in which no rate is thus specified, but a subscription is offered in some other terms—as, for example, at the recorded minimum, or at some specified per centage in addition to the recorded minimum, or at the average of the accepted tenders—will be rejected as null and void

7 The minimum rate at which tenders will be accepted will be recorded under the signature of the Comptroller General, and, before the tenders are opened, placed upon the table in a sealed envelope, but will not be declared unless some tender is rejected only because it is below the recorded minimum

8 Tenders will be opened publicly by the Comptroller General at the Treasury Buildings, Calcutta, at noon (Calcutta time), on Tuesday the 15th August next, and those received under the terms of the footnote under clause 4 will be similarly opened by the Accountant General, Madras, at 11 30 (Madras time), and by the Accountant General, Bombay, at 11 o'clock (Bombay time), on the same day, but the contents of the tenders will not be disclosed otherwise than as provided in clause 10

9 Tenders at the recorded minimum rate, and at rates above the recorded minimum rate, will be accepted in the order of the rates tendered, beginning with the highest rate, the amount allotted at the lowest rate at which tenders are accepted will be divided amongst those who have tendered at this rate in proportion, as nearly as may be found convenient, to the amounts of their tenders, provided that no allotment will be issued if the amount distributable on any tender is less than R500

10 To each tenderer (or to his agent) whose tender is accepted in whole or in part, such number of allotment certificates as may be necessary to make up the aggregate amount allotted to him will be issued by the Comptroller General[2] as soon as possible after the 15th August, and an alphabetical list of the names of those to whom such allotment certificates are issued will be posted for general information at the Head Offices of the Banks of Bengal, Madras, and Bombay

11 If the allotment made on any tender is less than R3,000, then the whole of the allotment certificates (after credit of the deposit under clause 4 (*b*)) will be made payable upon the 26th September

Otherwise the whole amount of each allotment will be divided into three instalments, as follows

Instalment I—As near as convenient to 35 per cent, but not exceeding 35 per cent, payable upon the 29th August

[1] *It is particularly requested that such Promissory Notes may NOT be endorsed to the Comptroller General*

[2] For tenders received by the Accountant General, Madras or Bombay and payable at those places, the Accountant General [illegible]

Instalment II—As near as convenient to 35 per cent, but not exceeding 35 per cent, payable upon the 26th September

Instalment III—The balance payable upon the 14th October

and allotment certificates will be issued for each instalment separately

But the whole or any part of any accepted tender may be paid at any time after receipt of the allotment certificates

The words "as near as convenient" refer to the necessity for making each instalment an exact multiple of R500

12 Any allotment certificate will, on application to the Comptroller General, be exchanged for an equivalent amount of allotment certificates of smaller denominations, provided that if any payment (beyond the deposit) is recorded upon the cancelled certificate, it can be taken against, and recorded upon, only one of the certificates issued in exchange

13 Payment of any allotment certificate may be made to the account of the Government in the Head Office of the Bank of Bengal or Madras or Bombay, or in any Branch of these Banks, or into any Public Treasury or Treasuries in India which may be named in the tender in respect of which it was issued, either in cash or by tendering duly receipted Notes (or stock certificates issued in lieu thereof) or Loan certificates of the 4½ per cent Loans of 1878 and 1879 advertized for discharge in Notification No 2985 of this date, which will, as provided in that Notification, be accepted in payment of a sum equivalent to the principal amount of such Notes, Stock or Loan certificates Receipts for such payments will be given by the Banks of Bengal, Madras and Bombay, or their Branches, or by the Officers in charge of the Government Treasuries at which payment is made, by enfacement upon the relative certificate

14 (*a*) When any allotment certificate is fully paid up, the holder will, on presenting it duly receipted at the place where it was paid, obtain from the Public Debt Office, Calcutta, promissory notes of such values as he may desire (each note being in even hundreds and not less than R500), bearing interest from 31st December 1893, and he will also receive interest at 3½ per cent per annum from the dates on which he may have made payment till the 30th of December 1893

(*b*) Or he may, at his option, by paying interest at the said rate from 30th June 1893 to the dates on which he may have made payment, obtain promissory notes as above, bearing interest from 30th June 1893

Provided that, if any payment has been made by tendering notes, or Stock or Loan certificates of the 4½ per cent loans of 1878 and 1879, such payment shall for the purpose of determining from what date the holder should receive interest under clause (*a*) or to what date he should pay interest under clause (*b*) be held to have been made on the 14th October 1893

FORM A OF PROMISSORY NOTE (see Clause 2)

Fort William, the

Promissory Note *Government Rupees* *at 3½ per cent*

No *of 1893 94*

The Governor General of India in Council does hereby acknowledge to have received from

the sum of Government Rupees Five Hundred only as a loan to the Secretary of State in Council for India, and does hereby promise for and on behalf of the said Secretary of State in Council, to repay the said loan, by paying the said sum of Government Rupees Five Hundred only to the said

his Executors or Administrators, or his or their Order, on demand, at the General Treasury, at Fort William, after the expiration of Three Months' Notice of Payment to be given by the Governor General of India in Council, in the *Government Gazette*, and to pay the interest accruing on the said sum of Government Rupees Five Hundred only from the

at the rate of three and a half per cent per annum, by half yearly payments, at the General Treasury at Fort William, to the said , his Executors, or Administrators, or his or their Order, until the expiration of three months after such notice of payment as aforesaid, when the amount of interest due will be payable with the principal and (such notice being considered as equivalent to a tender of payment at the period appointed for the discharge of this note) all further interest shall cease

---

NOTE (1)—*A separate tender must be made at each rate tendered The rate tendered should be the whol amount per centum not the premium or discount thus One hundred and two or One hundred or Ninety-nine not Two per cent premium or Par or One per cent discount*

By order of the Governor General in Council,

J F FINLAY,

Secretary to the Government of India

NOTIFICATION BY THE COMPTROLLER GENERAL

The Comptroller General requests the attention of tenderers to the following arrangements

Filling up Tenders

(1) They are requested to use only the printed forms of tender which will be available at his Office and at the Currency Office on application to the Durwan on duty at all the Provincial Account Offices, and at the Banks of Bengal, Madras, and Bombay, and will also be supplied to the principal Treasuries

(2) If the deposit is in the form of Promissory Notes or of Currency Notes their number should be quoted in detail in the tender

Presentation of Tenders

(3) For all tenders presented to him in his Office upon the last fixed day, or the two days preceding it, he will give the bearer a receipt bearing a number and initialled by himself or an assistant specially deputed for the purpose The Accountants General Madras and Bombay, will do likewise in respect of tenders presented to them under the note to clause 4 of the Government Notification

Return of Deposit in case of Non acceptance

(4) The reverse of this receipt is a form in which, in the event of the tender not being accepted, the tenderer may give to the Comptroller General or Accountant General, Madras or Bombay, a receipt for the deposit accompanying it This form should on the third day after the opening of the tenders be filled up, signed with the same signature as the tender and be presented at the Office of the Comptroller General or Accountant General, Bombay or Madras The deposit will then be returned to the bearer in exchange for the receipt

(5) Deposit upon tenders presented personally, as described in No (3) above, will be returned only in this way, and will not be sent by post or otherwise Deposits upon other unsuccessful tenders will be returned by post or by the hands of a clerk

Accepted Tenders

(6) The Comptroller General, and the Accountant General, Madras or Bombay (in the case of tenders received by such Accountant General and payable in Madras or Bombay), will issue allotment-certificates to successful tenderers These certificates will be for the following amounts —R500, R1,000, R2,000, R5,000 R10 000, R20,000 R50 000, R1,00,000, making up the full value accepted and the deposit on the tender will be divided among them they will be, substantially, of the following form

STEPHEN JACOB,
Comptroller and Auditor General

No 2985

The 14th July 1893

4½ per cent Loan of 1878
Transfer Loan of 1879 4½ per cent portion including the 4½ per cent Loan of 1880

Whereas the 4½ per cent Loans noted on the margin mature upon 15th September 1893, and Promissory Notes or Loan Certificates of these loans can be paid off and discharged at any time on or after the 15th September 1893, on the expiration of a previous notice of three months to that effect, which notice may be given on the 15th June 1893, or at any time thereafter,

And Whereas the Governor General in Council has determined to pay off the said Promissory Notes or Loan Certificates on the 14th October 1893

2 Notice is hereby given that on the 14th day of October 1893, all the Notes (or Stock certificates issued in lieu thereof) and Loan certificates of the 4½ per cent Loans aforesaid, will be paid off at the Public Debt Office, Bank of Bengal, Calcutta, and that from the said 14th day of October 1893, interest on the said Promissory Notes (or Stock certificates) and Loan certificates will cease

3 Any of the Notes, Stock or Loan certificates hereby advertised for payment, may be tendered, duly receipted, in lieu of cash, in payment of any allotment certificate or certificates issued under clause 10 of the Notification of this date No 2984, inviting tenders for the 3½ per cent loan of 350 lakhs of rupees The principal amount of the Notes or Stock or Loan certificates so tendered will be accepted in discharge of an equivalent sum due on any such allotment certificate or certificates, payable either at the Head Office of the Bank of Bengal or at any other Bank or Treasury at which the interest on the Notes, Stock or Certificates is payable, and the interest overdue on such surrendered notes, stock or certificates and the further interest thereon from the last half yearly date of payment of interest to 13th October 1893, inclusive, at the rate of four and a half per centum per annum will be paid at the time when the Notes or Stock or Loan certificates are surrendered

4 Nothing in the preceding part of this Notification relates to any notes of the 7 shillings per cent portion of the Transfer Loan of 1879

FINANCE AND COMMERCE DEPARTMENT

NOTIFICATIONS

ACCOUNTS AND FINANCE

PUBLIC DEBT

No 2984

The 14th July, 1893

The Governor General in Council has determined to borrow three hundred and fifty lakhs of Rupees, being the amount required for the public service

The following Notification is therefore published

THREE AND A HALF PER CENT LOAN OF 1893 94

His Excellency the Right Honourable the Governor General in Council has resolved to borrow three hundred and fifty lakhs of rupees for the public service in the following manner

2 Promissory Notes will be issued for the said amount, bearing interest at the rate of three and a half per centum per annum, payable half yearly on the 30th day of June and 31st day of December The notes will be in Form A annexed to this Notification, and they will not be discharged without a previous notice of three months to be published in the Government Gazette

3 Tenders for the whole or any part of the said amount of R3,50,00,000 will be received by the Comptroller General from this date to noon of Tuesday, the 15th August next Tenders must be in sums of 500 Rupees or multiples of 500 Rupees

4 Each tender must be addressed, in the form annexed to this Notification, to the Comptroller General, Calcutta, and enclosed in a closed cover, superscribed "*Tender for the Three and a half Per Cent Loan*" If the tenderer is not resident in India, he must name an agent resident in India to whom an allotment certificate may be issued, if any part of the loan is allotted to such tenderer[1]

(*a*) Each tender must be accompanied by a receipt from the Head Office of the Bank of Bengal, or Madras, or Bombay, or one of their Branches, or from an officer in charge of some Public Treasury, or by a cheque drawn

---

[1] Tenders made in accordance with these instructions will also be received by the Accountants General Madras and Bombay on account of the Comptroller General Calcutta, on the 14th August and up to 11 30 or 11 o clock local time respectively (corresponding with 12 o clock in Calcutta) on the 15th August provided that—

(*a*) they are delivered personally or by clerk or messenger at the Accountant General s Office (where a receipt will be given for them)

(*b*) they are made on printed Forms to be obtained at the same office or at the local Presidency Bank

(*c*) each tender is for not less than R10 000

(*d*) that the deposit is either a promissory note or a Treasury Receipt from the Head Office of the local Presidency Bank, or a cheque on a local Bank in Madras or Bombay in favour of the Accountant General Madras or Bombay, respectively,

(*e*) that the amount of the tender is made payable either in Calcutta Madras, or Bombay

and the Accountant General will return deposits on non-accepted tenders and will issue allotment certificates so far as the tenders are payable in Madras or Bombay

in favour of the Comptroller General on a Bank in Calcutta, Madras, or Bombay, or by[1] Government Promissory Notes standing in the name of or endorsed to the tenderer or the person making the deposit for not less than one hundredth, or, if the tender be for less than Five Lakhs of Rupees, then for not less than one fiftieth part of the tender

(*b*) Deposits, not being promissory notes, will, in the case of accepted tenders, be credited proportionally in part payment of the allotment certificates issued in respect of the tender, and will bear interest for the purpose of clause 14 below from the date of the opening of tenders When a tender is not accepted in full, the deposits, when they are not in the form of promissory notes, will be credited as far as possible proportionately in even tens of rupees in part payment of the allotment certificates issued in respect of it If any allotment-certificate is not fully taken up, the deposit credited in respect of it will be forfeited

(*c*) Promissory notes deposited in respect of any accepted tender will be held until all the allotment certificates issued in respect of the tender are paid up, and will if the allotment certificates are not fully taken up, be appropriated by the Government and cancelled, provided that the notes of the 4½ per cent loans of 1878 and 1879 advertised for discharge by Notification No 2985 of this date may, if the depositors so desire, be credited, as far as possible, proportionately in payment of the allotment certificates issued in respect of the tender with which they were deposited, the amount so credited however, bearing interest only from the 14th October 1893 (the interest up to 13th October being paid separately as provided in the above quoted Notification)

5 The rate at which a tender is made must not contain a fraction of an anna if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out and the tender treated as if the rate did not contain such fraction of an anna

6 The rate at which each tender is made must be specified in rupees or rupees and annas a tender in which no rate is thus specified but a subscription is offered in some other terms—as, for example, at the recorded minimum, or at some specified percentage in addition to the recorded minimum or at the average of the accepted tenders—will be rejected as null and void

7 The minimum rate at which tenders will be accepted will be recorded under the signature of the Comptroller General, and before the tenders are opened placed upon the table in a sealed envelope, but will not be declared unless some tender is rejected only because it is below the recorded minimum

8 Tenders will be opened publicly by the Comptroller General at the Treasury Buildings, Calcutta, at noon (Calcutta time), on Tuesday, the 15th August next, and those received under the terms of the footnote under clause 4 will be similarly opened by the Accountant General, Madras at 11 30 (Madras time), and by the Accountant General, Bombay, at 11 o'clock (Bombay time), on the same day, but the contents of the tenders will not be disclosed otherwise than as provided in clause 10

9 Tenders at the recorded minimum rate and at rates above the recorded minimum rate will be accepted in the order of the rates tendered, beginning with the highest rate, the amount allotted at the lowest rate at which tenders are accepted will be divided amongst those who have tendered at this rate in proportion, as nearly as may be found convenient, to the amounts of their tenders, provided that no allotment will be issued if the amount distributable on any tender is less than R500

10 To each tenderer (or to his agent) whose tender is accepted in whole or in part such number of allotment certificates as may be necessary to make up the aggregate amount allotted to him will be issued by the Comptroller General[2] as soon as possible after the 15th August, and an alphabetical list of the names of those to whom such allotment certificates are issued will be posted for general information at the Head Offices of the Banks of Bengal, Madras, and Bombay

11 If the allotment made on any tender is less than R3,000, then the whole of the allotment certificates (after credit of the deposit under clause 4 (*b*)) will be made payable upon the 26th September

Otherwise the whole amount of each allotment will be divided into three instalments as follows

Instalment I—As near as convenient to 35 per cent, but not exceeding 35 per cent, payable upon the 29th August

[1] *It is particularly requested that such Promissory Notes may NOT be endorsed to the Comptroller General*

[2] ... d by the Accountant General Madras or Bombay, and payable at those places, the Accountant

Instalment II—As near as convenient to 35 per cent, but not exceeding 35 per cent, payable upon the 26th September

Instalment III—The balance payable upon the 14th October

and allotment certificates will be issued for each instalment separately

But the whole or any part of any accepted tender may be paid at any time after receipt of the allotment certificates

The words "as near as convenient" refer to the necessity for making each instalment an exact multiple of R500

12 Any allotment certificate will on application to the Comptroller General, be exchanged for an equivalent amount of allotment certificates of smaller denominations, provided that if any payment (beyond the deposit) is recorded upon the cancelled certificate, it can be taken against, and recorded upon, only one of the certificates issued in exchange

13 Payment of any allotment certificate may be made to the account of the Government in the Head Office of the Bank of Bengal or Madras or Bombay, or in any Branch of these Banks, or into any Public Treasury or Treasuries in India which may be named in the tender in respect of which it was issued, either in cash or by tendering duly receipted Notes (or Stock Certificates issued in lieu thereof) or Loan Certificates of the 4½ per cent Loans of 1878 and 1879 advertized for discharge in Notification No 2985 of this date, which will, as provided in that Notification, be accepted in payment of a sum equivalent to the principal amount of such Notes Stock, or Loan Certificates Receipts for such payments will be given by the Banks of Bengal, Madras, and Bombay, or their Branches, or by the Officers in charge of the Government Treasuries at which payment is made, by enfacement upon the relative certificate

14 (*a*) When any allotment-certificate is fully paid up the holder will, on presenting it duly receipted at the place where it was paid obtain from the Public Debt Office, Calcutta, promissory notes of such values as he may desire (each note being in even hundreds and not less than R500), bearing interest from 31st December 1893, and he will also receive interest at 3½ per cent per annum from the dates on which he may have made payment till the 30th of December 1893

(*b*) Or he may at his option, by paying interest at the said rate from 30th June 1893 to the dates on which he may have made payment, obtain promissory notes as above, bearing interest from 30th June 1893

Provided that if any payment has been made by tendering Notes or Stock or Loan Certificates of the 4½ per cent Loans of 1878 and 1879, such payment shall for the purpose of determining from what date the holder should receive interest under clause (*a*) or to what date he should pay interest under clause (*b*) be held to have been made on the 14th October 1893

FORM A OF PROMISSORY NOTE (see Clause 2)

Fort William, the

Promissory Note *Government Rupees* *at 3½ per cent*
No *of 1893 94*

The Governor General of India in Council does hereby acknowledge to have received from
the sum of Government Rupees Five Hundred only as a loan to the Secretary of State in Council for India, and does hereby promise, for and on behalf of the said Secretary of State in Council, to repay the said loan, by paying the said sum of Government Rupees Five Hundred only to the said
his Executors, or Administrators or his or their Order on demand at the General Treasury at Fort William after the expiration of Three Months Notice of Payment to be given by the Governor General of India in Council, in the *Government Gazette* and to pay the interest accruing on the said sum of Government Rupees Five Hundred only from the
at the rate of three and a half per cent per annum, by half yearly payments, at the General Treasury at Fort William, to the said , his Executors, or Administrators, or his or their Order, until the expiration of three months after such notice of payment as aforesaid, when the amount of interest due will be payable with the principal, and (such notice being considered as equivalent to a tender of payment at the period appointed for the discharge of this note) all further interest shall cease

---

FINANCE AND COMMERCE DEPARTMENT

NOTIFICATIONS

ACCOUNTS AND FINANCE

PUBLIC DEBT

No 2984

Simla the 14th July, 1893

The Governor General in Council has determined to borrow three hundred and fifty lakhs of Rupees, being the amount required for the public service

The following Notification is therefore published

THREE AND A HALF PER CENT LOAN OF 1893 94

His Excellency the Right Honourable the Governor General in Council has resolved to borrow three hundred and fifty lakhs of rupees for the public service in the following manner

2 Promissory Notes will be issued for the said amount, bearing interest at the rate of three and a half per centum per annum, payable half yearly on the 30th day of June and 31st day of December The notes will be in Form A annexed to this Notification, and they will not be discharged without a previous notice of three months to be published in the Government Gazette

3 Tenders for the whole or any part of the said amount of R3,50,00,000 will be received by the Comptroller General from this date to noon of Tuesday, the 15th August next Tenders must be in sums of 500 Rupees or multiples of 500 Rupees

4 Each tender must be addressed, in the form annexed to this Notification, to the Comptroller General, Calcutta and enclosed in a closed cover, superscribed *Tender for the Three and a half Per Cent Loan* If the tenderer is not resident in India, he must name an agent resident in India to whom an allotment certificate may be issued, if any part of the loan is allotted to such tenderer [1]

(*a*) Each tender must be accompanied by a receipt from the Head Office of the Bank of Bengal, or Madras, or Bombay or one of their Branches, or from an officer in charge of some Public Treasury or by a cheque drawn in favour of the Comptroller General on a Bank in Calcutta, Madras, or Bombay or by[2] Government Promissory Notes standing in the name of or endorsed to the tenderer or the person making the deposit for not less than one hundredth or if the tender be for less than Five Lakhs of Rupees then for not less than one fiftieth part of the tender

(*b*) Deposits not being promissory notes will, in the case of accepted tenders, be credited proportionally in part payment of the allotment certificates issued in respect of the tender, and will bear interest for the purpose of clause 14 below from the date of the opening of tenders When a tender is not accepted in full, the deposits, when they are not in the form of promissory notes, will be credited as far as possible proportionately in even

---

[1] Tenders made in accordance with these instructions will also be received by the Accountants General Madras and Bombay on account of the Comptroller General Calcutta on the 14th August and up to 11 30 or 11 o clock local time respectively (corresponding with 12 o clock in Calcutta) on the 15th August provided that—

(*a*) they are delivered personally or by clerk or messenger at the Accountant General s Office (where a receipt will be given for them)

(*b*) they are made on printed Forms to be obtained at the same office or at the local Presidency Bank

(*c*) each tender is for not less than R10 000

(*d*) that the deposit is either a promissory note or a Treasury Receipt from the Head Office of the local Presidency Bank or a cheque on a local Bank in Madras or Bombay in favour of the Accountant General, Madras or Bombay respectively

(*e*) that the amount of the tender is made payable either in Calcutta Madras or Bombay

and the Accountant General will return deposits on non accepted tenders and will issue allotment certificates so far as the tenders are payable in Madras or Bombay

[2] *It is particularly requested that such Promissory Notes may NOT be endorsed to the Comptroller General*

tens of rupees in part payment of the allotment certificates issued in respect of it If any allotment-certificate is not fully taken up, the deposit credited in respect of it will be forfeited

(c) Promissory notes deposited in respect of any accepted tender will be held until all the allotment certificates issued in respect of the tender are paid up, and will, if the allotment certificates are not fully taken up, be appropriated by the Government and cancelled, provided that the notes of the 4½ per cent loans of 1878 and 1879 advertised for discharge by Notification No 2985 of this date may, if the depositors so desire, be credited, as far as possible, proportionately in payment of the allotment certificates issued in respect of the tender with which they were deposited, the amount so credited, however, bearing interest only from the 14th October 1893 (the interest up to 13th October being paid separately as provided in the above quoted Notification)

5 The rate at which a tender is made must not contain a fraction of an anna if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out and the tender treated as if the rate did not contain such fraction of an anna

6 The rate at which each tender is made must be specified in rupees or rupees and annas a tender in which no rate is thus specified, but a subscription is offered in some other terms—as, for example, at the recorded minimum, or at some specified per centage in addition to the recorded minimum or at the average of the accepted tenders—will be rejected as null and void

7 The minimum rate at which tenders will be accepted will be recorded under the signature of the Comptroller General, and before the tenders are opened, placed upon the table in a sealed envelope, but will not be declared unless some tender is rejected only because it is below the recorded minimum

8 Tenders will be opened publicly by the Comptroller General at the Treasury Buildings, Calcutta, at noon (Calcutta time), on Tuesday the 15th August next, and those received under the terms of the footnote under clause 4 will be similarly opened by the Accountant General, Madras at 11 30 (Madras time), and by the Accountant General Bombay, at 11 o'clock (Bombay time), on the same day but the contents of the tenders will not be disclosed otherwise than as provided in clause 10

9 Tenders at the recorded minimum rate and at rates above the recorded minimum rate will be accepted in the order of the rates tendered, beginning with the highest rate, the amount allotted at the lowest rate at which tenders are accepted will be divided amongst those who have tendered at this rate in proportion, as nearly as may be found convenient to the amounts of their tenders provided that no allotment will be issued if the amount distributable on any tender is less than R500

10 To each tenderer (or to his agent) whose tender is accepted in whole or in part such number of allotment certificates as may be necessary to make up the aggregate amount allotted to him will be issued by the Comptroller General[1] as soon as possible after the 15th August, and an alphabetical list of the names of those to whom such allotment certificates are issued will be posted for general information at the Head Offices of the Banks of Bengal, Madras, and Bombay

11 If the allotment made on any tender is less than R3,000, then the whole of the allotment certificates (after credit of the deposit under clause 4 (b)) will be made payable upon the 26th September

Otherwise the whole amount of each allotment will be divided into three instalments as follows

Instalment I—As near as convenient to 35 per cent, but not exceeding 35 per cent payable upon the 29th August

Instalment II—As near as convenient to 35 per cent, but not exceeding 35 per cent, payable upon the 26th September

Instalment III—The balance payable upon the 14th October

and allotment certificates will be issued for each instalment separately

[1] For tenders received by the Accountant General, Madras or Bombay, and payable at those places the Accountant General will issue the allotment certificates

But the whole or any part of any accepted tender may be paid at any time after receipt of the allotment certificates

The words "as near as convenient" refer to the necessity for making each instalment an exact multiple of R500

12 Any allotment certificate will on application to the Comptroller General, be exchanged for an equivalent amount of allotment certificates of smaller denominations, provided that if any payment (beyond the deposit) is recorded upon the cancelled certificate, it can be taken against, and recorded upon, only one of the certificates issued in exchange

13 Payment of any allotment certificate may be made to the account of the Government in the Head Office of the Bank of Bengal or Madras or Bombay, or in any Branch of these Banks, or into any Public Treasury or Treasuries in India which may be named in the tender in respect of which it was issued, either in cash or by tendering duly receipted Notes (or Stock Certificates issued in lieu thereof) or Loan Certificates of the 4½ per cent Loans of 1878 and 1879 advertized for discharge in Notification No 2985 of this date, which will, as provided in that Notification, be accepted in payment of a sum equivalent to the principal amount of such Notes, Stock, or Loan Certificates Receipts for such payments will be given by the Banks of Bengal, Madras, and Bombay, or their Branches, or by the Officers in charge of the Government Treasuries at which payment is made, by enfacement upon the relative certificate

14 (*a*) When any allotment-certificate is fully paid up, the holder will, on presenting it duly receipted at the place where it was paid, obtain from the Public Debt Office, Calcutta, promissory notes of such values as he may desire (each note being in even hundreds and not less than R500), bearing interest from 31st December 1893, and he will also receive interest at 3½ per cent per annum from the dates on which he may have made payment till the 30th of December 1893

(*b*) Or he may, at his option, by paying interest at the said rate from 30th June 1893 to the dates on which he may have made payment, obtain promissory notes as above, bearing interest from 30th June 1893

Provided that if any payment has been made by tendering Notes or Stock or Loan Certificates of the 4½ per cent Loans of 1878 and 1879, such payment shall for the purpose of determining from what date the holder should receive interest under clause (*a*) or to what date he should pay interest under clause (*b*) be held to have been made on the 14th October 1893

FORM A OF PROMISSORY NOTE (see Clause 2)

Fort William, the

Promissory Note *Government Rupees* *at 3½ per cent*

No *of 1893 94*

The Governor General of India in Council does hereby acknowledge to have received from

the sum of Government Rupees Five Hundred only as a loan to the Secretary of State in Council for India and does hereby promise for and on behalf of the said Secretary of State in Council, to repay the said loan, by paying the said sum of Government Rupees Five Hundred only to the said ,
his Executors, or Administrators or his or their Order on demand at the General Treasury at Fort William, after the expiration of Three Months Notice of Payment to be given by the Governor General of India in Council, in the *Government Gazette* and to pay the interest accruing on the said sum of Government Rupees Five Hundred only from the ,
at the rate of three and a half per cent per annum by half yearly payments, at the General Treasury at Fort William, to the said his Executors, or Administrators, or his or their Order, until the expiration of three months after such notice of payment as aforesaid, when the amount of interest due will be payable with the principal, and (such notice being considered as equivalent to a tender of payment at the period appointed for the discharge of this note) all further interest shall cease

---

NOTIFICATION BY THE COMPTROLLER GENERAL

The Comptroller General requests the attention of tenderers to the following arrangements

Filling up Tenders

(1) They are requested to use only the printed forms of tender which will be available at his Office and at the Currency Office on application to the Durwan on duty, at all the Provincial Account Offices and at the Banks of Bengal, Madras, and Bombay and will also be supplied to the principal Treasuries

(2) If the deposit is in the form of Promissory Notes or of Currency Notes their number should be quoted in detail in the tender

Presentation of Tenders

(3) For all tenders presented to him in his office upon the last fixed day, or the two days preceding it he will give the bearer a receipt bearing a number and initialled by himself or an assistant specially deputed for the purpose The Accountants General, Madras and Bombay will do likewise in respect of tenders presented to them under the note to clause 4 of the Government Notification

Return of Deposit in case of Non acceptance

(4) The reverse of this receipt is a form in which, in the event of the tender not being accepted, the tenderer may give to the Comptroller General or Accountant General, Madras or Bombay, a receipt for the deposit accompanying it This form should on the third day after the opening of the tenders be filled up, signed with the same signature as the tender, and be presented at the Office of the Comptroller General or Accountant General, Bombay or Madras The deposit will then be returned to the bearer in exchange for the receipt

(5) Deposit upon tenders presented personally, as described in No (3) above, will be returned only in this way, and will not be sent by post or otherwise Deposits upon other unsuccessful tenders will be returned by post or by the hands of a clerk

Accepted Tenders

(6) The Comptroller General and the Accountant General, Madras or Bombay (in the case of tenders received by such Accountant General and payable in Madras or Bombay), will issue allotment certificates to successful tenderers These certificates will be for the following amounts —R500, R1,000, R2,000, R5,000, R10,000, R20,000, R50,000, R1,00,000, making up the full value accepted and the deposit on the tender will be divided among them they will be substantially of the following form

This is to certify that in accordance with the terms of Notification No 2984, dated 14th July 1893 (Gazette of India Extraordinary, *dated 14th July 1893*) *the abovenamed tenderer has engaged to take up R2 000 of the 3½ Per Cent Loan of 1893 94 at the rate abovementioned on or before and that on the said payment being completed he is entitled on endorsing and delivering up this certificate to receive a promissory note or notes of the Government of India for R2 000 bearing interest from*

CALCUTTA, *The 14th July 1893* } STEPHEN JACOB, *Comptroller and Auditor General*

No 2985

The 14th July 1893

4½ per cent Loan of 1878
Transfer Loan of 1879 4½ per cent portion including the 4½ per cent Loan of 1880

Whereas the 4½ per cent Loans noted on the margin mature upon 15th September 1893, and Promissory Notes or Loan Certificates of these loans can be paid off and discharged at any time on or after the 15th September 1893 on the expiration of a previous notice of three months to that effect, which notice may be given on the 15th June 1893, or at any time thereafter,

And whereas the Governor General in Council has determined to pay off the said Promissory Notes or Loan Certificates on the 14th October 1893

2 Notice is hereby given that on the 14th day of October 1893 all the Notes (or Stock Certificates issued in lieu thereof) and Loan Certificates of the 4½ per cent Loans aforesaid will be paid off at the Public Debt Office, Bank of Bengal Calcutta, and that from the said 14th day of October 1893 interest on the said Promissory Notes (or Stock Certificates) and Loan Certificates will cease

3 Any of the Notes, Stock, or Loan Certificates hereby advertised for payment may be tendered duly receipted in lieu of cash, in payment of any allotment certificate or certificates issued under clause 10 of the Notification of this date, No 2984, inviting tenders for the 3½ per cent loan of 350 lakhs of rupees The principal amount of the Notes or Stock or Loan Certificates so tendered will be accepted in discharge of an equivalent sum due on any such allotment certificate or certificate payable either at the Head Office of the Bank of Bengal or at any other Bank or Treasury at which the interest on the Notes, Stock or Certificates is payable and the interest overdue on such surrendered Notes Stock or Certificates, and the further interest thereon from the last half yearly date of payment of interest to 13th October 1893 inclusive at the rate of four and a half per centum per annum will be paid at the time when the Notes or Stock or Loan Certificates are surrendered

4 Nothing in the preceding part of this Notification relates to any notes of the 7 shillings per cent portion of the Transfer Loan of 1879

I L O CALLAGHAN,
Secretary to the Government of India

GOVERNMENT OF INDIA

REVENUF AND AGRICULTURAL DEPARTMENT

Weather Review of India for the week ending at 8 a m on Saturday, July 8th, 1893

There has been no important change of weather during the week under review Strongly marked monsoon conditions have prevailed throughout the country, and the rainfall has been very general, except in parts of the Peninsula and of North Western India, where the rainfall was scanty and irregularly distributed The monsoon currents have not, however, been as strong in the present as in the preceding week, and the mail steamer which crossed the Arabian Sea between the 4th and the 9th of July experienced only a moderate to fresh monsoon The rainfall has been sufficiently general to keep the temperature low, but the abnormal depression was less than in the previous week

The chart of the 2nd showed that the barometer was falling, except over the Peninsula and the central parts of the country Pressure was highest in Ceylon and Tenasserim and lowest in the west of the Punjab, the greatest pressure difference being 0 392 inch The winds varied very considerably in direction and on the West Coast were remarkably light and variable Rain had fallen fairly generally, and the principal amounts were—Kurnool, 5 20 inches, Bahraich, 4 80 inches, Dehra Dun, 3 84 inches, Cuddapah, 3 82 inches, Bogra, 2 75 inches, and Bareilly 2 27 inches On the following day, the 3rd, the barometric changes were similar to those on the 2nd, and pressure remained highest in Malabar and Ceylon and lowest in the West Punjab The greatest pressure difference was 0 501 inch so that the barometric gradient had increased considerably The winds were still variable and light on the West Coast, but elsewhere strong westerly winds prevailed The rainfall was again general, except in parts of the Peninsula and of the north west The heaviest amounts were 3 15 inches at Mymensingh, 2 85 inches at Bahraich, 2 37 inches at Mangalore, and 2 08 inches at Chanda On the 4th the barometer was falling everywhere The fall was rapid over North Western India, while it was only slow in the south of the Peninsula, hence the barometric gradient had increased, and the pressure difference was as much as 0 592 inch On the West Coast south of Goa the winds were abnormally light and were variable in direction, but in all other places strong monsoon winds were reported The distribution of rain was the same as on the preceding day, parts of the Peninsula and of North Western India reporting little or no rain The amounts were, however, somewhat larger than on the 3rd Bhamo and Mainpuri reported over four inches, Purneah over three inches, and Silchar, Jalpaiguri, Roorkee Rawalpindi, Mangalore, Mormugao, and Bombay over two inches On the 5th pressure was rising over North Western India, the Gangetic plain, and part of North Eastern India and was falling elsewhere The relative distribution was little changed, but, owing to the changes described above, the pressure difference had been reduced to 0 568 inch The winds were little changed, and in most places blew from their normal monsoon directions The force was fairly normal Rain was very general throughout the country and in places was very heavy thus Ludhiana reported 6 42 inches, Sutna and Allahabad, 4 27 inches, Cawnpore, 3 33 inches,

and Burdwan and Jalpaiguri 3 14 inches On the 6th pressure was still increasing over a large part of Northern India, while it was decreasing over the Peninsula and the central parts of the country The general distribution remained unaltered readings being highest in Malabar and lowest over the Indus Valley, but, owing to the changes described above, the pressure difference had continued to decrease, and amounted to only 0 479 inch between Malabar and Sind Rain was again very general, and in several places the amounts were fairly heavy Mormugao, Goa, and Bombay reported nearly 4 inches, while Barisal, Mussoorie, Sirsa, Allahabad, Amraoti, Nagpur, Mount Abu, and Khammamett had over 2 inches On the following day, the 7th, the barometer was still rising, except in the extreme south In the Indus Valley the rise had been brisk The chart still showed a depression over Sind, and a high pressure area over Malabar, Ceylon, and the south of the Bay, but the pressure difference between Malabar and Sind had decreased to only to 0 376 inch Monsoon winds of moderate force prevailed throughout the whole Indian region, and rain was reported from almost everywhere Over a large part of the country the amounts were smaller than on the preceding day, but Deesa reported 6 79 inches, Patna 3 87 inches, Multan 3 62 inches, and Purneah, Rawalpindi, Mormugao, Ahmedabad, and Mount Abu over 2 inches Saturday's report showed that the barometer was still rising almost everywhere There was no change shown in the general distribution, and the pressure difference between Malabar and Sind was practically the same as on the previous day Monsoon winds and general rain continued, though there were some signs of contraction in the monsoon current The following were the principal falls of rain Mount Abu, 8 72 inches, Surat, 3 50 inches, Lahore, 3 32 inches, and over 2 inches at Rangoon, Sialkot, Calicut, Mercara, and Amraoti

Temperature.—The rainfall having been somewhat less heavy than in the preceding week the abnormal depression of temperature was also less

The following table shows the variations of the mean temperature from the normal on each day of the week for the different Provinces of India

PROVINCE	JULY							Mean variation of week
	2nd	3rd	4th	5th	6th	7th	8th	
	°	°	°	°	°	°	°	°
Burma	+0 2	+1 4	+2 1	+0 5	+1 1	+0 6	+0 9	+1 0
Bengal and Assam	−0 9	−1 7	−2 9	−2 6	−2 2	−2 1	−1 6	−2 0
North Western Provinces and Oudh	−2 8	−3 3	−5 0	−2 9	−3 3	−2 8	−2 5	−3 2
Punjab	−3 1	−2 3	−1 0	−5 5	−5 8	−7 5	−8 4	−4 8
Bombay	−0 3	−0 5	−0 5	−1 3	−1 3	−1 0	−1 9	−1 0
Central Provinces and Berar	−0 5	+0 2	−0 1	−1 4	−3 9	−3 5	−2 0	−1 6
Central India and Guzerat	−3 4	−2 8	−3 9	−3 6	−3 5	−3 3	−3 6	−3 4
Sind and Rajputana	−6 1	−3 8	−3 9	−3 6	−3 8	−3 7	−3 9	−4 1
Madras	−2 1	−0 9	−0 1	−1 1	−0 5	+0 1	−0 5	−0 7
Mean for whole of India	−2 1	−1 5	−1 7	−2 4	−2 6	−2 6	−2 6	−2 2

The above shows that the general deficiency of temperature for the whole week for the whole of India was 2 2°, which is 1 0° less than the deficiency of last week In Burma, where the rainfall has been steadily light, there was an excess of temperature on each day of the week and a mean excess of 1 0° In all the other Provinces there was a deficiency, which ranged from 0 7° in Madras to

4 8° in the Punjab The coolest days for the whole of India were the 6th, 7th, and 8th, on each of which dates the abnormal depression of temperature for the whole country amounted to 2 6°

Rain —During the week under review effective rain has been received in all the rainfall divisions The heaviest average actual rainfall was 16 37 inches in Assam (Surma) This is followed by 11 03 inches in the Konkan and by 9 61 inches in North Bengal, while the lightest average fall was 0 2 inch in Madras (South) According to the normal, the heaviest rainfall during this week should be 11 31 inches in the Konkan, followed by 11 21 inches in Tenasserim and 11 11 inches in Arakan, while the lightest rainfall should be 0 19 inch in Madras (South) The points of difference then between the actual and normal rainfall of the present week are mainly the excess of rain in Assam (Surma) and North Bengal and the deficiency in Tenasserim and Arakan Both actually and normally the rainfall is lightest in South Madras

The third column of the table shows that the monsoon rainfall of the week has been excessive over by far the greater part of the Indian region The only important exceptions are Burma and the west of the Indian Peninsula The Bay current of the monsoon, as was the case in the preceding weeks of the present monsoon period, has to a large extent avoided Burma, and the rainfall of Tenasserim for the week was 4 77 inches short of the average, and that of Arakan was 3 59 inches short In Malabar, Madras (South Central), Coorg, Mysore, the Konkan the Central Provinces (East), Kathiawar, and Central India (East) the week's rainfall was also less than usual, but in all the other divisions the fall was excessive In Assam (Surma) the excess was more than six, and in East Bengal and the Punjab (Submontane) was more than three inches The greatest deficiency was 5 73 inches in Coorg, followed by 4 77 inches in Tenasserim and 3 59 inches in Arakan There were thus thirteen divisions which had deficient and thirty eight which had excessive rain during the week

The three concluding columns of the table show that in Tenasserim, Lower Burma, and Central Burma the monsoon rainfall up to date has been deficient, that in Arakan, Assam (Brahmaputra), North Bengal, Orissa, North Behar, Malabar, Coorg, Mysore, Berar, the East Coast (North *a*), and Hyderabad (South) it has been approximately normal, while in all the other divisions it has been excessive

The following gives the largest total amounts received during the week as reported in the rainfall telegrams of the week

Division	District	Station	Amount
Arakan	Akyab	Maungdaw	11 12 inches
East Bengal	Rangamati	Sudder	11 80
Assam	Khasia Hills	Cherra	53 94 ,,
Central Bengal	Pubna	Serajganj	11 52 ,,
North Bengal	Cooch Behar	Matabhanga	16 61 ,,
Behar	Purneah	Kissengunge	13 43 ,,
Oudh	Bahraich	Sudder	12 92 ,,
North Western Provinces	Dehra Dun	Kalsi	12 71 ,,
Punjab	Gurdaspur	Pathankot	14 79 ,,
Ditto	Kangra	Sudder	14 46 ,,
Malabar	South Kanara	Karkul	16 49 ,,
Konkan	North Kanara	Honavar	19 23 ,,
Deccan	Kolhapur	Bawda	21 40 ,,
Guzerat	Surat	Chikhli	15 19 ,,
East Coast	Ganjam	Tekkali	11 59 ,,

SIMLA, *13th July, 1893*

W L DALLAS,
Asst Meteorological Reporter to the Government of India

E C BUCK,
Secretary to the Government of India

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT

Weekly Report on the state of the Season and Prospects of the Crops

Madras—*For week ending 8th July*—Rainfall heavy or good throughout, except in parts of the Deccan, Central, and Southern districts, where the falls were light Agricultural operations proceeding briskly almost throughout, and standing crops generally thriving, but rain is wanted in parts of Trichinopoly and Tinnevelly Water supply, pasture, and fodder generally ample, and cattle in good condition General prospects favourable Prices continue stationary, though slightly easier in Deccan

Bombay—*For week ending 12th July*—Rain throughout the Presidency Young crops injured by rain, rats, or insects in parts of eight districts. Agricultural operations progressing generally, but sowings retarded in parts of eight districts owing to excessive or deficient rain Transplantation progressing in parts of seven districts Prices steady, except in parts of two districts Agricultural stock good and fodder sufficient

Bengal—*For week ending 8th July*—General and copious rain has fallen during the week, except in Orissa and parts of South-West Bengal, where the falls were light Cultivation is still retarded, and the crops on low-lands have suffered in many places owing to excessive rainfall Early rice is being harvested, and jute is also being cut in some places Indigo manufacture is going on, but the produce is expected to be short in Murshedabad and Purneah. Prices are almost stationary, but common rice has slightly risen in some districts Cattle are generally healthy Water is plentiful, and the fodder supply is sufficient in all districts, except Noakhali

North-Western Provinces and Oudh—*For week ending 12th July*—Monsoon weather continues, and a break would be beneficial for agricultural operations Standing crops are flourishing Prospects good Markets sufficiently supplied Prices generally steady

Punjab—*For week ending 12th July*—Heavy rain has fallen throughout the Province, Harvesting of spring crops nearly over, outturn good, but somewhat affected by excessive rain Ploughing for autumn crops in progress Condition of standing crops are generally fair Cattle are generally in good condition Fodder sufficient in all districts Prices unsettled in one district, falling in three others, and stationary elsewhere

Central Provinces—*For week ending 12th July*—Weather cloudy and warm with occasional rain Rainfall heavy in the Nagpur country More rain is required in parts of one district Autumn sowings continue Prospects favourable

Burma—*For week ending 8th July*—Rain fell throughout Burma, but the fall was insufficient in four districts In Lower Burma ploughing, sowing,

and transplanting are progressing favourably In Upper Burma agricultural operations are progressing generally, but the want of rain in Shwebo interferes with the transplanting of paddy The price of paddy has fallen slightly in Rangoon and Bassein and to a greater extent in Kyaukse, but it has risen in the Ruby Mines, Sagaing, and the Upper Chindwin districts

Assam —*For week ending 11th July* —Report not received

Mysore and Coorg —*For week ending 12th July* —MYSORE Rainfall general Standing crops good, except in parts of one district, where more rain is wanted Prospects favourable Prices risen in two districts

COORG Rainfall good Ploughing of rice fields and transplanting of paddy in progress Planting of coffee continues Slight rise in prices of food grains Water and fodder for cattle sufficient

Berar and Hyderabad —*For week ending 12th July* —BERAR Rain fall good Weather warm and cloudy Sowing of cotton and other autumn crops continues Fodder and water sufficient Cattle healthy Prices steady

HYDERABAD Rainfall good Sowing of hot weather crops in progress and that of irrigated paddy commenced Prices slightly risen

R T R LAURENCE, *Captain, R E*,

for Director General of Military Works.

CHIEF COMMISSIONER OF AJMERE-MERWARA

NOTIFICATIONS

Abu, the 5th July, 1893

No 686—562 —The Chief Commissioner is pleased to substitute the following rules for those viz, 23—36) published, under section 110 (*a*) of the Ajmere Land and Revenue Regulation, II of 1877, in this Office Notification No 110—695, dated the 6th February, 1889 —

UNDER SECTION 110 (*a*)

Assessment of Land Revenue—Lands variably assessed

23 Of land variably assessed to revenue there shall be two classes —

Class I —The portions of villages lying in the beds of certain tanks which are liable to submergence, and which have been demarcated by the Settlement Officer

Class II —Whole villages in which a standard revenue has been assessed on a standard cultivated area by the Settlement Officer

24 In lands of class I the cultivation of each harvest shall be recorded and measured up he revenue due shall be found by applying to the cultivated area the rate or rates fixed by the settlement Officer at settlement

25 In variably assessed villages, class II, the assessment shall be made by the standard rate ssessed at settlement on the cultivated area This standard rate is the rate for dry cultivation, nd to it, as a basis all other rates in the village must be referred The other rates are all multi les of the dry rate, and to find the dry unit area, the area under each class of cultivation (chahi, alabi, abi, and dry) must be multiplied by the multiple of its own class

(NOTE —When the area actually cultivated exceeds the standard area the exces of the demand over the standard revenue will be edited to Government When such area falls below the standard area the difference between the standard revenue and the amount tually demanded will be remitted)

26 The area to be assessed shall comprise all cultivation except that of "muafi" and "bhum ands

27 The record of measurements for purposes of assessment shall give the necessary details or—

1 Lands assessable at well (chahi) rates
2 Ditto at tank (talabi) rates
3 Ditto at wet (abi) rates
4 Ditto at dry rates

28 The assessments shall be made under the superintendence and orders of the Collector

29 The following general rules shall be observed —

(*a*) Lands irrigated from a well, existing as such at Mr La Touche's settlement, shall be liable to assessment at well (chahi) rates

(*b*) Lands irrigated from a village tank or nadi, existing as such at Mr La Touche's settlement, shall be liable to assessment at the same rate as lands assessed as irrigated from such tank or nadi

(*c*) Lands cultivated in the beds of village tanks or nadis, existing as such at Mr La Touche's settlement, shall be liable to assessment at abi rates

(*d*) Lands irrigated from a well or village tank or nadi, not existing as such at Mr La Touche's settlement, or lying in the bed of such village tank or nadi and cultivated, shall be assessed as dry

(*e*) Lands assessed at settlement as irrigated or as "abi", but growing dry crops only, shall be assessed as dry

Explanation —Irrigated includes irrigation from wells, village tanks, and nadis referred to in auses (*a*) and (*b*), but does not include irrigation from variably or permanently assessed tanks

(*f*) Lands assessed as irrigated from a permanently assessed tank shall pay full 'talabi' rates, whether irrigated or not

(*g*) Lands assessed as irrigated from a variably assessed tank shall pay "talabi" rates under the rules in force for such tanks

(*h*) Lands irrigated from any stream that feeds or issues from any Government tank that has been permanently assessed, or feeds or issues from any such village tank or nadi, as is referred to in clause (*b*), shall be liable to assessment at 'talabi" rates

(*i*) In the case of lands irrigated from different sources in the same harvest, the rate shall be regulated by the source supplying the greatest number of waterings, or where that number is equal, by the source assessable at the highest rate

(*j*) Double cropped dry lands assessed as such shall only pay the assessment for one harvest

(*k*) Lands growing dry crops or crops assessed as dry in the autumn (kharif) harvest shall pay the dry rate only, and if such lands become liable to assessment as

irrigated for the spring (rabi) harvest, the rate for this latter shall be the full irrigated minus the amount collected on account of the autumn harvest Similarly, lands paying full irrigated rates for the autumn harvest, and growing dry crops or crops assessed as dry in the spring harvest, shall not be liable to assessment for the latter

(l) Lands paying a higher rate for their position under a variably assessed tank shall be assessed at this higher rate, if cultivated, even though not irrigated during that harvest

(m) Lands growing fodder crops for cattle in the hot weather shall not be liable to assessment, and in no case shall lucerne grass grown under wells pay more than a single rate for the whole year Under each well land cultivated with lucerne grass shall, to the extent of one bigah, be assessed at dry rates only

Land under lucerne grass in excess of that area shall be assessed at the usual rates

30 When the total demand of a village for the harvest has been found, the amount payable by each sharer will be found by multiplying the standard rate into the area of his cultivation as shewn in the "khataum"

31 The Commissioner may declare that in any particular village, the crop on unirrigated land has been only a three quarter crop or half crop or quarter crop or *nil*, and may reduce the assessment on such land accordingly If the crop on such land has only produced the amount of grain required for seed grain, it shall not be assessed

32 When the actual assessable cultivated area has been found by the above rules, the assessment shall be made in the manner indicated in Rule 25

Example —At the time of settlement, the Settlement Officer determined that the assessable area of a village ordinarily cultivated was—

	Acre	Rate of assessment per acre R a p	Total assessment R a p
Dry	1 4	0 10 0	77 8 0
Abi	40	1 9 0	62 8 0
Tank	8	2 13 0	22 8 0
Well	50	3 12 0	187 8 0
TOTAL	222		350 0 0

This area is reduced to a multiple of dry units in the following manner —

The abi rate of R1 9 the acre is $2\frac{1}{2}$ times the dry rate
The tank rate of R2 13 the acre is $4\frac{1}{2}$ times the dry rate
The well rate of R3 12 the acre is 6 time the dry rate

The area in terms of dry units will therefore be—

Dry	124 × 1 = 124 acres
Abi	40 × 2^{1} = 100
Tank	8 × $4\frac{1}{2}$ = 36
Well	50 × 6 = 300
TOTAL	560

This 560 acres is called the standard dry unit area, and when multiplied by the dry rate of 10 annas gives the standard revenue of R350

33 An English register in the following Form (No IV) shall be kept up in the Collector's Office, and an opening of two pages shall be assigned to each variably assessed village In this register the assessment of each harvest shall be recorded

FORM NO 4

Register of assessments of variably assessed villages

NAME OF VILLAGE					STANDARD REVENUE				STANDARD DRY RATE
	AUTUMN (KHARIF) HARVEST				SPRING (RABI) HARVEST				
YEAR	Actual area assessed	Dry unit area	Rate	Assessment	Actual area assessed	Dry unit area	Rate	Assessment	TOTAL ASSESSMENT OF YEAR
1	2	3	4	5	6	7	8	9	10

34 In the column of remarks of the above register, a brief note of any of the remarkable events of the year, as affecting the revenue history of the village, shall be entered

35 In villages variably assessed, the Lumberdars' fees shall be five per cent on the amount actually collected by them, and all the cesses shall be calculated on the annual demand

36 With his annual Revenue Report, the Collector shall submit three statements in the forms (Nos V, VI, and VII) given below

Statement No I (Form V) refers to the assessment of variably assessed beds of tanks It shall be prepared separately for each harvest and submitted whether any assessments have been made or not

Statement No II (Form VI) refers to the assessment of variably assessed villages in the autumn (kharif) harvest

Statement No III (Form VII) refers to the assessment of variably assessed villages in the spring (rabi) harvest

FORM NO V—STATEMENT NO I

Return of the assessment of variably assessed beds of tanks (for each harvest separately) in the District of in the year 18

জ্বরঘ্ন সিন্‌কোনার মূল্য কম করণ ।

১৮৯১ সালের এপ্রেল মাসের ১লা তারিখ অবধি যাবৎ অন্য আজ্ঞা না হয় তাবৎ কলিকাতার বোটানিকেল গাডেনের অর্থাৎ কোম্পানির বাগানের সুপারিন্টেণ্ডেণ্টের নিকট গবর্ণমেণ্টের কর্ম্মচারিগণ এবং অপর কোন ব্যক্তি এক কালীন দশ পৌণ্ড ক্রয় করিলে নিম্নলিখিত হিসাবে জ্বরঘ্ন সিন্‌কোনা পাইবেন অর্থাৎ চারি ঔন্স টিন ২॥ টাকায় আট ঔন্স টিন ৫, টাকায় ও এক পৌণ্ড টিন ১০, টাকায় পাইবেন। সর্ব্ব সাধারণে কোম্পানির বাগানের সুপারিন্টেণ্ডেণ্টের নিকট নগদ মূল্য দিলে এই এই হিসাবে অর্থাৎ চারি ঔন্স টিন ৩, টাকায় আট ঔন্স টিন ৬ টাকায় এবং এক পৌণ্ড টিন ১২, টাকায় পাইতে পারিবেন। কলিকাতার প্রধান প্রধান ইউরোপীয় ও দেশীয় ঔষধ বিক্রেতাগণও এই ঔষধ বিক্রয় করিয়া থাকেন। উপরোক্ত হার ছাড়া চারি ঔন্স টিনের ৷ আট ঔন্স টিনের ৷। ও এক পৌণ্ড টিনের ৷৷৹ ডাক মাশুল দিতে হইবে।

PURE SULPHATE OF QUININE

Manufactured at the Bengal Government Cinchona Plantation

The price of this Quinine is as follows —

1 Pound tin	R16,	or, post free,	R16 12
½ „	R 8,	„	R 8-8
¼ ,	R 4,	„	R 4-6

Analysis shows this Quinine to be of the purest manufacture and it is guaranteed to be free from wilful mixture with the inferior alkaloids Cinchonine and Cinchonidine It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Seebpore near Calcutta It can be had either white or coloured pink

বঙ্গদেশের গবর্ণমেণ্টের সিনকোনা আবাদে প্রস্তুত বিশুদ্ধ কুইনাইন ।

এই কুইনাইনের নিম্নলিখিত মূল্য যথা—

১ এক পৌণ্ড টিন	১৬, বা ডাকমাশুল বিনা	১৬৸
৷ আধ „ „	৮, বা ডাকমাশুল বিনা	৮৷
শিকি „	৪, বা ডাকমাশুল বিনা	৪৷

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধরূপে প্রস্তুত করা হইয়াছে। এবং ইহা যে সিন্‌কোনাইন ও সিন্‌কোনীডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছা পূর্ব্বক মিশান হয় নাই তাহার গারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারিগণের নিকট বিক্রয় করা যাইবে এবং কলিকাতার নিকটস্থ শবপুরের কোম্পানির বাগানের সুপারিন্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারিবে। ইহা শাদা বা পাটল বর্ণের পাওয়া যাইতে পারি[illegible]।

REVENUE DEPARTMENT

[Revised Advertisement]

A Dictionary of the Economic Products of India

By DR GEO WATT C I E

R po ter E nomic Pr l ets

P ublished i i le tl i uthority of the Govern n nt of In lia in th Re i u i Agri ultur il D part n nt

The first five volumes and Volume VI Parts I and II, of the Dictionary are now ready at the Office of Super intendent of Government Printing No 8 Hastings Street, Calcutta, and will be supplied to non subscribers on receipt of the price for the complete set which is R45 in India and 3 guineas in England (exclusive of the Index for which a separate charge will be made) packing and postage in India 8 annas per volume, for England, 2 rupees 6 annas per volume For copies bound in half calf or half morocco R6 and 8 shillings respectively will be charged extra for the whole set

The Dictionary is intended to deal with the products of India—animal vegetable and mineral each product being treated after a uniform plan the paragraphs of which give the scientific vernacular and European names habitat or source history properties and uses (both chemical and industrial) trade statistics markets etc The work is arranged alphabetically according to scientific nomenclature but commercial and important vernacular names are also given as cross references so that little difficulty need be experienced in finding the account of a product even when its scientific name i unknown to the reader

An important feature of the Dictionary consists in the fac that derived information is in every instance given under quotation marks and with a reference to the original publication Numerous contributors have however furnished the results of new discoveries and confirmed the vernacular names so that the Dictionary is not only a complete compilation of published information but has been brought abreast of the most recent inventions and discoveries

Volume I contains the letters A and B, and consists of 559 royal octavo pages Volume II embraces the letter C in 689 pages Volume III contains the letters D E F and half of G Volume IV latter half of G to middle of L and Volume V contains the latter half of L to end of O Vol VI (which will consist of four parts) Part I contains letters P to R The whole work will it is expected be completed in nine volumes (including Parts II to IV of Vol VI) during the current year but a tenth volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary The Index will practically be a glossary of the vernacular and European names of the plants, animals, and minerals of India and as such will be a work of reference which it is hoped may prove of considerable value

Pictorial School Lesson Sheets descriptive of the most prominent Agricultural Insect Pests of India Intended for the use of schools and other educational institutions Prepared under the orders of the Government of India Revenue and Agricultural Department The following have been published —

Weather Review of India for the week ending at 8 a m on Saturday, July 15th, 1893

During the week under review widely extended, but moderate, monsoon conditions have prevailed throughout the Indian region Pressure has been steadily lowest over the Western desert and relatively low over the Gangetic plain, while it has been steadily highest over the south of the Indian region, and on several occasions relatively high along the line of the Himalayas Normal monsoon winds have accompanied this distribution of pressure, and the rainfall has been characterised rather by general moderate falls than by heavy localised rain There has been a complete absence of severe storms, and the general monsoon circulation has been practically undisturbed There has been a slight general depression of temperature

On the morning of the 9th the chart showed a well marked low pressure area over the Western desert, while readings were highest over Malabar, Ceylon, and Tenasserim The pressure difference between Malabar and the Indus Valley was 0 311 inch The winds were westerly across the Peninsula and the central parts of the country, southerly over the Bay area, and irregularly easterly up the Gangetic plain The rainfall was light or absent over Upper Burma, Lower Bengal, the Western Punjab, and the Bombay Deccan, but was fairly general elsewhere The amounts received were on the whole not heavy The following were the more important falls Mussoorie, 2 88 inches, Sialkot, 1 97 inches, Meerut, 1 95 inches, Chakrata, 1 75 inches, and Mangalore, 1 73 inches On the morning of the 10th pressure was decreasing in most places, but the changes had not materially altered the general distribution of pressure Readings were highest over the south east of the Bay and lowest in the Indus Valley The pressure difference between Malabar and the Indus Valley was 0 311 inch, which was the same as on the previous day The winds were generally unaltered, except that there was less easting in the current up the Gangetic plain The distribution of rain was also approximately the same as on the preceding day The principal falls were 4 90 inches at Madura, 3 90 inches at Agra, 2 95 inches at Mussoorie 2 76 inches at Cherat, 2 45 inches at Khammamett, 2 00 inches at Patna, and over 1 inch at several stations On the 11th the barometer was still falling almost everywhere The area of lowest pressure had moved northward and lay over the west of the Punjab, and the barometric gradient had increased, but otherwise the pressure conditions were little changed The pressure difference between Malabar and the Indus Valley had risen to 0 388 inch The winds were fairly normal, and rain had continued to fall generally, except in parts of Lower Bengal, of the Punjab, of the Bombay Deccan, of the west of the Central Provinces, and of Sind The following were the principal falls Gnatong 2 45 inches, Bareilly, 2 23 inches, and Dehra Dun, 1 84 inches The chart of the 12th showed that pressure was decreasing over Sind, the Punjab, the Gangetic plain, and North Eastern India, and increasing elsewhere The changes were, however, small, and the general distribution was little changed The pressure difference between Malabar and the Indus Valley was 0 440 inch, so that the barometric gradient over Western India had continued to increase Westerly and south westerly winds prevailed over the greater part of the country, and the force over Sind, Kathiawar, and the central parts of the country was high The rainfall had been light or absent over the west of North Western India, over Lower Bengal, over the Bombay Deccan, and over Berar, but continued general elsewhere Moulmein reported 5 29 inches, Akyab 3 21 inches, Tavoy 2 14 inches, and Mymensing 2 12 inches, while several stations reported amounts exceeding 1 inch. On the 13th the barometric changes were generally downward over Burma and the Peninsula and upward elsewhere The changes were,

small and the general distribution of barometric pressure was little altered The pressure difference between Malabar and the Indus Valley was 0 423 inch, which was slightly less than that recorded on the previous day The winds were north erly or variable on the West Cost, generally westerly or south westerly in other parts of India, and between south west and south east over Burma The rainfall was generally light and scattered over the Peninsula and the central parts of the country and also in North Western India Elsewhere it continued general Burd wan reported 4 56 inches, Gorakhpur 4 50 inches, Akyab 3 63 inches, Delhi 3 32 inches, Diamond Island 2 46 inches, Mymensingh 2 08 inches, Dehra Dun 2 60 inches, Chakrata 2 59 inches, and Raichur 2 07 inches On the 14th the barometer was falling everywhere, and a very small depression had appeared over Lower Bengal, but in other respects the pressure distribution showed no important change The pressure difference between Malabar and the Indus Valley was 0 470 inch The wind was north westerly or north north westerly on the West Coast, southerly to south easterly over Burma, Assam, and East Bengal, and generally westerly or south westerly elsewhere The distribution of rainfall was practically the same as on the preceding day The principal falls were—4 55 inches at Lucknow, 4 39 inches at Dehra Dun, 4 34 inches at Bareilly, 2 70 inches at Bassein, and 2 65 inches at Mainpuri On the 15th the barometer was rising, except in Bombay The small depression over Lower Bengal had increased in size, but otherwise there was little change The winds were feebly cyclonic in Bengal, and easterly winds were reappearing over the north of the Gangetic plain, but elsewhere the directions were similar to those reported on the 14th Rain was more general over the Peninsula, but was less heavy over the North Western Provinces The following were the principal falls Sambalpur, 3 83 inches, Wellington, 2 97 inches, Hazaribagh, 2 31 inches, Balasore, 2 16 inches, and Ranikhet, 2 12 inches

Temperature—The following table shows the variations of the mean temperature from the normal on each day of the week for the different Provinces of India

Province	July							Mean variation of week
	9th	10th	11th	12th	13th	14th	15th	
	°	°	°	°	°	°	°	°
Burma	+0 8	+1 1	+0 7	—1 3	—1 2	—1 2	—1 2	—0 3
Bengal and Assam	—1 0	+0 1	—0 7	—0 8	—1 2	—1 3	—1 7	—0 9
North Western Provinces and Oudh	—3 1	—3 9	—2 9	—2 2	—2 3	—3 9	—5 4	—3 4
Punjab	—7 4	—6 6	—5 4	—2 9	—2 1	—1 2	—0 9	—3 8
Bombay	—0 5	+0 4	+0 8	+0 4	+0 5	+1 0	+0 6	+0 5
Central Provinces and Berar	—0 6	+1 1	+1 0	+1 1	+0 7	+0 3	—0 1	+0 5
Central India and Guzerat	—3 2	—3 2	—1 6	—2 0	—1 6	—2 7	—3 1	—2 5
Sind and Rajputana	—3 5	—3 4	—2 8	—2 3	—0 9	—1 8	—0 7	—2 2
Madras	—0 8	—0 4	—0 6	—0 3	+0 1	—0 5	—0 3	—0 4
Mean for whole of India	—2 1	—1 6	—1 3	—1 1	—0 9	—1 3	—1 4	—1 4

On each day of the week the mean temperature of the whole of India has been below the normal, the deficiency ranging from 2 1° on the 9th to 0 9° on the 13th The only Provinces which on any day had any excess of temperature were Burma, Bengal, Bombay, the Central Provinces, and Madras In Bombay the mean temperature of six days exceeded the normal, in the Central Provinces of five days, and in Burma, Bengal, and Madras of one day each The mean deficiency of the whole week for the whole of India was only 1 4°

Rain—Effective rain has again fallen in every one of the rainfall divisions of India The average actual rainfall of the divisions ranges from 10 96 inches in Assam (Surma) and 10 55 inches in Arakan to 0 17 inch in the West Punjab, 0 32 inch in Khandeish, and 0 44 inch in the Central Provinces (West) The

heaviest rainfall was attributable to the Bay of Bengal branch of the monsoon current Thus of the divisions the rainfall of which is due to the Bay current two, *viz*, Arakan and Assam (Surma), had over 10 inches, one, Tenasserim, over 9 inches, one, North Bengal, over 8 inches, and five, North Behar, the North-Western Provinces (Central and Submontane), Oudh South, and the Punjab hill districts, had over 5 inches as the average fall of each division On the contrary, the heaviest average falls attributable to the Arabian Sea current were 4 16 inches in Malabar and over 3 inches in Coorg, Rajputana (East), and the Nizam's Dominions According to the normal, the heaviest average falls during the week under review should be 11 41 inches in Tenasserim, followed by 11 31 inches in the Konkan, by 10 88 inches in Arakan, and by 8 03 inches in Malabar, while normally the lightest average fall should be 0 23 inch in Madras (South)

The third column of the table shows that the rainfall of the week was lighter than usual in twenty four divisions, heavier than usual in twenty six divisions, and exactly normal in one division In Burma all the divisions had less rain than usual The other divisions which had rainfall lighter than the normal were East and Deltaic Bengal, Orissa, the Punjab (West), Malabar, Coorg, Mysore, the Konkan, the Deccan, Khandeish, Berar, the west and centre of the Central Provinces, Guzerat, Kathiawar, Central India (East), Rajputana (West), the East Coast (North *a*), Madras (Central), and East Coast (Central) In all the other divisions there was an excess The greatest absolute deficiency was 8 34 inches in the Konkan and the greatest absolute excess was 4 50 inches in Assam (Surma)

The three concluding columns of the table show the average actual and average normal rainfall for the period May 28th to July 15th In Tenasserim, Lower and Central Burma, Orissa, and Coorg the rainfall of the period under review has been below the normal average, elsewhere it has either been normal or excessive The excess has been greatest over North Western India

The following gives the largest total amounts received during the week as reported in the rainfall telegrams of the week

Division	District	Station	Amount
Tenasserim	Amherst	Sudder	10 71 inches
Central Burma	Shwegyin	Pyuntaza	9 73 ,,
Arakan	Akyab	Sudder	12 67 ,,
East Bengal	Mymensingh	Netrakona	10 76 ,,
Assam	Khasia Hills	Cherra	36 24 ,,
North Bengal	Cooch Behar	Matabhanga	16 79 ,,
Behar	Purneah	Kissengunge	13 24 ,,
Oudh	Unao	Sudder	12 32 ,,
North Western Provinces	Dehra Dun	Ditto	12 17 ,,
Punjab	Gurgaon	Ferozepore	8 67 ,,
Ditto	Kangra	Sudder	12 55 ,,
Malabar	South Kanara	Karkul	11 42 ,,
Rajputana	Ulwar	Kishengarh	13 06 ,,
Madras	North Arcot	Vellore	7 28 ,,

W L DALLAS,
Asst Meteorological Reporter to the Government of India

SIMLA, *20th July, 1893*

E C BUCK,
Secretary to the Government of India

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weekly Report on the state of the Season and Prospects of the Crops

Madras—*For week ending 15th July*—Rainfall good or heavy throughout, though scattered showers only in Tinnevelly Cultivation and sowing proceeding very vigorously Standing crops thriving, but require rain in Tinnevelly Pasture and fodder generally sufficient and stock in good condition General prospects very favourable Prices, however, continue almost unaltered at exceptionally high rates but are slightly easier in the Southern districts

Bombay—*For week ending 19th July*—Rain throughout the Presidency, but insufficient in four districts Young crops injured by rats or insects in parts of six districts Agricultural operations progressing generally, but sowing retarded in four districts owing to excessive or deficient rain Transplanting progressing in six districts but retarded in two owing to insufficient rain Prices steady except in parts of two districts Agricultural stock good and fodder sufficient

Bengal—*For week ending 15th July*—The rainfall during the week has been light and scattered in Orissa and parts of South West Bengal and Chota Nagpur, moderate in East Bengal, and much heavier than usual in North Bengal and Behar Cultivation of late rice is now in progress, except in some parts, where the low lands are still under water Early rice and jute are being reaped in North and East Bengal These crops and the autumn crops in Behar have been somewhat damaged by the heavy rain Indigo manufacture is going on, but the general outturn is not expected to be satisfactory No important change in prices of common rice Cattle are healthy, except in two districts Fodder supply is sufficient in all districts, except Noakhali

North-Western Provinces and Oudh—*For week ending 19th July*—The rainfall has been heavy during the week, and has retarded agricultural operations in some districts A break would now be beneficial Autumn sowings are nearly completed, and transplanting of rice is in progress Prospects good Supplies are abundant and prices generally steady Locusts appeared in the northern pargana of Almora, but no damage is reported

Punjab—*For week ending 19th July*—Heavy rain has fallen in all but three districts Harvesting of spring crops nearly over, outturn good, though it is somewhat affected in several districts by excessive rain Ploughings and sowings for autumn crops commenced A break in the rains is required for ploughing and sowing in some districts Condition of standing crops is generally fair Cattle generally in good condition Fodder sufficient throughout the Province Prices falling in five districts, stationary elsewhere

Central Provinces—*For week ending 19th July*—Rainfall heavy in the Northern districts and in Chhattisgarh More rain wanted in the Nagpur country,

particularly in Chanda, where transplantation of rice is at a standstill Sowings of autumn crops in progress, and weeding operations commenced in places Excessive rain in Sambalpur has somewhat affected sugarcane, and insects have attacked the rice crops

Burma —*For week ending 15th July*—Rain fell in all districts of Burma, except Kyaukse and the Southern Shan States More rain is required in five districts of Upper Burma In Lower Burma agricultural operations are progressing favourably while in Upper Burma ploughing is in progress, paddy is being sown or transplanted, and in the Sagaing and Myingyan districts *juar* (*sorghum vulgare*) and Indian corn are being sown Prospects generally are good, but the crops are suffering from want of rain in four districts The price of paddy has risen in three districts, elsewhere stationary

Assam —*For week ending 18th July*—Weather seasonable Floods in the Surma valley Reaping of early and planting of late rice continue Condition of cattle normal Fodder sufficient, except where water is excessive

Mysore and Coorg —*For week ending 19th July*—MYSORE Rainfall general and good Crops and prospects generally favourable Sowing operations nearly completed No material change in prices

COORG Rainfall good, but insufficient in parts Ploughing of rice fields and transplanting of paddy being pushed on Planting of coffee continues Prices stationary Water and fodder for cattle sufficient

Berar and Hyderabad —*For week ending 19th July*—BERAR Rainfall moderate Weather warm and cloudy *Juar* (*sorghum vulgare*) and cotton plants in good condition Sowing of autumn crops still continues Fodder and water sufficient Cattle healthy Prices steady

HYDERABAD Report not received

Central India —*For week ending 19th July*—Rain general throughout Central India Sowing and weeding in progress, except in parts of Bhopawar, where sowing has been stopped on account of continuous rain Cattle generally in good condition Pasturage good and sufficient Prices of food grains falling in three Agencies, steady elsewhere

Rajputana —*For week ending 19th July*—Good rainfall generally in Rajputana Agricultural operations and standing crops satisfactory Agricultural stock good Pasturage or fodder sufficient Prices falling in three States, fluctuating in three others, and steady elsewhere

Kashmir —*For week ending 18th July*—Report not received

Nepal —*For week ending 15th July*—Light rain Transplanting of rice completed Prospects of crops good

NOTIFICATIONS

Quetta, the 6th July, 1893.

No. 3502.—In exercise of the powers conferred by Section 3 of the Baluchistan Agency Forest Law, 1890, the Agent to the Governor General in Baluchistan is pleased to declare the under mentioned lands to be State Forests, with effect from 6th July, 1893 —

No.	Name of Forest	Ilaqa	Area in acres	Boundaries: North East	South East	South West	North West	Remarks
1	Marichak	Quetta	1,830	From the highest peak of the Takatu a line of pillars down a spur then skirting round a water spring crossing the valley up to the highest part of the subordinate ridge which lies to south east of and generally parallel with the main ridge	The top of the subordinate ridge which closes in the Marichak valley on south east	A line of pillars in a south east and north west direction across the Marichak valley from the main to the subordinate range	A line of pillars along the water shed of the main range	Along and rather narrow strip of land lying north east and south-west comprising the upper portions of the Marichak valley draining to the south west and of a small valley draining to the south east below the main peaks of Takatu

The 7th July, 1893.

No. 3525.—With the previous sanction of the Governor General in Council the Chief Commissioner in British Baluchistan is pleased to declare, under the provisions of Section 10 of the British Baluchistan Forest Regulation, 1890 that the area specified below which in Notification No. 5781, dated 22nd December, 1890, was declared to be State Forest, under Section 3 of that Regulation, shall cease to be State Forest, with effect from the 25th August, 1892 —

Specification of Land disforested.

Name of Reserve or portion of Reserve disforested	District	Pargana	Mouza	Area in acres
Shebo Plantation	Quetta Pishin	Pishin	Batazai	457 (exclusive of 75 acres occupied by road canal and railway)

Boundaries

North — Quetta Chaman Road
East — Shebo Canal Main Line
South — Kakar Lora
West — A line of pillars from the Kakar Lora to the Military Road

Brief description

A long narrow block lying between the Military Road and the Kakar Lora

Reasons for disforestation

Made over to the villagers of Batazai, as the culturable area belonging to the village is too small for its requirements

F COLLIS-SANDES,

Offg Administrator General of Bengal.

ADMINISTRATOR GENERAL'S OFFICE
7 COUNCIL HOUSE STREET
CALCUTTA,
The 21st July, 1893

REDUCTION IN PRICE OF CINCHONA FEBRIFUGE

From 1st April, 1891, and until further orders, Cinchona Febrifuge can be purchased by all Government officers and by any one taking *ten pounds* at a time, from the Superintendent, Botanic Garden Calcutta at the following rates—four ounce tin, *R2 8* eight ounce tin, *R5* one pound tin *R10* The general public can be supplied by the Superintendent Botanical Garden *for cash only* at the under noted rates—per four ounce tin *R3* per eight ounce tin *R6* per pound tin, *R12* The medicine is also sold by the principal European and Native druggists in Calcutta Postage four annas per four ounce tin eight annas per eight ounce tin and twelve annas per pound tin in addition to the foregoing rates

জ্বরঘ্ন সিন্‌কোনার মূল্য কম করণ।

১৮৯১ সালের এপ্রেল মাসের ১লা তারিখ অবধি যাবৎ অন্য আজ্ঞা না হয় তাবৎ কলিকাতার বোটানিকেল গার্ডণের অর্থাৎ কোম্পানির বাগানের সুপারিন্টেণ্ডেণ্টের নিকট গবর্ণমেণ্টের কর্ম্মচারিগণ এবং অপর কোন ব্যক্তি এক কালীন দশ পোণ্ড ক্রয় করিলে নিম্নলিখিত হিসাবে জ্বরঘ্ন সিনকোনা পাইবেন অর্থাৎ চারি ঔন্স টিন ২৷৷ টাকায় আট ঔন্স টিন ৫৲ টাকায় ও এক পোণ্ড টিন ১০৲ টাকায় পাইবেন। সর্ব্ব সাধারণে কোম্পানির বাগানের সুপারিন্টেণ্ডেণ্টের নিকট নগদ মূল্য দিলে এই এই হিসাবে অর্থাৎ চারি ঔন্স টিন ৩৲ টাকায় আট ঔন্স টিন ৬ টাকায় এব এক পোণ্ড টিন ১২৲ টাকায় পাইতে পারিবেন। কলিকাতার প্রধান প্রধান ইউরোপীয় ও দেশীয় ঔষধ বিক্রেতাগণও এই ঔষধ বিক্রয় করিয়া থাকেন। উপরোক্ত হার ছাড়া চারি ঔন্স টিনের ॥ আট ঔন্স টিনের ॥ ও এক পোণ্ড টিনের ৸ ডাক মাশুল দিতে হইবে।

PURE SULPHATE OF QUININE

Manufactured at the Bengal Government Cinchona Plantation

The price of this Quinine is as follows —

1 Pound tin, R16, or, post free, R16 12
½ „ R 8, „ R 8 8
¼ „ R 4, „ R 4-8

Analysis shows this Quinine to be of the purest manufacture, and it is guaranteed to be free from wilful mixture with the inferior alkaloids Cinchonine and Cinchonidine It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Seebpore, near Calcutta It can be had either white or coloured pink

বঙ্গদেশের গবর্ণমেণ্টের সিন্‌কোনা আবাদে প্রস্তুত বিশুদ্ধ কুইনাইন।

এই কুইনাইনের নিম্নলিখিত মূল্য যথা—

১ এক পোণ্ড টিন ১৬৲ বা ডাকমাশুল বিনা ১৬৸
॥ আধ „ „ ৮৲ বা ডাকমাশুল বিনা ৮॥
পিকি „ „ ৪৲ বা ডাকমাশুল বিনা ৪॥

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধরূপে প্রস্তুত করা হইয়াছে। এবং ইহা যে সিন্‌কোনাইন ও সিন্‌কোনীডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছা পূর্ব্বক মিশান হয় নাই তাহার গারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারিগণের নিকট বিক্রয় করা যাইবে এবং কলিকাতার নিকটস্থ শিবপুরের কোম্পানির বাগানের সুপারিন্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারিবে। ইহা শাদা বা পাটল বর্ণের পাওয়া যাইতে পারি॰

THE INDIAN LAW REPORTS

REVENUE DEPARTMENT

[Revised Advertisement]

A Dictionary of the Economic Products of India

BY DR GEO WATT C I E,

Repo te on Econ m c Products

Published under the authority of the Governm nt of India in the Revenue and Agricultural Department

The first five volumes and Volume VI, Parts I and II, of the Dictionary are now ready at the Office of Superintendent of Government Printing No 8 Hastings Street Calcutta and will be supplied to non subscribers on receipt of the price for the complete set which is R45 in India and 3 guineas in England (exclusive of the Index for which a separate charge will be made) packing and postage in India 8 annas per volume, for England, 2 rupees 6 annas per volume For copies bound in half calf or half morocco, R6 and 8 shillings respectively will be charged extra for the whole set

The Dictionary is intended to deal with the products of India—animal vegetable and mineral each product being treated after a uniform plan the paragraphs of which give the scientific vernacular and European names habitat or source history properties and uses (both chemical and industrial) trade statistics markets etc The work is arranged alphabetically according to scientific nomenclature but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks and with a reference to the original publication Numerous contributors have however furnished the results of new discoveries and confirmed the vernacular names so that the Dictionary is not only a complete compilation of published information but has been brought abreast of the most recent inventions and discoveries

Volume I contains the letters A and B and consists of 559 royal octavo pages Volume II embraces the letter C in 689 pages Volume III contains the letters D E F and half of G Volume IV latter half of G to middle of L and Volume V contains the latter half of L to end of O Vol VI (which will consist of four parts) Part I contains letters P to R The whole work will it is expected be completed in nine volumes (including Parts II to IV of Vol VI) during the current year but a tenth volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary The Index will practically be a glossary of the vernacular and European names of the plants animals and minerals of India and as such will be a work of reference which it is hoped may prove of considerable value

Technical Art Series published up to 1892 together with their explanatory Text—

LEGISLATIVE DEPARTMENT

NOTIFICATION

Simla the 28th July, 1893

No 25 —The following Statute (with so much of the schedule as extends to repeal in India Statutes in force there) is published for general information

THE STATUTE LAW REVISION ACT 1893

[56 VICTORIA, CHAPTER 14]

An Act for further promoting the Revision of the Statute Law by repealing Enactments which have ceased to be in force or have become unnecessary

[9TH JUNE, 1893]

WHEREAS it is expedient that certain enactments, which may be regarded as spent, or have ceased to be in force otherwise than by express specific repeal by Parliament, or have by lapse of time or otherwise become unnecessary, should be expressly and specifically repealed

Be it, therefore, enacted by the Queen s most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal and Commons in this present Parliament assembled and by the authority of the same, as follows

Enactments in schedule repealed

1 The enactments described in the schedule to this Act are hereby repealed, subject to the provisions of this Act and subject to the exceptions and qualifications in the schedule mentioned and every part of a title, preamble, or recital specified after the words "in part, namely,' in connexion with an Act mentioned in the said schedule may be omitted from any revised edition of the Statutes published by authority after the passing of this Act, and there may be added in the said edition such brief statement of the Acts officers, persons, and things mentioned in the title, preamble, or recital as may in consequence of such omission appear necessary

Provided as follows

The repeal of any words or expressions of enactment described in the said schedule shall

not affect the binding force, operation, or construction of any statute, or of any part of a statute, whether as respects the past or the future

and where any enactment not comprised in the said schedule has been repealed, confirmed, revived, or perpetuated by any enactment here by repealed, such repeal, confirmation, revivor, or perpetuation shall not be affected by the repeal effected by this Act

and the repeal by this Act of any enactment or schedule shall not affect any enactment in which such enactment or schedule has been applied, incorporated or referred to

nor shall such repeal of any enactment affect any right to any hereditary revenues of the Crown or affect any charges thereupon or prevent any such enactment from being put in force for the collection of any such revenues, or otherwise in relation thereto

and this Act shall not affect the validity, invalidity, effect, or consequences of anything already done or suffered,—or any existing status or capacity,—or any right, title obligation, or liability already acquired, accrued or incurred, or any remedy or proceeding in respect thereof,—or any release or discharge of or from any debt, penalty obligation, liability, claim, or demand,—or any indemnity —or the proof of any past act or thing,

nor shall this Act affect any principle or rule of law or equity, or established jurisdiction, form or course of pleading, practice, or procedure, or the general or public nature of any statute or any existing usage, franchise, liberty, custom, privilege, restriction, exemption, office, appointment, payment allowance emolument, or benefit or any prospective right, not withstanding that the same respectively may have been in any manner affirmed recognised, or derived by, in, or from any enactment here by repealed,

nor shall this Act revive or restore any jurisdiction, office, duty, drawback, fee, payment franchise, liberty, custom liability, right title, privilege restriction exemption, usage, practice, procedure, form of punishment, or other matter or thing not now existing or in force,

and this Act shall not extend to repeal any enactment so far as the same may be in force in any part of Her Majesty's dominions out of the United Kingdom, except where otherwise expressed in the said schedule

2 If and so far as any enactment repealed by this Act applies or may have been by Order in Council applied to the court of the county palatine of Lancaster, or to any inferior court of civil jurisdistion, such enactment shall be construed as if it were contained in a local and personal Act specially relating to such court, and shall have effect accordingly

Application of repealed enactments in local courts

3 Where any Act cites or refers to another Act otherwise than by its short title, the short title may in any revised edition of the Statutes printed by authority, be printed in substitution for such citation or reference

Citation by short titles

4 This Act may be cited as the Statute Law Revision Act, 1893

HOME DEPARTMENT

NOTIFICATIONS

MEDICAL

Simla, the 25th July, 1893

No 437—In supersession of the Notification of this Department, No 813, dated the 18th December 1888, the Governor General in Council is pleased to make the following rules regarding the remuneration of Medical Officers for attendance on Native Chiefs and Nobles and Native gentlemen of high position, in a Native State

2 When a Native Chief or Noble or gentleman of high position desires the professional attendance of any Medical Officer of Government, the latter will be at liberty to attend him, provided that such attendance does not interfere with the due performance of his ordinary duties The special permission of the Local Government will, however, be necessary when such attendance involves the absence of the officer from those duties for any substantial time

3 The Native Chief Noble or gentleman may offer any Medical Officer of Government attending him such fee as he thinks fit The offer made will be reported by the Medical Officer through the Political Agent or other officer of Government exercising political functions in the State of which the said Chief, Noble or gentleman is a resident for the consideration of the Local Government within whose jurisdiction the Native State is situated In reporting the offer, the Medical Officer will state, so far as he is able to do so consistently with his position as a medical adviser, the nature and extent of the relief afforded, the importance of the case from a professional point of view, and the circumstances under which he attended the patient The Political Agent or officer forwarding the report will submit it with such remarks as he considers necessary The Local Government will have authority to sanction the acceptance of any fee so reported unless the amount appears to be out of proportion to the relief afforded and to the circumstances of the case, in which event the matter will be submitted, with the Local Government's opinion, for the consideration and orders of the Government of India

4 The report prescribed in the preceding paragraph will not be required from a Medical Officer in the following cases

(1) When the officer names his own charge in accordance with a scale which he has fixed for his patients generally who are not Native Princes or Chiefs, and when such charge is accepted by the patient, and

(2) When the officer and patient reside in the same station and the fee does not exceed Rs 50 for each visit, or Rs 1,000 in the aggregate for repeated visits during the course of a year

5 For the purposes of this Notification the term "Local Government" will be held to include an Agent to the Governor General and a Resident of the 1st class

The 27th July 1893

No 442—The services of Surgeon Captain D T Lane, M D, I M S (Bengal), are placed temporarily at the disposal of the Government of the Punjab

The 28th July 1893

No 444—The services of Surgeon Captain H M Morris I M S (Bengal), are placed temporarily at the disposal of the Government of Bengal

No 446—*Erratum*—In Home Department Notification No 309, dated the 2nd June 1892, replacing the services of Surgeon Captain W G Thorold at the disposal of the Government of the North Western Provinces and Oudh, *for* "31st May 1892" *read* "after noon of the 8th June 1892"

JUDICIAL

The 28th July 1893

No 909—The Honourable Mr Justice Prinsep, a Judge of the High Court of Judicature at Fort William in Bengal, has obtained privilege leave for one month, with effect from the 15th August 1893

EDUCATION

The 27th July 1893

No 208—Under section 12 of Act II of 1857, the Governor General in Council is pleased to authorize the affiliation of the Indian Association for the Cultivation of Science to the Calcutta University in Physics and Chemistry up to the standard of the First Examination in Arts

The 28th July 1893

No 210 —The following Notification of the Bengal Education Department regarding the holding at Calcutta of the Intermediate Examination in Arts and the B A Examination of the London University is republished from the *Calcutta Gazette* of the 28th June 1893 for general information

NOTIFICATION

In Government of Bengal Notification No 9T G, dated the 2nd May 1893 the public were informed that the University of London had acceded to the request of the Government of India that the Intermediate Examination in Arts and the B A Examination of that University may be held in Calcutta

For the information of the general public it is hereby notified that the following is the prescribed course of studies for each of these examinations

INTERMEDIATE EXAMINATION

Candidates shall be examined for a Pass or for Honours in each of the following subjects —(1) Latin (2) either the French or the German Language (3) English Language, Literature, and History (4) Mathematics and for a Pass only in Greek

Every candidate must state upon his Form of Entry whether he intends to compete for Honours in any subject or subjects and, if he does so intend must specify the subject or subjects

No candidate will be allowed to take both the Pass and Honour papers in the same subject but every candidate must take the Pass papers in those subjects in which he does not offer himself for Honours

EXAMINATION FOR A PASS

CLASSICS

THE LATIN LANGUAGE—

Two Latin subjects—one in prose the other in verse,—to be selected two years previously by the Senate from the works of the undermentioned authors[1]

Virgil	The Eclogues or two Books of the Georgics, or two Books of the Æneid
Horace	The Odes and Epodes, or the Satires, or the Epistles
Ovid	Fasti, two Books
Cicero	One of the Orations or one Book from any of the Philosophical or Rhetorical Works
Livy	One Book
Tacitus	One Book of either the Annals or the Histories

HISTORY—

History of Rome to the Death of Augustus

The papers in Latin and Roman History shall contain passages of the specified authors with simple passages of Latin from books not previously named to be translated into English short passages of English to be translated into Latin and questions in Grammar, History, and Geography

GREEK —

One Greek subject to be selected two years previously by the Senate from the works of the undermentioned authors, together with easy questions in Grammar[4]

Homer	One Book
Æschylus / *Euripides* / *Sophocles*	One Play from the works of these Dramatists
Herodotus	One of the shorter or a portion of one of the longer Books
Xenophon	One Book

[1] The LATIN subjects for 1894 will be—

Tacitus Histories Book I *Horace* Epistles (not including the Ars Poetica)

[2] Special stress is laid on accuracy in the answers to the Grammar questions and on the correct rendering of English into Latin

[3] Every candidate must take the Pass paper in Greek there is no Examination for Honours in this language

[4] The GREEK subject for 1894 will be—

Herodotus Book VIII

THE ENGLISH LANGUAGE, LITERATURE, AND HISTORY

The Grammatical Structure of the Language, Composition

Other special subjects to be defined two years previously [1]

[*Note*—The Examination in History will be confined to a limited period to be prescribed in each year as one of the special subjects such period as a rule coinciding with the defined period of English Literature]

THE FRENCH OR THE GERMAN LANGUAGE

Translation into English, with questions in Grammar

MATHEMATICS

ARITHMETIC—

- The Ordinary Rules of Arithmetic
- Vulgar and Decimal Fractions
- The Rule of Three and its Applications
- Simple and Compound Interest
- Present Value Discount, and Annuities
- Extraction of the Square Root

ALGEBRA—

- The Ordinary Rules of Algebra
- Reduction and Manipulation of Algebraical Fractions
- Ratio, Proportion and Variation
- Permutations and Combinations
- Arithmetical and Geometrical Progressions
- Simple and Quadratic Equations
- Determination of Common Factors
- The Theory of Indices
- The Nature and Use of Logarithms

GEOMETRY—

- The Relations and Properties of Similar Rectilinear Figures
- The Elementary Properties of the Plane, including those of the Angles made by Planes with Right Lines and with each other
- The Elementary Properties of the Sphere, including those of the Great and Small Circles on the Surfaces of Spheres
- The Mensuration of the Simpler Plane and Solid Figures, including that of the Circle, the Sphere, the Cylinder, and the Cone
- Elements of Co ordinate Geometry, in Rectangular and Polar Co ordinates, as far as the Equations and Properties of the Right Line and Circle

TRIGONOMETRY—

- The different Measurements of Angles and the Ordinary Relations of their Trigonometrical Ratios
- The Elementary Formulæ connecting the Trigonometrical Ratios of two or more Angles
- The solution of the several cases of Plane Triangles including the determination of their Areas
- The determination of the Heights and Distances of Inaccessible Objects

Candidates shall not be approved by the Examiners unless they have shown a competent knowledge in—

1. Latin and Roman History
2. Greek
3. Either the French or the German Language.[2]
4. English Language Literature and History
5. Mathematics [3]

---

[1] The ENGLISH subjects for 1894 will be—

History of England from 1558 to 1603

History of English Literature during the same period

Chaucer House of Fame and Squire s Tale

Spenser View of the Present State of Ireland

Shakespear King Henry V and As You Like It

There will also be set for translation a simple passage of Middle English from an unnamed book

[2] Pass candidates can obtain credit for only *one* of these languages

[3] For a complete time table of the Examination see pages 423 and 426

EXAMINATION FOR HONOURS

Any candidate who presents himself at the INTERMEDIATE EXAMINATION IN ARTS for examination may be examined for Honours in (1) Latin, (2) English, (3) French, (4) German, and (5) Mathematics.

Candidates for Honours in LATIN shall be examined in the following subjects[1]:—

THE LATIN LANGUAGE—

Terence. Andria, Adelphi.
Catullus. Clarendon Press Selections.
Virgil.
Horace.
Juvenal. Satires I, III, VII.
Cicero. Pro Murenâ. Pro Cluentio. Philippics I, II. De Oratore. Ad Atticum I to IV.
Livy. XXI, XXII, XXIII.
Tacitus. Annals I and II.

COMPOSITION IN LATIN AND ENGLISH—

Latin Prose. Translation, Retranslation.

Analysis of any of the subjects selected for examination; Original Composition upon questions arising out of the classical authors selected for examination.

The papers in Latin shall contain passages of the ancient authors to be translated into English, and passages of English to be translated into Latin. The papers shall also contain questions in Grammar, History and Geography.

For this Examination four papers shall be set, of which two shall be given on the first day of the Examination (at the same times as the Pass papers in Latin), and the other two on Friday in the same week.

Candidates for Honours in ENGLISH shall be examined in the Elements of Anglo-Saxon Grammar in subject to be defined two years previously and in original Composition upon questions arising out of the authors selected for examination.[2]

For this Examination four papers shall be set, of which two shall be given on Wednesday in the first week of the Examination (at the same times as the Pass papers in English), and the other two on Monday in the following week.

For the Examination for Honours in FRENCH two papers shall be set, of which one shall be given on the afternoon of Tuesday in the first week of the Examination (at the same time as the Pass paper in French), and the other on the morning of Tuesday in the following week.

For the Examination for Honours in GERMAN two papers shall be set which shall be given on the morning and afternoon of Wednesday in the week following that in which the Examination commences.[3]

Candidates for Honours in MATHEMATICS shall be examined in the following subjects:—

Algebra.
Theory of Equations.
Plane Trigonometry.
Spherical Trigonometry.
Pure and Co-ordinate Geometry of two Dimensions up to and including the properties of the Conic Sections.
Differential Calculus.
Integral Calculus.
Statics of Material Particles, of Rigid Bodies, of Flexible Cords, and of Elastic Beams.

---

[1] The list of Honours subjects will be revised at intervals of five years. The next revised list will be *published* in 1894 and will *take effect* in 1896.

[2] The ENGLISH HONOURS subjects for 1894 will be—

The Pass subjects and in addition—

History of England from 1603 to 1625.
History of English Literature during the same period.
Sweet. Anglo-Saxon Primer (Clarendon Press).
Bacon. Advancement of Learning.
Shakespear. King Lear and Cymbeline.

There will also be set for translation a simple passage of Anglo-Saxon Prose from an unnamed book.

[3] Candidates for this Examination will not be allowed to take the Pass paper in German.

Kinetics of Material Particles

Hydrostatics of Gravitating Fluids

For this Examination four papers shall be set of which two shall be given on Thursday in the first week of the Examination (at the same times as the Pass papers in Mathematics), and the other two on Thursday in the following week

The Examination shall be conducted in the following order

	Pass	Honours
MONDAY		
Morning, 10 *to* 1	Latin	Latin
Afternoon 2 *to* 5	Latin and Roman History	Latin
TUESDAY		
Morning, 10 *to* 1	Greek	
Afternoon, 2 *to* 5	French / German	French
WEDNESDAY		
Morning, 10 *to* 1	English Language and Literature	English
Afternoon, 2 *to* 5	English History and Literature	English
THURSDAY		
Morning, 10 *to* 1	Arithmetic and Algebra	Mathematics
Afternoon 2 *to* 5	Geometry and Trigonometry	Mathematics
FRIDAY		
Morning 10 *to* 1		Latin
Afternoon 2 *to* 5		Latin

HONOURS

	Honours
MONDAY	
Morning, 10 *to* 1	English
Afternoon, 2 *to* 5	English
TUESDAY	
Morning, 10 *to* 1	French
WEDNESDAY	
Morning 10 *to* 1	German
Afternoon, 2 *to* 5	German
THURSDAY	
Morning, 10 *to* 1	Mathematics
Afternoon, 2 *to* 5	Mathematics

B A EXAMINATION

Candidates shall be examined in the following branches of Knowledge, Branches I, II, and III being compulsory but an option being allowed between Branch IV and Branch V[1]

I —Latin, with Roman History (two papers)

II —Greek, with Grecian History (two papers)

III —*One* of the following Languages —English French, German, Italian, Arabic, Sanskrit (Two papers in each)

IV —Either *Pure* Mathematics or *Mixed* Mathematics (Two papers in each)

V —Mental and Moral Science (two Papers)

I —LATIN

The Latin Language, with Grammar, History, and Geography, as follows

(*a*) Two subjects—one in Prose, the other in Verse,—to be selected two years previously by the Senate from the works of the following authors[2]

Cicero One of the Orations, or one Book from any of the Philosophical or Rhetorical works, or one Book from the Letters

---

[1] Candidates will be required to mention the Optional subjects they select If Italian Arabic or Sanskrit be selected *two Calendar Months* extra notice must be given

[2] The LATIN subjects for 1894 will be—

Cicero, Ad Atticum Book IV *Terence* Phormio.

Livy One Book
Tacitus One Book of either the Annals or the Histories
Virgil The Eclogues and two Books of the Georgics, or the Georgics or four Books of the Æneid
Horace The Odes or Epodes, with one Book of the Satires or Epistles
Terence One Play
Juvenal Two (or three) Satires

(*b*) Questions in Grammar, with passages for Translation into English from Books not previously named, and passages of English to be translated into Latin

Note —Special stress is laid on this part of the Examination

(*c*) Outlines of Roman History to the Death of Domitian, with a special knowledge of some limited period of political and literary history to be announced two years previously,[1] and Geography

II —GREEK

The Greek language, with Grammar, History, and Geography, as follows

(*a*) Two subjects—one in Prose, the other in Verse,—to be selected two years previously by the Senate from the works of the following authors[2]

Herodotus One Book
Thucydides One Book
Xenophon Two Books from any of his larger works, or the Oeconomics, or the Hiero and Agesilaus
Demosthenes One of the longer or three of the shorter Public Orations, or two of the Private Orations
Isocrates One Oration
Lysias Two Orations
Plato Apology of Socrates and Crito, or one of the longer and two of the shorter Dialogues
Homer Six Books
Æschylus, *Sophocles*, *Euripides*, *Aristophanes* } One or two Plays, to be selected from the works of these Dramatists

(*b*) Questions in Grammar and passages for Translation into English from Books not previously named

Note —Special stress is laid on this part of the Examination

(*c*) Outlines of Greek History to the Death of Alexander, with a special knowledge of some limited period of political and literary history to be announced two years previously,[3] and Geography

III —ENGLISH, FRENCH, GERMAN, ITALIAN, ARABIC, SANSKRIT[4]

THE ENGLISH LANGUAGE AND LITERATURE—

History, Structure, and Development of the English Language

Anglo Saxon Grammar and Translation

Other Special Subjects to be defined from time to time[5]

The Periods of ROMAN History for 1894 will be—
From the Death of Sulla to the Battle of Philippi

The GREEK subjects for 1894 will be—
Aristophanes Vespæ (Holden s or any other expurgated text) *Demosthenes* Adv Leptinem

The Periods of GREEK History for 1894 will be—
From 404 B C to 338 B C

Candidates can obtain credit for only *one* of these languages

The ENGLISH subjects for 1894 will be—
History of English Literature from 1360 to 1400
Sweet Anglo Saxon Reader Extracts XV—XX with Grammatical Introduction
Barbour Brus Books I to VI inclusive (Early English Text Society Extra Series *)
Chaucer The Tale of Melibeus and the Parson s Tale
William Morris Jason
There will also be set for translation a simple passage of Anglo Saxon Prose from an unnamed book

---

* Undergraduates *only* may obtain this book at a greatly reduced price on individual application to the Society's Printers Messrs Clay & Sons Bungay, Suffolk

THE FRENCH, THE GERMAN, OR THE ITALIAN LANGUAGE—
Translation, Retranslation, and Grammar

THE ARABIC OR THE SANSKRIT LANGUAGE[1]—
Translation from Arabic or Sanskrit into English, with questions in Grammar

IV—MATHEMATICS[2]

(a) PURE MATHEMATICS

The subjects prescribed for the INTERMEDIATE PASS EXAMINATION (*see* page 420), with the addition of the following

ALGEBRA—
- Theory of Indices, Radicals, and Surds
- Theory of Imaginary Quantities
- Binomial Theorem and its Applications
- Theory of Logarithms and Exponentials

TRIGONOMETRY—
- De Moivre's Theorem and its Applications
- Ordinary Formulæ connecting the Sides and Angles of Spherical Triangles
- Solution of the several cases of Spherical Triangles, including the determination of their Areas

GEOMETRY—
- Theory of Harmonic Section and its Applications
- Central and Focal Properties of Conics by Pure and by Co ordinate Geometry
- Theory of Poles and Polars with respect to Conics

(b) MIXED MATHEMATICS

DYNAMICS—
- Composition, Resolution, and Equilibrium of Forces acting at a Point
- Composition, Resolution and Equilibrium of Forces acting in a Plane
- Composition, Resolution, and Equilibrium of Forces acting in Parallel lines
- Centres of Gravity of Rigid Bodies
- The Mechanical Powers
- Nature, Intensity, and Transmission of Pressure in Liquids
- Pressure of Liquids in Equilibrium under the action of Gravity
- Equilibrium of Solids floating or immersed in Gravitating Liquids
- Specific Gravities of Substances, Solid and Liquid
- Measures of Velocity, Acceleration and Force
- Acceleration of Masses under the action of Forces
- The Laws of Rectilinear Motion
- Rectilinear Motion of Particles under the action of Gravity
- Composition and Resolution of Velocities and Accelerations
- Free Motion of Projectiles under the action of Gravity
- Circular Motion of Particles, Harmonic Vibrations and Centrifugal Force
- Vibrations of Simple Pendulums in small Circular Arcs
- Theory of Dynamical Work, Energy of Position, and Energy of Motion

ASTRONOMY[3]—
- Points of Lines Planes, and Circles of the Celestial Sphere
- Phenomena depending on the Earth's Rotation round its Axis
- Phenomena depending on the Earth's Revolution round the Sun
- Phenomena depending on Change of Place on the Surface of the Earth
- Determination of Time and Place on the Surface of the Earth
- Determination of the Magnitude and of the Figure of the Earth
- Determination of the Distances of the Moon, Sun, and Planets

[1] See the first Note on page
[2] Candidates choosing Mathematics can obtain credit for only *one* of the two divisions of the subject
[3] A knowledge of Spherical Geometry, but not of the Trigonometrical formulæ for the solution of Spherical Triangles will be required

Kepler's Laws of Planetary Motion and their Consequences
Refraction and Aberration as affecting Astronomical Observation

V—MENTAL AND MORAL SCIENCE[1]

PSYCHOLOGY—

Scope and Method General Analysis and Classification of Mental Facts, Consciousness Self conscious, Attention

Sensation and Movement, the Senses, Sense perception

Representative Imagination Memory Expectation, Laws of Association

Fundamental Process of Intellect

Abstraction and Generalization Conception Judgment, and Reasoning, Language as expressive of Thought Intellectual Construction

Feeling and its Expression Pleasure and Pain, Emotions and their Classification

Action, Instinctive and Voluntary, Appetite and Desire Motives, Deliberation, Choice, Freedom of Will

Belief and Knowledge Self and External World Relations of Mind and Body

LOGIC—

First Principles and Laws of Thought, Logical use of Language

Terms Categories and Predicables, Formal Division and Definition

Propositions and their Import Forms of Immediate Inference

Syllogism and other Varieties of Formal Reasoning, Fallacies

Functions of Syllogism, Trains of Reasoning Demonstration and Necessary Truth

Relation of Induction to Deduction, Ground of Induction, Causation, Analogy

Observation and Experiment Experimental Methods Deductive Method, Explanation, Hypothesis Chance and Probability

Naming, Definition, and Classification in Science

ETHICS—

Springs of Human Action and their Mutual Relation the Moral Faculty

The Good or Ultimate End of Action, Moral Obligation Standards of Right and Wrong Sanctions of Morality, the Individual and Society

Duties and Virtues

The Examination shall be conducted in the following order

MONDAY

Morning 10 *to* 1 }
Afternoon, 2 *to* 5 } Latin and Roman History

TUESDAY

Morning, 10 *to* 1 }
Afternoon, 2 *to* 5 } Greek and Grecian History

WEDNESDAY

Morning 10 *to* 1 }
Afternoon 2 *to* 5 } Mathematics *or* Mental and Moral Science

THURSDAY

Morning, 10 *to* 1 }
Afternoon, 2 *to* 5 } The Languages specified under Branch III

A copy of the Government of Bengal Notification No 9 T G, dated the 2nd May 1893, is printed below for ready reference

The University of London has acceded to the request of the Government of India that the Intermediate Examination in Arts and the B A Examination of the University may be held in Calcutta These examinations begin each year on the third Monday in July and the fourth Monday in October respectively

2 As it is necessary that applications for permission to appear at these examinations should reach the University of London four months before the date of the examination, candidates for examination must submit their applications to the Director of Public Instruction in the first week of January for the Intermediate Examination, and in the first week of April for the Bachelor s Degree Examination

[1] The questions in Mental and Moral Science will have no special reference to the writings of any one author or school of author In matters of opinion answers will be judged according to their accuracy of thought and expression

3 For each examination a fee of £5 (five pounds sterling) will be charged Each applicant will be required to remit in the first week of June for the Intermediate Examination and in the first week of September for the Bachelor s Degree Examination the sum of Rs 100 (one hundred rupees) to the Director of Public Instruction either by money order or by a note or notes for that amount in a cover registered and insured or to pay the said amount in person to the Director The £5 (five pounds sterling) fee will subsequently be paid by Government to the University, and the difference between the sum of one hundred rupees and the equivalent of five pounds sterling at the current rate of exchange for postal money orders, or such rate as may hereafter be determined will be returned to the candidate

DARJEELING
The 7th June, 1893

C A MARTIN, LL D,
Offg Director of Public Instruction, Bengal

The 28th July 1893

No 220 —Under section 12 of Act II of 1857, the Governor General in Council is pleased to authorize the affiliation of the Canadian Mission College, Indore, to the Calcutta University in Arts up to the B A Standard

No 1596 *E*—The following Order of Her Majesty the Queen in Council is republished from the *London Gazette* of the 19th May, 1893, for general information

AT THE COURT AT WINDSOR

The 16th day of May 1893

PRESENT

The Queen's Most Excellent Majesty

Lord President
Marquess of Ripon
Mr Secretary Asquith

Whereas by treaty, grant, usage, sufferance, and other lawful means Her Majesty the Queen has jurisdiction within the dominions of the Sultan of Zanzibar

Now, therefore, Her Majesty by virtue and in exercise of the powers by "The Foreign Jurisdiction Act, 1890," or otherwise in Her Majesty vested, is pleased, by and with the advice of Her Privy Council, to order, and it is hereby ordered, as follows

1 Any act which if done in British India, would be an offence against the law for the time being in force in British India relating to trade marks, merchandise marks, copyright, designs or inventions, shall, if done in Zanzibar by a person subject to the Orders in Council relating to Zanzibar, be an offence, whether such act is done in relation to any property or right of a British subject, or of a foreigner or native, or otherwise and any person guilty of such offence shall be punished with imprisonment for a term which may extend to two months, or with a fine which may extend to 1,000 rupees, or with both

2 Any Act of the Governor General of India in Council, or of the Governor of Bombay in Council amending or substituted for any of the Acts of those Legislatures respectively which are made applicable to Zanzibar by or under the provisions of Article 8 of ' The Zanzibar Order in Council, 1884, ' or shall hereafter be made so applicable, shall apply to Zanzibar without any orders of the Secretary of State in that behalf, subject however, to the provisions made in that article for facilitating the application of enactments

3 This Order shall be read and construed as part of " The Zanzibar Order in Council, 1884," and may be cited as "The Zanzibar (Trade marks, &c) Order in Council, 1893 '

4 (*a*) This Order shall come into operation at the expiration of one month after it is first exhibited in the public office of the Consulate at Zanzibar provided that any Act of the Imperial Parliament extending to India, or any Act of the Governor General in Council which is passed after the commencement of this Order and applies to Zanzibar by virtue of this Order, shall not take effect until the expiration of one month

after such Act has been exhibited in like manner

(b) The Consul General shall cause a copy of this Order and of every such Act to be exhibited, and for the said period kept exhibited, in the public office of the Consulate accordingly

And the Right Honourable the Earl of Rosebery, K G, one of Her Majesty's Principal Secretaries of State, is to give the necessary directions herein

C L Peel

No 2592 I—Whereas His Highness the Maharaja of Bikanir (Bikanir being a Native State within the meaning of the Native Coinage Act, IX of 1876) has pursuant to the authority contained in section 5 of the said Act sent to the Mint of Bombay silver which has been coined under the said Act into two lakhs of rupees, and has requested the Government of India to declare that a tender of payment of money if made in rupees so coined, shall be a legal tender in British India

And whereas the silver so sent has been coined into rupees of fineness identical with that prescribed by law for rupees of the Government of India

And whereas the rupees so coined are identical in weight with the rupees of the Government of India, and the devices upon their obverse and reverse differ from the devices on coins now made or issued by the Bikanir State and have been approved by the Governor General in Council and upon each of the rupees so coined its value in money of the Government of India is inscribed in the English language

And whereas the said Maharaja, on behalf of himself, his heirs, and successors has undertaken to abstain, during a term of thirty years from the date of this notification, from coining silver and copper in his own Mint and has also undertaken that no coins resembling coins for the time being a legal tender in British India shall, after the expiration of the said term, be struck under his or their authority or with his or their permission at any place within or without his or their jurisdiction

And whereas the said Maharaja has formally declared that a tender of payment of money if made in silver coins of the Government of India, shall, in the territories subject to His Highness, be a legal tender in the cases in which payment made in such coins would under the law for the time being in force be a legal tender in British India

And whereas the said Maharaja for himself, his heirs, and successors has agreed that the law and rules for the time being in force respecting the cutting and breaking of coin of the Government of India reduced in weight by reasonable wearing or otherwise, or counterfeit, or called in by proclamation shall apply to the coin made for the said Bikanir State under the said Act, and that the said State will defray the cost of cutting and breaking them

And has also agreed not to issue the same coins below their nominal value and not to allow any discount or other advantage to any person in order to bring them into circulation

And has also agreed that, if at any time the Government of India call in their coinage in silver and copper, he the said Maharaja, his heirs or successors, will if so requested by the Government of India, call in, at his or their own expense, all the said rupees so coined for him

Now, therefore, the Governor General in Council, in consideration of the premises and in exercise of the power conferred by the Native Coinage Act (IX of 1876), section 3 is pleased to declare that a tender of payment of money, if made in the said rupees coined under the said Act for the said State of Bikanir, shall, subject to the provisions of the Indian Coinage Act (XXIII of 1870), be a legal tender in British India

The 27th July 1893

No 1277 G—Major J H Sadler Indian Staff Corps, Officiating Political Agent of the 2nd Class and Political Agent at Muscat, is granted privilege leave for two months and twenty one days with effect from the 5th August 1893, or the subsequent date on which he may avail himself of the leave

No 109 A G, dated 17th July, 1893

RESOLUTION—By the Government of India, Public Works Department

Review of Provincial Civil Works Budget Estimates of Expenditure for 1893 94

Read—

Public Works Department Code, Volume II, Chapter XV, paragraphs 42 and 43
Finance Department Resolution No 1142, dated 17th March 1892

RESOLUTION —Under the rules regulating the administration by Local Governments and Administrations of Provincial Revenues and Expenditure, the Government of India are required to exercise a general control over the expenditure on Public Works from Provincial and Incorporated Local Funds The funds set aside for outlay on Provincial Civil Works under the control of Public Works officers during 1893 94, the second year of a new Provincial contract, are analysed in the following paragraphs

A separate review of the expenditure by Public Works officers on Civil Works from Incorporated Local Funds will issue in due course

2 In the following table the grants for 1893 94 are compared with the outlay on Provincial Civil Works during the five years ending 1891 92 and the Revised Estimate for 1892 93

PROVINCE	OUTLAY ON CIVIL WORKS PROVINCIAL					Revised estimate 1892 93	Budget estimate 1893-94
	188 88	1888 89	1889 90	1890 91	1891 92		
	Rs	Rs	Rs	R	Rs.	Rs	Rs
Central Provinces	1 60 160	11 57 180	18 13 670	17 61 650	19 91 985	17 76 000	19 00 000

8 In the undermentioned provinces allotments are made for original works for which estimates have not been sanctioned The number of works and the aggregate amounts are noted against each

Name of Province	Number of works	Amount
		Rs
Central Provinces	38	4,70,300
Lower Burma	63	4,34 160
Assam	27	3 48 800
Bengal	38	4 69,600
North Western Provinces and Oudh	22	1,39 260
Punjab	32	3,62 500
Madras	31	4,32 840
Bombay	32	3 78 150

It is understood that no outlay on works will be permitted by Local Governments and Administrations until estimates have been sanctioned by competent authority

9 The following works are provided for in connection with the residences of Governors, Lieutenant Governors, and Chief Commissioners

Province	Station	Nature of work	Total estimated cost	Allotment for 1893 94
			Rs	Rs
Lower Burma	Rangoon	New Government House	5 85 821	2 90 000
Bengal	Darjeeling	Additions to the Darbar Hall	13,883	12,000
Madras	Ootacamund	Additions and improvements to Government House	7 79,150	10,000

Additions to the Darbar Hall, Darjeeling —The estimate of Rs 13,883 sanctioned in Government of India, Public Works Department, letter No 181-B, dated 28th June 1893, has been treated as an addition to that of Rs 24,361 approved in Government of India, Public Works Department, letter No 18-B, dated 20th January 1893, thus raising the total estimated cost to Rs 38,244

10 The provision of house accommodation for officials, exclusive of buildings in progress at the end of 1892 93, is as follows

Province	Station	Nature of work	Estimated cost	Provision in 1893 94
			Rs	Rs.
Lower Burma	Toungoo	Additions to Jailor s quarters	2 701	2,700
Ditto	Bassein	Quarters for European Inspector		7,100
Ditto	Pyuntaza	Quarters for Assistant Superintendent of Police		7,500
Bengal	Berhampore	Constructing an upper storey over the quarters of the overseer s of the Lunatic Asylum		3,000
Ditto	Kandi	Constructing a residence for the sub divisional officer	6 059	6,000
Ditto	Suri	Constructing a residence for the Civil Surgeon		4,500
Ditto	Mymensingh	Constructing a residence for the District Superintendent of Police		6,200
Ditto	Faridpur	Ditto ditto	7 389	7,400
Central Provinces	Raipur	Constructing a new bungalow for the Superintendent of the Central Jail		12 000
North Western Provinces and Oudh	Handia	Constructing quarters for the Tahsildar	3 087	2,750
Ditto	Shikohabad	Ditto ditto	2,835	2,800
Ditto	Manjhanpur	Providing quarters for the Tahsildar and Naib Tahsildar	4,178	4,000
Ditto	Ballia	Constructing quarters for the Reserve Inspector	5,900	5 900
Ditto	Muzaffargarh	Ditto ditto	5,983	5 640
Punjab	Lahore	Additional quarters for nurses of the Mayo Hospital		11 000
Bombay	Larkhana	Two Assistant Collectors bungalows with offices	32,344	16 200
Ditto	Ditto	Constructing a bungalow for the Collector	25 198	12 600
Ditto	Sukkur	Additions to the Collector s bungalow		15 000
Ditto	Byculla	Quarters for the Chaplain	30 959	11,000
Ditto	Karachi	Additions and alterations to the Superintendent s quarters in the District Jail	3,650	3,650
Ditto	Larkhana	Constructing a bungalow for the Superintendent of Police with office	20 061	10,000
Ditto	Poona	Quarters for the Superintendent of the workshops attached to the College of Science	3 000	3,000
Ditto	Godhra	Additions and alterations to the Civil Surgeon s bungalow	5,472	5,470

In considering proposals for the construction of quarters for public servants, Local Governments and Administrations should restrict the provision to the cases specified in Vol I, Public Works Department Code, Chapter XI, para 15

The Governments of Madras Bombay Bengal the North Western Provinces and Oudh, and the Punjab
The Chief Commissioners of the Central Provinces Burma and Assam
The Accountant General Public Works Department

ORDER —Ordered, that the foregoing be communicated to the Local Governments and Administrations noted in the margin for information and guidance

Ordered also, that a copy be forwarded to the Finance Department for information, and that it be published in the *Gazette of India*

No 110 A G, dated 17th July, 1893

RESOLUTION—By the Government of India, Public Works Department

Review of Budget Estimates of Expenditure from Incorporated Local Funds on Civil Works for 1893 94

Read—

Public Works Department Resolution		No 209 A G, dated 8th August 1892
Ditto	ditto	No 211 A G, dated 9th August 1892
Ditto	ditto	No 109 A G dated 17th July 1893

RESOLUTION —This review refers to *Civil Works* under the control of Public Works officers, the outlay on which is met from *Incorporated Local* funds The outlay on Public Works under district boards, which is not administered directly by the Public Works Department, is excluded, because it does not appear in the Public Works estimates of departmental officers, but in the Civil estimates, and accounted for to Civil Account officers The total amount provided for expenditure on such works during the current year amounts to Rs 1,19,00,000 The bulk of the outlay is to be incurred in Bombay (Rs 14,75,000), Bengal (Rs 13,10,000) and Madras (Rs 15,68,000)

2 The following statement shows the grants of the year contrasted with the actual outlay during the five years ending 1891 92 and with the Revised Estimate for 1892 93

PROVINCE	OUTLAY ON CIVIL WORKS INCORPORATED LOCAL					Revised estimate 1892 93	Budget estimate 1893 94

REVENUE AND AGRICULTURAL DEPARTMENT

Weather Review of India for the week ending at 8 a m on Saturday, July 22nd, 1893

During the week under review the monsoon current over the Arabian Sea appears to have continued to blow strongly or freshly, and during the greater part of the week well marked monsoon conditions prevailed steadily over the Indian region, but on Friday, the 21st, the wind suddenly went round to the eastward on the Konkan Coast, and the monsoon showed considerable interruption This was followed by a falling off in the rainfall over a considerable part of the country, and on Saturday, the 22nd, hardly any rain was reported from Central and North Western India or the east of the Peninsula Elsewhere rain continued to fall, but the amounts were not heavy While the rainfall was general, the mean temperature remained low, but on Saturday, when the rainfall decreased decidedly, there occurred a sudden rise of nearly 1° in the mean temperature of the whole of India

The chart of the 16th showed that pressure was rising almost everywhere Readings were high in Tenasserim and Malabar and low over the Western desert, the pressure difference between Malabar and the Indus Valley being 0 294 inch Normal monsoon winds prevailed over the greater part of the country, the force being strong on parts of the West Coast There was very little rain across the head and over the east of the Peninsula, but elsewhere the fall of rain was general Akyab and Hazaribagh received over 4 inches and Saugor Island, Mangalore, Seoni, Jeypore, and Mount Abu over 2 inches, while several stations had over 1 inch On the 17th the changes of pressure were irregular, and the general distribution was little changed The pressure difference between Malabar and the Indus Valley had, however, increased to 0 325 inch Normal monsoon winds continued to prevail almost everywhere The rainfall distribution was unchanged the fall being very light over a large part of North Western India and of the east and centre of the Peninsula Mangalore, Saugor, and Sutna reported over 3 inches, Cherat over 2 inches, and several stations over 1 inch The chart of the 18th showed that the moderate and irregular barometric changes noticed on the preceding day had continued and that the general distribution was again practically unaltered Pressure was highest over Southern and lowest over North Western India, and the pressure difference between Malabar and the Indus Valley was 0 365 inch The winds were practically unchanged, and the rainfall distribution was also similar to that reported on the preceding day The principal falls were over 4 inches at Mount Abu, over 3 inches at Silchar and Bareilly, over 2 inches at Fort Stedman, Ajmere, and Sambhar, and over 1 inch at several stations On the 19th pressure was falling over North Western and North Eastern India and was changing irregularly elsewhere The pressure difference between Malabar and the Indus Valley had increased to 0 437 inch, and strongly marked monsoon conditions prevailed throughout the country The rainfall was very general, except in parts of the east and centre of the Peninsula and North Western India, and the amounts in some places were heavy

Thus Mount Abu reported over 9 inches, Hazaribagh over 4 inches, Ajmere, Sambhar, and Bhuj over 2 inches, and several places over 1 inch On the 20th pressure was recovering again, the rise being brisk in the north west Consequently the pressure difference between Malabar and the Indus Valley had decreased to 0 386 inch, and the monsoon conditions were less intense than on the 19th The wind directions remained about normal, but the rainfall was generally lighter and less extended than on the previous day Hazaribagh, Negapatam, Cuddalore, and Madura had received over 2 inches and several places over 1 inch On the 21st the barometer was rising over Western India and generally falling in the east The rise had been brisk over North Western India, and the pressure difference between Malabar and the Indus Valley had still further decreased to 0 316 inch The winds had shifted to east and north on the West Coast of the Peninsula, and calms were reported from several stations in Northern India Elsewhere monsoon winds continued The rainfall had still further decreased, and over a large part of North Western India and of the Peninsula was altogether absent The heaviest amounts reported were 6 inches at Balasore, 4 inches at Rangoon, and 2 inches at Chanda On the 22nd the barometer was rising, except in parts of Bombay The changes were uniform, and the pressure difference between Malabar and the Indus Valley was 0 319 inch, which was the same as on the 21st Easterly and northerly winds continued on the West Coast, and numerous calms were again reported from Northern India Rain had still further decreased, and over a large part of North Western and Central India was altogether absent Rangoon reported 5 inches and Darbhanga and Ratnagiri over 2 inches, but these were the only important falls

Temperature —The following table shows the variations of the mean temperature from the normal on each day of the week for the different Provinces of India

Province	July							Mean variation of week
	16th	17th	18th	19th	20th	21st	22nd

Mean for whole of India	—1 9	—1 3	—1 5	—1 7	—1 7	—1 3	—0 4	—1 4

The mean temperature of the whole of India for the week was 1 4° below the normal, which is the same variation as was reported last week On each day of the week the mean was below the average, though on the 22nd, when rainfall partially ceased, the abnormal deficiency was very small In Burma, Bombay, the Central Provinces, and Madras the mean temperature was slightly excessive, while in the other Provinces it was considerably in defect

Rain —The rainfall table at the close of the summary shows that rain has been received during the week under review in effective amounts in all the

rainfall divisions of India The heaviest average actual rainfall reported was 7 70 inches in Assam (Surma) This was followed by 7 64 inches in Tenasserim, by 6 47 inches in the Punjab (North West), by 6 34 inches in Arakan, by 6 22 inches in Rajputana (West), and by 6 14 inches in Chota Nagpur The lightest average actual rainfall was 0 24 inch in the East Coast (Central) The average normal distribution of rainfall is somewhat different from the actual Thus the heaviest normal rainfall is 12 60 inches in Arakan, followed by 10 00 inches in Tenasserim, by 9 59 inches in Coorg, and by 9 15 inches in the Konkan, while the lightest average normal rainfall is 0 20 inch in Madras (South) There is thus comparatively little difference between the actual and normal in the position of the area of lightest rainfall, but the heaviest rainfall is normally on the Burma Coast and the west of the Peninsula, and not as in the week under review in Assam The heavy rain in the north west of the Punjab and the west of Rajputana is very unusual The third column of the table shows that in twenty seven divisions the rainfall of the week has exceeded, and in twenty four divisions has been in defect of the normal The divisions which show an excess are as follows Lower Burma, both the Assam divisions, Deltaic and Central Bengal, Chota Nagpur, both the Behar divisions, all the North Western Provinces divisions (except the Centre and West), all the Punjab divisions, the Central Provinces (East), Sind, both the Rajputana divisions, Central India (West) the East Coast (North and South), and Madras (South, Central, and South) In all the other divisions there was a deficiency From the above it will be seen that the districts reporting an excess are chiefly those under the influence of the Bay of Bengal current of the monsoon The greatest actual excess was 5 53 inches in Rajputana (West) and 5 22 inches in the Punjab (North West) while the greatest actual deficiency was 7 58 inches in Coorg and 6 26 inches in Arakan

The three concluding columns of the table show the state of the rainfall from May 28th to date In Tenasserim, Lower and Central Burma, in Coorg, and in the East Coast (North *a*) the total rainfall for that period has been in defect, in Arakan, Assam (Brahmaputra), North Bengal, Orissa, the Punjab (West), Malabar, Mysore, the Konkan, Berar, the Central Provinces (West and Central), Central India (East), and the East Coast (Central) the rainfall for the period has been approximately normal, and in all the other divisions there has been an excess Relatively to the normal the excess has been greatest in the north west of the Punjab

The following gives the largest total amounts received during the week as reported in the rainfall telegrams of the week

Division	District	Station	Amount
Tenasserim	Amherst	Thaton	10 16 inches
Lower Burma	Maubin	Danubyn	13 87 "
Central Burma	Shwegyin	Kyauktaw	11 13 "
Assam	Khasia Hills	Cherra	18 38 "
North Bengal	Jalpaiguri	Bhagatpur	10 21 "

W L DALLAS,
Asst Meteorological Reporter to the Government of India

SIMLA, *27th July 1893*

E C BUCK,
Secretary to the Government of India

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weekly Report on the state of the Season and Prospects of the Crops

Madras—*For week ending 22nd July*—Rainfall heavy in two Northern districts, on West Coast and in parts of Southern districts, good in Central districts, and light elsewhere Agricultural operations progressing vigorously, except in parts of Tinnevelly, where more rain is wanted Standing crops generally thriving Water supply, pasture, and fodder sufficient Cattle in good condition Prospects favourable Prices continue high, though slightly easier, except in Southern districts

Bombay—*For week ending 26th July*—Rain throughout the Presidency, but insufficient in five districts Young crops injured by rats or insects in parts of five and withering for want of moisture in parts of three districts Agricultural operations progressing generally, but sowing retarded in seven districts owing to excessive or deficient rain Transplanting progressing in five districts, but retarded in four others for want of rain Prices steady, except in two districts Agricultural stock good and fodder sufficient

Bengal—*For week ending 22nd July*—There was general rain during the week, the falls being heavier in Chota Nagpur and South Behar than in other parts of the Province Cultivation of winter rice is generally going on, except on some low lying tracts in South West Bengal, which are still flooded Early rice and jute are being reaped in North and East Bengal Both these crops and the autumn crops in Behar and Chota Nagpur have been damaged in many places by heavy rain, and the loss of early rice in some of the Eastern districts is reported to be considerable Indigo prospects are not favourable and sugar cane is also suffering in some places Prices are almost stationary Cattle are generally reported well Fodder scarce in Noakhali

North-Western Provinces and Oudh—*For week ending 26th July*—The rainfall has been generally heavy, damaging the crops somewhat in four districts But occasional breaks during the week have benefited the standing crops and allowed of agricultural operations being resumed Transplanting of rice is in progress Prospects good Prices fairly steady Locusts appeared in one pargana of Almora, but no damage is reported

Punjab—*For week ending 26th July*—Rain throughout the Province Break in the rains and fine weather urgently needed for sowing purposes

Harvesting of spring crops nearly over Ploughings and sowings for autumn crops in progress Condition of standing crops generally good Cattle in good condition Fodder sufficient in all districts Prices unsteady in one district, rising in two others, falling in another, and stationary elsewhere

Central Provinces —*For week ending 26th July*—Weather cloudy with occasional slight showers More rain needed for rice in some districts Cotton and *juar* (*sorghum vulgare*) said to be withering in Wardha from want of rain, while in Sambalpur the prospects of the sugarcane crops are said to be gloomy owing to excessive rain Autumn sowings approaching completion Prices unchanged

Burma —*For week ending 22nd July*—The rainfall throughout Lower Burma was sufficient In Upper Burma rain fell in all but two districts, but the fall was moderate in five districts In Lower Burma agricultural operations are progressing and the crop prospects are good In Upper Burma ploughing and sowing generally are progressing, but are delayed in two districts owing to want of rain Crop prospects in most districts in Upper Burma are good, but in some districts the crops are to a great extent withering for want of rain

Assam —*For week ending 25th July*—Weather seasonable Reaping of early and transplanting of late rice continue Condition of cattle normal Fodder insufficient in the Surma Valley owing to floods

Mysore and Coorg —*For week ending 26th July*—MYSORE Rainfall general and good Standing crops good, except in parts of one district, where more rain is needed Sowing operations still continue in parts Prospects favourable No change in prices

COORG Rainfall good, more rain required Ploughing of rice fields and transplanting of paddy still in progress Planting of coffee continues Water and fodder for cattle sufficient Prices stationary

Berar and Hyderabad —*For week ending 26th July*—BERAR Rainfall moderate Weather warm Standing crops in good condition, but more rain is wanted Sowing of autumn crops continues Land under preparation for next spring season Weeding in progress Fodder and water sufficient Cattle healthy Prices steady

HYDERABAD Rainfall moderate Sowing of autumn crops and irrigated paddy in progress Prices steady

Central India —*For week ending 26th July*—Rain throughout Central India during the week Sowings in Bhopawar, though delayed by continuous rain, almost completed Ploughing and weeding in progress elsewhere A good

outturn is expected Cattle in good condition Pasturage good and sufficient Prices of food grains falling in Bundelkhand, rising in Bhopal, and steady elsewhere

Rajputana—*For week ending 26th July*—Rainfall generally good throughout Rajputana Agricultural operations and standing crops satisfactory Agricultural stock good Pasturage or fodder sufficient Prices falling in four States, fluctuating in one, and steady elsewhere

Kashmir—*For week ending 25th July*—Report not received

Nepal—*For week ending 22nd July*—Frequent showers Weather close and steamy Prospects good

REDUCTION IN PRICE OF CINCHONA FEBRIFUGE

From 1st April, 1891, and until further orders, Cinchona Febrifuge can be purchased by all Government officers and by any one taking *ten pounds* at a time, from the Superintendent, Botanic Garden Calcutta, at the following rates—four ounce tin, *R2 8* eight ounce tin, *R5*, one pound tin, *R10* The general public can be supplied by the Superintendent, Botanical Garden, *for cash only* at the under noted rates—per four-ounce tin, *R3*, per eight ounce tin, *R6*, per pound tin, *R12* This medicine is also sold by the principal European and Native druggists in Calcutta. Postage, four annas per four-ounce tin, eight annas per eight ounce tin, and twelve annas per pound tin, in addition to the foregoing rates

ঔষধ সিন্‌কোনার মূল্য কম করণ ।

১৮৯১ সালের এপ্রেল মাসের ১লা তারিখ অবধি যাবৎ অন্য আজ্ঞা না হয় তাবৎ কলিকাতার বোটানিকেল গার্ডনের অর্থাৎ কোম্পানির বাগানের সুপারিণ্টেণ্ডেণ্টের নিকট গবর্ণমেণ্টের কর্মচারিগণ এবং অপর কোন ব্যক্তি এক কালীন দশ পৌণ্ড ক্রয় করিলে নিম্নলিখিত হিসাবে ঔষধ সিন্‌কোনা পাইবেন অর্থাৎ চারি ঔন্স টিন ২। টাকায় আট ঔন্স টিন ৫ টাকায় ও এক পৌণ্ড টিন ১০ টাকায় পাইবেন। সর্ব্ব সাধারণে কোম্পানির বাগানের সুপারিণ্টেণ্ডেণ্টের নিকট নগদ মূল্য দলে এই এই হিসাবে অর্থাৎ চারি ঔন্স টিন ৩ টাকায় আট ঔন্স টিন ৬ টাকায় এবং এক পৌণ্ড টিন ১২ টাকায় পাইতে পারিবেন। কলিকাতার প্রধান প্রধান ইউরোপীয় ও দেশীয় ঔষধ বিক্রেতাগণও এই ঔষধ বিক্রয় করিয়া থাকেন। উপরোক্ত হার ছাড়া চারি ঔন্স টিনের ' আট ঔন্স টিনের । ও এক পৌণ্ড টিনের ৮ ডাক মাশুল দিতে হইবে।

PURE SULPHATE OF QUININE

Manufactured at the Bengal Government Cinchona Plantation

The price of this Quinine is as follows —

1 Pound tin, R16 or, post free, R16 12
½ „ R 8, „ R 8 8
¼ , R 4, „ R 4-8

Analysis shows this Quinine to be of the purest manufacture, and it is guaranteed to be free from wilful mixture with the inferior alkaloids Cinchonine and Cinchonidine It is for sale only to Government officers and only for cash, and may be had from the Superintendent, Botanic Garden, Seebpore, near Calcutta It can be had either white or coloured pink

বঙ্গদেশের গবর্ণমেণ্টের সিন্‌কোনা আবাদে প্রস্তুত বিশুদ্ধ কুইনাইন ।

এই কুইনাইনের নিম্নলিখিত মূল্য যথা—

১ এক পৌণ্ড টিন ১৬ বা ডাকমাশুল বিনা ১৬৸
। আধ „ ৮ বা ডাকমাশুল বিনা ৮।
সিকি ৪ বা ডাকমাশুল বিনা ৪।

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধরূপে প্রস্তুত করা হইয়াছে। এবং ইহা যে সিন্‌কোনাইন ও সিনকোনী ডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছা পূর্ব্বক মিশান হয় নাই তাহার গারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারিগণের নিকট বিক্রয় করা যাইবে এবং কলিকাতার নিকটস্থ শিবপুরের কোম্পানির বাগানের সুপারিণ্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারিবে। ইহা সাদা বা পাটল বর্ণের পাওয়া যাইতে পারি॰ ॰

THE INDIAN LAW REPORTS

REVENUE DEPARTMENT.

[*Revised Advertisement*]

A Dictionary of the Economic Products of India.

BY DR GEO. WATT, C.I.E.,

Reporter on Economic Products

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first five volumes and Volume VI, Parts I and II, of the Dictionary are now ready at the Office of Superintendent of Government Printing, No. 8 Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is R45 in India, and 3 guineas in England (exclusive of the Index for which a separate charge will be made) packing and postage in India, 8 annas per volume; for England, 2 rupees 6 annas per volume For copies bound in half calf or half morocco, R6 and 8 shillings respectively will be charged extra for the whole set

The Dictionary is intended to deal with the products of India—animal vegetable and mineral; each product being treated after a uniform plan the paragraphs of which give the scientific vernacular and European names, habitat or source history, properties and uses (both chemical and industrial) trade statistics markets, etc. The work is arranged alphabetically according to scientific nomenclature but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks and with a reference to the original publication Numerous contributors have however, furnished the results of new discoveries and confirmed the vernacular names so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries

Volume I contains the letters A and B and consists of 559 royal octavo pages Volume II embraces the letter C in 689 pages Volume III contains the letters D E F and half of G Volume IV, latter half of G to middle of L and Volume V contains the latter half of L to end of O Vol VI (which will consist of four parts) Part I contains letters P to R The whole work will it is expected be completed in nine volumes (including Parts II to IV of Vol VI) during the current year but a tenth volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary The Index will practically be a glossary of the vernacular and European names of the plants animals, and minerals of India and as such will be a work of reference which it is hoped may prove of considerable value

Technical Art Series published up to 1892 together with their explanatory Text—
1886 87 6 Plates with Text R1 8 a set (4a)
1888 89 18 Plates with Text R4 8 a set (8a)

FIELD OPERATIONS

BURMA

No 733—The Most Hon'ble the Viceroy and Governor General of India in Council is pleased to direct the publication of the subjoined correspondence, including a letter from the Adjutant General in India, submitting, under the orders of the Commander in Chief in India, despatches received from the Commander in Chief of the Madras Army and the General Officer commanding the Burma district describing the operations carried out in the Northern Chin Hills during the cold season of 1892 93

No 2448 B—*Field Operations—Burma*—dated 27th July 1893

From—The Secretary to the Government of India Military Department

To—The Adjutant General in India

I am directed to acknowledge the receipt of your letter No 4052 A dated the 1st instant, forwarding, for submission to the Government of India, Brigadier General Palmer s despatch describing his operations in the Northern Chin Hills during the cold season of 1892 93

2 In reply, I am to state, for the information of the Commander in Chief, that the Government of India concur in the opinion expressed by His Excellency as to the satisfactory result of these operations the vigorous manner in which they were conducted by Brigadier General Palmer, and the excellent conduct of the troops employed

3 The despatch will be published in an early Gazette

No 4052 A—*Field Operations—Burma*—dated Simla the 1st July 1893

From—MAJOR GENERAL W GALBRAITH C B Adjutant General in India

To—The Secretary to the Government of India Military Department

I have the honor by direction of the Commander in Chief, to submit, for the information of Government and publication in the *Gazette of India*, the accompanying despatch* from Brigadier General A P Palmer, C B commanding the Myingyan district, descriptive of the operations carried out under his direction in the Chin Hills during the cold season of 1892 93

* No 218 R dated 27th March 1893 with return of casualties and skeleton map

2 The service on which the troops were engaged entailed considerable loss and was extremely trying and laborious, but toils and hardships were encountered in an admirable spirit, and the recalcitrant tribes were reduced to a state of subjugation never before attained, as evinced by the surrender of 1,656 firearms up to the 16th June with a prospect of further disarmament before the close of the year

3 His Excellency attributes these gratifying results to the vigorous conduct of operations by Brigadier General Palmer and the untiring energy and perseverance of all ranks under his command, which allowed the Chins no rest but incessantly harassed and dispersed them until they were driven to tender submission

No 2437 W *Field Operations—Burma*—dated Ootacamund the 2nd June 1893

From—MAJOR GENERAL R C STEWART C B Provisional Commander in Chief Madras Army

To The Adjutant General in India

I have the honor to forward herewith letter No 747 A, dated the 21st April 1893, with enclosures, from the General Officer commanding the Burma district, submitting a report by Brigadier General A F Palmer, C B of the operations on the Chin Hills during the season 1892 93, together with letter No 2188 C, enclosing a list of officers considered specially deserving of reward for good service rendered during the late operations

No 747 A dated Rangoon the 21st April 1893

From—MAJOR GENERAL R C STEWART C B commanding the Burma district

To—The Adjutant General Madras Army

I have the honor to forward a report by Brigadier General A P Palmer, C B, of the operations on the Chin Hills during the season 1892 93

2 Brigadier General Palmer's report relates the circumstances under which the outbreak of the Siyins originated and the progress of the operations, and it is with as much pride as satisfaction that I now express my great appreciation of the gallantry of the troops

3 It will be seen that the casualties have been exceptionally severe, and no operations can be carried on in the Chin country without excessive hardships I trust, therefore, that I may with confidence anticipate an expression of satisfaction from higher authority on the conduct of the troops

4 I shall in another letter submit Brigadier General Palmer's recommendations for rewards to officers and others who have distinguished themselves, and it only remains for me to express my great satisfaction with the manner in which these operations have been conducted by Brigadier General Palmer He at once appreciated the importance of occupying the vantage points of the tract in rebellion, and the result has been the submission of the tribes and the taking of 1 080* guns, which more than doubled the number originally estimated under the most sanguine computations I have also to thank Brigadier General Palmer not only for his admirable conduct of the operations, but for his thoughtful care of the soldiers under him, and for the personal supervision by which he maintained all subsidiary departments in a state of energy and efficiency

* 1 158 guns up to 19th April

No 218 R —'*Field Operations—Chin Hills* —dated Fort White the 27th March 1893

From—BRIGADIER GENERAL A P PALMER C B commanding the Myingyan district

To—The Assistant Adjutant General Burma District

I have the honor to submit the following report of the late field operations in the Chin Hills

2 It will be remembered that at the close of last open season it was necessary to withdraw our troops from Botong a post in the Nwengal country on the west of the Manipur river which had been temporarily established until the column sent in May 1892 from these hills under Captain Rose had joined hands with the troops then operating in the Lushai hills

3 Botong post had been attacked by men from seven Nwengal villages and it was very desirable that the withdrawal immediately after these attacks should not have the appearance of a retreat so opportunity was taken to punish the men of Hèlê one of these Nwengal villages, who had lately committed themselves by taking the head of a Burman, and so cover the withdrawal by a punitive expedition This was effectively carried out by small columns under Captain Stevens 4th Madras Infantry (Pioneers), and Lieutenant Henegan 10th Madras Infantry (1st Burma Rifles), who moving at night marched simultaneously surprised Hèlê at daybreak on the 1st of May 1892 and inflicted some loss The withdrawal of the Botong post was then effected and not a shot was fired on our troops in their return march to Fort White instead of their having to fight an undignified rear guard action as would most undoubtedly have been the case had the withdrawal been attempted without the counter attack attendant on the punitive expedition against Hèlê

4 A few months after, however the Nwengals attempted to revenge themselves by crossing to the east of the Manipur river and committing a series of attacks and some murders on the Fort White line of communication

5 The Nwengals had always paid a nominal tribute to the Tashons another tribe, whose territory is continuous with theirs and the Siyins on the south Fort White is in the Siyin country The Political Officer in the Chin Hills accordingly called on the Tashons to apprehend the Nwengal offenders or admit their inability to do so The Tashons during August were able to prevent the Nwengals from committing crimes, but in September admitted themselves to be powerless in the matter so the Political Officer then arranged that the Nwengals should no longer be administered through the Tashons, but by the Assistant Political Officer at Fort White, informing the Nwengals that they should be punished by a fine in firearms unless certain outlaws and murderers were surrendered

Mr Carey, Political Officer in the Chin Hills, is of opinion that orders having been with the sanction of the local Government, about this time issued forbidding Chins to appear with firearms within five miles of a military post and within a mile of the lines of communication were construed into a belief by the Nwengals and Siyins that this action was only preliminary to a general disarmament, and that the Nwengals then decided to fight for their fire arms, prevailing on the Siyins to rise and do the same The real cause of the Siyin rebellion will doubtless eventually be disclosed At any rate on the 9th October the whole tribe rose, fired into our posts, attacking Tiddim and burning buildings close to the stockade and ambushed the escort of the *Myook* (native magistrate) Maung Tun Win near the village of Pombar, seven miles west of Fort White, killing the *Myook*, his clerk, interpreter, peon, and seven sepoys, and wounding seven more sepoys The wounded were saved from being carried off and mutilated (according to the usual Chin custom) by the gallant conduct of the remaining 16 sepoys of the escort under Havildar Harak Sing Gurung 10th Madras Infantry (1st Burma Rifles) who has been recommended for the Order of Merit From recent information it appears that some 2,000 Chins were on the spot

The attack was a treacherous one as up to that date the Siyins had posed as our faithful subjects, some taking service as civil police men Moreover the *Myook* was proceeding to meet and accept the formal submission of a Nwengal chief at the latter's invitation

6 The news of this outrage and general rebellion of the Siyins spread over the Chin Hills, north and south and prompt measures on our part were imperative as at a time of such local excitement there could be no certainty of the attitude of the other Chin tribes

Reinforcements were accordingly rapidly pushed up to Fort White and two guns of No 7 Mountain Battery, Royal Artillery, from Mandalay, 200 rifles of the 1st Battalion Norfolk Regiment from Rangoon 100 rifles of the 39th (Garhwal) Bengal Infantry from South Chin, and 100 rifles of the 10th Madras Infantry from their depôt in the Mandalay District arrived between the 17th and end of October

Before the end of December every Siyin village whose inhabitants had not begged for peace in response to our proclamation was visited in succession by punitive columns Five of these villages were burned by the Chins themselves, and evacuated just before our troops arrived within striking distance

Grasscutters had to go out daily with an escort to about a mile south of Fort White On the 10th of November they were ambuscaded by the Chins who, on reinforcements being sent out from Fort White were driven off and pursued suffering considerable loss

On the 17th November a village in the Kalè valley was successfully raided by the Chins

The following is a *precis* of the work done by the punitive columns alluded to above

Yon, 19th and 20th October 1892—One hundred rifles under Lieutenant Henegan 10th Madras Infantry Village found burned by the Chins and deserted

Dimlo and Shwimpi, 3rd to 7th November 1892—One gun of No 7 Mountain Battery and 166 rifles under Captain Presgrave, 10th Madras Infantry Both villages destroyed Column ambuscaded by Chins on return march One native soldier killed and the Subadar Major of the 10th Madras Infantry severely wounded

Htanwi, 10th October 189—.—One hundred and thirty five rifles under Lieutenant Henegan, 10th Madras Infantry. Village burned. Chins fired on column going and returning. No casualties; only one Chin seen to drop from our fire; another afterwards reported killed.

Tompa, 12th November 1892.—One hundred and forty rifles under Captain Caulfeild, 10th Madras Infantry. Reconnoitred and returned.

Pimpi, 15th to 20th November 1892.—One gun of No. 7 Mountain Battery and 250 rifles under Captain Presgrave, 10th Madras Infantry. Chins burned their two villages on approach of column, and fired volleys into camp while column remained; one native soldier severely wounded from ambuscade on return march to Fort White. Chins fired into camp at Kennedy Peak at night, but were dispersed by a party of Gurkhas who, creeping round, fired into them at 30 yards.

Montok, 24th November to 3rd December 1892.—Two hundred rifles under Captain Caulfeild, 10th Madras Infantry. The village of Lanva *en route* found burned by Chins. Village occupied. Chins fired into camp at night but were driven off by piquets; one follower wounded. From the 25th to the 27th police from Kale valley co-operated. Another village found burned by Chins. Column returned by Kalemyo, 28th. Rear guard being fired into; dispersed Chins.

Aishwin, 3rd December 1892.—One hundred and fifty rifles under Captain Beale, 1st Battalion, Norfolk Regiment. Pumet village fired into small bodies of Chins at from 200 to 250 yards; rear guard harassed on return march; no casualties; some Chins seen to fall.

Tinbo, 11th to 13th December 189—.—One hundred and seventy five rifles under Captain Presgrave, 10th Madras Infantry. Village seen burning, was rushed with fixed bayonets, a volley having been received from it at 100 yards. Attempts made to ambuscade Chins by leaving party concealed in village and other "Naga parties" (ambuscades) laid out by us were unsuccessful. At night Chins fired into camp at 150 yards, and were driven off by piquet. The following day there were several skirmishes; one soldier of the 1st Norfolk Regiment slightly wounded and one follower mortally. In rushing an ambuscade the rear guard (Garhwal Rifles), after killing three Chins, had one havildar and one sepoy slightly wounded from a flanking ambuscade.

The return march was unmolested after flankers had cleared away an ambuscading party.

Mr Carey, Political Officer, Chin Hills, or Mr Tuck, Assistant Political Officer (sometimes both) accompanied each of these punitive columns, which it was necessary to send against the villages whose inhabitants were hostile.

7. At the end of November when I arrived at Fort White, it had become evident from the demeanour of the Chins that something more than small punitive columns was necessary to reduce the Siyin tribe to submission, and that for this purpose new posts must be established at the chief centres of cultivation, from which the troops could act all round to a convenient distance, and carry on a constant guerilla warfare against the Chins without a wearisome march each time to Fort White, and in many instances having to fight a rear guard action back, almost invariably harassed and ambuscaded, when much exhausted after the real hard day's work that such marches entail in these rugged hills, as although the actual distances traversed were never excessive the steep *khuds* and Chin paths rendered each expedition a severe trial on the men's marching powers.

For these new posts reinforcements to the extent of at least 750 rifles and additional transport were necessary, and were on my representation most promptly afforded from other districts by Major General R. C. Stewart, C.B., commanding in Burma.

8. During December as the reinforcements arrived three posts of from 125 to 200 rifles each were established at Phunum Kholai, Pimpi, and Montôk respectively.

A considerable portion of the success of the operations in the North Chin Hills this season is due to the manner in which the officers in these independent commands performed the difficult duties entrusted to them, and which in many ways tried the nerve, discipline, and other qualities of the troops very highly, as not only in some instances had they to endure being fired into all night, but the Chins especially round Pimpi showed themselves such adepts at ambuscading that it was only by a mixture of great precaution combined with dash that the whole country was eventually cleared.

The same remarks apply to Lieutenant Wardell's operations at and near Phunum Kholai, where the Chins were outmanœuvred at their own guerilla warfare, and successfully ambuscaded.

Captain Taylor, 30th Madras Infantry, commanding the Montok Post, also by his activity effectively cleared that portion of the country of Chins and prevented others settling in the vicinity.

The following is a *précis* of the work of these posts in the Siyin country, north-east, south-east, and west of Fort White.

Phunum Kholai (west of Fort White).—One hundred rifles of the 39th (Garhwal) Bengal Infantry under Lieutenant Wardell established 16th December 1892, increased to 125 rifles on 27th December 1892, withdrawn 31st January 1893. Slight opposition encountered on march from Fort White; one man wounded in occupation of post, which was stockaded so as to be defensible by 50 men while remainder were available to work the surrounding country. One man killed 18th. On the 19th of December 1892 ambuscaded Chins, killing and wounding six. On 23rd December 1892 searched Phunum ravine; one man wounded by a log hurled from precipice above.

From 26th to 31st December 1892, under orders from the General Officer commanding, men were employed day and night in ambuscading paths leading from Montok south-east where another new post was being established; reconnoitring parties were pushed south, and a ravine below Kholai post cleared of Chins from Pombar who had been hiding there.

During the first week in January 1893 a systematic search was carried out of all ravines,

sites of demolished villages, and cultivated areas, ambuscades being put out at night to prevent return of Chins

From 16th to 23rd January 1893 having, in reconnoitring, discovered that the Chins from Phunum to Dimpi escaped north in the direction of Dimlo devoted energy to driving all Chins in same direction from vicinity of post and on 25th, having arranged for a party to co operate from the Dimlo post and another from the Tiddim post a very successful little affair came off at and near Dimlo village in a large ravine below Dimlo Post the Chins, getting between two fires had some casualties and other losses On the 27th the large ravine near Shwimpi was searched and cleared

On the 28th a night march was made to prevent Chins returning to cultivations near Dimpi and next night the same steps were taken as regards Phunum cultivations On 31st, under orders from the General Officer Commanding, Lieutenant Wardell burned his stockade and returned to Fort White preparatory to his rejoining the head quarters of the 30th Bengal Infantry, which was moving from South Chin, via Kalewa to Rangoon en route to India Lieutenant Wardell brings to notice the names of Subadar Futteh Chand two havildars, one naik, and four men who distinguished themselves I am making a special recommendation on the part of the subadar whom I consider deserving of high reward

Pimpi Post (north east of Fort White) — One hundred and fifty rifles of the 31st Madras Infantry (6th Burma battalion), under Captain Keary D S O, established 21 December 1892 increased to 200 rifles 29th December 1892 One hundred rifles withdrawn leaving 100 under Lieutenant Murray at post 29th January 1893

On first occupying Pimpi Captain Keary's detachment had six casualties—namely three native soldiers killed and one British officer (Lieutenant Geoghegan) and two native soldiers wounded The Chins of this part of the country have proved the most determined and recalcitrant of the Siyin tribe, and were fully persuaded that they could drive this party away and prevent a post being established in their midst The troops had to lie in shelter trenches all the first two nights as a fire was kept up in the camp till daylight the Chins shouting threats of extermination

The latter had commenced blocking with felled trees and carefully constructed ambuscades all the paths leading in different directions from the post and the work and difficulties of the detachment proved so trying and arduous that I reinforced it with 50 rifles as I was apprehensive that the battalion, having only lately arrived from Burma, might suffer in *morale* from the incessant ambuscading to which they were subjected unless the strength of the post was augmented

By perpetually attacking in every direction and laying out ambuscading parties of his own, Captain Keary, whose energy and soldierlike qualities are most commendable so cleared the whole of that part of the country that by the end of January I was able to reduce the post to 100 rifles, who remained to prevent the Chins returning to their extensive cultivations, while Captain Keary proceeded with 100 rifles and 50 more withdrawn from No 3 Post on the line of communication to work the country between Fort White and the Manipur river in order to accelerate the compliance with our terms of the chiefs in that direction who showed signs of procrastination in order to tide over the time when they could sow for next season's crops

The post at Pimpi expended 3,400 rounds of ammunition In the thick bush but few men could actually be seen to fall, but from shrieks heard after our volleys and pools of blood found the inference is that the Chins suffered severely Captain Keary brings to notice the gallant conduct of Jemadar Bahadur Khan who has been recommended for the Order of Merit also one lance naik and one sepoy

Montor Post (south east of Fort White) — Established 26th December 1892 150 rifles of the 30th Madras Infantry (5th Burma battalion) under Lieutenant (now Captain) H N Taylor

Mr Carey, Political Officer guided the column for this post from Kalemyo Captain Parker, Intelligence Officer accompanying The post was fired into daily and nightly while it was being stockaded but the fire of picquets kept the Chins at a distance

Daily patrols and reconnoitring parties were sent out, being always fired on and sometimes ambushed Ambuscades from the post were laid out, and, owing to unceasing activity on the part of the troops under Captain Taylor and Lieutenant Drage, 30th Madras Infantry, the Chins were driven southwards off their cultivations which had been considerable in the vicinity of the post

On the 24th January 1893 two small columns moved against the Chins starting at 2 A M failed to surprise the enemy but cleared them off further south after some brisk firing on both sides, with the loss of two sepoys wounded The Chins are believed to have suffered From the 1st February to the 4th February 1893 acted against Chins to south east being co operated with by military police under Lieutenant N C McCrea accompanied by Mr Porter Deputy Commissioner, Kindat, and 30 men of the 31st Madras Infantry from the Kalè valley Chins fled further south after sharp fight one sepoy wounded Destroyed new villages and Chins kept off cultivation Continued to patrol country to south and cleared away Chins who now seemed to have lost heart The assistance rendered by the military police has been acknowledged by the General Officer Commanding

Captain Taylor brings to notice the good services of Jemadar Jwala Singh 30th Madras Infantry

9 From the middle of October to the end of November telegraphic communication between Fort White and Kalemyo in the Kalè valley, the first post in the Chin Hills command had been constantly interrupted, the Chins as in 1888 89, sometimes carrying away some miles of wire to make bullets convoys and escorts on the line of communication were constantly fired into and casualties sustained

At the suggestion of Major General Stewart, the undergrowth was cleared by the 21st Madras Infantry (Pioneers) to within fifty yards of the road on the line of communication and

ambuscades having been laid out at night by the troops from Fort White and No 3 Post, and a fourth post established six miles east of Fort White, telegraphic communication was restored on the 3rd December which has since been maintained except for sixteen hours on the 25th January and thirty three hours on the 30th and 31st idem The telegraph line which had also been taken down between Fort White and Tiddim is now in course of reconstruction, and will be completed about the 15th proximo

10 By the 2nd January 1893 the new posts above referred to having been established in the Siyin country and rationed up to the end of the month, I was able to start from Fort White, with a force as per margin to operate against the Nwengal tribe west of the Manipur river our objective being Kaptial the chief town of the tribe and the home of Iwemtung, the chief implicated in the murder of the *Myook* (see *ante*) and who has been most prominent in inciting his own and the Siyin tribe to revolt

2 guns No 7 Mountain Battery under Lieutenant I E Marshall R A
100 rifles 1st Norfolk Regiment under Captain B le
30 men No 4 Company Madras Sappers under Lieutenant G A F Sanders
200 rifle 10th Madras Infantry under Captain Presgrave

We carried fifteen days rations, and fifteen days' more supplies as a reserve had been collected at Tiddim post, which is only one march from the Manipur river The force which marched in two columns had only one casualty before reaching the river bank

11 The villages of Chinwe and Sayin belonging to the Sokt tribe, which had not responded to our proclamation in October, lay in our path We surprised the inhabitants, and being in position on the heights above could easily have shot them down with artillery and rifle fire at 800 and 300 yards I decided, however, to spare them and leave them to be dealt with hereafter by the political officers, as it was undesirable to have declared enemies on our line of communication They were thereby committed to our cause, and were afterwards most useful

12 After reconnoitring for the most favourable point to cross the Manipur river so as to strike direct at Kaptial a point was chosen which besides having the advantage of being a salient, was so placed that it would be difficult for the Chins on the opposite heights to depress sufficiently to harm with their fire our troops when crossing

13 On the 7th January both columns concentrated on a plateau 1,000 feet above the river and 1,000 yards from the opposite heights, and the sappers and pioneers were pushed down to the bank to improvise a means of crossing

A pioneer, who gallantly swam across and stretched a rope to the west bank which was in possession of the Chins, and a havildar of the 10th Madras Infantry, have been recommended for the Order of Merit but the river proved to be so rapid and deep, though less than 250 feet in width that with the means available a bridge could not be thrown across a raft was therefore the only means of reaching the opposite shore, but on cutting down timber it was found to be so wanting in buoyancy that it was useless however, in anticipation of such a difficulty, a raft had been put together at Tiddim post composed of empty rum kegs and this when brought out and covered with a light scantling enabled the force to be got over, nine men at a time

It was not in working order till the 11th January and the troops being told off into reliefs to haul it backwards and forwards, everything, including guns, ammunition gear baggage, and rations reached the west bank by the morning of the 14th All hands worked with a will unremittingly night and day as it was realized that it was the only means of getting at the Chins The mules swam across

14 The crossing was opposed by the Chins the Siyins having crossed lower down stream to join the Nwengals and a constant fusilade was kept up on the 9th and 10th accompanied by much shouting and beating of gongs twenty seven Chin picquet fires being visible from our bivouac but though their shots struck the water close to the raft and struck the trees above the shore bivouac the Chins were unable to depress sufficiently to do damage and their fire was kept down a good deal by shrapnel and rifle fire at 1 000 yards from the bivouac on the plateau above while attempts to cut the rope across the river were frustrated by volleys at 100 yards from the shore bivouac, though they pluckily, notwithstanding fire at such close quarters succeeded in cutting one strand

15 The 10th Madras Infantry were pushed across on the 11th January and occupied a spur on the west bank and simultaneously a well directed shrapnel fire at 1 500 yards from the plateau before mentioned drove back a body of Chins who had collected above on the western heights

16 After this the crossing was not further opposed, and by the morning of the 14th, the troops being all across the river, we marched on Kaptial Considerable importance was attached to the fall of this place and the Nwengals had given out that they would make their final stand there but on the force arriving near the town, it was found in ashes and deserted

The direct approach was through jungle it was defended by a trench 4½ feet deep and 8 feet wide running into ravines on either side Each house and street was stockaded with thick planks 12 feet high, and there were many excavated rifle proof defensible posts, so, had it been obstinately held, it could only have been taken by assault with heavy loss, as it covered many acres of ground, and even with artillery and rifle fire would have been difficult to render untenable

17 The Chin paths by which the force had had to march were so broken and precipitous even where the worst places on the edges of cliffs were improved by the pioneers, and the gradients were so steep that 30 mules fell over the khuds, of which two battery mules and six transport mules were killed, and one sepoy of the 10th Madras Infantry was killed by a stone displaced by a mule

18 The Chins having disappeared from Kaptial, it became necessary, not only to send out columns to hunt them up but to attack certain large villages, whose inhabitants were known to have been either implicated in the outrage of the 9th of October, or to have assisted the Siyins, and fired into posts on our line of communication Columns were accordingly sent out from Kaptial between the 15th and 27th January and the country north and south and as far west as the Imbok ling range ([illegible]300 feet), was searched and the Chins driven further afield into the woods and jungles, my object being in this as on the east side of the river, to give them no rest till they submitted to our terms The only column that encountered any serious opposition was one under Captain Presgrave 10th Madras Infantry (accompanied by Messrs Tuck and Fowler, Assistant Political Officers) which proceeded southwards on the 17th January and returned on the 22nd having occupied Hele and also dealt with the Nwengal villages of Shwungzan and Shwimpi in the same direction

Strength

10th Madras Infantry 0[illegible]
21st Madras Infantry 20

Before reaching Hele on the 18th January, it became clear that the Chins intended to dispute the advance by holding a stockaded position some 1,000 yards in length and a wood on the left of the road taken by the column The stockades, composed of wood and stone loopholed were erected on high ground commanding the line of advance but Captain Presgrave, by his disposition succeeded in turning the position and broke and searched the stockades by artillery fire, followed by a direct attack The Chins, who had held on to their line of defence were obliged to abandon it the wood on the left of the advance being also cleared by volleys and shrapnel They had meantime attacked the column in rear, but were repulsed by the rear guard

The troops then marched against Hèlè in two parties, having previously shelled it at 2,000 yards to prevent its being fired by the Chins themselves

Shortly after advancing, the detachment of the Norfolk Regiment, under Captain Beale, who had proceeded by a spur to the left became engaged with the enemy occupying a hill The Chins were driven off by a cross fire, and the advanced guard, having been fired on from its right and left fronts simultaneously, they were again cleared away by a combined movement of the different detachments, all of whom were engaged including the 21st Madras Infantry (Pioneers) under Lieutenant Hendley

The whole affair was carried through with considerable spirit, and reflects credit on Captain Presgrave and the troops engaged

19 On the 27th January, leaving Captain Caulfeild 10th Madras Infantry with 200 men of his regiment and 50 of the 30th Madras Infantry at Kaptial to complete the subjugation of the Nwengal tribe and those who had harboured delinquents, I returned to the east of the Manipur river with the guns, the detachment of the Norfolk Regiment, and 50 of the 30th Madras Infantry The river, having slightly fallen, had in the meantime been bridged by the Madras Sappers under Lieutenant Sanders, Royal Engineers a cleverly constructed cantilever bridge partially suspended on twisted telegraph wire and rope having been thrown across

20 The effect of the late operations and of the good work done by the posts that had been established in the Siyin country was to produce a cessation of hostilities on the part of the Chins and a commencement of compliance with our terms by a gradual surrender of their much prized firearms but it soon became evident that their object, by surrendering a few at a time was to procrastinate till the time for sowing had passed, when, having got their seed in the ground they would not be so much at our mercy for their future necessaries of life Active operations had therefore to be continued to prevent this and hasten an unconditional surrender so the following arrangements were made

From 3rd February to 7th February 1893 a column of 110 rifles revisited Laibon east of the Fort White Tiddim road, clearing away the Chins, who had returned to settle

On the 4th March 1893 a post of 150 rifles, under Captain Keary D S O 31st Madras Infantry was established at Lombai between Fort White and the Manipur river and from the 8th to 10th was co operated with by [illegible] rifles under Captain Murray 10th Madras Infantry, who were sent for the purpose north from Fort White to Wunkathe these two columns drove the Chins of Lombai off a new settlement and hunted them through the ravines capturing nine Chins

21 It now seemed desirable to adopt coercive measures to a certain extent against the 'Friendlies' as it was well known that, if they chose to exert their influence over the recalcitrant in the vicinity the latter would speedily come to terms so posts were established as follows

13th February 1893 —One gun [illegible] rifles, at Sagyilaing under Captain Keary D S O, 31st Madras Infantry

15th February 1893 —Seventy five rifles, under Lieutenant Parnell 31st Madras Infantry, at Vokla

16th February 1893 —One gun [illegible]00 rifles, under Captain Murray, 10th Madras Infantry, at Wunkathe

The Shwimpi ravine was also searched on 18th February 1893 by 50 rifles under Lieutenant Sutton 10th Madras Infantry, from Tiddim Karmlung the Chief of Pombar, was arrested on the 23rd February, and the Political Officer on the 8th March called a meeting of these so called 'Friendlies" at Old Fort White ' (near where the *Myook* and others were murdered last October) and explained why they were being punished, definitely fixing their fines

in firearms These terms were at once imposed the troops remaining near their villages and preventing cultivation till our demands were complied with This action has had the best effect and the surrender of firearms which had begun to drop off thereby received the necessary impetus and on the 23rd March Dolyin the outlaw Chief of Taitin, was, on the information of the inhabitants of Sagyilaing (one of the friendly villages) arrested in one of their houses, which had been surrounded by a party of the 31st Madras Infantry He will probably be transported for life

22 There still remained to be dealt with the inhabitants of Pimpi who had been driven north in January by Captain Keary's post, and who were known to have collected and to have formed a settlement at Angno which they believed to be out of striking distance, and where they had been joined by malcontents and fugitives who had escaped from Montok Thunum, Kholai, Tanwe, and Shwimpi the villages south and west that we have punished It was important to strike one last blow at this collection and finally break up the gathering A column under Captain Presgrave 10th Madras Infantry, consisting of 200 rifles (detachments of all corps) 30 sappers and a mountain gun accordingly moved from Fort White on the 12th March and surprised this new settlement on the 14th idem scattering those collected there in all directions with a loss on our side of only one soldier of the Norfolk Regiment slightly wounded The approach for the last few miles was much hampered and delayed by numerous felled trees Up to the 19th March the country was scoured in all directions 200 military police under Lieutenant H. G. Maxwell having joined the column from Kanji in the Kalè valley on the 16th The police losses were one sepoy and one follower killed A post of 100 rifles under Captain Taylor, 30th Madras Infantry was left in occupation at Angno to continue the pursuit and prevent the Chins returning to this settlement, the remainder of the troops and the police returning on the 20th to their respective posts

23 Meantime the post of 250 rifles, under Captain Caulfeild 10th Madras Infantry that had remained west of the Manipur river since the return of the force from Kaptial on the 27th January, had not only thoroughly worked the Nwengal country, but had crossed further westwards across the Lbubklang range (over 8,000 feet) to deal with certain villages of the Whenhow tribe, which had harboured outlaws and fugitives from Kaptial punishing them by inflicting fines in firearms The resistance met with was slight, and we had but few casualties The northern villages of the Nwengal country were also disarmed, and it being found that the inhabitants of Helè whom Captain Presgrave's force had defeated, as described in paragraph 18 had formed a new settlement, they were again attacked twice and broken up Refugees from Kaptial were also searched for and discovered in a place of concealment near the top of the range The troops west of the Manipur river have been rationed to the 15th May to enable them to finish the work before the rains commence

24 The *precis* of the work done by the posts established in the Northern Chin Hills this season and by the many punitive columns gives but a bald account of the real hard work and the constant risks from a concealed enemy that fell to the lot of the troops and which, I trust, will receive due recognition

25 In most field operations there are some engagements followed by more or less long rests but it will be seen from the above that, in order to reduce such an active and restless enemy as the Chins to submission, our troops were incessantly on the move, the men sometimes not getting two nights in bed and on one particular day seven columns were acting, besides two convoys moving and the force from the west of the Manipur river on their return march but to have carried through what it was necessary to accomplish without putting a heavy strain on all employed would have necessitated trebling the strength of the force in the field

The rationing of 2,700 men in the Northern Chin Hills (including the reinforcements suddenly thrown in) sufficiently tried the capacity of the Commissariat Transport Department so it was necessary to do as much as possible with the number that could be moved and fed

26 Considering the great change in climate from the plains of Burma to these hills, where without tents operations had to be carried on at an elevation of from 4,000 to 8,000 feet above sea level in the depth of winter in all weathers, the health of the troops has been very good In a march of thirteen miles, continuing a rise of 6,000 feet in six miles not a man of a detachment of the 1st Norfolk Regiment fell out, although nearly ten hours under arms and out of a party of the same regiment that, to surprise the Chins, had to spend a night in a downpour of rain on the hillside in January with only waterproof sheets and great coats and carrying their own rations for two days only one man went into hospital

27 In the opinion of the Political Officer in the Chin Hills, who possesses a very intimate knowledge of the feelings of the people, the effect of the late operations, which he describes ' as far 'exceeding anything that he had anticipated,' has been that "no combination of the tribes to ' resist in future can now be expected and that ' the enemy's casualties have been far heavier "than reported that the Siyins never owned ' themselves beaten before but that they do so now and the people that were scattered in 'hamlets are now being collected into large 'villages right under the posts, the hire of 'carriers has been halved that the Lashons 'fear us now that they see the Siyins the best "fighting clan in the hills have had to give up their arms for peace The outlaws will be picked up gradually, but some half dozen will ' escape north, but will not be in a position to do more damage than an occasional murder "or theft and I look on their capture through 'native agency as inevitable

It is probable that, as in the north west frontier of India, outlaws and others may for some time indulge in shots at individuals or on convoys and in occasional raids but this need not be looked on as an act of a tribe or community as such latter by the deprivation of their firearms and by the other steps that have been taken, have been rendered powerless for harm or combination

28 The Chins have now quite lost heart and are surrendering on all sides to our demands.

Some of the chiefs are in irons in Fort White, and others will before long join them. Hostages for future behaviour are being given up, and the full number of firearms assessed is a fitting punishment are either in our hands or their number, according to the Political Officer, "is insured." Over 1,000 have been given up.

It is desirable, however, to take advantage of the remaining few weeks of the open season to hunt up outlaws, punish those who have harboured them, and collect the remaining firearms from those who have been reduced to submission. For this purpose it will be necessary for the detachments of the 30th and 31st Madras Infantry to remain till the early part of May in the Northern Chin Hills.

Yesterday the section of No. 7 Mountain Battery and 100 of the 1st Battalion Norfolk Regiment, marched for the South Chin Hills and will return to their respective stations by the end of April after moving through the Tashon and Haka country where their presence will have a good effect on those tribes and disabuse them of any idea that we have had our hands full in dealing with their northern neighbours. It is also desirable to bring the further western Tlangtlang to their bearings for having harboured Tlalvè, a proclaimed outlaw, and failed to pay a fine of guns inflicted on them for their attack on a column under Lieutenant Mocatta last season.

Resistance is not expected as the demeanour of the people is described as "sullen but not hostile," and it is expected that a show of force will bring about the desired result. The column is commanded by Captain Beale, 1st Norfolk Regiment, and will be augmented by 50 rifles of the 12th Madras Infantry and 25 of the 21st Madras Infantry from Haka and Falam.

29. The breaking up of the force that has been operating under my command in the North Chin Hills for the last four months having commenced, I must before returning to the plains, record the names of those to whom I have been so much indebted for the success of the operations.

Return of Officers mentioned.

(1) Major R. M. Greenfield, Royal Inniskilling Fusiliers, Assistant Adjutant General, Myingyan district, as Chief Staff Officer, has been of the greatest assistance in the operations in the Chin Hills this season, and has untiringly devoted himself to the discharge of his responsible duties which he has performed with much tact and ability.

Staff.

(2) Lieutenant H. O. Parr, 7th Bengal Infantry, Orderly Officer, also officiated as Brigade Quartermaster. He was ever ready, keen, and active in the discharge of all duties, and was of much assistance in the Staff Office when "on column."

(3) Captain G. F. Watson, Indian Staff Corps, Chief Commissariat Officer of the Myingyan district, has by his foresight, capacity for work, and devotion to the very arduous duties devolving on him contributed much to the successful carrying through of the operations, which were a heavy strain on the Commissariat Transport Department.

(4) Captain R. F. C. Baker, 1st Norfolk Regiment, Intelligence Officer. His work will doubtless be recognized departmentally. He also rendered much assistance as officiating Superintendent of Signalling in the earlier part of the season's operations for on signalling the force was dependent for the transmission of all intelligence between the numerous posts and our base, and the work performed was most valuable.

(5) Lieutenant F. L. Marshall, commanding a section of No. 7 Mountain Battery, proved himself a very capable officer of mountain artillery on service.

Royal Artillery.

(6) Captain H. Y. Beale, 1st Norfolk Regiment, exercised with ability the command of his detachment, and on the occasions when he commanded punitive columns proved himself to be a reliable officer in difficult situations. At the conclusion of the operations in the Northern Chin Hills he proceeded to the Southern Chin Hills in command of a punitive expedition of artillery, British and Native troops, against the Tlangtlang tribe.

1st Norfolk Regiment.

(7) Captain F. K. J. Presgrave has had great opportunities, considering his position in the service, as besides being officiating commandant of his fine battalion of Gurkhas, which always behaved brilliantly in action he commands in the Northern Chin Hills and on him as executive commander (assisted by only one staff officer, Lieutenant Pr[illegible], 10th Madras Infantry), fell the duty of carrying out all orders not only for the movements of the troops but for many details of organization in the performance of which he has shown judgment and capacity. During the greater part of November he was senior officer in the Northern Chin Hills and most of the punitive columns were either personally commanded by him or worked under his orders. His able conduct of affairs at the engagement with the Chins near Hele west of the Manipur river is detailed above.

10th Madras Infantry (the 1st Burma Rifles).

(8) Captain G. N. Caulfeild, 10th Madras Infantry, was in command in the Northern Chin Hills when the rebellion broke out last October, and displayed much nerve and judgment, when, had he not shown those invaluable qualities, affairs might have assumed a very unpleasant aspect. After the withdrawal of the head quarters of the force from the Nwengal country in January he was left in command of 250 rifles for the completion of the subjugation of that tribe. The able manner in which he accomplished this duty entitles his service to be recognized.

(9) Lieutenant J. Henegan, 10th Madras Infantry, commanded several punitive columns and could always be trusted to act independently and be equal to any emergency. The manner in which he performed his duties in command of the advanced post of Botong was brought to notice in the report of last year's operations. He possesses considerable knowledge of the North Chin tribes, and is deserving of advancement.

(10) Major G. S. Baugh commanded his battalion during the operations. The pioneers were usefully employed in counteracting the ambuscading power of the Chins by clearing the jungle on the line of communications.

21st Madras Infantry (Pioneers).

(11) Lieutenant C E Hendley commanded a detachment of the 21st Madras Infantry that accompanied the Nwengal force and by his energy and example rendered much assistance He also commanded his detachment at the crossing of the Manipur river and the action near Hèlè

30th Madras Infantry (the 5th Burma Battalion)

(12) Captain H N Taylor commanded the post of 150 rifles at Montok from the 26th December 1892 to the 10th March 1893 and afterwards the post of Angno (Pimpi) and by the measures he took for action against the Chins in the vicinity of these posts contributed considerably to the general success of the operations

31st Madras (Light) Infantry (the 6th Burma Battalion)

(13) Captain H D'U Keary D S O, commandant 31st Madras Infantry His previous experience of field service in Burma proved most valuable under difficult conditions both in command of the post at Pimpi and afterwards in the country south west of the line of communications He showed himself to be possessed of soldierlike qualities of a high order and to be worthy of advancement in the service

39th Bengal Infantry (The Garhwal Rifle Regiment)

(14) Lieutenant W H Wardell commanded a post of 125 men at Thunum Klolai for six weeks in a manner that showed that he possesses qualifications for higher command The result of his unceasing activity against some of the most troublesome of the Siyin tribe resulted in their being the first to surrender their firearms and submit to our terms

Queen's Own Madras Sappers and Miners

(15) Lieutenant G A I Sanders Royal Engineers, commanded a detachment of No 4 Company at the crossing of the Manipur river, and afterwards supervised its bridging, by which the Nwengal force was able to recross on its withdrawal

Transport

(16) Lieutenant H D Daly 32nd Madras Infantry (4th Burma Battalion) Transport Officer, Northern Chin Hills was indefatigable in the discharge of his very onerous duties He accompanied the expedition against the Nwengal tribe

(17) Lieutenant J M Camilleri, 13th Bengal Infantry, commanding the Darjeeling and Manipur Cooly Corps, is a transport officer of some experience and his successful management quite unassisted, of a large body of unruly hill men who performed most useful service, deserves the highest praise He accompanied the expedition against the Nwengal tribe

Medical

(18) Surgeon Major T R Lucas M B Army Medical Staff, as senior officer of the Medical Department in the Chin Hills, discharged his responsible duties with judgment and ability, and accompanied the Nwengal column west of the Manipur river

Veterinary Department

(19) Veterinary Lieutenant F Eassie, Army Veterinary Department, has for three successive seasons rendered good service in the veterinary supervision of transport animals in the Chin Hills, which owe much of their efficiency to his ready aid so continuously afforded, and to his professional knowledge He accompanied the Nwengal force

Political
B S Carey Esq Political Officer Chin Hills
H N Tuck Esq Assistant Political Officer Chin Hills
F O Fowler Esq Assistant Political Officer Chin Hills

(20) To the Political Officers as per margin my personal thanks are due for the cordial assistance that they have invariably afforded and the tact that they have displayed in working in such harmony with the military authorities Both the assistants have shown that they can be trusted in difficult situations and the services performed lately and on many previous occasions by Mr Carey will doubtless be fully appreciated and recognized by the local Government His nerve and sound judgment when the rebellion first broke out deserve the highest acknowledgment, and from the commencement of the punitive operations he has done the work of a dozen men His knowledge of the Chins and of their country has proved most valuable

Native Officers

39th Bengal Infantry (Garhwal Rifle Regiment)

I had intended to recommend Subadar Pathi Chand for the Order of Merit but his services entitle him, in my opinion, to the higher reward of the Order of British India

The good services of his fine young battalion for the last two years in the Chin Hills could not be more gracefully recognized than in the selection of this excellent native officer for the latter high distinction as he has proved himself to be not only an officer of high courage, but possessed of many meritorious qualities and the assistance he gave to Lieutenant Wardell when commanding the post of Thunum Klolai (the valuable service rendered by which has been noted above) well entitle him to a high reward

The services of the following native officers have been brought to favorable notice

Jemadar Ranjit Gurung 10th Madras Infantry

Jemadar Sulaiman Khan 28th Madras Infantry

Jemadar Jwala Singh, 30th Madras Infantry

Jemadar Bahadur Khan, 31st Madras (Light) Infantry (This native officer has been recommended for the Order of Merit)

Non Commissioned Officers

Sergeant Walsh Overseer 1st Grade, Public Works Department, rendered most important service by the construction of a raft by which the whole of the Nwengal force was ferried across the Manipur river in January 1893 It was due to his initiative and good work that the column was not much hampered and delayed He afterwards was of great assistance in bridging the river He appears well worthy of departmental advancement or of some other recognition of his services

I have confined myself in the above list to mentioning only the senior officers and a few others who have had the best opportunities of bringing themselves to prominent notice, but as it has been necessary to employ so many columns of various strengths, and often simultaneously, nearly all the officers in the force down to the youngest subaltern have had opportunities of exercising independent commands under fire, and have done well I only omit their names as it would make the list unacceptably long

Return of Casualties in action in the Northern Chin Hills, 1892 93

Summary —13 rank and file *killed* 1 British officer 1 Native officer 29 rank and file one follower and 3 coolies wounded

Nominal Return of Officers wounded

Rank	Name	Description of wound (dangerous severe or slight)	Nature of wound
Lieutenant	S Geoghegan 31st Madras (Light) Infantry	Severe	Gun hot
Subadar Major	Abhiman Sing Gurung 10th Madras Infantry	Ditto	Ditto

Nominal Return of Non Commissioned Officers and Men killed

Regimental No	Rank	Name	Nature of wound
471	Sepoy	Jagtu Bisht 39th Bengal Infantry	Gunshot
70	Lance Naik	Phelam Ram — 10th Regiment Madras Infantry	Ditto
60	Sepoy	Chandrapat Suba — 10th Regiment Madras Infantry	Ditto
668	Ditto	Agandhoj Suba — 10th Regiment Madras Infantry	Ditto
669	Ditto	Fowde Singh Suba — 10th Regiment Madras Infantry	Ditto

No 296—The following is published for general information

No. 419 R T, dated 26th July, 1893

RESOLUTION—By the Government of India, Public Works Department

General Rules for working railways open for traffic

Read—

Sections 8 and 47 of the Indian Railways Acts of 1879 and 1890 respectively

Public Works Department Notification No 299 dated the 13th September 1880, publishing the General Rules for all Railways in India, and the Government of India Circular No 17 Railway dated the 21st August 1880, promulgating those General Rules

Government of India letter No 1062 R T, dated the 20th October 1886

Government of India Resolution No 789 R T, dated the 2nd July 1887, published in the Supplement to the *Gazette of India* dated the 23rd July 1887

Government of India letter No 371 R T, dated the 27th June 1893

Letter from the Resident at Hyderabad, No 179 R, dated the 13th July 1893, forwarding letter from the Agent and Manager of His Highness the Nizam's Guaranteed State Railways Company, No 1455 W, dated the 8th July 1893

OBSERVATIONS—The Agent and Manager of His Highness the Nizam's Guaranteed State Railways Company has applied that the General Rules for working open lines of railway in India, which have been sanctioned by the Governor General in Council under Public Works Department Notification No 299, dated the 13th September 1880 (*vide* the *Gazette of India* of the 18th September 1880), with rules 342 and 343 modified as sanctioned by the Governor General in Council in the Government of India Resolution No 789 R T, dated the 2nd July 1887 (*vide* the Supplement to the *Gazette of India* of the 23rd July 1887), may be made applicable to the Bezvada Extension Railway

RESOLUTION—With the exception of section XVII, which refers to the working of single lines of railway on the system termed "Train Despatching" in rule 3 of section II, the Governor General in Council is pleased to sanction the application of the General Rules for Indian railways, with the modifications cited in the foregoing observations to the Bezvada Extension Railway

ORDER—Ordered, that the General Rules, which have already been published in the *Gazette of India* of the 18th September 1880, be further notified to the railway servants and to the public by a copy thereof, as modified by the Resolution of the 2nd July 1887, being kept open to inspection, free of any charge, in the office of the station master of every station on the said railway

Ordered also, that this Resolution be communicated to the Resident at Hyderabad for information and guidance, and that it be published under a notification in Part I of the *Gazette of India*

No 297—The Governor General in Council is pleased, under section 16 (1) of the Indian Railways Act (IX) of 1890, to sanction the use of locomotive engines and of rolling stock to be drawn or propelled thereby on the Bezvada Extension Railway

The 4th August, 1893

No 298 — The two years' leave on medical certificate granted to Mr W Sandford, District Traffic Superintendent in Class II, Grade 2, of the Superior Revenue Establishment of State Railways, is commuted by Her Majesty's Secretary of State for India into furlough for two years

No 299 —Mr W Sandford, District Traffic Superintendent in Class II, Grade 2, of the Superior Revenue Establishment of State Railways, is permitted to retire from the service of Government, with effect from the 29th November 1892

No 300 —Mr C H C Bickerton Executive Engineer, 2nd Grade, sub *pro tem*, State Railways, is appointed to officiate as Deputy Consulting Engineer for Railways, Bombay

PART V

Bills introduced in the Council of the Governor General of India for making Laws and Regulations, Reports of Select Committees presented to the Council, and Bills published under Rule 22

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 3rd August, 1893

NO 9 OF 1893

A Bill to amend the Indian Tariff Act, 188‑, as amended by subsequent Acts

WHEREAS it is expedient to amend the Indian Tariff Act, 1882, as amended by subsequent Acts It is hereby enacted as follows

Import of dry and wet salt fish into Burma

1 After No 4 (Salt) in the second schedule to the Act aforesaid, the following is hereby inserted, namely

No	Names of Articles	Per	Tariff valuation	Rate of Duty
4A	Dry salt fish and wet salt fish (*ngapi*) imported into Burma from any place beyond the limits of British India	Indian maund of 8[illegible] lbs avoirdupois weight		Such rate of duty not exceeding twelve annas as the Governor General in Council may by notification in the Gazette of India from time to time prescribe

Export of rice flour

2 To the words "Rice whether husked or unhusked" in the first column of the third schedule to the Act aforesaid, the words "including rice flour" are hereby added

STATEMENT OF OBJECTS AND REASONS

IN January, 188‑ the duty on imported salt in Burma was raised from three annas to one rupee the maund Following on this increase of duty, the consumption declined, and it has not yet reached the level to which it had attained before the increase of the duty though the population has materially increased As the people of Burma are on the whole very well off and the incidence of the salt tax is far lower than it is in India, it seemed clear that the restriction of consumption was not the result of any undue pressure of the tax It has in fact been found that there is no real restriction in consumption, but that taxed salt has been displaced by salt paying no tax This has happened in two ways—first, by an increase of locally manufactured salt, and, secondly, by an increase in the imports of salted fish, wet and dry which have been free of duty

On locally manufactured salt a duty is levied on the estimated quantity of salt made in a working season based on the capacity of the pots used Before this duty was increased so as to equalise it with the duty on imported salt and closer attention was paid to the framing of the estimates of manufacture, a great stimulus was given to manufacturers to

pass salt into the market largely in excess of the quantity on which they paid duty Endeavours are now being made by executive action to secure that the duty paid on salt locally manufactured shall be exactly the same as the duty on imported salt

There remain to be dealt with the imports of salted fish This article is in Burma universally consumed with rice which is the staple food of the people Until the increase of the salt duty in 1888, the supply of salted fish was derived mainly from local sources, the salt used in curing paying duty Immediately after the increase of the duty, however, the imports of dry salted fish largely increased, and since then the quantity imported annually has been more than double the quantity imported up to 1888 The import of wet salted fish (*ngapi*) was unknown until the salt duty was increased, it began immediately afterwards, and last year nearly fourteen million pounds of the article were imported

The salt used in the imported fish displaces an equivalent quantity of salt on which duty is paid, and it is estimated that the State loses a considerable revenue in consequence It is also unfair to the local curers of fish, who pay a rental for the fisheries and full duty on the salt they use in curing, that these untaxed imports from neighbouring countries should be allowed to compete with the local article on terms which place the local curer at a great disadvantage

This Bill proposes to remove this unfairness, and at the same time secure the revenue of the State by giving power to Government to impose on these imports a duty which will represent the equivalent of one rupee a maund on the salt contained in the fish

The opportunity has been taken of making another amendment in the Tariff Act Enquiries have been made of the Government whether rice flour is dutiable as rice on export and it appears that, on a strict construction of the law as it stands, it may be held that it is not liable to duty It was never intended however, that ground rice should not be liable to duty like unground rice, and there is no reason for any distinction between the two The present Bill accordingly amends the law by including rice flour with rice

The 1st August, 1893 D BARBOUR

S HARVEY JAMES,

Secretary to the Government of India

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 3rd August, 1893

NO 10 OF 1893

A Bill to amend the Indian Ports Act, 1889

WHEREAS it is expedient to amend the Indian Ports Act, 1889 It is hereby enacted as follows

Amendment of first schedule to Act X 1889 as regards Balasore Ports

1 For the word "Ditto" where it occurs against "Balasore Ports" in the fourth column of Part I (Bengal) of the first schedule to the Act aforesaid, the following shall be substituted, namely—

"Whenever the vessel enters any one of the ports, except in the case of mail steamers and coasting vessels, which shall not be chargeable more than once in thirty days"

STATEMENT OF OBJECTS AND REASONS

THIS Bill has been rendered necessary by the recurring deficit in the funds of the Balasore Ports Even with the increased dues which are proposed, the port funds will still be in considerable deficit, which will have to be borne by provincial revenues

The 27th July 1893 D BARBOUR

S HARVEY JAMES
Secretary to the Government of India

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 3rd August, 1893

NO II OF 1893

A Bill to amend the Excise Act, 1881

WHEREAS it is expedient to amend the Excise Act, 1881 It is hereby enacted as follows

XXII of 1881

Addition of *Explanation* to section 7 Act XXII 1881

1 The following shall be added to section 7 of the said Act, namely

'*Explanation* —Duty may be fixed or made payable under this section at different rates according to the places to which any spirit is to be removed for consumption

Insertion of new section after section 23 Act XXII 1881

2 After section 23 of the said Act the following shall be inserted, namely

Spirits fermented liquor and intoxicating drugs from territory beyond India subject to duty

"23A The Governor General in Council may from time to time, by notification in the Gazette of India impose such duty as he thinks fit on any spirit or fermented liquor or intoxicating drug brought by land from beyond the limits of India into any territory to which this Act extends or into any specified part thereof, and may alter or abolish any duty so imposed"

New heading to Chapter V Act XXII 1881

3 The heading to Chapter V of the said Act shall be—

"IMPORT OF SPIRIT, FERMENTED LIQUOR AND INTOXICATING DRUGS"

STATEMENT OF OBJECTS AND REASONS

THE object of section 1 is to enable the Government, so far as may be necessary, to equalise rates of duty where inequalities operate to the prejudice of any competing manufacturer in India For instance, the duty on rum on removal from a distillery is four rupees a gallon in the North Western Provinces and five rupees in Bengal Much rum goes from the North Western Provinces to Bengal for consumption, and it seems clear that so far as the Government can help, no undue preference, by way of taxation, should be given to manufacturers in the former territory over those in the latter

2 The amendment and addition made in section 2 are intended to cover the case of the importation by land of liquors, and, possibly, of drugs not covered by the Opium Act, 1878, from places beyond the limits of India

PART VI

Abstract of the Proceedings of the Council of the Governor General of India assembled for the purpose of making Laws and Regulations

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACTS OF PARLIAMENT 24 & 25 VICT, CAP. 67, AND 55 & 56 VICT, CAP 14

The Council met at Viceregal Lodge, Simla, on Thursday, the 3rd August, 1893

PRESENT

His Excellency the Viceroy and Governor General of India, G C M G, G M S I, G M I E, *presiding*

His Honour the Lieutenant Governor of the Punjab, K C S I

His Excellency the Commander in-Chief, K C B, G C I E, V C

The Hon'ble Sir P P Hutchins, K C S I

The Hon'ble Sir D M Barbour, K C S I

The Hon'ble Sir A E Miller, KT, Q C

The Hon'ble Lieutenant General H Brackenbury, C B, R A

The Hon'ble Sir C B Pritchard, K C I E, C S I

The Hon'ble J L Mackay, C I E

EXCISE ACT, 1881, AMENDMENT BILL

The Hon'ble SIR DAVID BARBOUR moved for leave to introduce a Bill to amend the Excise Act, 1881 He said

"It is proposed to amend the Act in two respects, and both the amendments are very simple and not likely to meet with opposition

"Under section 7 of the Act as it now stands the Local Government may from time to time fix the rate of duty to be levied on spirit passed out of a distillery licensed under section 5 of the Act or established under section 6

"It has been held, and no doubt correctly held, that under the law as it now stands the Local Government can only fix one rate of duty for spirit passed out of such distillery, no matter what the destination of the spirit may be This state of things is found to produce inconvenience, as spirit may be passed out for consumption in another province or in a different district, where the duty on spirit is either higher or lower than it is in the province or district where the distillery is situated To meet this difficulty it is proposed to modify the Act in such manner as to permit the Local Government to fix different rates of duty according to the place to which the spirit is removed for consumption

"A difficulty has also arisen in Upper Burma in connection with the import of spirit and other exciseable articles from beyond the frontier There is at present no power to impose a duty on the import of such spirit To meet this difficulty power is given to the Governor General in Council to impose, by notification in the Gazette of India, such duty as may be considered proper on any spirit, fermented liquor or intoxicating drug brought by land from beyond the limits of British India into any territory to which the Excise Act, 1881, extends"

The Motion was put and agreed to

The Hon'ble SIR DAVID BARBOUR also introduced the Bill

The Hon'ble SIR DAVID BARBOUR also moved that the Bill and Statement of Objects and Reasons be published in the Gazette of India in English, and that the Bill be taken into consideration on the 10th instant

The Hon'ble SIR ALEXANDER MILLER suggested that the Bill should be taken into consideration on the 17th instant He thought that the Bill might require to be looked over, and that some discussion with the Hon'ble Member about a point which he had already called his attention to might be advisable

The Motion that the Bill be taken into consideration on the 17th instant was put and agreed to

INDIAN TARIFF ACT, 1882, AMENDMENT BILL

The Hon'ble SIR DAVID BARBOUR also moved for leave to introduce a Bill to amend the Indian Tariff Act, 1882, as amended by subsequent Acts He said

"The proposed amendments are of a very simple nature

"In 1888 the duty on salt in Burma was raised from three annas a maund to one rupee a maund Salted fish is largely produced and consumed in Burma, and the raising of the rate of duty on salt unfairly handicaps the local manufacture as compared with manufacture in countries where no duty on salt is levied

"The extent to which the local manufacture is handicapped is shown by the fact that since the raising of the salt duty in 1888 the quantity of dry salted fish annually imported has more than doubled, and a new trade, the import of wet salted fish or *ngapi*, has come into existence Last year nearly 14 million pounds of wet salted fish were imported By the Bill which I am now about to introduce power is given to the Governor General in Council to impose a duty on imported salted fish not exceeding twelve annas a maund The imposition of such a duty will remove the disadvantage under which the local manufacture at present labours and it will also prevent the import of salt free of duty in the form of salted fish

"Advantage has been taken of the opportunity to remove a doubt which has arisen as to the interpretation of the Tariff Act in another respect As this Council is aware, an export duty is now chargeable upon the export of rice Doubts have arisen as to whether this duty is leviable on rice flour or ground rice These doubts will be removed by specifically declaring rice flour or ground rice to be liable to payment of duty"

The Motion was put and agreed to

The Hon'ble SIR DAVID BARBOUR also introduced the Bill

The Hon'ble SIR DAVID BARBOUR also moved that the Bill and Statement of Objects and Reasons be published in the Gazette of India in English, and that the Bill be taken into consideration on the 10th instant He explained

that it was desirable that the Bill should be taken into consideration on this date, because, if any great delay were to occur in the passing of the Bill, large quantities of salt fish would be imported in order to escape the duty

The Motion was put and agreed to

INDIAN PORTS ACT, 1889, AMENDMENT BILL

The Hon'ble SIR DAVID BARBOUR also moved for leave to introduce a Bill to amend the Indian Ports Act, 1889 He said

"There is a group of small ports in the Balasore District in Bengal, and the maximum rate of port dues payable is four annas per ton, with a special exemption in the case of mail steamers and coasting vessels, which are not chargeable with port dues oftener than once in sixty days

"It so happens that the trade of these ports is chiefly with Calcutta, small vessels making frequent trips to and from Calcutta

"Under these circumstances a limit of sixty days is quite unsuitable, and the port dues amount only to a very small fraction of the yearly expenditure which is incurred in keeping up the ports

"Before the passing of the Act of 1889 the limit was thirty days and not sixty days It is now proposed to restore the old limit of thirty days Even with the reduced limit the receipts will not nearly cover the expenditure, and the balance of expenditure must, as before, be met from the Provincial revenues of the Government of Bengal"

The Motion was put and agreed to

The Hon'ble SIR DAVID BARBOUR also introduced the Bill

The Hon'ble SIR DAVID BARBOUR also moved that the Bill and Statement of Objects and Reasons be published in the Gazette of India in English, and in the Calcutta Gazette in English and in such other languages as the Local Government thinks fit

The Motion was put and agreed to

POSTPONEMENT OF BILLS

The Hon'ble SIR ALEXANDER MILLER moved for leave to postpone, until the next meeting of the Council, his Motion for leave to introduce a Bill relating to the Tributary Mahals of Cuttack He explained that the Bill had not been placed in his hands until he had entered the Council room He had therefore been unable to see what was in it, or whether it was in the form in which he should like to introduce it

The Motion was put and agreed to

The Hon'ble SIR PHILIP HUTCHINS asked that the Motion down in his name, to ask for leave to introduce a Bill to amend the Code of Criminal Procedure and the Indian Penal Code, might be allowed to stand over He explained that there was some difficulty as to the best way of carrying out the objects of the Bill, and it was desirable to have a little more time for discussion as to the precise form which it should take

The Motion was put and agreed to

The Council adjourned to Thursday, the 10th August, 1893

S HARVEY JAMES,

Secretary to the Government of India,

Legislative Department

SIMLA,

The 4th August, 1893

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weather Review of India for the week ending at 8 a m on Saturday, July 29th, 1893

The partial break in the rains which commenced over India on Friday, July 21st continued in force throughout the week under review The Southern limit of the area affected by the break was Lat 20° N, and the eastern limit Long 84° E Even within the area bounded by these limits the break was not altogether general, as on several occasions showers were experienced over the Central Provinces as well as at the stations on the Himalayas and at their foot Over Bengal Burma, and the Peninsula rain fell daily during the week, but the amounts were not heavy The cause of the break, so far as can be judged, lay not so much in any general lightness of the monsoon but rather in an irregularity in the distribution of pressure Ordinarily a trough of low pressure overlies the Gangetic plain and to the northward of this trough easterly winds from the Bay prevail Both within the trough and within the easterly current rainfall is very frequent During the week under review the trough lay over the Himalayas instead of over the Gangetic plain, and in consequence the wind was westerly and north westerly over Northern India instead of easterly and south easterly, and the rainfall was very light In consequence of this temperature rose briskly, and the mean temperature of the whole of India for the week was ½° above the average

On Sunday, 23rd July, pressure was lowest over the hills to the northward of the Punjab and highest in Malabar, the pressure difference being 0 359 inch Northerly winds prevailed down the West Coast of the Peninsula, and westerly winds in most other parts of the country, except Burma and Bengal, where the direction was southerly Rain was fairly general over the Peninsula and North-Eastern India, but in Central and North Western India only a few scattered showers were reported The amounts were not large, except in parts of Burma Tavoy reported 7 02 inches, while Rangoon, Purneah, Gorakhpur, and Karwar had over 2 inches On the 24th pressure was falling everywhere, but the general distribution was unchanged readings being highest in the extreme south and

practically unchanged, and the rainfall distribution was very similar to that reported on the previous day. Silchar reported 4½ inches of rain, but this was the only heavy fall, though Toungoo, Moulmein, Tavoy, Gnatong, Durbhanga, Darjeeling, Mormugao, Trivandrum, and Cocanada had between 1 and 2 inches. The chart of Tuesday, the 25th, showed a fall of pressure over the central parts of the country and a rise elsewhere. The pressure difference between Malabar and the Indus Valley had decreased slightly to 0·482 inch, but otherwise there was very little change. The winds were southerly to easterly over the Punjab, southerly to south easterly over Burma and Bengal, and westerly in other parts of the country. Rain was very general again over the Peninsula and North Eastern India, and there were showers over the North Western Himalayas, but elsewhere there was practically no rain. The heaviest amounts were 3·13 inches at Tavoy and over 2 inches at Akyab, Saugor Island, Calicut, Cuddapah, and Masulipatam. On the 26th the barometer was rising everywhere. The rise was greater in the north west than elsewhere, and the pressure difference between Malabar and the Indus Valley had decreased to 0·461 inch. In other respects there was no change in the pressure distribution. The wind had gone back to south west again on the West Coast but elsewhere the directions were little altered. Rain had fallen on and near the North Western Himalayas, but generally the whole of North Western India and of the Gangetic plain was without rain. Saugor Island reported over 3 inches but there were no other heavy falls. On the 27th the barometer was still rising but the general distribution was unaltered. The rise had again been greatest in the north west, and the pressure difference between Malabar and the Indus Valley was only 0·349 inch. The wind was variable and light on the West Coast, southerly in Burma and Bengal, and generally westerly in other parts of the country. The distribution of rain was similar to that reported on the 26th. Over 2 inches were reported from Toungoo, Bhamo, Dehra Dun and Rajahmundry, and over 1 inch at several stations. On the 28th pressure was decreasing over Northern and North Eastern India and rising over the Peninsula. In consequence the barometric gradient had increased, and the pressure difference between Malabar and the Indus Valley had risen to 0·392 inch. The winds and the distribution of rainfall were the same as those reported on the 27th. The principal amounts of rain were over 3 inches at Dhubri and over 1 inch at Bhamo, Bassein, Gnatong, Silchar, Mormugao, Mercara, and Khammamett. On the 29th pressure was giving way over Bengal and the head of the Bay, and a slight depression had appeared over Orissa and the north west angle of the Bay. Gradients were steep over the Bay, and the pressure difference between Malabar and the Indus Valley was again 0·392 inch. The winds were cyclonic in the neighbourhood of the depression noticed above—southerly in Burma and westerly elsewhere. The force was fresh in Southern, Western, and Central India. Rain had extended somewhat, and scattered showers were reported from several places in Central and North Western India, but the fall was general only in the Peninsula and Burma. The principal amounts were 4 inches at Moulmein, 2½ inches at Mymensingh and Berhampore and over 1 inch at Akyab, Gnatong, Barisal, Ratnagiri, Karwar, and Hyderabad.

Temperature.—The following table shows the variations of the mean temperature from the normal on each day of the week for the different Provinces of India.

Province	July							Mean variation of week
	23rd	24th	25th	26th	27th	28th	29th	
	°	°	°	°	°	°	°	°
Burma	+0·6	−1·0	−2·0	+0·5	+1·6	+2·2	−0·9	+0·1
Bengal and Assam	−0·2	−0·3	−0·5	−1·0	+0·5	+1·8	+1·4	+0·3
North-Western Provinces and Oudh	−0·8	−0·6	−0·1	−0·1	+0·7	+2·0	+2·9	+0·6
Punjab	−2·1	−1·1	−0·1	−0·7	−1·2	−0·6	−1·1	−1·0
Bombay	+1·5	+1·4	+0·6	0	−0·4	−0·3	−0·2	+0·4
Central Provinces and Berar	+3·5	+3·5	+3·6	+2·3	+3·7	+3·9	+3·7	+3·5
Central India and Guzerat	+0·3	+1·0	+0·1	+0·4	+1·2	+1·7	+2·1	+1·0
Sind and Rajputana	−0·7	−0·6	−1·2	−1·3	−1·4	0	−0·2	−0·8
Madras	+1·0	+1·0	+0·5	−1·8	−3·3	−1·9	−1·7	−0·9

The principal feature in the above table is the general rise of temperature which is shown accompanying the decrease in the rainfall On each day of the week, except the 26th, the mean temperature of the whole of India was above the normal, and the variation for the whole week was + 0 4° The warmest part of the country relatively to the average was the Central Provinces, where the mean temperature was 3½° above the normal

Rainfall—The concluding table shows that the rainfall of the past week has been distinctly lighter than that of the past few weeks In the Punjab (South), in Sind, and in Rajputana there has been absolutely no rain, and in the North West Provinces (Central and West), in the Punjab (Central), in Kathiawar, and in Central India (East) the average actual rainfall of each division has been less than one-tenth of an inch In all the other divisions effective rain was received The heaviest average actual rainfall of any division was 21 56 inches in Assam (Surma) This was followed by 10 38 inches in Tenasserim by 8 25 inches in North Bengal, by 6 49 inches in Arakan, and by 5 15 inches in Malabar, while the lightest falls were in the divisions noticed above In ordinary years the heaviest rainfall during the week under review is 10 68 inches in Tenasserim, followed by 9 72 inches in Arakan and by 9 59 inches in Coorg, while the lightest rainfall normally is 0 29 inch in Madras (South) From the above comparison it will be seen that the distribution of rainfall has been irregular both as regards the position of the area of heaviest and of lightest rainfall The heavy rainfall in Assam (Surma) was due to the excessively heavy rain at Cherrapungi, where over 73 inches fell during the week

The third column of the table shows that the rainfall was heavier than usual in only eleven divisions *viz*, Assam (Surma and Brahmaputra), Central and North Bengal, North Behar, Madras (South Central), the East Coast (North and North *a*), Hyderabad Madras (Central), and the East Coast (Central) In all the other forty divisions the average rainfall of the week was deficient The principal cases of absolute excess were 15 09 inches in Assam (Surma), 4 14 inches in North Bengal and 2 96 inches in Hyderabad The largest absolute deficiencies were 5 17 inches in Coorg, 4 19 inches in the Central Provinces (Central), and 3 68 inches in Guzerat

The three concluding columns of the table giving the state of the rainfall of the monsoon period, May 28th to date, show that in Tenasserim, Lower and Central Burma, Orissa, Coorg, Berar, and the Central Provinces (West) the rainfall of the period has been deficient, in Arakan, Assam (Brahmaputra), the North Western Provinces (Submontane *a*) the Punjab Hill Districts, Malabar, Madras (South Central), Mysore, the Konkan, the Central Provinces (Central and East), Central India (East), and the East Coast (North *a*) the fall has been approximately normal and in the other divisions has been excessive The greatest excess relatively to the average has been in the north west of the Punjab, where nearly three times the average amount of rain has been received

The following gives the largest total amounts received during the week as reported in the rainfall telegrams of the week

Division	District	Station	Amount
Tenasserim	Amherst	Thaton	10 82 inches
East Bengal	Mymensingh	Sudder	10 14 ,,
Assam	Khasia Hills	Cherra	73 51 ,,
North Bengal	Cooch Behar	Dinhata	15 50 ,,
Bihar	Motihari	Bagaha	9 86 ,,
North Western Provinces	Gorakhpur	Parauna	9 11 ,,
Punjab	Kangra	Sudder	7 73 ,,
Malabar	South Kanara	Karikal	9 32 ,,
Madras (South Central)	Nilgiris	Devala	14 37 ,,
Konkan	North Kanara	Honavar	11 60 ,,
Deccan	Kolhapur	Bavda	7 57 ,,
East Coast	Jeypur	Koraput	9 20 ,,

W L DALLAS,
Asst Meteorological Reporter to the Government of India

SIMLA, *3rd August 1893*

E C BUCK,
Secretary to the Government of India

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weekly Report on the state of the Season and Prospects of the Crops

Madras.—*For week ending 29th July*.—Rainfall heavy on West Coast, in Circars, and in parts of Deccan; considerable rain elsewhere, except in parts of the Central and Southern districts. Rainfall to date has attained or exceeded the average, except at Madras, in Tinnevelly and Malabar, but deficiency nowhere very serious. Cultivation and sowings going on briskly and standing crops generally thriving, though in parts the rain has been rather excessive, and in Tinnevelly more rain is required. Pasturage generally abundant and cattle in good condition. General prospects favourable. Prices still almost stationary, though falling very slightly in the Central and Southern districts.

Bombay.—*For week ending 2nd August*.—Rain throughout the Presidency, but insufficient in eight districts. Young crops injured by rats, locusts, or other insects in parts of nine districts, and withering for want of moisture or rain in parts of three districts. Agricultural operations progressing generally, but sowing retarded in three districts owing to deficient rain. Transplanting progressing in five, but retarded in two, districts. Prices steady, except in two districts. Agricultural stock good and fodder sufficient.

Bengal.—*For week ending 29th July*.—Rainfall was abundant in North Bengal, East Bengal, South West Bengal, and North Behar; moderate in Chota Nagpur and South Behar. Rain still wanted in parts of Orissa. Transplantation of winter rice is going on well, though some damage is reported to have been done to crops lying in low lands in some districts of Bengal Proper. Jute and early rice are being reaped in North and East Bengal. Harvesting of autumn crops has commenced in some districts of the Patna and Bhagalpur divisions, and their outturn is on the whole good. Sugarcane and indigo have suffered in some places owing to heavy rains, and the outturn of indigo is reported to be very poor in Midnapur. Prices of common rice remain unchanged. Condition of cattle is generally good. Fodder and water supply sufficient in all districts.

North-Western Provinces and Oudh.—*For week ending 2nd August*.—With the exception of a few districts in which rain has fallen during the week, there has been a general break, and prospects have much improved. More rain, however, is needed in some places. The autumn crops are flourishing and weeding is in progress. Transplantation of rice is going on. Supplies and fodder sufficient. Prices generally steady.

Punjab.—*For week ending 2nd August*.—Rain has fallen in five districts. Harvesting of spring crops almost over. Sowings of autumn crops in progress. Condition of standing crops is generally reported fair, but some damage has been done by excessive rain in parts of Umballa and by floods in parts of Lahore, Mooltan, and Shahpur. Condition of cattle is generally reported good. Pasturage and fodder are said to be sufficient throughout the Province. Prices rising in three districts; stationary elsewhere.

Central Provinces—*For week ending 2nd August*—Rainfall heavy in seven districts, but insufficient in the Northern districts and the Nagpur country, where the long break is causing damage to the autumn sowings Fodder ample Agricultural stock good Prices easy

Burma—*For week ending 29th July*— In Lower Burma the rainfall was sufficient Agricultural operations are progressing satisfactorily and crop prospects are good Rainfall general in Upper Burma, but very light in three districts Agricultural operations in Upper Burma are progressing favourably, but are retarded in parts of Shwebo, where the rainfall is not yet sufficient The crop prospect generally is good, and in Meiktila the sesamum is improving, but rain is much required for the crops in three other districts Merchants are paying higher prices for paddy in Rangoon Prices have also risen in five other districts, but have fallen in one

Assam—*For week ending 1st August*—Floods in the Surma Valley Rain wanted in two districts Transplanting of winter paddy continues Fodder insufficient in flooded districts

Mysore and Coorg—*For week ending 2nd August*—MYSORE Rainfall general and good Standing crops in good condition Sowing operations in progress Prospects good No marked change in prices

COORG Rainfall good Ploughing of rice fields and transplanting of paddy in progress Coffee planting continues Prices stationary Water and fodder for cattle sufficient

Berar and Hyderabad—*For week ending 2nd August*—BERAR Rainfall moderate and more is wanted Standing crops in good condition Land under preparation for ensuing spring crops in three districts Sowing of autumn crops retarded in two talukas for want of rain Weeding operations in progress Fodder and water sufficient Prices almost stationary

HYDERABAD Rainfall good Weeding of autumn crops commenced and sowing of irrigated paddy crops continues Standing crops in good condition Prices steady

Central India—*For week ending 2nd August*—There has been a break in the rains throughout Central India generally, which appears to have affected the crops in the Neemuch district In other parts the crops are in good condition Pasturage good and sufficient Prices of food grains steady in all parts

Rajputana—*For week ending 2nd August*—Slight rain in parts of Bickaneer, no rain elsewhere Agricultural operations and standing crops generally satisfactory Cattle in good condition Pasturage or fodder sufficient Prices rising in two States, falling in one, and steady elsewhere

Kashmir—*For week ending 1st August*—Weather fine The recent flood has done considerable damage to the autumn crops in riveram villages, also to irrigation works Prices stationary

Nepal—*For week ending 29th July*—Heavy showers Weather cloudy and cool Prospects good

REVENUE AND AGRICULTURAL DEPARTMENT

No $\frac{2634}{51}$

Extract from the Proceedings of the Government of India in the Revenue and Agricultural Department (Museums and Exhibitions) —dated Simla the 4th August, 1893

Read—

Letter, dated 21st June 1893, from the Consul General for Belgium, Bombay intimating that an International Exhibition will be held at Antwerp between the months of May and November in 1894 and inviting the co operation of the Government of India

RESOLUTION

The Consul General has been informed that the Governor General in Council regrets that financial considerations prevent any extensive contributions being furnished by the Government of India itself Arrangements will, however, be made by the Reporter on Economic Products to contribute a collection of products either likely to be useful to Indo Belgian trade or calculated to attract Belgian capital to India A small grant of money will be allowed for the freight of this collection and of such articles as may be provided by private exhibitors and approved by the Reporter on Economic Products The Inspector General of Forests has also been instructed to arrange for a collection of forest products and timbers which are likely to find a demand on the Continent As regards the representation of artware, one of the leading dealers in Indian art manufactures has been informed that if he is prepared to exhibit a collection of such manufactures the space required at the Exhibition will be provided at the cost of Government

Mr E Thurston, Officiating Reporter on Economic Products, has been placed in charge of arrangements so far as the participation by the Government of India in the Exhibition is concerned But the general conduct of arrangements for representation of Indian exhibitors will be undertaken by the Consul General, Bombay, and by the Indian Consular Agents for Belgium at Calcutta, Bombay, Madras, Karachi and Rangoon, and intending exhibitors should apply to them for any information which they may require

ORDER —Ordered, that the Resolution be published in the Supplement to the *Gazette of India* for general information, and that copies be forwarded to all Local Governments and Administrations with a request that the above information regarding the Exhibition may be notified in the local Gazettes

REVENUE DEPARTMENT.

[*Revised Advertisement*]

A Dictionary of the Economic Products of India

By DR GEO WATT C I E,

Reporter on Economic Products

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first five volumes and Volume VI Parts I and II, of the Dictionary are now ready at the Office of Superintendent of Government Printing, No 8, Hastings Street Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is R45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made) packing and postage, in India, 8 annas per volume, for England, 2 rupees 6 annas per volume For copies bound in half calf or half morocco, R6 and 8 shillings respectively will be charged extra for the whole set

The Dictionary is intended to deal with the products of India—animal vegetable and mineral each product being treated after a uniform plan the paragraphs of which give the scientific, vernacular and European names habitat or source history properties and uses (both chemical and industrial) trade statistics markets etc. The work is arranged alphabetically according to scientific nomenclature but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks and with a reference to the original publication Numerous contributors have however furnished the results of new discoveries and confirmed the vernacular names so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries

Volume I contains the letters A and B, and consists of 559 royal octavo pages, Volume II embraces the letter C in 689 pages Volume III contains the letters D E F and half of G Volume IV latter half of G to middle of L and Volume V contains the latter half of L to end of O Vol VI (which will consist of four parts) Part I contains letters P to R The whole work will it is expected be completed in nine volumes (including Parts II to IV of Vol VI) during the current year but a tenth volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary The Index will practically be a glossary of the vernacular and European names of the plants animals and minerals of India and as such will be a work of reference which it is hoped may prove of considerable value

Technical Art Series published up to 1892 together with their explanatory Text—

1886 87 6 Plates with Text R1 8 a set (4a)

CHIEF COMMISSIONER OF AJMERE-MERWARA

NOTIFICATIONS

Abu, the 1st August, 1893

No 814-373—Surgeon Major D ffrench Mullen, M D, I M S (Bengal) Civil Surgeon Ajmere, and in medical charge of the Merwara Battalion, is granted privilege leave for three months with effect from the 26th ultimo

No 818—In exercise of the powers conferred by Section 40 of Act II of 1886 (an Act for imposing a tax on income derived from sources other than agriculture, the Chief Commissioner is pleased to invest, and does hereby invest Lala Gopinath, Income Tax Assessor in Ajmere Merwara, with all or any of the powers which may be exercised by a "Collector" under Sections 41 to 44 (both inclusive) of the Act

The 4th August, 1893

No 831-866 —With reference to this office Notification No 413, dated the 18th April, 1893 the following rules have been made by the Chief Commissioner under Section 18 of the Indian Factories Act, XV of 1881 as amended by Act XI of 1891, and are hereby published for general information and guidance —

Rule 1 The terms "Factory," "child" "mill gearing" and "employed," when used in these rules, shall have the meaning given to them in the Act

2 The Assistant Commissioners of Ajmere and Merwara for the time being are hereby appointed "Inspectors" under section 3 of the Act within the local limits of their respective jurisdictions The District Superintendent of Police for the time being is hereby appointed "Joint Inspector" throughout Ajmere Merwara The Inspectors shall be officially subordinate to the Commissioner of Ajmere Merwara and the "Joint Inspector" shall be officially subordinate to each Inspector so far as his district is concerned

3 Each Inspector shall keep a register of all factories within his jurisdiction in the Form A attached to these rules, and a permanent serial number shall be given to each factory

4 Each Inspector shall inspect factories within his jurisdiction not less than twice a year and satisfy himself that the provisions of the Act are duly observed

5 An Inspector may enter any factory for the purposes of section 4 of the Act at any time during the day provided that he shall, in order to verify registers kept under section 9 of the Act examine the children employed in working hours

6 The Magistrate of the district or Inspector shall send through the post, under registered cover, a notice to the occupier of any factory which he may consider as coming within the purview of the Act, intimating his intention of placing the factory upon his register

7 Any person served with a notice under the preceding rule whose premises do not in his opinion, fall within the definition of "Factory" given in the Act may within 15 days of the receipt of such notice, forward to the Magistrate of the district a statement setting forth his objections to the registration of the premises as a factory The District Magistrate shall consider and dispose of such objections according to law after making such inquiry as he may deem necessary, and intimate his decision to all concerned

8 When any premises cease to be occupied as a factory the occupier may give notice of the fact to the Inspector of the district who shall if satisfied that the Act is no longer applicable to such premises remove them from his register of factories, and intimate the fact of his having done so to the "Joint Inspector"

9 Each Inspector and "Joint Inspector" shall keep a register of inspection in Form B attached to these rules in which shall be recorded all orders or remarks passed by him at each inspection

10 Each Inspector shall at once forward a copy of his inspection memorandum to the Commissioner of Ajmere Merwara, and also to the occupier of the factory inspected The despatch through the post under a registered cover of a copy of the inspection memorandum shall be deemed to be sufficient service on the occupier of the factory of any order or directions therein contained The "Joint Inspector" shall forward copy of his inspection memorandum through the Inspector of the district to the Commissioner of Ajmere Merwara

11 Under section 5 of the Act the Civil Surgeon of Ajmere is hereby appointed to be the certifying surgeon for the district of Ajmere and the Assistant Surgeon of Beawar is appointed to be the certifying surgeon for the district of Merwara

12 It shall be the duty of each certifying surgeon of the district to certify, in Form C attached to these rules the age of any person employed or desirous of being employed in a factory when called upon to do so under section 5 of the Act A fee of 4 annas shall be the fee payable to a certifying surgeon by or on behalf of the person to be examined for examining him and granting him a certificate in the said form The Inspector of each district shall provide the certifying surgeon of his district with blank forms of such certificate

13 Every occupier of a factory shall keep a file of all certificates of certifying surgeons relating to children in his employ and shall produce it when required by the Inspector or "Joint Inspector" Every such certificate shall be returned by such occupier to the parent or guardian of the person to whom it relates on his leaving the factory for other employ and on demand of such parent or guardian and on receipt of the cost of such certificate if such cost was originally paid by the occupier

14 Every occupier of a factory shall keep a monthly register in Form D attached to these rules and no such register shall be destroyed or removed from the factory without the written permission of the Inspector of the district

15 The occupier of the factory shall, if required by the Inspector or "Joint Inspector," bring before him, on the occasion of any inspection all children employed in the factory and any other persons in the service of such occupier whom the Inspecting Officer may wish to see, also all registers, certificates, and notices required by the Act or any rule made thereunder to be kept or issued by such occupier or in the factory

16 Notice in writing of all accidents resulting in death, or from which the injury is evidently so severe that there is no reasonable hope that the injured person will be able to return to his work within 48 hours, shall be given on the same day on which the accident occurs Notice of accidents of a less severe character, but which nevertheless prevent the person injured from returning to his work within 48 hours of their occurrence, shall be given immediately on the expiry

of the 48 hours interval allowed by section 13 of the Act All notices of accidents shall be in Form E, and shall contain the name of the person or persons injured and full information as to the nature and cause of the accident, and shall be sent by special messenger to each of the following officers, namely —

(a) Inspector of the district
(b) The nearest Magistrate having jurisdiction and
(c) The officer in charge of the nearest police station

17 Every order for the fencing of any part of the machinery or mill gearing of a factory, which the District Magistrate or Inspector may pass under section 12 (c) of the Act shall state clearly what is required, so that the said machinery or gearing may be securely fenced, and shall specify a reasonable time within which what is required to be done shall be completed, and it shall further give notice that if it shall not be so completed the person responsible for the breach of the order will be prosecuted under section 15 of the Act

18 Every occupier of a factory shall set up and maintain in a conspicuous place in the factory a printed or written notice in English, Urdu and Hindi of the daily working hours of the factory in Form F annexed

19 Appeals from the orders of Inspectors under the Act shall lie to the Commissioner of Ajmere Merwara

20 Appeals should be in the Form of a memorandum of appeal similar to that contained in the fourth schedule to the Code of Civil Procedure No 173 and the stamp fee for such appeal should be regulated according to the provisions of Article 11, Schedule II of the Court Fees Act or such provisions as may for the time be in force

21 If the order of an Inspector is set aside or modified in appeal the Inspector shall, as early as possible deliver to the occupant of the factory such amended orders as may be in conformity with the orders of the Commissioner

22 In every factory a supply of pure potable water from one or other of the following sources shall be provided —

(a) from a general Municipal water service
(b) from one or more wells or reservoirs so situated as not to be liable to be polluted or contaminated with organic matter or other impurities

23 When taps are not used a suitable establishment must be maintained for the drawing protection and distribution of the water

24 Proper arrangements must be made for maintaining in drained and cleanly condition the area around the spot set apart for the distribution of the water

25 Every occupier of a factory shall on every day on which work is carried on in the factory he occupies have available at the said factory for the use of the persons employed therein, free of cost to them, a water supply consisting of at least twice as many gallons of water as there are persons employed in the factory Of the whole supply at least as many gallons as there are persons employed in the factory shall be fit for potable purposes, and the remainder shall be fit for purposes of washing

26 All the inside walls of the rooms of every factory and all the ceilings or tops of such rooms (whether such walls ceilings, or tops be plastered or not) and all the passages and staircases of every factory, if they have not been painted with oil or varnished once at least within seven years shall be limewashed by the occupier of the factory once at least within every 14 months to date from the period when last limewashed and, if they have been so painted or varnished, shall be washed by the said occupier with hot water and soap once at least within 14 months to date from the period when last washed

27 The floors of factories shall be swept at least once a week or oftener if to do so is necessary to maintain them in a cleanly condition

28 The minimum space provided for each person employed in any room of a factory shall be 36 superficial feet 500 cubic feet, and 10 square feet of lateral ventilating opening Provided that in cases in which lateral ventilation cannot be contrived on account of the nature of the industry carried on in such room, sufficient interchange of fresh air shall be ensured by forced ventilation or other means as the Inspector may deem sufficient or if this cannot be managed a minimum of 54 superficial feet and 900 cubic feet shall be provided for each person employed

Provided also that subject to the control of the Commissioner, the Inspector may for reasons to be recorded in writing relax the conditions of this rule where in his opinion this may be done with due regard to the health of the factory hands employed in any particular room or rooms of a factory

29 All drains carrying waste or sullage water shall be constructed in masonry or other impermeable material and shall be regularly flushed and connected with some recognised drainage line

30 The compound surrounding every factory shall be maintained in a strictly sanitary and cleanly condition

31 A legible copy of these rules, with translations thereof in Hindi and Urdu shall be kept hanging in a conspicuous place in each factory If the copy become defaced or illegible, a fresh copy must be supplied

TREASURE TROVE

NOTICE

It is hereby notified, under section 5 of the Indian Treasure Trove Act (VI of 1878), that on 17th October, 1892 treasure consisting of rupees, half rupees, and two anna pieces, amounting in all to R247 10 0 or more, was found underground by one Simhadri Lakshmiah, while digging a pit in the yard attached to his house at Pittapur, Pittapur Division, Godavari District

2 All persons claiming the said treasure, or part thereof, are hereby required to appear per sonally, or by agent, before the Collector of the Godavari District, at Cocanada on 16th January, 1893, in view to the matter being enquired into and determined according to the provisions o the said Act

S H WYNNE,

Collector

GODAVARI DISTRICT COLLECTOR S OFFICE

Cocanada *1893*

NOTICE

It is hereby notified, under Section 5 of the Treasure Trove Act (VI of 1878), that whereas on the 24th of July, 1893, certain treasure, consisting of R11 of British coinage, has been discovered by one Ratan Ghose, a student of the Jubilee Patsala at Bolpur, underground, within the premises of the above Patsala

All persons claiming the said treasure, or any part thereof, are required to appear either in person, or by agent, at the Office of the Collector of Birbhum, on the 30th December, 1893, at 11 A M and to assert their claim, if any, to the said treasure, so that the matter may be enquired into and determined by the Collector in accordance with the provisions of the said Act

R M WALLER,

Collector

BIRBHUM COLLECTORATE,

Suri the 7th August, 1893

REDUCTION IN PRICE OF CINCHONA FEBRIFUGE

From 1st April 1891, and until further orders, Cinchona Febrifuge can be purchased by all Government officers and by any one taking *ten pounds* at a time, from the Superintendent, Botanic Garden Calcutta, at the following rates—four ounce tin, *R2 8* eight ounce tin, *R5* one pound tin, *R10* The general public can be supplied by the Superintendent, Botanical Garden, *for cash only* at the under noted rates—per four ounce tin *R3* per eight ounce tin *R6* per pound tin, *R12* This medicine is also sold by the principal European and Native druggists in Calcutta Postage, four annas per four ounce tin, eight annas per eight-ounce tin and twelve annas per pound tin, in addition to the foregoing rates

জ্বরঘ্ন সিন্‌কোনার মূল্য কম করণ ।

১৮৯১ সালের এপ্রেল মাসের ১লা তারিখ অবধি যাবৎ অন্য আজ্ঞা না হয় তাবৎ কলিকাতার বোটানিকেল গার্ডণের অর্থাৎ কোম্পানির বাগানের সুপারিণ্টেণ্ডেণ্টের নিকট গবর্ণমেণ্টের কর্ম্মচারিগণ এবং অপর কোন ব্যক্তি এক কালীন দশ পোণ্ড ক্রয় করিলে নিম্নলিখিত হিসাবে জ্বরঘ্ন সিনকোনা পাইবেন অর্থাৎ চারি ঔন্স টিন ২॥ টাকায় আট ঔন্স টিন ৫, টাকায় ও এক পোণ্ড টিন ১০, টাকায় পাইবেন। সর্ব্ব সাধারণে কোম্পানির বাগানের সুপারিণ্টেণ্ডেণ্টের নিকট নগদ মূল্য দিলে এই এই হিসাবে অর্থাৎ চারি ঔন্স টিন ৩, টাকায় আট ঔন্স টিন ৬, টাকায় এবং এক পোণ্ড টিন ১২, টাকায় পাইতে পারিবেন। কলিকাতার প্রধান প্রধান ইউরোপীয় ও দেশীয় ঔষধ বিক্রেতাগণ ও এই ঔষধ বিক্রয় করিয়া থাকেন। উপরোক্ত হার ছাড়া চারি ঔন্স টিনের ।৹ আট ঔন্স টিনের ॥৹ ও এক পোণ্ড টিনের ৸৹ ডাক মাশুল দিতে হইবে।

PURE SULPHATE OF QUININE

Manufactured at the Bengal Government Cinchona Plantation

The price of this Quinine is as follows —

1 Pound tin,	R16,	or, post free,	R16-12
½ "	R 8,	"	R 8-8
¼ "	R 4,	"	R 4-8

Analysis shows this Quinine to be of the purest manufacture, and it is guaranteed to be free from wilful mixture with the inferior alka loids Cinchonine and Cinchonidine It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Seebpore, near Calcutta It can be had either white or coloured pink

বঙ্গদেশের গবর্ণমেণ্টের সিন্‌কোনা আবাদে প্রস্তুত বিশুদ্ধ কুইনাইন।

এই কুইনাইনের নিম্নলিখিত মূল্য যথা—

১ এক পৌণ্ড টিন	১৬৲ বা ডাকমাশুল বিনা ১৬৶
॥ আধ	৮৲ বা ডাকমাশুল বিনা ৮।
শিশি	৪৲ বা ডাকমাশুল বিনা ৪।

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধরূপে প্রস্তুত করা হইয়াছে। এবং ইহা যে সিনকোনাইন ও সিনকোনী ডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছা পূর্ব্বক মিশান হয় নাই তাহার গারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারিগণের নিকট বিক্রয় করা যাইবে এবং কলিকাতার নিকট শিবপুরের কোম্পানির বাগানের সুপারিন্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারিবে। ইহা শাদা বা পাটল বর্ণের পাওয়া যাইতে পারে।

REVENUE DEPARTMENT

[*Revised Advertisement*]

A Dictionary of the Economic Products of India

By DR GEO WATT C I E,

Reporter on Economic Products

Published under the authority of the Government of India in the Revenue and Agricultural Department

The first five volumes and Volume VI, Parts I, II, and III, of the Dictionary are now ready at the Office of Superintendent of Government Printing No 8 Hastings Street Calcutta and will be supplied to non subscribers on receipt of the price for the complete set which is R45 in India and 3 guineas in England (exclusive of the Index for which a separate charge will be made) packing and postage in India 8 annas per volume, for England 2 rupees 6 annas per volume For copies bound in half calf or half morocco, R6 and 8 shillings respectively will be charged extra for the whole set

The Dictionary is intended to deal with the products of India—animal vegetable and mineral each product being treated after a uniform plan the paragraphs of which give the scientific vernacular and European names habitat or source history properties and uses (both chemical and industrial) trade statistics markets etc The work is arranged alphabetically according to scientific nomenclature but commercial and important vernacular names are also given as cross references so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks and with a reference to the original publication Numerous contributors have however furnished the results of new discoveries and confirmed the vernacular names so that the Dictionary is not only a complete compilation of published information but has been brought abreast of the most recent inventions and discoveries

Volume I contains the letters A and B and consists of 559 royal octavo pages Volume II embraces the letter C in 689 pages Volume III contains the letters D E F and half of G Volume IV latter half of G to middle of L and Volume V contains the latter half of L to end of O Vol VI (which will consist of four parts) Part I contains letters P to R The whole work will it is expected be completed in nine volumes (including Parts II to IV of Vol VI) during the current year but a tenth volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary The Index will practically be a glossary of the vernacular and European names of the plants animals and minerals of India and as such will be a work of reference which it is hoped may prove of considerable value

Technical Art Series published up to 1892 together with their explanatory Text—

1886 87 6 Plates with Text R1 8 a set (4*a*)

PROMISSORY NOTES

Destroyed

The Government Promissory Note, No 026951, of the 4 per cent loan of 1879, for (R1 000) one thousand only, last endorsed to Sri kakolapu Venkatarathnam of Cocanada, the proprietrix by whom it was never endorsed to any other person Payment of the above note and the interest thereupon has been stopped at the Public Debt Office, Bank of Bengal, and application is to be made for accrued interest, and for the issue of a duplicate in favour of the proprietrix after two years from the date of last advertisement

Name of the proprietrix

SRIKAKOLAPU VENKATARATHNAM,
Residence Cocanada, Godavari District

Lost

The 4 per cent. Government Promissory Notes of 1842-43, Nos 201702, for R1,000, 201701 and 201703, for R500 each, and No 299406 of 1865 for R500, originally standing in the name of Kristoprossonno Ghose, executor to the Estate of Akhoy Coomarie Dossie, deceased, by whom they were never endorsed to any other person Payment of the above notes and the interest thereupon has been stopped at the Public Debt Office, Bank of Bengal, and application is to be made for accrued interest, and for the issue of duplicates in favour of the proprietor, after two years from date of last advertisement

KRISTOPROSSONNO GHOSE,
Executor to the above-mentioned Estate

Lost

Two Government Promissory Notes, Nos $\frac{050524}{035783}$ and $\frac{054136}{041048}$ of the years 1854-55, 4 per cent loan, for R4,000, or R2,000 each, originally standing in the name of N Moezuddaulah Ehtishamulmulk Syed Mohamed Taki Khan Bahadur Asad Jang, deceased, and last endorsed on 20th May, 1892, to his minor son N Syed Mohamed Zaki Ali Khan *alias* Nabban Saheb, the proprietor, by whom it was never endorsed to any other person, having been lost on 17th May, 1893, notice is hereby given that payments of the notes and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, Calcutta, and Treasury Office, Lucknow, and that application is about to be made for the issue of a duplicate in favour of the proprietor

The public are cautioned against purchasing or otherwise dealing with the abovementioned securities

Irrigation

REVIEW OF THE REVENUE AND EXPENDITURE RECORDED UNDER THE HEAD "IRRIGATION WORKS" IN THE ACCOUNTS OF THE GOVERNMENT OF INDIA FOR 1891-92

No 177 I, dated Simla, the 2nd August 1893.

Read—

Note by R G Macdonald, Esq, Officiating Accountant General, Public Works Department, upon the accounts of Revenue and Expenditure recorded under the head "Irrigation Works" in the accounts of the Government of India for 1891-92.

RESOLUTION —This is the second year for which the Accountant General, Public Works Department, has submitted a note upon the accounts of Revenue and Expenditure of Irrigation works in India In reviewing the figures for the previous year, the Government of India took the opportunity of stating in a brief and general form (1) the classification of the works for purposes of account, (2) the sources from which funds for construction and maintenance are provided, and (3) the classes into which the works may be divided from an

engineering point of view It is not necessary to repeat this information on the present occasion, and this review will accordingly be confined to an examination and summary of the figures given in the Accountant General's note, supplemented by some details of interest taken from the Irrigation Revenue Reports of the different Provinces, all of which have now been reviewed by the Government of India

2 The first point to be noticed is that the figures for 1891-92 relating to works for which Capital and Revenue accounts are kept differ in one important respect from those for 1890 91 The indirect outlay under capital on account of (1) leave and pension allowances, and (2) the capitalised abatement of land revenue on land taken up for the projects, has now been included in the capital cost of the different works Similarly, the indirect outlay under revenue on account of leave and pension has now been included in the working expenses This change in form has been made in order to bring into accord the figures in this note and review, those in the statement of Financial Results submitted annually to the Secretary of State, and those in the Revenue Reports of the different Provinces and the reviews thereon by the Government of India. The result of course is to increase the capital outlay and to diminish the net revenue, with the effect, as observed in para. 6 of the Accountant General's note, of lowering the percentage of return derived from the works

3 The following statement shows in the same form as that in para 11 of the review for the previous year the return derived from the irrigation systems for which Capital and Revenue accounts are kept :—

Class of Work	Number of Works	Direct and Indirect capital outlay to end of 1891 92.	Gross Revenue.	Working expenses including Indirect charges.	Net Revenue	Irrigated area	Percentage of net Revenue on Capital outlay
IRRIGATION		Rx	Rx	Rx	Rx.	Acres	
I.—Major works—							
(a) Productive	35	27 585 682	2 068 849	809 674	1,259 175	7 393 361	4 56
Add—on account of old Irrigation in Madras			289,700	37 775	251 925		
TOTAL PRODUCTIVE	35	27 585 682	2,358 549	847 449	1 511 100	7,393 361	5 48
(b) Protective	8	1 821 726	36 823	26 252	10 571	167 123	0 58
II —Minor Works—							
Works for which Capital and Revenue accounts are kept	67	2,860 091	431 278*	253,263	178,015	2 123,659	6 22
GRAND TOTAL	110	32 267 499	2,826,650	1 126 964	1 699 686	9 684,143	5 27

* Includes share due to old irrigation in Madras.

The percentage derived from the Productive and Protective works is affected by the procedure referred to in the last paragraph. The return derived from the Minor works for which Capital and Revenue accounts are kept is further reduced by the omission of the revenue figures for certain works in Madras, which were not received in time If these figures were included, the net return from these works would be increased by Rx. 67,078(a), as shown in the margin, raising the percentage to 8 75.

(a)	Rx
Palar anicut	614
Poiney	5,791
Cheyar	5,016
Pelandorai anicut	2,371
Shatiatope	9 129
Vridhachalam anicut	2,054
Tirukoyilur	7 992
Lower Coleroon	37 641
TOTAL	70,608
Deduct—Collection charged at 5 per cent.	3,530
Net	67 078

4. It must further be repeated, as was pointed out in paragraph 12 of the review for 1890-91, that the above figures include a considerable unproductive outlay on works that are in progress and have not yet begun to earn

revenue Among the productive works there are two—the Sirsa branch of the Western Jumna Canal in the Punjab and the Periyar Project in Madras, which as yet earn no revenue, and the capital outlay on which, amounting to Rx. 122,228 and Rx 386,509 respectively, might be excluded in calculating the precentage of return Among the Protective works the Rushikulya Project in Madras, the capital outlay on which has amounted to Rx 278,719, is in the same category

5 The following figures exhibit the areas irrigated by and the gross revenue derived from the Major and Minor works during the last five years —

Year	Major Works		Minor Works.		Total.	
	Area irrigated	Gross Revenue	Area irrigated	Gross Revenue.	Area irrigated.	Gross Revenue
	Acres	Rx	Acres	Rx	Acres.	Rx
1887 88	5,806 043	1 852 298	1 540,373	331 829	7,346,416	2 184 127
1888 89	6 583 548	2 045,825	1 703 271	376,187	8,286,819	2 422 012
1889-90	7,047,553	2,137,441	1,829,312	377 972	8,876 865	2 515 413
1890 91	7 172,468	2 312 787	2 101 586	483,127	9 274,054	2 ,95 914
1891 92	7,560 484	2,395 372	2 123,659	*431,279	9 684 143	2,826 651

* Exclusive of figures for certain works in Madras which were not given in the Revenue Report for 1891 92

These figures show a steady and progressive improvement that is extremely satisfactory, the increase in both acreage and revenue during the five-year period having amounted to about 30 per cent

6 The estimated value of the irrigated crops under the Major and Minor works during 1891 92 amounted to Rx 30,402,976, giving an average, value of over Rx 4 per acre irrigated As was observed in last year's review, the estimated value of the crops in one year is thus very nearly equal to the whole capital outlay incurred on these works This affords perhaps the most striking proof of the indirect benefits conferred on the country by these irrigation systems

7 The average rate per acre of assessed revenue is given in paragraphs 22 and 41 of the Accountant General's note for Major and Minor works respectively For the former the average rate amounts to Rx 0·31 per acre, being highest in the North-Western Provinces and lowest in Bengal

The average rate of assessment under Minor works in Rajputana, which is shown as amounting to the large sum of Rx 0 72 per acre, is due to exceptional causes The monsoon in Rajputana was practically a failure both in 1890 91 and 1891 92, so that most of the tanks were dry, and the assessments had to be very largely reduced after the accounts for the year had been closed

8 The principal crops irrigated during 1891-92 are shown in the following statement —

Province	Rice	Wheat	Jowar (Sorghum Vulgare)	Bajra (Penicillaria Spicata)	Sugarcane	Cotton	Barley	Indigo
	Acres	Acres	Acres	Acres	Acres.	Acres	Acres	Acres
Bombay (including Sind)	658,263	297 460	425,563	360,461	9,694			
Punjab	184,637	1,120,982	157 146	114,879	91,238	188,072		
Bengal	505 901	76,845			20,189		44,369	
Madras	2 402,797			56 290	..			
North Western Provinces	149 045	755,786		.	245,667	88 647	108,821	174,546
Total	3 900 646	2 251,073	582,709	531,630	366,788	276 719	153 190	174,546

The variations between these figures and those for the previous year are not very important The increases are mainly under wheat (about 300,000 acres), sugarcane (66,000 acres), rice (47,000 acres), and barley (35,000 acres).

The decreases are principally in cotton (153,000 acres) and indigo (50,000 acres)

9 The following figures exhibit for the different Provinces the percentage on the gross revenue of the cost of revenue management including collection charges and of the ordinary up keep of the Major works —

PROVINCE	Revenue management per cent	Up-keep per cent	Total per cent
Madras	8 8	14 2	23 0
Punjab	12 1	25 1	37 2
North Western Provinces	12 7	25 2	37 9
Bombay, excluding Sind	15 2	32 8	48 0
Sind	11 4	35 3	46 7
Bengal	28 1	61 8	89 9

10 The following figures show the total cost of working per acre irrigated by the Major works —

	1891 92 Rx	
Sind	07	
Madras	08	Including old maintenance charges
Punjab	11	
North Western Provinces	14	
Bengal	19	Excluding maintenance of Tidal canal
Bombay, excluding Sind	28	

Madras again heads the list for economy in working, but the fact that distribution in Madras is more largely in the hands of cultivators instead of being at the charge of the Public Works Department as in Northern India has to be remembered In Bengal the cost of working is very high, but this is partly accounted for by the exceptional conditions obtaining on the Sone and Orissa systems

11 The following statement gives for the principal canals of each province, including some for which capital accounts are not kept, particulars of the length of completed main canal and distributary, the maximum discharge at head, the average discharge during the two seasons into which the year is divided for purposes of cultivation, the area irrigated by each canal during each of these two seasons, and also by flow and lift, and, finally, the duty of the water calculated according to the discharge at the head of the canal and the average number of irrigating days during each season Speaking generally, the kharif may be taken as the summer season lasting from April to October, and the rabi as the winter season lasting from October to March But as regards some parts of India, and especially Madras, the distiction thus drawn is

somewhat arbitrary, the division between the summer and winter crops being not at all clearly defined —

Province	Canals	Length of completed main and branch canal (miles)	Length of completed distributaries (miles)	Maximum discharge at head of canals (cubic feet per second)	Average discharge at head of canals (cubic feet per second)		Area irrigated (Acres)					Area irrigated per cubic foot per second of average discharge at head (Acres)	
					Kharif	Rabi	Kharif	Rabi	Total.	Flow	Lift.	Kharif	Rabi

	Total	6,810	19,202				4,965,043	3,310,778	8,275,821	7 171,643	946,684		

N B —The figures in brackets in columns 13 and 14 denote the number of days on which the irrigating duty is calculated.

12 So far only Irrigation works, or works in which irrigation is combined with navigation have been dealt with in this review The following figures give for the Navigation works proper particulars similar to those already given in paragraph 3 for the former class of works —

Class of Works	Number of works	Direct and in direct capital outlay to end of 1891 92	Gross revenue	Working expenses including indirect	Net Revenue	Percentage of net Revenue on Capital outlay
	Rx	Rx	Rx	Rx	Rx	Rx
Navigation—						
I —Major works—						
(a) Productive	1	228,921	3,691	5,068	—1,377	
II —Minor Works	6	1,776,560	68,679	60,453	8 226	0 46
Total	7	2,005,481	72,370	65,521	6,849	0 34

The capital outlay and the working expenses have been increased by the inclusion of indirect charges, in the manner referred to in paragraph 2, as compared with the figures given in last year's review The receipts only show a small increase over those for 1890-91, and inland navigation in India will never, it may be feared, give a productive return on the capital outlay incurred, though the indirect benefits are very considerable

13 The following figures give some details of the navigation operations of the year, the canals in which navigation is combined with irrigation being included —

Provinces	Length of canal open for navigation	Ton mileage	Estimated value of cargoes	Estimated value of rafts	Number of passengers carried
1	2	3	4	5	6
	Miles	Millions	Thousands of Rx	Thousands of Rx	
Punjab	432			242	
Bengal	673	52 460	10 590	60	457,701
Madras	1,232	39 450	5,817	452	465,578
North Western Provinces	535	7 004	257	24	3,896
Total	2,872	98 914	16,664	778	927,175

14 In addition to the Irrigation and Navigation works for which Capital and Revenue accounts are kept, which have been dealt with in the preceding paragraphs, there are a very large number of small works scattered over the country for which only revenue accounts are kept or for which no revenue account even is kept The majority of these works are maintained by the Public Works Department, and the cost of maintenance appears therefore in the Public Works accounts, the figures for 1891 92 amounting to Rx. 711,704 being given in paragraph 43 of the Accountant General's note As regards Revenue, however, only the direct receipts realised by the Public Works Department are credited in the Public Works accounts, the revenue due to irrigation, which is assessed and collected with the land revenue, not being separated and credited as an indirect receipt. The immense importance of these works can, however,

hardly be exaggerated. The figures in the following statement relating to them are taken from the Revenue reports of the different Provinces. These figures must be accepted as approximate only, but they are quite sufficiently accurate for all practical purposes, agricultural works are excluded —

PROVINCE.	Gross Revenue	Working expenses including collection charges	Net Revenue	Area irrigated
	Rx	Rx	Rx	Acres
Bombay, excluding Sind	52,797	16,965	35,832	145,597
Sind	217,356	97,456	119,900	936,760
Punjab	42,293	23,375	18,918	304,056
Bengal	20,295	14,944	5,351	
Madras	621,107	230,811	390,296	2,720 872
TOTAL	953,848	383,551	570,297	4,107,285

It will be seen that collectively these works irrigate an area nearly half as large as the area under the Major and Minor works included in the statement in paragraph 3 Combining the results in these two statements, it would appear that the area under irrigation in India excluding Burma amounts approximately to 13,800,000 acres, or 21,562 square miles, bringing in a net revenue of about Rx 2,272,000 If the value of the irrigated crops be taken at Rx 4 per acre on the average, the resultant value of the produce is not less than Rx 55,200,000

15 Of the four works under contemplation but on which work had not been begun, referred to in paragraph 26 of the review for 1890-91, the Chenab Canal extension is now in active progress, and the estimate for the Cawnpore extension of the Lower Ganges Canal has been sanctioned by the Secretary of State The Jhelum Canal and the Kalingaroyen Channel projects are still awaiting the completion of works in hand before being begun

16 The report of the Committee on the improvement and extension of irrigation in Sind referred to in paragraph 27 of last year's review has been received and considered by the Government of India Action is now being taken thereon by the Bombay Government and important developments of irrigation are likely to result Detailed instructions have been issued regarding the preparation of irrigation projects in Burma, and the correct apportionment of revenue therefrom The receipt of definite proposals for irrigation in Burma is still awaited

17 In reviewing the Revenue Reports of the different Provinces the Government of India have expressed satisfaction of the manner in which irrigation officers have conducted their duties, and in concluding this general review of irrigation operations throughout India in 1891 92 the Governor General in Council desires to record his appreciation of the substantial progress made during the year, as evidenced by the figures in the Accountant General's note and in this Review

---

ORDER —Ordered, that the foregoing, with a copy of the note by the Officiating Accountant General, Public Works Department, be forwarded to the Local Governments and Administrations in the Public Works Department noted on the margin for information

The Governments of Madras Bombay Bengal, the North Western Provinces and Oudh and the Punjab
The Chief Commissioners of the Central Provinces, Burma, Assam, and Coorg
The Resident at Hyderabad.
The Agents to the Governor General for Central India Rajputana, and Baluchistan
The Accountant General Public Works Department

Ordered also, that a copy of the Review and note be forwarded to the Revenue and Agricultural and Finance Departments, and that the papers be published in the Supplement to the *Gazette of India*

Ordered further, that a copy of the Review and note be forwarded to Her Majesty's Secretary of State for India for information

F L O'CALLAGHAN,

Secretary to the Government of India

Document accompanying

Note by the Officiating Accountant General, Public Works Department, dated 6th May 1893

Note by R G Macdonald, Esq, Officiating Accountant General, Public Works Department, upon the accounts of Revenue and Expenditure of Irrigation Works in India for 1891-92.

The figures in the accounts submitted herewith agree with the Finance and Revenue accounts of the Government of India, but in this note certain figures are added from the Administrative accounts of the Public Works Department, Irrigation Branch the Revenue reports of Irrigation Works and the Annual Statement of the Financial Results of Irrigation Operations in India, prepared for submission to the Secretary of State for India

2 The irrigation works in India are divided into two main classes, *viz*, Major Works and Minor Works

Major Works are sub divided into—

(*a*) Productive Works, the Capital of which has been provided from borrowed money, and

(*b*) Protective Works, the Capital of which has been provided out of the general revenues of India

Minor Works are sub divided into—

(*a*) Works for which Capital and Revenue accounts are kept, and

(*b*) Works for which Capital accounts are not kept

3 Capital and Revenue accounts are kept for all Major Irrigation Works There are 44 projects falling under this category—*vide* statement given in para graph 10 below

Of these, 36 were sanctioned as works expected to be remunerative, *i e*, to pay the cost of up keep and interest on the Capital outlay They were or are being constructed from funds provided outside the general revenues. The remaining 8 projects* were sanctioned as works of protection against famine, and the cost of their construction has been or is being paid for out of the annual grants under famine insurance

* *North Western Provinces and Oudh*
1 Betwa Canal
Punjab
2 Swat River Canal
Madras
3 Rushikulya Project
Bombay Deccan and Gujarat
4 Nira Canal
5 Mhaswad Tank
6 Chankapur Tank
7 Maladevi Tank
8 † Gokak Canal 1st section
† Now classed as a minor work and combined with Gokak Storage Works

4 The works classed as Minor Irrigation Works are numerous Capital and Revenue accounts are kept for 73 projects falling under this category, for the others one account only of receipts and charges for each work or group of works is kept The two works in Baluchistan, *viz*, Zara Karez and Nari Canal, shown last year under the head "Works for which Capital and Revenue accounts are kept," have been removed from this class and are included this year in the table given in para 48 of this note, *i e*, "Works for which Capital accounts are not kept" It has been decided that in future Capital and Revenue accounts should be kept of all new Minor Irrigation Works, the estimated Capital outlay on which is more than Rx 5,000 inclusive of Establishment and Tools and Plant charges, provided there is good reason to anticipate that the revenue derived therefrom will more than cover the working expenses

5 The general results of works for which Capital and Revenue accounts are kept are as follows —

	Major Works Rx	Minor Works Rx	Total Rx
Capital outlay			
During 1891 92	859,239	75,333	934,572
To end of 1891 92	29,636,329	4,636,651	34,272,980
Revenue Account, 1891-92			
Gross Revenue	2,109,363	452,037	2,561,400
Maintenance and Working	840,994	312,141	1,153,135
Net Revenue	1,268,369	139,896	1,408,265
Interest	1,109,673		
Net profit	158,696		
Percentage of net Revenue of the year on the Capital outlay to end of the	4 28	3 02	4 11

6 The figures of Capital outlay and working expenses shown in the above table include indirect charges on account of leave and pension allowances and capitalization of abatement of land revenue, which were not taken into account in my note on the accounts of revenue and expenditure of Irrigation Works for 1890 91 This chiefly accounts for the decrease in the percentage of net revenue of the year from Major Works compared with that of the previous year The decrease under Minor Works is due partly to this cause and partly to the irrigation revenue from some works in Madras having been omitted from the gross revenue for the year owing to the necessary figures not having been received from the Board of Revenue as explained in paragraph 35 of this note

7 The Capital outlay on Major Works includes the outlay on the projects noted in the margin, which were under construction in 1891 92, and have not yet commenced to earn revenue When these projects are completed, and the full amount of revenue is realized from them and the Chenab and other canals which have been recently opened for irrigation, the net profit from this class of works will be considerably larger than at present

Sirsa Branch of the Western Jumna Canal
Nira project
Rushikulya project

8 The receipts and charges of the year 1891 92 on Revenue account, exclusive of the figures relating to Minor Works for which Capital accounts are not kept, are detailed in the following statement by funds and provinces

1891-92

	Imperial					Provincial					Local			Total

(b) This is now classed as a minor work and combined with Gokak Storage works

11 Taken collectively by provinces the percentage of net revenue on the Capital outlay of Major Works is as follows for 1891-92:—

1	Madras	6 19
2	Punjab	5 65
3	North-Western Provinces and Oudh	5 53
4	Bombay—Sind	4 53
5	Bombay—Deccan and Gujarat	1 16
6	Bengal	25
	Total	4 28

12 The systems which in 1891 92 paid over 4 per cent are arranged below in the order of the rate paid —

1	Cauvery Delta System	36 70
2	Eastern Jumna Canal	21 84
3	Godavari Delta System	13 39
4	Kistna " "	12 83
5	Sidhnai Canal	11 10
6	Begari "	10 25
7	Western Jumna Canal	8 90
8	Ganges Canal	7 61
9	Bari Doab "	7 16
10	Sirhind "	6 06
11	Srivaikuntham Anicut System	5 74
12	Eastern Nara Works	5 68

13 The systems that have, up to the end of 1891-92, paid off the accumulated interest on the capital expended on them are noted below —

		Surplus Rx.
1	Western Jumna Canal	3,053,407
2	Godavari Delta System	2,580,488
3	Cauvery " "	1,815,905
4	Eastern Jumna Canal	1,482,185
5	Kistna Delta System	1,248,137
6	Bari Doab Canal	183,230
7	Begari "	144,951
8	Desert "	73,424
9	Penner Anicut System	67,684
10	Sidhnal Canal	32,525
11	Unharwah	10,623
12	Srivaikuntham Anicut System	1,825
	Assuming that the works are still worth the amount charged in each case to the Capital account, this represents to end of 1891-92 a net profit to the State on these systems of	10,694,484
	The charge to the State on other Major Works is	7,945,589
	Leaving a net profit to date on all Major Works of	2,748,895

14 The following statement shows to the end of each year for the last five years the net charge to the State on projects which are expected eventually to pay off the accumulated interest on their Capital cost —

	Date of completion	1887 88	1888-89	1889 90	1890-91.	1891-92

TOTAL		1 571 218	1 643 310	1 677 452	1 616 914	1 478 688

NOTE — The difference between these figures and those in the previous year's note is due to the addition of indirect charges

15 The total loss to the State on account of works mentioned in the above table was reduced by Rx 138,226 during 1891 92 This is due to larger collections on the Ganges and Sirhind canals and the Eastern Nara Works, owing to expansion of irrigation The net revenue earned by the Sirhind canal during 1891 92 after paying off interest charges amounted to Rx 53,983, against Rx 17,295 in the previous year

16 The Chenab canal, though not entered in the foregoing table, was opened for irrigation in 1887, but the works on the canal were not completed till 1892 93 The revenue realized from this canal up to the end of 1891 92 was less than the working expenses by Rx 13,053, and the accumulated interest charges amounted to Rx 93 889, thus raising the total charges to the canal to Rx. 106,942 As an ample supply of water is now assured to the canal by the completion of the permanent head works, a rapid increase of revenue is expected, which will soon clear off these charges

17 The under noted works, which were allowed to be constructed from borrowed money prior to the introduction of the rules laying down conditions which must be fulfilled before a work may be classed as Productive, are not expected to repay the accumulated interest charges on the capital invested in them

	Total outlay to 31st March 1892

19 It will be observed from the foregoing statement that taken collectively the revenue from all Major Irrigation Works is steadily increasing. The average increase during the four years ending 1891 92 is Rx 132,553.

20 The increase in Bengal in 1891-92 was principally due to the recovery of old outstandings on the Midnapore canal and the Sone project, and to a greater demand for water, especially from the Orissa canals In the North-Western Provinces and Oudh and Punjab the increase was due to an expansion of irrigation The decrease in Madras was due to large remissions granted on the Penner and Sangam anicut systems, while that in Bombay was due to the supply of water in the canals in Sind being insufficient to meet demands and to damage to crops by locusts.

21 The following statement shows for each Major Work during the five years ending 1891 92 the gross revenue and the irrigated area, and the mileage of canals completed at the end of each year

Major Works.	Gross Revenue 1887-88	1888-89	1889-90	1890-91	1891-92.	Irrigated area in acres 1887-88	1888-89	1889-90	1890-91	1891-92.	Mileage in operation (including distributaries) 1887-88.	1888-89	1889-90	1890-91	1891-92.

22 In the following table, which gives the rate per acre irrigated during 1891 92, the irrigation revenue is the share of enhanced land revenue due to irrigation *plus* water rates, and owners' rates —

Province	Irrigation revenue. (Assessed)	Irrigated acreage	Rate of revenue per acre.
	Rx	Acres	Rx
North Western Provinces and Oudh	648,418	1,912,851	34
Madras	799,412	2,413,591	33
Punjab	617,087	1,963,041	31
Bombay	108,979	534,620	20
Bengal	137,786	736,381	19
TOTAL	2,311,677	7,560,484	31

23 The charges for maintenance and working for the year 1891-92 are detailed in the following statement and compared with the outlay of the previous four years Large sums have in the past been charged to Revenue in connection with extensions and improvements, a portion of which would, in the case of Railways, be charged to Capital, the total amount so charged in 1891 92 being Rx 58,127 Under Public Works Department Code, Volume II, Chapter XV, paras 156 A and B, as introduced by Standing Order No 261 of the 3rd October 1892, the greater portion of such outlay on extensions and improvements of canals, whose construction estimates are closed, will in future be charged to the Capital account of the canals

24 The foregoing table shows that the expenditure in the Punjab is annually increasing This is due chiefly to the maintenance and repairs of additional lengths of canals opened for irrigation

25 The decrease in Madras during 1891 92, as compared with the previous year, is due to the outlay in 1890 91 being very large owing to the write back from the Capital to the Revenue account of the value of the old lock at Vijeshweram in the Godavari Western Division

26 The increase in Bombay is due to the widening of the Begari canal

27 The expenditure under this head is being specially considered by the Government of India, with the object of seeing whether it can be reduced without injuring the efficiency of the canals.

28. The cost of maintenance and working per irrigated acre in the different provinces during the past five years and the percentages of maintenance and working on gross revenue are as follows —

Cost of maintenance and working per irrigated acre

(a) Excludes Rx 47 920 share due to old irrigation

31 The net revenue derived in 1891 92 from the works constructed for irrigation purposes taken collectively amounted to 4 60 per cent on the Capital outlay, though many projects are still worked at a loss The net revenue earned by these works to the end of 1891 92 is about 1½ times the amount of Capital outlay upon them The best paying works under this class are the inundation canals in the Panjab and the works in Sind

It must be held to be very satisfactory that these works, which were constructed chiefly for the general improvement of the country, are paying upwards of 4 per cent on the Capital invested in them

32 The revenue realized from the navigation canals has also exceeded the working expenses by Rx 8,226

33 Certain feeder roads are now being constructed in connection with the Orissa Coast Canal, on their completion an increased amount of traffic will, it is expected, be brought to the southern portions of the canal

34 The revenue derived from Minor Works for which Capital and Revenue accounts are kept during 1891 92 is detailed in the following statement, and compared with the revenue of the previous four years

	Irrigation Revenue													Totals of previous four years.			
	Share of enhanced land revenue due to irrigation works.	Water rates	Owner's rates	Sale of water	Water-supply of towns.	Plantations	Other canal produce	Water power	Navigation receipts	Rents of buildings	Fines	Miscellaneous	Total	1890-91	1889-90.	1888-89	1887-88.

35 It will be seen from the above that there has been on the whole a steady annual increase in the revenue derived from Minor Works during the four years ending 1890-91, but during the year under review there is a sudden decrease which occurs chiefly in Madras owing to the omission from the figures for 1891 92 of the irrigation revenue derived from the Palar, Pelandorai, Lower Coleroon and Shatiatope anicut systems, information regarding these works not having been supplied by the Board of Revenue before the accounts of the year were closed The irrigation revenue derived from these systems in 1890 91 was Rx 49,290 The growth of revenue is specially noticeable in Bombay, where it has increased from Rx 99,243 in 1887 88 to Rx 146,135 in 1891 92 The increase occurs chiefly on the canals in Sind, especially the Ghar, Sukkar and Fulelı In some provinces the revenue remains comparatively stationary, in others there are considerable fluctuations

36 The decrease in Rajputana was due to the unfavourable nature of the seasons

37 The working expenses of the year 1891 92 and of the previous four years are shown in the following statement,—

	Extensions and improvements	Maintenance and repairs	Establishment	Tools and plant	Profit and loss	Suspense	Total direct charges	Indirect charges	Total	Totals of previous four years. 1890-91	1889-90	1888-89	1887-88

1887-88	21 697	126 126	76 147	3 718	23	—6	227 705	8 808	236 513				

38 Here also, as under Major Works, there is a large outlay on extensions and improvements charged to Revenue, a part of which in the case of railways would have been charged to Capital, *vide* para 23, *ante*

39 The annual increase in the outlay on maintenance and working of all works in this class taken collectively is closely commensurate with the annual increase in the revenue derived from them The increase during 1891 92 over that of the previous year occurred chiefly in Lower Burma and Madras In Lower Burma the increased outlay was necessary for raising, strengthening and retiring the Irrawaddy embankments threatened by river encroachments, and in Madras large outlay was incurred on the Buckingham Canal under maintenance and repairs, owing to heavy clearances and the opening of two bars so as to increase the depth of water in the canal

The increase of Rs 4,710 in Rajputana was due to the construction of famine relief works

40 The following table gives the percentages of expenditure on revenue in each province during the past five years —

Provinces	1887-88			1888-89			1889-90			1890-91			1891-92

41 The rates per irrigated acre in the different provinces during the year 1891 92 were as follows —

	Irrigation revenue (Assessed)	Irrigated acreage	Rate of revenue per acre
	Rx	Acres	Rx
Rajputana	8,626	11,987	72
Baluchistan	1 641	7,732	21
Bengal	1,100	5,965	19
North Western Provinces and Oudh	24 115	133,549	18
Bombay	142,864	787,604	18
Madras	61 750	378,998	
Punjab	72,855	800,239	09
Total	312,951	2,126,074	
Lower Burma	(a) 77,706		
Total	390 657		

(a) Represents actual collections
NOTE —No acreage is quoted against Lower Burma as the works concerned are only river embankments

The rate per acre irrigated in Madras during 1891 92 has been omitted as the revenue from the Shatiatope and Lower Coleroon Anicut systems has not been included in the figures of irrigation revenue shown in the above statement for the reasons given in para 35

42 Besides the transactions noted in the foregoing paragraphs, a sum of Rx 44 was spent in 1891 92 on the works shown below, for which Capital accounts are kept, but which are now in abeyance —

	Rx
Bengal—	
Damodar Project	—120
North Western Provinces and Oudh—	
Bundelkhand Irrigation Survey	24
Bombay—	
Gokak Canal, 2nd Section	140
Total Rx	44

Works for which Capital Accounts are not kept

43 The receipts and expenditure on account of these works during 1891 92, as recorded in the Finance and Revenue accounts, are shown in the following statement, in comparison with the transactions of the previous four years —

(a) For Zara Karez the outlay on which in previous years was recorded under the head 'Works for which Capital and Revenue accounts are kept

F

44 The rise in the expenditure during 1891 92 was due to the construction of famine relief works in Upper Burma, to the construction of a lock at Wimpadaw in connection with the Kyaikto Sittang canal in Lower Burma, to the construction of a new canal from the Kabul river to Nowshera in the Punjab, and to larger amounts having been made available from Provincial funds for expenditure in Madras

45 The share of enhanced land revenue due to irrigation by the Muzaffargarh canals in the Punjab amounts to Rx 26,160, but as information regarding this source of revenue is not obtainable in connection with other works under this head, it has not been included in the above statement

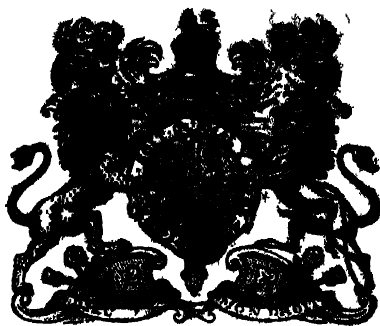

46 Under this head appear at present the only irrigation works in Upper Burma Orders have been issued by the Government of India for the preparation of Capital and Revenue Accounts of all important works A trifling sum of Rx 14 on account of Revenue has been credited to Government in the accounts of the Public Works Department in 1891 92 Whatever revenue may be due to irrigation from old Burmese works has since the annexation of Upper Burma been credited to "Land Revenue" in the accounts of the Civil Department

LEGISLATIVE DEPARTMENT

NOTIFICATION

Simla the 18th August 1893

No 26 —Whereas by Resolution passed by the Secretary of State for India in Council on the sixteenth day of March, 1871, the provisions of the 33rd of Vict Chap 3, Sec 1, were declared applicable to Ajmere and Merwara

And whereas the Chief Commissioner of Ajmere and Merwara has proposed to the Governor General in Council a draft of the following Regulation, together with the reasons for proposing the same,

And whereas the Governor General in Council has taken the draft and reasons into consideration, and has approved of the draft, and the same has received the Governor General's assent on the 16th day of August, 1893,

In pursuance of the direction contained in the said section, the said Regulation is now published in the *Gazette of India* and local Gazette for Ajmere and Merwara

REGULATION NO IX OF 1893

A Regulation to repeal certain Obsolete Enactments and to amend certain other Enactments applying to Ajmere and Merwara

WHEREAS it is expedient that certain enactments specified in the first schedule to this Regulation which are spent, or have ceased to be in force otherwise than by express specific repeal, or have by lapse of time or otherwise become unnecessary, should be expressly and specifically repealed

And whereas it is also expedient that certain formal amendments should be made in the enactments specified in the second schedule to this Regulation

It is hereby enacted as follows

Title extent and commencement

1 (*1*) This Regulation may be called the Ajmere Repealing and Amending Regulation, 1893

(*2*) It extends to the territories administered by the Chief Commissioner of Ajmere and

subject to the provisions of the Statute 33 Victoria, Chapter 3, section 1, and

(3) It shall come into force at once

2 (1) The enactments specified in the first schedule are hereby repealed to the extent mentioned in the fourth column thereof

Enactments in schedules repealed and amended respectively

(2) The enactments specified in the second schedule shall be modified to the extent and in the manner mentioned in the fourth column thereof

3 The repeal by this Regulation of any enactment shall not affect any Act or Regulation in which such enactment has been applied, incorporated or referred to

Savings

and this Regulation shall not affect the validity, invalidity, effect or consequences of anything already done or suffered, or any right, title, obligation or liability already acquired, accrued or incurred, or any remedy or proceeding in respect thereof, or any release or discharge of or from any debt, penalty, obligation, liability claim or demand, or any indemnity already granted, or the proof of any past act or thing

nor shall the repeal by this Regulation of any enactment provide or restore any jurisdiction, office, custom, liability, right, title, privilege, restriction, exemption, usage, practice, procedure or other matter or thing not now existing or in force

RATES OF EXCHANGE

No 3624 *A*

Simla the 18th August 1893

RESOLUTION—By the Government of India, Finance and Commerce Department

During the past year and a half numerous representations have reached the Government of India from European officers in Government service, bringing to notice the hardship which they have undergone in consequence of the fall in the rate of exchange, and praying for the adoption of measures of relief The facts which came to the knowledge of the Government of India left no doubt that the distress from which their servants were suffering was widespread and severe, and His Excellency the Governor General in Council has lost no opportunity of expressing his sympathy with those who have been affected, and of urging upon the Secretary of State the necessity of applying an early and adequate remedy It was not, however, found possible to deal with the matter while measures regarding the reform of the currency were still under consideration His Excellency the Governor General in Council is now able to announce that the Secretary of State has been pleased to accord his sanction to the following scheme

To every European and Eurasian Officer of Government, Civil or Military, not domiciled in India (except those whose pay is fixed in sterling and converted into rupees annually at the official adjusting rate) will be granted an allowance, to be designated Exchange Compensation Allowance, sufficient to enable each officer to remit to Europe one half his salary, subject to a maximum limit of £1,000 a year, at a privileged rate The privileged rate has been fixed until further orders at 1*s* 6*d* the rupee The allowance, which will be admissible whether any remittance is actually made to Europe or not, will be given in the form of a percentage on the officer's salary, varying with the rate of exchange assumed as the market rate for the quarter, and calculated to yield an amount equal to the difference between one half salary converted at 1*s* 6*d*, and one half salary converted at the average market rate The allowance will be payable month by month along with pay, and under the rules under which pay is drawn, and will be subject in every case to an annual maximum equal to the difference between £1,000 converted at 1*s* 6*d*, and the same sum converted at the average market rate

2 Rules have been framed prescribing the manner in which the percentage for each quarter shall be calculated, and defining the conditions under which the allowance may be drawn, and these are published herewith for general information The Secretary of State has been pleased to authorize effect being given to the rules from the beginning of the current official year 1893 94, and the allowance will accordingly be granted in respect of all payments of salary which became payable on or after the 1st April 1893 For the first quarter of the present official year, April to June, the percentage has been fixed at 10 81, corresponding

to an exchange of 1*s* $2\frac{4}{5}$*d* to the rupee, this being the actual average rate during that quarter For the second quarter, July to September 1893, the percentage has been fixed at 7 6, corresponding to an exchange of 1*s* $3\frac{5}{8}$*d*, that being the actual average market rate from 1st July to the date of the Secretary of State's sanction to the scheme now announced For future quarters the percentage will be fixed in the manner prescribed in the rules

3 From the date when these rules come into force, the present system under which family remittances are made through the Government account by military officers and some others will cease, except in cases where this course is inconsistent with the terms of any contract of service In the case of officers who have made family remittances since the 1st April last, an adjustment will be made when paying them their arrears of Exchange Compensation Allowance Officers who have made family remittances since 1st April last should refer to their Account Officer before presenting for payment their bills for the arrears from 1st April of the Exchange Compensation Allowances now sanctioned

4 The Secretary of State has further been pleased to sanction the payment of furlough allowances from the Home Treasury at the same privileged rate of 1*s* 6*d* to the rupee This concession also will take effect from the 1st April last in lieu of the special rate of 1*s* $4\frac{3}{4}$*d* provisionally sanctioned in the Notification in this Department, No 823 A, dated the 27th February 1893, published in the *Gazette of India* of the 4th March 1893

ORDER —Ordered, that the Resolution be communicated to the several Departments of the Government of India, to all Local Governments and Administrations, to all Heads of Departments subordinate to the Finance Department, to the Comptroller and Auditor General, and to all Accountants General and Comptrollers

Ordered also, that the Resolution be published in the *Gazette of India*

Rules referred to in paragraph 2 of Finance Department Resolution No 3624 A of 18th August 1893

EXCHANGE COMPENSATION ALLOWANCE

1 The allowance admissible under these rules is called Exchange Compensation Allowance It is granted to European and Eurasian officers of Government not domiciled in India to compensate them for the extra cost of remittance to Europe occasioned by the fall of the value of the rupee below 1*s* 6*d*, which is herein called the "privileged rate"

2 The allowance is granted with the view of enabling every European or Eurasian officer of Government not domiciled in India to remit to Europe half his salary at the privileged rate, subject to a maximum limit of £1,000 a year

3 In case of doubt the Local Government will decide whether any officer is domiciled in India or not so domiciled for the purposes of these rules But any European or Eurasian officer to whom the rules in Chapter XIII of the Civil Service Regulations apply may be assumed without further proof to be entitled to the allowance admissible under these rules

4 The allowance is not admissible to any officer whose pay is fixed in sterling and is converted into rupees at the rate of exchange fixed annually for the adjustment of transactions between England and India

5 The allowance is granted irrespective of whether any remittance is actually made or not

6 Officers will be enabled to remit half salary at the privileged rate if they receive a percentage on half salary equal to the proportion by which the privileged rate exceeds the market rate of remittance, or half that percentage on the full salary The allowance is accordingly given in the form of a percentage on the full salary drawn limited to the amount which would be admissible on a remittance of £1,000

7 The percentage will be calculated for each quarter with reference to the difference between the privileged rate and the rate fixed as the approximate market rate applicable to the quarter—see rule 8 Thus, if the market rate of exchange applicable to any quarter is 1*s* 4*d* the difference between this and the privileged rate is equivalent to a percentage of $12\frac{1}{2}$ on that market rate, and the difference between the cost of remitting £1,000 @ 1*s* 6*d* (Rs $13,333\frac{1}{3}$) and at 1*s* 4*d* (Rs 15,000) is Rs $1,666\frac{2}{3}$ The

allowance payable during the quarter would therefore be granted at 6¼ per cent on the full salary limited to the maximum of Rs 1,666 10-8

8 The market rate applicable to any quarter will be approximately the average of the Calcutta demand rate during the preceding quarter, and will be calculated and notified by the Comptroller General before the beginning of the quarter

9 The market rate fixed for any quarter will be applicable to all payments of salary falling due during that quarter Thus, the rate fixed for the quarter July to September will apply to salary payable between the 1st July and 30th September,—i e, ordinarily to the salary for the months of June, July, and August

10 For the purpose of illustration, a table is appended showing the percentage admissible on full salary and the maximum allowance admissible at the rates which have been fixed as the market rates for the quarters April to June 1893 and July to September 1893, and at some other rates above and below 1s 4d

11 In the case of officers whose emoluments are regulated by the Civil Service Regulations, the allowance is admissible only on 'Salary' as defined in Article 47, Civil Service Regulations In the case of officers whose emoluments are regulated by the Army Regulations, India, it is admissible only on Pay, Indian Allowances and Staff Pay

12 The allowance may be drawn regularly with pay in the manner and under the rules under which pay is drawn and will be charged to the same head as pay, but under a separate detailed head

Table of percentage on salary admissible as Exchange Compensation Allowance

PART V

Bills introduced in the Council of the Governor General of India for making Laws and Regulations, Reports of Select Committees presented to the Council, and Bills published under Rule 22

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 17th August, 1893

NO 12 OF 1893

A Bill to make provision for certain matters connected with the Tributary Mahals of Cuttack

WHEREAS it is expedient to repeal certain enactments relating to the Tributary Mahals of Cuttack and to indemnify certain persons and validate acts done by them in, or in relation to, the said Mahals, and to admit of certain sentences passed in those Mahals being carried into effect in British India, It is hereby enacted as follows

Title extent and commencement

1 (1) This Act may be called the Tributary Mahals of Cuttack Act, 1893

(2) It extends to the whole of British India, and

(3) It shall come into force at once

Repeal

2 The enactments specified in the schedule are repealed to the extent mentioned in the fourth column thereof

Indemnity in respect of acts done before the commencement of this Act

3 No suit, prosecution or other proceeding shall be begun or continued in respect of any act done before the commencement of this Act by any officer of the Government in respect of any of the Tributary Mahals of Cuttack or any inhabitant thereof, such act purporting to have been done in the exercise of executive or judicial authority, and having, before or after the commencement of this Act, been ratified by the Government, and every such act is hereby confirmed and made valid, and every such officer indemnified and discharged from liability in respect thereof

Execution in British India of certain sentences passed in Tributary Mahals

4 (1) The Lieutenant Governor of Bengal may authorise the reception, detention or imprisonment in any place under his government, for the period specified in the sentence, of—

(a) any person sentenced to imprisonment or transportation for any term by any Court or tribunal acting under the authority of the British Government in or in respect of, any Tributary Mahal in Cuttack

(b) any Native Indian subject of Her Majesty residing in any such Mahal, or any native subject of a Chief of any such Mahal, when, in either case, such Native subject as aforesaid has been sentenced by such a Chief or by a subordinate Court of such a Chief to imprisonment for a term exceeding six months

(2) The place or places within the territories subject to the Lieutenant Governor of Bengal in which persons may be received,

detained or imprisoned under sub section (1) shall be such as the said Lieutenant Governor may, by general or special order, direct

(3) A sentence shall be of the same force and effect in the place in which it may be carried into effect under this section as if it had been passed by a competent Court in that place

THE SCHEDULE

Year	Number	Subject	Extent of repeal
1	2	3	4
PART I —*Act of the Governor General in Council*			
1850	XX	For settling the boundaries of the Tributary Mahals in Cuttack	The whole
PART II —*Regulations of the Bengal Code*			
1805	XII	Settlement and collection of the public revenue in the Zillah of Cuttack	In section 36, *from* Provided also *to the end* Section 37
1805	XIII	Maintenance of the peace and the support and administration of the Police in the Zillah of Cuttack	In section 13 *from* Provided *to the end*
1816	XI	Receiving trying and deciding claims to the right of inheritance or succession in certain Tributary Estates in Zillah Cuttack	The whole

STATEMENT OF OBJECTS AND REASONS

IT has been decided that the Tributary Mahals of Cuttack, which had been for many years administered under regulations of the Government of India but whose status had never been formally ascertained, are to be henceforth treated as not being part of British India

2 This decision involves the repeal of an Act of the Governor General in Council and of the whole or portions of certain Bengal Regulations and renders it desirable formally to validate the acts of officers of the Government whose validity depended or might depend upon the repealed enactments or some of them

3 Advantage has been taken of the preparation of the Bill to provide for the imprisonment in Bengal jails of certain convicts who might otherwise have to be detained in such places of confinement as may be maintained by the Chiefs of the Mahals

The 16th August, 1893

ALEX EDW MILLER

S HARVEY JAMES,

Secretary to the Government of India

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 17th August, 1893

NO 13 OF 1893

A Bill to amend the Code of Criminal Procedure 1882, and the Indian Penal Code

WHEREAS it is expedient to amend the Code of Criminal Procedure 1882, and the Indian Penal Code It is hereby enacted as follows

of 1882
V of 1860

Code of Criminal Procedure 1882

of 1882.

Addition to section 44 of Code of Criminal Procedure 1882

1 To section 44 of the Code of Criminal Procedure, 1882, the following shall be added, namely

"*Explanation* —In this section any act committed in any place out of British India which, if committed in British India would be punishable under any of the following sections of the Indian Penal Code, namely, 302, 395, 396, 397, 398, 399 and 402, shall be deemed to be an offence punishable under that section"

V of 1860

of 1882

Substitution of new *Explanation* to section 45 of same Code

2 For the *Explanation* appended to section 45 of the Code of Criminal Procedure, 1882, the following shall be substituted, namely

"*Explanation* —In this section—

(i) 'village' includes village lands,

(ii) the word 'offence' includes an act committed at any place out of British India, which, if committed in British India, would be punishable under any of the following sections of the Indian Penal Code, namely, 302, 395, 396, 397, 398, 399 and 402, and

V of 1860

(iii) the expression 'proclaimed offender' includes any person proclaimed as an offender in any part of India by any Court established by the Governor General in Council in respect of any such act"

Indian Penal Code

XLV of 1860

Addition to section 177 of Indian Penal Code

3 To section 177 of the Indian Penal Code the following shall be added, namely

'*Explanation* —In section 176 and in this section the word 'offence' includes any act committed, or intended to be committed, at any place out of British India, which, if committed in British India, would be punishable under any of the following sections namely, 302, 395, 396, 397, 398, 399 and 402 and the word 'offender' includes any person who is alleged to have been guilty of any such act'

Addition to section 203 of same Code

4 To section 203 of the said Code the following shall be added, namely

"*Explanation* —In sections 201 and 202 and in this section the word 'offence' includes any act committed at any place out of British India, which, if committed in British India, would be punishable under any of the following sections, namely, 302, 395, 396, 397 398, 399 and 402'

Amendment of section 216 of same Code

5 For the second paragraph of section 216 of the same Code, as inserted by section 23 of Act X of 1886, the following shall be substituted namely

"In section 212 and in this section—

(i) the word 'offence' includes any act of which a person is alleged to have been guilty out of British India, which, if it had been committed in British India, would have been punishable under any of the following sections of this Code, namely 302, 395, 396, 397, 398, 399 and 402, and every such act shall, for the purposes of section 212 and of this section, be deemed to be punishable as if the accused had been guilty of it in British India and

(ii) the word 'harbours' includes the supplying a person with food, clothes, arms or ammunition, and the assisting a person in any way to escape from apprehension"

6 After section 216 of the said Code the following shall be inserted, namely

Addition of new section after section 216 of same Code

"216A Whoever, knowing or having reason to believe that five or more persons are assembled for the purpose of committing dacoity, or after having committed dacoity, supplies all or any of such persons with food, clothes arms or ammunition, shall be punished with rigorous imprisonment for a term which may extend to seven years, and shall also be liable to fine

Penalty for harbouring dacoits

"*Explanation* —For the purposes of this section it is immaterial whether the dacoity has been committed, or is intended to be committed, within British India or not"

STATEMENT OF OBJECTS AND REASONS

THIS Bill has been rendered necessary by the operations of dacoits who, after committing dacoity in Central India and other States, come into British territory for shelter Our law needs strengthening for the prevention of the harbouring of these brigands in any way

Men who have committed dacoity in British India have, on the other hand, been harboured by confederates in Central India and other States

These States have been, and are, actively co operating with the British Government in the suppression of the evil which so seriously affects both their own and British subjects

Advantage has been taken of this opportunity to explain what is meant by the expression "harbouring'

Abstract of the Proceedings of the Council of the Governor General of India assembled for the purpose of making Laws and Regulations

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACTS OF PARLIAMENT 24 & 25 VICT, CAP 67, AND 55 & 56 VICT, CAP 14.

The Council met at Viceregal Lodge, Simla, on Thursday, the 17th August, 1893

PRESENT

His Excellency the Viceroy and Governor General of India, G C M G, G M S I, G M I E, *presiding*

His Excellency the Commander in Chief, K C B, G C I E, V C

The Hon'ble Sir P P Hutchins, K C S I

The Hon'ble Sir D M Barbour, K C S I

The Hon'ble Sir A E Miller, KT, Q C

The Hon'ble Lieutenant General H Brackenbury, C B, R A

The Hon'ble Sir C B Pritchard, K C I E, C S I

The Hon'ble J. L Mackay, C I E

EXCISE ACT, 1881, AMENDMENT BILL

The Hon'ble SIR DAVID BARBOUR moved that the consideration of the Bill to amend the Excise Act, 1881, be postponed to the next meeting of the Council He explained that certain difficulties had arisen in connection with the Bill which would require further consideration, and that it was desirable to postpone it

The Motion was put and agreed to

TRIBUTARY MAHALS OF CUTTACK BILL

The Hon'ble SIR ALEXANDER MILLER moved for leave to introduce a Bill to make provision for certain matters connected with the Tributary Mahals of Cuttack He said

"Up to about the year 1888 it had never been declared whether the Tributary Mahals of Cuttack were, or were not, British territory, but, apparently ever since the cession of Orissa to the Company, they have been administered by the Government of Bengal under certain Regulations, and under an Act of the Governor General in Council—Act XX of 1850—especially applying to them However, in 1887, the Government of India came to the conclusion that they ought not to be considered as in British India, and on the 12th April, 1888, their view was confirmed by a Despatch from the Secretary of State, and then it became necessary to make some arrangements for their future administration This has been hanging, I may say, ever since the 16th July, 1888, when Sir Andrew Scoble wrote an opinion in which he said that by legislation we ought to provide for the validation of past acts of administration, for the repeal of the enactments I have mentioned, and for any subsidiary measures that might be necessary The matter has, practically, been settled lately in great part by the issue of sanads to the Chiefs of these Mahals, but, in order to put things perfectly right, it is thought desirable to repeal the Act of the Governor General in Council which I have mentioned, and the enactments under which the Mahals have been administered, and to validate expressly all the acts of administration which have been done for the last fifty years or more under these enactments

"We have taken advantage of the opportunity to introduce a provision, proposed by the Government of Bengal, and which, under the peculiar circumstances of this case, we thought might be accepted, although I confess it goes further than I should like to admit as a general rule, that all sentences of British Courts and certain specified sentences by Native Courts in the Mahals may be carried into effect in British India

"The Bill which I propose to introduce is not exactly in the words in which Members who have copies in print will find it, but the variations are not very material, and will probably be considered best after the Bill has been circulated"

The Motion was put and agreed to

The Hon'ble SIR ALEXANDER MILLER also introduced the Bill

The Hon'ble SIR ALEXANDER MILLER also moved that the Bill and Statement of Objects and Reasons be published in the Gazette of India in English, and in the Calcutta Gazette in English and in such other languages as the Local Government thinks fit

The Motion was put and agreed to

CODE OF CRIMINAL PROCEDURE, 1882, AND INDIAN PENAL CODE AMENDMENT BILL

The Hon'ble SIR PHILIP HUTCHINS moved for leave to introduce a Bill to amend the Code of Criminal Procedure, 1882, and the Indian Penal Code He said

"I make this Motion at the request of the Hon'ble Dr Lethbridge Before he went on leave he handed me a draft, the lines of which have been generally adhered to in the Bill which I now ask leave to introduce I propose to make it applicable to the crime of murder as well as to that of dacoity, but beyond this there is only one alteration of any importance which I have ventured to make in the draft which my hon'ble friend had prepared, and to that I will draw attention later on

"Hon'ble Members are probably aware that it has recently been found necessary to take energetic measures for the suppression of dacoities and other organized offences on or near the boundaries between our North West and Central Provinces and the States of Central India and Rajputana In the course of these

operations a serious obstacle has been encountered It has been ascertained to be a common practice for gangs of dacoits or individual malefactors, after committing crimes within the States, to come across the border for shelter and remain concealed in British territory with the connivance of British subjects Under our Penal Code, as it now stands, a person who harbours and protects these brigands cannot be touched, however notorious they may be, and however atrocious the crimes which they have committed or of which they stand accused Thus the officers of justice are powerless unless they can succeed in laying hands on the criminal himself, and there are many, bound to him by ties of friendship or self interest, who are leagued together to prevent his apprehension

"Harbouring or concealing an offender is indeed punishable under sections 212 and 216 of the Code, but an offender can only mean a person who has committed an offence, and the word 'offence' is defined in the Code in so technical a manner that it does not cover any kind of crime committed in a Native State The crime may be one which, if it had occurred in British India, would have rendered the perpetrator liable to a long term of imprisonment, or even to transportation for life or the gallows, but, as it has been committed outside British India, it is not an offence, and consequently the man who committed it is not an offender, and other people may shelter or conceal him with impunity

"It does not seem necessary to enlarge on the danger or inconsistency of this state of things Murders and organized dacoities are equally dangerous to society and deserving of punishment wherever committed, and it is equally necessary that others should be deterred from holding out to the murderer or the dacoit such comfort or assistance as would in England constitute them accessories after the fact

"The main object of this Bill then is to extend the meaning of the word 'offence' in certain sections of the Penal and Procedure Codes so as to include acts committed outside British India which amount to murder or dacoity—I include in the latter such acts as making preparation or attempting to commit dacoity I do not, however, propose to make these acts *substantive* offences, punishable under the Penal Code, but merely to declare that they shall be *deemed* to be offences, equally with similar acts committed in British India, for the purpose of bringing to justice persons who in British India are guilty of criminal acts or omissions in relation to them

"The sections of the Code of Criminal Procedure affected by the Bill are 44 and 45, which impose a legal obligation to report the commission of certain specified offences, of which murder and dacoity are two Correlative to these sections of the Procedure Code are sections 176, 177, 201, 202 and 203 of the Penal Code, which provide for the punishment of persons who, in breach of this obligation, either omit to give information at all, or substitute information which is false or misleading, section 201 also deals with the offence of causing a disappearance of evidence in order to screen the offender Lastly, there are the two sections already mentioned, 212 and 216, which are aimed at harbourers In section 216, which relates to the harbouring of escaped prisoners or offenders specifically ordered to be arrested, the need for including offences in Foreign States has already been recognized by the Legislature By Act X of 1886 a clause was added to this section, the effect of which is to give the word 'offence' even a wider signification than that which is now desired According to that clause the word includes not merely murders and dacoities committed out of British India, but every sort of crime so committed for which extradition could be obtained Subject, however, to anything which may be advanced to the contrary by Local Governments or others, it seems expedient that the law should be uniform in this respect, and accordingly, in section 5 of the Bill, I have cut down the clause framed in 1886 so as to include only murders and dacoities Should the Select Committee eventually decide that the clause of 1886 should be retained, then I think it will have to be considered whether the other amendments made by this Bill should not be assimilated thereto, and extended so as to cover all crimes mentioned in the Extradition and Fugitive Offenders Acts Possibly a middle course may be found preferable, and the term 'offence' everywhere extended to murders, dacoities and a few other definite heinous offences I specially invite all

Local Governments to express their opinions on this point It is curious that, when section 216 was thus enlarged in 1886, the necessity for inserting a similar clause in section 212, which deals with the harbourers of offenders not yet arrested or ordered to be arrested, was overlooked

"The other main object of the Bill which I shall now lay on the table is to explain what is meant by harbouring, and to provide for the punishment of persons affording the same sort of protection or assistance to what I may call prospective dacoits—to gangs, that is to say, which have assembled together to commit dacoity, but have not yet carried out their purpose It is proposed to declare that the supplying of offenders with food, clothes, arms or ammunition, or giving them any sort of assistance to enable them to avoid apprehension, amounts to 'harbouring'

"I must not conclude without acknowledging the cordial manner in which the Rulers of the States chiefly concerned are co operating with our own officers in this matter The object of this Bill is to protect their subjects and suppress brigandage in their territory, but the converse state of things has given rise to similar difficulties, marauders from British territory finding shelter and protection from confederates in the States I am glad to say that the Darbars are taking energetic measures to prevent this, and, when this Bill becomes law, it will enable our officers on their part to fulfil their reciprocal obligations in regard to the States"

The Motion was put and agreed to

The Hon'ble SIR PHILIP HUTCHINS also introduced the Bill

The Hon'ble SIR PHILIP HUTCHINS also moved that the Bill and Statement of Objects and Reasons be published in the Gazette of India in English, and in the local official Gazettes in English and in such other languages as the Local Governments think fit

The Motion was put and agreed to

The Council adjourned to Thursday, the 31st August, 1893

S HARVEY JAMES,

SIMLA,
The 18th August, 1893

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weather Review of India for the week ending at 8 a m on Saturday, August 12th, 1893

The strongly marked monsoon conditions which prevailed during the previous week continued during the week under review until the last day, when the distribution of pressure and the winds showed a disposition to change In consequence rain has been very general throughout the country The rainfall brought up by the Arabian Sea current has not been heavy, but that due to the Bay of Bengal current has been heavy and exceptionally general At first the heaviest amounts were reported from Lower Burma, but as the week advanced the area of heaviest fall moved northward, and was reported about the middle of the week from Arakan and South East Bengal, and at the close of the week from North Bengal The general rainfall has been accompanied with a general depression of temperature, and the mean temperature of the whole country for the whole week was ½° below the normal average

On Sunday, August 6th, pressure was lowest over the Indus Valley, relatively low within a trough lying along the south of the Gangetic plain, and highest in Malabar and Ceylon The pressure difference between Malabar and the Indus Valley was 0 483 inch which was greater than usual The winds were moderate to strong in force, and blew from the normal monsoon directions Rain had fallen generally along the West Coast, over the Central Provinces, and over Burma, and scattered showers had occurred over Bengal and the North West Provinces There was no rain over North Western India to the west of Roorkee Dehra Dun reported 5 84 inches, Bassein and Rangoon over 3 inches, Tavoy and Chaibassa over 2 inches, and several stations over 1 inch On the 7th the only important change was the appearance of a shallow depression over South West Bengal, Ganjam, and the north west of the Bay Pressure had increased over North Western India, and the pressure difference between Malabar and the Indus Valley had decreased to 0 387 inch The winds were feebly cyclonic in the neighbourhood of the depression, but elsewhere normal monsoon winds continued Rain had extended north westward, and was reported as far west as the stations in the Indus Valley Sind and parts of the Gangetic plain and of the east of the Peninsula had no rain, but elsewhere the fall was very general Diamond Island had received 4 65 inches, Rawalpindi 3 11 inches, and Saugor Island 2 77 inches, while several places had over 1 inch The chart of the 8th showed that the shallow depression noticed above was drifting slowly up the Gangetic plain Pressure was falling throughout the greater part of India, but was rising briskly in Burma The pressure difference between Malabar and the Indus Valley was 0 403 inch, but the steepest gradients were shown over the northern half of the Bay Monsoon winds prevailed everywhere, and the force at the head of the Bay was strong Rain had fallen very generally, except over the Western desert, and over parts of the centre and east of the Peninsula Akyab reported 2 85 inches, Bhamo 2 56 inches, and Cuttack 2 08 inches, while several places had more than 1 inch By the morning of the 9th the depression had reached the neighbourhood of Allahabad, and was apparently filling up, as pressure was increasing everywhere The pressure difference between Malabar and the Indus Valley was 0 396 inch, but the steepest gradients were again shown over the Bay of Bengal The winds were normal in direction, but were stronger than usual, and at Saugor Island were blowing a fresh gale Rain continued to fall very generally Darjeeling had received 5 50 inches, Dacca 4 61 inches, Chittagong 3 82 inches, Barisal 2 71 inches, Saugor 2 53 inches, Roorkee 2 12 inches, Gnatong 2·05 inches, and several stations over 1 0 inch On the 10th the depression over the Gangetic plain had disappeared, and the barometer was still rising, except in Burma Gradients over the

Bay had decreased, and the pressure difference between Malabar and the Indus Valley had been reduced to 0 361 inch The easterly current up the Gangetic plain had broken up, but elsewhere the winds continued to blow from normal monsoon directions The force was still strong to a gale over the head of the Bay Rain continued to fall very generally, and the amounts were still heavy over North Bengal Dhubri reported 4 15 inches, Mymensingh 3 87 inches, Sutna 3 18 inches, Gnatong 3 08 inches, and Rangoon, Darjeeling, Dinajpur, and Karwar over 2 inches On the 11th pressure decreased steadily from Ceylon to the Punjab, the pressure difference between Malabar and the Indus Valley being 0 450 inch, which was considerably greater than usual The wind was southerly over Burma and Bengal and variable over the Punjab, but elsewhere the direction was westerly The force remained fresh to strong The amount of rain was falling off more particularly over the Peninsula and North Western India, where only scattered showers were reported In North Bengal the fall continued heavy Jalpaiguri reported 5 09 inches, Moulmein 3 38 inches, Salem 3 07 inches, Balasore 3 02 inches, Patna 2 32 inches, Darbhanga 2 29 inches, and several stations over 1 inch On Saturday, the 12th, pressure was falling over the south of the Peninsula and Lower Burma and rising elsewhere—briskly in the north west Hence, although the general distribution was unchanged, gradients had been still further reduced, and the pressure difference between Malabar and the Indus Valley was 0 391 inch The winds were little changed There was very little rain in Upper Burma, the Peninsula, and North Western India, but elsewhere the fall continued general, and in North Bengal were still heavy Jalpaiguri reported 5 18 inches, Darjeeling 2 42 inches, Darbhanga 2 35 inches and several stations over 1 inch

Temperature —Accompanying the general rainfall, there has been a very general depression of temperature As noted above, the rain did not extend fully to North Western India during the first one or two days of the week, hence the Punjab, Sind, and Rajputana on the 6th and Sind and Rajputana on the 6th, 7th and 8th had an excess of heat, but at other times the heat was generally less than usual

The following table shows the variations of the mean temperature from the normal on each day of the week for the different Provinces of India

PROVINCE	AUGUST							Mean variation of week
	6th	7th	8th	9th	10th	11th	12th	
	°	°	°	°	°	°	°	°
Burma	—1 3	—0 2	—1 4	—0 5	+1 5	+1 4	+2 6	+0 3
Bengal and Assam	—0 2	+0 5	—0 3	—2 7	—2 3	—1 0	—2 0	—1 1
North Western Provinces and Oudh	—0 3	—1 8	+2 2	+0 3	—2 5	—2 6	—3 0	—1 1
Punjab	+3 5	0	—1 2	—1 2	—2 3	—2 3	—1 8	—0 8
Bombay	+0 7	+0 4	—0 6	—1 2	—0 3	+0 3	+0 2	—0 1
Central Provinces and Berar	—0 3	—0 7	—2 0	—2 9	—3 1	—2 8	—3 5	—2 2
Central India and Guzerat	—1 6	+0 4	+1 2	+0 2	—1 5	—2 1	—2 3	—0 8
Sind and Rajputana	+3 7	+3 5	+2 1	+1 2	—0 6	—1 2	—0 9	+1 1
Madras	—0 3	—0 3	—1 0	—0 7	+1 0	—0 7	+0 5	—0 2
Mean for whole of India	+0 4	+0 2	—0 1	—0 8	—1 1	—1 2	—1 1	—0 5

The above figures show that for the whole of India the mean temperature of the week has been ½° below the normal, and that the mean temperature of all the Provinces, except Sind, Rajputana, and Burma, was less than usual On the 6th and 7th, owing to the excessive heat prevailing in the north west, the mean temperature of the whole of India slightly exceeded the average, but on all the other days the heat was below the average

Rain —The table at the close of the summary shows that effective rain has been received during the week in all the rainfall divisions, except Madras (Central) and East Coast (Central), where the average actual rainfall of the

division was 0 06 inch and 0 09 inch respectively The heaviest average actual fall for the week reported was 20 08 inches in Assam (Surma) This was followed by 9 52 inches in North Bengal, by 8 98 inches in Arakan, by 8 90 inches in Tenasserim, and by 8 68 inches in East Bengal The lightest average rainfall was in the two divisions noted above According to the normal figures, the heaviest rainfall during the week under review is 9 78 inches in Tenasserim, followed by 9 04 inches in Arakan and by 8 58 inches in Assam (Surma), while the lightest rainfall is in Madras (South) There is thus a general agreement in the distribution of rainfall between the actual and normal values, though the fall has been heavier than usual in Assam, and lighter than usual in Burma The third column of the table shows that in twenty two of the rainfall divisions the rainfall of the past week has been excessive, and that in twenty nine it has been deficient The region of excessive rain included all the Bengal and Assam divisions, the North West Provinces (East), both the Oudh divisions, the Punjab (North West), the Konkan, the Deccan, Khandeish, Berar, the Central Provinces (West), and the Central India and Rajputana divisions In all the other divisions the fall was deficient The largest actual excess was 11 50 inches in Assam (Surma), and the largest actual deficiency was 4 17 inches in Coorg Relatively to the normal the largest excess was in Rajputana (West), where the actual average rainfall was nearly eight times the normal average

The three concluding columns of the table show the average actual and average normal rainfall for the monsoon period running from May 28th to August 12th On the whole the rainfall for that period has been excessive, but in the following divisions, *viz*, Central Burma, Arakan, Assam (Brahmaputra), the North West Provinces (Submontane, Central, and West), the Punjab (South, Central, Hills, and West), Malabar, Madras (South Central), Mysore, the Konkan, Berar, Central Provinces (West and Central), Guzerat, Kathiawar, Central India (East), Rajputana (East), and Central India (West), the East Coast (North and Central), and Madras (Central) the total rainfall has been approximately normal, while in Tenasserim and Lower Burma, in Orissa, and in Coorg the total rainfall has been deficient

The following gives the largest total amounts received during the week as reported in the rainfall telegrams of the week

Division	District	Station	Amount.
Tenasserim	Amherst	Thaton	11 14 inches
Lower Burma	Maubin	Pantanaw	16 20 "
Arakan	Akyab	Minbya	10 67 "

SIMLA, *17th August, 1893*

W L DALLAS,
Asst Meteorological Reporter to the Government of India

E C BUCK,
Secretary to the Government of India

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weekly Report on the state of the Season and Prospects of the Crops

Madras.—*For week ending 12th August*.—Rainfall good on the West Coast and in greater part of the Circars as well as in some other parts, but in the Southern, Central, Carnatic, and Deccan districts and in Kistna generally only scattered showers have fallen, and more rain is wanted in parts. Agricultural operations actively proceeding, and standing crops thriving almost everywhere. Water, pasturage, and fodder generally ample, and condition of cattle good. Prices generally very slightly easier, but still very high, especially in the southern half of the Presidency.

Bombay.—*For week ending 16th August*.—Rain more or less throughout the Presidency, but deficient in ten districts. Young crops injured by rats or insects in parts of seven, and withering for want of rain in parts of two, districts. Agricultural operations progressing generally, and transplantation in progress in parts of six districts, but retarded for want of rain in two districts. Prices steady, except in parts of two districts. Agricultural stock good and fodder sufficient, except in parts of one district.

Bengal.—*For week ending 16th August*.—Rain has been general during the week, the falls being heavy and much above the normal in East and North Bengal and North Behar. Condition and prospects of the crops are generally good, except in the Eastern districts of Bengal, parts of Midnapur, the 24 Parganas and Khulna, and some of the districts of North Behar, where prospects of the autumn and winter crops have been adversely affected by excessive rain and floods. In Hazaribagh, Palamau, and Manbhum the autumn crops have suffered. Early rice and jute are being harvested, and transplanting of winter rice is almost over. Prices of common rice are almost stationary. Cattle are generally reported well. Water is everywhere plentiful and the supply of fodder sufficient, except in Noakhali.

North-Western Provinces and Oudh.—*For week ending 16th August*.—The weather has been generally favourable for the crops, although heavy rain has fallen in many districts. Reaping of early autumn crops has begun, and sowing of the winter crops are in progress. Prospects are favourable everywhere, and a good outturn is anticipated. Fields are being prepared for the spring sowings in places. Supplies ample and fodder and water abundant. Prices fairly steady, and show a falling tendency.

Punjab.—*For week ending 16th August*.—Rain has fallen in all but two districts. More rain wanted in Hissar and Sialkot. Sowings of autumn crops nearly over, weeding in progress. Ploughings for spring crops commenced. Prospects of standing crops are reported good to average, the crops are now well advanced and flourishing. Locusts appeared in parts of Ferozepore, but were destroyed. Field rats have done some damage to the young crops in parts of the Umballa district. Most of the crops have been damaged by heavy floods in the low lands of the Mooltan and Shahpur districts. Cattle are generally in good condition. Fodder sufficient throughout the province. Prices unsettled in one district, rising in two others, falling in another, and stationary elsewhere.

Central Provinces—*For week ending 16th August*—Weather occasionally cloudy and close, with moderate falls of rain in the Northern districts More rain needed in two districts Prospects of autumn crops favourable Weeding operations continue Prices easy

Burma—*For week ending 12th August*—In Lower Burma the rainfall was sufficient Agricultural operations are progressing satisfactorily, and the crop prospects are good Rain fell in all but three districts of Upper Burma, but the falls were light in most districts Agricultural operations generally are progressing, but are delayed in Shwebo and Yeu by want of rain Crop prospects in most districts are good, but in Shwebo and Yeu and part of Lower Chindwin the crops are withering owing to want of rain, while in Myingyan and Pakokko some damage has been done by floods The price of paddy has fallen in three districts and risen in three others

Assam—*For week ending 15th August*—In the Surma Valley fodder is scarce, and the prospects of crops unsatisfactory owing to heavy floods In the rest of the province the rainfall is normal and the prospects of the crops good Condition of cattle normal

Mysore and Coorg—*For week ending 16th August*—MYSORE Good rain in two districts Standing crops in good condition Prospects generally favourable, but more rain is wanted in parts of four districts Prices fallen in one district

COORG Rainfall moderate Transplanting of paddy nearly completed Coffee planting completed More rain is needed for both rice and coffee Slight rise in prices Water and fodder for cattle sufficient

Berar and Hyderabad—*For week ending 16th August*—BERAR Rainfall good Weather cool and cloudy Standing crops in good condition Land under preparation for ensuing spring crops Sowings continue Weeding operations in progress Fodder and water sufficient Prices almost steady

HYDERABAD Rainfall moderate Weeding of autumn crops and of irrigated paddy in progress Standing crops in one taluk totally blighted in several places by disease Prices steady

Central India—*For week ending 16th August*—Rain has fallen throughout Central India, but there are signs of another break in Indore Sowing recommenced in Goona, completed in Gwalior, and almost finished in Bhopawar Weeding in progress in other parts Crops slightly damaged by insects in part of Bhopal and by excessive rain in part of Bhopawar Condition of cattle generally good Prices of food grains slightly falling in Bhopal and Bundelkhund, fluctuating in Bhopawar, and steady in other parts

Rajputana—*For week ending 16th August*—Rainfall generally good throughout Rajputana Agricultural operations, standing crops, and condition of cattle generally satisfactory Pasturage or fodder sufficient Prices falling in three States, fluctuating in one, and steady elsewhere

Kashmir—*For week ending 15th August*—Autumn crops in good condition Weather still fine Prices stationary

Nepal—*For week ending 12th August*—Heavy showers daily Weather cool Prospects of crops very good

JOHN OWENS,

Presidency Postmaster Calcutta.

REDUCTION IN PRICE OF CINCHONA FEBRIFUGE

From 1st April, 1891, and until further orders, Cinchona Febrifuge can be purchased by all Government officers and by any one taking *ten pounds* at a time, from the Superintendent, Botanic Garden Calcutta, at the following rates—four ounce tin, *R2 8* eight ounce tin, *R5* one pound tin *R10* The general public can be supplied by the Superintendent, Botanical Garden, *for cash only* at the under noted rates—per four ounce tin, *R3* per eight ounce tin *R6* per pound tin, *R12* This medicine is also sold by the principal European and Native druggists in Calcutta Postage, four annas per four-ounce tin, eight annas per eight ounce tin and twelve annas per pound tin, in addition to the foregoing rates

জ্বরঘ্ন সিন্‌কোনার মূল্য কম করণ।

১৮৯১ সালের এপ্রেল মাসের ১লা তারিখ অবধি যাবৎ অন্য আজ্ঞা না হয় তাবৎ কলিকাতার বোটানিকেল গার্ডণের অর্থাৎ কোম্পানির বাগানের সুপারিণ্টেণ্ডেণ্টের নিকট গবর্ণমেণ্টের কর্ম্মচারিগণ এবং অপর কোন ব্যাক্ত এক কালীন দশ পৌণ্ড ক্রয় করিলে নিম্নলিখিত হিসাবে জ্বরঘ্ন সিন্‌কোনা পাইবেন অর্থাৎ চারি ঔন্স টিন ২॥ টাকায় আট ঔন্স টিন ৫ টাকায় ও এক পৌণ্ড টিন ১০ টাকায় পাইবেন। সর্ব্ব সাধারণে কোম্পানির বাগানের সুপারিণ্টেণ্ডেণ্টের নিকট নগদ মূল্য দিলে এই এই হিসাবে অর্থাৎ চারি ঔন্স টিন ৩ টাকায় আট ঔন্স টিন ৬ টাকায় এবং এক পৌণ্ড টিন ১২ টাকায় পাইতে পারিবেন। কলিকাতার প্রধান প্রধান ইউরোপীয় ও দেশীয় ঔষধ বিক্রেতাগণও এই ঔষধ বিক্রয় করিয়া থাকেন। উপরোক্ত হার ছাড়া চারি ঔন্স টিনের। আট ঔন্স টিনের ॥ ও এক পৌণ্ড টিনের ৷৷৹ ডাক মাশুল দিতে হইবে।

PURE SULPHATE OF QUININE

Manufactured at the Bengal Government Cinchona Plantation

The price of this Quinine is as follows —

1 Pound tin,	R16,	or, post free,	R16 12
½	"	R 8,	"	R 8 8
¼	"	R 4,	"	R 4-8

Analysis shows this Quinine to be of the purest manufacture, and it is guaranteed to be free from wilful mixture with the inferior alkaloids Cinchonine and Cinchonidine It is for sale only to Government officers and only for cash, and may be had from the Superintendent, Botanic Garden, Seebpore near Calcutta It can be had either white or coloured pink

বঙ্গদেশের গবর্ণমেণ্টের সিনকোনা আবাদে প্রস্তুত বিশুদ্ধ কুইনাইন।

এই কুইনাইনের নিম্নলিখিত মূল্য যথা—

১ এক পৌণ্ড টিন	১৬ বা ডাকমাশুল বিনা	১৬৷৷৹
॥ আধ	৮ বা ডাকমাশুল বিনা	৮॥
পিকি	৪ বা ডাকমাশুল বিনা	৪॥

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধরূপে প্রস্তুত করা হইয়াছে। এবং ইহা যে সিন্‌কোনাইন ও সিনকোনীডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছা পূর্ব্বক মিশান হয় নাই তাহার গ্যারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারিগণের নিকট বিক্রয় করা যাইবে এবং কলিকাতার নিকটস্থ শিবপুরের কোম্পানির বাগানের সুপারিণ্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারিবে। ইহা শাদা বা পাটল বর্ণের পাওয়া যাইতে পারি ।

REVENUE DEPARTMENT

[Revised Advertisement]

A Dictionary of the Economic Products of India

BY DR GEO WATT C I E

Rep rte n Ec n mic Products

Published under the authority of the Govern n nt of India in the Revenue and Agricultur il Department

The first five volumes and Volume VI Parts I, II, and III, of the Dictionary are now ready at the Office of Superintendent of Government Printing No 8 Hastings Street Calcutta and will be supplied to non subscribers on receipt of the price for the complete set which is R45 in India and 3 guineas in England (exclusive of the Index for which a separate charge will be made) packing and postage in India, 8 annas per volume, for England 2 rupees 6 annas per volume For copies bound in half alf or half morocco R6 and 8 shillings respectively will be charged extra for the whole set

The Dictionary is intended to deal with the products of India—animal vegetable and mineral each product being treated after a uniform plan the paragraphs of which give the scientific vernacular and European names habitat or source history properties and uses (both chemical and industrial) trade statistics markets etc The work is arranged alphabetically according to scientific nomenclature but commercial and important vernacular names are also given as cross references so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks and with a reference to the origin l publication Numerous contributors have however furnished the results of new discoveries and confirmed the vernacular names so that the Dictionary is not only a complete compilation of published information, but ha

been brought abreast of the most recent inventions and discoveries

Volume I contains the letters A and B and consists of 559 royal octavo pages Volume II embraces the letter C in 689 pages Volume III contains the letters D E F and half of G Volume IV latter half of G to middle of L and Volume V contains the latter half of L to end of O Vol VI (which will consist of four parts) Part I contains letters P to R The whole work will it is expected be completed in nine volumes (including Parts II to IV of Vol VI) during the current year but a tenth volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary The Index will practically be a glossary of the vernacular and European names of the plants animals and minerals of India and as such will be a work of reference which it is hoped may prove of considerable value

Improvement of Indian Agriculture, Report on the By J A VOELCKER PH D B A, B S C F I C etc Consulting Chemist to the Royal Agricultural Society of England Royal 8vo, cloth R2 8 (6a)

(a) Not passengers
(b) Of these two were not passengers.
(c) Of these three were not passengers.
(d) Of these nine were not passengers.
(e) Of these eleven were not passengers.
* Excludes the figures for the Cherra-Companyganj and Thatôn Duyinzáik railways, which are now treated as steam tramways

2 As compared with 1891, the number of accidents to trains, rolling-stock, permanent-way, etc, during the year 1892 shows a decrease of 12 or of 0.28 per cent, with an increase of 655·09 miles or of 3·86 per cent. in the mean mileage worked, and a decrease of 131,079 miles or of 0.22 per cent in the train-milage run

Principal variations as compared with 1891

3 The chief variations occurred under "Collisions between goods trains or parts of goods trains," 77 against 109, "Collisions between light engines," 42 against 21, "Goods trains or parts of goods trains, engines, etc, leaving the rails," 402 against 322, "Trains or engines travelling in the wrong direction through points," 79 against 57, "Trains running over cattle on the line," 1,824 against 1,837, "Trains running over obstructions on the line," 118 against 193, "The bursting of tubes, etc, of engines," 103 against 138, "The failure of machinery, springs, etc, of engines," 462 against 427, "The failure of couplings," 210 against 182, "Broken rails," 75 against 50, "The flooding of portions of permanent way," 126 against 54, "Slips in cuttings or embankments," 27 against 82, "Fire at stations, or involving injury to bridges or viaducts," 43 against 72, and "Other accidents," 221 against 257

4. Under "Collisions between goods trains or parts of goods trains," there was a decrease of 32 accidents, *viz*, 3 under "Serious," and 29 under "Minor" The decrease under "Serious" was due to the number on the South Indian railway having fallen from 4 to 1, while that under "Minor" was chiefly due to a decrease of 9 on the Eastern Bengal (state) railway, of 8 on the North Western (state) railway, and of 7 each on the Rajputana-Malwa state and the Southern Mahratta railways, against an increase of 4 each on the Bengal-Nágpur and the Oudh and Rohilkhand (state) railways

5 The increase under "Collisions between light engines" was chiefly due to the numbers recorded on the East Indian, the North Western (state), and the Bengal-Nágpur railways having risen from 7 to 16, from 4 to 8 and from *nil* to 3 respectively Of the increase of 3 accidents under "Serious," the East Indian and the Bengal-Nágpur railways accounted for one each

6 "Goods trains or parts of goods trains, engines, etc, leaving the rails" showed an increase of 80 accidents, made up of a decrease of 7 under "Serious" and an increase of 87 under "Minor" The decrease under "Serious" was chiefly due to a reduction of 3 each on the North Western (state) and the Nizam's Guaranteed State railways, while the increase under "Minor" was mainly owing to the number recorded on the East Indian railway having risen from 26 to 99.

7 The increase under "Trains or engines travelling in the wrong direction through points" was chiefly contributed by the East Indian railway, on which the number rose from 5 to 22

8 The number of cattle accidents was largest on the Southern Mahratta railway, *viz*, 427, next to that line comes the South Indian railway with 247, then the Rajputana-Malwa state railway with 162, the North Western (state) railway with 135, the Eastern Bengal (state) railway with 134, the East Indian railway with 116, the Oudh and Rohilkhand (state) railway with 103, and the Madras railway with 92

As compared with the corresponding period of the previous year, the chief variations were an increase of 72 on the Southern Mahratta railway, and decreases of 38 and 24 on the North Western (state) and the Madras railways respectively

In relation to train-mileage run, the number was highest on the Southern Mahratta railway, which gave an average of 1 accident in 5,608 train-miles, the Dibru-Sadiya railway coming next with an average of 1 in 6,510, then the Nizam's Guaranteed State, the Jorhát, the South Indian and the Rohilkund and Kumaon railways with averages of 1 in 8,729, 1 in 11,427, 1 in 13,270 and 1 in 17,679 respectively The lowest number recorded relatively to train-mileage run was on the Bombay, Baroda and Central India railway, *viz*, 1 in 150,419, the Great Indian Peninsula railway coming next with an average of 1 in 148,266, then the Gaekwar's Dabhoi railway with 1 in 89,141, the East Indian railway with 1 in 87,108, the Burma (state) railway with 1 in 61,431, and the North Wertern (state) railway with 1 in 60,061

9. The decrease of 75 accidents under "Trains running over obstructions on the line" was mainly due to there having been 55 less on the Eastern Ben-

gal (state) railway, 7 less on the Southern Mahratta railway, and 5 less on the North Western (state) railway The decrease of 55 on the Eastern Bengal (state) railway was made up of three under "Serious" and 52 under "Minor"

10 Under "The bursting of tubes, etc, of engines," there was a noticeable decrease of 30 accidents on the South Indian railway.

11 "The failure of machinery, springs, etc, of engines" showed an increase of 53 accidents on the East Indian railway, of 20 on the Great Indian Peninsula railway, and of 11 each on the Bombay, Baroda and Central India and the Burma (state) railways, and a decrease of 26 on the Nizam's Guaranteed State railway, of 25 on the South Indian railway, and of 11 on the Southern Mahratta railway

12 The increase under "The failure of couplings" was due to the number recorded on the Rajputana-Malwa state railway having risen from 34 to 65

13 Of the increase of 25 accidents under "Broken rails," the Bengal Nágpur and the Rajputana Malwa state railways were responsible for 13 and 7 respectively

14 Under the head "The flooding of portions of permanent way," there was an increase of 72, of which 24 cases are recorded under "Serious" and 48 under "Minor" Under "Serious" the principal variations were increases of 15 on the North Western railway, of 7 on the Eastern Bengal (state) railway, and of 6 on the Nizam's Guaranteed state railway, and a decrease of 2 each on the Bombay, Baroda and Central India and the Bhávnagar Gondal-Junágarh Porbandar railways, while under "Minor" the increases were chiefly contributed by the Jodhpore Bickaneer, the Southern Mahratta and the Rajputana Malwa state railways, on which the numbers rose from 3 to 19, 5 to 18, and 3 to 15 respectively

15 Under "Slips in cuttings or embankments," there was a decrease of 55 accidents made up of an increase of 3 under 'Serious" and a decrease of 58 under "Minor" The increase under "Serious ' was due entirely to 7 accidents having been recorded under this head on the Bengal-Nágpur railway against *nil* during 1891, while the decrease under "Minor" was owing principally to the numbers recorded on the Bengal-Nágpur, the North Western (state) and the Great Indian Peninsula railways having fallen off from 29 to 3, 19 to 9, and 11 to 1 respectively

16 Under "Fire at stations, or involving injury to bridges or viaducts," the accidents numbered 43 against 72, of which 12 against 40 took place on the Eastern Bengal (state) railway alone

17 The cases recorded under the head "Other accidents" decreased chiefly on the North Western (state) railway, 42 against 76, on the Bombay, Baroda and Central India railway, 5 against 21, on the Burma (state) railway, 2 against 18, and on the Great Indian Peninsula railway, 4 against 16, but increased principally on the East Indian railway, *viz*, 75 against 23

18 Of the 10 cases of "Serious" accidents from "The failure of tunnels, bridges, viaducts, culverts, etc," 8* occurred on the Eastern Bengal (state) railway alone

Casualties to passengers and servants not included in paragraph 1

19 The casualties to passengers, and to servants in the employ of railways or of contractors from accidents not coming under the classification adopted in paragraph 1, were, as compared with 1891, in the case of passengers, 55 killed and 139 injured against 65 killed and 212 injured, and, in the case of servants, 193 killed and 589 injured against 156 killed and 529 injured (For details, *vide* abstract No 2)

20 The mean mileage open, train mileage run, and the number of passengers were 17,625 72, 60,505,076, and 127,230,914 against 16,970 63,* 60,636,155,* and 122,611,345* respectively during the previous year The number of accidents per 1,000 train miles was 0 07

Out of a total of 127,230,914 passengers travelling, 8 passengers were killed and 42 injured by accidents to trains as classified in paragraph 1 This gives an average of 1 killed in 15,903,864, while the total number of killed and injured *viz*, 50, gives an average of one casualty in 2,544,618 persons travelling and an average of one in 105,314,583 miles travelled

Including casualties to passengers from causes other than accidents to trains, rolling-stock, etc (*vide* paragraph 19), the total numbers of passengers

* Excludes the figures for the Cherra Companyganj and Thatôn-Duyinzáik railways which are now treated as steam tramways.

killed and injured were 63 and 181 respectively, giving an average of one killed in 2,019,538, and one injured in 702,933, or an average, on the total number of killed and injured, of one casualty in 521,438 passengers travelling.

Total casualties from all causes

21 The total casualties to persons from all causes, including trespassers, cases of suicide, etc, were 624 killed and 930 injured against 645 killed and 1,084 injured during 1891 (For details, *vide* abstract No 2)

Casualties in yards, workshops, etc

22 In addition to the above, 77 persons were reported to have been killed and 197 injured in yards, workshops, etc, and 956 persons to have died in carriages and at stations from causes unconnected with the working of trains

23 Abstract No 5 shows for the year 1892, as compared with ten previous years, the proportion of passengers killed and injured while travelling on the several railways open for traffic in India from causes beyond their own control

24 Abstract No 6 shows the number of enquiries into train accidents on the several railways open for traffic in India classified under certain heads for the year 1892 as compared with two previous years

25 The accidents *for the 4th quarter of 1892* are dealt with in the following note

Note on accidents for the 4th quarter of 1892

Casualties resulting from accidents to trains rolling stock, etc for the 4th quarter of 1892

The following table gives the number of accidents as classified in paragraph 1 of the previous note, which resulted in loss of, or injury to, life and limb, and shows the railways on which they occurred

RAILWAY	Number of accidents during the 4th quarter of 1892	Passengers and others		Servants		Total	
		Killed	Injured	Killed	Injured	Killed	Injured
North Western (state)	1				1		1
Oudh and Rohilkhand (state)	1				1	...	1
Eastern Bengal (state)	2				4		4
Great Indian Peninsula	3		1	1	4	1	5
Bombay Baroda and Central India	1				1		1
Bengal and North Western	1				1		1
Rajputana Malwa	1		1				1
Southern Mahratta	1			1		1	
TOTAL			2	2	12	2	14
Total of the corresponding quarter of 1891		56	94	11	50	67	144

2 *North Western* (*state*) *railway* —On the 28th October, 1892, the level crossing gate at Ráwalpindi was smashed by a shunting engine The gateman, who was to blame, was severely injured

3 *Oudh and Rohilkhand* (*state*) *railway*—On the 27th December, 1892, a level crossing gate near Sháhjahanpur was run through by No 2 mail train The gateman was injured

4 *Eastern Bengal* (*state*) *railway*—On the 10th December, 1892, an up special goods train collided with a shunting engine in the Kaunia yard through the carelessness of the driver Two railway servants were injured

On the 18th December, 1892, a collision took place in the locomotive yard at Calcutta between two light engines through the carelessness of the shunter Two railway servants were slightly injured

5 *Great Indian Peninsula railway*—On the 5th December, 1892, a down passenger train, while passing out of the station yard at Lonávla, collided with a shunting engine which was taking water from a water crane near a cross over road The accident was due to no notice having been issued by the Engineering Department regarding an alteration which was being made at the time in the position of the cross over road A passenger was slightly hurt

On the 20th December, 1892, an up goods train, while coming out of shed at Nágpur, collided with a wagon standing foul of the crossing, through the carelessness of the pointsman A fireman was slightly injured.

On the 27th December, 1892, a down mail train was admitted on to the wrong line at mile 479½ near Bágra and collided with some uncoupled wagons which were being loaded by coolies. One cooly was killed and three others injured. The station master, muccadum, and the pointsman in fault were prose-

6 *Bombay, Baroda and Central India railway* —On the 12th November, 1892, at Ahmedabad, the engine of an up mail train, while running round to the tail end of the train, was admitted into a wrong siding and collided with five wagons standing there A railway servant was injured

7 *Bengal and North-Western railway.*—On the 15th October, 1892, a buffalo was knocked down by an up mixed train at mileage 53 10 between Daronda and Chainwa stations Certain vehicles of the train were derailed and seriously damaged and the lamp-man accompanying the train was seriously injured

8 *Rajputana Malwa railway* —On the 11th November, 1892, a camel was knocked off the line at mile 138 20 near Sirsa on the Rewari-Ferozepore section The accident was due to the animal having taken fright on the approach of the train and jumped over the fencing The rider of the camel was slightly injured

9 *Southern Mahratta railway* —On the 11th October, 1892, an up goods train collided with a light trolly at mile 218 17, between Bidadi and Kengeri stations The accident was due to the trolly not having been properly protected by signals The trolly was smashed and the time-keeper who was riding on it was killed

---

RESOLUTION —The Government of India notices that with an increase of 655 09 miles, or 3 86 per cent, in the mean mileage worked, and a decrease of 131,079 miles, or 0·22 per cent, in the train mileage run, the number of accidents to trains, rolling-stock, permanent way, etc., on Indian railways shows a decrease of 12, or 0 28 per cent, as compared with the previous year

2 The numbers of passengers killed and injured by accidents to trains, etc, were 8 and 42 respectively against 56 and 135 during 1891, while the numbers of passengers killed and injured from causes other than accidents to trains, etc, were 55 and 139 respectively against 65 and 212

3 Out of a total of 127,230,914 passengers travelling, there were 63 killed and 181 injured, or an average of 1 killed in 2,019,538 and of 1 injured in 702,933

The proportion of passengers killed and injured by train accidents from causes beyond their own control as compared with the numbers travelling was 1 killed out of 15,903 864 and 1 injured out of 3,029,307

4 The casualties to servants in the employ of railways or of contractors from accidents to trains, etc, were 19 killed and 48 injured against 27 and 94 respectively in the preceding year From causes other than accidents to trains, etc, the casualties were 193 killed and 589 injured against 156 killed and 529 injured

5 With an increase of 3 86 per cent in the mean mileage worked and a decrease of 0 22 per cent in the train-mileage run, it is observed that the total numbers of casualties from all causes over the whole of the Indian railway system as compared with the previous year decreased under killed from 645 to 624 or by 3 26 per cent, and under injured from 1,084 to 930, or by 14 21 per cent

---

ORDER —Ordered, that this Resolution, with the abstract returns, be communicated for information to the Local Governments and Administrations, and to the Officers noted in the margin

The Governments of Madras, Bombay Bengal North Western Provinces and Oudh and the Punjab
The Chief Commissioners of the Central Provinces Burma, and Assam
The Resident at Hyderabad
The Resident in Mysore
The Agents to the Governor General for Rajputana, Central India and Baluchistan
The Director General of Railways
The Consulting Engineers to the Government of India for Railways Calcutta, Central Division Lucknow and Assam

Ordered also, that copies be forwarded for the information of Her Majesty's Government

Ordered further, that this Resolution, with the abstract returns, be published in the Supplement to the *Gazette of India*

F B HEBBERT
Under Secretary

Documents accompanying

Abstract returns of accidents for the twelve months ending the 31st December, 1892.

ABSTRACT No. 1,

GENERAL TOTAL.

MBER of PERSONS reported, during the TWELVE MONTHS ending 31st December 1892, as KILLED or INJURED on ALL RAILWAYS open for TRAFFIC in INDIA, distinguishing between PASSENGERS, RAILWAY SERVANTS, and OTHER PERSONS, and distinguishing also, in the case of the two former classes, between ACCIDENTS caused by ACCIDENTS to TRAINS, ROLLING STOCK, PERMANENT-WAY, etc, and ACCIDENTS happening otherwise

	Killed	Injured	Remarks
SENGERS —			
From accidents to trains, rolling stock, permanent-way, etc	8	42	
By accidents from other causes, including accidents from their own want of caution or misconduct	55	139	
VANTS —			
From accidents to trains, rolling stock, permanent-way, etc	19	48	
By accidents from other causes, including accidents from their own want of caution or misconduct	193	589	
HER PERSONS —			
Whilst passing over railways at level-crossings	24	15	
Trespassers	263	81	
Suicides	53	4	
Miscellaneous, not included in either of the above	9	12	
TOTAL	624	930	

ABSTRACT No. 2.

NUMBER of PERSONS reported, during the TWELVE MONTHS ending 31st December 1892, as KILLED OR INJURED in INDIA by the [tr]AVELLING of TRAINS or the MOVEMENT of VEHICLES used exclusively upon RAILWAYS, distinguishing between PASSENGERS, RAILWAY SERVANTS, and OTHER PERSONS, and classifying, as far as practicable, [the] nature and causes of the ACCIDENTS occasioning the DEATH OR INJURY

Serial No	RAILWAYS	Passengers: From accidents to trains, etc. (see Abstracts Nos. 3 and 4) Killed	Injured	1.—From falling between carriages and platforms Killed	Injured	2.—Falling on to the platform, ballast, etc. when getting into or out of trains Killed	Injured	3.—Whilst crossing the line at stations Killed	Injured	4.—By the closing of carriage doors Killed	Injured	5.—Falling out of carriages during the travelling of trains Killed	Injured	6.—Other accidents Killed	Injured	Total Killed	Injured	Total passengers Killed	Injured	Servants: From accidents to trains, etc. (see Abstracts Nos. 3 and 4) Killed	Injured	1.—During shunting operations Killed	Injured	2.—Falling off engines, vans, wagons, etc. Killed	Injured	3.—Coming in contact with over-bridges, etc., during the travelling of trains Killed	Injured	4.—Coming in contact, while shunting with vehicles, etc., standing in adjoining lines Killed	Injured	5.—Getting on or off trains, engines, etc. Killed	Injured	6.—Whilst loading, unloading or sheeting Killed	Injured

ABSTRACT No. 5

PROPORTION of PASSENGERS KILLED and INJURED on the SEVERAL RAILWAYS open for TRAFFIC in INDIA from causes beyond their own control in passenger-journeys for the years 1882 to 1892

YEAR	NUMBER OF PASSENGERS KILLED AND INJURED FROM CAUSES BEYOND THEIR OWN CONTROL FROM ACCIDENTS TO TRAINS		Number of Passenger journeys (inclusive of journeys by season ticket holders)	PROPORTION RETURNED AS KILLED AND INJURED (FROM CAUSES BEYOND THEIR OWN CONTROL) TO NUMBER CARRIED	
	Killed	Injured		Killed	Injured
1882	15	41	58,875,918	1 in 3,925,061	1 in 1,435,998
1883	2	46	65,098,953	1 in 32,549,476	1 in 1,415,195
1884	11	50	73,815,119	1 in 6,710,465	1 in 1,476,302
1885	4	33	80,864,779	1 in 20,216,194	1 in 2,450,447
1886	3	43	88,436,318	1 in 29,478,773	1 in 2,056,659
1887	4	62	95,411,779	1 in 23,852,945	1 in 1,538,900
1888	2	26	103,156,013	1 in 51,578,006	1 in 3,967,539
1889	27	155	110,402,383	1 in 4,088,977	1 in 712,273
1890	1	24	113,828,810	1 in 113,828,810	1 in 4,743,700
1891	56	135	122,611,345	1 in 2,189,488	1 in 908,232
1892	8	42	127,230,914	1 in 15 903,864	1 in 3,029,807

ABSTRACT No. 6.

STATEMENT showing the NUMBER of enquiries into TRAIN ACCIDENTS on the SEVERAL RAILWAYS open for TRAFFIC in INDIA, classified under certain heads for the year 1892, as compared with two previous years

Class of accident	1890	1891	1892
A.—From engines or vehicles meeting with obstructions or leaving the rails in consequence of obstructions, or from defects in connection with the permanent-way or works	53	77	23
B.—From boiler explosions, failures of axles, wheels, or tyres, or from other defects in the rolling stock	47	99	58
C.—From trains entering stations at too great speed			
D.—From collisions between engines and trains following one another on the same line of rails, excepting at junctions, stations, or sidings	6	4	
E.—From collisions at junctions		7	3
F.—From collisions within fixed signals at stations or sidings	23	16	10
G.—From collisions between engines or trains meeting in opposite directions	6	17	19
H.—From collisions at level crossings of two railways			
I.—From engines or trains being wrongly run or turned into sidings, or otherwise through facing points	18	16	21
J.—On inclines			
K.—From trains on fire	1	5	1
L.—Miscellaneous	16	21	7
TOTAL	170	262	142

E C BUCK,

Secretary to the Government of India

FOREIGN DEPARTMENT

NOTIFICATIONS

Simla the 19th August 1893

No 1765 E—In March last the Agent to the Governor General in Baluchistan reported to the Government of India that Mir Khudadad Khan, the Khan of Kalat, had suddenly murdered at Bagh on the 28th March, 1893, Fakir Muhammad the Mustaufi or Minister of the Kalat State Ghulam Farukh the Minister s son, Naib Abdul Aziz, the Minister s father, and Sherdad the Minister s confidential Agent The Khan was called upon to give an explanation of his conduct, and summoned to meet the Political Agent at Bellpat The Khan attended at Bellpat accordingly and afterwards proceeded with the Political Agent to Quetta, where the Governor General s Agent assisted by a jirga of influential Sardars of the country held an investigation into the Khan's conduct The Government of India have considered the detailed report which has been submitted by Sir James Browne with the record of evidence taken in a protracted and exhaustive enquiry They have also taken into consideration the finding of the Baluch Sardars

The evidence has established beyond all doubt Mir Khudadad Khan's responsibility for the murder of the abovenamed persons The Khan has also been proved to be responsible for other murders and mutilations last year, and it is shown that he has ruled his State oppressively and cruelly

The finding of the Baluch Sardars is to the effect that Mir Khudadad Khan is guilty of the crimes with which he has been charged, and their recommendation is that he be deposed and that his eldest son, Mir Mahmud Khan, be put in his place The Khan himself has asked the Government of India to accept his resignation and to recognise Mir Mahmud Khan as his successor

In the judgment of the Governor General in Council, Mir Khudadad Khan's conduct would justify his deposition, but in consideration of the fact that he has been an ally of the British Government for many years, and in deference to his position and rank, His Excellency in Council has decided to accept his abdication

Mir Mahmud Khan will accordingly be recognised as Khan of Kalat in succession to his father, and the Governor General in Council desires it to be clearly understood that the position of the Kalat State towards the British Government is not affected by the transfer of the government of the State from Mir Khudadad Khan to Mir Mahmud Khan and that Mir Mahmud succeeds to all his father's rights and privileges

The 21st August, 1893

No 1413 G—The appointment of Captain E L Robertson, Indian Staff Corps, to be Squadron Commander and 2nd in Command substantive *pro tempore* 2nd Regiment, Central India Horse had effect from the 9th February, 1893, and not from the 4th October, 1892 as stated in Foreign Department notification, No 1078 G dated the 23rd June, 1893 and the appointment of Lieutenant G R de H Smith, Indian Staff Corps, to be Adjutant, 2nd Regiment, Central India Horse, is substantive, *vice* Lieutenant A D A G Bannerman, resigned and not officiating as stated in the same notification

No 1415 G—The following appointments are made in the Central India Horse, with effect from the 21st April 1893

ACCOUNTS AND FINANCE

MINT

The 25th August, 1893

No 3714-*A*—In supersession of the rules published with Notification No 1714, dated the 16th July 1873, the Governor General in Council directs the publication for general information of the Rules for the receipt of gold bullion and coin in the Mints of Calcutta and Bombay and the Bye laws of the Bullion Depôt of the said Mints hereunto appended

J F FINLAY,

Secretary to the Government of India

RULES FOR THE RECEIPT OF GOLD BULLION AND COIN IN THE MINT

General Rules

1 The Mint is open for the receipt of gold bullion and coin between the hours of 10 A M and 3 P M, Sundays and holidays excepted

2 Gold bullion and coin must be tendered by the proprietor thereof in accordance with Form A or B as the case may be, printed copies of which will be supplied by the Bullion Clerk of the Mint

3 Gold bullion and coin brought to the Mint will be received by the Mint Master in accordance with the Notification of the Government of India, Finance and Commerce Department, No 2662, dated the 26th June 1893, which is as follows

' The Governor General in Council hereby announces that, until further orders, gold coins and gold bullion will be received by the Mint Masters of the Calcutta and Bombay Mints respectively in exchange for Government rupees at the rate of 7 53344 grains troy of fine gold for one rupee, on the following conditions

(1) Such coin or bullion must be fit for coinage

(2) The quantity tendered at one time must not be less than 50 tolas

(3) A charge of one fourth per mille will be made on all gold coin or bullion which is melted or cut so as to render the same fit for receipt into the Mint

(4) The Mint Master, on receipt of gold coin or bullion into the Mint, shall grant to the proprietor a receipt which shall entitle him to a certificate from the Mint and Assay Masters for the amount of rupees to be given in exchange for such coin or bullion payable at the General (Reserve) Treasury, Calcutta o Bombay Such certificates shall be payable at the General Treasury after such lapse of time from the issue thereof as the Comptroller General may fix from time to time '

Rules relating to Sovereigns and Half Sovereigns

4 Sovereigns and half sovereigns coined at the Royal Mint, or any authorized branch thereof, will be received at the Mint by weight, but without melting or assay whether they are above or below current weight The charge of one fourth per mille for melting will accordingly not be made in the case of these coins

5 On arrival at the Mint such coins will be taken to the Bullion Clerk of the Mint for examination, weighment, and registry

6 On delivery of such coins into the Mint, the Mint Master will give the proprietor a certificate in Form C A notice will be hung up in the bullion office indicating the period after which such certificate will be payable at the General (Reserve) Treasury

Rules relating to Gold Bullion and Coin other than Sovereigns and Half Sovereigns

7 Gold bullion and coin, other than sovereigns and half overeigns (hereinafter called gold bullion), tendered at the Mint must on arrival be taken to the bullion depôt of the Mint, where it will remain in deposit until it is required for melting

8 Gold bullion must be melted in the melting room of the Mint under the superintendence of the Mint melting establishment to render the same fit for receipt into the Mint

9 Gold bullion will be melted and otherwise dealt with in accordance with the bye laws of the Mint bullion depôt annexed to these rules After the gold bullion has been melted, the resulting ingots will be taken for weighment and registry to the First Assistant to t e Mint Master in the bullion office of the Mint or whose weighment it is received into the Mint

10 Until such weighment is made, the gold bullion is in the custody and at the sole risk of the proprietor thereof, to whom every facility will be afforded for securing it in the strong room appropriated for this purpose

11 The Mint Master, on the delivery of the gold bullion into the Mint, will grant to the proprietor a receipt in Form D

12 Should gold bullion after being melted prove unfit for coinage, it shall be returned to the proprietor on his paying the melting charge specified in paragraph 3 of Government of India Notification No 2662 dated the 26th June 1893, and a fee of Rs 4 for each assay if the gold was subjected to assay

13 On completion of melting and assay the Mint Master will deliver to the proprietor a certificate in Form E from the Mint and Assay Masters on his surrendering the receipt in Form D given to him under rule 11 A notice will be hung up in the bullion office indicating the period after which such certificate will be payable at the General (Reserve) Treasury

14 The proprietor of any gold bullion who, being dissatisfied with the Assay Master's report of its fineness wishes to withdraw such bullion can do so within twenty four hours of his receipt of the certificate in Form E on prepayment of a fee of Rs 4 for each assay and of the charge for melting, and on surrender of the said certificate

15 Gold bullion in the course of receipt by the Mint may be transferred by the original proprietor to another on his signing a letter in Form F to the Mint Master notifying the transfer and paying Rs 4 for each transfer Such transfer will be recognised on the transferee re tendering such bullion or coin in a letter in Form G If the receipt in Form D has been already given to the original proprietor, it should be surrendered, and another receipt in Form D will then be given to the transferee

BYE LAWS OF THE MINT BULLION DEPÔT

External

1 All tenders of gold bullion and coin should specify either the number of sovereigns and half sovereigns or the number of parcels of gold bullion and coin other than sovereigns and half sovereigns (hereinafter called gold bullion), and in either case the approximate weight of the whole amount of the tender

2 The tenders should be numbered in the order of delivery into the bullion depot when all the sovereigns and half sovereign or parcels specified in the tender are brought in When a portion only is brought in, the tender should be numbered after the delivery of the number of coins or parcels specified is completed

3 The gold bullion and sovereigns and half sovereigns tendered should be delivered by the authorised agent, who will see to the locking up of the parcels or coins in the strong room of the depôt

4 The tenders will be dealt with according to priority of numbers if the authorised agent be in attendance if not the next in succession, having an agent in attendance, will be taken in hand The order of succession only applies to gold taken out for melting

5 Importers sending two or more invoices of gold bullion with only one tender are to understand that their agents alone will be responsible for keeping the gold bullion belonging to each invoice separate but if the gold bullion of each invoice be separately tendered, care will be taken to keep each parcel distinct

6 Proprietors are distinctly to understand that their agents are to satisfy themselves as to the accuracy of the weighments in the bullion office of their sovereigns and half sovereigns and of their gold bullion after melting If the proprietors agent should observe anything either in the beam or in the method of weighing that he disapproves, he should make it known at once, and every facility will be given him to make the necessary corrections Proprietors must therefore look only to their agents for explanation if any discrepancy should occur between the invoice and the Mint weighments

7 *Registry of Bullion* —Proprietors gold bullion, after having been melted and when ready for registry, will be taken into the bullion office, and after the bullion has been registered, proprietors' agents, durwans, &c , are to go out through the Mint gate at the warder's lodge

8 The spillage resulting from the gold bullion will, if the proprietor wishes it be carefully worked up, if possible once a fortnight, by the establishment of the bullion depot at the risk and responsibility and on behalf of the proprietors, to each of whom an account showing the value thereof, obtained by proportional distribution of the whole, is to be rendered and the amount paid by cash or cheque on the Bank of Bengal/Bombay

9 *Passes* —All passes for gold bullion required to be sent out of the bullion depôt, whether gold spillage from the melting room or bullion rejected by the Mint previous to registry or withdrawn by proprietors, will be made out by the bullion clerk and sent to the Mint Master for his signature, and then delivered to the proprietors agents for the endorsement of the proprietors Thereafter the bullion will be passed out through the Mint gate at the warder's lodge

10 Proprietors will not be required, in addition to the one fourth per mille charged by the Mint, to pay any other charges such as for gunny bags or cooly hire, after the gold bullion has been once taken into the strong room Gold spillage will be removed at the expense of the proprietors

11 Proprietors may have a guard at the strong room door during working hours if they choose, as their treasure is in deposit at their risk

12 Gold bullion once rejected by the Mint as unfit for coinage shall not again be received for the purpose of being melted without the special authority of the Mint Master

J F FINLAY,

Secretary to the Government of India

MILITARY DEPARTMENT

Simla the 25th August 1893

ORGANISATION

NATIVE ARMY

No 811—The Governor General in Council is pleased to sanction the reconstitution of a regiment of Madras native infantry for service in Burma

2 The corps selected for reconstitution is the 29th Regiment of Madras Infantry, which on re formation will be designated "The 29th Regiment (the 7th Burma Battalion) of Madras Infantry"

3 This corps will be formed from companies of the Magwe and Mandalay Battalions of Military Police

4 The existing material of the 29th Regiment of Madras Infantry will be mustered out, and the native officers, non commissioned officers and men now serving in this corps will be transferred to other regiments, or pensioned or discharged in the manner hereinafter stated

5 This corps as now reconstituted will ordinarily be stationed in Burma, but will be recruited for general service

6 The strength of the corps will be as follows, organized in eight companies

1 Commandant
2 Wing commanders (the senior to be 2nd in command)
5 Wing officers (of whom one will be Adjutant and one Quartermaster)
1 Medical officer
8 Subadars (one of whom will be Subadar Major)
8 Jemadars (one of whom will be Native Adjutant)
41 Havildars (including one Havildar Major)
40 Naicks
16 Drummers or buglers
720 Sepoys

7 The British officers will be selected by the Commander in Chief, Madras as far as possible from the officers of the 29th Madras Infantry and from volunteers from the Madras Army, but those now serving with the police corps about to be transferred to the army, if they belong to another presidency, may receive suitable appointments in the reconstituted regiment for a period of three years, should it be desired to employ them with it, and if they are willing to remain

8 The rule (Article 266, clause (*a*), Army Regulations, India, vol I, part I) requiring commandants to vacate on completion of seven years tenure will not for the present be applied to the commandant of the corps now re formed

9 The pay and allowances of the British officers of this corps will be the same as those allowed for native infantry generally, but, in consideration of the circumstances of local service in Burma, each British officer will receive in addition a local allowance of Rs 100 per mensem, and will also be eligible for the indulgence of three months privilege leave in each year

10 The British officers of this corps belonging to the Madras Army will be eligible for general staff employment in the same way as all other officers of that army They will be subject to the same rules as regards exchanges and transfers as the officers of the six Burma battalions already formed

11 Probationers for the Indian Staff Corps may be appointed direct to this corps in succession to vacancies, without first going through a course of duty with other regiments of the Madras Army

12 The native officers, non commissioned officers and men now serving in the police battalions above named will be eligible to serve in the corps, on its conversion, on the terms now laid down

13 Native Officers and non commissioned officers will be on probation for six months If within that period they are found to be not thoroughly efficient, they will be either re-transferred to the Military Police or placed on the pension establishment

14 The following rates of pay are sanctioned for the native ranks of the corps, *viz*,—

Pay as laid down for Madras in Army Regulations, India, vol I, part II, articles 45 C and 68 D, *plus* the following monthly Burma allowance in lieu of batta allowed to Madras troops in Burma (*vide* article 109 A of the same Regulations)

	Rs	A.	P
Subadar-Major	50	0	0
Subadar	30	0	0
Jemadar	15	0	0
Havildar	7	8	0
Naick	6	0	0
Drummer bugler and sepoy	2	0	0

The Burma local allowance will be admitted to native officers, non commissioned officers and men of the Burma battalions of Madras infantry during all authorised leave or furlough taken by them, whether in India or in Burma

15 Good conduct pay will be given as laid down in articles 85 and 86 of the Regulations above quoted

16 The conditions of service as regards enlistment, kit money, clothing, half mounting, discharge, pensions, and free quarters will be the same as those sanctioned for the six Burma battalions already formed

17 Former service in the police battalions and in the army will count towards the period of service required for the grant of good conduct pay and pension

18 All native ranks including native officers, will be granted free rations as in Army Regulations, India, vol V para 2145

19 Furlough and leave will be granted under the rules in Chapter VIII, Section XIII, Army Regulations, India, vol II, part II

20 The indulgences conceded to the military police in regard to families will be continued on the transfer of these companies of military police to the Madras Army *viz*,—

(*a*) Native officers will be permitted to take their families to Burma on payment of half passage money

(*b*) Twenty per cent of havildars, 20 per cent of naicks, and 5 per cent of drummers, buglers, and sepoys will be allowed a similar indulgence free of cost

(*c*) Free accommodation will be provided for families to the above extent

The term "families" is held to apply to wives and children only

21 Soldiers serving in the battalion as now re formed will be liable to transfer to any other local Burma battalions to which this corps may hereafter be linked, as the exigencies of the service may require

22 The class composition of the 29th (Burma) Regiment of Madras Infantry will be as noted below

Three companies of Sikhs
Three companies of Punjabi Mahomedans
Two companies of Hindustanis

23 The native officers, non commissioned officers and men now serving in the 29th Regiment of Madras Infantry will cease to be borne on the rolls thereof from the 15th October, and will be disposed of as follows

(*a*) Native officers, non commissioned officers and men who have served for pension

for 25 years and upwards will be transferred to the pension establishment on the superior rate of pension of their rank, irrespective of the period they may have served therein, *plus* rice compensation

(*b*) Native officers, non commissioned officers and men of 15 years' service and upwards will be transferred to the pension establishment on the ordinary pension of their rank (irrespective of the period they may have served therein), *plus* rice compensation with the option, in the case of drummers, buglers, and privates who have not completed 21 years service, of being transferred to other regiments

(*c*) Native officers, non commissioned officers and men of more than 10 and less than 15 years' service will be transferred to the pension establishment on two thirds of the ordinary rate of pension of their rank (irrespective of the period they may have served therein), *plus* rice compensation, with the option, in the case of drummers, buglers, and privates, of being transferred to other regiments

(*d*) Non commissioned officers and men of more than 5 years' and less than 10 years' service will have the option of transfer to other regiments, and, in the case of privates only, of joining the active reserve Such as elect for discharge from the service or for transfer to the active reserve will receive a gratuity of one month s pay (including good conduct pay) for each year of service

(*e*) Non commissioned officers and men of less than 5 years service will have the option of being transferred to other regiments, or, in the case of privates only, of joining the active reserve

24 The restriction as to the number of men (160) to be permitted to join the active reserve of any one battalion is suspended in regard to the 29th Madras Infantry

25 The present reservists of the battalion to be reconstituted will be allowed the option of joining the reserves of the battalions linked to this corps under its former organization, or of taking their discharge

26 The mess, band, and other property of the 29th Madras Infantry, together with the colors of this corps, will remain with the regiment as reconstituted

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weather Review of India for the week ending at 8 a m on Saturday, August 19th, 1893

The past week has been one of generally light monsoon rainfall The ordinary distribution of pressure has been somewhat modified, the area of lowest pressure having been located close to or actually over the hills Hence there has been no easterly current up the Gangetic plain and the weather in Upper India has been fine At the same time the monsoon current on the West Coast of the Peninsula has been lighter than usual, and the rainfall over the Peninsula has been also light In consequence of this the temperature has been generally higher than usual—more particularly in Burma

On the 13th pressure was rising, except in Burma, where there was a brisk fall Pressure was lowest over the Western desert and along the foot of the North West Himalayas From this region the barometer readings rose steadily, and were highest over Malabar and Ceylon A slight depression was also shown over Central Burma The winds were irregularly cyclonic over Burma and variable over the Punjab Elsewhere the directions were generally westerly (between south west and north west) Rain had fallen generally in Burma and Bengal and as scattered showers in most other places, though over a large part of North Western India there had been no rain On Monday, the 14th, pressure was decreasing everywhere, but the chart showed no important change in the distribution The area of low pressure continued to lie close to the line of the

Himalayas, and westerly winds were blowing over the greater part of the country The feeble depression over Burma was unchanged Scattered showers, generally of small amount, were reported from Burma, Bengal, and the Peninsula, and elsewhere there was no rain Chittagong reported 3 85 inches, Akyab 2 40 inches, Moulmein 2 1° inches, Mymensing 1 93 inch, Silchar 1 83 inch, and Balasore 1 47 inch These were the heaviest amounts On the 15th the barometer was rising, except over the Peninsula and the Punjab, but the changes had not materially affected the general distribution The prevailing current of air was from the westward, except in Burma, Assam, and the east of Bengal, where southerly and variable winds were reported Rain had fallen at most stations in North Bengal, in Assam, in Burma and on the West Coast, but elsewhere the weather was fine with a few scattered showers Moulmein reported 3 inches, Gnatong 2 74 inches, Jalpaiguri 1 93 inch, and Tavoy 1 10 inch In all other places the amounts were small The chart of the 16th showed that pressure was falling over the southern and rising over the northern half of India The lowest pressure lay over the Punjab but there was also a feeble depression over the north of the Bay The pressure differences were small, and the winds were generally lighter than usual The winds were irregularly cyclonic over the north of the Bay area, generally westerly and north westerly elsewhere The force was lighter than usual The distribution of rain was similar to that reported on the 15th, only a few scattered showers being reported except over the west of the Peninsula, Burma, and parts of Bengal, where the fall was fairly general Tavoy reported 2 63 inches, Bassein 1 64 inch, Moulmein 1 02 inch, Chakrata 1 76 inch, Mercara 1 00 inch, and Negapatam 1 18 inch On the 17th the barometer was rising over North Western India and over Burma and falling in other parts of the country The depression over the north of the Bay had changed very little, and the pressure differences remained small The winds were very variable over North Eastern and North-Western India, but were generally westerly over the centre and south Showery weather was reported over a large part of the country, but the amounts were generally small Tavoy, Saugor Island, Chittagong, Chakrata, Bombay, Ahmednagar, Gopalpur, and Negapatam had between 1 and 2 inches, but elsewhere the amounts were less than 1 inch On the 18th the distribution of pressure had undergone an important change, a trough of low pressure running from the low pressure area over the Bay north westward to the Punjab On the northern and north eastern side of this trough easterly winds had been established extending as far west as Roorkee In Burma variable breezes continued, and in other parts of the country the directions remained generally westerly General showers were reported from the Peninsula and North Eastern India, but elsewhere there was no rain Moulmein and Kurnool reported over 2 inches and several stations over 1 inch On the 19th the distribution of pressure showed very little change, the alterations of the barometer having been small and irregular The easterly current over Bengal and the north of the Gangetic plain continued Elsewhere the winds remained westerly and north westerly Showery weather had extended, but there was still no rain over North Western India Mussoorie had received over 3 inches and Neemuch, Hyderabad (Deccan), and Gopalpur over 1 inch Elsewhere the amounts were small

Temperature—The general decrease in the amount of rainfall has been accompanied with an increase in the temperature over India Last week the mean temperature of the whole country was ½° below the normal average, and

this week the mean is nearly ⅛° above, showing a rise relatively to the normal of nearly 1 0°

The following table shows the variations of the mean temperature from the normal on each day of the week for the different Provinces of India

Province	August 1893							Mean variation of week
	13th	14th	15th	16th	17th	18th	19th	
	°	°	°	°	°	°	°	°
Burma	+2 4	+2 3	+2 1	+1 6	+2 7	+2 2	+2 2	+2 2
Bengal and Assam	−1 5	−0 3	+0 8	+0 8	+1 5	+1 2	+0 8	+0 5
North Western Provinces and Oudh	−1 4	−1 1	+0 1	+0 4	+0 7	+2 1	+3 6	+0 6
Punjab	−4 4	−2 7	−0 7	−0 1	−0 7	−1 0	−0 5	−1 4
Bombay	+0 9	+1 2	+1 3	+1 0	+0 1	+0 7	+1 2	+0 9
Central Provinces and Berar	−1 6	−1 3	−1 0	+0 1	+1 2	+2 2	+3 2	+0 4
Central India and Guzerat	−1 5	−1 7	−0 7	−0 2	+0 4	−0 1	+2 1	−0 2
Sind and Rajputana	−1 5	−0 6	−0 8	−0 5	−0 4	+0 8	+2 7	0
Madras	+1 1	+1 3	+2 5	+1 8	+1 6	−0 2	−1 9	+0 9
Mean for whole of India	−0 8	−0 3	+0 4	+0 5	+0 8	+0 9	+1 5	+0 4

The above figures show that on the 13th and 14th the mean temperature of India was slightly below the average and that on the other days of the week it was above The warmest day was the 19th The figures for the Provinces show that in Sind and Rajputana the mean temperature was exactly normal in Guzerat and Central India slightly below the normal, and in the Punjab 1⅜° below, but that in all other Provinces the heat was somewhat greater than usual

Rain — The table at the close of the summary shows that during the week under review rain fell in all the Provinces, except Sind and Rajputana (West) In the case of several divisions—as for example, the North West Provinces (Central), the Punjab (South, Central and Hill Districts), and Rajputana (East) and Central India (West)—the average actual rainfall of each division was less than one tenth of an inch, but in all the other divisions the rainfall, though generally lighter than usual, was effective The heaviest average actual fall was 8 19 inches in Tenasserim this was followed by 4 49 inches in Assam (Surma), by 3 30 inches in North Bengal, and by 2 97 inches in Assam (Brahmaputra) The lightest rainfall reported was shown in the divisions noted above According to the normal distribution for the week under review, the heaviest normal average fall is 8 11 inches in Tenasserim this is followed by 7 74 inches in Assam (Surma), by 6 68 inches in Arakan, by 6 43 inches in the Konkan, and by 5 88 inches in Coorg The lightest average normal rainfall is 0 26 inch in Sind It will be seen from the above that on the whole the average actual and average normal distribution of rainfall agreed fairly well,—*i e*, the heaviest fall was in Tenasserim, the lightest in Sind, &c , but the minor differences were considerable, such, for example, as the deficient rain in Coorg and the Konkan The third column of the table shows that over by far the greater part of the country the rainfall has been largely short of the average Only in six divisions, *viz*, Tenasserim, the East Coast (North and South), Hyderabad (South), and Madras (Central and South), was there any excess In all the other divisions there was a deficiency The deficiency was as much as 4 75 inches in the Konkan, 3 94 inches

in Coorg, and 3 83 inches in the Hill Districts of the Punjab, and over 2 inches in many divisions The most important case of excess was 1 38 inch in Hyderabad (South)

The three concluding columns of the table show the state of the seasonal fall of rain, *i e*, the actual rainfall for the period May 28th to August 19th, 1893, and the normal rainfall for that period From these columns it appears that in Tenasserim, Lower Burma, Orissa, Coorg, Mysore, and the Central Provinces (West) the rainfall has been short (a deficiency of 20 per cent and above), in Central Burma, Arakan, Assam (Brahmaputra), the North West Provinces (Submontane, Central, and West), the Punjab (South, Central, Hill Districts, and West), Malabar, Madras (South Central), the Konkan, Berar, the Central Provinces (Central and East), Guzerat, Kathiawar, Central India (East), Rajputana (East) and Central India (West), the East Coast (North *a*), Madras (Central), and the East Coast (Central) the rainfall has been approximately normal (variations + or — less than 20 per cent), and that in all the remaining divisions it has been excessive

The following gives the largest total amounts received during the week as reported in the rainfall telegrams of the week

Division	District	Station	Amount
Tenasserim	Amherst	Sudder	9 07 inches
East Bengal	Noakhali	Feni	7 28 "
Assam	Sylhet	Karimganj	9 19
North Bengal	Jalpaiguri	Bhagatpur	17 69 "
Bihar	Purneah	Ariareah	5 08 "
Oudh	Hardoi	Shahabad	3 23 "
North Western Provinces	Aligarh	Khair	3 60 "
Punjab	Kohat	Thal	1 45 "
Malabar	South Kanara	Udipi	3 02 "
Madras	Salem	Yercaud	5 84 "
Konkan	Ratnagiri	Vengurla	6 15 "
Deccan	Kolhapur	Bavda	5 60 "
East Coast	Ganjam	Rambha	5 42 "
Ditto	South Arcot	Tindivanam	4 49 "

SIMLA, *24th August, 1893*

W L DALLAS,
Asst Meteorological Reporter to the Government of India

E C BUCK,
Secretary to the Government of India.

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weekly Report on the state of the Season and Prospects of the Crops

Madras —*For week ending 19th August* —Rainfall good and of seasonable amount almost throughout the Presidency, though rather light in parts of the Central, Southern, and West Coast districts Cultivation proceeding favourably and standing crops flourishing Harvest in progress in parts with fair outturn Pasture and fodder sufficient Condition of cattle good Prices fluctuating slightly, but still near former high rates

Bombay —*For week ending 23rd August* —River low in Sind Rain more or less throughout the Presidency Proper, but generally deficient Standing crops withering for want of rain in parts of four and damaged by rats or insects in parts of eight, districts Sowing and transplantation of early crops completed, except in a few districts Preparations for late crops progressing in two districts Prices generally steady Fodder sufficient Agricultural stock good

Bengal —*For week ending 19th August* —The rainfall during the week has been generally light and scattered and the fine weather has proved beneficial to the crops Transplanting of winter rice is being rapidly completed, and the autumn rice and jute harvests are in progress Prospects are favourable in five divisions, fair in the Presidency division, and from fair to moderate in three other divisions Floods are reported from Tipperah, Darbhanga, Muzaffarpur, and Champaran Damage has been caused to the autumn and winter rice, but its extent has not yet been fully ascertained In the Bil country, a small tract on the borders of Faridpur and Backergunge, the unusually early and rapid rise of the water prevented sowing or destroyed the young rice, and apprehensions of distress requiring relief are entertained The population affected is about fifty thousand Test works have been opened, and subscriptions are being collected for the relief of invalids Prices have risen in the eastern districts, but elsewhere are generally stationary Cattle are suffering from want of fodder in the flooded tracts, elsewhere they are in good condition

North-Western Provinces and Oudh —*For week ending 23rd August* —The weather has been generally clear during the week, although showers have fallen in some places More rain is needed, especially for the rice crops Prospects so far are favourable Preparation of land for the spring crops is in progress Supplies ample and fodder sufficient Prices stationary

Punjab —*For week ending 23rd August* —Rain has fallen in parts of six districts, but more rain is urgently wanted in most districts Sowings of autumn crops going on Weedings of standing crops commenced, the condition of the crops is generally good to average, except that of those destroyed by floods in the Shahpur district Ploughings for spring crops in progress Prospects are at present fair, but want of rain is beginning to cause damage Cattle generally in good condition Fodder sufficient in all districts, except in parts of Mooltan Prices rising in two districts and stationary elsewhere

Central Provinces —*For week ending 23rd August* —Prospects have been improved by the rainy weather of the last two days, and continue favourable, except in the rice country of the Waingunga Valley and in parts of Chhattisgarh, where the rainfall has been insufficient

Burma—*For week ending 19th August*—In Lower Burma agricultural operations are progressing satisfactorily, and standing crops are in good condition In two districts inundations have submerged considerable areas of paddy cultivation, which in all probability will be destroyed The rainfall was sufficient in all districts In Upper Burma agricultural operations are progressing satisfactorily Rain has fallen in all districts, but more rain is required in Yeu and Shwebo Slight damage has been done to crops by floods in four districts Crop prospects are generally good In the Southern Shan States agricultural operations have been suspended owing to want of rain In Lower Burma, except for a slight rise in Prome, the price of paddy is stationary In Upper Burma there have been slight increases in three districts and considerable increases in two others

Assam—*For week ending 22nd August*—Floods have occurred in parts of the Brahmaputra Valley, but are subsiding in the Surma Valley Prospects of crops, condition of cattle, and supply of fodder unsatisfactory in the flooded tracts, but good elsewhere

Mysore and Coorg—*For week ending 23rd August*—MYSORE Rainfall slight throughout Standing crops in good condition Prospects generally favourable, but more rain is badly wanted in parts of four districts Prices risen in two districts and fallen in one

COORG Rainfall good Transplanting of paddy approaching completion, but more rain is needed for rice and ceffee Slight rise in prices Water and fodder for cattle ample

Berar and Hyderabad—*For week ending 23rd August*—BERAR Rainfall moderate Weather warm and cloudy Standing crops in good condition Land being prepared for next spring crops Sowings nearly completed, weeding operations continue Fodder and water sufficient Prices almost stationary

HYDERABAD Rainfall good during the week Weeding of the hot weather crops continues Sowing of irrigated crops continues in one taluk only, but is finished in other localities Fodder plentiful Prices stationary

Central India—*For week ending 23rd August*—There appears to have been a slight break in the rains during the week in parts of Central India More rain is required in Baghelkhand Agricultural operations in progress in all parts Indian corn slightly damaged by excessive rain in Bhopawar, but crops in other parts are in good condition, and the outturn expected will be generally good Agricultural stock in good condition Prices of food grains slightly fallen in Bhopal, fluctuating in Bhopawar, but steady elsewhere

Rajputana—*For week ending 23rd August*—Fair rain in Bickaneer and slight rain in Meywar and Sirohi Agricultural operations and standing crops generally satisfactory Condition of cattle generally good Pasturage or fodder sufficient Prices falling in one State, rising in two others, fluctuating in one, and steady elsewhere

Kashmir—*For week ending 22nd August*—Weather fine Ploughing for the spring crops commenced Autumn crops in good condition Prices stationary

Nepal—*For week ending 19th August*—Weather seasonable Prospects of the rice crop are very good

Circular No $\frac{51}{51}$

Extract from the Proceedings of the Government of India in the Revenue and Agricultural Department (Museums and Exhibitions),—dated Simla, the 24th August 1893

RESOLUTION

Read the following—

General notice regarding the Antwerp International Exhibition of 1894

ANTWERP INTERNATIONAL EXHIBITION OF 1894 UNDER THE HIGH PATRONAGE OF HIS MAJESTY THE KING OF THE BELGIANS

HONORARY PRESIDENT—HIS ROYAL HIGHNESS THE COUNT OF FLANDERS

FOREIGN SECTIONS

GENERAL NOTICE

(*Taken from the General Rules*)

The Antwerp International Exhibition will include all Industrial, Scientific and Artistic Productions, as well as all Commercial Produce It will comprise Maritime Colonial, and African Sections also an Exhibition of Military Art

Simultaneously with the General Exhibition, the Antwerp Royal Society of Fine Arts will hold a special exhibition of Painting Sculpture, Engraving and Architecture to which Artists of all countries are invited to contribute

It is also intended to hold a series of shows and exhibits of Live Stock, Agricultural Products Flowers, Fruit, etc

The Exhibition will be inaugurated May 5th, 1894 and will remain open for six full months closing at latest on November 12th 1894

It will be located in the new quarter of the city, in close vicinity of the Scheldt and the new maritime installations and will be connected with the principal railways

It will cover in one enclosure an area of about 200 acres, including (1) a Palace of Fine Arts (2) several Halls covering about 120,000 square yards of ground, and intended for exhibiting Industrial and Commercial products, Machinery, Electric appliances, etc These halls will be built of iron and steel and will be roofed with zinc

A Board of Directors conduct the business of the Antwerp International Exhibition Company and decide all matters of Administration and Finance

An Executive Committee under the honorary Presidency of Baron Osy van Zegwaart, Governor of the Province of Antwerp, and M Jan Van Ryswyck, Burgomaster of the city, and under the effective Presidency of Count de Pret Roose de Calesberg, Member of the Senate, has charge of the organisation and management of all Exhibits in the different departments

By Decrees, dated 11th March 1893, Royal Commissions of the Belgian and Foreign Sections have been instituted under the honorary Presidency of His Royal Highness the Count of Flanders, also a Commissariat General of the Government and General Commissions of the Belgian and Foreign Sections

The Belgian Commission is presided over by M Leon De Bruyn, Minister of Agriculture, Industry, and Public Works

The Foreign Commission under the Presidency of M Valère Mabille has for its object to encourage and facilitate the co operation of Foreign Exhibitors

The Commissariat General of the Government, whose head quarters are at the *Palais des Académies* in Brussels, is conducted by Count Hyppolyte d Ursel, who represents the Government at the Antwerp International Exhibition, and is the official referee between the Executive Committee of the Company and the Commissaries of the Belgian and Foreign Sections, also between the latter and the Foreign Commissaries

delegated with the Exhibition, in all matters where the interests of Foreign Exhibitors are concerned

The Commissary General of Foreign Sections, M Vercruysen Brack, Member of the Senate, co-operates with the Commissary General of the Government in all negociations with Foreign Countries, especially as regards the appointment of the Commissaries of the Foreign Sections

The Foreign Governments have been officially advised of the formation of this International Exhibition they have been invited to appoint their official Commissaries to represent them

Committees for furthering the objects of the Exhibition may be formed in the principal cities or towns of the world under approval of the Belgian Government, and with the co operation of its Diplomatic and Consular Agents abroad

Where no official Commissary has been appointed Foreign Exhibitors may be represented by a private Committee or its delegate

All products will be divided into classes as per summary hereafter given, and will be exhibited in accordance with this classification in all the separate sections

In the Halls for Machinery and Electricity the products of each country will be exhibited together as far as the distribution of motive power will allow

The charge for space in the different compartments including general decoration of the halls, and the reception of goods, has been established according to position as follows —

I —HALLS OF INDUSTRY

Per square metre ground surface	"	25
The charge for space in this department will in no case be less than	"	25

For space allotted under sheds or tents, the above charges will be increased by fr 5, per metre

---

For large spaces taken in the Halls of Gardens by the different Countries, special terms will be arranged through the intervention of the Commissary General of the Belgian Government

Foreign goods arriving by the Belgian State Railways will be returned carriage free over the same lines Negociations have been opened with the private companies and the foreign lines in connexion with the Belgian State Railways to obtain the same terms from them

Most of the regular lines of steamers will take goods for the Antwerp Exhibition at reduced rates of freight

The Antwerp International Exhibition Company undertakes the handling of goods within the Exhibition, free of charge on all packages received not later than April 15th, 1894, and not exceeding 1,500 kilos in weight This includes the delivery of the packages on the space allotted, and the eventual re loading on the railway trucks, within the limits of the Exhibition

Empty packages will be stored at a low rate, and brought back for repacking at the close of the Exhibition

---

The Executive Committee will arrange special terms for handling Goods and storing Empties with all Countries officially represented

The general decoration of the Exhibition Halls will be carried out at the expense of the Company all private and special decorations will be at the expense of Exhibition singly or collectively

Strict watch and guard will be established to prevent goods being stolen, strayed, or damaged, without, however, any responsibility being incurred by the Company in this respect

All Exhibitors will be free to appoint at their own expense and under their own responsibility any number of private Inspectors from a list approved by the Company

The Exhibitors whether singly or collectively, are responsible for the whole charge for rent, for the supply, fixing, and decoration of all and any special appliances they may require, such as partitions, screens, extra ceilings, stands, raised flooring extra foundations for heavy exhibits also for the packing, laying out, and repacking of their goods, rent for storage of empties, etc

Exhibitors requiring steam, water, gas, or electricity must declare in their application for space the hourly quantity they require It will be supplied as per tariff

When motive power is required, the intended rate of speed must also be indicated

In the Halls of Machinery, motive power will be obtainable per special tariff, and will be supplied from the main shaft for general transmission

Intermediate transmission will be at the expense of Exhibitors, the foundations and all special appliances will also be at their cost

A copy of the particular rules and regulations further relating to this department will be sent on application

Articles of every day sale, also those manufactured on the spot, may be sold and delivered to visitors on payment of a percentage to be fixed by agreement, but such sales may not take place in the Halls without a special and written consent of the Executive Committee A special convention will regulate the sale of refreshments in the gardens and grounds of the Exhibition

An International Jury of Awards will be formed, the members of which will be appointed by their respective Governments this Jury will be organised and presided over by the Commissary General of the Belgian Government, who will also propose for appointment by the Belgian Government members of the Jury from among the delegates of countries not officially represented

The Jury will officiate as soon as possible The Awards will consist of Medals or Diplomas of First Class, Diplomas of Gold, Silver, and Bronze Medals, and of Honourable Mention

All foreign goods will be admitted to the Exhibition in bond, paying no duty of any kind if re exported

All inventions patents drawings models, trade marks, etc, exhibited will be placed under the immediate protection of the Belgian Government, and all rights of property in them will be effectually secured

The Executive Committee will issue an official and complete catalogue methodically arranged and containing the name and address of each exhibitor, with particulars as to trade, place of production, etc Foreign sections will have the right of issuing at their own expense their special catalogues and of selling them within their respective limits

The issue of tickets for the Lottery authorised by the Belgian Government may extend over several series of one million tickets each the prizes to be purchased exclusively from Exhibitors The issue of the first series of tickets will be authorised before the opening of the Exhibition

Printed forms of application for space are supplied by the Executive Committee *or by the Commissariats of Countries officially represented* These forms must be signed, and addressed prepaid to the official Commissariat of the Country to which the intending Exhibitor belongs, or to the Executive Committee of the Exhibition, No 9, *Rue Gerard, Antwerp* not later than October 1st 1893 for all countries not officially represented

All goods exhibited at the World's Fair, Chicago, which may be destined for the Antwerp Exhibition will on arrival be stored free of charge *in the Halls, and as near as possible to their definite places*

A Dictionary of the Economic Products of India

BY DR GEO WATT C I E,

Reporter on Economic Products

Published under the authority of the Government of India in the Revenue and Agricultural Department

The first five volumes and Volume VI, Parts I, II, and III of the Dictionary are now ready at the Office of Superintendent of Government Printing No 8 Hastings Street Calcutta and will be supplied to non subscribers on receipt of the price for the complete set which is R45 in India and 3 guineas in England (exclusive of the Index for which a separate charge will be made) packing and postage in India, 8 annas per volume for England 2 rupees 6 annas per volume For copies bound in half alf or half morocco R6 and 8 shillings respectively will be charged extra for the whole set

The Dictionary is intended to deal with the products o India—animal vegetable and mineral each produc being treated after a uniform plan the paragraphs of which give the scientific vernacular and European namesf habitat or source history properties and uses (both chemical and industrial) trade statistics markets etc The work is arranged alphabetically according to scientific nomenclature but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader

An important feature of the Dictionary consists in the fac that derived information is in every instance given under quotation marks and with a reference to the original publication Numerous contributors have however furnished the results of new discoveries and confirmed the vernacular names so that the Dictionary is not only a complete compilation of published information but has been brought abreast of the most recent inventions and discoveries

Volume I contains the letters A and B and consists of 550 royal octavo pages Volume II embraces the letter C in 689 pages Volume III contains the letters D E F and half of G Volume IV latter half of G to middle of L and Volume V contains th latter half of L to end o O Vol VI (which will consist of four parts) Part I con tains letters P to R The whole work will it is expected be completed in nine volumes (including Parts II to IV of Vol VI) during the current year but a tenth volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary The Index will practically be a glossary of the vernacu lar and European names of the plants animals and minerals of India and as such will be a work o reference which it is hoped may prove of considerable value

HOME DEPARTMENT

NOTIFICATIONS

PUBLIC

Simla the 31st August 1893

No 1212—The following letter from Her Majesty the Queen, Empress of India, published in the Supplement to the *London Gazette* dated 11th July 1893, is republished for general information

Whitehall, July 10, 1893

The following Letter from the Queen has been received by The Right Honourable the Secretary of State for the Home Department

Windsor Castle, July 10, 1893

The Queen wishes once again to express to Her people how much gratified and touched She has been by the great loyalty and devotion to Herself and Her Family which has been so strikingly evinced on the occasion of the Marriage of Her Beloved Grandson, The Duke of York, and His dear Bride, Princess Victoria Mary of Teck

It is, indeed, nothing new to The Queen for in weal and woe She has ever met with the warmest, kindest sympathy, which She feels very deeply

She knows that the peoples of Her vast Empire are aware how truly Her heart beats for them in all their joys and sorrows, and that in the existence of this tie between them and Herself lies the real strength of the Empire

With them The Queen joins in fervent prayer and wishes for the welfare and happiness of Her dear Grandchildren

VICTORIA, R I

PART IV

Acts of the Governor General's Council assented to by the Governor General

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 1st September, 1893, and is hereby promulgated for general information

ACT No X OF 1893

An Act to amend the Excise Act, 1881

II of 1881 WHEREAS it is expedient to amend the Excise Act, 1881, it is hereby enacted as follows

Addition of *Explanation* to section 7 Act XXII, 1881

1 The following shall be added to section 7 of the said Act, namely

"*Explanation*—Duty may be fixed or made payable under this section at different rates according to the places to which any spirit is to be removed for consumption"

Insertion of new section after section 23 Act XXII 1881

2 After section 23 of the said Act the following shall be inserted namely

Spirits fermented liquor and intoxicating drugs from territory beyond India subject to duty

"23A The Governor General in Council may from time to time by notification in the Gazette of India, impose such duty as he thinks fit on any spirit or fermented liquor or intoxicating drug brought by land from beyond the limits of India into any territory to which this Act extends or into any specified part thereof, and may alter or abolish any duty so imposed"

New heading to Chapter V Act XXII 1881

3 The heading to Chapter V of the said Act shall be—

"IMPORT OF SPIRIT, FERMENTED LIQUOR AND INTOXICATING DRUGS"

Amendment of section 36 Act XXII 1881

4 (1) To clause (c) of section 36 of the said Act the word "or" shall be added

(2) After the said clause the following clause shall be added, namely

'(d) without payment of such duty (if any) as may for the time being be payable in pursuance of a notification under section 23A, brings any spirit or fermented liquor or intoxicating drug into any territory to which this Act extends,"

(3) In the last paragraph of the said section 36, the words "or intoxicating drug" shall be inserted between the words "fermented liquor" and the words "together with"

Abstract of the Proceedings of the Council of the Governor General of India assembled for the purpose of making Laws and Regulations

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACTS OF PARLIAMENT 24 & 25 VICT, CAP 67, AND 55 & 56 VICT, CAP 14

The Council met at Viceregal Lodge, Simla, on Thursday, the 31st August, 1893

PRESENT

His Excellency the Viceroy and Governor General of India, G C M G, G M S I, G M I E, *presiding*
His Honour the Lieutenant Governor of the Punjab, K C S I
His Excellency the Commander in Chief, K C B, G C I E, V C
The Hon'ble Sir P P Hutchins, K C S I
The Hon'ble Sir D M Barbour, K C S I
The Hon'ble Sir A E Miller, KT, Q C
The Hon'ble Lieutenant General H Brackenbury, C B, R A
The Hon'ble Sir C B Pritchard, K C I E, C S I
The Hon'ble J L Mackay, C I E

QUESTION AND ANSWER

The Hon'ble MR MACKAY asked

"Whether representations have been made to the Government of India by various public bodies during the past few weeks complaining of the action of the

Secretary of State in not fixing some minimum for the sale of his Council drafts during the present dull season, so as to give a basis on which commercial transactions might be arranged If so, and in view of the serious losses which have been incurred and the disorganisation to trade which has arisen through the violent fluctuations in exchange consequent upon the Secretary of State letting his Bills go as low as 1*s* 3¼*d* in the middle of August, after having sold them for 1*s* 4*d* in the end of June, I would ask whether any action has been taken upon the representations received by Government, and whether the communications if any, which have passed between the Government of India and the Secretary of State upon the subject will be published for general information, and, if so, when"

The Hon'ble SIR DAVID BARBOUR replied

"It is the fact that representations have been made to the Government of India during the past few weeks regarding the action of the Secretary of State in not fixing some minimum for the sale of his Council drafts during the present dull season

"These representations have been considered by the Government of India, and communications have passed by telegram between the Secretary of State and the Government of India The correspondence is not yet closed, and could not properly be published at the present time

"The Government of India wish to add that misapprehension appears to exist in some quarters regarding their recent action in connection with the Indian currency

"The avowed object of the Government of India in closing the Indian mints to the free coinage of silver was to alter the Indian monetary standard from silver to gold, but it was expressly stated in this Council on 26th June last that it was not intended for the present to do more than stop the free coinage of silver, and, as a provisional arrangement, to provide for the issue of rupees at the mints in exchange for gold at the rate of 16*d* per rupee

"The object of providing for the issue of rupees in exchange for gold at 16*d* the rupee was to prevent any great and sudden rise of exchange, and the Government did not undertake either to establish 16*d* per rupee as the permanent ratio of exchange between gold and the rupee or to establish any other permanent ratio immediately or within any specified time

"The words which I used in dealing with this matter were as follows

'The making of gold coins legal tender, the settlement of the permanent rate of exchange between gold and the silver rupee and the other measures necessary for the final and effective establishment of a gold standard in India will be provided for by future legislation and in the light of future experience

"It would have been very satisfactory if exchange had risen to 16*d* as soon as the mints were closed, and had remained permanently at that figure, and no doubt this expectation was entertained in some quarters, and business transactions were entered into in the hope that this would be the case The Government of India regret that the sudden rise in exchange which took place after 26th June and the subsequent fall should have caused so much loss and inconvenience to the mercantile public, and they deeply sympathise with those persons who find the anxieties which are inseparable from business greatly aggravated by the uncertainty which prevails as to the future course of exchange

"At the same time the Government of India must point out that they gave no encouragement to the idea that, as the result of the preliminary measures taken on 26th June, the gold standard would be at once, and effectively, established in India either at the ratio of 16*d* for the rupee or at any other ratio

"The words which I used on 26th June were as follows

'It may be that the gold standard can be made effective from the first Or it may be that the making of the gold standard effective, and the establishment of it on a secure basis, will involve a long and arduous struggle and necessitate heavy sacrifices Time alone can show which view is correct'

"What has actually happened is that there was a large rise in exchange immediately after the closing of the Indian mints This rise was speculative and not justified by any change in the conditions which regulate exchange, in point of fact the conditions were, and are still to a great extent, unfavourable to any immediate and serious rise in exchange of a permanent nature The Indian mints were closed at the slack season of the year, there had been very heavy imports of silver immediately before, and large transfers of rupee paper to London which is believed to be now returning to India, while the drawings of the Secretary of State are exceptionally heavy for the current year

"The Government of India regret the fluctuation and the evils to which it has given rise, but in their opinion nothing that has occurred since June last affords any ground for holding that the gold standard cannot be effectively established in India

"On the contrary, it was from the first foreseen that difficulties might be encountered and would have to be overcome in carrying out the measure The actual occurrence of these difficulties should not be a ground for discouragement, especially when it is remembered that the time and circumstances have been especially unfavourable, and have tended to retard the full operation of the measure

"There is therefore, reason to hope that the difficulties which have arisen will prove to be temporary and will in time disappear"

EXCISE ACT, 1881, AMENDMENT BILL

The Hon'ble SIR DAVID BARBOUR moved that the Bill to amend the Excise Act, 1881, be taken into consideration He said

"The Bill is a very simple one, and merely provides for the equalising of the rates of duty where inequalities operate to the prejudice of any competing manufacturer in India For instance, the duty on rum on removal from a distillery is four rupees a gallon in the North Western Provinces and five rupees in Bengal Much rum goes from the North Western Provinces to Bengal for consumption, and it seems clear that, so far as the Government can help, no undue preference, by way of taxation, should be given to manufacturers in the former territory over those in the latter Section 2 is intended to cover the case of the importation by land of liquors, and possibly of drugs not covered by the Opium Act, 1878, from places beyond the limits of India"

The Motion was put and agreed to

The Hon'ble Sir DAVID BARBOUR also moved that after section 3 of the Bill the following section be inserted, namely

Amendment of section 36 Act XXII 1881 "4 (1) To clause (c) of section 36 of the said Act the word 'or' shall be added

(2) After the said clause the following clause shall be added, namely

'(d) without payment of such duty (if any) as may for the time being be payable in pursuance of a notification under section 23A, brings any spirit or fermented liquor or intoxicating drug into any territory to which this Act extends'

(3) In the last paragraph of the said section 36 the words 'or intoxicating drug' shall be inserted between the words 'fermented liquor and the words 'together with

He said —"I may explain that the only object of this amendment is to make it a punishable offence to smuggle spirit, fermented liquor or intoxicating drugs brought by land from beyond the limits of India into territory in which the Act is in force It was by an oversight that this provision was not made in the original Bill The Bill now provides for the imposition of the duty on such articles, and the proposed amendment enacts that any violation of that provision shall be punishable by the usual penalty for smuggling under the Bill"

The amendment was put and agreed to

The Hon'ble SIR DAVID BARBOUR also moved that the Bill, as amended, be passed He explained that there had been no opposition raised by the public to the Bill and he now proposed that it be passed as amended

The Motion was put and agreed to

TRIBUTARY MAHALS OF CUTTACK BILL

The Hon'ble SIR ALEXANDER MILLER moved that the Bill to make provision for certain matters connected with the Tributary Mahals of Cuttack be taken into consideration on the 21st September next He said —" The Bill is purely a formal one and I do not think it will be necessary to refer it to a Select Committee, but it has been circulated and the answers of the Bengal Government and the High Court at Calcutta are not due till the 21st September next, and it cannot be taken into consideration before that time "

The Motion was put and agreed to

The Council adjourned to Thursday, the 21st September, 1893

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weather Review of India for the week ending at 8 a m on Saturday, August 26th, 1893

Ordinary monsoon conditions of moderate intensity have prevailed throughout the Indian region during the week under review Pressure has been steadily high over Malabar, Ceylon, and the south of the Bay, steadily low over the Punjab, and moderately low over the north of the Bay and over the Gangetic plain The steepness of the barometric gradient has varied from day to day, but on the whole the pressure differences have been moderate, and the wind which has blown from the normal monsoon directions has been moderate to fresh The heat has been somewhat greater than usual, except over the Peninsula, where the mean temperature has been about normal

On the 20th the barometer was falling everywhere The general distribution of pressure and the circulation of the winds were fairly normal, and rain was reported from most parts of the country, except North Western India and the south of the Carnatic The amounts of rainfall were generally small, but Mussoorie has received 2 92 inches, Silchar 2 26 inches, and Moulmein, Dehra Dun, Chakrata, Sholapur, and Bellary over one inch On the 21st pressure was still falling, except in Upper Burma and part of the Peninsula The general distribution was very little changed, except that a shallow depression had appeared over Lower Burma The winds were irregularly cyclonic over Burma, and elsewhere blew from about the normal monsoon directions The force was fresh over a large part of the country There was no rain over North Western India, but in all other districts rain had fallen more or less generally, and in several places was heavy thus Moulmein reported 7 74 inches, Raichur 4 91 inches, Kurnool 3 25 inches, and Minbu, Cawnpore, Raipur, and Hyderabad (Deccan) over 2 inches The chart of the 22nd showed that pressure was increasing over a large part of Western India and over Burma and was decreasing elsewhere The shallow depression which was crossing Burma on the morning of the 21st had passed out into the Bay, but otherwise the general distribution was unchanged Readings were lowest over the Punjab, relatively low over the Gangetic plain and the Bay, and highest in Malabar and Ceylon The gradient had increased The winds were irregularly cyclonic around the Bay, but continued to blow from the normal monsoon directions elsewhere, though on the West Coast the winds were perhaps more northerly than usual By the morning of the 23rd the depression which was crossing the Bay had reached the Orissa and Ganjam coasts Pressure was falling over the Peninsula, the Central Provinces, the Gangetic plain, and Bengal, and rising elsewhere The baric gradient was steep over the Peninsula and the Bay Cyclonic winds prevailed over a large part of the country, circulating around the depression noticed above Over North Western India and the west of the Peninsula, however, numerous calms were reported There was still very little rain over North Western India, but in all other parts of the Indian region the fall was very general Akyab reported 4 80 inches, Cawnpore 2 97 inches, Cuttack 2 50 inches, Bhamo 2 15 inches, and Hazaribagh 2 04 inches, while several stations had more than

1 inch The chart of the 24th showed that the depression which had crossed the Bay had reached the Central Provinces, and that the barometer was falling over the central and north western parts of the country Cyclonic winds continued to prevail around the depression and normal monsoon winds elsewhere The only rainfall over North Western India was still light and scattered, but in other parts of India the fall was very general Pachmarhi reported 3 41 inches, Raipur and Mercara 2 80 inches, Lashio 2 59 inches, Mangalore 2 23 inches, and Khammamett 2 07 inches, while at several stations the fall was over 1 inch On the 25th the barometer was rising over the Peninsula and Bengal and falling elsewhere The depression was stationary over the central parts of the country and the general distribution was unaltered The winds were about normal Rain had been very general, except over the Punjab plains and Sind, but the amounts, except on the West Coast, were falling lighter Silchar reported 3 27 inches, Goa 3 25 inches, Mormugao 2 29 inches, Mercara 2 19 inches, Tavoy 2 17 inches, and a few places over 1 inch On the 26th the barometer was rising generally and the depression had become slighter There was no other change Rain had extended somewhat in North Western India and remained fairly general elsewhere The fall continued, however, to grow lighter The heaviest fall was 1 75 inches at Bikanir, followed by 1 64 inches at Mercara, by 1 50 inches at Akola, by 1 29 inches at Darjeeling, by 1 21 inches at Neemuch, and by 1 02 inches at Mangalore and Pachmarhi

Temperature —Notwithstanding the very general rainfall, temperature has been very generally higher than usual The most marked excess was, of course, over North Western India, where the rainfall was lightest, but the mean temperature of the whole of India for the whole week was $1\frac{1}{2}^{\circ}$ above the normal

The following table shows the variations of the mean temperature from the normal on each day of the week for the different Provinces of India

Province	August 1893							Mean variation of week
	20th	21st	22nd	23rd	24th	25th	26th	
	°	°	°	°	°	°	°	°
Burma	+3 1	+0 9	—0 9	+0 2	+0 5	+1 3	+0 5	+0 8
Bengal and Assam	+1 1	+2 0	+1 8	+1 8	+0 9	+0 4	+1 2	+1 3
North Western Provinces and Oudh	0	+1 7	+3 3	+2 2	+1 0	+1 9	+2 3	+1 8
Punjab	+1 6	+3 0	+4 0	+2 7	+4 1	+4 4	+3 3	+3 3
Bombay	+1 5	+1 3	+0 4	—1 0	—0 5	—1 0	—0 5	0
Central Provinces and Berar	+3 9	+3 8	+2 7	+0 2	—2 2	—1 3	—1 6	+0 8
Central India and Guzerat	+3 6	+3 8	+2 6	+1 5	+1 2	+1 7	+0 3	+2 1
Sind and Rajputana	+2 9	+4 2	+2 6	+1 6	+2 7	+3 3	+3 7	+3 0
Madras	—0 8	+0 2	—0 1	—0 6	—2 6	—1 9	—0 2	—0 9
Mean for whole of India	+1 9	+2 3	+1 8	+1 0	+0 6	+1 0	+1 0	+1 4

These figures show that on each day of the week the mean temperature of the whole country has been above the normal, the excess ranging from 2 3° on the 21st to 0 6° on the 24th In Bombay the mean temperature of the week exactly equalled the normal and in Madras it was nearly 1 0° below, but over Burma and Northern and Central India there was a general excess

Rain.—During the week under review rain has fallen in all parts of the Indian region, and, except in the Punjab (West), Kathiawar, and Sind, the fall has been effective—that is, the average actual rainfall of each division for the week has exceeded one tenth of an inch. The heaviest average actual fall reported was 11·68 inches in Tenasserim. This was followed by 6·40 inches in the East Coast (North *a*), by 5·72 inches in Coorg, by 5·32 inches in Hyderabad (South), and by 4·94 inches in Berar, while the lightest rainfall during the week was reported from the three divisions noticed above. Normally the heaviest rainfall during the present week is 7·96 inches in Tenasserim, followed by 6·15 inches in Assam (Surma), by 5·88 inches in Coorg, and by 5·73 inches in Arakan, while the lightest rainfall is normally reported from Sind. There is thus a certain amount of similarity between the actual and normal rainfall, but the heavy rainfall in the East Coast (North *a*) and in the Berars and Central Provinces is exceptional. The third column of the table shows that rain has been short over by far the greater part of the country, the only places where there has been any excess being the following thirteen divisions, *viz.*, Tenasserim, Malabar, the Bombay Deccan, Berar, the Central Provinces divisions, Central India (East), the East Coast (North and *a*), Hyderabad (South), Madras (Central), and the East Coast (Central). The greatest excess is 4¼ inches over the East Coast (North *a*), followed by 3¼ inches in Tenasserim and Hyderabad (South). The greatest actual defect is 2½ inches in Assam (Surma) and the Hill Districts of the Punjab.

The three concluding columns of the table show the average actual rainfall from May 28th to August 26th, 1893, the normal average rainfall for the same period, and the difference between the two. In Lower Burma, Orissa, Coorg, and Mysore the rainfall for the season has been deficient, but in all other parts of the country the rainfall has been about or above the average.

The following gives the largest total amounts received during the week as reported in the rainfall telegrams of the week.

Division	District	Station	Amount
Tenasserim	Amherst	Thaton	11·76 inches
Central Burma	Shwegyin	Kyaikto	9·27 "
East Bengal	Mymensingh	Kishorganj	5·59 "
North Bengal	Jalpaiguri	Bhagatpur	10·16 "
North Western Provinces	Azamgarh	Sagri	5·95 "
Ditto	Cawnpore	Sudder	5·23 "
Punjab	Jullundur	Nawashahr	2·11 "
Ditto	Kangra	Sudder	2·14 "
Malabar	South Kanara	Karkal	9·83 "
Coorg	Mercara	Sudder	9·98 "
Deccan	Kolhapur	Bavda	11·99 "
Berar	Amraoti	Murtazapur	12·36 "
Central India	Bhopal	Sudder	9·26 "
East Coast	Kistna	Dachepalle	6·55 "

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT.

Weekly Report on the state of the Season and Prospects of the Crops

Madras—*For week ending 26th August*—Rainfall good on the West Coast and Nilgiris and in the Circars and Deccan, moderate in parts of the Karnatic, and only light scattered showers elsewhere Want of rain is being felt in the Southern districts but generally sowings are proceeding seasonably and standing crops flourishing Early sown crops have been harvested with fair to average outturn Water supply, pasturage, and fodder generally sufficient, and the condition of cattle is good General prospects good Prices very slightly easier in some Southern, Karnatic, and Deccan districts, and generally stationary elsewhere

Bombay—*For week ending 30th August*—River continues low in Sind Rain more or less throughout the Presidency Proper and in one district of Sind, generally beneficial to standing crops, but more rain is required, especially in the Deccan, Karnatic, and Sind Standing crops withering for want of rain in parts of three, damaged by excessive rain in parts of one, and by rats or insects in parts of seven districts Sowing and transplantation of early crops completed, except in parts of six districts Transplantation retarded for want of water in parts of two districts Preparations for late crops progressing in two districts Prices steady, except in parts of two districts Fodder sufficient, except in one district Agricultural stock good

Bengal—*For week ending 26th August*—Local showers, usually light, fell, except for two days in the middle of the week, when there was fairly general rain The present fine weather is very favourable to the crops in East Bengal and North Behar The floods are subsiding and retransplanting of winter rice is being resorted to where possible Enquiries are being made in Darbhanga, Muzaffarpur, Champaran, Backergunge, Faridpur, and Chittagong with a view to ascertain the amount of damage done by the floods and to concert measures of relief if necessary In Tipperah it is reported that the raiyats will sustain a serious loss and that agricultural loans may be required Prices have risen in the Eastern districts, elsewhere stationary Cattle are in good condition, except in the flooded tracts, where sufficient fodder is not available

North-Western Provinces and Oudh—*For week ending 30th August*—In several districts heavy rain has fallen, while in others there have been only slight showers In the latter more rain is urgently needed for the crops Prospects continue favourable Harvesting of early crops in progress Supplies and fodder ample Prices show a falling tendency

Punjab—*For week ending 30th August*—Rain fell in six districts Sowings of autumn crops nearly over Ploughings for spring crops in progress Condition of standing crops is generally reported average, the crops are withering

for want of rain, which is urgently required throughout the province Cattle are said to be in good condition Fodder sufficient in all districts, except Shahpur and parts of Multan, where it is scarce Prices unsettled in two districts, falling in one, and stationary elsewhere

Central Provinces —*For week ending 30th August*—The heavy rain which has fallen during the past week seems to have been beneficial everywhere, and especially in the rice districts to the south, where rain was badly required Prospects in the southern districts have greatly improved, and are elsewhere very favourable

Burma —*For week ending 26th August*—In Lower Burma agricultural operations are progressing satisfactorily The rainfall is ample and standing crops generally are in good condition, but some damage from floods is reported from the Hanthawaddy and Tharrawaddy districts Rain fell in all districts of Upper Burma Ploughing and sowing of paddy and other crops are progressing, but in Shwebo cultivation is still delayed owing to want of sufficient rain Early sesamum is being reaped in several districts The crop prospect generally is good, but more rain is wanted in Shwebo and Yeu, while some damage has been caused by floods in Bhamo and the Lower Chindwin The price of paddy has risen in Thayetmyo and has fallen in Henzada and Bhamo

Assam —*For week ending 29th August*—Weather seasonable in the plains districts Transplanting of late rice continues Fodder insufficient Prospects of crops improving as floods subside

Mysore and Coorg —*For week ending 30th August*—MYSORE Rainfall slight throughout Mysore Standing crops in good condition, except in two districts, where they are withering Prospects generally favourable, but more rain is much needed in parts of five districts Prices risen in Kolar, no change elsewhere

COORG Heavy rain beneficial to all crops Picking of cardamoms commenced in some parts Fodder and water for cattle sufficient Prices stationary

Berar and Hyderabad —*For week ending 30th August*—BERAR Rainfall good Weather cool Standing crops in good condition Land under preparation for ensuing spring crops Sowings almost completed and weeding operations in progress Fodder and water sufficient Cattle healthy Prices almost stationary

HYDERABAD Rainfall good during week Weeding of hot-weather crops still continues Sowing of irrigated crops finished and weeding commenced Standing crops in one taluka damaged by excessive rainfall Prices steady

Central India —*For week ending 30th August*—Rain fell during the week in all parts of Central India, but more rain is required in Baghelkhand and in parts of Gwalior Weeding operations in progress in all parts Condition of standing crops generally good, but Indian-corn in parts of Bhopawar has been partially damaged by excessive rain Condition of agricultural stock generally

good Pasturage good and sufficient Prices of food grains falling in Bhopal, but steady elsewhere

Rajputana—*For week ending 30th August*—Rainfall slight in parts, but good in four States Agricultural operations, standing crops, and condition of cattle generally satisfactory Harvest much damaged in Pertabgarh by heavy rain in July last Pasturage or fodder sufficient Prices falling in three States, rising in one, fluctuating in one, and steady elsewhere

Kashmir—*For week ending 29th August*—Autumn crops in good condition Slight rainfall in Muzaffarabad Ploughings for the spring crops going on Prices stationary

Nepal—*For week ending 26th August*—Heavy thunderstorms Prospects continue very good Prices falling

RESOLUTION

The measures necessitated by the failure of harvests in 1891 92 brought to the notice of the Government of India certain defects in the sanctioned Famine Codes Towards the close of the period of scarcity some of the questions which were considered to need discussion were referred to Local Governments in the Resolution quoted in the preamble, and their reports have now been received The following orders are based on the information contained in the reports and on the experience gained in various Provinces during the progress of famine operations

The subjects dealt with in Famine Codes fall under two heads (1) the duties of officials *in ordinary times*, such as the supply of information regarding the condition of their charges, and the maintenance of programmes of famine relief works, and (11) measures required *during famine*, such as the submission of special reports, the management of relief works, the grant of gratuitous relief, the classification of labour, and the scale of wages

2 As regards the duties to be performed during ordinary seasons, satisfactory arrangements have now been made in all Provinces for the supply of punctual information and the maintenance of efficient programmes of relief But the scheme of district analysis explained in this Department's Resolution No 6—340 50 G, dated 8th December 1881, which involves a careful study of tracts subject to scarcity, has not yet been fully worked out, and the attention of Local Governments has been separately drawn to this subject

3 The system hitherto prescribed of relief during actual famine is in general conformity with that recommended by the Famine Commissioners in 1879 80, and will not be subjected to any alteration which will materially affect the policy advocated by them But the Famine Codes in which effect is given to the system are found on examination to require important modifications in detail owing to economic and administrative changes which have taken place during the last eleven years

The conspicuous improvement in communications throughout India is the most important of the modifying factors There can be no doubt that in spite of the widespread character of the recent distress, which extended through

Bengal, Burma, Madras, Bombay, Rajputana, Hyderabad, and Mysore, its acuteness nowhere approached that of the great famines of previous years, and although this was partly due to the greater severity of droughts in earlier famines, there is evidence to show that it was also attributable in large measure to the low range of prices, which was the direct result of the extension in recent years of communication by rail and road

Another important change has been the development of the Local Board system This has led to the general employment in some form or other of professional agency in the supervision of nearly all works which may be accepted as useful for purposes of famine relief The distinction between professional and civil agency works is now, therefore, no longer necessary, and is indeed confusing

The experience of officers administering relief has at the same time brought to notice various circumstances calling for modification in the Codes It has been found, for instance, that the terms "piece work" and "task work" are used with little precision, that the absence of a definite limit to the calculation of the wage which can be earned by the best class of labourers has led to abuses, that differences of opinion as to the wage have distracted the attention of officers engaged on relief operations, that the day of rest recommended by the Famine Commissioners is not ordinarily required, and that, except in severe famine, dependants and children may best be relieved by payment to the persons who are responsible for their protection

4 In view of the above considerations, revised orders are necessary for the amendment of all Famine Codes, and the following instructions, which indicate the main points on which uniformity of practice appears to be essential, are accordingly issued for guidance The Codes when revised in conformity therewith should be submitted to the Government of India for approval

5 *The classification of works* —Works will be primarily distinguished as 'ordinary' and 'relief'

Ordinary works are those on which labourers are employed in the ordinary manner at the rates prevailing in the labour market and which are not brought under Famine Code rules Although it may be desirable, as suggested by the Famine Commissioners as well as in paragraph 21 of the Resolution No 44 of 9th June 1883, to expand as a temporary measure the ordinary works in tracts where distress is commencing, the additional works thus undertaken must not be confounded with relief works When it has been decided that relief-works should be opened, the whole or part of an ordinary work may, as pointed out in the Resolution of 17th March 1892, be converted into a relief work and brought under the provisions of the Code But it must be borne in mind that the provisions of this Resolution do not apply to ordinary works

See Annexure A

Relief works are those on which wages are given at special rates, and which are brought under Famine Code rules The main distinction between an ordinary work and a relief work is that on the former unlimited piece work is permitted at ordinary rates, whereas on the latter only limited tasks at reduced rates are allowed

Relief works will be divided into two classes—'small' and 'large' The terms 'professional agency' and 'civil agency' will be definitely abandoned

The first step towards the above division has been made in the Bengal Code, in which civil agency works are described as those which employ small numbers of unskilled labourers and do not require professional supervision, and professional agency works as those which employ large bodies of labourers, of whom some will generally be skilled, and which require professional supervision In view of the fact, however, that discretion must be left to Local Governments to decide as to the character of the supervision, and that small works may be placed under a professional engineer, any such reference to the character of the supervision as that which finds place in the Bengal rules seems inconvenient

For executive purposes there seems indeed little need now for any classification of works But for purposes of reports the distinction between large and small works must still be retained in order that conclusions may be formed both

as to the character of the relief proposed or accorded in different Provinces, and as to the extent to which Local Governments have followed the principle laid down in paragraph 21 of the Resolution of the 9th June 1883, *viz*, that while in the later stage of a famine 'large works' will be the backbone of the system of relief, 'small works' should be utilized to the utmost in the early days of a scarcity

As a guide to the classification of works under the heads of 'large' and 'small,' the following definitions may be observed

I—Large works are works calculated to provide simultaneous employment for three months to at least 1,000 persons

II—All other works are small works

The supervision exercised in either large or small works should, as far as possible, be professional

6 *The classification of persons employed on relief works*—The classification must be uniform in all the Provincial Codes, in other words, 'classes' must be described in the same terms Of the various classifications which have been proposed, that laid down in the Government of India's Resolution No 6—44 of the 17th March 1892 appears to be the best, and the objection raised that it implies a knowledge of the past history of each person employed is one which applies at least as strongly to all other suggested classifications

See Annexure B

Persons on relief works will accordingly be classed as—

(*A*) Able bodied persons accustomed to labour of the kind required on ordinary works

(*B*) Able bodied persons accustomed to labour, but not to labour of the kind required on ordinary works

(*C*) Able-bodied persons not accustomed to labour

(*D*) Persons not able bodied, but fit for light employment on relief works

Or more briefly as—

(*A*) Professional labourers

(*B*) Labourers, but not professional

(*C*) Able bodied, but not labourers

(*D*) Weakly

Only A labourers are, as a rule, employed on ordinary works, and they receive wages according to the state of the labour market On relief works labourers of all four classes may be employed, and will receive the wages fixed for each class The general term used in this Resolution, and to be adopted hereafter in all Famine Codes, for persons employed on relief works will be 'relief-workers'

7 *Piece work and task work*—Some confusion has occurred in dealing with this subject in consequence of the absence in previous Codes of any precise definition of these terms The term piece work, as ordinarily used, implies not only that the work performed is paid for by results but also that it is not subject to any other limit than the actual capacity of able bodied labourers to perform it Piece work in famine operations must, on the other hand, be limited by the estimated (not the actual) capacity of those employed, whether able bodied or not Piece work thus restricted by an estimate of a maximum limit becomes virtually a task It will be paid for by results, but the results are never allowed to exceed a certain quantity

The maximum amount of work allotted to a particular class of relief-workers will be described in future as the *task* allotted for the class in question, and the term 'piece work' will be abandoned For, although payment will be dependent on results in the sense that short work will entail short payment, the Government of India are of opinion that it will be convenient to avoid the use of the term 'piece work' in connection with any form of labour imposed for purposes of famine relief

The principles on which the maximum task should be fixed are explained in the Resolution of the 17th March 1892 In accordance with these, the task for class A labourers will be equal to the amount of work usually performed by able bodied labourers

See Annexure C

on ordinary works, and it will rest with the local authorities to determine what this is The task for class B will be from 10 to 15 per cent, and that for class C about 25 per cent below the A task The task for class D will be determined by the local authorities according to circumstances, but should be such as to give weakly relief workers a reasonable amount of healthy employment.

In Appendix I to this Resolution will be found an extract showing the formulæ adopted in Bengal for calculating the amount of task in earthwork, and it is suggested that similar formulæ may in other provinces be usefully worked out for the guidance of officers in charge of relief works

A relief worker may, at the discretion of the officer in charge of the work, be transferred from one class to another

8 *Employment of gangs* —Experience during the recent famine has shown that the system advocated in section 44 of the Provisional Famine Code of 1883 of forming relief workers into gangs has proved successful Relief workers, therefore, after being duly classified, should as a rule be formed into gangs A task may then be prescribed for each gang, and on the performance of it in whole or in part each member of the gang shall be entitled to the wage prescribed for his class in whole or in part in proportion to the amount of the task performed by the whole gang

9 *The minimum ration* —The sufficiency of the subsistence ration prescribed in section 128 of the Provisional Code has been recently questioned The ration was determined in 1883 after consultation with medical experts and after careful comparison with standards adopted in jails and elsewhere, wages based strictly upon it were during the recent scarcity found sufficient When in some Provinces in which wages had exceeded the value of the Provisional Code rations steps were taken either spontaneously or at the instance of the Government of India to reduce them to the prescribed standard, the change was not followed by any deterioration in the health and strength of the relief workers There seems, therefore, to be no reason for abandoning the ration fixed in section 128 of the Provisional Code

The local authorities may be left to determine whether the fourth item of the ration should be ghi or oil, but should ordinarily select the cheaper, they will also determine the proportion of condiments to vegetables in the last item

10 *The minimum wage* —In exceptional cases, as when the items constituting the ration cannot be bought in the local market and the only grain procurable is that imported by Government, it will be advisable to issue the whole or a part of the ration in kind But ordinarily payment to relief workers should be made in cash

In section 130 of the Provisional Code the minimum wage is defined as the amount of money which at current rates will be sufficient to purchase a minimum ration, that is to say, the amount of money which will purchase a minimum ration at the market rates current at the time for the various items of which it is composed

The minimum wage may also be defined as the amount of money sufficient at current rates to purchase the grain equivalent of the minimum ration By the term 'grain equivalent' is meant the amount of grain of which the value is in ordinary times equivalent to the total value of the various items of the ration In other words, the various items of the minimum ration are, as a matter of convenience, reduced to a single basis, and expressed in terms of a staple grain, the value of which represents the minimum wage

11 *The grain equivalent of the minimum wage* —It is open to Local Governments either to prescribe the calculation of wages in the manner indicated by section 130 of the Provisional Code or to adopt the alternative method described in the last part of the preceding paragraph, subject to the following instructions

The grain selected as a basis for calculation should in every case be the staple or staples in ordinary consumption in the affected tracts, and not the more expensive classes of grain which, though occasionally consumed in times

of plenty, are abandoned for cheaper grains as soon as pressure sets in After a careful review of the statistics indicating the relations existing at various times in each Province between the price of the staple grain and the prices of other items of the ration, the Governor General in Council is satisfied that the cost of the other items in the minimum adult male ration will seldom, if ever, be found to be more than three fourths of the cost of the grain item The value of the minimum ration for an adult male will therefore be found to be fully represented by $1\frac{3}{4}$ lbs of the grain or grains ordinarily consumed, and this estimate allows for a moderate 'margin' above a subsistence ration The grain equivalent of the ration thus estimated should not be exceeded in the rules of any Code without further reference to the Supreme Government The data upon which the grain-equivalent of the ration has been calculated are set forth in Appendix II attached to this Resolution

The above conclusion is founded on the assumption that the price of grain fluctuates with sufficient regularity in proportion to the price of the other items of the ration Statistics prove that the prices of some of the minor items of the ration do not as a rule rise so quickly as the price of the staple grains, but this circumstance would only involve a slight increase in the 'margin' of the wage when scarcity intensifies, and perhaps a corresponding decrease when scarcity declines His Excellency the Governor General in Council does not regard this result as a serious disadvantage In cases where the assumption would lead to a material diminution in the margin or to an extravagant expansion of it, recourse may be had to the method of calculation indicated in section 130 of the Provisional Code

12 *Wages in terms of the grain equivalent expressed in pounds*—Taking the standard rate laid down in the preceding paragraph as a basis of calculation, the wages prescribed for the various classes of relief workers are as follows —

ADULT MALES

Maximum	Class A—The money value of			2	lbs	of grain
	,, B	,,	,,	$2\frac{3}{8}$	,,	,,
	,, C	,,	,,	2	,,	
	,, D	,,	,,	$1\frac{3}{4}$	,,	,,
Minimum	All classes	,,	,,	$1\frac{3}{4}$	,,	,,

ADULT FEMALES

Maximum	Class A—The money value of			$2\frac{3}{8}$	lbs	of grain
	,, B	,,	,,	$2\frac{1}{4}$	,,	
	,, C	,,	,,	$1\frac{7}{8}$	,,	,,
	,, D	,,	,,	$1\frac{7}{16}$	,,	,,
Minimum	All classes	,,	,,	$1\frac{7}{16}$	,,	,,

CHILDREN

Wages or allowances for children will be determined on a consideration of their ages, their powers of work and their requirements The wages or allowances should not be less than one quarter or more than three quarters of the wages allowed for adult males

13 *Corresponding wages expressed in chitaks*—The conversion of the ration into wage at each serious change in the price of grain will be facilitated by appending to the Codes appropriate tables or 'ready reckoners,' in which the money value of the ration at different rates will be shown in even pies or paisas

In transmuting into native weights the English standards given in the last two paragraphs, a pound may be reckoned as the half of a Government sír, *i e* as 8 chitaks In view of the fact that the Government sir is the 40th part of a maund, which is equivalent to something over 82 English pounds, this method of

conversion will add about 2½ per cent to the value of the wage reckoned in lbs The wages as expressed in terms of chitaks will accordingly be—

ADULT MALES

Maximum	Class A—The money value of	21	chitaks of grain
	" B " "	19	" "
	" C " "	16	" "
	" D " "	14	" "
Minimum	All classes " "	14	" "

ADULT FEMALES

Maximum	Class A—The money value of	19	chitaks of grain
	" B " "	17	" "
	" C " "	15	" "
	" D " "	13	" "
Minimum	All classes " "	13	" "

14 *The day of rest*—The Famine Commissioners at page 43 of Part I of their Report recommended the grant of wages without work for one day in the week In making this recommendation the Commission had in view the low condition to which the people had been reduced by the exceptionally severe famine of 1876 77 During the recent scarcity, however, it was only in one Province found advisable to remit work for one day in the week

It will now be left to Local Governments to decide with regard to the condition of the people whether, in order to enable them to remain in health and strength, it is necessary to close work for one day in the week If work is stopped by order, all persons employed shall be allowed for that day the minimum wage Otherwise work shall be performed and paid for on Sundays as on other days, or, if not performed, shall not be paid for

15 *The relief of children and dependants*—The system favoured by the Famine Commission and adopted hitherto in the various Codes has been one of separate relief by distribution of grain or of cooked food in kitchens During the last scarcity, however, it was represented from more than one Province that relief can be most conveniently afforded by means of allowances to the working members of the family, and that although it is possible that in a very severe famine the able bodied adults cannot be trusted with special allowances for dependants and children, yet that this is not the case under ordinary circumstances

While for many reasons the Government of India prefer that the former system should be continued wherever practicable, Local Governments are left free to adopt the latter whenever they are satisfied that it will combine efficiency of relief with the minimum of expenditure If this course be followed, the officer in charge of the work must before granting any allowances to relief workers in respect of adult dependants ascertain beyond reasonable doubt that such dependants are both unable to work and really depend on the worker to whom the allowance is granted All allowances given either to or on account of non working children must be shown in the accounts as "gratuitous relief" The number of dependants and non working children for whom allowances are granted must also be shown in the monthly reports, and special explanation should be required from officers in charge of works whenever the number of such dependants exceeds 10 per cent of the number of persons employed it should then be considered whether it would not be advisable to substitute a system of separate relief for dependants

16 In re casting the Codes, a uniform system of division into Chapters must be followed, and in Appendix III of this Resolution will be found the headings of Chapters which the Government of India wish to be adopted The revised Codes must embody the instructions contained in the present Resolution and also, so far as they are not superseded by present orders, the instructions communicated in the

No 63—77 dated 19th December 1889
No 25—1 dated 10th September 1891
No 5—48 dated 2nd March 1892
No 6—44 dated 17th March 1892
No 7—48 dated 18th March 1892
No 8—52 dated 21st March 1892

circulars marginally noted They should, moreover, after being approved by the Government of India, be carefully indexed

17 The revised Codes will in no case provide for the notification in the Provincial Gazettes of the commencement or cessation of famine

18 Codes revised in accordance with the orders conveyed in this Resolution should be submitted for the approval of the Government of India not later than the 1st of April 1894

Government of Madras	Chief Commissioner of the Central Provinces
Bombay	Chief Commissioner of Burma
Bengal	Assam
the North Western Provinces and Oudh	Coorg
Government of the Punjab	Ajmere
	Resident at Hyderabad

ORDER —Ordered, that a copy of the above Resolution be forwarded to the Local Governments and Administrations noted in the margin for information and guidance, and that it be published for general information in the Supplement to the *Gazette of India*

Ordered also, that a copy be forwarded to the Foreign Department for information and communication to Political Officers in Native States, and to the Finance and Public Works Departments for information

[True Extract]

E C BUCK,

Secretary to the Government of India

APPENDIX I

Extract from a Resolution by the Government of Bengal, No 737 T R, dated Darjeeling, the 5th October 1892

* * * * * *

10 The following formula * * * * * * * * has worked out well as regards all road work, and also in tank work where the lead is short It is, however, a little too liberal where the lead is long, and in such cases has had to be reduced For all other works it is fair

$R = W\,(A + \frac{L + 50}{1\ 5})$ in which—

R=the rate per 1,000 cubic feet, lift not exceeding 5 feet

W=the daily wage, as calculated under Chapter XIV of the Famine Code (see Appendix I)

A=a co efficient varying from 6 66 for soft to 10 for hard soil, which can be dug with a *kodali*

L=the lead in feet taken in multiples of 50 feet, as 100 150, 200, &c

As an example let it be assumed that in a certain case the daily wage is 5 pice that the soil is soft, in which case A=6 66 and that the lead is 100 feet then—

$R = 5\,(6\ 66 + \frac{100 + 50}{5}) = 93\ 3$ pice=Rs 1 7 4 per 1 000 cubic feet Here it would suffice to fix the rate at Rs 1 8 per 1,000 cubic feet

The formula is based on the assumption that—

(1) a man can cut 100 cubic feet of hard soil a day 150 of soft soil

(2) a man can carry 125 cubic feet of soil for 50 feet in a day with a five foot lift

(3) he can carry the same quantity for an additional 100 feet in another day

Allowing for a woman doing a little less carrying than a man, the following rule may be laid down —

A man and a woman working together can cut and carry 100 cubic feet for a 50 foot lead, and a man and two women can do the same for a 150 foot lead Therefore, the piece work rate for 100 cubic feet should be the maximum ration wages for a man and woman for a 50 foot lead and similar wages for a man and two women for a lead exceeding 50 feet, or a lift exceeding 5 feet

11 In the case of task work, which is only permitted for persons of a slightly inferior physique it will be necessary to allow a further margin for instance it might be said that 100 cubic feet is the daily task for one man and two women (or a man, a woman and a child), and a similar addition should be made for any increase in the lead Each labourer should be made to perform a certain amount of task work each day before the wage is paid

APPENDIX II

1 The following table indicates the data upon which the grain equivalents prescribed in paragraph 12 have been calculated The price of grain assumed in this table is that of 12 sirs to the rupee —

Item		Rate per rupee assumed		Minimum ration for adult male			Maximum ration for adult male		
		In sirs	In lbs at lbs = 1 sir	Weight in ounces allowed by Provisional Code	Price of each item in annas	Price in annas of (1) grain and (2) other items	Weight in ounces allowed by Provisional Code	Price of each item in annas	Price in annas of (1) grain and (2) other items
Grain		12	4	16	$\frac{2}{3}$	$\frac{2}{3}$ or 666	24	1	1
Other Items	Pulse	12	24	2	$\frac{1}{12}$	$\frac{59}{240}$ or 246	4	$\frac{1}{6}$	$\frac{17}{30}$ or 566
	Salt	10	20	$\frac{1}{3}$	$\frac{1}{60}$		$\frac{1}{2}$	$\frac{1}{40}$	
	Ghi	2	4	$\frac{1}{3}$	$\frac{1}{12}$		1	$\frac{1}{4}$	
	Condiments and vegetables	4	8	$\frac{1}{2}$	$\frac{1}{16}$		1	$\frac{1}{8}$	

2 The above table shows that the proportion between the total price of the other items of the *minimum ration* for adult males and the price of the grain item is when grain is at 12 sirs represented by the ratio of 246 to 666 or 369 to 1,000 The proportion assumed in the Resolution is $\frac{3}{4}$ to 1 or 750 to 1,000, so that ample margin is left for fuel, &c , and for fluctuation in prices Instead of a grain equivalent of something slightly over $1\frac{1}{4}$lbs , the Resolution prescribes one of $1\frac{1}{2}$lbs

3 Similarly, the proportion between the total price of the other items of the *maximum ration* for adult males and the price of the grain item is when grain is at 12 sirs represented by the ratio of 566 to 1 or 566 to 1,000, whereas the Resolution assumes a proportion of 750 to 1,000 The table indicates a grain equivalent of $2\frac{3}{8}$lbs in place of which the Resolution has prescribed a grain equivalent of $2\frac{5}{8}$ lbs

4 In the rations both maximum and minimum for adult females the "other items" are the same as in those for adult men, the grain item alone differing

The grain item of the *minimum ration* for adult females is 14 oz , which at 12 sirs to the rupee, would cost $\frac{7}{12}$ths or 583 of an anna The relation between the price of the other items and that of the grain item may, therefore, be represented by the ratio of 246 to 583 or 422 to 1,000 This would give a grain equivalent of $1\frac{1}{4}$lbs against $1\frac{7}{16}$lbs allowed by the Resolution

The *maximum ration* for adult females is 20 oz , which at 12 sirs would cost $\frac{5}{6}$ or 833 annas The relation between the price of the other items and that of the grain item may therefore, be represented by the ratio of 566 to 833 or 679 to 1,000 This would give a grain equivalent of something under 2 lbs against one of $2\frac{3}{8}$ lbs allowed by the Resolution

APPENDIX III

Headings of Chapters in Provincial Famine Codes

PREVIOUS TO FAMINE

(I) Duties of Revenue and Village officers (*a*) in ordinary times (*e g* , collection of information and preparation for famine, reports of prices and crops programme of famine relief works, including railways, duties of Director, Commissioner, district officers, engineers, &c)

(II) (*b*) when serious scarcity is imminent (*e g* , urgent reports by village and district officers , duties of officers as above)

DURING FAMINE

(III) Duties of superior Revenue and Engineer officers (e g Quarterly programme reports, Commissioner Chief Engineer, budgets tools, Director)

(IV) Circle organization and duties of circle officers (e g, division of districts, inspectors village agency, grain contractors, reports, starving wanderers emigrants)

(V) Gratuitous relief

(VI) Famine relief works

(VII) Wages and rations

(VIII) Poor house

(IX) Kitchens for children

(X) Other measures of relief

(XI) Measures for the protection of cattle

(XII) Utilization of forests

(XIII) Duties of police

(XIV) Duties of medical officers

(XV) Accounts

Appendices

No rules are laid down for the headings of appendices, but the appendices attached to Codes will appropriately include—

(a) A list of reports and returns due to the Government of India both before and during famine

(b) A ready reckoner, if prescribed, for calculating the money value of rations at varying prices,

(c) Formulæ, if prescribed, for calculating tasks

The following will be substituted for columns 4 to 6 of Form C and for columns 3 to 5 of Form D prescribed by Circular No 8—52 of 21st March 1892

NUMBER OF PERSONS PROVIDED FOR BY RELIEF WORKS DAILY FOR THREE MONTHS

Large works	Small works	
	For relief of agricultural population in neighbourhood of villages	Others
4	5	6

Extracts from Government of India Resolution No 6—44, dated 17th March 1892

ANNEXURE A

8 In order on the one hand, to secure the object which the framers of the Code had in view of preventing any undue restriction on the progress of a public work which is required as such independently of its use as a relief work, and, on the other, to prevent any transgression of the principles of the Code which requires that no remuneration should be given to a labourer on a relief work materially in excess of the amount sufficient to maintain health and strength, it is desirable that, where this has not already been done, a rule to the following effect should be incorporated in the Provincial Code

When a public work for which provision had already been made in the ordinary Public Works Budget of the year is included in the sanctioned list of Professional Agency works, the Local Government shall decide, in the event of its being utilised as a relief work, whether any portion of it is of such a character, or requires to be executed

with such urgency, as to demand the employment of ordinary public works labour at full piece work rates Such portion shall be separated from the portion utilised as a relief work, and shall not be opened to labourers admitted on the work simply for purposes of relief On the portion retained as a relief work, the wages of able bodied labourers however skilled, shall not exceed the amount in money which is equivalent to a little more than the full famine wage

ANNEXURE B

5 Relief works were in this Code required to be distinguished as—

(i) Civil Agency works and

(ii) Professional Agency works

the former whether professionally managed or not being under the control of the district authority, and the latter under the control of the Public Works Department Labourers were, reading sections 30 and 71 together, divided into four classes—

A —Able bodied persons accustomed to labour of the kind required at works coming under class II

B —Able bodied persons accustomed to labour but not to labour of the kind required on works under class II

C —Able-bodied persons not accustomed to labour

D —Persons not able bodied, but fit for light employment of the kind required at works of class I

Labourers of class A were (sections 71 and 72 of the Code) eligible for employment on Professional Agency works and for treatment as ordinary able bodied labourers in public works All others were to be dealt with under the rules for Civil Agency works

ANNEXURE C

6 Chapter X of the Provisional Code which dealt with wages and rations on relief works, prescribed a "full ration" sufficient to keep able bodied labourers in health and strength, leaving it to Local Governments to suggest such modifications as might be required by the circumstances of each province The 'full wage" was defined as the amount of money which at the current prices is sufficient to purchase a "full ration" Section 132 laid down that payment for labour on Professional Agency works might be made at the rate ordinarily given under the rules in force in the Public Works Department, provided that the sum which a labourer can ordinarily be expected to earn by a fair day's labour shall in no case be less than the "full wage" This rule applied to labourers of Class A only since all other labourers were brought by section 72 of the Code under the rules for Civil Agency Works It will be observed however, that the wording of the rule prescribed the full wage ' as a minimum only, and placed no restriction on the amount which might be earned by a class A labourer at departmental rates for piece work An opening was thus left for a departure from the intention of the Famine Commissioners that even skilful and able bodied labourers should only receive a little more than the ordinary wage,' which would, in the terms of the Provisional Famine Codes mean 'a little more than the full wage" The object of the framers of the Code was, however, not to controvert the principles laid down by the Famine Commissioners and accepted by the Government of India, but to prevent undue restriction being placed on the progress of Public Works, of which, for special reasons, the early completion might be desirable This has not been generally understood Consequently the result of the absence of any positive restriction on the wages of class A labourers has sometimes been that on earth work, which is wherever it can be provided, the most usual as it is the most appropriate relief work, ordinary agricultural labourers have been considered to be sufficiently accustomed to the kind of labour required at the work to entitle them to be brought under class A, and to be given any amount of piece work that the Public Works officer in charge of the work might deem to be desirable to secure the rapid and effective progress of the work itself The principles laid down by the Famine Commissioners have thus been transgressed

7 It has, on the other hand, occurred that the intention of the Famine Commissioners that all skilful and able bodied labourers should, for the reasons given in the passage quoted in paragraph 2 of this Resolution, receive a small margin above the full famine wage has not been sufficiently appreciated, nor was this intention explained with sufficient distinctness in the Provisional Famine Code The opportunity is now taken to give clear expression to the opinion of the Government of India that this consideration should be applied to all labourers of class A, and subject to the remarks regarding the classification of ordinary cultivators which are made below in paragraph 10 of this Resolution, also to labourers of class B, money-wages and tasks being so adjusted from time to time as to admit of the labourers receiving "a little more than" the equivalent of the "full ration" of the Code

জ্বরঘ্ন সিন্‌কোনার মূল্য কম করণ।

১৮৯১ সালের এপ্রেল মাসের ১লা তারিখ অবধি যাবৎ অন্য আজ্ঞা না হয় তাবৎ কলিকাতার বোটানিকেল গার্ডেনের অর্থাৎ কোম্পানির বাগানের সুপারিন্টেণ্ডেণ্টের নিকট গবর্ণমেণ্টের কর্ম্মচারিগণ এবং অপর কোন ব্যক্তি এক কালীন দশ পৌণ্ড ক্রয় করিলে নিম্নলিখিত হিসাবে জ্বরঘ্ন সিন্‌কোনা পাইবেন অর্থাৎ চারি ঔন্স টিন ২। টাকায় আট ঔন্স টিন ৫ টাকায় ও এক পৌণ্ড টিন ১০ টাকায় পাইবেন। সর্ব্ব সাধারণে কোম্পানির বাগানের সুপারিন্টেণ্ডেণ্টের নিকট নগদ মূল্য দিলে এই এই হিসাবে অর্থাৎ চারি ঔন্স টিন ৩ টাকায় আট ঔন্স টিন ৬ টাকায় এবং এক পৌণ্ড টিন ১২ টাকায় পাইতে পারিবেন। কলিকাতার প্রধান প্রধান ইউরোপীয় ও দেশীয় ঔষধ বিক্রেতাগণও এই ঔষধ বিক্রয় করিয়া থাকেন। উপরোক্ত হার ছাড়া চারি ঔন্স টিনের । আট ঔন্স টিনের । ও এক পৌণ্ড টিনের ৷ ডাক মাশুল দিতে হইবে।

PURE SULPHATE OF QUININE

Manufactured at the Bengal Government Cinchona Plantation

The price of this Quinine is as follows —

1 Pound tin R16 or, post free, R10 12
½ „ R 8, „ R 8 8
¼ „ R 4, „ R 4-8

Analysis shows this Quinine to be of the purest manufacture, and it is guaranteed to be free from wilful mixture with the inferior alkaloids Cinchonine and Cinchonidine It is for sale only to Government officers and only for cash, and may be had from the Superintendent, Botanic Garden, Seebpore near Calcutta It can be had either white or coloured pink

বঙ্গদেশের গবর্ণমেণ্টের সিন্‌কোনা আবাদে প্রস্তুত বিশুদ্ধ কুইনাইন।

এই কুইনাইনের নিম্নলিখিত মূল্য যথা—

১ এক পৌণ্ড টিন ১৬ বা ডাকমাশুল বিনা ১৬৸
। আধ ৮ বা ডাকমাশুল বিনা ৮।
শিকি ৪ বা ডাকমাশুল বিনা ৪।

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধরূপে প্রস্তুত করা হইয়াছে। এবং ইহা যে সিন্‌কোনাইন ও সিন্‌কোনীডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছা পূর্ব্বক মিশান হয় নাই তাহার গ্যারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারিগণের নিকট বিক্রয় করা যাইবে এবং কলিকাতার নিকটস্থ শিবপুরের কোম্পানির বাগানের সুপারিন্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারিবে। ইহা শাদা বা পাটল বর্ণের পাওয়া যাইতে পারি 1

REVENUE DEPARTMENT

[*Revised Advertisement*]

A Dictionary of the Economic Products of India

By DR GEO WATT C I E

Reports on Economic Products

Published under the authority of the Government of India in the Revenue and Agricultural Department

The first five volumes and Volume VI, Parts I, II, and III of the Dictionary are now ready at the Office of Superintendent of Government Printing No 8 Hastings Street Calcutta and will be supplied to non subscribers on receipt of the price for the complete set which is R45 in India, and 3 guineas in England (exclusive of the Index for which a separate charge will be made) packing and postage in India, 8 annas per volume, for England, 2 rupees 6 annas per volume For copies bound in half calf or half morocco, R6 and 8 shillings respectively will be charged extra for the whole set

The Dictionary is intended to deal with the products of India—animal vegetable, and mineral each product being treated after a uniform plan, the paragraphs of which give the scientific vernacular and European names habitat or source history, properties and uses (both chemical and industrial) trade statistics markets etc The work is arranged alphabetically according to scientific nomenclature but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks and with a reference to the original publication Numerous contributors have however furnished the results of new discoveries and confirmed the vernacular names so that the Dictionary is not only a complete compilation of published information but has been brought abreast of the most recent inventions and discoveries

Volume I contains the letters A and B, and consists of 559 royal octavo pages Volume II embraces the letter C in 689 pages, Volume III contains the letters D, E F and half of G, Volume IV latter half of G to middle of L, and Volume V contains the latter half of L to end of O; Vol VI, (which will consist of four parts) Part I contains letters P to R The whole work will it is expected, be completed in nine volumes (including Parts II to IV of Vol VI) during the current year but a tenth volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary The Index will practically be a glossary of the vernacular and European names of the plants animals, and minerals of India and as such will be a work of reference which it is hoped may prove of considerable value

India Office,
London, 27th July, 1893

To His Excellency the Most Honourable the Governor General of India in Council

My Lord Marquis,—With reference to my predecessor's Despatch No 122, dated the 7th of November 1889, I forward, for the information of Your Excellency in Council, 25 copies of amended rules for the guidance of Indian Government Scholars in this country

I have, &c ,

KIMBERLEY

Rules for Indian Government Scholars in England

(As amended by Secretary of State in Council 11th July 1893)

1 Every scholar shall, on reaching England, at once present himself at the India Office, and report his arrival in writing

2 Every scholar shall, without any unnecessary delay inform the Secretary of State to which University he intends to proceed, and shall at once take steps to enter himself at the College he has selected

3 Every scholar shall, within four weeks of reaching England, submit for the approval of the Secretary of State a statement showing the general course of study he proposes to follow and the course approved shall not be changed without the sanction of the Secretary of State

4 Every scholar shall, at the end of each term of residence at a University, submit to the Secretary of State a certificate from the proper College or University authority showing that his residence, conduct, and progress in study have been satisfactory during the term

5 Every scholar shall at all times obey such instructions as he may receive from the Secretary of State

6 Subject to a due compliance with the above conditions, the allowance, at the rate of £200 a year for three years, will be paid quarterly in advance by the India Office, commencing from the date of the scholar's reporting his arrival in England but this allowance shall be reduced by the amount of any other sum which may become payable to him out of the revenues of India in respect of residence at a University during the same period or any part of it

7 Every scholar will forfeit his scholarship who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to complete a residence of three years in England according to the terms and conditions approved by the Secretary of State under Rule 3, or who is guilty of misconduct or disregard of the orders of the Secretary of State If a scholarship be forfeited the scholar will lose his claim to a free return passage to India, and will further become liable to refund the cost of his free passage to England

8 The scholars will be under the special supervision and charge of the Political Aide de Camp to the Secretary of State, through whom the necessary orders will be given, and to whom all reports and other communications respecting them should be sent

C J LYALL,

Secretary to the Government of India

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weather Review of India for the week ending at 8 a m on Saturday, September 2nd, 1893

Monsoon weather has prevailed steadily over the Indian region during the week under review At first these conditions were of slight intensity, and the rainfall, though fairly general, did not extend much into North Western India, and was only moderate or light over the greater part of the country On the 1st and 2nd of September, however a well defined cyclonic storm appeared over the Bay, barometric gradients increased, and rain extended quickly over the Punjab as far west as Rawalpindi and Murree During the greater part of the week the mean temperature ranged above the normal average, but on Saturday, the 2nd, a considerable fall occurred over part of Northern and Central India as well as over Madras, and the mean temperature fell below the normal

The chart of the 27th showed the normal monsoon distribution of pressure Readings were highest over Malabar and Ceylon, lowest over the Indus Valley, and relatively low over the South Gangetic plain, the Central Provinces, and North Madras The winds were westerly over the Peninsula, variable within the relatively low pressure area, and easterly over Northern India The weather was fair to showery over Northern India and Madras, but elsewhere rain was general The following were the principal amounts Khammamett, 3 53 inches , Saugor, 3 21 inches , Nagpur, 2 86 inches , Akyab, 2 12 inches , and numerous stations with over 1 inch On the morning of the 28th the barometer was rising over the Punjab and Madras and falling elsewhere, but the general distribution of pressure and the general circulation of the winds were unchanged Rain had extended into the north of the Punjab, but in other parts of North Western India as well as in Madras hardly any rain had been received Elsewhere the fall was general, and in several places moderately heavy Surat reported 4 50 inches, Silchar 3 24 inches, Chakrata 2 90 inches, Bhamo and Saugor 2 44 inches, Dehra Dun 2 28 inches, Ajmere 2 16 inches, and several stations over 1 inch On the 29th the barometer was falling, except at some stations in the central parts of the country and in North Bombay The area of relatively low pressure over the central parts of the country had contracted and moved somewhat northward, but otherwise there was no important change in the distribution The winds were westerly over the greater part of the country, but irregularly easterly up the Gangetic plain Rain was fairly general, except in the Punjab, Western Rajputana, Sind, and Madras, where hardly any had fallen Diamond Island, Tavoy, Ratnagiri, and Sambhar received over 2 inches, and several stations over 1 inch On the 30th pressure continued to fall except at some stations in the Central Provinces and North Bombay, where the barometer still rose The general distribution of pressure and the winds were little changed Showery weather prevailed over the greater part of the country, except North-Western India and the South Carnatic, where the weather was fair The rainfall amounts were generally small, the heaviest being 2 49 inches at Moulmein, 2 46 inches at Tavoy, 1 98 inches at

Jhansi, and 1 68 inches at Mount Abu The chart of the 31st showed that pressure was rising along the foot of the Himalayas from Assam to the North-West Provinces, but was falling elsewhere The general distribution was fairly normal, but the barometric differences were increasing, and the winds which blew from the normal monsoon directions were rising The area which received rain was about the same as on the preceding day, but the amounts were larger Tavoy had received 6 91 inches, Moulmein 5 00 inches, Diamond Island 3 34 inches, Raipur 3 30 inches, Seoni 2 95 inches, Karwar 2 65 inches, and several stations over 1 inch On the 1st a well defined depression had appeared over the head of the Bay and the barometer had fallen, except in the south of the Peninsula Gradients had increased considerably over the Peninsula and the Bay, and a strongish monsoon was blowing, except in the neighbourhood of the depression, where the winds were cyclonic Rain had extended to the north of the Punjab and to Madras, and showers were reported from most parts of the country, except Bengal and part of North Western India Moulmein had received 7 inches, Bassein, Mormugao, Karwar, and Indore over 2 inches, and several stations over 1 inch On the 2nd the barometer was rising over the extreme south of the Peninsula and in Burma, but was still falling elsewhere The depression over the head of the Bay had not moved much, but it had become deeper, and steep gradients prevailed over the greater part of the country The winds blew from the normal monsoon directions, except at the head of the Bay, where they were cyclonic Rain had fallen very generally, except in part of North Western India and of Madras, and the amounts in Orissa and the Central Provinces were heavy Jubbulpore received over 5 inches, Akyab, False Point, and Murree over 3 inches, and Balasore, Sutna, Chanda, Pachmarhi, and Hoshangabad 2 inches or over

Temperature —The following table shows the variations of the mean temperature from the normal on each day of the week for the different Provinces of India

Province	August 1893					September 1893		Mean variation of week
	27th	28th	29th	30th	31st	1st	2nd	
	°	°	°	°	°	°	°	°
Burma	+0 4	+0 2	—0 4	+1 0	+0 5	—0 9	—1 8	—0 1
Bengal and Assam	+1 5	+0 8	+0 8	+1 4	+1 9	+2 1	+1 9	+1 5
North Western Provinces and Oudh	+1 8	+0 9	+1 1	+1 7	+2 3	+1 3	—1 3	+1 1
Punjab	+2 7	+0 2	—1 2	+2 5	+4 4	+4 0	+1 8	+2 1
Bombay	+0 4	—1 9	—2 3	—0 4	+0 7	—0 4	—0 5	—0 6
Central Provinces and Berar	—0 1	—1 9	—2 2	—0 8	—0 3	—1 0	—2 0	—1 2
Central India and Guzerat	+1 0	+0 4	+1 2	+0 1	+1 2	+0 7	—0 8	+0 5
Sind and Rajputana	+3 2	+2 6	+0 5	+1 4	+2 2	+1 6	+0 7	+1 7
Madras	—0 4	—1 4	+0 1	+0 6	+0 2	+0 1	—2 0	—0 4
Mean for whole of India	+1 2	0	—0 3	+0 8	+1 4	+0 8	—0 3	+0 5

The variations were irregular On the 27th, the 30th, the 31st of August, and the 1st of September the mean temperature of the whole of India was above the normal average, while on the other days it was below The provincial variations show that in Burma, Bombay, the Central Provinces, and Madras the heat

during the week was less than usual, while in the other Provinces it was more than usual The hottest place relatively to the average was the Punjab

Rain —The closing table shows that during the week rain has fallen in all the rainfall divisions, except Sind and Madras (South) The heaviest average actual rainfall reported in any division was 19 32 inches in Tenasserim This was followed by 6 32 inches in Arakan, by 6 29 inches in Lower Burma, and by 5 72 inches in the Konkan, while the lightest fall reported was 0 03 inch in the West Punjab According to the normal distribution, the average rainfall should range from 7 35 inches in Tenasserim, 6 49 inches in Assam (Surma), 6 13 inches in Arakan, and 5 46 inches in Coorg to 0 14 inch in Sind, and 0 34 inch in the West Punjab Except for the very heavy rainfall in Tenasserim, the distribution of the actual and normal average rainfall agreed fairly closely The third column of the table shows a good deal of irregularity in the amount of rain received as compared with the normal Twenty two divisions reported an excess and twenty eight a deficiency of rain, while in the hill districts of the Punjab the actual average rainfall exactly equalled the normal average The region of excessive rain included all the Burma divisions, Orissa Oudh (South), the North West Provinces (West and Submontane), the Punjab (Central), the Konkan, Khandeish, all the Central Provinces divisions, Guzerat the Central India, and Rajputana divisions, the East Coast (North), and Hyderabad (South) In all the other divisions the rainfall was deficient The greatest actual excess was 11 97 inches in Tenasserim, and the greatest actual defect was 2 17 inches in Assam (Surma) and 2 15 inches in Coorg

The three concluding columns of the table give the actual total rainfall from May 28th to September 2nd, 1893, and the normal total rainfall for the same period Over the greater part of the country the rainfall has been about normal

The following gives the largest total amounts received during the week as reported in the rainfall telegrams of the week

Division	District	Station	Amount
Tenasserim	Amherst	Thaton	20 34 inches
Central Burma	Shwegyin	Sudder	17 32 „
Arakan	Akyab	Ditto	7 42 „
Assam	Sylhet	Karimganj	9 9 „
North Bengal	Jalpaiguri	Bhagatpur	11 70 „
Oudh	Rae Bareli	Sudder	16 92 „
Punjab	Rohtak	Ditto	6 60 „
Malabar	South Kanara	Coondapoor	8 43 „
Deccan	Kolhapur	Bavda	14 15 „
Central Provinces	Bhandara	Sakoli	9 09 „
Central India (East)	Bhopal	Maksudangarh	8 12 „

REVENUE AND AGRICULTURAL DEPARTMENT

Weekly Report on the state of the Season and Prospects of the Crops

Madras—*For week ending 2nd September*—Rainfall fair on the West Coast and in the Circars, light in the Deccan and Karnatic, little or no rain in the Central and Southern districts Rainfall to date up to or over average, except in the Karnatic, in Tinnevelly and Malabar, though deficiency nowhere great Rain wanted almost throughout the southern half of the Presidency Cultivation and sowing proceeding generally, and, except in the more southerly districts, supplies, irrigation and water ample Standing crops generally flourishing, but need rain in parts Fair harvest of early crops being gathered Pasture growing scarce in parts, but fodder generally sufficient, and condition of cattle good Prices steady, but very high almost everywhere

Bombay—*For week ending 6th September*—River still low, and want of water much felt in Sind Rain throughout the Presidency Proper beneficial to standing crops More rain is required in parts of the Deccan, Karnatic, and Kathiawar Standing crops withering for want of rain in parts of nine, and damaged by rats or insects in parts of six, districts Sowing continues in four districts and transplantation in one Preparation of land for late crops progressing in six districts Prices steady, except in two districts Fodder sufficient, except in one district Agricultural stock good

Bengal—*For week ending 2nd September*—There was general, but usually light, rain over the greater part of the province during the week In Behar the falls were scanty, and more rain is wanted in parts Prospects of crops are generally good, except in the flooded tracts of Behar and Eastern Bengal In these tracts the winter rice crop is said to be somewhat improving with the subsidence of the floods, but the loss of the early rice, jute, and other autumn crops is considerable Early rice and jute have also been much damaged in parts of the 24 Parganas, Nadia, Khulna, and Pubna Prices of common rice are steady, and in the eastern districts abnormally high Cattle are generally in good condition, and the fodder supply is sufficient, except in the flooded localities

North-Western Provinces and Oudh—*For week ending 6th September*—Rain has been general, and towards the end of the week very heavy in several districts Prospects have much improved everywhere but damage by flooding is reported in one district Early crops are being harvested Weeding of cotton and rice crops in progress Supplies ample Prices show a falling tendency

Punjab—*For week ending 6th September*—Rain has fallen in all but five districts Sowings of autumn crops finished Irrigation of crops by wells in progress Ploughings for spring crops going on Condition of standing crops is generally fair, but more rain is still needed in some districts The cotton

rop is suffering for want of rain in Dera Ismail Khan Sugarcane and maize have been injured in parts of Lahore and millet (*Penicillaria spicata*) in Dera Ismail Khan by insects Cattle generally in good condition Fodder sufficient in all districts, except Shahpur, where it is scarce Prices unsettled in one district, falling in two others, and stationary elsewhere

Central Provinces—*For week ending 6th September*—Heavy rain has continued during the week It has been of great benefit in the rice districts, and does not appear to have generally caused any injury as yet to the cotton and millet crops, though in places the *jowar* (*Sorghum vulgare*) crop is suffering from swamping Reports continue favourable

Burma—*For week ending 2nd September*—In Lower Burma agricultural operations are progressing satisfactorily, and transplanting in some districts is nearly finished There has been ample rain, and the standing crops continue in good condition, except that considerable damage has been caused by floods in Hanthawaddy and Tharrawaddy Rain fell generally in Upper Burma, where ploughing and sowing of wet weather paddy and millets continue, while sesamum and early paddy are being reaped The crop prospect has improved and is generally good, but some damage by floods is reported from Bhamo, and more rain is required in two other districts The price of paddy rose in three districts and fell in four others

Assam—*For week ending 5th September*—Weather seasonable Prospects fair Transplanting of winter paddy continues in the plains districts Condition of cattle and supply of fodder normal

Mysore and Coorg—*For week ending 6th September*—MYSORE Rainfall good in parts of two districts, slight rain elsewhere Standing crops withering, except in four districts Prospects favourable, but more rain is needed No marked change in prices

COORG Rainfall good Rice, *ragi* (*Eleusine coracana*) and coffee crops in good condition Picking of cardamoms in progress in one taluk only Fodder and water for cattle ample Slight rise in prices

Berar and Hyderabad—*For week ending 6th September*—BERAR Rainfall good Weather cool and cloudy Standing crops in good condition Land under preparation for next spring crops Weeding operations in progress Fodder and water sufficient Prices steady Cattle healthy

HYDERABAD Rainfall good Weeding of autumn crops and irrigated paddy in progress Sowing of spring crops continues Tanks have received sufficient quantity of water Prices steady

Central India—*For week ending 6th September*—Rainfall during the week throughout Central India Sufficient rain has now fallen in Baghelkhand, but more is still required in parts of Gwalior Agricultural operations continue in most parts Land in Bundelkhand is being prepared for the spring crops Standing crops generally in good condition, but Indian corn in parts of Bhopawar and the Neemuch district has been partially destroyed by excessive rain Cattle in good condition Prices of food grains falling in Bhopal and parts of Bhopawar, rising in the Neemuch district, and steady elsewhere

Rajputana—*For week ending 6th September*—Rainfall generally good throughout Rajputana, except in Bhurtpore Agricultural operations, standing crops, and cattle generally satisfactory Pasturage or fodder sufficient Prices falling in five States, fluctuating in one, and steady elsewhere

Kashmir—*For week ending 5th September*—Slight rainfall has done good to crops Spring sowings commenced Maize crop almost ready for reaping Prices stationary

Nepal—*For week ending 2nd September*—Days clear slight showers at night Prospects very good

Public Works Department Resolution No 522 A R, dated 24th August 1892

Read also the following

Note by R G MACDONALD, Esq, Accountant General, Public Works Department, No 853 R, dated 12th August 1893

I beg to lay before the Government of India the usual synopsis of transactions of the three Railway Companies still designated as Guaranteed Railways for, and to end of, the year 1892

2 The subscribed Capital on 31st December 1892 of these Railway Companies bears interest as shown below

Railway	Capital bearing interest at							Premium on stock	Discount on stock	Total Capital raised
	3%	3¼%	3½%	4%	4½%	4¾%	5%			
	£	£	£	£	£	£	£	£	£	£
Madras	197 800	462 200	140 000		500 000	999 960	8 757 670	12 014		11 069 644
Bombay Baroda and Central India		1 238 500					7 550 300	18 419		8 807 219
Great Indian Peninsula	40 400	1 866 100	804 800	2 701 450			20 000 000	290 074	225,891	25 476 933
(1) Total to end of 1892	238 200	3 566 800	944 800	2 701 450	500 000	999 960	36 307 970	320 507	225 891	45 353 796
(2) Ditto ditto 1891		3 566 800	1 083 000	2 701 450	500 000	999 960	36 30[illegible] 970	320 507	225 891	45 253 796
(3) Ditto ditto 1890		2 2[illegible]0 000	1 871 500	701 450	500 000	999 960	36 307 970	334 507	239 891	44 72[illegible] 496
(4) Ditto ditto 1889		1 074 000	2 873 000	2 803 650	500 000	999 960	36 307 970	312 007	217 391	44 653 796
(5) Ditto ditto 1888		304 000	3 033 600	2 803 650	500 000	999 960	36 307 9[illegible]0	341 589	247 391	44,103,378
(1) Compared with (2) Increase	238 200									100 000
(1) Compared with (2) Decrease			138 200							

3 The following table shows the growth of the Capital account of the Guaranteed Railways during the last five years, the net increase to the aggregate subscribed Capital during that period being £1,250,218

Total Capital subscribed: Year	Total Capital subscribed: Amount	Increase	Decrease	Remarks
	£	£	£	
To end of 1888	44 103 378		200	
" 1889	44 6[illegible]3 796	550 418		
1890	44 725 496	71 700		
1891	45 253 796	528 300		
1892	45,353 796	100 000		
		1,250 418	200	
Net Increase		1,250,218		

Capital Outlay

4 The aggregate outlay finally charged off to "Construction" has stood at the end of each of the last five years as follows

		Increase
	£	£
To end of 1888	43,158,362	453,015
" 1889	43,472,608	314,246
" 1890	43,715,546	242,938
" 1891	44,015,818	300,272
" 1892	44,188,000	172,182
Increase in five years		1,482,653

5 The expenditure charged to "Construction" during and to end of the year gives the following as the cost of open lines per mile

Railway	Construction expenditure per open mile		Remarks
	During 1892	To end of 1892	
	Rs	Rs	
Madras	784 54	1 39 298 83	
Bombay Baroda and Central India	768 08	2 11 881 98	
Great Indian Peninsula	687 87	2 11 519 99	
Average outlay	732 37	1 87 950·20	

The cost expressed in rupees is as regards payments in England at the contract rates of exchange, which for many years have been higher than the actual rates, and consequently the cost is understated by the difference

Capital locked up in stores

6 The subjoined table shows the fluctuations in the value of stores in stock during the past five years The figures in antique represent increases of stock

Railway	Reduction in stock					Total reduction in five years
	1888	1889	1890	1891	1892	
	Rs	Rs	Rs	Rs	Rs	Rs.
Madras	17 704	3 72 463	**9 68,360**	56 105	60,783	**4 61,305**
Bombay Baroda and Central India	**5,90 250**	2 76 438	**18,918**	3 25 769	3 78,517	3 66 556
Great Indian Peninsula	9 60 488	**8 63,904**	**10,85,351**	16,41,878	11 25 422	17 78 533
Total	3 87 942	**2,15,003**	**20,72,629**	20 23,752	15 59 722	16,83,784

7 The reduction in the stores balances during the year 1892 occurs mainly on the Bombay, Baroda and Central India and Great Indian Peninsula Railways The decrease on the Bombay, Baroda and Central India Railway is attributed to large issues of permanent-way material and bridge work for repairs of damages caused by floods, to the abnormal issue of iron work and other stores for repairs of carriages and wagons and renewal of 100 covered steel wagons, and to large sales of permanent-way material and other stores to the Rajputana-Malwa and Godhra-Rutlam Railways The reduction on the Great Indian Peninsula Railway is said to be due to careful scrutiny of Home indents and to the sale of old stock

8 On 31st December 1892 the value of the stores in stock on Guaranteed Railways exceeded the limits provisionally assigned for Capital to be locked up in stores to the following extent

Railway	Limit assigned	Stock in hand	Excess
	Rs Lakhs	Rs Lakhs	Rs Lakhs
Madras	22½	29¼	6¾
Bombay Baroda and Central India	21½	28	6½
Great Indian Peninsula	63	52¼	—10¾
TOTAL	107	109¾	2¾

Revenue accounts

9 Excluding the Oudh and Rohilkhand and South Indian Railways, which have now become State lines, the gross earnings, working expenses, and net earnings of the Guaranteed Railways during the last five years have been as under

Year	Gross earnings	Working expenses	Net earnings
	Rs	Rs	Rs
1888	6 23 29 206	2 99 09 247	3 24,19 959
1889	5 94 14 079	3 00 48 931	2 93 65 148
1890	6 05 91 746	2 94 21 830	3 11 69 916
1891	6 87 37 790	3 31 02 310	3 56 35,480
1892	6 45 34 775	3 11 40 766	3 33 94 009

	Rs	Rs
10 For the year 1892 the net earnings amounted to		3,33,94,009
Deduct—		
Interest on overdrawn capital	2,065	
Moiety of surplus profits to shareholders	56,00,261	
Contributions to Provident Fund	2,23,448	
Amount payable by the Great Indian Peninsula Railway Company on account of rent of leased lines	5,29,160	
Irrecoverable outstanding earnings written off	23,212	
		63,78,146
Net receipts by Government		2,70,15,863

11 The results of the working of the Guaranteed Railways for the year 1892, based on the contract rates of exchange, is shown in the following table, as also the percentage of interest and net profits on the Capital received The figures in antique represent gain

Railway	Net receipts after deducting from net earnings payments on account of moiety of Surplus Profits and contribution to the Provident Fund and interest on overdrawn Capital	Guaranteed interest at contract rates	Loss to State: Amount	Loss to State: Per open mile	Loss to State: Per cent of guaranteed interest	Per cent of interest paid on total Capital received	Per cent of Net Earnings realised during 1892 on Capital received

FOREIGN DEPARTMENT

NOTIFICATIONS

Simla the 6th September 1893

No 1499 G—Surgeon Lieutenant W E A Armstrong, Indian Medical Service (Madras), is appointed to officiate as Medical Officer of the Meywar Bhil Corps, with effect from date of joining, and until further orders

No 3117 I—Whereas His Highness the Maharaja of Bikanir (Bikanir being a Native State within the meaning of the Native Coinage Act, IX of 1876) has, pursuant to the authority contained in section 5 of the said Act sent to the Mint of Bombay silver which has been coined under the said Act into one lakh and ninety thousand rupees, and has requested the Government of India to declare that a tender of payment of money, if made in rupees so coined, shall be a legal tender in British India

And whereas the silver so sent has been coined into rupees of fineness identical with that prescribed by law for rupees of the Government of India

And whereas the rupees so coined are identical in weight with the rupees of the Government of India, and the devices upon their obverse and reverse differ from the devices on coins now made or issued by the Bikanir State, and have been approved by the Governor General in Council, and upon each of the rupees so coined its value in money of the Government of India is inscribed in the English language

And whereas the said Maharaja, on behalf of himself his heirs, and successors, has undertaken to abstain, during a term of thirty years from the date of this notification, from coining silver and copper in his own Mint, and has also undertaken that no coins resembling coins for the time being a legal tender in British India shall, after the expiration of the said term, be struck under his or their authority or with his or their permission at any place within or without his or their jurisdiction

And whereas the said Maharaja has formally declared that a tender of payment of money, if made in silver coins of the Government of India, shall in the territories subject to his Highness, be a legal tender in the cases in which payment made in such coins would, under the law for the time being in force, be a legal tender in British India

And whereas the said Maharaja for himself, his heirs, and successors has agreed that the law and rules for the time being in force respecting the cutting and breaking of coin of the Government of India reduced in weight by reasonable wearing or otherwise, or counterfeit, or called in by proclamation, shall apply to the coins made for the said Bikanir State under the said Act, and that the said State will defray the cost of cutting and breaking them

And has also agreed not to issue the same coins below their nominal value, and not to allow any discount or other advantage to any person in order to bring them into circulation

And has also agreed that, if at any time the Government of India call in their coinage in silver and copper, he, the said Maharaja, his

heirs, or successors, will, if so requested by the Government of India, call in, at his or their own expense, all the said rupees so coined for him

Now, therefore, the Governor General in Council, in consideration of the premises and in exercise of the power conferred by the Native Coinage Act (IX of 1876), section 3, is pleased to declare that a tender of payment of money, if made in the said rupees coined under the said Act for the said State of Bikanir, shall, subject to the provisions of the Indian Coinage Act (XXIII of 1870), be a legal tender in British India

The 7th September, 1893

Simla the 7th September 1893

RESOLUTION—By the Government of India Finance and Commerce Department

Read again—

Resolution in this Department, No 3624 A, dated 18th August 1893, and the rules regarding the grant of Exchange Compensation Allowance appended thereto

RESOLUTION —The Governor General in Council directs that the following alterations be made in the rules appended to the Resolution read in the preamble

To be substituted for the last sentence of rule 7

"The allowance payable during each month of the quarter would therefore be granted at 6¼ per cent on the full salary limited to a maximum of $\frac{1}{12}$th of Rs 1,666 10-8, or Rs 138 14 3'

To be substituted for rule 8

"The market rate applicable to the quarters April to June and July to September 1893 has been fixed in Resolution No 3624 A, dated 18th August 1893 For subsequent quarters, the market rate applicable to any quarter will be approximately the average of the Calcutta demand rate during the quarter ending on the 15th day of the last month of the preceding quarter, and will be calculated and notified by the Comptroller General, if possible, on such 15th day The rate will be fixed at the nearest $\frac{1}{32}$ of a penny"

ORDER —Ordered, that the Resolution be communicated to the several Departments of the Government of India, to all Local Governments and Administrations, to all Heads of Departments subordinate to the Finance Department, to the Comptroller and Auditor General, and to all Accountants General and Comptrollers

Ordered also, that the Resolution be published in the *Gazette of India*

No 1978 E—The following Order of Her Majesty the Queen in Council is republished from the *London Gazette* of the 21st July, 1893, for general information

AT THE COURT AT WINDSOR

The 1?th day of July 1893

Present

THE QUEEN'S MOST EXCELLENT MAJESTY

Lord President
Lord Steward
Marquess of Ripon
Sir Edmund Monson

Whereas by Treaty, grant, usage, sufferance, and other lawful means Her Majesty the Queen has jurisdiction in Zanzibar

Now therefore, Her Majesty, by virtue and in exercise of the powers in this behalf by "The Foreign Jurisdiction Act, 1890," or otherwise in Her Majesty vested, is pleased by and with the advice of Her Privy Council to order, and it is hereby ordered as follows

1 This Order may be cited as "the Zanzibar (Jurisdiction) Order in Council, 1893," and shall be construed as one with "the Zanzibar Order in Council, 1884," and "The Zanzibar Order in Council, 1888" (herein respectively referred to as the Order of 1884 and the Order of 1888)

2 (1) Natives of any Protectorate of Her Majesty which is outside Zanzibar shall, when within Zanzibar, be deemed to be British-protected persons within the meaning of the Orders in Council relating to Zanzibar

(2) Such of the provisions of those Orders as refer to British subjects shall extend also to

Zanzibar subjects, but in so far only as by Treaty, Convention, grant, usage, or other lawful means Her Majesty has jurisdiction in Zanzibar in relation to Zanzibar subjects

3 Article eight of the Order of 1884 is hereby amended, and from and after the commencement of this Order chapter thirty three of the Act therein referred to as the Code of Criminal Procedure (Act X of 1882), which relates to criminal proceedings against Europeans and Americans, shall not be applicable to Zanzibar

4 The Order of 1884 and the Orders amending the same shall be read and construed as if the expression "Consular Judge" had been substituted for "judicial assistant" wherever that expression occurs, provided that if the Consular Officer heretofore acting as judicial assistant is appointed to be Consular Judge, all past acts of that officer as judicial assistant shall have the same validity as if on the commencement of the Order of 1884 he had been appointed to be Consular Judge

5 (1) The Secretary of State may appoint one of Her Majesty's Consular Officers in and for Zanzibar to be Assistant Consular Judge, and the Consul General may in case of emergency appoint one of such officers to act temporarily as and for such Assistant Consular Judge

(2) Subject to the provisions of this Order and to any directions of the Secretary of State, the Assistant Consular Judge shall have and exercise all the same powers and jurisdiction which under this Order and the Order of 1884 can be exercised by the Consular Judge

6 So much of Article nine of the Order of 1884 as relates to the judicial assistant is hereby repealed and in the application of the Code of Criminal Procedure and other enactments in that Article referred to the Assistant Consular Judge shall be deemed to be the Magistrate of the district, and the Consular Judge shall be deemed to be a Joint or Additional Sessions Judge

7 The powers conferred upon the Consul General by Article two of the Order of 1888 shall extend, and be deemed to have extended to regulations for enforcing the observance of any Treaty, Convention, or International Agreement to which Her Majesty is, or may hereafter be, a party, whether the Sultan of Zanzibar is or is not a party thereto

8 A copy of this Order shall forthwith be affixed and exhibited in the public office of the Consulate at Zanzibar and the day on which it is so exhibited is herein referred to as the commencement of this Order, provided that any appointment authorized by this Order may be made at any time after its passing

9 Save as by this Order provided, expressions used in this Order and in the Order of 1884 have the same meaning as in that Order

And the Right Honourable the Earl of Rosebery, K G one of Her Majesty's Principal Secretaries of State, is to give the necessary directions herein

C L Peel

MARINE DEPARTMENT

PENSIONS

No 56—The Most Hon'ble the Governor General in Council is pleased, with the approval of the Secretary of State for India, to notify that officers and engineers of the Royal Indian Marine who have so elected will be admitted to the benefits of the Indian Military Service Family Pension Regulations, and their enrolment as subscribers will have effect from the 1st January 1893, upon the condition that their contributions are so regulated as to provide for the liabilities entailed by their admission to the benefits of the pension rules

2 In accordance with this principle, a separate *pro formâ* account will be kept by the Examiner of Marine Accounts of all contributions levied

from officers of the Royal Indian Marine and of all payments made on account of their families, and it must be distinctly understood that the rates of contribution payable by them will be liable to alteration, irrespective of those that may be prescribed for members of the military service, and will be so regulated as to prevent any loss to existing subscribers

3 A copy of the statement prepared by the Actuary at the India Office shewing the contributions due from officers will be furnished to the Examiner of Marine Accounts Married officers promoted since the 31st December 1892 will pay the promotion donations prescribed in the Indian Military Service Family Pension Regulations in addition to the sums referred to in this statement

4 Subscriptions and donations will now be recovered, with interest at the rate of 4½ per cent per annum, from 1st January 1893

Donations may, however be paid in twenty four monthly instalments from the 3rd August 1893, subject to the payment of interest on the unpaid balances

5 Officers who have elected to subscribe will not be allowed to discontinue their subscription so long as they remain in the service, neither will those officers who have declined to subscribe be allowed at any future time to become subscribers

6 Officers enrolled as subscribers under the terms of this order will for the present be permitted to pay the reduced rates of subscriptions laid down in the rules Donations must, however, be paid at the full rates and unmarried subscribers, who have been in the service for a number of years, may on marriage be required to pay a small additional donation All such marriages should therefore be reported by the Examiner of Marine Accounts to the Director of Funds in order that the necessary calculation may be made by the Actuary

7 Officers admitted to the Royal Indian Marine subsequently to the 1st January 1893 will be required to subscribe under these regulations as a condition of their appointment to the service

8 In the uncertainty which exists as to the average age at which officers of the Indian Marine are likely to retire, it is not considered necessary for the present to rule that officers will be required to continue the full rates of subscription after retirement from the service

9 Subscribers will be classed as shown in the margin Any Commander holding a first class port appointment, or the appointment of Deputy Director of the Royal Indian Marine may at his option subscribe in the next higher class to that in which he is placed according to his grade as Commander An officer who has elected to subscribe in a superior class will not subsequently be allowed to revert to a lower one Sub Lieutenants (2nd and 3rd grade officers) and Assistant Engineers enrolled as subscribers, with effect from 1st January 1893, under the terms of this order will be allowed the option of subscribing either in class V or in class V 2 This option will not be given to future entrants into the service

Class III
1st grade Commanders
Class IV
2nd and 3rd grade Commanders
Chief Engineers
Class V
Lieutenants (1st grade Officers)
Engineers
Sub Lieutenants (2nd and 3rd grade Officers)
Assistant Engineers

10 All the necessary registers and accounts will be kept by the Examiner of Marine Accounts

FURLOUGH AND LEAVE

No 57—The undermentioned officer is granted leave out of India on private affairs under the leave rules contained in Marine Circular No 7, dated the 26th April 1892 the specified period to count from the date of being struck off duty

Sub Lieutenant M W Farewell, Royal Indian Marine for one year

No 58—The undermentioned officer has been granted an extension of leave by the Secretary of State for India

Lieutenant T J Walker, Royal Indian Marine, (m c) for three months

No 59—The undermentioned officer has been granted leave in India on medical certificate under the leave rules contained in Marine Circular No 7 dated the 26th April 1892

No 341—Lieutenant W J McElhinny, R E, Executive Engineer, 4th Grade, temporary rank, is appointed, on probation, to Class III, Grade 1 of the Superior Revenue Establishment of State Railways, Traffic Department, and is posted to the Oudh and Rohilkhand Railway

The 15th September, 1893

No 342—His Excellency the Governor General in Council, having sanctioned the following surveys being undertaken, is pleased to place the same under the control of the Director General of Railways

(*i*) Detailed survey for a line of railway on the standard gauge from Ludhiana to Ferozepore

(*ii*) Detailed survey for a line of railway on the standard gauge from Ghaziabad to Gurmukhteswar on the Ganges, and thence eastwards to Moradabad and Chandausi, with an extension from Rampur or Moradabad to Ramnagar

These surveys will be carried out by the Engineer in Chief of the Delhi Minchinabad Railway Survey

No 344—The following is published for general information

No 924 R C, dated 15th September, 1893

RESOLUTION—By the Government of India, Public Works Department

Terms on which the Government of India are prepared to consider offers for the construction by the agency of private companies of branch lines or extensions of existing railways to be worked, when constructed, by the main line administrations

Read—

Government of India Circular Resolution No 1366 R C, dated 30th December 1887

OBSERVATIONS—His Excellency the Governor General in Council has had under consideration the question of the extension of railways in India, and has determined to provide additional encouragement for the investment of private capital in the construction of branch lines and extensions of existing railways It has been resolved accordingly to revise the concessions previously offered to persons willing to embark upon such undertakings, and to publish for general information the terms and conditions on which projects will be entertained

2 The concessions offered are—

(1) the free use of land,

(2) the provision of rolling stock and the maintenance and working of the new lines at favourable rates by the main line administrations,

(3) the free use of surveys, etc, made at State expense,

(4) the carriage of stores and materials over State lines at favourable rates,

(5) the grant of a limited rebate from the main line earnings towards ensuring the proprietors of the new lines a dividend of 4 per cent per annum on the approved capital expenditure

3 In addition to the above, if it can be legally arranged, authority will be given to charge to the capital account of the branch railway during construction and until the close of the half-year next following the half year in

which the branch railway may be fully opened for traffic such sum as, together with any net receipts from working, will suffice to pay interest at the rate of 4 per cent per annum on the paid up capital The payment of interest out of capital as a part of the constitution of a company cannot, however, at present be recognised except under parliamentary sanction The question of applying to Parliament for power to enable the Secretary of State for India in Council to recognise such payments in respect to Indian undertakings is under consideration

4 It is not the intention of the Government of India to grant in every case the *maximum* concessions mentioned in this Resolution Each project presented will be separately examined, and will be treated on its merits No concession will be given for any project unless it is shown to possess reasonable prospects of financial success His Excellency the Governor General in Council deems it essential to insist in all cases in view of the extent to which the new lines will be subsidised at the cost of State revenues, and in order to secure a proper return for that expenditure, that the new lines shall be worked as if they were part and parcel of the main line undertakings, and in a manner that will give the public the benefit of cheap transport over them, and at the same time attract new traffic to the main lines For that purpose ultimate control over the rates and fares charged for the carriage over the new lines of passengers and goods will be retained in the hands of the Government

5 The Government of India are prepared to undertake the construction by its Department of Public Works of branch lines or extensions of existing railways on behalf of persons who may have provided the necessary capital

6 Applications for concessions to construct branch lines or extensions under the terms of this Resolution should be submitted in the form prescribed by memorandum (A) hereto attached to the address of the Secretary to Government of India, Public Works Department

---

RESOLUTION —Proposals for the construction of branch lines or extensions of existing railways made by persons who satisfy the Government that they are in a position to command substantial financial support will be considered on the undermentioned terms and conditions, *viz*

(1) The proposed railway (hereinafter called 'the branch railway') must be built in accordance with the fixed and moving dimensions for the time being prescribed by the Governor General in Council, and on plans and estimates that have been approved by that authority

(2) The extent and details of the concessions to be granted in each case will be settled by agreement

Lines to be connected with State Railways

The following terms will apply to projects for the construction of branch railways to be connected with State railways —

(3) Access will be given, on application and free of charge, to all information, plans, or estimates in the possession of Government that relate to railways whose construction the Government is prepared to entrust to companies, but no responsibility will be accepted by Government for the accuracy of any information, plan, or estimate thus made available

(4) The use of such land as is necessary, in the opinion of the Government of India, for the construction of the branch railway and for the stations, station yards, offices, warehouses, houses for employés, conveniences, and works necessary or proper for the purposes of the railway, as well as for quarrying, ballast, brick-fields, and kindred purposes, will be provided by Government free of charge

(5) The branch railway will be maintained and worked by the main line administration during the full currency of the contract to be entered into for the purpose at a fixed ratio of expenses to earnings in each half year The ratio will, when the branch rail way is of the same gauge as that of the working railway, usually be that obtaining on the whole system, including the branch railway, and will not ordinarily exceed 50 per cent of the gross earnings of the branch from all sources, and will be inclusive of charges for the use of the main line rolling stock Charges for Home Board direction of the branch railway will be excluded from the arrangement, and will have to be defrayed out of the share of the earnings pertaining to the branch railway

(6) Railway materials for the branch railway will be carried over State lines at the special rates prescribed for such materials belonging to State railways

(7) A return will be made to the branch line by the main line of such a sum from the traffic interchanged with it as shall out of the gross earnings of the main line, together with the branch company's share of branch earnings, be sufficient to give the branch company a dividend of 4 per cent per annum on the actual expenditure charged in the capital account of the branch railway company as entered in the Company's books in India, provided always that the return so made to the branch company shall in no case exceed 10 per cent of the gross earnings of the main line from traffic inter changed between the main and branch lines This rebate will be granted from the first earning of revenue by the branch line, such payment being calculated at the close of the "calendar" year, payments on account, however, subject to adjustment, being permissible at the close of the first half of each year

(8) Funds for the execution of new works—properly chargeable to capital—found necessary after the branch railway has been opened to traffic shall be provided by the branch railway company Such works and their cost must be agreed upon between the branch railway company and the main line administration before they are put in hand In the event of any difference of opinion arising between the branch line and the main line administration as to the necessity for and the cost of any new work, the matter will be referred to the Director General of Railways as arbitrator, and his decision shall be final

(9) Rates and fares upon the branch railway shall be within the limits of the schedule of maximum and minimum rates that may be from time to time authorized by Government for the main line, and shall be controlled by the main line administration Ordinarily the rates and fares charged on the branch railway shall be not more than the highest nor less than the lowest mileage rates charged for the time being for similar traffic on the main line Deviations outside of these mileage rate limits will not be permissible except with the special sanction of Government in each case

(10) Government will have the right on giving twelve months' notice to purchase the branch railway either—

(i) at the expiration of 21 years from the date of opening to traffic of the branch railway, and thereafter at successive intervals of 10 years, at 25 years' purchase, based on the aver age net earnings of the branch for the five years immediately preceding the purchase, provided that the price shall not in any case exceed the total capital expenditure by more than 20 per cent, and shall not be less than the capital expenditure, or

(ii) at the expiration of 50 years from the date of opening to traffic of the branch railway on payment of the actual capital expenditure

(11) Electric telegraphs and telegraphic appliances will be supplied and maintained by the Government of India the charges for rent, maintenance, and inspection of telegraphic works and appliances will be included in the working expenses Free passes shall be granted over the branch railway for persons employed by the Government of India on the construction, maintenance, working, and inspection of the telegraphs

(12) The rates and arrangements in force on State railways in the matter of services rendered to the Postal Department, to the Military, Police, and other Departments of the State, and to high Government officials shall be applicable to the branch railway

(13) The general character of the supervision and control that will be exercised by the Government of India over the branch railway, apart from the provisions of the Railway Acts and the preceding provisions of this Resolution, is indicated in the following paragraphs

(i) The route of the line and the situation of the stations, and other similar details, will be determined by the Government of India

The line while under construction, shall be inspected when and so often as an Inspecting Officer appointed for that purpose by the Government of India shall consider desirable with a view to ensure the construction of the line up to the standard agreed on

(ii) The branch railway company, if required, shall keep capital accounts and statistics in forms approved by the Secretary of State, and shall render, free of cost, all accounts and statistics required by Government The accounts and books will be subject to audit on behalf of Government

(iii) No capital expenditure by the branch railway company will be allowed as between the Secretary of State and the company unless the prior sanction of the Secretary of State has been obtained

(iv) The company shall have no power to increase its share or stock capital without the sanction of the Secretary of State, or to borrow money except within a fixed limit and on specified conditions

Lines to be connected with Railways belonging to, or worked by, Guaranteed or Assisted Companies

As regards branch railways connecting with railways belonging or leased to Guaranteed or Assisted Companies

(14) Land necessary, in the opinion of the Government of India, for the purposes of the railway will be provided by Government free of charge as indicated in para (4) above

(15) The terms under which the branch railway will be maintained and worked by the main line administration will be subject in each case to agreement between the main line and branch line companies and to the approval of Government The Government will endeavour to obtain for the branch railway company terms approximating to those that would be granted under the terms of this Resolution if the branch railway were connected with a State railway

(16) Other relevant concessions and stipulations contemplated by this Resolution in the case of branch railways connecting with State railways will be applied

Alternative terms and surveys

2 The Government of India will be prepared to consider proposals for working branch lines on terms other than the above which may be put forward by promoters

3 If, after consideration of the question on its merits, it be decided that the gauge of any branch line shall be different from that of the main line, the question of the ratio of expenses to earnings at which the branch shall be worked will be subject to arrangement in each case but in such cases the branch line must be fully supplied with necessary rolling stock and workshops by the branch railway company

When application is made for permission to construct a branch line which the Government is inclined to entrust to a Company on a route which has not been surveyed, the survey will, if so desired, be carried out by the Public Works Department of the Government of India on the applicants undertaking to pay the cost of such survey and depositing the estimated amount thereof on the understanding that, if permission is eventually given for the construction of the line, the actual cost of the survey may be included in the capital cost of the undertaking

4 Applications for permission to survey for the construction of a branch line should be submitted to the address of the Secretary to Government of India, Public Works Department, in the form prescribed by memorandum B hereto attached

Enclosure No 1 (with Annexures) to Government of India Resolution No 924 R C of 1893

MEMORANDUM A

For the guidance of persons or syndicates desirous of submitting proposals for the construction of railways in India

---

1 All applications for leave to construct a railway in any part of British India are to be addressed to the Secretary to the Government of India, Public Works Department

2 All such applications shall be printed, and shall be drawn up, as far as may be, in form A attached hereto, and shall specify—

(a) the company, person, or persons by whom the application is preferred, the proposed amount of capital, the number of shares, and the amount of each share,

(*b*) all the termini, together with the names of all the principal towns from, through, into, or near which the railway is intended to be constructed, as well as the names of each civil division and district to be traversed by the proposed alignment,

(*c*) the length, so far as known, of the proposed railway,

(*d*) the gauge, the weight of rails, &c

(*e*) the motive power to be employed,

(*f*) the maximum tolls, rates, and fares proposed to be charged on the projected railway,

(*g*) the proposals for working the railway when constructed, and if any agreement is under contemplation, or has been provisionally arranged with any existing Railway Administration under which the proposed line, when constructed, is to be leased out for working by such Railway Administration, the exact nature and terms of such agreement,

(*h*) any further information that may be required to enable Government to thoroughly understand the scope of the proposals

3 Every such application shall be accompanied by a map to a scale of one mile to one inch, with the line of the proposed railway delineated thereon, so as to show its general course and direction, and also by an estimate as correct as may be of the works proposed to be authorised

4 When the applicants draw up their own detailed plans and estimates, these documents are invariably to be prepared in strict accordance with the rules for the preparation of railway projects issued under the authority of the Government of India, of which copies may be obtained on payment from the Superintendent of Government Printing, Calcutta

5 List of all routes in British India along which new lines of railway have at any time been proposed, and which have for railway purposes been either reconnoitred or surveyed, may be had on application to the Superintendent of Government Printing, Calcutta, on payment of a fee of Rs 5

6 Upon written application to the Director General of Railways, permission will also be accorded to inspect at all reasonable hours the detailed plans, sections, and estimates at the disposal of Government in regard to any particular route already surveyed, provided that they relate to railways the construction of which the Government is prepared to entrust to Companies, and copies of such plans, sections, and estimates will be furnished on payment of the cost of copying

7 But in regard to all such information, statistics, plans, sections, or estimates which may be furnished, it is to be recognized that the information thus offered to any person interested in the matter is simply the best information of the kind at the disposal of Government, and that Government cannot accept any responsibility whatever in regard to the accuracy of any of the documents.

Secretary to the Government of India

GOVERNMENT OF INDIA

HOME DEPARTMENT

REPORT OF THE ROYAL COMMISSION ON THE BLIND, THE DEAF AND DUMB, AND IDIOTS AND IMBECILES

No $\frac{8 \text{ Education}}{296-306}$

Extract from the Proceedings of the Government of India in the Home Department (Education),—under date Simla, the 13th September, 1893

Read—

Despatch from the Secretary of State, No 87 (Public), dated the 15th August 1889, forwarding a copy of a letter dated the 16th July 1889, from Lord Egerton of Tatton together with the Report of the Royal Commission on the Blind, the Deaf and Dumb, and Idiots and Imbeciles,

Home Department Circular Nos 496—505, dated the 26th October 1889, and

The replies of Local Governments and Administrations to the above quoted Circular

RESOLUTION

With his Despatch of the 15th August 1889, the Secretary of State forwarded for the consideration of the Government of India the Report of the Royal Commission on the Blind, the Deaf and Dumb, and Idiots and Imbeciles The views and recommendations of the Commission, briefly stated, were as follows —

(1) that it is more advantageous for the local Authority or the State to expend its funds in educating the blind than to have to support them through life in idleness or to allow them to live on charity,

(2) that the parents of the blind, the deaf and dumb and educable idiots should pay for their education to the extent of their ability,

(3) that the blind should be compelled to attend school from the age of 5 years to the age of 16,

(4) that the deaf and dumb should be compelled to attend school till they attained the age of 16 years, and should be educated on the purely oral system, and

(5) that power should be taken to ascertain whether imbeciles are educable or not, and to provide for such of them as are educable being sent to suitable institutions for their education

In circulating the Secretary of State's Despatch and the Report of the Royal Commission with the Home Department letter of the 26th October 1889 cited in the preamble, Local Governments and Administrations were asked to state

their opinion as to the extent to which the conclusions of the Royal Commission were applicable to the classes referred to in India

2 Before coming to a final decision, the Government of India have awaited the publication of the returns of the census taken in 1891, these returns show that out of a population of 274,373,929, the numbers in each of these unfortunate classes are—idiots and persons of unsound mind, 74,289, congenital deaf-mutes, 196,861, blind persons, 458,868

3 Local Governments and Administrations are unanimous in agreeing that the recommendations of the Royal Commission are unsuitable for India The family system in India has caused it to be generally recognized as an obligation by all able bodied persons to provide for the support of those members of their families who, from congenital or other defects, are unable to earn their own livelihood The State has, moreover, not yet succeeded in securing instruction in the rudiments of learning for those classes who suffer from no natural disqualification As general primary education is still so backward among the masses, the Government of India consider that it would be premature to incur expenditure in endeavouring to train persons who at the best could only very imperfectly respond to the efforts made on their behalf, and whose education would be exceptionally expensive The Government of India have therefore decided that the assistance of Government in this direction should for the present be limited to grants in aid of public or private charity

---

ORDER—Ordered, that a copy of this Resolution be communicated to all Local Governments and Administrations for information, and that it be published in the Supplement to the *Gazette of India* for general information

[True Extract]

C J LYALL,

Secretary to the Government of India

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weather Review of India for the week ending at 8 a.m. on Saturday, September 9th, 1893

Very unsettled weather has prevailed throughout the greater part of the Indian region during most of the week under review The cyclonic storm which appeared over the Bay at the close of the previous week travelled from the Bay north westward and passed into the North West Himalayas It occasioned very general rain during its passage After it disappeared the barometer rose, the barometric differences became much slighter, and the weather became much finer On the 8th, however, a fresh barometric fall appeared over Bengal and the Bay, and during the 8th and 9th a fresh storm developed at the head of the Bay As this storm increased in intensity, barometric gradients increased, the wind rose, and rainy weather prevailed, except in the extreme north of the country In the interval between the two storms temperature rose, and on the 6th and 7th the heat was greater than usual in most Provinces of India, but during the rainy periods which accompanied the passage of the first and the appearance of the second storm the mean temperature of India was lower than usual

The chart of the 3rd showed that the cyclonic storm which had developed over the head of the Bay at the close of the last week had commenced to move north westward, and had crossed the coast close to Balasore The storm was fairly deep, the abnormal depression of the barometer near the centre being about 0 35 inch The barometer was falling, except in parts of North East, of North West, and of North India, and gradients were steep very generally The winds were cyclonic in the neighbourhood of the depression, and blew from the normal monsoon directions elsewhere There had been no rain over the south of the Punjab, Western Rajputana, Sind, or the South Carnatic, but elsewhere rain had been general, and in the neighbourhood of the depression heavy Balasore reported 4 47 inches, Cuttack 3 67 inches, False Point 3 42 inches, Darjeeling 2 32 inches, and many stations over 1 inch By 8 A M on 4th September the cyclonic storm had reached the neighbourhood of Allahabad The barometer was falling over the North-West Provinces, but was rising elsewhere Gradients were less steep than on the preceding day The winds were cyclonic near the storm and blew from the ordinary directions elsewhere The rainfall distribution was similar to that reported on the preceding day, except that there had been some increase in the extent of rainfall over the Punjab, and that the region of heaviest fall had been transferred from Lower Bengal to the North West Provinces Cawnpore had received 6 00 inches, Karwar 4 21 inches, Allahabad 3 91 inches, Lucknow 2 63 inches, Tavoy 2 59 inches, Gnatong 2 38 inches, Saugor 2 35 inches, Mussoorie 2 09 inches, and several stations over 1 inch On the 5th the cyclonic storm lay between Delhi and Meerut The storm was filling up and the barometer was rising almost everywhere A fresh fall had, however, appeared over Burma Gradients had still further decreased, and the winds were rather variable over a large part of the country There was very little rain over the west of the Punjab, Sind, Guzerat, and Madras, but elsewhere the fall continued fairly general, and in the neighbourhood of the depression the amounts were heavy Ranikhet reported 6 36 inches, Lucknow 5 55 inches, Umballa 3 00 inches, Roorkee 2 44 inches, Mercara 2 36 inches, Chakrata 2 28 inches, and several stations over 1 inch By the morning of the 6th the storm had disappeared across the North-West Himalayas, and an area of relatively high pressure had been established over the north of the Punjab The barometric fall noticed over Burma on the 5th was passing out into the Bay, and pressure was recovering over Tenasserim Gradients were slight, and the winds, which were rather variable,

were generally light Rain had fallen generally over Burma, over and at the foot of the North West Himalayas, and along the West Coast, but elsewhere only scattered showers had occurred Moulmein had received 3 70 inches, Tavoy 2 24 inches, and Ranikhet 2 07 inches, but these were the only important falls On the 7th pressure was decreasing, except over the south of the Peninsula and in Burma Pressure was lowest over the west of the Punjab and highest over the south of the Bay The wind was generally between south and west Light showers had fallen over the Indian Peninsula, moderate rain in Burma, and heavy rain in North Bengal Jalpaiguri reported 7 65 inches, Kendat 3 85 inches, and Tavoy 2 98 inches On the 8th the barometer was falling, except over North Bengal and the south of the Peninsula Gradients had increased, and a fresh cyclonic storm was developing over the Bay The winds were rising in force, and blew from monsoon directions, except at the head of the Bay, where the directions were irregular There was no rain over North Western India, the South Carnatic, or parts of Lower Bengal, but elsewhere the weather was rainy The amounts were not, however, heavy, the largest being 2 77 inches at Tavoy, 2 44 inches at Silchar, and 2 10 inches at Fort Stedman The chart of the 9th showed that the barometer was falling everywhere—most in the north, that gradients had increased considerably, and that the cyclonic storm at the head of the Bay was developing into an important disturbance The winds were cyclonic around the Bay, and blew from normal monsoon directions elsewhere There was still very little rain over North Western India, but in all other places the fall was general Moulmein had received 4 38 inches, Nowgong 3 89 inches, Akyab 3 29 inches, Jubbulpore 3 08 inches, Tavoy 2 94 inches, Dehra Dun 2 72 inches, Murree 2 35 inches, Hazaribagh 2 23 inches, and several stations over 1 inch

Temperature—The following table shows the variations of the mean temperature from the normal on each day of the week for the different Provinces of India

PROVINCE	September 1893							Mean variation of week

Sind and Rajputana	—0 2	—0 1	0	+1 0	+1 6	+0 2	—1 0	+0 2
Madras	—2 5	—1 7	+0 3	+1 5	+1 4	—1 5	—1 5	—0 6
Mean for whole of India	—0 9	—1 4	—1 4	+0 2	+1 0	—0 1	—0 8	—0 5

On the 6th and 7th the mean temperature of the whole of India was slightly above the normal average but on all other days it was below, the abnormal deficiency ranging from 1 4° on the 4th and 5th to only 0 1° on the 8th The provincial variations show that the mean temperature of the week for the North West Provinces and the Central Provinces was 1½°, and that for the Punjab was 1 0° below the average, but in all the other Provinces the average variations for the week were very small, though on particular days during the week there were instances of considerable departures both above and below the normal

Rain—The concluding table shows that the rainfall throughout India during the week has been generally similar to that reported last week, except that relatively to the normal it has been on the whole somewhat heavier Sind and

Rajputana (West) were the only divisions which received no rain, more or less falling in all other parts of the country The heaviest average actual rainfall was 13 46 inches in Tenasserim, followed by 6 50 inches in the East Coast (North *a*) and by 6 01 inches in Oudh (South), while the lightest average actual rainfall was 0 05 inch in Kathiawar According to the normal, the heaviest average rainfall should be 7 90 inches in Tenasserim, followed by 7 14 inches in Assam (Surma) and 5 22 inches in Arakan, while the lightest normal average rainfall is 0 26 inch in Sind The principal difference then between the normal and actual average rainfall consists in the excess in Tenasserim and Oudh and the deficiency in Assam The third column of the table shows that the actual average rainfall was in excess of the normal average in twenty eight of the rainfall divisions and in defect in twenty three divisions The greatest actual excess was 5 56 inches in Tenasserim and the greatest actual deficiency was 3 53 inches in Assam (Surma) The regions where the rainfall was excessive included the following divisions, *viz* Tenasserim, Lower and Central Burma, Orissa, Chota Nagpur, both the Behar divisions, all the North West Provinces divisions, the Central, Submontane, and Hill divisions of the Punjab, Malabar, Coorg, the Konkan, the Deccan, the East and Central divisions of the Central Provinces, Central India (East), the East Coast (North and Central), and Hyderabad (South) In all the remaining divisions the fall was deficient

The three concluding columns of the table show the actual rainfall from May 28th to September 9th of 1893, the normal rainfall for the same period, and the difference between the two In Lower Burma, in Coorg, and in Mysore the rainfall has been in defect, in Assam (Surma), in Chota Nagpur, in the North-West Provinces (East), in Oudh (North and South), in the Punjab (North-West), in the Deccan, in Khandeish, in Rajputana (West), in the East Coast (North), and in Hyderabad (South) it has been excessive, while in all the other divisions it has been approximately normal

The following gives the largest total amounts received during the week as reported in the rainfall telegrams of the week

Division	District	Station	Amount	
Tenasserim	Amherst	Thaton	16 41	inches
Central Burma	Shwegyin	Kyaikto	15 15	"
Arakan	Akyab	Sudder	6 36	"
Assam	Sylhet	Sunamganj	5 60	"

SIMLA, *14th September, 1893*

W L DALLAS,
Asst Meteorological Reporter to the Government of India.

E C BUCK,
Secretary to the Government of India.

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weekly Report on the state of the Season and Prospects of the Crops

Madras —*For week ending 9th September*—Rainfall good on the West Coast and in the Circars, light rain elsewhere Want of rain is felt in the Southern and Central districts, and is beginning to affect cultivation in some of them Standing crops generally good, but require more rain in parts Harvest of early crops continues Fodder is generally available, but pasture is getting scarce in parts Condition of cattle generally good Prices continue very high with an upward tendency in a few of the Southern and Central districts

Bombay —*For week ending 13th September*—Want of water still felt in parts of Sind Rain almost throughout the Presidency Proper, slight in Guzerat, moderate and beneficial to standing crops elsewhere More rain is required in parts of the Deccan, Karnatic, and Kathiawar Standing crops withering for want of rain in parts of five, and damaged by rats or insects in parts of four, districts Sowing of early or late crops continues in six districts and trans plantation in one Prices steady and fodder sufficient, except in two districts Agricultural stock generally good

Bengal —*For week ending 9th September*—There has been general rain over the whole Province during the week It has done good to the winter rice, which is now nearly all transplanted Harvesting of early rice, jute, and other autumn crops is almost finished, and preparation of lands for spring sowings has begun Prospects are generally favourable, except, as previously reported, in the flooded tracts of East Bengal and Behar Distress is reported in a portion of Backergunge, where relief operations will soon be undertaken In Faridpur three thanas will soon be in need of relief works Agricultural loans have been sanctioned according to requirements in the tracts affected Reports from Muzaffarpur and Champaran show that the condition of the people in the flooded tracts is not so bad as at first anticipated, and there appear to be no signs of immediate distress Prices have risen in the eastern districts, but are almost stationary in Behar and elsewhere Fodder is not yet sufficient in the flooded tracts of East Bengal

North-Western Provinces and Oudh —*For week ending 13th September*—Rain has been general and rather heavy in some districts Crops have greatly benefited, and prospects are good everywhere Supplies sufficient Prices show a falling tendency

Punjab —*For week ending 13th September*—Rain has fallen in all but two districts Irrigation of autumn crops by wells continues Ploughings and sowings for spring crops in progress in some districts Condition of standing crops is generally good Prospects average in most districts Crops withering for want of rain in Hissar and Sialkot, and rain is required in other

*

districts also Sugarcane and maize in parts of Lahore and *jowar* (*Holcus sorghum*) and *bajra* (*Penicillaria spicata*) in parts of Dera Ismail Khan have been damaged by insects Condition of cattle good Fodder sufficient in all districts, except Sialkot and parts of Multan and Shahpur, where it is getting scarce Prices unsettled in one district and stationary elsewhere

Central Provinces—*For week ending 13th September*—Rainfall heavy in two districts, elsewhere moderate to light rainfall Standing crops in good condition Weeding operations progressing Land being prepared for winter sowings in places Prices steady

Burma—*For week ending 9th September*—In Lower Burma agricultural operations are progressing satisfactorily, and transplanting is nearly finished in some districts In Hanthawaddy and Tharrawaddy considerable areas under paddy cultivation are under water, and will probably be destroyed Slight damage has also been done by floods to the crops in Bassein Rainfall ample in Upper Burma Agricultural operations for wet weather cultivation are progressing satisfactorily Reaping of early paddy and of sesamum progressing Maize being reaped in Magwe Crop prospects are generally good, but in Yeu, although prospects have improved, rain is still wanted, and in Shwebo, where the rainfall is inappreciable, the crop prospects are unsatisfactory In Pakokku, owing to heavy and constant rain, some nurseries are under water In Kyaukse some damage may be caused by the overflow of the Zawgyi river Slight damage has been done to crops by floods and rain in Katha and Magwe In Lower Burma the price of paddy has risen slightly in three districts, and in Upper Burma it has risen considerably in the Southern Shan States and fallen in five other districts

Assam—*For week ending 12th September*—Weather seasonable Trans planting of winter paddy nearly over Condition of cattle and supply of fodder normal Water sufficient

Mysore and Coorg—*For week ending 13th September*—MYSORE Rainfall good in parts of two districts, slight in other parts More rain is wanted throughout the State Prices risen in Kolar

COORG Rainfall good Rice and coffee crops in good condition The *ragi* (*Eleusine coracana*) crop is ripening Picking of cardamoms continues Prices stationary Fodder and water for cattle ample

Berar and Hyderabad—*For week ending 13th September*—BERAR Rainfall good Weather cool and cloudy Standing crops in good condition Land being prepared for ensuing spring crops Weeding operations in progress Fodder and water sufficient Cattle healthy Prices almost stationary

HYDERABAD Rainfall good Weeding of autumn crops and irrigated paddy continues Sowing of spring crops in progress Prices stationary

Central India—*For week ending 13th September*—Rain general throughout Central India, but more rain is required in parts of Gwalior Agricultural

operations in progress in all parts Land being prepared for spring sowings Standing crops in good condition, except in West Malwa and the Neemuch district, where Indian corn has been partially damaged by rain Prices of food-grains falling in Gwalior, Bhopal, and Goona, and steady in other parts

Rajputana.—*For week ending 13th September*—Slight rain in parts Good rain in six States Agricultural operations, standing crops, and cattle generally satisfactory Pasturage or fodder sufficient Prices fluctuating in two States, falling in four others, and steady elsewhere

Kashmir—*For week ending 12th September*—Moderate rain during the week Rice crops in good condition and ready for harvesting Prices stationary

Nepal—*For week ending 9th September.*—Weather warm and sultry Harvesting of upland rice commenced Prospects of crops good

জ্বরঘ্ন সিন্‌কোনার মূল্য কম করণ।

১৮৯১ সালের এপ্রেল মাসের ১লা তারিখ অবধি যাবৎ অন্য আজ্ঞা না হয় তাবৎ কালকাতার বোটানিকেল গার্ডেনের অর্থাৎ কোম্পানির বাগানের সুপারিন্টেণ্ডেণ্টের নিকট গবর্ণমেণ্টের কর্মচারিগণ এবং অপর কোন ব্যক্তি এক কালীন দশ পৌণ্ড ক্রয় করিলে নিম্নলিখিত হিসাবে জ্বরঘ্ন সিনকোনা পাইবেন অর্থাৎ চারি ঔন্স টিন ২॥ টাকায় আট ঔন্স টিন ৫ টাকায় ও এক পৌণ্ড টিন ১০ টাকায় পাইবেন। সর্ব্ব সাধারণে কোম্পানির বাগানের সুপারিন্টেণ্ডেণ্টের নিকট নগদ মূল্য দিলে এই এই হিসাবে অর্থাৎ চারি ঔন্স টিন ৩ টাকায় আট ঔন্স টিন ৬ টাকায় এবং এক পৌণ্ড টিন ১২ টাকায় পাইতে পারিবেন। কলিকাতার প্রধান প্রধান ইউরোপীয় ও দেশীয় ঔষধ বিক্রেতাগণও এই ঔষধ বিক্রয় করিয়া থাকেন। উপরোক্ত দর ছাড়া চারি ঔন্স টিনের ৴৹ আট ঔন্স টিনের ৷৹ ও এক পৌণ্ড টিনের ৸৹ ডাক মাশুল দিতে হইবে।

PURE SULPHATE OF QUININE

Manufactured at the Bengal Government Cinchona Plantation

The price of this Quinine is as follows —

1 Pound tin,	R10	or, post free,	R16-12
½ „	R 8,	„	R 8-8
¼	R 4,	„	R 4-8

Analysis shows this Quinine to be of the purest manufacture, and it is guaranteed to be free from wilful mixture with the inferior alkaloids Cinchonine and Cinchonidine It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Seebpore, near Calcutta It can be had either white or coloured pink

বঙ্গদেশের গবর্ণমেণ্টের সিনকোনা আবাদে প্রস্তুত বিশুদ্ধ কুইনাইন।

এই কুইনাইনের নিম্নলিখিত মূল্য যথা—

১ এক পৌণ্ড টিন	১৬৷ বা ডাকমাশুল বিনা ১৬৷৴	
৷ আধ ,	৴ বা ডাকমাশুল বিনা ৮৷	
শিশি	৬৷ বা ডাকমাশুল বিনা ৪৷	

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধরূপে প্রস্তুত করা হইয়াছে। এবং ইহা যে সিনকোনাইন ও সিনকোনীডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছা পূর্ব্বক মিশান হয় নাই তাহার গারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারিগণের নিকট বিক্রয় করা যাইবে এবং কলিকাতার নিকট নবপুরের কোম্পানির বাগানের সুপারিণ্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারি ব। ইহা সাদা বা পাটল বর্ণের পাওয়া যাইতে পা -

REVENUE DEPARTMENT

[Revised Advertisement]

A Dictionary of the Economic Products of India

BY DR G WATT C I E

[illegible]

[illegible]

The first five volumes and Volume VI, Parts I, II, and III, of the Dictionary are now ready at the Office of Superintendent of Government Printing No. 8 Hastings Street, Calcutta, and will be supplied to non subscribers on receipt of the price for the complete set which is R45 in India and 3 guineas in England (exclusive of the Index, for which a separate charge will be made) packing and postage, in India, 8 annas per volume, for England, 2 rupees 6 annas per volume For copies bound in half calf or half morocco, R6 and 8 shillings respectively will be charged extra for the whole set

The Dictionary is intended to deal with the products of India—animal vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular and European names habitat or source history properties and uses (both chemical and industrial), trade statistics markets, etc.

The work is arranged alphabetically according to scientific nomenclature but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks and with a reference to the original publication. Numerous contributors have, however furnished the results of new discoveries and confirmed the vernacular names so that the Dictionary is not only a complete compilation of published information but has been brought abreast of the most recent inventions and discoveries

Volume I contains the letters A and B, and consists of 559 royal octavo pages Volume II embraces the letter C in 689 pages Volume III contains the letters D E F and half of G Volume IV latter half of G to middle of L, and Volume V contains the latter half of L to end of O Vol VI (which will consist of four parts) Part I contains letters P to R The whole work will it is expected be completed in nine volumes (including Parts II to IV of Vol VI) during the current year but a tenth volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary The Index will practically be a glossary of the vernacular and European names of the plants animals and minerals of India and as such will be a work of reference which it is hoped may prove of considerable value

Manual of the Land Revenue systems of India By B H BADEN POWELL Revised Edition in 3 Volumes —Royal 8 vo, cloth

Vol I —General and Bengal

PUBLIC WORKS DEPARTMENT

RAILWAY STATISTICS

RESULTS OF THE WORKING OF CONTINUOUS AUTOMATIC BRAKES IN USE ON RAILWAYS IN INDIA DURING THE SIX MONTHS ENDED THE 31st DECEMBER, 1892

No 359 R Stat, dated Simla, the 5th September 1893

Read again—

Public Works Department letter No 62R Stat, dated the 19th October 1891

Read also—

Endorsement No 327 Stat, dated the 25th July, 1893, from the Director General of Railways, forwarding tables Nos I and II showing the railways on which continuous automatic brakes were in use, the number of rolling stock fitted with the brakes, and the results of their working during the six months ended the 31st December, 1892

ORDER —Ordered that tables Nos I and II be forwarded, for information, to the Local Governments and Administrations, and to the officers noted in the margin.

The Governments of Madras Bombay, Bengal, the North-Western Provinces and Oudh and the Punjab.
The Chief Commissioners of the Central Provinces, Burma and Assam
The Resident at Hyderabad
The Resident in Mysore.
The Agents to the Governor General for Central India, Rajputana and Baluchistan
The Director General of Railways
The Consulting Engineers to the Government of India for Railways, Calcutta, Central Division, Lucknow and Assam

Ordered also that copies be forwarded for the information of Her Majesty's Government

Further, that this order with the tables be published in the Supplement to the *Gazette of India*

F B HEBBERT,
Under Secretary

Documents accompanying

Tables Nos I and II showing the railways on which continuous automatic brakes were in use, the number of rolling stock fitted with the brakes, and the results of their working during the six months ended the 31st December 1892

TABLE No. I

Statement showing the Indian railways on which continuous automatic brakes were in use on the 31st December, 1892, the description and number of rolling-stock and the mileage run by trains fitted with the brakes

Railways (including branch lines worked)	Locomotives fitted	Vehicles		Number of miles run by trains fitted	Proportion per cent		Remarks
		Braked	Piped		Of vehicles piped or fitted on total	Of mileage run by trains fitted on total train-mileage	
STANDARD GAUGE							
State lines worked by the State							
North Western (State)	199	(a) 1 222	68	(b)	10 65		(a) Includes 30 vehicles made over to the Mushkaf Bolan rail way (b) *Vide* Remarks in column 5 of table No II
Oudh and Rohilkhand (state)	13	108	10	167,076	2 38	14 44	
Eastern Bengal (state)	10	88	12	149 840	4 22	13 58	
Line worked by guaranteed company							
Great Indian Peninsula	66	159	50	93 448	2 17	7 14	

TABLE No II

Statement showing for the six months ending 31st December, 1892, all cases in which the continuous automatic brakes failed to act when required to be brought into action, or caused delay in the working of trains

1	2	3	4	5
RAILWAY	Name or description of brakes which failed or caused delay in the instances specified in column 4	Date of failure	Instances under the three following heads separately of— (i) Failure or partial failure to act when required in case of an accident to a train or a collision between trains being imminent. (ii) Failure or partial failure to act under ordinary circumstances to stop a train when required (iii) Delay in the working of trains in consequence of defects in or improper action of the brakes distinguishing whether they arose from neglect or inexperience of servants or failure of machinery or material	Number of miles run by trains fitted with each description of continuous automatic brake
STANDARD GAUGE **State lines worked by the State**				
North Western (state)	Vacuum Automatic.	12th October, 1892	(iii) Failure of material —Universal hose coupling pipe broken	Mileage has not been recorded as the vehicles did not run continuously on trains fitted throughout with the brake In future the mileage will be recorded as accurately as possible
		10th December 1892	(iii) Failure of material —Five minutes lost between Sirhind and Sarái Banjára in order to secure brake-tie rod in consequence of arm of brake shaft having broken	
		31st December 1892	(iii) Neglect of servants—Sixteen minutes lost at Sarái Banjára in disconnecting and adjusting rod of front brake van	
Oudh and Rohilkhand (state)	Vacuum Automatic	27th August 1892	(iii) Neglect of servants —No 1 up mail Sháhjahánpur to Chandausi was delayed fifteen minutes between Basháratganj and Aonla owing to flange of the universal coupling plug on engine No 132 having broken	167 076
		24th September 1892	(iii) Failure of machinery —When No 1 up mail Chandausi to Sahāranpur was approaching Nagína station the lever of the bottom damper of engine No 127 broke and wrenched the left hand canvas pipe off engine cylinder No delay	
		7th October 1892	(iii) Failure of machinery —Brake van No 618 on No 2 down mail Sahāranpur to Chandausi was unable to maintain vacuum owing to joint of vacuum gauge pipe having given way and admitted air No delay	
		7th November 1892	(iii) Failure of material —Twelve minutes delay between miles 361 and 362 to No 2 down mail owing to dummy bracket having broken and universal coupling on engine No 130 having been crushed by running over a buffalo	
		15th November 1892	(iii) Failure of material —No 2 down mail Sháhjahánpur to Lucknow was delayed twelve minutes at Sandila owing to one brake block hanger pin on brake van No 616 having broken	
		7th December 1892	(iii) Failure of material —No 1 up mail Lucknow to Sháhjahánpur was delayed seven minutes at Rosa in order to release the brake in consequence of the coupling pipes leaking between 3rd class female carriage No 173 and postal van No 450	
Eastern Bengal (state)	Vacuum Automatic		No failure or delay	149 840
Line worked by guaranteed company				
Great Indian Peninsula	Vacuum Automatic	2nd July, 1892	(iii) Failure of machinery —Four minutes delay occurred at Lonávla in detaching the tender of engine No 535 of No 20 up passenger train owing to the India rubber rolling rings of both tender cylinders having twisted and become jammed	293,448
		14th September 1892	(iii) Failure of material —Small India rubber pipe leading to brake cylinder of road van No 6533 on 149 down passenger broke in halves Fifteen minutes delay occurred in starting from Victoria terminus for ascertaining the cause of leakage and plugging up the pipe	
		23rd December 1892	(iii) Inexperience of servants —The driver created a higher vacuum on journey with 162 up passenger than he was able to maintain Twenty minutes and two minutes' delay at Shelárvádi and Talegaon respectively as the driver was unable to rele s the brakes to start

EMIGRATION

Simla, the 20th September, 1893

No 2563—37—The following draft of a proposed amendment to Rule 199 of the Rules under the Indian Emigration Act (XXI of 1883) is published under section 81 of that Act for the information of persons likely to be affected thereby, and notice is hereby given under that section that the draft will be taken into consideration by the Governor General in Council after the expiry of one month from the date of this Notification

2 Any objection or suggestion which may be made by any person with respect to the said draft will be received and considered by the Governor General in Council

Draft of proposed amendment

For the first sentence of the said Rule 199, the following sentence shall be substituted, namely

"If any returned emigrants are known to have deposited money for transmission to India through the Colonial Government, the Emigration Agent concerned shall, without delay make payment to them in Indian money, at the rate of exchange ruling in the open market of the equivalents of the amounts so deposited, and should any such emigrants so desire, he shall assist them to obtain postal money orders, payable to themselves at any Post Office they may name, in place of notes or silver which they should be discouraged from carrying about with them In all applications for such money orders the words "Returned emigrant" should be added after the name and father's name of the payee"

The 22nd September 1893

No 2606—13—*Erratum*—In scale No 3(A) showing the medicines required for emigrant vessels which was published under Notification No 950—13 dated the 27th April 1893, in the *Gazette of India* of the 29th April 1893, *for* "4 oz" in column (*b*) against Ipecacuanhæ vinum *read* 14 oz

PART IV

Acts of the Governor General's Council assented to by the Governor General

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 21st September, 1893, and is hereby promulgated for general information

ACT No XI OF 1893

An Act to make provision for certain matters connected with the Tributary Mahals of Orissa

WHEREAS it is expedient to repeal certain enactments relating to the Tributary Mahals of Orissa and to indemnify certain persons and validate acts done by them in, or in relation to, the said Mahals, and to admit of certain sentences passed in those Mahals being carried into effect in British India, It is hereby enacted as follows

Title, extent and commencement

1 (*1*) This Act may be called the Tributary Mahals of Orissa Act, 1893

(*2*) It extends to the whole of British India, and

(*3*) It shall come into force at once

Repeal

2 The enactments specified in the schedule are repealed to the extent mentioned in the fourth column thereof

Indemnity in respect of acts done before the commencement of this Act

3 No suit, prosecution or other proceeding shall be begun or continued in respect of any act done before the commencement of this Act by any officer of the Government in respect of any of the Tributary Mahals of Orissa or any inhabitant thereof, such act purporting to have been done in the exercise of executive or judicial authority, and having before or after the commencement of this Act, been ratified by the Government and every such act is hereby confirmed and made valid, and every such officer indemnified and discharged from liability in respect thereof

Execution in British India of certain sentences passed in Tributary Mahals

4 (*1*) The Lieutenant Governor of Bengal may authorise the reception, detention or imprisonment in any place under his government, for the period specified in the sentence, of—

(*a*) any person sentenced to imprisonment or transportation for any term by any Court or tribunal acting under the authority of the British Government in, or in respect of, any Tributary Mahal in Orissa,

(*b*) any Native Indian subject of Her Majesty residing in any such Mahal or any native subject of a Chief of any such Mahal, when, in either case, such Native subject as aforesaid has been sentenced by such a Chief or by a subordinate Court of such a Chief to imprisonment for a term exceeding six months

(*2*) The place or places within the territories subject to the Lieutenant Governor of Bengal in which persons may be received, detained or imprisoned under sub section (*1*) shall be such as the said Lieutenant Governor may, by general or special order, direct

(3) A sentence shall be of the same force and effect in the place in which it may be carried into effect under this section as if it had been passed by a competent Court in that place

THE SCHEDULE

Year	Number	Subject	Extent of repeal
1	2	3	4

PART I —*Act of the Governor General in Council*

Year	Number	Subject	Extent of repeal
850	XX	For settling the boundaries of the Tributary Mahals in Cuttack	The whole

Year	Number	Subject	Extent of repeal
1	2	3	4

PART II —*Regulations of the Bengal Code*

Year	Number	Subject	Extent of repeal
1805	XII	Settlement and collection of the public revenue in the Zillah of Cuttack	In section 36, *from* Provided also *to the end* Section 37
1805	XIII	Maintenance of the peace and the support and administration of the Police in the Zillah of Cuttack	In section 13 *from* Provided *to the end*
1816	XI	Receiving trying and deciding claims to the right of inheritance or succession in certain Tributary Estates in Zillah Cuttack	The whole

PART VI

Abstract of the Proceedings of the Council of the Governor General of India assembled for the purpose of making Laws and Regulations

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACTS OF PARLIAMENT 24 & 25 VICT, CAP 67, AND 55 & 56 VICT, CAP 14

The Council met at Viceregal Lodge, Simla, on Thursday, the 21st September, 1893

PRESENT

His Excellency the Viceroy and Governor General of India, G C M G, G M S I, G M I E, *presiding*
His Honour the Lieutenant Governor of the Punjab, K C S I
His Excellency the Commander in-Chief, K C B, G C I E, V C
The Hon'ble Sir P P Hutchins, K C S I
The Hon'ble Sir D M Barbour, K C S I
The Hon'ble Sir A E Miller, KT, Q C
The Hon'ble Lieutenant General H Brackenbury, C B, R A
The Hon'ble Sir C B Pritchard, K C I E, C S I

TRIBUTARY MAHALS OF CUTTACK BILL

The Hon'ble SIR ALEXANDER MILLER moved that the Bill to make provision for certain matters connected with the Tributary Mahals of Cuttack be taken into consideration He said that, as he had explained the other day, the Bill was a very short and practically a formal Bill, and he now thought that there was no necessity for putting Hon'ble Members to the trouble of referring it to a Select Committee

The Motion was put and agreed to

The Hon'ble SIR ALEXANDER MILLER also moved that the following amendments be made in the Bill, namely —

(*1*) that the expression "Tributary Mahals of Orissa" be substituted for the expression "Tributary Mahals of Cuttack" in the title, preamble and sections 1 and 3 of the Bill,

(*2*) that the expression "Tributary Mahal in Orissa" be substituted for the expression "Tributary Mahal in Cuttack" in clause (*a*) of sub-section (*1*) of section 4 of the Bill

He said —"The Bengal Government have represented that the expression 'Tributary Mahals of Cuttack' is an antiquated one, and that these places are better known as the 'Tributary Mahals of Orissa' They desire, therefore, that the word 'Orissa' be substituted for the word 'Cuttack' wherever it occurs in the Bill

"That is, I think, the shortest way of stating the amendments"

The Motion was put and agreed to

The Hon'ble SIR ALEXANDER MILLER also moved that the Bill, as amended, be passed

The Motion was put and agreed to

The Council adjourned to Thursday, the 5th October, 1893

S HARVEY JAMES,
Secretary to the Government of India,
Legislative Department

SIMLA,

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT

Weather Review of India for the week ending at 8 a m on Saturday, September 16th, 1893

The main feature in the meteorology of the week has been the history of a cyclonic storm which had formed in the north of the Bay of Bengal at the close of the previous week It intensified slowly, and crossed the South Bengal Coast between Saugor Island and Balasore on the morning of the 11th, and advanced steadily at the rate of about 8 to 10 miles an hour in a west north-westerly direction till on the 16th its centre was over the Western desert to the north west of Mount Abu and Deesa After leaving the Bay, it rapidly decreased in intensity, and on the 14th it was of comparatively little importance, but between the 14th and 15th it suddenly increased in intensity to a very marked degree, and became nearly as intense as when it left the Bay, and it continued almost equally intense on the 16th It had given the usual phenomena of strong winds of cyclonic direction in its neighbourhood, and this circulation affected the winds over the greater part of India almost throughout the week At first the storm only brought up moderate rain, which was fairly general, but when it increased in intensity on the 15th, it commenced to give exceptionally heavy local rain in its neighbourhood, but the general rain accompanying it was still only light to moderate in amount With the advance of the storm inland at the beginning of the week, a wave of monsoon winds followed it, and these winds advanced from both the Bay of Bengal and the Arabian Sea, and hence the general weather conditions throughout the week had been of monsoon character, the monsoon conditions being much more strongly developed than is usual in the middle of September

At the close of the previous week a barometric depression or cyclonic storm had developed at the head of the Bay of Bengal, and on the 9th the centre was to the east of False Point From the 9th to the 10th the storm slowly developed, the fall of pressure round the north west angle of the Bay equalling about 0 04 inch, while pressure was rising over a large part of Bengal and over Assam and Burma, and a very rapid increase of pressure had taken place over parts of North Western India, though a slow fall was reported over the Peninsula This brought the storm into decidedly greater prominence, and it was the dominant feature in the meteorology of the 10th The storm had also moved slowly in a north westerly direction from the 9th to the 10th, and its centre was to the north-east of False Point, and rather close to the land Round the north west angle of the Bay the pressures recorded were from a fifth to a quarter of an inch in defect, and baric gradients in the rear of the storm were decidedly steep Rainfall was to a great extent absent in West Bengal, Bihar, and the North Western Provinces, or over the area in front of the storm, while rain was falling in East Bengal and Burma, and rather numerous showers were received in other districts On the morning of the 11th the storm was passing inland, the centre lying between Saugor Island and Balasore, where a pressure of about 29 29 inches was recorded at 8 A M Pressure had fallen by 0 16 inch at these two stations, so that it is probable the storm had again intensified as well as moved nearer to these stations, and pressure at Saugor Island was 0 38 inch in defect Pressure, on the other hand, had again risen moderately to rather rapidly over the whole of the Indian area which was not being affected by the storm, and hence the storm on this day was very pronounced The storm was giving moderate to strong winds over North-Eastern India, and the cyclonic circulation indeed affected all districts, except North Western and Western India The storm gave heavy rain in its inland passage, Saugor Island reporting 6 inches, Balasore, False Point, and Bassein from 3 to 4 inches, and many stations an inch and upwards In the rear of the storm a heavy wave of monsoon winds was advancing up the Bay of Bengal,

giving heavy rain to Burma, and Akyab on the 11th reported 8 61 inches and Moulmein 6 00 inches Moderate rain was also falling in the Central Provinces and in the west and south of the Peninsula, but over North Western and Northern India rainfall had to a great extent ceased On the morning of the 12th the centre of the storm was in the south west of Chota Nagpur, and, though it was filling up, it was still an important depression It had, therefore, moved roughly about 250 miles in a west north westerly direction in the 24 hours from 8 A M of the 11th to the 12th, or at the rate of about 10 miles an hour The cyclonic circulation of winds round the storm centre was very definite, and practically the winds over the whole of India formed part of this circulation, and winds at the stations near the storm were fairly strong Hazaribagh, for instance, reporting 29 miles an hour On the 12th general and moderately heavy rain was received in Bengal and the Central Provinces and also in Burma and the south of the Peninsula, but little rain fell elsewhere The heaviest rainfall reported on this day was 2 91 inches at Chaibassa On the 13th the storm had again moved in a west north-westerly direction, and its centre was between Sutna and Jubbulpore, the defect of pressure at these stations equalling only 0 2 inch, or half that which had been registered on the 10th at Saugor Island and Balasore, so that it was clear the storm was decreasing rapidly in intensity, and had partly filled up It had also moved in the 24 hours over a distance of roughly 250 miles, or at the rate of about 10 miles an hour The cyclonic circulation of winds was less strong, and only moderate winds were blowing near the storm, while the winds in North Western and Southern India were unaffected by the circulation Moderate general rain had now extended to the North Western Provinces, and rainfall was becoming fairly general over India, except in Madras, Sind, Rajputana, and the Punjab, where local rain only was reported The heaviest falls reported on this day were 7 63 inches at Vizagapatam, between 3 and 4 inches at Rangoon, Sutna, and Gopalpur, and between 2 and 3 inches at Mandalay, Cuttack, and Cuddalore, so that the falls in the neighbourhood of the storm were not very heavy, and also pointed to the decrease in the intensity of the storm

On the 14th the centre of the depression was between Saugor and Neemuch, where pressure was from 0 05 inch to 0 08 inch in defect The centre had therefore again moved about 200 miles in a westerly or west north westerly direction, or at the rate of perhaps 8 miles an hour Pressure had fallen slowly only in the area over which the storm had advanced, while pressure was rising rather rapidly over the remainder of India, and was indeed generally in large excess, except over the area occupied by the storm A moderate cyclonic circulation of winds was accompanying the small storm, and winds in North Western and Southern India were quite unaffected by it, and were of normal character Rain was again fairly general, except in the Punjab, Sind, and in parts of Madras, and the heaviest falls reported were 5 40 inches at Vizagapatam and 3 70 inches at Nowgong On the 15th a great change had taken place in the character of the storm The centre had again moved in a west north westerly direction over nearly 200 miles, or at the rate of about 8 miles an hour, and it was near Mount Abu and Deesa and to the north east of these stations Instead, however, of the barometric depression at the centre equalling about a tenth of an inch, the defect registered at Mount Abu and Deesa equalled nearly a quarter of an inch, and with this increase in the strength of the storm very heavy rain began to fall near its centre, Mount Abu reporting 8 17 inches on the 15th Over India generally, however, rainfall was smaller in amount, and was confined to Rajputana, Central Provinces, and Central India, and parts of Madras, Bombay, and Punjab On the 16th, or the last day of the week, the position of the storm centre is difficult to determine, as it was over the Western desert, but it was to the north west of Deesa and Mount Abu instead of to the north east, as on the previous day, and it was therefore probably still travelling in a west north westerly direction, but it had not advanced very far, as the defect at Mount Abu and Dessa was still nearly 0 2 inch It was again giving exceedingly heavy rain, Mount Abu reporting 15 51 inches on the morning of the 16th and Dessa 13 76 inches, and fairly general rain was falling over India, except in the Punjab and over parts of Madras and Bombay The cyclonic circulation of winds in connection with the storm was strong, Mount Abu reporting a wind velocity of 27 miles and Deesa 33 miles,

and this circulation affected the winds of all districts, except the south of the Peninsula and North-Eastern India, where winds were normal

Temperature—The following table shows the variation of the mean temperature from the normal on each day of the week for the different Provinces of India Temperature, it will be seen, has been in defect of the normal practically throughout the week in all districts, except the Punjab, Sind, Rajputana, and Bombay, by amounts averaging about half to one degree

PROVINCE	September 1893							Mean variation of week
	10th	11th	12th	13th	14th	15th	16th	
	°	°	°	°	°	°	°	°

Madras	—1 7	—0 7	+0 3	+0 4	—0 5	—1 1	—1 5	—0 7
Mean for whole of India	—1 4	—1 2	—0 5	—0 6	—0 4	—0 4	—0 5	—0 7

Rain—The concluding table shows that rain has been received during the week in every district except Sind The falls were in moderately large excess in Burma, Central Provinces, Guzerat, Central India, and Rajputana, and in small or moderate excess in Bengal and in the hill and north west districts of the Punjab, but elsewhere the falls have been defective during the week The defects have been large in Assam, particularly in the Burma district, and considerable in the Madras Presidency, in Mysore, the Deccan, Khandesh, Oudh, and the Submontane districts of the Punjab and North Western Provinces

The heaviest average actual rainfall of 12 13 inches has been received in Tenasserim, while Arakan has registered 9 70 inches, and average falls of about 6 inches have been received in Lower Burma, Deltaic Bengal, Orissa, Chota Nagpur, and Central India (East), while, on the other hand, average falls of only half an inch or less have been recorded in Assam (Surma), Oudh (North), Punjab (South, Submontane, and West), Bombay Deccan, Hyderabad (South), Madras (Central), and East Coast (Central)

The third column of the table shows that out of 51 districts the falls were in defect in 28 and in excess in 23 only The defect during the week has exceeded 50 per cent of the normal fall in the following districts Assam (Surma, defect 95 per cent), Assam (Brahmaputra), North Bengal, North Bihar, Oudh (North), North Western Provinces (Submontane *a*), Punjab (Submontane), Mysore, Bombay Deccan, Khandeish, Sind, Hyderabad (South), Madras (Central), and East Coast (Central) It will be seen in the case of the first seven of these districts that they represent practically the whole of the area at the foot of the Himalayas, while the other stations represent the centre and north of the Peninsula This distribution of the defective rainfall is easily explained by the course taken by the cyclonic storm, which travelled from the north west angle of the Bay to Rajputana, and, as is usual in such cases, the storm more or less concentrated the rainfall over its immediate path, while by the indraught towards the storm the rain bearing current was prevented from reaching the areas to the north and south of the path, and hence the areas abovementioned received very defective rainfall throughout the week

The three concluding columns of the table show the actual rainfall for the south west monsoon period (i e, from the end of May) compared with the normal rainfall up to the 16th September For this period out of 51 districts 31 have received falls larger than usual, while the remaining 20 districts show defective falls, but the only cases where the defects shown are at all large are Coorg and Mysore, while moderate defects are registered in Lower Burma, North-Western Provinces (Submontane *a*), the west of the Punjab (defect 14 per cent), Malabar, Central Provinces (West), and Kathiawar

The following statement shows the largest total amounts received at single stations in various districts during the week, as reported in the rainfall telegrams

Division	District	Station	Amount
Tenasserim	Amherst	Thaton	12 30 inches
Arakan	Akyab	Akyab	14 00 „
Bengal (Deltaic)	Midnapur	Ghatal	11 43 „
Ditto	Hooghly	Jehanabad	11 41 „

Secretary to the Government of India

B

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weekly Report on the state of the Season and Prospects of the Crops

Madras—*For week ending 16th September*—Rainfall good on the West Coast Nilgiris, and in the two Northern districts of the Karnatic Light rain in Godavari, Kistna, and parts of Central and Southern districts, elsewhere only scattered showers Want of rain continues to be felt and water supply for irrigation is getting insufficient in parts of the Karnatic, the Central, and Southern districts Standing crops generally good, but dry crops in parts of the above districts are suffering for want of rain Fodder is generally available, but pasture is getting scarce in parts Condition of cattle is generally good Prices continue very high, but are slightly easier in the Southern districts

Bombay—*For week ending 20th September*—Rain throughout the Presidency, slight in Sind, more rain required in the Deccan and Karnatak Standing crops withering for want of rain or damaged by excessive rain, blight, or rats in parts of four districts Preparations for late crops continue in nine districts Reaping of early crops progressing in two districts Prices steady, except in two districts Fodder sufficient Agricultural stock good

Bengal—*For week ending 16th September*—There was general rain during the week, the falls being heavy in South West Bengal, Orissa, and Chota Nagpur More rain is wanted in parts of North Bihar Prospects of standing crops show a slight improvement and are generally good except in the flooded tracts in Darbhanga and Muzaffarpur Fresh seedlings of rice are being planted where the water has sufficiently subsided The autumn harvest, which is nearly completed, has suffered from excessive rain in some districts and in the flooded tracts in Bihar the outturn will be poor Prices are steady A slight fall is reported from some districts owing to the appearance of new autumn rice in the market Cattle are generally in good condition, except in parts of Noakhali, Tipperah, Dacca, and Faridpur, where want of sufficient fodder is felt Test relief works will again be tried at minimum wages in the affected area in Faridpur and Backergunge, if necessary, test works will also be opened in the Dacca district

North-Western Provinces and Oudh—*For week ending 20th September*—Weather generally cloudy, and rain in most districts The falls were heaviest in the Central and Submontane districts Prospects good everywhere Autumn crops are being reaped, and preparations for the spring sowings are in active progress Supplies ample Prices continue to fall

Punjab—*For week ending 20th September*—Rain fell throughout the Province Ploughing for spring crops commenced Condition of standing crops is generally reported good and prospects average In some districts crops withering for want of rain More rain is wanted in Hissar, Lahore, Shahpur, and Dera Ismail Khan Some autumn crops in parts of Dera Ismail Khan and Rawalpindi have been damaged by insects Cattle are generally reported to be in good condition Fodder sufficient in all districts, except Shahpur, where it is scarce Prices fluctuating in Peshawar, falling in Delhi, Jullundur, Ferozepore, and Amritsar, and stationary elsewhere

Central Provinces—*For week ending 20th September*—Weather generally cloudy with frequent showers of rain Rice has been attacked by rust in one district and by blight in another, other autumn crops are doing well Preparation of land for winter sowings in progress Fodder ample

Burma—*For week ending 16th September*—In Lower Burma the rainfall was ample Transplanting generally is finished, but fields which had been

damaged by floods are now being replanted in Hanthawaddy, Tharrawaddy, and Thongwa, as the floods have partially subsided Standing crops generally are good In Upper Burma rain fell in all districts, and sowing and transplanting of late paddy continue, while early paddy and sesamum are being reaped, and in Myingyan cotton is being picked Crops generally are in good condition, but more rain is required in Shwebo and Yeu, while damage has been done by floods in Kyaukse The price of paddy rose in Rangoon, Tharrawaddy, Pakokku, and Mandalay, and fell in the Upper Chindwin and in the Southern Shan States

Assam —*For week ending 19th September* —Weather seasonable Transplanting of winter paddy over Prospects fair Condition of cattle and supply of fodder normal Water sufficient

Mysore and Coorg —*For week ending 20th September* —MYSORE Rainfall good in parts of Bangalore, Tumkur, Kadur, and Shimoga, slight elsewhere Standing crops withering, except in Hassan, Kadur, and Shimoga Prices stationary Prospects favourable, but more rain is needed

COORG Rainfall moderate Rice and coffee crops continue in good condition Picking of cardamoms in progress Prices stationary Fodder and water for cattle ample

Berar and Hyderabad —*For week ending 20th September* —BERAR Rainfall good Weather cool and cloudy Standing crops in good condition, except in Basim taluka, where the cotton crop has suffered from excessive rain Land being prepared for the ensuing spring crops Weeding operations in progress Fodder and water sufficient Cattle healthy Prices almost steady

HYDERABAD Rainfall moderate Standing autumn crops being spoiled by heavy rainfall Sowing of spring crops continues Prices stationary

Central India —*For week ending 20th September* —Rain general throughout Central India, excessive in Baghelkhand Agricultural operations in progress in all parts Land being prepared for the spring sowings Standing crops good in all parts, except in Baghelkhand and parts of Bhopawar *Jowar* (*Sorghum vulgare*) damaged to some extent in Western Malwa by excessive rain Prices of food grains falling in Gwalior, slightly rising in Bhopal, and steady elsewhere

Rajputana —*For week ending 20th September* —Rainfall generally good throughout Rajputana Standing crops and cattle generally satisfactory, though in some parts damage to crops from excessive rain is reported Pasturage or fodder sufficient Prices falling in six States and steady elsewhere

Kashmir —*For week ending 19th September* —Rainfall moderate Reaping of rice and maize crops commenced Prices stationary

Nepal —*For week ending 16th September* —Slight rain Weather seasonable Upland rice being rapidly harvested Outturn good

3 The Shepherd and Shepherdess, pages 212—216

ELEMENTARY PHYSICS

Ganot	Popular Natural Philosophy, 5th edition, Book I, omitting articles 12, 13, 32—35, 49—52, 56, 61—75 Book II, omitting articles 107—110 Book III, omitting articles 124—131 137—140 Book V, omitting articles 209, 210 221, 222, 235, 240—242, 252 260—265, 268—298, 302 303, 305 Book VI, omitting articles 355, 365—374 376—378, 381—397 Book VII, omitting articles 405, 407—409 Book VIII omitting articles 416, 451—461, 488, 500—508, 511, 512, or the corresponding portions of any subsequent edition

ELEMENTARY CHEMISTRY

Chemistry of the Non-metals as in Remsen's Elements of Chemistry (Latest edition)

BOTANY FOR FEMALE CANDIDATES

Oliver's First Book of Indian Botany, the whole of Part I and Chapter I of part II, *viz*, the Elements of Morphology and Physiology of Flowering Plants, the Principles of their Natural Classification, and the diagnosis and detailed accounts of the following six natural orders —

1 Malvaceæ	4 Urticaceæ
2 Leguminosæ	5 Aroideæ
3 Cucurbitaceæ	6 Gramineæ

LOGIC

(To be notified hereafter)

HISTORY

Smith	Smaller History of Rome
Fyffe	Primer of the History of Greece

MATHEMATICS

Euclid	*Hall and Steven's edition
Asutosh Mukhopadhyay	Geometry of Conics, omitting all the propositions marked with an asterisk

---

B A EXAMINATION, 1895

FRENCH FOR FEMALE CANDIDATES

Pass Course

Racine	Britannicus, edited by E Pellissier (Macmillan and Company)
Fenelon	Adventures de Télémaque, edited by C J Delille, Books I—XII (G Bell and Sons)
Emile de Bonnechose	Lazare Hoche (Cambridge University Press)

Honour Course

(In addition to the subjects for the Pass Course)

Moliere	Le Bourgeois Gentilhomme, edited by G E Fasnacht (Macmillan and Company)

* The notes are to be read as elucidating the text of Euclid, and the additional propositions are to be treated as riders (see Minutes for 1890 91, page 125)

Corneille	Polyeucte, edited by F E Gase (G Bell and Sons)
Racine	Athalie, edited by Gustave Masson (Clarendon Press Series)
Augustin Thierry	Récit des Temps Merovingiens, edited by Gustave Masson, I—III (Cambridge University Press)
Brachet	Historical Grammar of the French Language, translated by G W Kitchin (Clarendon Press Series)

B A EXAMINATION, 1896

ENGLISH

Pass Course

Shakespeare	The Merchant of Venice, Macbeth, King John
Burke	Reflections on the French Revolution
Landor	Selections by Sidney Colvin Nos 7, 9 19, 21, 185—251 (Golden Treasury Series)
Tennyson	The Lady of Shalott, The Palace of Art The Lotos Eaters, Tithonus, the Lord of Burleigh the Voyage, the Brook, Ode on the Death of the Duke of Wellington the Revenge, Demeter and Persephone
Milton	Lycidas, Il Penseroso, L'Allegro
Morley	Life of Burke (Englishmen of Letters Series)

Honour Course

(In addition to the subjects for the Pass Course)

Spenser	Faery Queene, Book II
Sidney	Apology for Poetry
Mathew Arnold	Essays in Criticisms, First Series
Gray	Poems, edited by John Bradshaw (Macmillan & Co)

Permanent subjects

Faile	Philology of the English Tongue
Shaw	Outlines of English Literature

GREEK

Pass Course

Sophocles	Philoctetes, Electra
Demosthenes	De Corona
Æschines	In Ctesiphontem

Honour Course

(In addition to the subjects for the Pass Course)

Thucydides	Book II
Euripides	Bacchæ
Plato	Phædo

Permanent subject

Peile	Primer of Philology

LATIN

Pass Course

Virgil	Georgics, I, II
Livy	Books IV and V
Cicero	Pro Murena

Honour Course

(In addition to the subjects for the Pass Course)

Lucretius	De Rerum Natura, Books I, II
Tacitus	Germania and Agricola
Terence	Adelphi

Permanent Subject

Peile	Primer of Philology

FRENCH

(FOR FEMALE CANDIDATES)

Pass Course

Racine	Britannicus, edited by E Pellissier (Macmillan & Co)
Fenelon	Adventures de Télémaque, edited by C J Delille, Books I—XII (G Bell and Sons)
Emile de Bonnechose	Lazare Hoche (Cambridge University Press)

Honour Course

(In addition to the subjects for the Pass Course)

Moliere	LeBourgeois Gentilhomme, edited by G E Fasnacht (Macmillan & Co)
Corneille	Polyencte, edited by F E Gase (G Bell and Sons)
Racine	Athalie, edited by Gustave Masson (Clarendon Press Series)
Augustin Thierry	Récit des Temps Merovingiens, edited by G Masson, I—III (Cambridge University Press)
Brachet	Historical Grammar of the French language, translated by G W Kitchin (Clarendon Press Series)

HEBREW

Pass Course

Samuel, I and II	Psalms, XC—CL
Chronicles, I and II	Proverbs

Honour Course

(In addition to the subjects for the Pass Course)

Isaiah
Ezekiel
The history of the Hebrew Language and Literature

SANSKRIT

Pass Course

Kálida a	Kumárasambhava, Cantos I—V
Mágha	Sisupálabadha, Cantos I—II
Kálidása	Sakuntalá, text as fixed in Pandit Iswarchandra Vidyásagar's edition

Honour Course

(In addition to the subjects for the Pass Course)

Bhavabhuti	Uttararámcharita
Bháravi	Kirátárjuniya, Cantos, XIII, XIV

Permanent subject

Baradá Rája	Laghukaumudi (Dr Ballantyne's edition, as reprinted by Lazarus & Co, pages 1—282, i e, to the end of Tinanta)

ARABIC

Pass Course

Tarikh i Yamini	The first 50 pages (Delhi edition)
Mustatrif	The first 70 pages (Egyptian edition)
Hamásah	31 pages (Urdu Guide Press)
Diwán i-Mutanabbi	Calcutta edition (pages 283—332), beginning with the Qasidah for Azududdaulah

Honour Course

(In addition to the subjects for the Pass Course)

Maqamat i Hariri	The first half
Tarikh i Timúri	The whole
Hamásah	84 pages from page 32 (Urdu Guide Press)
Banat Suad	The whole

PERSIAN

PASS COURSE

Selections by Shams ul Ulama Maulavi Ahmad

HONOUR COURSE

(In addition to the subjects for the Pass Course)

Aklak-i-Jalali	The whole
Hafiz	From the beginning up to the end of Radifi Dal (Urdu Guide Press)
Wakai-i-Niamat Khan-i Ali	The last half
Masnaviyat of Maulana Rumi	From the beginning up to the story of Bazangan and Tuti

PALI.

PASS COURSE.

Kaccáyana	Pali Grammar (Senart's edition).
Trenckner's Milinda Panha	

HONOUR COURSE

(In addition to the subjects for the Pass Course)

Childers	Mahaparinibbanasutta
Whitney	Language and the study of Language

MENTAL AND MORAL SCIENCE

(To be notified hereafter)

MATHEMATICS

PASS COURSE

Loney	Elements of Statics and Dynamics
Maxwell	Matter and Motion, Chapter III and articles 96, 97
Besant	Elementary Hydrostatics, 14th edition, Chapters I—VII (omitting articles 93, 102, 104, 111—121) and Chapter VIII, articles 133—140, or the corresponding portions of the 15th edition

(Or the corresponding portions of S B Mukerjee's Elementary Hydrostatics)

HONOUR COURSE

Loney	Elements of Statics and Dynamics
Maxwell	Matter and Motion
Besant	Elementary Hydrostatics, 14th edition, Chapters I—VII (omitting articles 93, 102, 104, 111—121), and Chapter VIII articles 133—140, or the corresponding portions of the 15th edition

(Or the corresponding portions of S B Mukerjee's Elementary Hydrostatics)

Salmon	Conic Section (6th edition), Chapters I- III, V—VIII, to the end of article 116, and X—XIII
Williamson	Differential Calculus (6th edition), Chapters I—V, IX, XI—XVIII
Todhunter	Integral Calculus Chapters I—VII

(Or the corresponding portions of Williamson's Integral Calculus)

HISTORY

PASS COURSE

History of England

Greene	Short History of the English People

History of India

Elphinstone	History of India (Hindu and Muhammadan Periods)
Wheeler	Short History of India (British Period only)

Histories of Greece and Rome

Smith	Student's History of Greece
Liddell	Student's History of Rome

Political Economy

Fawcett	Manual of Political Economy

HONOUR COURSE

(In addition to the subjects for the Pass Course)

Capes	The Early Empire
Capes	The Age of Autonines
Bagehot	The English Constitution
Mill	Political Economy

PHYSICS AND CHEMISTRY

PASS COURSE

Deschanel	Elementary Treatise on Natural Philosophy
Kolbe	Inorganic Chemistry, translated by Humpidge

PHYSICS, CHEMISTRY, AND THE DOCTRINE OF SCIENTIFIC METHOD

HONOUR COURSE

Deschanel	Elementary Treatise on Natural Philosophy
S P Thompson	Elementary Lessons on Electricity and Magnetism
Tait	Heat

Frankland and Japp	Inorganic Chemistry (Edition 1884), omitting all the sections printed in small type, and all the parts relating to the following elements —Zirconium, Thorium, Niobium, Tantalum, Beryllium, Palladium, Indium, Rhodium, Osmium, Ruthenium, Norwegium, Cerium, Didymium, Lanthanum, Yttrium, Erbium, Terbium, Scandium, Samarium, and Decipium
Remsen	Organic Chemistry
Jones	Junior Course in Practical Chemistry
Jevons	Principles of Science, 2nd edition (omitting Books I and II)

BIOLOGY

PHYSIOLOGY AND BOTANY

Pass Course

Huxley	Elementary Lessons in Physiology
Huxley and Martin	Practical Biology
Prantl and Vines	Text book of Botany
Oliver	First Book of Indian Botany

PHYSIOLOGY AND ZOOLOGY

Pass Course

Huxley	Elementary Lessons in Physiology
Huxley and Martin	Practical Biology
Claus Sedgwick	Elementary Text-book of Zoology, Vol I, General Part and Special Part, Protozoa to Insecta, Vol II Special Part, Mollusca to Man

PHYSIOLOGY, BOTANY, ZOOLOGY, AND THE DOCTRINE OF SCIENTIFIC METHOD

Honour Course

Huxley	Elementary Lessons in Physiology
Huxley and Martin	Practical Biology
Foster	Text book of Physiology, last edition, omitting the last part (Supplementary)
Prantl and Vines	Text-book of Botany
Oliver	First Book of Indian Botany
Henfrey	Elementary Course of Botany
Vines	Lectures on the Physiology of Plants
Claus-Sedgwick	Elementary Text book of Zoology, Vol I, General Part and Special Part, Protoza to Insecta, Vol II Special Part, Mollusca to Man
Huxley	Comparative Anatomy of the Vertebrata
Huxley	Comparative Anatomy of the Invertebrata
Jevons	Principles of Science, 2nd edition (omitting Books I and II)

GEOLOGY

GEOLOGY AND PHYSICAL GEOGRAPHY

Pass Course

Geikie	Class Book of Geology
Judd	Volcanoes
Mill	The Realm of Nature (University Extension Manuals)
Oldham	Manual of the Geology of India
Cole	Aids to Practical Geology

GEOLOGY AND MINERALOGY

Pass Course

Geikie	Class-book of Geology
Rutley	Rock forming Minerals
Cole	Aids to Practical Geology
Rutley	Mineralogy
Oldham	Manual of the Geology of India

GEOLOGY, MINERALOGY, PHYSICAL GEOGRAPHY, AND THE DOCTRINE OF SCIENTIFIC METHOD

Honour Course

Geikie	Text book of Geology
Rutley	Rock forming Minerals
Cole	Aids to Practical Geology
Geikie	Atlas of Physical Geography
Judd	Volcanoes.

Mill	The Realm of Nature
Rutley	Mineralogy
Jevons	Principles of Science, 2nd edition, omitting Books I and II
Oldham	Manual of the Geology of India

M A EXAMINATION, 1895 AND 1896

NATURAL AND PHYSICAL SCIENCE

A —CHEMISTRY

Roscoe and Schorlemmer	Treatise on Chemistry, Vols I and II, Parts I and II
Richter	Organic Chemistry, translated by Smith The portions in large type to be considered of special importance, and the portions in small type of subsidiary importance, and of these portions only a general knowledge to be required
Frankland	Lecture Notes for Chemical Students—Vol II, Organic Chemistry
Valentin	Qualitative Chemical Analysis
Thorpe	Quantitative Chemical Analysis
Meyer	Outlines of Theoretical Chemistry

M A EXAMINATION, 1895

B —HEAT, ELECTRICITY AND MAGNETISM AS PRINCIPAL SUBJECTS, WITH LIGHT AND SOUND AS SUBSIDIARY SUBJECTS

Principal Subjects

Maxwell's Electricity and Magnetism 2nd Edition	Vol I—Preliminary—1 17 19, 21 24 Part I—Chapter—I, 11—63 77, 80—end, III, IV—95a 96a, 98 99b, 101a 101d V, VI, VII, VIII, XI—155-164, XIII Part II—Chapters I II, III IV V, VI, IX—315 318, X—325 327, 331 334, XI, XII Vol II Part III—Chapters I, 371 386 389 390, 393 394, II, III—407, 416, 423, IV, V—437 441, VI, VII—449-451, 453, 455 464, VIII, 465 Part IV—Chapters I II, III, IV V, VI, VII, VIII—585-598 602-603, IX—604-617, X, XI, XIII—682-688, XV—721 729, XVI—730 749, XVII, XVIII—758 761, 763-767, XIX—768-778, 780, XX, XXI—806 821, 831, XXII
Faraday	Experimental Researches in Electricity, Vol I
Clausius	Mechanical Theory of Heat
Maxwell	Theory of Heat, 5th edition, omitting pages 195—208
Fourier	Theory of Heat, Chapters I and II
Stewart and Gee	Practical Physics, Vol II
Glazebrook and Shaw	Practical Physics, Chapters VIII—XIII (omitting section 31)

Subsidiary Subjects

Daniell	Text-book of the Principles of Physics, 1st edition, Chap V, pages 74—133, Chaps XIV and XV, or corresponding chapters of 2nd edition

C —LIGHT AND SOUND AS PRINCIPAL SUBJECTS, WITH HEAT, ELECTRICITY AND MAGNETISM AS SUBSIDIARY SUBJECTS

Principal Subjects

Preston	Theory of Light
Heath	Elementary Treatise on Geometrical Optics
Helmholtz	Sensations of Tone, Introduction, and Chapters I—VIII
Everett	Vibratory Motion and Sound
Donkin	Acoustics, omitting Appendix to Chapter IV, Appendix to Chapter VI, and articles 125, 131—135, 138—155, 162—214
Glazebrook and Shaw	Practical Physics, Chapters VIII—XX

Subsidiary Subjects

Daniell	Text book of the Principles of Physics, Chapters VII, XIII and XVI, 1st edition, or corresponding chapters of the 2nd edition

---

M A EXAMINATION, 1895
MENTAL AND MORAL SCIENCE.
(To be notified hereafter)

M A EXAMINATION, 1896
ENGLISH

Chaucer	Prologue and Knight's Tale
Shakespeare	Henry IV, Parts I and II, Twelfth Night, Cymbeline
Shakespeare and Fletcher	Two Noble Kinsmen
Milton	Paradise Lost, Books X, XI, XII
Dryden	Absalom and Achitophel, Annus Mirabilis, Astraea Redux (Christie's Selections, Clarendon Press Series)
Taylor	Philip Van Artevelde
Milton	Areopagitica
Carlyle	On Heroes
Bacon	Advancement of Learning, Books I and II
George Eliot	Silas Marner
Morley	On the Study of Literature
Holmes	Autocrat of the Breakfast Table

Permanent subjects

Morris	Historical Outlines of English Accidence
Smith	Student's Manual of the English Language
Taine	History of English Literature, translated by Van Laun
Dowden	Shakespeare, a critical study of his Mind and Art
Sweet	Anglo-Saxon Primer
Sayce	Introduction to the Science of Language.

GREEK

Homer	Iliad Books I—XII
Pindar	The whole
Æschylus	Prometheus, Agamemnon, Eumenides
Sophocles	Œdipus Tyrannus, Ajax, Antigone
Euripides	Hecuba, Medea, Ion
Aristophanes	Knights, Clouds, Frogs, Birds
Herodotus	Books II and III to the end of Chap LXVI
Thucydides	Books VI, VII, VIII
Demosthenes	Orations against Leptines and Meidias, De Falsa Legatione
Plato	Republic, Theætetus
Aristotle	Politics

Permanent Subjects.

Savce	Introduction to the Science of Language
Mahaffy	History of Classical Greek Literature

Also passages from authors not prescribed beforehand to be translated into English

LATIN

Virgil	Bucolics (with the exception of II), Georgics, Æneid, Books I—VI
Horace	Odes, Epodes, Satires I (with the exception of 2 and 8), Epistles, I, De Arte Poetica
Juvenal	Satires (except II, VI, and IX)
Persius	Satires
Lucretius	Books, I V, and VI
Catullus	1, 2, 3, 4, 9 12, 22, 30, 31, 46, 49, 51, 63, 64, 65, 66
Plautus	Aulularia, Trinummus
Terence	Andria, Heauton Timoroumenos
Livy	Books XXI—XXV
Sallust	Bellum Catilinarium, Bellum Jugurthinum
Cicero	Second Philippic, De Natura Deorum
Tacitus	Histories

Permanent Subjects

Savce	Introduction to the Science of Language
Cruttwell	History of Roman Literature.

Also passages from authors not prescribed beforehand to be translated into English

HEBREW

Isaiah	Job
Jeremiah	Ecclesiastes
Ezekiel	Song of Solomon
The Minor Prophets	Daniel
Psalms	Ezra
Proverbs	Nehemiah

Permanent Subjects

Robertson Smith	Old Testament in the Jewish Church
Davidson	Introduction to the Old Testament
Ewald	History and Antiquities of Israel
Sayce	Introduction to the Science of Language

SANSKRIT

Kalidása	Vikramorvasi
Kálidása	Meghadúta
Bhavabhuti	Mahávíracharita
Sudraka	Mrichchhakatika
Visákhadatta	Mudrá Rákshasa
Bánabhatta	Kádambari Purvabhága
Vyása and Sánkara	Vedánta Sutra and Bháshya, first four Sutras of the 1st Adhayáya, and 1st and 2nd Pádas of the 2nd Adhyáya
Gotama and Visvanátha	Nyaya Sútra and Vritti, Chapters I—IV
Váchaspati Misra	Tattva Kaumudi
Upanishad	Katha, with Sankara Bháshya
Rigveda	Hymns from the Rigveda Sanhita, edited by P Peterson
Vyása	Bhagavadgítá
Pánini	Vaidika Prakriyá, Káraka and Samása, as contained in Siddhánta Kaumudi
Manu	Sanhitá (the whole)
Mammata Bhatta	Kávya Prakása

Permanent Subjects

Max Muller	Science of Language, Vols I—II
Muir	Sanskrit Texts, Vol V

Students may take up the Inscriptions of Asoka instead of one of the following groups —

GROUP I

Nyáya Sútra and Vritti (limited as above)

GROUP II

Tattva Kaumudi and Vedánta Sútra (limited as above)

PALI

Anuruddha	Abhidhammatthasangaha
Theragāthā	The Ekanipāta, Dukanipāta and Tikanipāta
Anguttara nikāya	The Balavagga, Rathakaravagga, Pugalavagga, and Devadūtavagga of the Tikanipáta
Mahāvamsa	The first five chapters (parichchhedas) Turnour's or Sumangala's Edition
Jātakas	Fausboll's Edition, Vol II, Dalhavagga, Santhavagga, Kalyānadhammavagga
Kaccāyana	Pali Grammar (Senart's Edition)
Mahāparinibbanasutta	(Childer's Edition)
Dhammapada	The first Bhānavāram (pathamakabhānavāram) with Fausboll's Extracts from Buddha Ghosa's Commentary for this portion of the text
Burnouf	Introduction á l' histoire du Buddhisme Indien
Spence Hardy	Manual of Buddhism
Weber	History of Indian Literature
Bigandet	Legends of Gaudama

ARABIC

Prose

Moquddamai-i Ibn Khaladûn	Fifty pages
Maqamát i Hariri	The second half,

Poetry

Hamásah	The whole
Diwán i Mutanabbi	
Sabai Muallaqah	

PERSIAN

Prose

Munshi Muhammad Mahdi	Durrai Nádirah
Shíms-uddin Faqír	Hadáiq-ul-Balághát
Saifi	Uruz
Abu'l Fazl	Akbarnámah, Vol I
Inshai Abu'l Fazl	First Daftar
Jámi	Qawafl.

Poetry

Kháqáni	Qasáid
Khusrau	Qiránu-Sádain
Ferdausi	Selections from the Sháhnamáh by Colonel Jarrett, Calcutta, 1880
Hakím Sená	Hadíqah
Sáib	Díwán
Habib Qááni	Qasáid, first half

Candidates are also required to possess a knowledge of Arabic to the extent laid down in the course for the First Examination in Arts

HISTORY

(To be notified hereafter)

MATHEMATICS

(To be notified hereafter)

NATURAL AND PHYSICAL SCIENCE

D —BOTANY

Asa Gray	Structural Botany
Sachs	Text-book of Botany (translated by Bennet and Dyer)
Balfour	Palæontological Botany
Roxburgh	Flora Indica, Clarke's Edition (for reference in identifying Indian plants)
Sachs	Physiology of Plants, translated by Ward (1887)
Bower	Practical Botany

E —PHYSIOLOGY AND ZOOLOGY

Gegenbauer	Elements of Comparative Anatomy, translated by Bell
Gamgee	Physiological Chemistry of the Animal Body
Claus-Sedgwick	Text-book of Zoology
Balfour	Comparative Embryology
Darwin	Origin of Species

Geikie	Text book of Geology
Nicholson and Lydekker	Palæontology
Oldham	Manual of the Geology of India
Dana	Text-book of Mineralogy
Rutley	The Study of Rocks

(2) The Sanskrit Course prescribed for the Entrance examination of 1895 has been reduced by the omission of the last five chapters of the *Ramáyana*, beginning "स्वस्तु विषयस्त्री वा &c," to the end, and the following objectionable passages have been omitted from the Course —

(*a*) Hitopadesa, page 10, stanza beginning "नदीनां शस्त्र पाणीनां &c"

(*b*) " " 15, " " "आपदर्थे धनं &c"

(*c*) Sabitriupakhyan, page 88, old edition, and page 68, new edition, sloka No 30

(3) The selections headed "Child Marriage" and "Widowhood" (pp 34—41) have been omitted from the Bengali Selections prescribed for the Entrance examination of 1895

(4) In the list of text books prescribed for the F A examination of 1895, the following has been substituted for Taylor's Elementary Geometry of Conics —

"Asutosh Mukhopadhyay Geometry of Conics, omitting all the propositions marked with an asterisk"

(5) At the B A examination for Honours in Physics and Chemistry, the practical examination in Chemistry will be held only in Calcutta Candidates who take up the Honour Course in those subjects must present themselves for examination in Calcutta

SENATE HOUSE,
The 15th September 1893

W GRIFFITHS,
Registrar

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

PATENTS

Calcutta, the 21st September 1893

NOTIFICATIONS

No 2216 P—Applications in respect of the under mentioned inventions have been filed, during the week ending the 16th September 1893, under the provisions of Act V of 1888, in the Office of the Secretary appointed under the Inventions and Designs Act, 1888 —

No 256 of 1893—Henry Vander Weydé, of 182 Regent Street, London W, England Artist and Electric Light Photographer, for improvements in block ice

No 257 of 1893—Charles Hartley Clements, once a signaller in the Government Telegraph Department and a Mechanic in the Sind Railway Workshops, but now Pleader, Hyderabad District, Hyderabad, Sind, for expediting of Telegraphic Messages

No 258 of 1893—W Bull Civil Engineer, Calcutta, for an improved method of causing the draught in continuous kilns

No 259 of 1893—David Laurin Kellogg Calderwood, Extra Assistant Conservator of Forests in Gangaw Sub division, Upper Burma, for repeating firearms of all descriptions, such as revolvers, rifles, etc

No 260 of 1893—Albert Henry Bristow, an Engineer in the employ of Messrs T E Thomson and Co, Ld, residing at 89, South Road Entally, in the City of Calcutta, for pressing jute, hide, cotton, etc, by hand power, by means of screws and wheels fixed in such a way as to ensure the maximum power with a minimum cost of labour and a safeguard against breakage and damage

No 261 of 1893—John Horace O'Brien, of East St Kilda, in the Colony of Victoria, Mechanic, for an improved locknut and bolt

No 262 of 1893—Rudolf Bammann, of 21, Gneisenau Strasse, of Berlin, in the Kingdom of Prussia, German Empire, Plasterer, for composition for the production of marble like plaster

No 263 of 1893—Frederic Eliot Duckham, of Millwall Docks London, England, Civil Engineer for improvements in apparatus for the pneumatic conveyance of grain and other matters and for separating dust from air laden therewith

No 2217 P—Specifications of the under-mentioned inventions have been filed, under the provisions of Act V of 1888, in the Office of the Secretary appointed under the Inventions and Designs Act, 1888 Copies have been sent to the Governments of Fort St George and Bombay, the Chief Commissioner of Burma, and the Director, Department of Land Records and Agriculture, North Western Provinces and Oudh

A copy of every specification is open to public inspection, from 11 A M to 4 P M, at the Office of the Secretary appointed under the Inventions and Designs Act, 1888, in the Imperial Secretariat Buildings, Government Place, West, Calcutta, upon payment of a fee of one Rupee A certified copy of any specification will be given to any person requiring the same on payment of the expense of copying —

No 130 of 1892 —George Henry List, M Inst C E, Superintending Engineer, Public Works Department, Railway Branch, and Superintendent of Way and Works, North-Western Railway, Lahore, Punjab and Peter Ross, Sub Conductor, Sub Engineer, Public Works Department Railway Branch, and Sub Divisional Officer, North Western Railway, Lahore, for securing the simple working and bolt locking of facing points on railways, to be called "Improved single lever method of working and bolting points" (Filed 12th May 1893)

No 10 of 1893 —James Walter Champion Stevens, General Agent, residing at 47, Elliot Road, Calcutta, for a revolving table which is so constructed as to be suitable for advertising purposes, which may be called "The Stevens advertising Table" (Filed 7th September 1893)

No 111 of 1893 —Samson Fox, Civil Engineer, of the Leeds Forge, New Wortley, Leeds, in the County of York, England, for improvements in the manufacture of axle boxes and in apparatus for the purpose (Filed 4th September 1893)

No 213 of 1893 —George Washington Smiley, Gentleman and Forest William Dunlap, Engineer both of 26, Coventry Street, London, W, England, for improvements in wheels for bicycles and other vehicles (Filed 5th September 1893)

No 2218 P —The fee prescribed in Schedule 4 of Act V of 1888 has been paid for the continuance of exclusive privilege during the period 12th September 1893 to 11th September 1894 in respect of the under-mentioned invention —

No 124 of 1889 —Niels Georg Sörensen, of Stockholm, in the Kingdom of Sweden, Merchant for improvements in door and other locks

---

No 2219 P —Whereas the inventors of the under mentioned inventions have respectively failed to pay within the time limited in that behalf by the Fourth Schedule to the Inventions and Designs Act (V of 1888) [or within the further time allowed under section 8, sub-section (4) of the said Act] the fee hereinafter mentioned, it is hereby notified that under the provisions of section 8, sub section (2) of the said Act the exclusive privilege of making, selling and using the said inventions in British India and of authorising others so to do has ceased —

No 158 of 1888 —Mr J Lawrence's invention for new or improved device for stopping leakage in hose and other pipes (Specification filed 12th June 1889)

No 11 of 1889 —Mr L Keyling s invention for process and apparatus for producing shot or spheres of fragments or pieces of iron, steel and metal (Specification filed 14th June 1889)

Fee in respect of the continuance of an exclusive privilege—

(a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof

The sum of R50 for each of the said inventions

NOTICES

Applications and all communications relating to the Inventions and Designs Act, 1888, should e placed under cover addressed "Secretary to the Government of India, Revenue and Agricul-ural Department (PATENTS BRANCH), CALCUTTA"

The Office of the Secretary under the Inventions and Designs Act, 1888, is open for the ransaction of business on all days (except Sundays and Gazetted Holidays) from 11 A M to 4 P M

Applications for the registration of Trade Marks as "Designs" under Part II of the "Inven ons and Designs Act (V of 1888)" are frequently received in the Office of the Secretary appointed nder the said Act It is hereby notified for general information that the Government of India re advised that Trade Marks are not "Designs" within the meaning of the said Act, and, there-ore, are not capable of such registration

W H WILKINS, *Colonel, S C,*
Secretary under the Inventions and Designs Act, 1888.

জ্বরঘ্ন সিন্‌কোনার মূল্য কম করণ।

১৮৯১ সালের এপ্রেল মাসের ১লা তারিখ অবধি যাবৎ অন্য আজ্ঞা না হয় তাবৎ কলিকাতার বোটানিকেল গার্ডেনের অর্থাৎ কোম্পানির বাগানের সুপারিন্টেণ্ডেণ্টের নিকট গবর্ণমেন্টের কর্ম্মচারিগণ এবং অপর কোন ব্যক্তি এক কালীন দশ পোণ্ড ক্রয় করিলে নিম্নলিখিত হিসাবে জ্বরঘ্ন সিনকোনা পাইবেন অর্থাৎ চারি ঔন্স টিন ২। টাকায় আট ঔন্স টিন ৫, টাকায় ও এক পোণ্ড টিন ১০ টাকায় পাইবেন। সর্ব্ব সাধারণে কোম্পানির বাগানের সুপারিন্টেণ্ডেণ্টের নিকট নগদ মূল্য দিলে এই এই হিসাবে অর্থাৎ চারি ঔন্স টিন ৩ টাকায় আট ঔন্স টিন ৬ টাকায় এবং এক পোণ্ড টিন ১২, টাকায় পাইতে পারিবেন। কলিকাতায় প্রধান প্রধান ইউরোপীয় ও দেশীয় ঔষধ বিক্রেতাগণও এই ঔষধ বিক্রয় করিয়া থাকেন। উপরোক্ত দর ছাড়া চারি ঔন্স টিনের ৷ আট ঔন্স টিনের ৷ ও এক পোণ্ড টিনের ৷৵ ডাক মাশুল দিতে হইবে।

PURE SULPHATE OF QUININE

Manufactured at the Bengal Government Cinchona Plantation

The price of this Quinine is as follows —

1 Pound tin, R16, or, post free, R16 12
½ „ R 8, „ R 8-8
¼ „ R 4, „ R 4-8

Analysis shows this Quinine to be of the purest manufacture, and it is guaranteed to be free from wilful mixture with the inferior alkaloids Cinchonine and Cinchonidine It is for sale only to Government officers and only for cash, and may be had from the Superintendent, Botanic Garden, Seebpore, near Calcutta It can be had either white or coloured pink

বঙ্গদেশের গবর্ণমেণ্টের সিনকোনা আবাদে প্রস্তুত বিশুদ্ধ কুইনাইন।

এই কুইনাইনের নিম্নলিখিত মূল্য যথা—

১ এক পোণ্ড টিন ১৬, বা ডাকমাশুল বিনা ১৬৸
৷ আধ ৮, বা ডাকমাশুল বিনা ৮৷
সিকি ৪, বা ডাকমাশুল বিনা ৪৷

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধরূপে প্রস্তুত করা হইয়াছে। এবং ইহা যে সিন্‌কোনাইন ও সিনকোনীডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছা পূর্ব্বক মিশান হয় নাই তাহার গারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারিগণের নিকট বিক্রয় করা যাইবে এবং কলিকাতার নিকটস্থ শিবপুরের কোম্পানির বাগানের সুপারিণ্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারিবে। ইহা শাদা বা পাটল বর্ণের পাওয়া যাইতে পার্‍ ‍।

REVENUE DEPARTMENT

[*Revised Advertisement*]

A Dictionary of the Economic Products of India

By DR GEO WATT C I E,

Reporter on Economic Products

Published under the authority of the Government of India in the Revenue and Agricultural Department

The first five volumes and Volume VI, Parts I, II, and III, of the Dictionary are now ready at the Office of Superintendent of Government Printing No 8 Hastings Street Calcutta and will be supplied to non subscribers on receipt of the price for the complete set which is R45 in India and 3 guineas in England (exclusive of the Index for which a separate charge will be made) packing and postage in India 8 annas per volume, for England, 2 rupees 6 annas per volume For copies bound in half calf or half morocco R6 and 8 shillings respectively will be charged extra for the whole set

The Dictionary is intended to deal with the products of India—animal vegetable and mineral each product being treated after a uniform plan the paragraphs of which give the scientific vernacular and European names habitat or source history properties and uses (both chemical and industrial) trade statistics markets etc The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks and with a reference to the original publication Numerous contributors have however furnished the results of new discoveries and confirmed the vernacular names so that the Dictionary is not only a complete compilation of published information but has been brought abreast of the most recent inventions and discoveries

Volume I contains the letters A and B and consists of 559 royal octavo pages Volume II embraces the letter C in 689 pages Volume III contain the letters D E F and half of G Volume IV latter half of G to middle of L and Volume V contains the latter half of L to end of O Vol VI (which will consist of four parts) Part I contains letters P to R The whole work will it is expected be completed in nine volumes (including Parts II to IV of Vol VI) during the current year but a tenth volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary The Index will practically be a glossary of the vernacular and European names of the plants animals and minerals of India and as such will be a work of reference, which it is hoped, may prove of considerable value

2 In the case of officers entitled to draw the rates of pay of the Imperial Service, the present organisation of the grades and the pay are modified as shown below

Present organisation and pay		Monthly pay Rs	Organisation and pay as now sanctioned	Monthly pay Rs.
Executive Engineer 1st grade		950	Executive Engineer 1st grade	1 000
2nd		800	2nd	850
3rd		700	3rd	700
4th		600	Assistant Engineer 1st	550
Assistant Engineer 1st		500	2nd ,	450
2nd	350 rising to 400 after 3 years		3rd	350
3rd		250	Ungraded—old 3rd grade (will eventually disappear)	250

Officers in the present 3rd grade of Assistant Engineers will remain so graded, being denominated as "*old 3rd grade*" until they rise, in accordance with the present rules, to the new 3rd grade (old 2nd grade) Apprentice Engineers now in the Department, or entering it under the guarantee of 1884,* and not under the Provincial Service rules published in Resolution No 2112 G, dated 19th July 1892, will rise in accordance with present rules to the old 3rd grade of Assistant Engineers, and thence to new 3rd grade (old 2nd grade)

NOTE —Apprentice Engineers appointed to the Provincial service under the above quoted Resolution will be promoted under the rules of that Resolution to the 3rd Assistant grade of the Provincial establishment the latter establishment being modified as indicated in paragraph 7 of this Resolution

3 The increased rates of pay in the 1st and 2nd Executive grades will apply from 16th August 1893 to all members of the establishment in these grades or promoted to them The reduced rates in the 1st, 2nd, and 3rd Assistant grades will apply to officers entitled to draw the Imperial rates of pay only in the case of those who have not entered the Colleges for their course of training before the issue of these orders Others will continue to draw the present rates of Rs 600, Rs 500, and Rs 350 rising to Rs 400 after three years' approved service if not promoted at the end of three years

NOTE —No officer passed over for promotion to the new 2nd grade of Assistant can draw the increment

4 The following table compares the present and future staff scale of pay under these orders to be drawn by Royal Engineer officers who draw the staff scale of pay The lower rates in the three Assistant grades will apply only to those who elect for the staff scale after the publication of these orders

Staff scale of pay

PRESENT				FUTURE		
Grades		Staff in addition to Military pay	Maximum	Grades	Staff in addition to Military pay	Maximum
		Rs	Rs		Rs	Rs.
Executive Engineer	1st grade	600	1 250	Executive Engineer, 1st grade	600	1,250
"	2nd	500	900	, 2nd	500	900
,	3rd	450	800	3rd	450	800
,	4th	350	650	Assistant Engineer, 1st ,	300	600
Assistant Engineer	1st	300	550	" " 2nd "	250	500
,	2nd after 3 years approved service	250	500	, 3rd "	200	450
	2nd grade, for the first three years of service	200	450			

* Resolution No 1443 G dated 13th December 1884.

5 An officer who is substantively, or substantively for a time, in the present 4th Executive grade, although he may be graded as an Assistant Engineer, 1st grade, under the new organisation, may with the special sanction of the Local Government retain his present denomination, and may continue to draw travelling allowance as an Executive Engineer Such officers will appear in the classified list as "Executive Engineers, old 4th grade," until promoted to the 3rd grade

6 Promotions shall be made from grade to grade and class to class under the following rules, subject to the present rules regarding recommendation and selection of the officers most deserving of promotion—

(1) A cadre number shall be laid down from time to time for each list on which promotions are made The distribution of this number over the six grades shall be apportioned as follows —

The number in the 1st Executive grade shall not exceed 25 per cent of the cadre number

The number in the 1st and 2nd Executive grades together shall not exceed 40 per cent of the cadre number

The number in the 1st, 2nd, and 3rd Executive grades together shall not exceed 50 per cent of the cadre number

The number in the 1st, 2nd, and 3rd Executive grades and 1st Assistant Engineer grade shall not exceed 70 per cent of the cadre number

The number in the 1st, 2nd, and 3rd Executive grades and 1st and 2nd Assistant Engineer grades shall not exceed 85 per cent of the cadre number

The balance of the staff shall be either in the Assistant Engineer, 3rd grade, or shall remain nominally in the 3rd Assistant grade of the present organisation, according to the rules to which they are subject (see paragraph 2)

NOTE —The old 3rd grade of Assistant Engineer will disappear as soon as all present incumbents and the apprentices under the guarantee of 1884 have been promoted to the new 3rd grade of Assistant Engineers

(2) The scale, framed as above, shall be the limiting scale within and up to which promotions can be made, provided that the officers selected for permanent promotion fulfil the conditions of the following time rule

	Rs	
Officers shall be eligible for promotion to Assistant Engineer 2nd grade	450	On completing three years' service from date of entering the new 3rd grade (old 2nd grade) of Assistant Engineer
Officers shall be eligible for promotion to Assistant Engineer, 1st grade	550	On completing 3½ years in the 2nd grade, or 6½ from date of entering the 3rd grade of Assistant Engineer
Officers shall be eligible for promotion to Executive Engineer, 3rd grade	700	On completing 4½ years in the 1st grade, or 11 years from date of entering the 3rd grade of Assistant Engineer
Officers shall be eligible for promotion to Executive Engineer, 2nd grade	850	On completing 3½ years in the 3rd grade of Executive Engineer or 14½ years from date of entering the 3rd grade of Assistant Engineer
Officers shall be eligible for promotion to Executive Engineer, 1st grade	1,000	On completing 4½ years in the 2nd grade of Executive Engineer, or 19 years from date of entering the 3rd grade of Assistant Engineer

NOTE —In the case of officers who entered the Department above the rank of Assistant Engineer, 2nd grade (old organisation) an equitable allowance shall be made if necessary in estimating their title to promotion under this rule, which will ordinarily be the time period in each grade according to the above standard

(3) If, however, an officer eligible for promotion under the time rule is not promoted for any reason, such as not being recommended or being otherwise superseded, for each officer so passed over another officer may be promoted within the measure of the limiting scale of clause (1)

The result of this rule will be that the actual scale will be the same as if all the officers eligible were promoted, so far as the limiting scale permits

Under this rule any officer not qualified by length of service may be promoted in place of an officer who is eligible by the time rule, but not equally eligible with the former under the rule of selection

(4) Officers on deputation for periods exceeding six months, provided they are absentees as defined in Articles 110 and 111, Civil Service Regulations, shall not be counted against the scale, but may be promoted, if recommended and considered deserving under the rules, *pari passu* with their contemporaries (juniors) on the Government list Officers promoted sub *pro tem* to the Superintending Engineer class, or other corresponding posts in the place of officers who are similarly on deputation, shall be dealt with in the same way, and permanent promotions made in their places if the scale and time rule admit Such officers on return to Government service, or on reverting from the Superintending Engineer class shall be absorbed in the grades to which they belong on the occurrence of the first vacancy

(5) Excesses over and above the limiting scale of clause (1), which may be found to exist in certain of the lower grades above the 3rd Assistant Engineer grade, after carrying out promotions in accordance with the above rules shall be absorbed by refraining from promoting officers until the excesses disappear Excesses in the 3rd Assistant grade caused by the promotion or appointment of officers to that grade under the ordinary rules are permissible Such officers, as well as the ungraded officers below the 3rd grade who are in excess of the total cadre, if any, will be considered as supernumeraries

7 Officers of the Provincial establishment appointed under the rules contained in Resolution No 2112 G, dated 19th July 1892 will be graded with the officers of the Imperial establishment in accordance with clause VI, paragraph 1, of that Resolution, and will be promoted, subject to the present rules regarding recommendation and selection, side by side with the officers of the Imperial establishment in accordance with the scale and time rule laid down in clauses (1) and (2), paragraph 6, of this Resolution They will draw the rates of pay laid down in clause II of the Resolution of 19th July 1892 quoted above The arrangement of the grades will, however, be modified in accordance with the terms of this Resolution, and will stand as follows

			Pay Rs
Executive	Engineer	1st grade	650
"	"	2nd "	550
"	"	3rd "	475
Assistant	Engineer,	1st "	400
"	"	2nd "	350
"	"	3rd "	250

8 Temporary promotions on account of officers absent on furlough, or temporarily promoted to the Superintending Engineer class for officers so absent, will be made, in accordance with present rules from the Assistant Engineer, 1st grade, to the Executive Engineer, 3rd grade The time limit in clause (2) of paragraph 6 will not apply to such promotions

9 The following are the cadre numbers and limiting scale for each list calculated in accordance with clause (1) of paragraph 6

	Cadre No	LIMITING SCALE					
		Executive Engineers			Assistant Engineers		
		1st	2nd	3rd	1st	2nd	3rd
Madras	72	18	11	7	14	11	11
Bombay	78	19	12	8	16	11	12
Bengal	56	14	8	6	11	9	8
North Western Provinces and Oudh	86*	21	13	9	17	13	13
Punjab	112†	28	17	11	22	17	17
Local Administrations	130	32	20	13	26	19	20
Railways	196	49	29	20	39	30	29

* 37 for Buildings and Roads Branch and 49 for Irrigation Branch } This distribution may however, be modified by the Local Government

† 44 " 68

It should be carefully borne in mind that promotions cannot be made up to the full limit of this scale unless the officers are either eligible for the promotion under the time rule (clause (2) of paragraph 6), or are promoted in place of other officers eligible under the time rule, but of inferior merit (clause (3) of the same paragraph)

The above cadre numbers and scale shall take effect from the 16th August 1893, and shall regulate the promotion on each list up to the end of 1894, provided that, should the strength of any list be reduced within that period by transfers and retirements to such an extent that the difference between its actual strength and the cadre number equals or exceeds 10 per cent of the latter, then the cadre number and corresponding scale shall be reconsidered with reference to the existing strength At the end of 1894 all the cadre numbers will be subject to reconsideration

10 Under the orders of Her Majesty's Secretary of State for India, the rules for the organisation of the Engineer establishment now promulgated are to be subject to revision at the end of seven years

11 The condition in the rule of the Public Works Code, Vol I, Chapter 1, paragraph 11, according to which the increments of Rs 50 each at the end of four and eight years service respectively in the Executive Engineer, 1st grade, can be claimed on account of satisfactory service only if the officer consents to forego all claims to promotion to the Superintending Engineer class, is hereby abrogated In future, subject to the present condition of approved service, the increments may be granted to any officer in the Executive Engineer, 1st grade, on completion of the prescribed periods of service in that grade Any officer who has completed eight years' continuous and efficient service in the 1st grade may be granted the two increments of Rs 50 each from the 16th August last, in addition to the pay of the 1st grade now sanctioned, if he has not already drawn the first increment, and the second increment, if he has already drawn the first, notwithstanding that he has not completed the period of four years from the date on which he began to draw the first increment

In future no officer holding the position of Superintendent of Works shall draw any local allowance as such which will have the effect of raising his salary above that of a Superintending Engineer, 3rd class

12 The rules of the Public Works Department Code which now regulate promotion, after passing a qualifying examination, to the 4th grade of the Executive Engineer class and to the 1st and 2nd grades of the Assistant Engineer class shall now be read as applying to promotion to the corresponding grades under the new organisation, namely, to the 1st, 2nd, and 3rd grades respectively of the Assistant Engineer class

13 In promulgating these rules, the Governor General in Council desires to call special attention to the previous orders directing that weight shall be given to merit rather than to mere seniority in selecting officers for promotion in the several grades

---

REVENUE AND AGRICULTURAL DEPARTMENT

Weather Review of India for the week ending at 8 a m on Saturday, September 23rd, 1893

The main features in the meteorology of the week have been connected with the history of two cyclonic storms The first storm had been in existence throughout the previous week, and on the last day of that week it was to the north west of Mount Abu and Deesa, and had been previously moving in a west north-westerly direction at the rate of 8 or 10 miles an hour From the beginning of the present week the storm commenced to recurve, and moved first in a northerly, and then in a north easterly direction While recurving, it moved very slowly, perhaps at the rate of 1 to 3 miles an hour, but when it had taken up its north easterly course, it again moved at nearly the rate of 10 miles an hour, and passed close to Sirsa and Ludhiana, and into the hills to the west of Simla, where it broke up between the 19th and 20th The storm gave strong winds and heavy rain in its neighbourhood almost throughout its existence, and behind it a moderate inrush of monsoon winds took place, so that during this period south west monsoon weather again prevailed generally over India

On the day the first storm broke up in the Himalayas—that is, on the 20th—another small storm developed in the north of the Bay of Bengal, and this steadily increased in intensity up till the close of the week, when it crossed the coast moving in a westerly or west north-westerly direction, and on the morning of the 23rd was a short distance to the south east of Cuttack This also was a rather severe storm, and by the indraught towards it the monsoon winds were prevented from reaching the greater part of India from the 20th to the 23rd, though the storm gave heavy rain in Orissa, Bengal, and Burma Thus

during the last three days of the week little rain fell over the greater part of India, except to the north and east of the storm

On the 16th September, or the last day of the previous week, the cyclonic storm which had travelled across India from the head of the Bay of Bengal was still moving in a west north westerly direction, though its rate of advance had become slower and at 8 A M of the 16th the centre of the small storm was to the north west of Deesa and Mount Abu, or to the south west of Bikanir It was a considerable storm, and still formed the dominant feature in the meteorology of India on this day On the 17th pressure was falling over the Punjab and locally at Bikanir and Hyderabad, while it was rising over Central and Western India and the remainder of Northern India, though a slight fall was in progress over the Bay of Bengal and at the adjacent coast stations The storm on this day was to the west south west or south west of Bikanir, and had moved only very slowly in a northerly direction since the previous day It can not have advanced more than about 80 miles in the 24 hours, or at the rate of 3 miles an hour on this day, instead of at the rate of 8 or 10 miles on the previous days This again is an instance of the fact that when a cyclonic storm recurves, its velocity of advance is much retarded The storm still formed the main feature in the meteorology of the 17th, and it was giving very heavy rain over the area affected by it, Mount Abu reporting 9 20 inches and Deesa 3 07 inches Mount Abu had thus received a rainfall in connection with this storm of 32 88 inches within three days On the 18th the storm was rather close to Bikanir, but the centre was still to the south or south west of that station, so that it had advanced in a northerly, or perhaps even a north north easterly, direction during the previous day, and at an even slower rate of speed than on the previous day—probably at only about a mile an hour Pressure had continued to fall moderately in the Punjab and over parts of Sind and Rajputana, while a slow fall had taken place over the remainder of India The storm was still influential, and pressure was in defect over North Western India by amounts ranging up probably to about a quarter of an inch at Bikanir while over the Peninsula and North Eastern India pressure was in moderate excess The storm was still giving heavy rain over the area affected by it, and Mount Abu had again received 9 20 inches, making the large total of 42 08 inches of rain within four days Fairly general rain was also being received over India owing to the monsoon currents brought up in the rear of the storm, except in parts of the Peninsula, the North Western and Central Provinces, and the west and south of the Punjab On the 19th the storm had moved rapidly in a north easterly direction, and its centre was between Ludhiana and Sirsa, so that it had advanced over at least 200 to 250 miles, or again at the rate of nearly 10 miles an hour, as contrasted with about one mile an hour on the previous day This again illustrates the fact that after a storm has finished recurving (during which process it moves very slowly), it again quickly increases in the rapidity of its advance The storm was still deep on the 19th, and the defect of pressure at Ludhiana and Sirsa equalled about a fifth of an inch, though the strength of the cyclonic circulation of winds accompanying the storm was not very great The storm had given moderate to heavy rain to all districts, except the south of the Peninsula and Bombay, many stations near the storm centre reporting two and three inches on the 19th The rainfall on this day had extended over the Punjab as far as Mooltan, which received 0 62 inch From the 19th to the 20th the storm continued its north easterly movement and broke up in the hills to the west of Simla, and on the morning of the 20th there was no indication of its existence A very rapid increase of pressure then occurred over North Western India, the increase at Ludhiana equalling 0 236 inch, and with this rapid increase pressure became in excess of the normal, except at the extreme western stations, over the south of the Peninsula, and over the Bay of Bengal The storm in breaking up had again given heavy rain over North Western India, and general rain was received in the Punjab, except at the extreme western stations Chakrata received 5 40 inches, Umballa and Mussoorie more than 3 inches, Dehra Dun, Sialkot, and Ranikhet more than 2 inches, Meerut, Roorkee, Ludhiana, Rawal Pindi, and Simla more than 1 inch, Delhi 0 85 inch, and Lahore 0 42 inch Thus this storm brought up a large amount of rainfall

in its actual track, and gave good general rain to the greater part of the Punjab, while the monsoon currents flowing in behind it gave also good general rain to the greater part of Northern and Central India.

On the 20th, or the day on which the storm in North Western India disappeared, a small barometric depression, or the commencement of another storm, made its appearance in the north of the Bay of Bengal, but it was on this day very feeble. On the 21st pressure was rising moderately to rapidly over North-Western India, while it was falling elsewhere, the fall being moderate in Bengal and at the head of the Bay, so that the barometric depression over the north of the Bay became more pronounced, and on this day it probably existed as a definite storm, though of slight importance, off the South Orissa Coast. On the 22nd a rapid fall of pressure had taken place in connection with the small storm, the fall at False Point equalling 0.103 inch, a small fall had also taken place over the Peninsula and Northern India, and a rather rapid increase in East Bengal and Burma. The small storm was very well defined on this day, and had a centre a short distance to the south east of False Point, where pressure was 0.105 inch in defect. It was also clear that the storm on this day was beginning to move in a westerly or west north westerly direction. This storm again formed the dominant feature in the meteorology of the 22nd, and it was giving moderate to heavy rain in Orissa, Bengal and Burma, and over parts of the Central Provinces, while from the indraught towards the storm, which drew away the monsoon winds towards the storm area, the remainder of India was almost rainless. On the 23rd, or the last day of the week under review the centre of the small storm had crossed the coast to the south of False Point, probably near Pooree, and had advanced to the south east of Cuttack, where the very low pressure of 29.186 inches was reported—a pressure no less than 0.508 inch below the normal. It was therefore a storm of very considerable intensity, and was giving a very strong cyclonic circulation of winds, and rather heavy weather was experienced in the Bay of Bengal. From the 22nd to the 23rd the movement of the storm was slow, probably not more than 2 or 3 miles an hour, and in a westerly or west north westerly direction. The strong cyclonic circulation of winds which accompanied the storm affected the wind circulation over practically the whole of India. On the 23rd heavy rain was reported in Orissa, Bengal, and Burma, and moderate rain in the eastern districts of the Central Provinces, while showers due to the disturbed weather caused by the storm were occurring in other districts.

Temperature.—The following table shows the variation of the mean temperature from the normal on each day of the week for the different Provinces of India. Temperature, it will be seen, has been in defect practically throughout the week in every district. The defect has been largest in the Punjab, where it has equalled 4°, and the mean defect for the whole of India for the week has been 1.8°.

Province	September 1893							Mean variation of week
	17th	18th	19th	20th	21st	22nd	23rd	
	°	°	°	°	°	°	°	°
Burma	+0.9	+0.2	−0.4	−1.6	−1.4	−1.3	−1.6	−0.7
Bengal and Assam	−1.2	−2.0	−1.9	−0.7	−0.7	−0.4	−[illegible]1	−1.3
North Western Provinces and Oudh	−1.2	−1.4	−2.9	−4.9	−3.3	−2.0	−1.8	−2.5
Punjab	−1.1	−2.8	−5.3	−6.9	−6.8	−3.7	−1.5	−4.0
Bombay	+0.4	−0.2	−0.3	−0.7	−0.5	−0.4	−0.8	−0.4
Central Provinces and Berar	−0.5	−0.7	−1.0	−1.9	−2.5	−2.1	−1.2	−1.4
Central India and Guzerat	−2.7	−2.4	−2.0	−2.4	−2.7	−1.8	−1.4	−2.2
Sind and Rajputana	−2.3	−1.8	−3.7	−3.4	−2.5	−1.9	−2.3	−2.6
Madras	−0.5	−0.5	−1.5	−0.9	−1.3	+0.1	−0.6	−0.7
Mean for whole of India	−0.9	−1.3	−2.1	−2.6	−2.4	−1.5	−1.5	−1.8

Rainfall.—The concluding table shows that rain has been received during the week in every division of India. The falls have been comparatively large in

all districts, except in Bombay, the Malabar Coast districts, Madras (except the north eastern sections) Berar, Khandeish, Guzerat, Kathiawar, and over parts of the North Western and Central Provinces and Oudh, where somewhat defective falls have been received The defects have been largest in the districts of Malabar, Madras (South Central), Madras (South), Coorg, Mysore, Bombay Deccan, Khandeish, Guzerat, and Kathiawar, where the actual falls have been less than half the usual amounts On the other hand, large excess falls, where the amounts have been twice as large as usual, have occurred during the week in North Behar, South Punjab, Central Punjab, Submontane Punjab, North West Punjab, West Punjab East Central Provinces, Rajputana, West Central India and Madras East Coast (North *a*), and over the whole of the Punjab the falls have varied from about three to ten or twenty times as large as usual In deed, the heaviest actual rainfall for the week has occurred in the Submontane districts of the Punjab, where an average of no less than 7 59 inches has fallen, against a normal fall of 0 70 inch The hill districts of the Punjab have also received a fall of 6 58 inches against the usual amount of 1 18 inches The Madras East Coast (North *a*) has also received the heavy fall of 7 30 inches, and Tenasserim has received an average fall of 0 31 inches The smallest falls have been received in the districts of Madras (South and South Central), Mysore, Kathiawar, and Sind, where the falls have been less than a quarter of an inch, and in Malabar, Bombay Deccan, Khandeish, and Madras (East Coast South), where the falls have been less than half an inch Of the 51 districts into which India has been divided the falls during the past week were in excess in 26 districts and in defect in 25, but the excess falls have decidedly more than counterbalanced the defective falls, and the fall for the week has been unusually heavy

The last column of the table gives the comparisons between the actual rainfall in the present year with the fall in normal years of the south west monsoon season from the 28th May up to the 23rd of September It will be seen again that out of the 51 rainfall divisions, the falls have been in excess of the normal in 35 districts and in defect in 15 districts, while the fall has been normal in one (Arakan) The divisions in which the falls have been rather largely defective up to date are Coorg, Mysore, and Kathiawar, while they have been moderately defective in Lower Burma, North West Provinces (Submontane *a*), Malabar, and Central Provinces (West) On the other hand, the falls up to date have been excessive in West Rajputana, North West Punjab, and Hyderabad (South)

The following statement shows the largest amounts of rain received at single stations in various districts during the week as reported in the rainfall telegrams

Division	District	Station	Amount.
Tenasserim	Amherst	Thaton	7 43 inches
Assam	Goalpara	Goalpara	7 59 "
North Bengal	Jalpaiguri	Bhagatpur	8 87 "
Orissa	Pooree	Pooree	7·40 "
Chota Nagpur	Hazaribagh	Hazaribagh	7 14 "
South Bihar	Monghyr	Monghyr	7 39 "
North Bihar	Champarun	Motihari	7 51 "
North Western Provinces (Submontane *b*)	Garhwal	Kotdwara	11 58 "
Punjab (South)	Ferozepore	Moga	9 20 "
Punjab (Submontane)	Ludhiana	Jagraon	11 69 "
Ditto	Jullundur	Jullundur	15 20 "
Ditto	Hoshiarpur	Dasuya	14 05 "
Ditto	Gurdaspur	Pathankot	15 36 "
Punjab (Hill Districts)	Kangra	Nurpur	14·32 "
Punjab (North West)	Sialkot	Daska	11 98 "
Konkan	Ratnagiri	Khed	8 17 "
Ditto	Colaba	Mavigaon	9 17 "

ALEX PEDLER,

SIMLA, *28th September, 1893*

Offg Meteorological Reporter to the Government of India

E C BUCK,

Secretary to the Government of India

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT.

Weekly Report on the state of the Season and Prospects of the Crops

Madras—*For week ending 23rd September*—Rainfall good in the Circars, and moderate, though partial, in the Deccan and Karnatic Generally little or no rain in the Central, Western, and Southern districts, though fair rain in some parts of Tanjore Sowings being retarded and standing crops suffering for want of rain in many districts Early crop harvest proceeding with fair outturn Fodder is sufficient, but pasture is growing scarce in many parts Prices almost stationary in the Circars and on the West Coast, but have risen generally elsewhere

Bombay—*For week ending 27th September*—Rain throughout the Presidency, but more is required, especially in the Deccan and Karnatak Standing crops withering for want of moisture and damaged by excessive rain or rats in parts of six districts Preparations for, and sowing of, late crops continue in nine districts Reaping of early crops progressing in three districts Prices steady, except in two districts Fodder sufficient Agricultural stock good

Bengal—*For week ending 23rd September*—There has been good general rain over the whole Province during the week Prospects of standing crops continue to be generally promising, except as previously reported, n the flooded parts of Eastern Bengal and Bihar In Durbhanga and Muzaffarpur the work of retransplantation is proceeding The autumn harvest is almost over Jute is being steeped and washed In many districts lands are being prepared for the early spring sowings which have begun in some districts Prices are steady, but in some of the Bihar districts a slight tendency to fall is reported Cattle are generally in good condition, and the fodder supply is sufficient, except in parts of East Bengal

North-Western Provinces and Oudh—*For week ending 27th September*—Rain has fallen in almost all reporting districts, the falls were heaviest in the Central and Submontane districts Prospects everywhere favourable Harvesting of the autumn crops is in progress, and the ground is being prepared for the spring sowings Supplies and fodder plentiful Prices falling

Punjab—*For week ending 27th September*—Rain has fallen in all districts except Sialkot Harvesting of autumn crops commenced in Umballa Ploughings for spring crops in progress Crops are generally reported to be in good condition, prospects average in some districts Crops suffering for want of rain in parts of Dera Ismail Khan Condition of cattle is generally good Fodder sufficient in all districts except Shahpur, where it is scarce Prices unsettled in one district, falling in three others, and stationary elsewhere

Central Provinces—*For week ending 27th September*—Weather alternately clear and cloudy with heavy falls of rain in the Chhattisgarh country Excessive rain in Sambalpur has checked the growth of the crops, and in Chanda *jowar* (*Sorghum vulgare*) has suffered from the same cause Sowing of winter crops begun in Nagpur Fodder plentiful

Burma—*For week ending 23rd September*—In Lower Burma the rainfall was sufficient Transplanting almost completed, replanting of areas damaged by floods in Hanthawaddy, Tharrawaddy and Thongwa progressing Early crops on hills in Toungoo being reaped Slight damage done to crops in parts of the Shwegyin district, but elsewhere standing crops are generally good In Upper Burma rain fell in all districts Sowing and transplanting of wet weather paddy continue Early paddy reaped in Kyaukse, and reaping in progress in three other districts Sesamum is being reaped and cotton is being picked Crops are generally good, and, owing to the fair rainfall, the crop prospects in Shwebo have slightly improved, but rain is still wanted in parts of that district and in Yeu for the plants in nurseries Slight damage has been done to crops in Myingyan and Kyaukse by floods and in Minbu by excessive rain In Lower Burma the price of paddy has risen slightly in three districts and fallen considerably in one, while in Upper Burma it has risen in four districts and fallen slightly in one

Assam—*For week ending 26th September*—Weather seasonable Crop prospects favourable Transplanting of late rice finished Fodder insufficient in the Surma Valley, but sufficient in the Assam Valley Condition of cattle normal

Mysore and Coorg—*For week ending 27th September*—MYSORE Standing crops withering except in Hassan and Shimoga and part of Chitaldrug Prices risen in all but two districts Prospects favourable, but rain is much needed

COORG Rainfall moderate Rice and coffee crops continue in good condition *Ragi* (*Eleusine coracana*) crop ripening Picking of cardamom continues Slight rise in prices Fodder and water for cattle ample

Berar and Hyderabad—*For week ending 27th September*—BERAR Rainfall good Weather cool and cloudy Standing crops in good condition Cotton in flower and pods in some places Land under preparation for next spring crops Weeding operations continue Fodder and water sufficient Cattle healthy Prices almost stationary

HYDERABAD Rainfall good Weeding of irrigated crops in progress Sowing of spring crops continues Prices stationary

Central India—*For week ending 27th September*—Rain general throughout Central India, more than sufficient in Baghelkhand Agricultural operations in progress in all parts Land is being prepared for spring sowings in Bundelkhand and Bhopawar Standing crops good in all parts, but damaged in Baghelkhand by rain and storms and in parts of Bhopawar, where *jowar* (*Sorghum vulgare*) has been damaged slightly by insects Prices of food grains falling in Gwalior, rising in Bhopal, fluctuating in parts of Bhopawar, and steady elsewhere

Rajputana —*For week ending 27th September* —Good rain in Marwar, slight elsewhere Agricultural operations, standing crops, and cattle generally satisfactory Crops damaged in parts by excessive rain Pasturage or fodder sufficient Prices falling in four States, fluctuating in one, and steady elsewhere

Kashmir —*For week ending 26th September* —Rainfall moderate Reaping of rice and maize crops in progress Prices stationary

Nepal —*For week ending 23rd September* —Slight showers Prospects good Prices stationary

STATISTICS

Simla, the 27th September, 1893

Read the following communications submitting the reports of Registrars of Joint Stock Companies on the working of the Indian Companies Act, VI of 1882, during the official year 1892 93

From the Government of Madras, No 1184, dated the 12th June 1893
From the Government of Bombay, No 5483, dated the 29th July 1893
From the Government of Bengal, No 2071 P dated the 1st July 1893
From the Government of the North Western Provinces and Oudh, No 496—VII—117 B, dated the 30th June 1893
From the Government of the Panjab, No 37, dated the 19th June 1893
From the Chief Commissioner, Central Provinces, No C—41, dated the 1st July 1893
From the Chief Commissioner, Burma, No 649—1 T 3, dated the 30th June 1893
From the Chief Commissioner Assam, No 860 Misc —4779 G, dated the 9th May 1893
From the Chief Commissioner, Ajmere Merwara No 648—817, dated the 21st June 1893
From the Chief Commissioner, Coorg, No 1131—85 86 dated the 24th July 1893
From the Secretary for Berar to the Resident at Hyderabad, No 178, dated the 26th June 1893
From the Resident in Mysore, No 2314—53 85 and No 2870—53 85 dated respectively the 8th July and the 22nd August 1893

RESOLUTION —At the close of 1891 92 there were 950 joint stock companies in existence registered under the Indian Companies Act They possessed a total nominal capital of Rx 36,023,-38, the actual (paid up) capital being Rx 26,585,481 The capital of 89 of these companies was increased in 1892 93 nominally by about Rx 207,698, and actually by about Rx 492,388, while 69, with a paid up capital of about Rx 820,444, ceased to work

During 1892 93 the number of companies registered was 71, their nominal capital being Rx 1,134,437, the paid up capital cannot be completely stated, the amount not having been as yet reported in several cases

At the close of 1892 93 there existed 956 companies whose nominal capital was Rx 35 372,842, the actual capital, so far as reported, being Rx 26,793,186 This gives an increase in the year in the paid up capital of Rx 207,705, or 78 per cent The table in the next paragraph shews that the greatest part of this increase, namely, Rx 180,890, occurred in Bengal Small increases occurred in all the other Provinces, with the exception of Bombay, where there was a decrease of Rx 114,698

2 The following table shews the number of companies and the amount of paid up capital in each of the provinces in the last two years

PROVINCE	Number of Companies		Paid up capital		Increase or decrease per cent in capital in 1892-93.	Provincial proportion of paid-up capital to all paid up capital in 1892-93.
	1891-92	1892-93	1891-92	1892-93.

3 Of the whole invested capital Bengal has 44½ per cent and Bombay about 40 per cent In Madras the number of companies is large, but the capital invested is not more than about one sixth of the capital invested in either Bengal or Bombay Two thirds of these Madras companies are money lending concerns, each trading on a very small capital

4 The following table shews the distribution of the aggregate capital in the principal classes of joint stock enterprise

Companies		Number	Nominal capital	Paid up capital
			Rx	Rx
Banking Loan and Insurance	Banking and loan	256	5 762 787	3 749 863
	Insurance	8	469 500	79 306
	Total	264	6 232 287	3 829 169

	Total	157	4 483 908	3 770 865
Mining and quarrying		54	2 578 250	1 661 160
Ice manufacture		12	235 050	186 387
Sugar manufacture		3	227 500	162,204
Breweries		3	170 000	169 540
Others		37	1 141 600	903 399
	Grand Total	956	35 372 842	26 793 186

Nearly 46 per cent of the paid up capital is invested in mills and presses chiefly for working or pressing cotton, jute, wool, and silk The greater number of these are registered in Bombay, that Presidency representing under this head a paid up capital of Rx 8,289,710, or over two thirds of the whole, most of it invested in cotton mills and presses Rx 2,332,205 represent the paid up capital invested in mills and presses registered in Bengal, a large number of them being jute mills and presses

The paid up capital invested in banking or loan companies amounts to Rx 3,829,169, of which Rx 2,368,482 are in companies registered in Bengal and Rx 793,322 in Madras

Trading companies have a paid up capital of Rx 3,825,458, of which Rx 873 940 are invested in coasting and river steamer companies, and about Rx 979,582 in railways and tramways The bulk of the railway and tramway capital is invested in the Bombay tramways (Rx 309,800), the Darjeeling-Himalayan Railway (Rx 175,000), the Tarkessar Railway (Rx 175,000), the Nilgiri Railway (Rx 182,500), the Rangoon Steam Tramway (Rx 60,000), and the Deoghur Railway (Rx 27,500)

In tea, coffee, and other plantations Rx 3,770,865 of paid-up capital are invested, of which Rx 3,597,675 are held in Bengal, most of the tea companies being registered in Calcutta

Of the Rx 1,661,160 invested in mining and quarrying companies, Rx 1,422,122 are in companies registered in Bengal, Rx 611,070 being invested in coal mining companies, and about Rx 680,000 in gold mining companies

5 The figures below compare the paid up capital of each of the last two years under each of the principal groups

	PAID UP IN—	
	1891 92	1892 93
	Rx	Rx
Banking and loan	3,733,293	3,749,863
Merchants and traders	1,839,937	1,863,652
Mills for cotton, jute, wool silk, and hemp	10,281,999	10,363,463
Cotton and jute presses	1,334,697	1,374,081
Tea	3,648,834	3,636,898
Mining and quarrying	1,615,895	1,661,160
Navigation	891,165	873,940
Railways and tramways	958,958	979,582

The capital invested in mills (mainly cotton mills) increased by less than one per cent, and in railways and tramways by 2 15 per cent In mining and quarrying the increase was 2 8 per cent In tea there was a fractional decrease Under other heads there was no material increase of capital, and in some there was a decrease On the whole the year shews hardly any expansion of joint stock enterprise

6 The following table shows the number of companies under each category during the last five years

C AN S		1888-89	1889 90	1890 91	189 -92	1892-93

Ice manufacture		13	13	12	12	12
Sugar manufacture		1	1	2	2	3
Breweries		3	3	3	3	3 •
Others		14	20	24	32	37
	GRAND TOTAL	895	886	928	950	956

The classification in the foregoing table of "cotton mills," "jute mills," and "mills for working cotton, jute, wool, silk, hemp, etc," is taken from the Articles of Association, but of the mills in the last of these three groups, the largest number are cotton mills

7 The following table shews, so far as reported, the total number of joint stock companies at work in India with their nominal and paid up capital at the end of each of the last ten years

Years	Companies at work	Nominal capital	Paid up capital	Increase or decrease of paid up capital
		Rs	Rs	Rs
1883 84	649	26 673 438	18 750 611	+1 734 707 = 10 %
1884 85	696	27 887 691	20 635 844	+1 885 233 = 10
1885 86	805	28 543 437	21 002 568	+ 366 724 = 2
1886 87	888	29 136 165	21 380 442	+ 377 874 = 2
1887 88	910	30 254 284	22 326 192	+ 945 750 = 4
1888 89	895	31 339 845	22 997 508	+ 671 316 = 3
1889 90	886	32 321 731	23 684 02	+ 686 694 = 3
1890 91	928	35 058 776	24 458 445	+ 774 243 = 3
1891 92	950	36 023 238	26 585 481	+2 127 036 = 9
1892 93	956	35 372 842	26 793 186	+ 207 705 = 0 78

8 The statistics of companies limited by guarantee, so far as they go, shew that there were 25 such companies at the close of 1891 92, 3 ceased to work in 1892 93, and 4 new companies being added, there were 26 such companies at the close of the year

9 The fees realized and the expenditure in each province last year were—

Province	Fees			Expenditure

জ্বরঘ্ন সিনকোনার মূল্য কম করণ।

১৮৯১ সনের এপ্রেল মাসের ১লা তারিখ অবধি যাবৎ অন্য আজ্ঞা না হয় তাবৎ কলিকাতার বোটানিকেল গার্ডেনের অর্থাৎ কোম্পানির বাগানের সুপারিন্টেণ্ডেন্টের নিকট গবর্ণমেণ্টের কর্ম্মচারিগণ এবং অপর কোন ব্যক্তি এক কালীন দশ পৌণ্ড ক্রয় করিলে নিম্নলিখিত হিসাবে জ্বরঘ্ন সিন্‌কোনা পাইবেন অর্থাৎ চারি ঔন্স টিন্ ২৷ টাকায় আট ঔন্স টিন ৫ টাকায় ও এক পৌণ্ড টিন ১০ টাকায় পাইবেন। সর্ব্ব সাধারণে কোম্পানির বাগানের সুপারিন্টেণ্ডেন্টের নিকট নগদ মূল্য দিলে এই এই হিসাবে অর্থাৎ চারি ঔন্স টিন ৩ টাকায় আট ঔন্স টিন ৬ টাকায় এবং এক পৌণ্ড টিন ১২ টাকায় পাইতে পারিবেন। কলিকাতার প্রধান প্রধান ইউরোপীয় ও দেশীয় ঔষধ বিক্রেতাগণও এই ঔষধ বিক্রয় করিয়া থাকেন। উপরোক্ত হার ছাড়া চারি ঔন্স টিনের। আট ঔন্স টিনের। ও এক পৌণ্ড টিনের ৸ ডাক মাশুল দিতে হইবে।

PURE SULPHATE OF QUININE

Manufactured at the Bengal Government Cinchona Plantation

The price of this Quinine is as follows —

1 Pound tin	R16,	or, post free,	R16 12
½ „	R 8,	„	R 8-8
¼ „	R 4,	„	R 4-8

Analysis shows this Quinine to be of the purest manufacture, and it is guaranteed to be free from wilful mixture with the inferior alkaloids Cinchonine and Cinchonidine It is for sale only to Government officers, and only for cash and may be had from the Superintendent, Botanic Garden Seebpore near Calcutta It can be had either white or coloured pink

বঙ্গদেশের গবর্ণমেণ্টের সিন্‌কোনা আবাদে প্রস্তুত বিশুদ্ধ কুইনাইন।

এই কুইনাইনের নিম্নলিখিত মূল্য যথা—

১ এক পৌণ্ড টিন	১৬৲ বা ডাকমাশুল বিনা	১৬৸
।আধ	৮৲ বা ডাকমাশুল বিনা	৮।
সিকি	৪৲ বা ডাকমাশুল বিনা	৪।

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধরূপে প্রস্তুত করা হইয়াছে। এবং ইহা যে সিন্‌কোনাইন ও সিন্‌কোনাডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছা পূর্ব্বক মিশান হয় নাই তাহার গ্যারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারিগণের নিকট বিক্রয় করা যাইবে এবং কলিকাতার নিকট শিবপুরের কোম্পানির বাগানের সুপারিণ্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারিবে। ইহা সাদা বা পাটল বর্ণের পাওয়া যাইতে পারি

REVENUE DEPARTMENT

[*Revised Advertisement*]

A Dictionary of the Economic Products of India

By DR GEO WATT CIE

Reporter on Economic Products

Published under the authority of the Government of India in the Revenue and Agricultural Department

The first five volumes and Volume VI, Parts I, II, and III, of the Dictionary are now ready at the Office of Superintendent of Government Printing No 8 Hastings Street Calcutta, and will be supplied to non subscribers on receipt of the price for the complete set which is R45 in India and 3 guineas in England (exclusive of the Index for which a separate charge will be made) packing and postage in India 8 annas per volume for England, 2 rupees 6 annas per volume For copies bound in half calf or half morocco, R6 and 8 shillings respectively will be charged extra for the whole set

The Dictionary is intended to deal with the products of India—animal vegetable and mineral each product being treated after a uniform plan the paragraphs of which give the scientific vernacular and European names habitat or source history properties and uses (both chemical and industrial) trade statistics markets etc The work is arranged alphabetically according to scientific nomenclature but commercial and important vernacular names are also given as cross references so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks and with a reference to the original publication Numerous contributors have however furnished the results of new discoveries and confirmed the vernacular names so that the Dictionary is not only a complete compilation of published information but has been brought abreast of the most recent inventions and discoveries

Volume I contains the letters A and B and consists of 559 royal octavo pages Volume II embraces the letter C in 689 pages Volume III contains the letters D E F and half of G Volume IV latter half of G to middle of L and Volume V contains the latter half of L to end of O Vol VI (which will consist of four parts) Part I contains letters P to R The whole work will it is expected be completed in nine volumes (including Parts II to IV of Vol VI) during the current year but a tenth volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary The Index will practically be a glossary of the vernacular and European names of the plants animals and minerals of India and as such will be a work of reference which it is hoped may prove of considerable value

Manual of the Land Revenue systems of India By B H BADEN POWELL Revised Edition in 3 Volumes —Royal 8 vo cloth

Vol I —General and Bengal

Vol II —The system of Village or Mahal Settlements

Vol III —The Raiyatwari and allied systems
